Note 1. BASIS OF PRESENTATION

In the opinion of management, the accompanying unaudited consolidated condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the Company's financial position as of September 30, 2001 and the results of its operations and cash flows for the three and nine months ended September 30, 2001 have been made. Operating results for the nine months ended September 30, 2001 are not necessarily indicative of the results that may be expected for the year ended December 31, 2001.

Although the Company's inception was July 24, 2000, there were no operations until after September 30, 2000.

These condensed financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company's Form 10-KSB for the year ended December 31, 2000.

Note 2. SUBSEQUENT EVENTS

In October 2001, the Company entered into three agreements for the provision of various consulting services designed to assist the Company in furthering its business plan. These agreements provide for the issuance of a total of 3,000,000 shares of the Company's common stock and warrants to purchase 2,000,000 shares of the Company's common stock at \$.15 per share.

A Form S-8 has been filed with the Securities and Exchange Commission to provide for the registration of these securities and disclosure of the agreements.

ITEM 2. PLAN OF OPERATION

The Company's operations since inception have been limited, due to its inability to obtain financing on the net assets it was to liquidate of an established local uniform company pursuant to a management contract previously entered into. The Company is financially dependent on its principal shareholder, who has financed the majority of its cash flows to date. Exercise of the warrants in connection with any of the consulting agreements may provide the Company with additional capital.
