## Edgar Filing: CONCURRENT COMPUTER CORP/DE - Form 8-K

99.1 - Transcript of Conference call held by Concurrent Computer Corporation on August 21, 2003.

### ITEM 12. Results of Operations and Financial Condition.

On August 21, 2003, Concurrent Computer Corporation held a conference call reporting financial results for the quarter ended June 30, 2003 and for the year ended June 30, 2003. A copy of this exhibit is being furnished as Exhibit 99.1 to this current report on Form 8-K and is incorporated herein by reference.

Concurrent Computer Corporation uses net loss charges including restructuring charges, tax settlement charges and impairment charges as an operating measure. Concurrent Computer Corporation reports net loss and operating expenses excluding certain non-recurring items as an alternative financial measure of core operating performance. Concurrent's management believes that the net loss and operating expenses excluding certain non-recurring charges provide meaningful supplemental information regarding Concurrent's core operating results because amounts are excluded that are not necessarily related to Concurrent's core operating results. Concurrent's management refers to these measures excluding certain non-recurring charges in assessing the performance of Concurrent's ongoing operations and for planning and forecasting in future periods. These non-GAAP financial measures also facilitate management's internal comparisons to Concurrent's historical operating results. In addition, Concurrent has historically reported similar non-GAAP financial measures and believes that the inclusion of comparative numbers provides consistency in its financial reporting. Concurrent believes that the most directly comparable GAAP financial measures to net loss and operating expenses excluding certain non-recurring charges are the lines on Concurrent's consolidated statements of operations entitled "net loss" and "total operating expenses" respectively. Concurrent also discusses net loss excluding certain non-recurring charges on a per share basis.
