THE TIREX CORPORATION
A DEVELOPMENT STAGE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2002
(UNAUDITED)

Note 1 SUMMARY OF ACCOUNTING POLICIES

CHANGE OF NAME

On July 11, 1997, the Company changed its name from Tirex America, Inc. to The Tirex Corporation.

NATURE OF BUSINESS

The Tirex Corporation and Subsidiaries (the "Company") was incorporated under the laws of the State of Delaware on August 19, 1987. The Company was originally organized to provide comprehensive health care services, but due to its inability to raise sufficient capital, was unable to implement its business plan. The Company became inactive in November 1990.

REORGANIZATION

On March 26, 1993, the Company entered into an acquisition agreement (the "Acquisition Agreement") with Louis V. Muro, currently an officer and a director of the Company, and former Officers and Directors of the Company (collectively the "Seller"), for the purchase of certain technology owned and developed by the Seller (the "Technology") to be used to design, develop and construct a prototype machine and thereafter a production quality machine for the cryogenic disintegration of used tires. The Technology was developed by the Seller prior to their affiliation or association with the Company.

DEVELOPMENTAL STAGE

At December 31, 2002, the Company is still in the development stage. The operations consist mainly of raising capital, obtaining financing, developing equipment, obtaining customers and supplies, installing and testing equipment and administrative activities.

BASIS OF CONSOLIDATION

The consolidated financial statements include the consolidated accounts of The Tirex Corporation, Tirex Canada R&D Inc., The Tirex Corporation Canada Inc., Tirex Advanced Products Quebec Inc. and Tirex Acquisition Corp. Tirex Canada R&D Inc. is held 51% by certain shareholders of the Company. The shares owned by the certain shareholders are held in escrow by the Company's attorney and are restricted from transfer thereby allowing for a full consolidation of this Company. The Tirex Corporation Canada Inc., Tirex Advanced Products Quebec Inc. and Tirex Acquisition Corp. are 100% held by the Company. All subsidiary companies except Tirex Canada R&D Inc. are dormant. All inter-company transactions and accounts have been eliminated in consolidation.

CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, all highly liquid debt instruments

Edgar Filing: TIREX CORP - Form 10QSB

purchased with a maturity of three months or less, were deemed to be cash equivalents.

INVENTORY

The Company values inventory, which consists of finished goods and equipment held for resale, at the lower of cost (first-in, first-out method) or market.

7

PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost less accumulated depreciation and provisions for write-downs. Depreciation is computed using the straight-line method over the estimated useful lives of five years.

Repairs and maintenance costs are expensed as incurred while additions and betterments are capitalized. The cost and related accumulated depreciation of assets sold or retired are eliminated from the accounts and any gains or losses are reflected in earnings.

INVESTMENT

An investment made by the Company, in which the Company owns less than a 20% interest, is stated at cost value. The cost value approximates the fair market value of the investment.

ESTIMATES

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

ADOPTION OF STATEMENT OF ACCOUNTING STANDARD NO. 123

In 1997, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 123, Accounting for Stock-Based Compensation. SFAS 123 encourages, but does not require, companies to record stock-based Compensation and other costs paid by the issuance of stock at fair value. The Company has chosen to account for stock-based compensation, stock issued for non-employee services and stock issued to obtain assets or in exchange for liabilities using the fair value method prescribed in SFAS 123. Accordingly, compensation cost for stock options is measured as the excess, if any, of the quoted market price of the Company's stock at the date of the grant over the amount an employee must pay to acquire the stock.

ADOPTION OF STATEMENT OF ACCOUNTING STANDARD NO. 128

In 1997, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 128, Earnings per Share. SFAS 128 changes the standards for computing and presenting earnings per share (EPS) and supersedes Accounting Principles Board Opinion No. 15, Earnings per Share. SFAS 128 replaces the presentation of Primary EPS with a presentation of Basic EPS and replaces the presentation of Fully Diluted EPS with a presentation of Diluted EPS. It also requires dual presentation of Basic and Diluted EPS on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the Basic EPS computation to the numerator and denominator of the Diluted EPS computation. SFAS 128 is effective for financial statements issued for periods ending after December 15, 1997, including interim periods. SFAS 128 also requires restatement of all prior-period EPS data presented.

As it relates to the Company, the principal differences between the provisions of SFAS 128 and previous authoritative pronouncements are the exclusion of common stock equivalents in the determination of Basic Earnings Per Share and

Edgar Filing: TIREX CORP - Form 10QSB

the market price at which common stock equivalents are calculated in the Determination of Diluted Earnings Per Share.

8

A Basic Earnings per Share is computed using the weighted average number of shares of common stock outstanding for the period. Diluted Earnings per Share is computed using the weighted average number of shares of common stock and dilutive common equivalent shares related to stock options and warrants outstanding during the period.

The adoption of SFAS 128 had no effect on previously reported loss per share amounts for the year ended June 30, 1997. For the years ended June 30, 2002 and June 30, 2001, Primary Loss per Share was the same as Basic Loss per Share and Fully Diluted Loss per Share was the same as Diluted Loss per Share. A net loss was reported in 2002 and 2001, and accordingly, in those years, the denominator for the Basic EPS calculation was equal to the weighted average of outstanding shares with no consideration for outstanding options and warrants to purchase shares of the Company's common stock because to do so would have been anti-dilutive.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amount of the Company's financial instruments, which principally include cash, note receivable, accounts payable and accrued expenses, approximates fair value due to the relatively short maturity of such instruments.

The fair values of the Company's debt instruments are based on the amount of future cash flows associated with each instrument discounted using the Company's borrowing rate. At December 31, 2002 and June 30, 2002, respectively, the carrying value of all financial instruments was not materially different from fair value.

INCOME TAXES

The Company has net operating loss carryovers of approximately \$27.8 million as of December 31, 2002, expiring in the years 2004 through 2018. However, based upon present Internal Revenue Service regulations governing the utilization of net operating loss carryovers where the corporation has issued substantial additional stock and there has been a change in control as defined by the Internal Revenue Service regulations, a substantial portion of this loss carryover may not be available to the Company.

The Company adopted Statement of Financial Accounting Standards ("SFAS") No. 109, Accounting for Income Taxes, effective July 1993. SFAS No. 109 requires the establishment of a deferred tax asset for all deductible temporary differences and operating loss carryforwards. Because of the uncertainties discussed in Note 2, however, any deferred tax asset established for utilization of the Company's tax loss carryforwards would correspondingly require a valuation allowance of the same amount pursuant to SFAS No. 109. Accordingly, no deferred tax asset is reflected in these financial statements.

The Company has research and experimental development tax credits receivable from the Canadian Federal government and the Quebec Provincial government amounting to \$126,428 at December 31, 2002 compared to \$246,970 as of June 30, 2002. These are the result of tax credits for research and experimental development expenditures made by the Company which are not contingent upon any offset against any income taxes Otherwise payable.

FOREIGN CURRENCY TRANSLATION

Assets and liabilities of non-U.S. subsidiaries that operate in a local currency environment are translated to U.S. dollars at exchange rates in effect at the

Edgar Filing: TIREX CORP - Form 10QSB

balance sheet date for monetary items and historical rates of exchange for non-monetary items with the resulting translation adjustment recorded directly to a separate component of shareholders' equity. Income and expense accounts are translated at average exchange rates during the year. Currency transaction gains or losses are recognized in current operations.

9

REVENUE RECOGNITION

Revenue from the sale of TCS Systems will be recognized when the installed product is accepted by the Customer. All other revenue from other products will be recognized when shipped to the customer.

Note 2 GOING CONCERN

As shown in the accompanying financial statements, the Company incurred a net loss of \$3,767,344 during the year ended June 30, 2002 and an additional net loss for the six month period ended December 31, 2002 in the amount of \$951,077.

In March 1993, the Company had begun its developmental stage with a new business plan. As of March 2000, the Company had developed a production quality prototype of its patented system for the disintegration of scrap tires, but nonetheless continued its research and development efforts to improve the machine's performance and to permit greater flexibility in design for specific customer applications. Due to the Company's lack of working capital during the six month period ended June 30, 2002, all rubber crumb production has ceased and research and development efforts have been hampered. Pending receipt of funding from operations, government assistance, loans or equity financing, crumb rubber production and previous research and development efforts will not be resumed. While the Company has engaged the process of marketing the TCS System to numerous potential clients since the beginning of the fiscal year commencing July 1, 2000, as of December 31, 2002, the Company had not yet consummated an unconditional purchase order for a TCS System.

The Company is dependent on the success of its marketing of its TCS Plants, and/or raising funds through equity sales, bank or investor loans, governmental grants or a combination of these, to continue as a going concern. The Company's uncertainty as to its ability to generate revenue and its ability to raise sufficient capital, raise substantial doubt about the entity's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Note 3 FINANCING COST

During the year ended June 30, 2001, the Company incurred costs of \$180,557 in connection with debt financing. These costs have been capitalized in other assets and are being amortized over the terms of the financing. Amortization of financing costs for the years ended June 30, 2002 and June 30, 2001 was \$100,614 and \$79,943, respectively, reducing this account balance to zero.

Note 4 PROPERTY AND EQUIPMENT, SALVAGE VALUE

As of December 31, 2002, the Company had vacated its former premises where the TCS-1 Production Model had been constructed. All of the production equipment has been either returned to lessors, abandoned or stored. Management has decided to suspend indefinitely its efforts to re-acquire these components of the Air Plant which had been shipped to the United States. Without these components, the TCS-1

Edgar Filing: TIREX CORP - Form 10QSB

First Production Model cannot be used. Bearing in mind that management could not predict when, if ever, the First Production Model would be put back into service, Management decided to further write down, as of September 30, 2002, those assets owned by the Company to net realizable salvage value which Management believes to be approximately \$50,000. As at June 30, 2002, these assets were being carried on our books at a net value of \$580,651. The write-down thus amounted to \$530,651.

Depreciation and amortization expense charged to operations for the year ended June 30, 2002 amounted to \$53,184. Depreciation and amortization expense charged to operations for the six month period ended December 31, 2002 was \$5,914.

10

Depreciation and amortization expense charged to operations for the year ended June 30, 2002 was \$53,184. Depreciation and amortization expense charged to operations for the six month period ended December 31, 2002 was \$5,914.

Note 5 GOVERNMENT LOANS

Canada Economic Development

Loan payable under the Industrial Recovery Program for Southwest Montreal amounting to 20% of certain eligible costs incurred (maximum loan \$333,300) repayable over four years commencing March 31, 1999 and ending March 31, 2002, unsecured and non-interest bearing. (If the Company defaults, the loans become interest bearing).

Loans payable under the Program for the Development of Quebec SMEs based on 50% of approved eligible costs for the preparation of market development studies in certain regions. Loans are unsecured and non-interest bearing. (If the Company defaults, the loans become interest bearing).

Loan repayable over five years commencing June 30, 2000 and ending June 30, 2004	\$ 38,125
--	-----------

Loan repayable over five years commencing June 30, 2001 and ending June 30, 2005	39,773
--	--------

Loan repayable in amounts equal to 1% of annual sales in Spain and / or Portugal throughout June 30, 2007, to a maximum of the balance of the loan outstanding. If no sales occur on or before this date in Spain and Portugal, the loan will become non-repayable	14,000
--	--------

Loan repayable in amounts equal to 11/2% of annual sales in Spain and / or Portugal through June 30, 2004 to a maximum of the balance of the loan outstanding. If no sales occur before this date in Spain and Portugal, the loan will become non-repayable	66,500
---	--------

158,398

Less: Current portion	27,240
-----------------------	--------

Long-term portion	\$131,158
-------------------	-----------

=====

Principal repayments are as follows:

June 30	Amount
---------	--------

2003	\$ 27,240
------	-----------

Edgar Filing: TIREX CORP - Form 10QSB

2004	96,578
2005	20,580
2006	--
2007	14,000

	\$158,398
	=====

During the year ended June 30, 2002, the Company was declared in default, with respect to the loan under the Industrial Recovery Program for Southwest Montreal, as a result of a late installment repayment and as such was obligated to repay the entire remaining balance due on the loan at an earlier date than the March 31, 2002 maturity date.

11

Note 6 CAPITAL LEASE OBLIGATIONS

The Company leases certain manufacturing equipment under agreements classified as capital leases. The cost and the accumulated amortization for such equipment as of June 30, 2002 was \$62,400 and \$37,440, respectively. The value of such equipment as of December 31, 2002 is included in property and equipment salvage value on the balance sheet. The Company is in arrears on payment of these leases but default has not been declared. The leased equipment is not part of the Company's TCS System prototype.

The following is a schedule by years of future minimum lease payments under capital leases of equipment together with the obligations under capital leases (present value of future minimum rentals) as at December 31, 2002:

Years ended June 30	Amount
-----	-----
2003	\$ 7,757
2004	15,514

Total minimum lease payments	23,271
Less: Amount representing interest	2,854

Total obligations under capital lease	20,417
Less: Current portion of obligations under capital leases	14,059

Long-term obligation portion of under capital leases, with interest rate of 10%	6,358
	=====

Note 7 CONVERTIBLE SUBORDINATED DEBENTURES

The Company issued Type B Convertible Subordinated Debentures between December 1997 and February 1998. These debentures bore interest at 10% and were convertible into common shares of the Company at \$0.20 per share. The conversion privilege on the remaining \$55,000 of these debentures expired and the amount is now included on the Balance Sheet in Long term deposits and notes.

Note 8 CONVERTIBLE NOTES

The Convertible Notes appearing on the balance sheet consisted of an investment arrangement with a group of institutional investors involving a multi-stage

Edgar Filing: TIREX CORP - Form 10QSB

financing under which the Company had access to, at its option, up to \$5,000,000. A first tranche of \$750,000 was completed but no further draw downs were made. The original terms of the convertible note were:

Balance at June 30, 2001	\$ 750,000
Interest rate	8%, payable quarterly, commencing June 30, 2001
Issue date	February 26, 2001
Maturity date	February 26, 2003
Redemption rights	If not converted, the holder may require the Company to redeem at any time after maturity for the principal amount plus interest.
Conversion ratio	Lower of (i) - 80% of the average of the three lowest closing bid prices for the thirty trading days prior to the issue date, which equals \$.073, or (ii) - 80% of the average of the three lowest closing bid prices for the sixty trading days prior to the conversion date.

12

Common stock warrants	The Convertible Notes carried an option to purchase Common stock warrants at the rate of one Warrant for each \$1.25 of purchase price. The exercise price on the first tranche of \$ 750,000 is \$.077 per share.
-----------------------	---

Certain Directors and Officers of the Company pledged approximately 12,000,000 of their personal shares of Common Stock of the Company as security for the Convertible Notes until such time as the Company files with the Securities and Exchange Commission a Registration Statement on Form SB-2, to register common stock and warrants issuable upon the conversion of the notes, no later than 150 days after the issue date of the Convertible Notes. This deadline was not met and, as such, the investors served a notice of default to the Company on July 19, 2001. The Registration Statement has still not been declared effective by the Securities and Exchange Commission as of this date, and until such occurs, the Convertible Notes cannot be converted to Common Stock nor may the Common Stock warrants be exercised.

On April 24, 2002 the Company entered into a Settlement Agreement with the Note holders. In the event of a default under the Settlement Agreement, the term of the Convertible Notes would become effective once again. The conclusion of the Settlement Agreement has negated the default. The main terms of the Settlement Agreement are as follows:

Amount due including interest calculated to June 30, 2002 and penalties to date, and deducting proceeds from the sale of collateral shares in the amount of \$16,260	\$932,240
Interest rate on the debt	8%
Repayment terms	\$1,000 on May 15, 2002 \$1,000 on June 15, 2002

Edgar Filing: TIREX CORP - Form 10QSB

	\$38,843.33 each month for up to twenty-four months starting August 1, 2002
Warrants for purchase of common shares	500,000 three-year warrants exercisable immediately at a price of \$0.01 per share. 500,000 two-year warrants exercisable one year from the date of the Settlement Agreement at a price of \$0.05 per share. 500,000 one-year warrants exercisable two years from the date of the Settlement Agreement at a price of \$0.10 per share.
Right to sell collateral shares and Rule 144 shares	The Investors have the right to sell up to 600,000 collateral shares and / or Rule 144 shares per month, with proceeds to be first applied against interest and fees and thereafter against principal.
Right of prepayment	The Company has the right to pay amounts in excess of the prescribed monthly amount, without penalty.

13

Collateral shares	As of the date of signing of the Settlement Agreement, the Investors had 10,790,885 Collateral Shares in their possession.
-------------------	--

During the year ended June 30, 2002, the Company authorized the investors to sell 1,800,000 of the shares held as security. As of December 31, 2002, the investors had 8,765,432 collateral shares in their possession.

Note 9 CONVERTIBLE NOTE

A convertible note, under a private arrangement, consists of the following:

Balance at December 31, 2002 and June 30, 2002	\$ 185,556
Interest rate	8%
Issue date	July 19th, 2000
Maturity date	January 19th, 2002
Redemption rights	If not converted, the holder

Edgar Filing: TIREX CORP - Form 10QSB

may require the Company to redeem at any time after maturity for the principal amount plus interest.

Conversion ratio

Not convertible prior to July 19th, 2001, at 20% discount to market between July 19th, 2001 and January 19th, 2002 or at 25% to market if held to maturity, to a maximum of not more than 2,500,000 shares.

Note 10 RELATED PARTY TRANSACTIONS

Convertible loans include amounts primarily due to Directors, Officers and employees. Historically, such amounts due have been repaid through the issuance of stock. At December 31, 2002 and June 30, 2002, the balances owing to Directors and Officers was \$924,948 and \$796,429, respectively. These amounts are without interest or terms of repayment.

14

Long-term deposits and notes included an amount of \$118,500 at December 31, 2002, which is payable to Ocean Tire Recycling & Processing Co., Inc., a company owned by a Director of the Company.

Subsequent to June 30, 2000, the Company modified an agreement with Ocean Tire Recycling & Processing Co., Inc. to clarify various terms of the parties' prior agreements and to obtain a commitment by Ocean Tire Recycling & Processing Co., Inc. to pay, when necessary, lease payments on the prototype TCS System. As part of the agreement, the Company will repay Ocean Tire Recycling & Processing Co., Inc. in cash or through the issuance of stock. The lease payments, under the accounting provisions for an operating lease, have been recorded as a Research and Development expense and the debt obligation included in loans from related parties. During the year ended June 30, 2001, 6,500,000 common shares were issued under the agreement as a partial Settlement. During the year period ended June 30, 2002, an additional 4,553,102 common shares were issued under the agreement to a designated person assigned by Ocean Tire Recycling & Processing Co., Inc.

Note 11 EXCHANGE OF DEBT FOR COMMON STOCK

During the year ended June 30, 2002, the Company recorded increases in common stock and paid-in capital of \$1,673,518, reflecting the exchange of common stock for debts owed. During the six month period ended December 31, 2002, the Company did not record an increase in common stock and additional paid-in capital.

Note 12 COMMON STOCK

During the year ended June 30, 2002, the Company issued common stock in exchange for services performed totaling \$333,325. Included in this amount are payments to Officers of the Company in exchange for salary and expenses in the amount of \$57,796. During the six month period ended December 31, 2002, the Company did not issue common stock in exchange for services performed. The dollar amounts assigned to such transactions have been recorded at the fair value of the services received.

Edgar Filing: TIREX CORP - Form 10QSB

On January 31, 2001, the Company's stockholders approved an amendment to the Articles of Incorporation of the Company to increase the number of authorized shares of common stock, par value \$0.001, from 165,000,000 shares to 250,000,000 shares.

As at December 31, 2002, the Company had 224,757,559 Common shares issued and outstanding.

Note 13 STOCK PLAN

The Company established a Stock Plan in June of 2000 whereby key personnel of the Company, consultants and other persons who have made substantial contributions to the Company may be issued shares as compensation and incentives through Awards, Options or Grants under the terms set forth in the Stock Plan. The Stock Plan originally called for the issuance of a maximum of 7,000,000 shares of stock as Awards, the issuance of a maximum of 7,000,000 shares of stock to underlie Options and the issuance of a maximum of 7,000,000 shares of stock that may be issued as Grants. Awards and Options can only be given to individuals who have been either in the employ of the Company, an Officer, Director or consultant for the preceding six months Awards are not fully vested until the end of three years with one-twelfth of the aggregate award vesting at the end of each quarter. If the Awardee is terminated for cause or resigns, the unvested portion of the award is forfeited. Options can be exercised at any time

15

and upon exercise, the underlying stock is fully vested with the purchaser. The Options are not transferable and are exercisable for two years after which time they expire. If the Optionee is terminated for cause or resigns, all unexercised options are forfeited. A Grant can only be given to persons who have made a substantial contribution to the Company and the shares are not forfeitable. On January 31, 2001, the Company amended the Stock Plan providing for an additional 3,000,000 shares being allocated as Grants and an additional 2,000,000 shares allocated to be given as Options. On May 30, 2001, the Stock Plan was further amended reallocating the 7,000,000 shares to be given as Awards to allow 5,000,000 of the shares to be used for Options and 2,000,000 of the shares to be used as Grants. There were no stock issuances under the Stock Plan for the year ended June 30, 2000.

During the year ended June 30, 2001, the Company issued 9,300,000 shares as Grants under the Stock Plan at an average stock price of \$.093 for an aggregate consideration of \$867,374. During the year ended June 30, 2002, the Company issued 750,000 shares as Grants under the Stock Plan at an average stock price of \$.016 for an aggregate consideration of \$12,031.

During the year ended June 30, 2001, the Company had the following transactions as Options under the Stock Plan:

	Number of Shares	Avg. exercise price	Aggregate consideration
	-----	-----	-----
Granted and unexercised at beginning of year	Nil	--	--
Granted and exercised during the year	9,698,228	\$0.131	\$1,273,334
Granted and unexercised at end of year	Nil	--	--

The exercise price at the time the Options were granted and exercised was approximately equal to the market price at that time.

Edgar Filing: TIREX CORP - Form 10QSB

There were no Options granted or exercised during the year ended June 30, 2002. There were no Options granted or exercised during the six month period ended December 31, 2002.

Note 14 ACQUISITION BY MERGER OF RPM INCORPORATED

During November 1997, the Company entered into a merger agreement with RPM Incorporated ("RPM"). The Company acquired all of the assets and liabilities of RPM by acquiring all of the outstanding common stock of RPM in exchange for common stock in the Company on a unit for unit basis. RPM ceased to exist following the exchange.

The assets and liabilities acquired by the Company from RPM consisted of the proceeds from the sale of debentures of \$535,000. The financing fees on the issuance of the debentures, totaling \$61,755, were included as an expense in the statement of operations for the year ended June 30, 1998. A total of 535,000 shares were issued as a result of the merger valued at \$16,050. A total of \$16,050 was received for this stock.

The Company entered into an additional agreement with the former shareholders of RPM for consulting services for a period of 5 years expiring in June 2002. Pursuant to this consulting agreement, 3,000,000 shares of common stock were issued valued at \$240,000. Other than the consulting agreement and the issuance of the debentures, RPM was inactive.

For accounting purposes, the Company recorded the merger as a purchase and not as a pooling of interests.

Note 15 GOVERNMENT ASSISTANCE

The Company is eligible for and has made claims for tax credits related to scientific research and experimental development expenditures made in Canada.

16

These amounts, under Canadian Federal and Provincial tax law in conjunction with its annual tax return filings, need not be offset against taxes otherwise payable to become refundable to the Company at the end of its fiscal year. As such, during the year ended June 30, 2002, the Company received approximately \$569,111 which has been recorded as an increase in stockholders' equity paid-in capital. Also, during the six month period ended December 31, 2002, the Company received approximately \$111,772 which has also been recorded as an increase in stockholders' equity paid-in capital. During the six month period ended December 31, 2002, the Company did not record any additional tax credits, bringing the reported receivable balance from these governments from \$246,970 as of June 30, 2002 to \$126,428 as of December 31, 2002.

Note 16 LITIGATION

An action was instituted by Plaintiffs, a Canadian resident and a Canadian corporation, in a Canadian court alleging a breach of contract and claims damages of approximately \$508,600 representing expenses and an additional approximate amount of \$1,874,000 in loss of profits. The current action follows two similar actions taken in United States courts, the first of which was withdrawn and the second of which was dismissed based on forum non convenience and other considerations. A detailed answer has been filed by the Company denying all liability, stating further that Plaintiffs failed to comply with

Edgar Filing: TIREX CORP - Form 10QSB

their obligations. Counsel for the Company believes that the Company has meritorious defenses to all of the Plaintiff's claims. The action is still pending.

An action was brought by a Plaintiff against the Company, alleging that the Company had agreed to issue 1,000,000 shares of its Common stock to the Plaintiff in consideration for expenses allegedly paid by the Plaintiff in the amount of approximately \$150,000. These expenses allegedly were incurred in relation to the rental of certain office space and performance of administrative services. The Plaintiff's complaint seeks to impose an equitable trust or lien on 1,000,000 of unissued shares of the Company, demands the issuance of 1,000,000 shares to the Plaintiff and seeks for breach of contract, monetary damages of \$1,400,000. Counsel for the Company denied all of the Plaintiff's allegations and on July 24, 2002, a court dismissed the complaint for "Lack of Prosecution". Plaintiff has taken an appeal and the Company's Counsel has advised that in their opinion the Company has a valid basis to prevail on the appeal.

An action was instituted by a Plaintiff, a Canadian corporation, in August 2001 in a Canadian court claiming approximately \$63,000 is due and owing for the manufacture and delivery of tire disintegrators. The Company is preparing its defense and a cross claim against the Plaintiff as the product delivered was defective and the Company believes it is entitled to a reimbursement of sums paid. The action is still pending.

An action was instituted by a Plaintiff, the Company's landlord, against the Company in June 2001 for arrears of rent in the amount of approximately \$113,900. The Company abandoned its facility in December 2002 but is still in negotiation with its landlord with respect to the amounts owing under the action. As at December 31, 2002, the Company was in arrears of rent and property taxes to its previous landlord in the amount of approximately \$560,000.

Note 17 ACCUMULATED OTHER COMPREHENSIVE INCOME

The deficit accumulated during the development stage included accumulated comprehensive other income totaling \$103,396.

17

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is management's discussion and analysis of significant factors, which have affected the Company's financial position, and operations during the three-month period ended September 30, 2002. This discussion also includes events, which occurred subsequent to the end of the last quarter and contains both historical and forward-looking statements. When used in this discussion, the words "expect(s)", "feel(s)", "believe(s)", "will", "may", "anticipate(s)" "intend(s)" and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected.

As previously reported, the Company suspended rubber crumb production operations in January of 2002 because of a lack of financial resources necessary to complete the acquisition of certain additional secondary processing equipment and its failure to renegotiate leases or to exercise purchase options or with respect to this equipment or to support contributing operations until cash inflows from the collection of any receivables or tipping fees could reasonably be expected to be received. As reported in the last Annual Report, two of the five leases related to the TCS-1 Production Model expired during the fourth

Edgar Filing: TIREX CORP - Form 10QSB

quarter of Fiscal 2002, one for the tire preparation equipment and the other for certain components of the Air Plant. At approximately the same time of the expiration of these leases, a component of the Air Plant broke down requiring an estimated US\$55,000 to repair. While the Company has abandoned any interest in the return of the tire preparation equipment, Management had explored various avenues to re-acquire those components of the Air Plant. At approximately the same time of the removal of these components, the Company's landlord, having secured a new tenant for our premises, requested that we vacate the premises. This process was completed in December, 2002. The Tirex office was relocated to new, temporary premises, in an industrial park in the former municipality of St. Hubert on the south shore of the St. Lawrence River across from Montreal, leased by Ashbyrne Investments Inc., a company owned by Michael Ash, our CFO. The amount charged by Ashbyrne to Tirex was based on cost recovery. At the end of January 2003, the Company again relocated its office closer to Montreal in the Verdun Borough of the city. The new office is located approximately three miles from downtown Montreal. Ashbyrne Investments verbally waived its right to a 30-day notice to terminate the sub-lease. As such, the Company has no sub-lease obligation effective February 1, 2003.

Management is of the opinion that the signing of a License Agreement with Simpro S.p.A. will be the best method of entering into a Purchase and Sales Agreements with potential customers. Concurrent with the Licensing Agreement signed December 17, 2002, Simpro signed a conditional sales contract with our Puerto Rican customer, the most important condition of which contract being the completion of the project financing package for this customer. As of the date of signing of the conditional sales contract, this customer had secured commitments for \$7.5 million of an overall project cost of \$9.0 million. Subsequently, the Puerto Rican customer initiated negotiations with respect to a capital lease for the equipment. There can be no assurances that the customer's efforts will be successful and thus that the conditional sales contract will become unconditional.

Pursuant to the signing of the License Agreement with Simpro, the Boards of Directors of The Tirex Corporation and Tirex Canada R&D Inc. approved resolutions, the effect of which was to convert the previous exclusive rights of Tirex Canada R&D Inc. with respect to system design, marketing, manufacturing and installation of TCS Systems to a non-exclusive basis. This action was necessary to validate the Simpro License Agreement.

The equivalent of what would have been the gross profit, would Tirex have signed such Purchase and Sales Agreements directly, would be recorded on the books of Tirex as a royalty. Given the time required to complete the manufacture and

18

installation of the TCS-2 Systems envisioned by two potential customers, no potential royalties would be recognized under Generally Accepted Accounting Principles applicable in the USA until Fiscal 2004. Even with a Licensing Agreement, there can be no assurances that the contemplated Purchase and Sales Agreements will actually materialize.

As reported in the last Annual Report, in February of 2001, the Company concluded a private financing with an investor group managed by a New York-based company. Under the terms of the Agreement, the Company drew down US\$750,000 of the available US\$5,000,000 amount. The initial \$750,000 was provided in the form of a Convertible Note. The Company defaulted by not having an SB-2 Registration Statement declared effective within 150 days of the date of the Note. Following lengthy negotiations, we reached a Settlement Agreement with the investors on April 26, 2002 under which the Company agreed to a reimbursement schedule and provided three series of warrants, 500,000 each, exercisable at different prices to the investors. The lack of financial resources prevented us from being able

Edgar Filing: TIREX CORP - Form 10QSB

to honor the reimbursement schedule, and thus the Company is currently in default with respect to the Settlement Agreement. To date, the investors have not exercised their recourse rights under the agreement except to sell portions of the collateral security and, on February 4th, sent a request to the Company to convert some of the outstanding debt into common shares. We intend to re-negotiate the Agreement based on our expectations of probable cash availability. However, there can be no guarantee that these negotiations will be successful, that the investors will continue to not exercise their recourse rights and that the anticipated cash availability to support a Settlement Agreement will actually be available.

Because of the lengthy delay preceding the commencement of commercial operations, particularly insofar the sale and manufacturing of TCS Systems is concerned, the Company has had to, and in the foreseeable near future will, be forced to continue to cover a substantial part of its operating expenses out of from sources other than revenues from operations. For the first quarter of Fiscal 2003, our monthly expenses were approximately US\$67,000 per month. Cash amounts payable to third parties amounted to approximately US\$27,000 including approximately US\$16,000 for building rent. With the relocation to the St-Hubert Borough of Verdun, monthly expenses were reduced by approximately US\$13,000 per month including approximately US\$6,000 per month in accumulated interest on the Convertible Notes. With the subsequent relocation closer to Montreal, monthly expenses have been reduced by another approximately US\$3,000 per month.

LIQUIDITY AND CAPITAL RESOURCES

The activities of the Company, since its formation in 1987, and the inception of its current business in 1993 have been financed by sources other than operations. Such financing was principally provided by the sale of securities in private transactions and by additional capital investments by directors, officers and employees. During the six month period ended December 31, 2002, directors, officers, employees and consultants did not make any direct cash investments into the Company. During the Fiscal year ended June 30, 2002, direct cash investments made by the directors, officers, shareholders and consultants amounted to \$950,713.

As of December 31, 2002, the Company had total assets of \$653,029 as compared to \$2,739,452 at December 31, 2001 reflecting a decrease of \$2,086,423, and a decrease of \$649,926 versus total assets as of the last fiscal year end, June 30, 2002, which amounted to \$1,302,955. Management attributes the decrease from December 31, 2001 to December 31, 2002 primarily to the following factors: (i) a decrease of \$16,570 in Tax Credits Receivable from the balance as of December 31, 2001 in the amount of \$142,998 to the December 30, 2002 balance of \$126,428,

19

and (ii) a decrease of \$9,748 in Inventory from the balance as of December 31, 2001 in the amount of \$72,377 to the December 31, 2002 balance of \$62,629, and (iii) a decrease of \$66,000 in Prepaid Expenses and Deposits from the balance as of December 31, 2001 in the amount of \$395,577 to the December 31, 2002 balance of \$329,577, and (iv) a decrease of \$2,059,284 in Property and Equipment from the balance as of December 31, 2001 in the amount of \$2,109,284 to the December 31, 2002 balance of \$50,000 attributable to the write-down of assets to salvage value, and (v) an increase of \$37,103 in an Sales Tax Receivable from the zero balance as of December 31, 2001 to the December 31, 2002 balance of \$37,103. Management attributes the decrease from June 30, 2002 to December 31, 2002 primarily to the following factors: (i) a decrease of \$120,542 in Tax Credits Receivable from the balance as of June 30, 2002 in the amount of \$246,970 to the December 31, 2002 balance of \$126,428 and, (ii) a decrease of \$533,771 in Property and Equipment from the balance as of June 30, 2002 in the amount of \$583,771 to the December 31, 2002 balance of \$50,000 attributable to the

Edgar Filing: TIREX CORP - Form 10QSB

write-down of assets to salvage value.

As of December 31, 2002, the Company had total liabilities of \$4,398,849 as compared to \$3,567,381 at December 31, 2001, reflecting an increase of \$831,468, and reflecting an increase of \$349,709 versus total liabilities as of the last fiscal year end, June 30, 2002, which total amounted to \$4,049,140. The increase in total liabilities from December 31, 2001 to December 31, 2002 is primarily attributable to an increase of \$586,911 in Accounts Payable and Accrued Liabilities and by an increase in Convertible Notes in the amount of \$182,240. The increase in total liabilities from June 30, 2002 to December 31, 2002 is primarily attributable to an increase of \$254,630 in Accounts Payable and Accrued Liabilities and to an increase of \$131,564 in Loans from Related Parties.

Reflecting the foregoing, the financial statements indicate that as at December 31, 2002, the Company had a working capital deficit (current assets minus current liabilities) of \$1,477,166 compared to a working capital deficit of \$847,355 as at December 31, 2001, reflecting an increase of \$629,811. The working capital deficit of \$1,477,166 as at December 31, 2002 compares to a working capital deficit of \$1,127,115 as at June 30, 2002, reflecting a decrease of \$350,051.

The financial statements which are included in this report reflect total operations and other expenses of \$951,077 for the six month period ended December 31, 2002 versus \$923,912 for the comparative six month period ended December 31, 2001, reflecting an increase of \$27,165. Although the Company has ceased Research and Development activities thereby resulting in a decrease in personnel expenses and other Research and Development expenses, the Company incurred a charge of \$530,651 to write down Property and Equipment to its salvage value.

PART II: OTHER INFORMATION

Item 1 - Legal Proceedings

We are presently a party in the following legal proceedings, the status of which has not changed since the Company filed its Annual Report on Form 10-KSB for Fiscal 2002:, with the exception of the Tri-Steel case as noted below.

IM(2) Merchandising and Manufacturing, Inc and David B. Sinclair v. The Tirex Corporation, Tirex Corporation Canada, Inc., et al.

The Plaintiffs, a Canadian resident and a Canadian corporation sued in the Delaware, U.S. Federal District Court claiming fraud, breach of contract, unjust enrichment and other allegations, that the alleged Defendants, which include Tirex Corporation Canada and The Tirex Corporation, jointly conspired to profit from their failure to comply with terms of a manufacturing agreement. The

20

monetary demand of this complaint was unspecified. We were prepared to move to dismiss Plaintiffs' Complaint, but after consultations with the Plaintiffs' Attorneys, the Plaintiffs' withdrew this complaint voluntarily. Plaintiffs later filed a second action in the Chancery Court of Delaware alleging certain of the same allegations; fraud, breach of contract, unjust enrichment, breach of fiduciary duty and misrepresentation, but eliminated other counts including the securities fraud allegations. The Defendants in the State Court action are the same named in the Federal Court action, and again the monetary damages are unspecified. We moved to dismiss the State Court Chancery case alleging defective service of process and asserting that the Court had no jurisdiction

Edgar Filing: TIREX CORP - Form 10QSB

over the Defendants in Delaware and for removal of the case to Canada based on forum non-convenience and other considerations. Our motion was granted and the case dismissed.

Subsequently, on or about April 25, 2001, the Plaintiffs instituted a lawsuit in Superior Court, judicial district of Montreal alleging breach of contract and claims damages of Canadian\$794,690 (approximately US\$508,600) representing expenses and an additional Canadian\$5,411,158 (approximately US\$1,874,000) in loss of profits. We have filed a detailed answer denying all liability, stating further that Plaintiffs failed to comply with their obligations. We believe we have meritorious defenses to all of the Plaintiffs' claims. The action is still pending.

Surgent v. The Tirex Corporation

An action was brought by the Plaintiff against us, alleging that we had agreed to issue 1,000,000 shares of our Common Stock to the Plaintiff in consideration for expenses allegedly paid by the Plaintiff on our behalf in the amount of approximately \$150,000. These expenses allegedly were incurred in relation to the rental of certain office space and performance of administrative services. The Plaintiff's complaint sought to impose an equitable trust or lien on 1,000,000 of our un-issued common shares, demanded the issuance of the 1,000,000 shares and alleged breach of contract and claimed damages of \$1,400,000.

We moved to dismiss the case on various procedural grounds and in September 2000 the Court granted our motion based upon the lack of venue in Union County, New Jersey. A new action was instituted by Plaintiff in the Superior Court of New Jersey, Bergen County, in April 2001 alleging similar claims as set forth in the previous action (Docket L-08060-00). We denied all of plaintiff's allegations. This action was dismissed with prejudice and the Plaintiff has filed a notice of appeal, which he has not yet perfected. Our counsel has advised us that in their opinion, the Company will prevail on appeal.

Lefebvre Freres Limited v. The Tirex Corporation

Lefebvre Freres Limited instituted an action against us on August 13, 2001 in the Superior Court, judicial district of Montreal claiming Canadian\$98,513 (approximately US\$63,000) is due and owing for the manufacture and delivery of car tire disintegrators. We are preparing a defense and cross claim against Plaintiff as the product delivered was defective and we believe we are entitled to a reimbursement of sums paid. The action is still pending.

Tri-Steel Industries Inc. v. The Tirex Corporation

Our former landlord Tri-Steel Industries Inc. instituted an action against us, and our subsidiaries Tirex Canada and Tirex Canada R & D Inc., on or about June 22, 2001 for arrears of rent in the amount of Canadian\$230,050 (approximately US\$147,232 using a \$0.64 exchange rate). The premises were vacated by us as of November 2002. The former landlord has accepted that he would be repaid out of future cash flows and that the premises lease would be terminated effective December 31, 2002.

No director, officer, or affiliate of the Company, or any associate of any of them, is a party to or has a material interest in any proceeding adverse to us.

Item 3 - Defaults Upon Senior Securities

During 1998, the Company issued an aggregate of \$535,000 of two (2) year convertible, subordinated debentures bearing interest at the rate of 10%. Interest thereon was due and payable semi-annually commencing six months from the date of issuance. All debentures have either been converted or repaid, except for debentures in the principal amount of US\$55,000, which remain outstanding and on which principal and interest, which has accrued since the issuance of the debentures, are now due. On debentures converted subsequent to December 1999, interest was capitalized and converted to equity. Although the conversion option on the outstanding debentures has lapsed, the Company intends to extend the conversion dates of these debentures upon the request of the holders.

As indicated above, in February of 2001, The Company concluded a private financing with an investor group managed by a New York-based company. Under the terms of the Agreement, the Company had the contractual right to require the Investor to purchase up to US\$5,000,000 of put notes and the Company had drawn down US\$750,000, which was provided in the form of a Convertible Note. Under the terms of the Agreement, the Company was required to file and have declared effective a Registration Statement on Form SB-2 within 150 days of the Closing Date of the Agreement. As of June 25, 2001, the Company was in technical default for failing to have an effective Registration Statement on record with the SEC. The Company was advised of the default in mid-July 2001. Following lengthy negotiations, we reached a Settlement Agreement with the investors on April 26, 2002 under which the Company agreed to a reimbursement schedule and provided

three series of warrants, 500,000 each, exercisable at different prices to the investors. The lack of financial resources prevented us from being able to honor the reimbursement schedule, and thus the Company is currently in default with respect the Settlement Agreement. To date, the investors have not exercised any

Edgar Filing: TIREX CORP - Form 10QSB

of their recourse rights under the agreement other than to sell some collateral shares and, on February 4th, sent a request to the Company to convert some of the outstanding debt into common shares. We intend to re-negotiate the Agreement with the investors based on our expectations of cash availability. However, there can be no guarantee that these negotiations will be successful, that the investors will continue to not exercise their recourse rights and that the anticipated cash availability to support a Settlement Agreement will actually be available

Item 4 - Submission of Matters to a Vote of Security Holders

Item 6 - Exhibits and Reports on Form 8-K

The Company filed a Form 8-K on December 24, 2002 with respect to the Simpro License Agreement, the concurrent signing of a conditional sales contract with a customer, its change of address and the Company's suspension of its efforts to re-acquire possession of certain leased production assets.
