Item 11. Executive Compensation.

Compensation Discussion and Analysis

Overview of Compensation Program

This section discusses the principal components of compensation paid to our named executive officers for 2008. Throughout this Report, we refer to the individuals who served as our principal executive officer and principal financial officer during 2008, as well as the other individuals included in the “Summary Compensation Table” below as the “named executive officers.” However, when we refer to “named executive officers” in the information under the heading “2009 Compensation Philosophy and Objectives,” we mean all of the individuals included in the “Summary Compensation Table” below (other than our former Chief Financial Officer) and any executive officer of Pacific Ethanol who we expect will be listed in the Summary Compensation Table for 2009 (other than our Interim Chief Financial Officer).

Our Compensation Committee is responsible for establishing, implementing and administering our overall policies on compensation and the compensation to be provided to our executive officers. Our Compensation Committee also has the responsibility for monitoring adherence with our compensation philosophy and ensuring that the total compensation paid to our executive officers is fair, reasonable and competitive.

Although our Compensation Committee makes all compensation decisions as to our executive officers, our Chief Executive Officer makes recommendations to our Compensation Committee regarding compensation for the other named executive officers.

2008 Executive Compensation

For the year ended December 31, 2008, the principal components of compensation for our named executive officers were:

- base salary;
- equity incentive compensation; and
- perquisites and other personal benefits.

During 2008, our compensation philosophy was substantially similar to our compensation philosophy set forth below for 2009. Base salary paid to each of the named executive officers was specified in their executive employment agreements and, except for Mr. Hansen, increased effective March 1, 2008. The executive employment agreements were entered into as of December 11, 2007. Information about the executive employment agreements can be found under the heading “Executive Employment Agreements” below.

In addition to base salary, our named executive officers were granted shares of restricted stock during 2008. All restricted stock grants provided for vesting of 25% of the shares underlying the grants on each of the next four anniversaries commencing April 1, 2009 as a retention tool for the relevant service period. In determining the type of equity-based incentive compensation to provide to the named executive officers, the Compensation Committee exercised its preference for restricted stock grants as they are less costly and provided a more immediate tangible benefit to participants. Our named executive officers also vested as to a portion of their restricted stock grants made in 2006.

We did not have any program, plan or obligation that required us to grant equity incentive compensation on specified dates, except that our executive employment agreement with our former Chief Financial Officer required us to issue a specified amount of restricted stock. Information about outstanding equity incentive compensation awards held by

our named executive officers and directors is contained in the “Outstanding Equity Awards at Fiscal Year-End” and “Director Compensation” tables below.

7

During 2008, the Compensation Committee also considered granting discretionary cash bonuses to each named executive officer based on the personal performance of each named executive officer during 2008 in an amount up to 50% of each named executive officer's base salary. Ultimately, the Compensation Committee elected not to pay discretionary cash bonuses to any of our named executive officers because we were not profitable in 2008.

During 2008, we also provided certain of the named executive officers with perquisites and other personal benefits that the Compensation Committee believed were reasonable. In addition, the executive employment agreements with each of the named executive officers provide for certain payments upon a change in control of Pacific Ethanol. Information regarding applicable payments under these agreements is provided under the heading "Calculation of Potential Payments upon Termination or Change in Control" below.

2009 Compensation Philosophy and Objectives

Our Compensation Committee has maintained the same compensation program and philosophy and objectives used in 2008 for 2009. Our current compensation philosophy is based upon three central objectives:

- To provide an executive compensation structure and system that is both competitive in the marketplace and also internally equitable based upon the weight and level of responsibilities of each executive;
- To attract, retain and motivate qualified executives within this structure, and reward them for outstanding performance-to-objectives and business results; and
- To structure our compensation policy so that the compensation of executive officers is dependent in part on the achievement of our current year business plan objectives and dependent in part on the long-term increase in our net worth and the resultant improvement in stockholder value, and to maintain an appropriate balance between short- and long-range performance objectives over time.

The Compensation Committee evaluates both performance and compensation to ensure that the total compensation paid to our executive officers is fair, reasonable and competitive so that we can attract and retain superior employees in key positions. The Compensation Committee believes that compensation packages offered to our executives, including the named executive officers, should include both cash- and equity-based compensation that reward performance as measured against established goals.

In furtherance of these objectives, our Compensation Committee previously engaged Hewitt Associates LLC, a global human resources consulting firm, to conduct a review of our total compensation program for the named executive officers and other executives. Hewitt Associates has provided our Compensation Committee with relevant market data and alternatives to consider when making compensation decisions as to the named executive officers and when making decisions as to the recommendations being made by our management for other executives.

In making compensation decisions, our Compensation Committee compares each element of total compensation against market data obtained by Hewitt Associates. The sources of this data include proxy statements for publicly-traded companies within the ethanol industry and general industry published surveys that target companies with approximately \$350 million, \$500 million and \$750 million in annual revenues. For 2009, the Compensation Committee generally expects to set total compensation for the named executive officers at the median of compensation paid to similarly situated executives of the companies comprising the market data provided to us by Hewitt Associates.

Although there is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation, the Compensation Committee expects that a significant percentage of total compensation for 2009 will be allocated to incentives as a result of the compensation philosophy we adopted in 2007 and continued through 2008. The level and mix of incentive compensation will be determined by the Compensation Committee based in part on information provided by Hewitt Associates.

The Compensation Committee did not obtain updates of the data provided by Hewitt Associates in 2008 but may use historical information received from Hewitt Associates in 2008 in establishing compensation for future periods.

For 2009, we expect that the principal components of compensation for our named executive officers will be:

- base salary;
- discretionary cash bonuses;
- equity incentive compensation;
- other incentive compensation; and
- perquisites and other personal benefits.

We view the various components of compensation as related but distinct. Our Compensation Committee expects to review compensation information provided by Hewitt Associates and to consider factors such as internal equity and consistency, and other considerations it deems relevant, such as rewarding extraordinary performance, to determine the appropriate level and mix of total compensation.

Base Salary

Base salary is targeted to recognize each executive officer's unique value and historical contributions to our success in light of salary norms in our industry and the general marketplace and to compensate them for services expected to be rendered during the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility by using market data obtained by Hewitt Associates, with the goal of establishing base salary at the median base salary paid to similarly situated executives as reflected in the market data. The Compensation Committee expects to periodically review the base compensation of the Chief Executive Officer, and the base compensation of all other named executive officers with the Chief Executive Officer, to ensure that a competitive position is maintained.

Discretionary Cash Bonuses

The Compensation Committee expects to use discretionary cash bonuses to focus our management on achieving key company financial objectives, to motivate certain desired individual behaviors and goals and/or to reward substantial achievement of these company financial objectives and individual behaviors and goals.

We intend to use cash bonuses to reward performance achievements generally only as to years in which we are profitable. The Compensation Committee believes that as a growth company, we should reward achievement of both personal objectives and company financial objectives such as net sales, gallons of ethanol sold, net income and operating cash flows. Individual performance objectives of the named executive officers based on the participant's accountability and impact on our overall operations will be determined by our Compensation Committee with target award opportunities that will be established as a percentage of base salary. The Compensation Committee expects to target the amount of any potential discretionary cash bonuses at the median level of cash bonuses paid to similarly situated executives as reflected in the market data provided by Hewitt Associates. To the extent that our financial performance is less than or greater than the median financial performance reflected in the market data, the Compensation Committee expects that discretionary cash bonuses will be less than or greater than the median level of cash bonuses paid to executives of our peer companies.

Our Compensation Committee has adopted a policy to recover bonuses paid based on our financial performance where our financial statements are restated in a downward direction sufficient to reduce the amount of bonus that should have been paid under applicable bonus criteria.

Equity Incentive Compensation

Our 2006 Stock Incentive Plan authorizes the issuance of up to 2,000,000 shares of our common stock pursuant to options, restricted stock, restricted stock units, stock appreciation rights, direct stock issuances and other stock-based awards to our officers, directors or key employees or to consultants that do business with us. Our Compensation Committee has the authority to administer our 2006 Stock Incentive Plan with respect to grants to executive officers and directors, and also has authority to make equity awards under our 2006 Stock Incentive Plan to all other eligible individuals. However, our Board may retain, reassume or exercise from time to time the power to administer our 2006 Stock Incentive Plan. Equity awards made to members of the Compensation Committee must be authorized and approved by a disinterested majority of our Board.

We plan to use equity incentive compensation to encourage participants to focus on the long-term performance of Pacific Ethanol and to provide an opportunity for the named executive officers to increase their ownership stake in Pacific Ethanol through grants of our common stock that vest over time. The Compensation Committee also plans to continue to use equity compensation to attract qualified executive officers and to maintain competitive levels of total compensation.

Equity incentive compensation levels will be determined based upon our financial performance, the individual performance of the participant and market data provided to the Compensation Committee by Hewitt Associates. Although equity incentive compensation levels will vary among the participants based on their positions with Pacific Ethanol, the goal of the Compensation Committee is to provide for equity incentive grants in amounts equal to the median level of grants made to similarly situated executives as reflected in the market data. As is the case with discretionary cash bonuses, to the extent that our financial performance is less than or greater than the median financial performance reflected in the market data, the Compensation Committee expects that equity incentive compensation levels will be less than or greater than the median level of equity incentive compensation paid to executives of our peer companies.

Historically, we have neither made equity incentive grants in connection with the release or withholding of material non-public information nor have we made any grant at a predetermined time. However, in the future, our Compensation Committee may establish a focal grant date at which equity-based incentive compensation would periodically be determined, most likely at times when cash compensation is being reviewed and the results of our operations for our latest completed fiscal period are publicly available. Historically, stock options granted to our directors and executive officers have generally had exercise prices at or above the fair market value of our common stock on the date of grant.

On January 17, 2008, we granted 52,650 shares of restricted stock under our 2006 Stock Incentive Plan to Mr. Hansen, our-then new, and now former, Chief Financial Officer. The shares of restricted stock vested as to 10,530 shares on April 1, 2008 and an additional 10,530 shares vested on October 4, 2008. On April 3, 2009, in connection with the termination of Mr. Hansen's employment, 7,897 of these shares vested in accordance with Mr. Hansen's executive employment agreement and the balance was forfeited.

On April 8, 2008, we granted shares of restricted stock under our 2006 Stock Incentive Plan to various employees, including our executive officers. Our Chief Executive Officer was granted 79,908 shares of restricted stock, our Chief Operating Officer was granted 31,963 shares of restricted stock, our former Chief Financial Officer was granted 22,374 shares of restricted stock and our General Counsel was granted 22,374 shares of restricted stock. Except for the shares granted to Mr. Hansen, of which 4,195 vested upon his departure and the balance was forfeited, as discussed above, the shares of restricted stock will vest as to 25% on April 1st of each of the next four years starting on April 1, 2009, subject in each case to continued employment.

Other Incentive Compensation

In response to our financial condition and our uncertain future, we are considering adoption of a new incentive compensation plan covering existing employees to provide further recognition of their valuable contributions during our restructuring efforts and to ensure that we retain personnel with the knowledge and skills necessary to maintain effective operations. We have not developed the preliminary terms or scope of such a plan, but we intend to develop and adopt such a plan in mid-2009 that will achieve these goals.

Perquisites and Other Personal Benefits

We expect to provide named executive officers with perquisites and other personal benefits that the Compensation Committee believes are reasonable and consistent with our overall compensation program to better enable us to attract and retain superior employees for key positions. In addition, we have entered into executive employment agreements with our Chief Executive Officer, Chief Operating Officer and our General Counsel that provide for certain payments upon a change in control of Pacific Ethanol. Information regarding applicable payments under these agreements is provided under the heading "Calculation of Potential Payments upon Termination or Change in Control" below. The Compensation Committee expects to periodically review the levels of perquisites and other personal benefits provided to our named executive officers.

Accounting and Tax Treatment

We account for equity compensation paid to our employees under the rules of SFAS No. 123R, which requires us to estimate and record an expense over the service period of the award. Accounting rules also require us to record cash compensation as an expense at the time the obligation is accrued. Unless and until we achieve sustained profitability, the availability to us of a tax deduction for compensation expenses will not be material to our financial position. We structure cash bonus compensation so that it is taxable to our executives at the time it becomes available to them.

The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that we may not deduct compensation of more than \$1,000,000 that is paid to certain individuals. We currently intend that all cash compensation paid will be tax deductible by us. However, with respect to equity compensation awards, while any gain recognized by employees from nonqualified options should be deductible, to the extent that an option constitutes an incentive stock option, gain recognized by the optionee will not be deductible if there is a disqualifying disposition by the optionee. In addition, if we grant awards of restricted stock or restricted stock units that are not subject to performance vesting, they may not be fully deductible by us at the time the award is otherwise taxable to the employee.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management, and based on that review and discussion, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K for the year ended December 31, 2008.

Respectfully submitted,
Compensation Committee

Mr. Koehler was to receive a base salary of \$300,000 per year, which was increased to \$375,000 effective March 1, 2008, and is eligible to receive an annual discretionary cash bonus of up to 70% of his base salary, to be paid based upon performance criteria set by the Board and an additional cash bonus not to exceed 50% of the net free cash flow of Kinergy Marketing, LLC (defined as revenues of Kinergy Marketing, LLC, less Mr. Koehler's salary and performance bonus, less capital expenditures and all expenses incurred specific to Kinergy Marketing, LLC), subject to a maximum of \$300,000 in any given year; provided, that such bonus will be reduced by ten percentage points each year, commencing in 2005, such that 2009 will be the final year of such bonus at 10% of net free cash flow.

Notwithstanding the foregoing, if Mr. Koehler is terminated without cause or resigns for good reason within three months before or twelve months after a change in control, Mr. Koehler is entitled to (a) severance equal to eighteen months of base salary, (b) continued health insurance coverage for eighteen months, and (c) accelerated vesting of 100% of all shares or options subject to any equity awards granted to Mr. Koehler prior to Mr. Koehler's termination that are unvested as of the date of termination.

A "change in control" of Pacific Ethanol is deemed to have occurred if, in a single transaction or series of related transactions (i) any person (as such term is used in Section 13(d) and 14(d) of the Exchange Act), or persons acting as a group, other than a trustee or fiduciary holding securities under an employee benefit program, is or becomes a "beneficial owner" (as defined in Rule 13-3 under the Exchange Act), directly or indirectly of securities of Pacific Ethanol representing a majority of the combined voting power of Pacific Ethanol, (ii) there is a merger, consolidation or other business combination transaction of Pacific Ethanol with or into another corporation, entity or person, other than a transaction in which the holders of at least a majority of the shares of voting capital stock of Pacific Ethanol outstanding immediately prior to such transaction continue to hold (either by such shares remaining outstanding or by their being converted into shares of voting capital stock of the surviving entity) a majority of the total voting power represented by the shares of voting capital stock of Pacific Ethanol (or the surviving entity) outstanding immediately after such transaction, or (iii) all or substantially all of our assets are sold.

Potential Payments upon Termination or Change in Control

Executive Employment Agreements. We have entered into agreements with our named executive officers that provide certain benefits upon the termination of their employment under certain prescribed circumstances. Those agreements are described above under “Executive Employment Agreements” above.

2006 Stock Incentive Plan. Under our 2006 Stock Incentive Plan, if a change in control occurs, each outstanding equity award under the discretionary grant program will automatically accelerate in full, unless (i) that award is assumed by the successor corporation or otherwise continued in effect, (ii) the award is replaced with a cash retention program that preserves the spread existing on the unvested shares subject to that equity award (the excess of the fair market value of those shares over the exercise or base price in effect for the shares) and provides for subsequent payout of that spread in accordance with the same vesting schedule in effect for those shares, or (iii) the acceleration of the award is subject to other limitations imposed by the plan administrator. In addition, all unvested shares outstanding under the discretionary grant and stock issuance programs will immediately vest upon the change in control, except to the extent our repurchase rights with respect to those shares are to be assigned to the successor corporation or otherwise continued in effect or accelerated vesting is precluded by other limitations imposed by the plan administrator. Each outstanding equity award under the stock issuance program will vest as to the number of shares of common stock subject to that award immediately prior to the change in control, unless that equity award is assumed by the successor corporation or otherwise continued in effect or replaced with a cash retention program similar to the program described in clause (ii) above or unless vesting is precluded by its terms. Immediately following a change in control, all outstanding awards under the discretionary grant program will terminate and cease to be outstanding except to the extent assumed by the successor corporation or its parent or otherwise expressly continued in full force and effect pursuant to the terms of the change in control transaction.

The plan administrator will have the discretion to structure one or more equity awards under the discretionary grant and stock issuance programs so that those equity awards will vest in full either immediately upon a change in control or in the event the individual’s service with us or the successor entity is terminated (actually or constructively) within a designated period following a change in control transaction, whether or not those equity awards are to be assumed or otherwise continued in effect or replaced with a cash retention program.

The definition of “change in control” under our 2006 Stock Incentive Plan is substantially the same as provided under “Executive Employment Agreements” above.

Calculation of Potential Payments upon Termination or Change in Control

In accordance with the rules of the Securities and Exchange Commission, the following table presents our estimate of the benefits payable to the named executive officers under our 2006 Stock Incentive Plan and their executive employment agreements assuming that for each of Messrs. Koehler, Miller, Wright and Hansen (i) a “change in control” occurred on December 31, 2008, the last business day of 2008, and (a) there was a termination by the executive “for good reason,” or by us without “cause” within three months before or twelve months after the change in control, or (b) none of the executives’ equity awards were assumed by the successor corporation or replaced with a cash retention program, (ii) a qualifying termination occurred on December 31, 2008, which is a termination by the executive “for good reason,” by us without “cause” or upon the executive’s disability, or (iii) a non-qualifying termination occurred on December 31, 2008, which is a voluntary termination by the executive other than “for good reason” or by us for “cause.” See “Executive Employment Agreements” above for definitions of “for good reason,” “cause” and “change in control.”

- (1) Represents eighteen months additional salary after the date of termination in the event of a Change in Control and twelve months additional salary after the date of termination in the event of a Qualifying Termination based on the executive's salary as of December 31, 2008.
- (2) Represents the aggregate value of the continuation of certain employee health benefits for up to eighteen months after the date of termination in the event of a Change in Control and for up to twelve months after the date of termination in the event of a Qualifying Termination.

Compensation Committee Interlocks and Insider Participation

Our Compensation Committee consists of Messrs. Layne, Prince, Kieta and Stone. None of these individuals were officers or employees of Pacific Ethanol at any time during 2008 or at any other time. During 2008, none of our executive officers served as a member of the board of directors or compensation committee of any other entity whose executive officer(s) served on our Board or Compensation Committee.

Compensation of Directors

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board. In setting the compensation of directors, we consider the significant amount of time that Board members spend in fulfilling their duties to Pacific Ethanol as well as the experience level we require to serve on our Board. The Board, through its Compensation Committee, annually reviews the compensation and compensation

policies for Board members. In recommending director compensation, the Compensation Committee is guided by three goals (i) compensation should fairly pay directors for work required in a company of our size and scope, (ii) compensation should align directors' interests with the long-term interests of our stockholders, and (iii) the structure of the compensation should be clearly disclosed to our stockholders.

Cash Compensation

Current Program. On April 8, 2008, and effective as of April 1, 2008, our Compensation Committee approved a new cash compensation plan for directors which provides the Chairman of our Board annual compensation of \$80,000, the Chairman of our Audit Committee annual compensation of \$42,000, the Chairman of our Compensation Committee annual compensation of \$36,000, the Chairman of our Nominating and Governance Committee annual compensation of \$36,000, the Chairman of our Transportation Committee annual compensation of \$36,000 and the Chairman of our Strategic Transactions Committee annual compensation of \$36,000. All other directors, except employee directors, receive annual compensation of \$24,000. These amounts are paid in advance in bi-weekly installments. In addition, directors are reimbursed for certain reasonable and documented expenses in connection with attendance at meetings of our Board and its committees. Employee directors do not receive director compensation in connection with their service as directors.

Prior Program. Our cash compensation plan for directors during 2007 and the first quarter of 2008 provided the Chairman of our Board annual compensation of \$80,000, the Chairman of our Audit Committee annual compensation of \$22,000 and the Chairman of our Compensation Committee annual compensation of \$20,000. All other directors, except employee directors, received annual compensation of \$12,000. These amounts were paid in monthly installments. In addition, directors were reimbursed for certain reasonable and documented expenses in connection with attendance at meetings of our Board and its committees. Employee directors did not receive director compensation in connection with their service as directors.

Equity Compensation

Following our annual meeting each year, our Compensation Committee or our full Board is to grant equity compensation to our newly elected or reelected directors which is to vest as to 100% of the grants in one year. Vesting is to be subject to continued service on our Board during the full year.

Compensation of Employee Director

Mr. Koehler was compensated as a full-time employee and officer but received no additional compensation for service as a Board member during 2008. Information regarding the compensation awarded to Mr. Koehler is included in the "Summary Compensation Table" above.

Director Compensation Table

The following table summarizes the compensation of our directors for the year ended December 31, 2008:

(2) The amounts shown are the compensation costs recognized in our financial statements for 2008 related to vesting of shares of restricted stock awarded to each director since 2006 in accordance with the provisions of Statement of Financial Accounting Standards No. 123R, “Share-Based Payment,” referred to in this Report as SFAS No. 123R. The fair values of the shares of restricted stock awarded were calculated based on the fair market value of our common stock on the grant date. No grants of restricted stock were made in years prior to 2006.

(3) At December 31, 2008, Mr. Jones held 75,500 shares from stock awards, including 39,340 unvested shares, and also held options to purchase an aggregate of 50,000 shares of common stock. Indemnification of Directors and Officers

Section 145 of the Delaware General Corporation Law permits a corporation to indemnify its directors and officers against expenses, judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with a pending or completed action, suit or proceeding if the officer or director acted in good faith and in a manner the officer or director reasonably believed to be in the best interests of the corporation.

Our certificate of incorporation provides that, except in certain specified instances, our directors shall not be personally liable to us or our stockholders for monetary damages for breach of their fiduciary duty as directors, except liability for the following:

- any breach of their duty of loyalty to Pacific Ethanol or our stockholders;
- acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; and
 - any transaction from which the director derived an improper personal benefit.

In addition, our certificate of incorporation and bylaws obligate us to indemnify our directors and officers against expenses and other amounts reasonably incurred in connection with any proceeding arising from the fact that such person is or was an agent of ours. Our bylaws also authorize us to purchase and maintain insurance on behalf of any of our directors or officers against any liability asserted against that person in that capacity, whether or not we would have the power to indemnify that person under the provisions of the Delaware General Corporation Law. We have entered and expect to continue to enter into agreements to indemnify our directors and officers as determined by our Board. These agreements provide for indemnification of related expenses including attorneys' fees, judgments, fines and settlement amounts incurred by any of these individuals in any action or proceeding. We believe that these bylaw provisions and indemnification agreements are necessary to attract and retain qualified persons as directors and officers. We also maintain directors' and officers' liability insurance.

The limitation of liability and indemnification provisions in our certificate of incorporation and bylaws may discourage stockholders from bringing a lawsuit against our directors for breach of their fiduciary duty. They may also reduce the likelihood of derivative litigation against our directors and officers, even though an action, if successful, might benefit us and other stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent that we pay the costs of settlement and damage awards against directors and officers as required by these indemnification provisions. At present, there is no pending litigation or proceeding involving any of our directors, officers or employees regarding which indemnification is sought, and we are not aware of any threatened litigation that may result in claims for indemnification.

Insofar as the provisions of our certificate of incorporation or bylaws provide for indemnification of directors or officers for liabilities arising under the Securities Act of 1933, as amended (the "Securities Act"), we have been informed that in the opinion of the Securities and Exchange Commission this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information with respect to the beneficial ownership of our common stock as of April 22, 2009, the date of the table, by:

- each person known by us to beneficially own more than 5% of the outstanding shares of our common stock;
 - each of our directors;
 - each of our current executive officers; and
- all of our directors and executive officers as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission, and includes voting or investment power with respect to the securities. To our knowledge, except as indicated by footnote, and subject to community property laws where applicable, the persons named in the table below have sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them. Shares of common stock underlying derivative securities, if any, that currently are exercisable or convertible or are scheduled to become exercisable or convertible for or into shares of common stock within 60 days after the date of the table are deemed to be outstanding in calculating the percentage ownership of each listed person or group but are not deemed to be outstanding as to any other person or group. Percentage of beneficial ownership is based on 57,649,926 shares of common stock outstanding as of the date of the table.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Director Independence

Our corporate governance guidelines provide that a majority of the Board and all members of the Audit, Compensation and Nominating and Governance Committees of the Board will be independent. On an annual basis, each director and executive officer is obligated to complete a Director and Officer Questionnaire that requires disclosure of any transactions with Pacific Ethanol in which a director or executive officer, or any member of his or her immediate family, have a direct or indirect material interest. Following completion of these questionnaires, the Board, with the assistance of the Nominating and Governance Committee, makes an annual determination as to the independence of each director using the current standards for “independence” established by the Securities and Exchange Commission and NASDAQ, additional criteria set forth in our corporate governance guidelines and consideration of any other material relationship a director may have with Pacific Ethanol.

The Board has determined that all of its directors are independent under these standards, except for (i) Mr. Jones, who is the father-in-law of Ryan W. Turner, one of our former executive officers who resigned in April 2006, and (ii) Mr. Koehler, who serves full-time as our Chief Executive Officer and President.

Policies and Procedures for Approval of Related Party Transactions

Our Board has the responsibility to review and discuss with management and approve, and has adopted written policies and procedures relating to approval or ratification of, interested transactions with related parties. During this process, the material facts as to the related party’s interest in a transaction are disclosed to all Board members or an applicable committee. Under the policies and procedures, the Board is to review each interested transaction with a related party that requires approval and either approve or disapprove of the entry into the interested transaction. An

interested transaction is any transaction in which we are a participant and any related party has or will have a direct or indirect interest. Transactions that are in the ordinary course of business and would not require either disclosure pursuant to Item 404(a) of Regulation S-K under the Securities Act or approval of the Board or an independent committee of the Board pursuant to applicable NASDAQ rules would not be deemed interested transactions. No director may participate in any approval of an interested transaction with respect to which he or she is a related party. Our Board intends to approve only those related party transactions that are in the best interests of Pacific Ethanol and our stockholders.

Other than as described below or elsewhere in this Report, since January 1, 2008, there has not been a transaction or series of related transactions to which Pacific Ethanol was or is a party involving an amount in excess of \$120,000 and in which any director, executive officer, holder of more than 5% of any class of our voting securities, or any member of the immediate family of any of the foregoing persons, had or will have a direct or indirect material interest. All of the below transactions were separately approved by our Board.

Certain Relationships and Related Transactions

Miscellaneous

We are or have been a party to employment and compensation arrangements with related parties, as more particularly described above in Item 11—Executive Compensation. We have entered into an indemnification agreement with each of our directors and executive officers. The indemnification agreements and our certificate of incorporation and bylaws require us to indemnify our directors and officers to the fullest extent permitted by Delaware law.

Construction Relationship

During the year ended December 31, 2008, we contracted with the W.M. Lyles Company (“W.M. Lyles”) for certain construction services associated with the construction of some of our ethanol production facilities. These agreements resulted in payments of approximately \$43,143,000 to W. M. Lyles and approximately \$3,575,000 outstanding as of December 31, 2008.

Lyles United Loan Transactions

In November and December 2007, one of our wholly-owned subsidiaries borrowed, in two loan transactions of equal amount, an aggregate of \$30,000,000 from Lyles. The loans were due in the amount of \$15,000,000 in each of February and March 2009 and were secured by substantially all of the assets of the subsidiary. We guaranteed the repayment of the loan. The first loan accrued interest at the Prime Rate of interest as reported from time to time in The Wall Street Journal, plus two percent (2.00%) and the second loan accrued interest at the Prime Rate of interest as reported from time to time in The Wall Street Journal, plus four percent (4.00%). In connection with the extension of the maturity date of the first loan, we issued to Lyles a warrant to purchase 100,000 shares of our common stock at an exercise price of \$8.00 per share.

In connection with the first loan in November 2007, our subsidiary entered into a Letter Agreement with Lyles under which it committed to award the primary construction and mechanical contract to Lyles or one of its affiliates for the construction of an ethanol production facility at our Imperial Valley site near Calipatria, California (the “Project”), conditioned upon the subsidiary electing, in its sole discretion, to proceed with the Project and Lyles or its affiliate having all necessary licenses and being otherwise ready, willing and able to perform the primary construction and mechanical contract. In the event the foregoing conditions are satisfied and the subsidiary awards the contract to a party other than Lyles or one of its affiliates, the subsidiary will be required to pay to Lyles, as liquidated damages, an amount equal to \$5.0 million.

In November 2008, we restructured the loans from Lyles. We assumed all of the subsidiary’s obligations under the loans and issued a single promissory note in favor of Lyles in the principal amount of \$30,000,000. The new loan is due March 15, 2009 and accrues interest at the Prime Rate of interest as reported from time to time in The Wall Street Journal, plus three percent (3.00%). We also terminated Lyles’ security interest in our subsidiary’s assets. We also entered into a joint instruction letter with Lyles instructing a subsidiary to remit directly to Lyles any cash distributions received on account of the subsidiary’s ownership interests in the initial obligor subsidiary or Front Range Energy, LLC until such time as the loan is repaid in full. In addition, the subsidiary entered into a limited recourse guaranty in favor of Lyles to the extent of such cash distributions. Another subsidiary also guaranteed our obligations as to the loan and pledged all of its assets as security therefor. Finally, the initial obligor subsidiary paid all accrued and unpaid interest on the initial loans through November 6, 2008 in the aggregate amount of \$2,205,000.

We, including through our subsidiaries, paid Lyles an aggregate of \$2,683,000 in interest on the loans for the year ended December 31, 2008 and through the filing of this Report.

Lyles Mechanical Loan Transaction

In October 2008, we issued an unsecured promissory note to Lyles Mechanical Co., a Lyles affiliate. The promissory note is for the principal amount of \$1,500,000 for final payment due to Lyles Mechanical Co. for final construction our ethanol production facility in Stockton, California. Interest on the unpaid principal amount of the promissory note accrues at an annual rate equal to the Prime Rate as reported from time to time in The Wall Street Journal plus two percent (2.00%). All principal and unpaid interest on the promissory note is due on March 31, 2009.

Forbearance Agreements

In February 2009 we and certain of our subsidiaries as well as Lyles and Lyles Mechanical Co. entered into a forbearance agreement relating to the loans described above. In March 2009, we and certain of our subsidiaries as well as Lyles and Lyles Mechanical Co. entered into an amended forbearance agreement relating to the loans described above. The amended forbearance agreement provides that Lyles and Lyles Mechanical Co. will forbear from exercising their rights and remedies under their promissory notes until the earliest to occur of (i) April 30, 2009; (ii) the date of termination of the forbearance period due to a default under the amended forbearance agreement; and (iii) the date on which all of the obligations under the promissory notes and related documents have been paid and discharged in full and the promissory notes have been canceled.
