Security Valuation - The net asset value of the Fund is determined daily as of the close of regular trading on the New York Stock Exchange, Inc. (the "Exchange") on each day the Exchange is open for business. Equity investments are valued at market value, which is generally determined using the closing price on the exchange or market on which the security is primarily traded at the time of valuation (the "Valuation Time"). Valuation Time is as of the close of regular trading of the "Exchange" (usually 4:00 pm Eastern Time). If no sales are reported, equity investments are generally valued at the most recent bid quotation as of the Valuation Time or at the lowest ask quotation in the case of a short sale of securities. Debt securities with a remaining maturity greater than 60 days are valued in accordance with the price supplied by a pricing service, which may use a matrix, formula or other objective method that takes into consideration market indices, yield curves and other specific adjustments. Debt obligations that will mature in 60 days or less are valued on the basis of amortized cost, which approximates market value, unless it is determined that using

this method would not represent fair value. Investments in mutual funds are valued at the mutual fund's closing net asset value per share on the day of valuation. Securities and other assets for which market quotations are not readily available, or whose values have been materially affected by events occurring before the Fund's Valuation Time, but after the close of the securities' primary market, are valued at fair value as determined in good faith by, or under the direction of, the Board of Directors under procedures established by the Board of Directors. The Fund may utilize a service provided by an independent third party which has been approved by the Board of Directors to fair value certain securities. When fair-value pricing is employed, the prices of securities used by a fund to calculate its net asset value may differ from quoted or published prices for the same securities. The Fund's estimate of fair value assumes a willing buyer and a willing seller neither acting under a compulsion to buy or sell. Although these securities may be resold in privately negotiated transactions, the prices realized on such sales could differ from the prices originally paid by the fund or the current carrying values, and the difference could be material.

Restricted Securities - Certain of the Fund's investments are restricted as to resale and are valued at fair value as determined in good faith by, or under the direction of, the Board of Directors under procedures established by the Board of Directors in the absence of readily ascertainable market values.

The Fund may incur certain costs in connection with the disposition of the above securities.

In January 2010, the Financial Accounting Standards Board released ASU 2010-06, "Improving Disclosures about Fair Value Measurements." ASU 2010-06 is effective for annual and interim reporting periods beginning after December 15, 2009. At this time the Fund's management is in the process of reviewing ASU 2010-06 to determine future applicability.

In accordance with ASC 820, Fair Value Measurements and Disclosures ("ASC 820"), fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity.

Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1 —quoted prices in active markets for identical investments
- Level 2 —significant other observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 —significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of January 31, 2010 in valuing the Fund's investments carried at value:

	Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of 01/31/2010
Investments, at value				
Diversified Telecommunication Services	\$4,828,200	\$38,808,077	\$ -	\$43,636,277
Internet Software & Services	54,842	-	-	54,842
Venture Capital	-	-	6,679,173	6,679,173

Edgar Filing: EMERGING MARKETS TELECOMMUNICATIONS FUND INC/NEW - Form N-Q

Wireless Telecommunication Services	27,400,714	73,488,301	-	100,889,015
Short-Term Investments	-	45,000	-	45,000
Total	\$32,283,756	\$112,341,378	\$ 6,679,173	\$151,304,307

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

Investments, at value	Balance as of 10/31/2009	Accrued discounts/premiums	Realized gain/(loss)	Change in unrealized appreciation/(depreciation)	Net purchases (sales)	Net transfers in and/or out of Level 3	Balance as of 01/31/2010
Venture Capital	\$6,768,368	\$-	\$(173,327)	\$ (27,204)	\$111,336	\$-	\$6,679,173
Total	\$6,768,368	\$-	\$(173,327)	\$ (27,204)	\$111,336	\$-	\$6,679,173

Federal Income Tax Cost - At January 31, 2010, the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized appreciation from investments were \$149,147,005, \$22,789,084, \$(20,631,782) and \$2,157,302, respectively.

Other information regarding the Fund is available in the Fund's most recent Report to Shareholders. This information is also available on the website of the Securities and Exchange Commission at www.sec.gov.

Subsequent Events - Effective March 29, 2010, the Board of Directors announced the approved name change of The Emerging Markets Telecommunications Fund, Inc. to the Aberdeen Emerging Markets Telecommunications Fund, Inc.
