MUNICIPAL MORTGAGE & EQUITY, LLC
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 - BASIS OF PRESENTATION

Municipal Mortgage & Equity, LLC ("MuniMae") and its subsidiaries (together with MuniMae, the "Company") are principally engaged in originating, investing in and servicing investments related to multifamily housing and other real estate financings. A significant portion of the Company's investments are tax-exempt bonds, or interests in bonds, issued by state and local governments or their agencies or authorities to finance multifamily housing developments. Interest income from the majority of these investments is exempt for federal income tax purposes. Multifamily housing developments, as well as the rents paid by the tenants, secure these investments. Midland Financial Holdings, Inc. ("Midland"), a wholly owned corporate subsidiary, is a fully integrated real estate investment firm that specializes in originating, investing in and servicing investments in the affordable multifamily housing industry. These investments generate taxable, not tax-exempt, income.

The assets of MuniMae TE Bond Subsidiary, LLC and its subsidiaries (collectively, "TE Bond Sub"), are solely those of TE Bond Sub and are not available to creditors of MuniMae. Because MuniMae indirectly owns all of the common equity interests of TE Bond Sub, TE Bond Sub's assets are consolidated on MuniMae's financial statements. The equity interest in TE Bond Sub held by MuniMae is subject to the claims of creditors of the Company and in certain circumstances could be foreclosed upon.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and in the opinion of management contain all adjustments (consisting of only normal recurring accruals) necessary to present a fair statement of the results for the periods presented. These results have been determined on the basis of accounting principles and policies discussed in Note 1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2001 (the "Company's 2001 Form 10-K"). Certain information and footnote disclosures normally included in financial statements presented in accordance with generally accepted accounting principles have been condensed or omitted. The accompanying financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's 2001 Form 10-K. Certain 2001 amounts have been reclassified to conform to the 2002 presentation.

New Accounting Pronouncements

In June 2001, the Financial Accounting Standards Board approved Statements of Financial Accounting Standards No. 141 "Business Combinations" ("FAS 141") and No. 142 "Goodwill and Other Intangible Assets," ("FAS 142") which are effective July 1, 2001 and January 1, 2002, respectively, for the Company. FAS 141 requires that the purchase method of accounting be used for all business combinations consummated after June 30, 2001. FAS 141 did not have an impact on the Company for the year ended December 31, 2001. The Company adopted FAS 142 on

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

January 1, 2002. Upon adoption of FAS 142, amortization of goodwill, including goodwill recorded in past business combinations, was discontinued. For the year ended December 31, 2001, the Company recorded amortization expense of \$1.6 million. Application of the nonamortization provision is expected to result in additional net income of \$1.6 million for the year ended December 31, 2002. All goodwill will be tested for impairment in accordance with the provisions of the FAS 142 prior to June 30, 2002.

FAS 142 requires that goodwill be tested for impairment using a two-step process. Step one is to identify potential impairment. MuniMae will complete this step in the first half of 2002. Step two measures the amount of any identified impairment loss. This step will be completed by the end of 2002.

The Company's goodwill at March 31, 2002 and December 31, 2001, represents the excess of cost over market value of the net assets acquired from the acquisition of businesses in the Company's operating segment. For the three months ended March 31, 2002, there was no change in the carrying value of the Company's goodwill. The following table shows the effect of the goodwill amortization on net income and earnings per share for the periods presented:

	Three Months Ended March 31, 2002	Three Months Ended March 31, 2001

NOTE 2 - INVESTMENTS IN TAX-EXEMPT BONDS

The Company holds a portfolio of tax-exempt bonds and certificates of participation in grantor trusts holding tax-exempt bonds ("COPs"). The tax-exempt bonds are issued by state and local government authorities to finance multifamily housing developments or other real estate financings. The bonds are typically secured by non-recourse mortgage loans on the underlying properties. The COPs represent a pro rata interest in a trust that holds a tax-exempt bond. The Company's rights and the specific terms of the bonds and COPs are defined by the various loan and trust documents, which were negotiated at the time of settlement. See further discussion of the general mortgage loan terms in Note 4

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

to the Company's 2001 Form 10-K.

During the first quarter, the Company funded \$806,000 in tax-exempt bonds collateralized by five multifamily apartment communities. Of this amount, \$153,000 was an initial funding of six bonds; the approximately \$16.8 million balance of the bonds is expected to be funded by the Company in the second and third quarters of 2002. These six investments were non-participating bonds and have a weighted average interest rate of 7.22%. The bonds' maturities range from July 2034 to July 2044. All six investments relate to to-be-built communities. The remaining investment of \$653,000 was an investment in a subordinate non-participating bond collateralized by the properties known as Oakmont and Towne Oaks. This investment has an interest rate of 7.2% and a maturity of January 2034. The Company recognized an other-than-temporary impairment of \$110,000 on this investment as a result of the interest rate on this investment being below market.

From time to time, the Company may purchase or sell in the open market interests in bonds that it has securitized depending on the Company's capital position and needs. During the first quarter, the Company repurchased all the P-FLOATssm outstanding in the Sonterra (\$10.1 million face amount), Rancho Mirage (\$12.8 million face amount), Gannon-Dade (\$29.0 million face amount) and Riverset II (\$7.5 million face amount) securitization trusts.

In order to facilitate the securitization (see Note 3) of certain assets at higher leverage ratios than otherwise available to the Company without the posting of additional collateral, the Company has pledged additional bonds to a pool that acts as collateral for senior interests in certain securitization trusts. At March 31, 2002 and December 31, 2001, the total carrying amount of the tax-exempt bonds pledged as collateral was \$424.2 million and \$358.4 million, respectively.

The table below provides certain information with respect to the bonds held by the Company at March 31, 2002 and December 31, 2001.

NOTE 3 - SECURITIZATION TRANSACTIONS

Through securitizations, the Company seeks to enhance its overall return on its investments and to generate proceeds that, along with equity offering proceeds, facilitate the acquisition of additional investments. The Company uses

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

various programs to facilitate the securitization and credit enhancement of its bond investments. See further discussion of the Company's various credit enhancement and securitization investment vehicles in Note 5 to the Company's 2001 Form 10-K.

In order to facilitate the securitization of certain assets at higher leverage ratios than otherwise available to the Company without the posting of additional collateral, the Company has pledged additional bonds and taxable loans to a pool that acts as collateral for senior interests in certain securitization trusts and credit enhancement facilities. At March 31, 2002 and December 31, 2001, the total carrying amount of the bonds and taxable loans pledged as collateral was \$428.0 million and \$361.8 million, respectively.

In the first quarter, the Company securitized one bond with a face amount of \$3.9 million through the Merrill Lynch Puttable Floating Option Tax-Exempt Receipts ("P-FLOATssm") program. This transaction was accounted for as a borrowing. Accordingly, the Company recorded \$3.9 million as short-term debt and the related bond (Parkwood) remained in investments in mortgage revenue bonds.

In the first quarter, the Company sold its investment in the Indian Lakes Residual Interest Tax-Exempt Securities Receipts ("RITESsm") for \$4.2 million. The Company recognized a \$1.0 million gain on this transaction. The Indian Lakes bond was subsequently deposited into a new P-FLOATssm trust by the purchaser and the Company purchased a \$5,000 RITESsm interest in the new trust for \$1.1 million.

NOTE 4 - OTHER BOND-RELATED INVESTMENTS

At March 31, 2002 and December 31, 2001, the Company's other bond-related investments are investments in RITESsm, a security offered by Merrill Lynch through its P-FLOATssm Program. A detailed listing of the other bond-related investments owned by the Company at March 31, 2002 and December 31, 2001 appears in a table at the end of this note.

RITESsm Valuation Analysis

The fair value of a RITESsm investment is derived from the quote on the underlying bond reduced by the outstanding corresponding P-FLOATssm face amount. The Company bases the fair value of the underlying bond, which has a limited market, on quotes from external sources, such as brokers, for these or similar bonds. The RITESsm investments are not subject to prepayment risk as the term of the securitization trusts is only for a period during which the underlying bond cannot be prepaid. Based on historical information, credit losses were estimated to be zero.

At March 31, 2002 and December 31, 2001, a 10% and 20% adverse change in key assumptions used to estimate the fair value of the Company's RITESsm would have the following impact:

(In thousands)	March 31, 2002 -----	December 31, 2001 -----
Fair value of retained interests	\$3,390	\$5,316
Residual cash flows discount rate (annual rate)	5.5% - 10.5%	4.5% - 12.9%
Impact on fair value of 10% adverse change	(\$18,124)	(\$22,821)
Impact on fair value of 20% adverse change	(\$34,760)	(\$43,783)

The sensitivity analysis presented above is hypothetical in nature and presented for information purposes only. The analysis shows the effect on fair

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

value of a variation in one assumption and is calculated without considering the effect of changes in any other assumption. In reality, changes in one assumption may affect the others, which may magnify or offset the sensitivities.

NOTE 5 - INVESTMENT IN DERIVATIVE FINANCIAL INSTRUMENTS

At March 31, 2002 and December 31, 2001, the Company's investments in derivative financial instruments consisted of interest rate swaps and put option contracts. See further discussion of the Company's investment in derivatives in Note 7 to the Company's 2001 Form 10-K. The following table provides certain information with respect to the derivative financial instruments held by the Company at March 31, 2002 and December 31, 2001:

- (1) The Company enters into interest rate swap contracts to offset against interest rate exposure on the Company's investment in RITES. The amounts disclosed represent the net fair values of all the Company's swaps at the reporting date.
- (2) The aggregate negative fair value of the investments is included in liabilities for financial reporting purposes. The negative fair value of these investments is considered temporary and is not indicative of the future earnings on these investments.
- (3) For the interest rate agreement, notional amount represents total amount of the Company's interest rate swaps contracts less the total amount of the Company's reverse interest rate swap contracts. For put option agreements, the notional amount represents the Company's aggregate obligation under the put option agreements.

NOTE 6 - LOANS RECEIVABLE

The Company's loans receivable primarily consist of construction loans, permanent loans, taxable loans and other loans. The general terms of the loans owned by the Company are discussed in Note 8 to the Company's 2001 Form 10-K. The following table summarizes loans receivable by loan type at March 31, 2002 and December 31, 2001.

NOTE 7 - NOTES PAYABLE AND DEBT

The Company's notes payable primarily consist of notes payable and advances under line of credit arrangements. The notes payable are borrowings by Midland used to finance construction lending and working capital needs. The general terms of the Company's notes payable are discussed in Note 11 to the Company's 2001 Form 10-K. The following table summarizes notes payable at March 31, 2002 and December 31, 2001:

NOTE 8 - PREFERRED SHAREHOLDERS' EQUITY IN A SUBSIDIARY COMPANY

The Company's preferred shareholders' equity in a subsidiary represents four classes of preferred shares issued by TE Bond Sub, Series A, A-1, B and B-1 Preferred Shares (collectively, the "TE Bond Preferred Shares"). The income allocable to the TE Bond Preferred Shares is senior to the Company's ownership interest in TE Bond Sub. Therefore, only income from TE Bond Sub available after payment of the cumulative distributions of the TE Bond Preferred Shares is allocated to the Company. The following table provides a summary of certain terms of the TE Bond Preferred Shares.

The assets of TE Bond Sub and its subsidiaries, while indirectly controlled by MuniMae and thus included in the consolidated financial statements of the Company, are legally owned by TE Bond Sub and are not available to the creditors of the Company. The assets owned by TE Bond Sub and its subsidiaries are identified in footnotes to the Investment in Tax-exempt Bonds table in Note 2 and in footnotes to the Other Bond-Related Investments table in Note 4. The fair value of such assets aggregated \$520.8 million and \$501.4 million at March 31, 2002 and December 31, 2001, respectively. The equity interest in TE Bond Sub held by MuniMae is subject to the claims of creditors of MuniMae and in certain circumstances could be foreclosed upon.

NOTE 9 - COMMON SHARE OFFERING

On February 8, 2002, the Company sold to the public 3.0 million common shares at a price of \$24.70 per share and granted the underwriters an option to purchase up to an aggregate of 450,000 common shares to cover over-allotments at the same price. Net proceeds on the 3.0 million shares approximated \$70.5 million. On February 15, 2002, the underwriters exercised their option to purchase 300,000 additional common shares generating net proceeds of approximately \$7.1 million. The net proceeds from this offering will be used for general corporate purposes, including new investments and working capital.

NOTE 11 - DISTRIBUTIONS

On April 18, 2002, the Board of Directors declared a distribution of \$0.4350 for the three months ended March 31, 2002 to common shareholders of record on April 29, 2002. The payment date was May 10, 2002.

Preferred Share Redemption

In accordance with the Company's Operating Agreement, the preferred shares and the preferred CD shares must be partially redeemed when any bond attributable to the shares is sold or repaid or, beginning in the year 2000, when any bond attributable to the shares reaches par value based on receipt of an appraisal securing the bond. The Company must redeem the preferred shares and preferred CD shares within six months of the occurrence of a redemption event.

In addition to the bonds that reached par value in December 2000, the remaining bonds attributable to the shares were either paid off, sold and/or reached par value during the last four months of 2001 and in January 2002. As a result, in March 2002, the Company redeemed the remaining Series I and Series II preferred shares and preferred CD shares at an aggregate cost of approximately \$19.3 million. The Operating Agreement also requires that the term growth shares be redeemed after the last preferred share is redeemed. As a result, the term growth shares were redeemed in 2002 and the final distribution of \$153,000 is included in distributions payable as of March 31, 2002.

NOTE 12 - BUSINESS SEGMENT REPORTING

The Company has two reportable business segments: (1) an operating segment consisting of Midland and other subsidiaries that primarily generate taxable fee income by providing loan servicing, loan origination and other related services and (2) an investing segment consisting primarily of subsidiaries holding investments producing tax-exempt interest income. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. A complete description of the Company's reporting segments is described in Note 21 to the Company's 2001 Form 10-K.

The following table reflects the results of the Company's segments for the three months ended March 31, 2002 and 2001.

Item 2. Management's Discussion and Analysis of Financial Condition and

Results of Operations

General Business

The Company is principally engaged in originating, investing in and servicing investments related to multifamily housing and other real estate financings.

Results of Operations

Quarterly Results Analysis

Total income for the first quarter of 2002 increased \$2.9 million over the same period last year due primarily to: (1) an increase of \$3.6 million in interest income on bonds and other bond related investments, as well as an increase in interest earned on loans; (2) a \$0.5 million decrease in interest on short-term investments resulting from the use of equity offering proceeds to repurchase senior interests in current securitization trusts and funding of other operations, as well as a decrease in interest collected on margin call accounts; (3) a decrease in other income of \$3.1 million primarily due to other income associated with the assumption of a bond purchase obligation in the first quarter of 2001; (4) a \$2.0 million increase in gain on sales associated with a \$1.2 million gain on the sale of taxable loans and a \$1.0 million sale of an investment in RITES; and (5) an increase in loan origination, brokerage and syndication fees of \$0.6 million due primarily to an increase in fees associated with tax credit and conventional equity transactions.

Total expenses for the first quarter of 2002 decreased \$1.9 million over the same period last year due primarily to: (1) an increase of \$0.4 million in salary and related benefits expense associated with 2001 new hires; (2) an increase of \$0.7 million in other operating expenses driven primarily by deployment of accounting information systems and other upgrades in technology infrastructure, as well as commissions earned on increased syndication production, which was partially offset by a decrease of \$0.5 million in professional fees; (3) an increase of \$1.1 million in interest expense primarily associated with increased construction lending production and an increase in financing costs associated with securitizations accounted for as borrowings; (4) a decrease of \$0.4 million in amortization expense due to changes in accounting guidelines relating to amortization of goodwill; and (5) a \$3.1 million charge recorded on two investments in the first quarter of 2001.

Income tax expense increased \$1.0 million for the first quarter of 2002 over the same period last year due to an increase in taxable income earned at the Company's subsidiaries organized as corporations of \$1.4 million. There was no change in the Company's effective tax rate for the periods presented.

Critical Accounting Policies

Since December 31, 2001 there has been no material change to the Company's critical accounting policies, except as noted below.

New Accounting Pronouncement

In June 2001, the Financial Accounting Standards Board approved Statements of Financial Accounting Standards No. 141 "Business Combinations" ("FAS 141") and No. 142 "Goodwill and Other Intangible Assets," ("FAS 142") which are effective July 1, 2001 and January 1, 2002, respectively, for the Company. FAS 141 requires that the purchase method of accounting be used for all business combinations consummated after June 30, 2001. FAS 141 did not have an impact on

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

the Company for the year ended December 31, 2001. The Company adopted FAS 142 on January 1, 2002. Upon adoption of FAS 142, amortization of goodwill, including goodwill recorded in past business combinations, was discontinued. For the year ended December 31, 2001, the Company recorded amortization expense of \$1.6 million. All goodwill and intangible assets will be tested for impairment in accordance with the provisions of the FAS 142 prior to June 30, 2002.

Liquidity and Capital Resources

The Company's primary objective is to maximize shareholder value through increases in Cash Available for Distribution ("CAD") per common share and appreciation in the value of its common shares. The Company seeks to achieve its growth objectives by growing its investing and operating business segments. The Company grows its investment segment by acquiring, servicing and managing diversified portfolios of mortgage bonds and other bond related investments. Growth in the operating segment is derived from increasing levels of fees generated by affordable housing equity syndications, loan servicing and origination and brokerage services. The Company's business plan includes structuring \$1.4 billion to \$1.6 billion in investment transactions in 2002. The Company expects to finance its acquisitions through a financing strategy that (1) takes advantage of attractive financing available in the tax-exempt securities markets, (2) minimizes exposure to fluctuations of interest rates, and (3) maintains adequate flexibility to manage the Company's short-term cash needs. To date, the Company has primarily used two sources, securitizations and equity offerings, to finance its acquisitions. Through Midland's management of capital for others, including Fannie Mae, the Company has expanded its access to capital.

For the three months ended March 31, 2002, the Company structured \$30.4 million in tax-exempt bond transactions. Of this amount, \$0.8 million represented investments retained by the Company. In addition, MuniMae originated \$153.1 million of construction loans and taxable permanent loans and equity investments totaling \$30.0 million.

Common Share Offerings

On February 8, 2002, the Company sold to the public 3.0 million common shares at a price of \$24.70 per share and granted the underwriters an option to purchase up to an aggregate of 450,000 common shares to cover over-allotments at the same price. Net proceeds on the 3.0 million shares approximated \$70.5 million. On February 15, 2002, the underwriters exercised their option to purchase 300,000 additional common shares generating net proceeds of approximately \$7.1 million. The net proceeds from this offering will be used for general corporate purposes, including new investments and working capital.

Securitizations

Through securitizations, the Company seeks to enhance its overall return on its investments and to generate proceeds that, along with equity offering proceeds, facilitate the acquisition of additional investments. The Company uses various programs to facilitate the securitization and credit enhancement of its bond investments.

Through the use of securitizations, the Company expects to employ leverage and maintain overall leverage ratios in the 50% to 65% range, with certain assets at significantly higher ratios, up to approximately 99%, while not leveraging other assets at all. The Company calculates leverage by dividing on-balance sheet debt plus the total amount of third party owned senior interests in its investments, which it considers the equivalent of off-balance sheet financing, by the sum of total assets owned by the Company plus senior interests owned by others adjusted for reserves equal to the net assets of the operating segment. Under this method, the Company's leverage ratio was

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

approximately 50% and 53% at March 31, 2002 and December 31, 2001, respectively.

In order to facilitate the securitization of certain assets at higher leverage ratios than otherwise available to the Company without the posting of additional collateral, the Company has pledged additional bonds to a pool that acts as collateral for senior interests in certain securitization trusts and credit enhancement facilities. At March 31, 2002 and December 31, 2001, the total carrying amount of the tax-exempt bonds and taxable loans pledged as collateral was \$428.0 million and \$361.8 million, respectively.

The Company's 2001 Form 10-K contains a complete description of the Company's various credit enhancement and securitization investment vehicles. Since December 31, 2001 there has been no material change to the information relating to these vehicles included in the Company's 2001 Form 10-K.

Factors That Could Affect Future Results

The Company's 2001 Form 10-K contains a complete description of the Company's related party transactions. Since December 31, 2001 there has been no material change to the information related to factors that could affect future results included in the Company's 2001 Form 10-K.

Cash Flow

At March 31, 2002 the Company had cash and cash equivalents of approximately \$75.8 million.

Cash flow from operating activities was \$7.9 million and \$8.6 million for the three months ended March 31, 2002 and 2001, respectively. The decrease in cash flow for 2002 versus 2001 is due primarily to an decrease in accounts payable and accrued expenses due to timing of payments.

The Company uses CAD as the primary measure of its ability to pay distributions. CAD differs from net income because of slight variations between generally accepted accounting principles ("GAAP") income and actual cash received. There are three primary differences between CAD and GAAP income. The first is the treatment of loan origination fees, which for CAD purposes are recognized as income when received but for GAAP purposes are amortized into income over the life of the associated investment. The second difference is the non-cash gain and loss recognized for GAAP associated with valuations, sales of investments and capitalization of mortgage servicing rights net of deferred taxes, which are not included in the calculation of CAD. The third difference is the treatment of certain intangibles, which are amortized into expense for GAAP, but not included in the calculation of CAD.

Until the redemption of the Company's preferred shares in 2002, the Company was required to distribute to the holders of its preferred shares the cash flow attributable to such shares (as defined in the Company's Amended and Restated Certificate of Formation and Operating Agreement). The Company was also required to distribute 2.0% of the Company's net cash flow to the holders of term growth shares until they were redeemed in March 2002. The balance of the Company's net cash flow is available for distribution to the common shares and the Company's current policy is to distribute to common shareholders at least 80% of the annual CAD to common shares. For the three months ended March 31, 2002 and 2001, cash available for distribution to common shares was \$11.8 million and \$9.9 million, respectively. The Company's distribution per common share for the three months ended March 31, 2002 of \$0.4350 represents a payout ratio of 92.8% of CAD. The Company's common share distribution for the three months ended March 31, 2001 of \$0.4250 represents a payout ratio of 91.9% of CAD.

Regular cash distributions to shareholders, for the three months ended March 31, 2002 and 2001, were \$11.1 million and \$9.6 million, respectively.

Income Tax Considerations

MuniMae is organized as a limited liability company. This structure allows MuniMae to combine the limited liability, governance and management characteristics of a corporation with the pass-through income features of a partnership. MuniMae does not pay tax at the corporate level. Instead, the distributive share of MuniMae's income, deductions and credits is included in each shareholder's income tax return. In addition, the tax-exempt income derived from certain investments remains tax-exempt when it is passed through to the shareholders. The Company records cash dividends received from subsidiaries organized as corporations as dividend income for tax purposes. Approximately 100%, 93% and 83% of MuniMae's tax basis net income for the years ended December 31, 2001, 2000 and 1999, respectively, was tax-exempt for federal income tax purposes.

As a result of the Midland acquisition, in October 1999, the Company restructured its operations into two segments: an operating segment and an investing segment as discussed above. The operating segment consists primarily of entities subject to income taxes. The Company provides for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("FAS 109"). FAS 109 requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax basis of assets and liabilities.

The Company has elected under Section 754 of the Internal Revenue Code to adjust the basis of the Company's property on the transfer of shares to reflect the price each shareholder paid for their shares. While the bulk of the Company's recurring income is tax-exempt, from time to time the Company may sell or securitize various assets, which may result in capital gains and losses for tax purposes. Since the Company is taxed as a partnership, these capital gains and losses are passed through to shareholders and are reported on each shareholder's Schedule K-1. The capital gain and loss allocated from the Company may be different for each shareholder due to the Company's 754 election and is a function of, among other things, the timing of the shareholder's purchase of shares and the timing of transactions, which generate gains or losses for the Company. This means that for assets purchased by the Company prior to a shareholder's purchase of shares, the shareholder's basis in the assets may be significantly different than the Company's basis in those same assets. Although the procedure for allocating the basis adjustment is complex, the result of the election is that each share is homogeneous, while each shareholder's basis in the assets of the Company may be different. Consequently, the capital gains and losses allocated to shareholders may be significantly different than the capital gains and losses recorded by the Company.

A portion of the Company's interest income is derived from private activity bonds that for income tax purposes are considered tax preference items for purposes of alternative minimum tax ("AMT"). AMT is a mechanism within the Internal Revenue Code to ensure that all taxpayers pay at least a minimum amount

of taxes. All taxpayers are subject to the AMT calculation requirements although the vast majority of taxpayers will not actually pay AMT. As a result of AMT, the percentage of the Company's income that is exempt from federal income tax may be different for each shareholder depending on that shareholder's individual tax situation.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Since December 31, 2001 there has been no material change to the information included in Item 7A of the Company's 2001 Form 10-K.

PART II. OTHER INFORMATION

Item 4. Submission of Matters to a Vote of Security Holders

At the annual meeting of the Company's shareholders held on May 9, 2002, the shareholders voted on one proposal in addition to the election of the Company's directors.
