DEREGISTRATION OF SECURITIES

On August 4, 2003, we entered into a combination agreement with Global Thermoelectric Inc. to combine Global with us in a share-for-share exchange pursuant to a Plan of Arrangement to be approved by the Court of Queen's Bench of Alberta, Canada. The Plan of Arrangement was approved by our stockholders October 31, 2003. The Plan of Arrangement was also approved by the shareholders of Global and by the Court of Queen's Bench of Alberta, Canada, on October 31, 2003. On November 3, 2003, the combination transaction closed.

Upon closing of the combination:

- all Global common shareholders ceased to be shareholders of Global;
 - each Global common shareholder who is a resident of Canada (other than dissenting shareholders) received, at the shareholder's election, either .279 exchangeable shares or .279 shares of our common stock for each Global common share held by that shareholder at the effective time of the combination;
 - each Global common shareholder who is not a resident of Canada (other than dissenting shareholders) received .279 shares of our common stock for each Global common share held by that shareholder at the effective time of the combination;
 - each outstanding option to purchase Global common shares was assumed by FuelCell and now represents an option to purchase our common stock in accordance with the option's terms based on the exchange ratio used in the combination (.279 shares of FuelCell common stock for each share of Global common stock);
 - each share of Global Series 2 Preferred Stock remained outstanding as a preferred share of Global, as a consolidated subsidiary of FuelCell, and we assumed the obligation to issue our common stock upon conversion thereof; and
 - Global became a consolidated subsidiary of FuelCell.
-

The exchangeable shares issued in the combination are structured to be the economic equivalent of FuelCell common stock, and were issued by FCE Canada Inc., an indirect wholly-owned Canadian subsidiary of FuelCell that we call ExchangeCo. We indirectly own all of the outstanding voting shares of ExchangeCo. The holders of exchangeable shares have the following principal rights:

- the right to exchange the exchangeable shares for shares of our common stock on a one-for-one basis at any time;
- the right to receive dividends, if any, on a per share equivalent basis, in amounts (or property in the case of non-cash dividends) which are the same, and which are payable at the same time, as dividends declared on our common stock;
- the right to vote, indirectly through a trust arrangement, on a per share equivalent basis, at all stockholder meetings at which holders of shares of our common stock are entitled to vote; and
- the right to participate, on a pro rata basis with the holders of our common stock, in the distribution of assets of FuelCell through the mandatory exchange of exchangeable shares for shares of our common stock.

The exchangeable shares, in effect, have no separate economic or voting rights in respect of ExchangeCo (other than limited class voting rights under the *Business Corporations Act* (Alberta) and the right to vote on any change in the fundamental terms of the exchangeable shares themselves, in which cases, the exchangeable shares may be subject to automatic redemption). The exchangeable shares were issued in the combination to generally enable Canadian Global common shareholders to defer recognition of gain or loss on their Global common shares for Canadian federal income tax purposes for as long as they hold exchangeable shares.

In connection with the combination, we filed a registration statement on Form S-3 (Registration No. 333-109634) with the Commission on October 10, 2003. On October 30, 2003, we filed a pre-effective amendment to the registration statement. As amended, the registration statement registered the issuance of a total of up to 8,150,719 shares of FuelCell common stock to be issued, from time to time, upon exchange or redemption of up to 8,150,719 exchangeable shares to be issued by ExchangeCo in the combination, and a total of up to 225,286 shares of FuelCell common stock to be issued, from time to time, upon the conversion of the Series 2 Preferred Shares. On November 3, 2003, the registration statement was declared effective by the Commission.

As explained in an explanatory note to the registration statement, at the time we filed the registration statement, we did not know how many exchangeable shares would be issued by ExchangeCo in the combination. As a result, we did not know how many shares of FuelCell common stock would be issuable, from time to time, upon exchange or redemption of exchangeable shares issued in the combination. For purposes of the registration statement, we assumed that all holders of Global common shares would elect to receive exchangeable shares in the combination (as opposed to FuelCell common shares) and, as such, we registered the issuance of a total of up to 8,150,719 shares of FuelCell common stock to be issued, from time to time, upon exchange or redemption of up to 8,150,719 exchangeable shares to be issued in the combination. Upon closing of the combination, ExchangeCo actually issued a total of 2,572,452 exchangeable shares which, according to their terms, may be exchanged or redeemed, from time to time, for a total of 2,572,452 shares of FuelCell common stock. Pursuant to the undertaking contained in the registration statement, we are filing this post-effective amendment to remove from registration those shares of FuelCell common stock (5,578,267) that exceed the number of shares of FuelCell common stock (2,572,452) that may actually be issued, from time to time, upon exchange or redemption of the exchangeable shares that were actually issued (2,572,452) in the combination.

Accordingly, FuelCell files this post-effective amendment to deregister the issuance of a total of 5,578,267 shares of its common stock covered by the registration statement.
