FORWARD LOOKING STATEMENTS

When used in this Report, the words “may,” “will,” “expect,” “anticipate,” “continue,” “estimate,” “intend,” and similar expressions are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) regarding events, conditions and financial trends which may affect the Company’s future plans of operations, business strategy, operating results and financial position. Such statements are not guarantees of future performance and are subject to risks and uncertainties and actual results may differ materially from those included within the forward-looking statements because of various factors.

The following discussion and analysis should be read in conjunction with our financial statements and the notes associated with them contained elsewhere in this Report. This discussion should not be construed to imply that the results discussed in this Report will necessarily continue into the future or that any conclusion reached in this Report will necessarily be indicative of actual operating results in the future. The discussion represents only the best assessment of management.

PART I

As used in this Annual Report on Form 10-K (“Annual Report”), references to “we,” “us,” “our,” “Focus Gold,” or “our Company” refers to Focus Gold Corporation, a Nevada corporation.

ITEM 1. BUSINESS

Corporate History

Focus Gold is an exploration stage issuer focused on the acquisition and development of mining properties. Focus Gold left shell company status in October 2010 when it acquired an option on 16 mining claims in the Canadian Province of Ontario from Victoria Gold Corporation. On December 31, 2010, Focus Gold acquired an option on the Huicicila gold project in Nayarit, Mexico through its subsidiary Focus Gold Mexico Limited (“Focus Mexico”) which acquired 100% of the capital stock of Fairfields Gold S.A. de C.V. (“Fairfields”). In February 2011, Focus Mexico through Fairfields expanded its holdings of mining claims by acquiring five additional gold and silver mining claims adjacent to the Huicicila gold project in Nayarit, Mexico. In fiscal 2012, Focus Gold acquired Metallum Resources, PLC through its subsidiary Focus Celtic Gold Corporation (“Focus Celtic”). During the year ended February 28, 2013, Focus Gold sold its interest in Focus Celtic for \$2,500,000 to European Resource Capital Inc. and Focus Mexico sold its interest in Fairfields for \$60,000 to three individuals.

Focus Gold was formed as a Nevada corporation on December 23, 2005 under the name Real Estate Referral Center, Inc. On December 27, 2005, the Company sold 2,500,000 shares of its Common Stock at \$0.001 per share to its officers for proceeds of \$5,000. On June 21, 2006, the Securities and Exchange Commission declared the Company's Form SB-2 Registration Statement effective. The Company sold 982,000 shares of Common Stock to 55 individuals. On May 22, 2009, the Company changed its name to Gold Bag, Inc. and completed a 10:1 forward split paid as a dividend. On June 6, 2011, the Company changed its name to Focus Gold Corporation and its common stock began trading under the symbol "FGLD". From June 1, 2009 through June 3, 2011, the Company's common stock traded under the symbol "GBGI." Focus Gold consolidated its common stock 1:20 on January 14, 2013.

Our principal executive and head office in the United States is located at 4695 MacArthur Court, Suite 1430, Newport Beach, CA 92660, U.S.A. Our registered agent is The Corporation Trust Company of Nevada with its office located at 311 S. Division Street, Carson City, NV 89703.

Narrative Description of Business

The Company has developed a private equity strategy to acquiring mining properties following several key investment criteria:

- i) Primarily gold, silver, coal, oil and gas;
- ii) Assets must be in safe governmental jurisdictions primarily in the Americas. The Company will seek geographic diversification across its portfolio;
- iii) Looking to invest \$500,000 to \$5 million in projects with significant exploration upside where returns are at their highest;
- iv) Will look for assets ranging from grass roots exploration to near production. The Company will look to have a balanced portfolio of properties across this spectrum so as to maximize returns while also mitigating risk;
- v) Investments may be structured as 100% control, minority/majority equity positions or debt depending on the transaction type and potential return;
- vi) Where possible, the Company will acquire properties with existing capable management teams and then provide senior level experienced management oversight;
- vii) Once a property has matured to a sizable level, the Company will seek to divest of the property either through a strategic sale or through a spin-off into a stand-alone public company.

Employees

At the close of our fiscal year, February 28, 2013, we had no full-time employees.

Competition

We compete with major mining companies and other natural mineral resource companies in the acquisition, exploration, financing and development of new prospects. Many of these companies are larger and better capitalized than we are. There is significant competition for the limited number of acquisition and exploration opportunities. Our competitive position depends upon our ability to successfully and economically explore, acquire and develop new and existing mineral prospects. Factors that allow producers to remain competitive in the market over the long term include the quality and size of their ore bodies, costs of operation, and the acquisition and retention of qualified

employees. We also compete with other mining companies for skilled mining engineers, mine and processing plant operators and mechanics, geologists, geophysicists and other technical personnel. This could result in higher turnover and greater labour costs.

Securities Authorized for Issuance under Equity Compensation Plans

On February 7, 2011, the Board of Directors adopted the 2011 STOCK & STOCK OPTION COMPENSATION PLAN (the "Plan") for employees, directors and other persons associated with the Company. The Plan is intended to advance the best interests of the Company by providing those persons who have a substantial responsibility for its management and growth with additional incentive and by increasing their proprietary interest in the success of the Company, thereby encouraging them to maintain their relationships with the Company. Further, the availability and offering of stock options and common stock under the Plan supports and increases the Company's ability to attract and retain individuals of exceptional talent upon whom, in large measure, the sustained progress, growth and profitability of the Company depends. The Board reserved 500,000 shares of common stock for issuance under the Plan. As of the fiscal year end, February 28, 2013, the Board had granted options to purchase 320,000 shares of common stock at \$10.00 per share to 7 persons.

On October 16, 2012, the Board of Directors adopted the 2012 STOCK & STOCK OPTION COMPENSATION PLAN (the "Plan") for employees, directors and other persons associated with the Company. The Plan is intended to advance the best interests of the Company by providing those persons who have a substantial responsibility for its management and growth with additional incentive and by increasing their proprietary interest in the success of the Company, thereby encouraging them to maintain their relationships with the Company. Further, the availability and offering of stock options and common stock under the Plan supports and increases the Company's ability to attract and retain individuals of exceptional talent upon whom, in large measure, the sustained progress, growth and profitability of the Company depends. The Board reserved 2,500,000 shares of common stock for issuance under the Plan. As of the fiscal year end, February 28, 2013, the Board had granted 500,000 shares of common stock at \$.16 per share (\$80,000) to 1 person for consulting services.

DESCRIPTION OF SECURITIES

Common Stock

The Company is authorized to issue 50,000,000 shares of common stock, par value \$0.00001 per share ("Common Stock"). Holders of Common Stock are entitled to one vote per share and to receive dividends or other distributions when and if declared by the Board of Directors.

Our Common Stock does not have pre-emptive rights, meaning that our common shareholders' ownership interest would be diluted if additional shares of our Common Stock are subsequently issued, and the existing shareholders are not granted the right, in the discretion of the Directors, to maintain their percentage ownership interest in the Company. This lack of protection from dilution to minority shareholders could allow our Directors to issue additional shares of our Common Stock to persons friendly with our existing management, thus preventing any change in control of the Company.

Upon any liquidation, dissolution or winding-up of the Company, our assets, after the payment of debts and liabilities and any liquidation preferences of, and unpaid dividends on, any class of Preferred Stock then outstanding, will be distributed pro-rata to the holders of the Common Stock. The holders of the Common Stock have no right to require us to redeem or purchase their shares.

The holders of Common Stock are entitled to share equally in dividends, if and when declared by our Directors, out of funds legally available therefore, subject to the priorities given to any class of Preferred Stock which may be issued.

No Cumulative Voting

Holders of shares of our Common Stock do not have cumulative voting rights, which means that the holders of more than 50% of the outstanding shares, voting for the election of directors, can elect all of the directors to be elected, if they so choose, and, in that event, the holders of the remaining shares will not be able to elect any of our directors.

Preferred Stock

The Company is authorized to issue 100,000,000 shares of Preferred stock, \$0.00001 par value

On November 29, 2012 a vote by stockholders holding shares of the Company's voting stock approved the amendment of the Company's articles of incorporation to increase the authorized number of shares of stock from 350,000,000 to 1,100,000,000. Effective the January 14, 2013, the Company reduced its authorized common stock and its issued and outstanding common stock on a 20:1 reverse split, reducing the authorized number of shares of common stock from 1,000,000,000 to 50,000,000. All per share amounts in this report and the accompanying consolidated financial statements and Notes thereto have been adjusted to reflect the 20:1 reverse split to the Company's common stock.

On October 19, 2012, the board of directors approved the designation of the Company's Series A Preferred Stock consisting of 3,000,000 shares and Series B Non-Voting 6% Convertible Preferred Stock consisting of 7,000,000 shares.

Series A Preferred Stock:

Consists of Three Million (3,000,000) shares of \$.00001 par value. The Series A Preferred rank senior to the common stock and all other shares of preferred stock that may be later authorized. Each outstanding share of Series A Preferred Stock shall have two hundred fifty (250) votes on all matters submitted to the stockholders of the Company and shall vote with the common stock on all matters. The shares of Series A Preferred shall (i) not have any liquidation preference; (ii) not accrue, earn, or participate in any dividends; and (iii) shall be subject to redemption by the Corporation at a price of two cents (\$.02) per share. In addition to any other rights provided by law, the Company shall not, without first obtaining the affirmative vote or written consent of the holders of sixty percent (60%) of the outstanding shares of Series A Preferred, do any of the following:

take any action which would either alter, change or affect the rights, preferences, privileges or restrictions of the Series A Preferred or increase the number of shares of such series authorized hereby or designate any other series of Preferred Stock;

· increase the size of any equity incentive plan(s) or arrangements;

· make fundamental changes to the business of the Company;

· make any changes to the terms of the Series A Preferred or to the Company's Articles of Incorporation or Bylaws, including by designation of any stock;

· create any new class of shares having preferences over or being on a parity with the Series A Preferred as to dividends or assets, unless the purpose of creation of such class is, and the proceeds to be derived from the sale and issuance thereof are to be used for, the retirement of all Series A Preferred then outstanding;

· make any change in the number of authorized directors, currently five (5); or
· repurchase any of the Company's common stock;

Any shares of Series A Preferred acquired by the Company by reason of redemption shall be returned to the status of undesignated and unissued shares of preferred stock of the Company.

Series B Non-Voting 6% Convertible Preferred Stock

Consists of Seven Million (7,000,000) shares of \$.00001 par value and a stated value of \$100 per share. The Series B Non-Voting 6% Convertible Preferred Stock is non-voting.

Edgar Filing: FOCUS GOLD Corp - Form 10-K

Conversion rights: Each share of Series B Non-Voting 6% Convertible Preferred Stock is convertible at any time at the election of the holder into that number of shares of the Company's common stock determined by dividing the stated value of such shares of preferred stock into the conversion price. The conversion price is defined as twenty percent (20%) of the lowest closing bid price of the Company's common stock during five (5) trading days immediately preceding a conversion date.

Dividend rights: Holders shall be entitled to receive cumulative dividends at a rate per share of 6% per annum, payable in arrears on June 30 and December 31 and on each conversion date in cash or at the Company's irrevocable option, shares of the Company's common stock. The number of shares issuable is defined as 50% of the previous ten (10) day variable weighted average price of the Company's common stock, with certain limitations. Dividends on the Series B Non-Voting 6% Convertible Preferred Stock shall accrue daily commencing on the original issuance date and shall be deemed to accrue from such date whether or not earned or declared and whether or not there are profits, surplus or other funds of the Company legally available for the payment of dividends.

Liquidation rights: Upon any liquidation, dissolution or winding up of the Company, the holders shall be entitled to receive out of the assets an amount equal to the stated value, plus any accrued and unpaid dividends before payment is made to the holders of junior securities such as common stock or all other common stock equivalents of the Company other than those securities which are explicitly senior or pari passu to Series B Non-Voting 6% Convertible Preferred Stock.

Dividend Policy

To date, we have not paid any dividends. The payment of dividends, if any, on our Common Stock in the future is within the sole discretion of our Directors and will depend upon our earnings, capital requirements, financial condition, and other relevant factors. At present, the Company does not intend to declare any dividends on the Common Stock in the foreseeable future, but instead intends to retain all earnings, if any, for use in our business operations.

Transfer Agent

The Company uses Securities Transfer Corporation located at 2591 Dallas Parkway, Suite 102, Frisco, TX 75034 as its transfer agent.

The Ontario Rights. - In October 2010, Focus Gold acquired an option on 16 mining claims in the Canadian Province of Ontario from Victoria Gold Corporation. On November 27, 2012, Focus Gold and Victoria Gold Corporation terminated the option agreement.

The Mexico Rights. - On December 31, 2010, Focus Gold acquired an option on the Huicicila gold project in Nayarit, Mexico. Subsequently, Focus Gold expanded its holdings of mining claims by acquiring five additional gold and silver mining claims adjacent to the Huicicila gold project in Nayarit, Mexico. Focus Gold's wholly owned subsidiary, Focus Gold Mexico Limited, owns Fairfield's Gold S.A. de C.V. which has an option agreement on the Huicicila gold project in Nayarit, Mexico from Ramon Farias. On February 8, 2013, the Company's wholly owned subsidiary Focus Gold Mexico Limited entered into a share purchase agreement with three individuals, Santiago Leon Avaleyra, Eduardo Zayas Dueñas and Carmen Leticia Calderon Leon, as purchasers, to sell of 50 shares of common stock in Fairfield's Gold, S.A. de C.V. for \$1,900,000 or purchasers can return the original consideration from the December 31, 2010 transaction (512,500 shares of the Company's common stock) on the closing date of February 20, 2013. On closing, the Company received as consideration 512,501 shares of its common stock with an aggregate fair value as at February 8, 2013 of \$66,625. The 512,501 shares of common stock received has been recorded as treasury stock on the consolidated balance sheet pending cancellation.

The Celtic Rights. - On October 25, 2011, Focus Gold completed the acquisition of a 98.65% interest in Metallum Resources PLC ("Metallum"). The acquisition gave Focus Gold indirect ownership through Focus Celtic Gold Corporation ("Celtic") of thirty one exploration licenses in Northern Ireland, Scotland and Ireland covering in excess of 388,000 hectares. On October 5, 2012, Focus Gold entered an agreement with European Resource Capital Inc. ("ERC") for the sale of 24,420,000 shares of common stock of Focus Celtic Gold Corporation ("Celtic") (the owner of Metallum) 64,987,982 Metallum options providing the acquirer with the option to acquire an additional 64,987,982 common shares of Metallum for £0.10 per share through December 31, 2012 and amounts receivable from Celtic of \$217,031 for \$2,553,778 (based upon the CAD to USD exchange rate). ERC issued Focus Gold an eight percent (8%) Two Million Five Hundred Thousand Dollar Promissory Note payable in Canadian Dollars that is secured by the 24,420,000 shares of Celtic common stock.

The results from the operations of the Mexico and Celtic Rights have been included in discontinued operations in the Company's consolidated statement of operations for the years ended February 28, 2013 and February 29, 2012.

Focus Gold intends to restructure itself and has engaged an outside consultant to identify, review, and assess additional mining properties for purchase.

Focus Gold is in the zone of insolvency. Accordingly, Focus Gold must consider the interests of both shareholders and creditors. As Focus Gold strives to repay its debt and secure capital to create revenue in future periods, there will be dilution to existing stockholders caused by the issuance of common stock for cash, services, and in exchange for debt. While management seeks to minimize the dilution to existing stockholders, multiple factors beyond management's control, such as general economic conditions, the availability of and terms available for debt and equity funding, and the trading price of the Company's common stock, have a significant impact on this effort. Focus Gold's effort to restructure its operations and to report positive cash flow and profits is expected to take 12-18 months. Investors are cautioned that these efforts may not be successful.

The results for the year ended February 28, 2013 do not provide a meaningful comparison against the results during the year ended February 29, 2012.

Critical Accounting Policies and Estimates

Critical Accounting Policies

The selection and application of accounting policies is an important process that has developed as our business activities have evolved and as the accounting rules have changed. Accounting rules generally do not involve a selection among alternatives, but involve an implementation and interpretation of existing rules, and the use of judgment, to the specific set of circumstances existing in our business. Discussed below are the accounting policies that we believe are critical to our financial statements due to the degree of uncertainty regarding the estimates or assumptions involved and the magnitude of the asset, liability, revenue or expense being reported. See Note 2, “Summary of Significant Accounting Policies,” in our Consolidated Financial Statements for a discussion of those policies.

Mineral Properties, Leases and Exploration and Development Costs

The Company accounts for mineral properties in accordance with ASC 930: *Extractive Activities-Mining*. Costs of acquiring mineral properties and leases are capitalized by project area upon purchase of the associated. Mineral properties are periodically assessed for impairment of value and any diminution in value.

The Company accounts for mineral exploration and development costs in accordance with ASC 932: *Extractive Activities*. All exploration expenditures are expensed as incurred, previously capitalized costs are expensed in the period the property is abandoned. Expenditures to develop new mines, to define further mineralization in existing ore bodies, and to expand the capacity of operating mines, are capitalized and amortized on units of production basis over proven and probable reserves.

Any option payments received by the Company from third parties or tax credits refunded to the Company are credited to the capitalized cost of the mineral property or to exploration costs as applicable. If payments received exceed the capitalized cost of the mineral property or the exploration costs incurred, the excess is recognized as income in the year received.

The amounts shown for mineral properties do not necessarily represent present or future values. Their recoverability is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development, and future profitable production or proceeds from the disposition thereof.

Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Financial Statements and the related notes. This discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, expectations and intentions. Our actual results and the timing of certain events could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under “Risks Relating to Our Business,” “Description of Business” and elsewhere in this document. See “Forward-Looking Statements.”

Results of Operations – Comparison of Years Ending February 28, 2013 and 2012

We generated no revenues for the years ended February 28, 2013 or February 28, 2012. Total expenses from continuing operations decreased to \$3,009,126 in the year ended February 28, 2013 compared to the amount of \$3,642,752 recorded for the year ended February 29, 2012. This decrease was primarily attributable to the Company’s reduction of exploratory activities in Mexico and the lack of stock option benefits in the current period, and other items as noted in the discussion below regarding the following items:

Exploration expense was \$80,000 for the year ended February 28, 2013, compared to \$232,779 expense in the prior year. The reduction of expenses related to exploration expenses is attributable to a reduction in funding available to fund exploration expenditures in the current year.

General and Administrative expenses decreased approximately 74%, or \$2,095,621, for the year ended February 28, 2013 as compared to the comparable prior year period. This decrease was primarily attributable to the reduction in stock based compensation recorded in the year ended February 29, 2012. The components of General and Administrative expenses are:

Consulting expenses were \$132,977 for the year ended February 28, 2013, as compared to \$348,853 in the comparable prior year period. This decrease was primarily attributable to the ending of consulting contracts executed in the year ended February 28, 2011 and February 29, 2012.

Management fees and salaries decreased by approximately 55% to \$137,771 for the year ended February 28, 2013, as compared with the year ended February 29, 2012. This decrease was primarily attributable to the cessation of fees payable to the Company's former director of exploration and a reduction in fees payable to Grant White former president and CEO of the Company as well as adjustments of \$23,810 which reduced the aggregate management fees and salaries expenses.

Legal and professional expenses increased approximately \$173,806 or 108% for the year ended February 28, 2013, as compared to the comparable prior year period. This increase was primarily attributable to expenses related to legal and audit costs related to the complexity of our financial reporting and the costs of maintaining litigation defense.

Stock based compensation expense was \$30,000 for the year ended February 28, 2013, compared to \$1,510,167 for the year ended February 29, 2012. This expense is attributable to the granting of stock options to directors, officers in the fiscal year ended February 28, 2011 and the amortization of resultant stock based compensation expenses.

Other income and expenses for the year ended February 28, 2013 totaled \$2,138,314 compared to \$573,540 in the year ended February 29, 2012, composed of \$80,097 (2012 - \$27,348) of interest income from the Company's note receivable; \$747,779 (2012 - \$17,076) from the amortization of the discount recorded on notes payable; \$1,733,594 (2012 - \$475,153) of interest and financial fees. This increase in interest and financing fees is attributable to the accounting for the Company's additional financial instruments in the year ended February 28, 2013 and the accounting for interest and financial fee recording for derivative liabilities. In addition, other income and expenses included a gain on extinguishment of debt recorded of \$316,587 with no comparative for the prior period; income from changes in the fair value of derivative liabilities in the year ended February 28, 2013 was \$603,961 with no comparative for the prior year; an impairment loss on the fair value of the Company's note receivable of \$545,849 with no comparative for the prior period, and loss on settlement of amounts payable in the year ended February 28, 2013 was \$111,736 with \$108,659 recorded in the prior period. Management expects the amount of other expenses related to the amortization of debt discounts to be amortized in the fiscal year ended 2015. Derivative liabilities fair values are tested at the end of each reporting period and changes in fair value are recorded in the consolidated statement of operations as other incomes or expenses.

Income or Loss from Discontinued Operations

We incurred a loss from discontinued operations of \$9,250,950 for the year ended February 28, 2013 compared to a loss from discontinued operations of \$1,931,315 for the year ended February 29, 2012. Discontinued operations for the year ended February 28, 2013 include impairment charges of \$7,695,828 related to the impairments of our former subsidiaries mineral properties and a net gain on the disposition of the discontinued subsidiaries of \$295,898) and amortization of debt discounts of \$366,084. Additionally, discontinued operations for the year ended February 29, 2012 includes amortization of debt discount of \$120,516.

Management does not believe the percentage increases in expenses is indicative of future increases. Until the Company engages in exploration activities for a sufficient time to include comparable prior year periods, management is unable to predict the anticipated increases in expenses.

Liquidity and Capital Resources

Although incorporated in 2005, Focus Gold began its current operations in October 2010, and has not as yet attained a level of operations which allows it to meet its current overhead. We do not contemplate attaining profitable operations until year end 2014, nor is there any assurance that such an operating level can ever be achieved.. While Focus Gold has funded its initial operations with private placements of equity and debt, there can be no assurance that adequate financing will continue to be available to us and, if available, on terms that are favourable to us. These factors raise substantial doubt about our ability to continue as a going concern and the accompanying consolidated financial statements do not include any adjustments related to the recoverability or classification of asset carrying amounts or the amounts and classification of liabilities that may result should we be unable to continue as a going concern.

As of February 28, 2013, the Company's cash balance was \$1,237. Accounts payable and accrued liabilities as well as short term payments under contracts as of February 28, 2013 totaled \$3,102,152. The Company's working capital as at February 28, 2013 was a deficit of \$3,100,915.

During the years ended February 28, 2013 and February 29, 2012, our sole means of meeting our cash flow requirements was through the sale of our common stock and loans. In the year ended February 28, 2013 we generated net proceeds of \$nil from the sale of stock, (2012 - \$1,811,434) and \$604,000 from the issuance of debt instruments (2011 - \$570,000). The net proceeds from these stock offerings and issuances of debt securities were used to satisfy operations requirements and to conduct exploration activities on the Company's former mineral properties.

Other Activities:

The Company is actively looking for acquisitions and joint venture opportunities which can build out its portfolio of mining properties.

Contractual Obligations

There are no contractual obligations other than those described in the notes to the audited consolidated financial statements.

Off-balance sheet arrangements

There are no off balance sheet arrangements.

Disclosure of Commission Position on Indemnification for Securities Act Liabilities

Our Articles of Incorporation provide that we must indemnify and hold harmless directors, officers, employees, and agents of the Company, as and to the extent permitted by the Nevada Revised Statutes. One of our officers or directors could take the position that this duty on our behalf to indemnify the director or officer may include the duty to indemnify the officer or director for the violation of securities laws.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to our Articles of Incorporation, Bylaws, Nevada laws or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by one of our directors, officers, or control persons, and the successful defense of any action, suit or proceeding) is asserted by such director, officer or control person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by a controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

ITEM 6A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our Company is a smaller reporting company as defined by Rule 12b-2 of the Exchange Act, and as such, is not required to provide the information required under this item.

ITEM 7. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Financial statements are included and may be found at pages F-1 through F-31.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 8A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of February 28, 2013, the end of the period covered by this report, an evaluation was performed by our officer, Gordon F. Lee, who serves as our chief executive officer and our chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934 (“Exchange Act”). Such disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company is accumulated and communicated to the appropriate management on a basis that permits timely decisions regarding disclosure.

Based on this evaluation, Mr. Lee has concluded that the Company’s disclosure controls and procedures are not effective because of the identification of a material weakness in our internal control over financial reporting which is identified below, which we view as an integral part of our disclosure controls and procedures.

The material weakness relates to the lack of segregation of duties in financial reporting, as our financial reporting and most functions are performed by an external consultant with no oversight by a professional with accounting expertise. Mr. Lee does not possess accounting expertise and our Company does not have an audit committee. This weakness is due to the Company’s lack of working capital to hire additional staff. To remedy this material weakness, we intend to engage an accountant or outside accounting firm to assist with financial reporting as soon as our finances will allow.

Management’s Report on Internal Control Over Financial Reporting

Edgar Filing: FOCUS GOLD Corp - Form 10-K

Management of the Company (Mr. Gordon F. Lee) is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Company's internal control over financial reporting includes those policies and procedures that:

pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;

provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and

provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In connection with the preparation of our annual financial statements, we have assessed the effectiveness of internal control over financial reporting as of February 28, 2013, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, or the COSO Framework. Management's assessment included an evaluation of the design of our internal control over financial reporting and testing of the operational effectiveness of those controls. Based on this evaluation as discussed above, Mr. Lee determined that as of February 28, 2013, the Company has a material weakness in our internal control over financial reporting that relates to the lack of segregation of duties in financial reporting.

Inherent Limitations on Effectiveness of Controls

Internal control over financial reporting has inherent limitations which include but is not limited to the use of independent professionals for advice and guidance, interpretation of existing and/or changing rules and principles, segregation of management duties, scale of organization, and personnel factors. Internal control over financial reporting is a process which involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements on a timely basis, however these inherent limitations are known features of the financial reporting process and it is possible to design into the process safeguards to reduce, though not eliminate, this risk. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

We are a "smaller" company filer and are required to comply with the internal control reporting and disclosure requirements of Section 404 of the Sarbanes-Oxley Act for fiscal years ending on or after July 15, 2007. Although we are working to comply with these requirements, we have no financial personnel other than Mr. Lee, making compliance with Section 404 - especially with segregation of duty control requirements—very difficult and cost ineffective, if not impossible. While the SEC has indicated it expects to issue supplementary regulations easing the burden of Section 404 requirements for small entities like us, such regulations have not yet been issued.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal controls over financial reporting during the fourth quarter of the year ended February 28, 2013 that have materially affected or are reasonably likely to materially affect our internal controls over financial reporting.

Attestation Report of the Registered Public Accounting Firm

This report does not include an attestation report of our registered public accounting firm regarding our internal controls over financial reporting. The disclosure contained under this Item was not subject to attestation by our registered public accounting firm in this annual report.

ITEM 8B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

The following information provided under this PART III presents the information as it relates to the Directors and Executive Officers as was in effect on February 28, 2013.

The following table identifies our current executive officers and directors, their respective offices and positions, and their respective dates of election or appointment:

Name		Dates of Appointment
Gordon F. Lee	Chief Executive Officer, Chief Financial Officer and Director	August 29, 2012
Richard O. Weed	Secretary and Director	August 29, 2012

There is no arrangement or understanding between our sole officer and director and any other person pursuant to which any director or officer was or is to be selected as a director or officer, and there is no arrangement, plan or understanding as to whether non-management shareholders will exercise their voting rights to continue to elect the current board of directors. There are also no arrangements, agreements or understandings to our knowledge between non-management shareholders that may directly or indirectly participate in or influence the management of our affairs.

Business Experience

Gordon F. Lee, age 62, Board Member, Chief Executive Officer, Chief Financial Officer. Mr. Lee has 30 years of direct experience in the securities and investment industries, as a private investment banker, securities adviser, corporate strategist, entrepreneur and significant investor, Lee has made his footprint over the landscape. The first eight years of his career were spent in the public sector of capital formation for oil and gas companies, focused on corporate securities matters, including advising small business clients, assisting companies with raising money, going public, closing various opportunities in structuring transactions such as mergers, acquisitions and joint ventures. After several years in the Canadian markets in the capacity of Chief Advisor, Corporate Finance, he became an investment banker and moved to the US. He is currently focused on public venture capital and investing in high growth companies in various industry sectors.

Mr. Lee holds the following academic credentials: BA, 1975, University of Ontario (Guelph); LLB, 1977, University of Toronto. Mr. Lee is a Director and the Chief Executive Officer of Gold Crest Mines, Inc.

During the past ten years, Mr. Lee has not been involved in any legal proceedings that are material to an evaluation of his ability or integrity under Item 401(f) of Regulation S-K.

Richard O. Weed, age 50, Board Member and Secretary. Mr. Weed is a partner in Weed & Co. LLP, a Newport Beach, California law firm that provides advice on capital formation and business strategy, including litigation. Mr. received a B.B.A. degree from the University of Texas at Austin in 1984, a Juris Doctor degree from St. Mary's University School of Law in 1987 and an M.B.A degree from the University of Southern California in 1992. Mr.

Weed devotes approximately 20% of his time to our business affairs.

During the past ten years, Mr. Weed has not been involved in any legal proceedings that are material to an evaluation of his ability or integrity under Item 401(f) of Regulation S-K.

Significant Employees

Other than the executive officer named herein, the Company does not have any employees.

Family Relationships

None.

Involvement In Legal Proceedings

To the best of our knowledge, during the past five years, none of our directors or executive officers were involved in any of the following: (1) any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time; (2) any conviction in a criminal proceeding or being subject to a pending criminal proceeding (excluding traffic violations and other minor offenses); (3) being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; and (4) being found by a court of competent jurisdiction (in a civil action), the SEC or the Commodities Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended or vacated.

Nomination Procedure for Directors

The Company does not have a standing nominating committee; recommendations for candidates to stand for election as directors are made by the board of directors. The Company has not adopted a policy that permits shareholders to recommend candidates for election as directors or a process for shareholders to send communications to the board of directors.

Audit Committee Financial Expert

The Company has no financial expert. Management believes the cost related to retaining a financial expert at this time is prohibitive. The Company's Board of Directors has determined that it does not presently need an audit committee financial expert on the Board of Directors to carry out the duties of the Audit Committee. The Company's Board of Directors has determined that the cost of hiring a financial expert to act as a director of the Company and to be a member of the Audit Committee or otherwise perform Audit Committee functions outweighs the benefits of having a financial expert on the Audit Committee.

Identification of Audit Committee

The Company does not have a separately-designated standing audit committee. Rather, the Company's entire board of directors performs the required functions of an audit committee.

The Company does not have a written audit committee charter or similar document.

Code of Ethics

The Company does not have a written Code of Ethics or similar document.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Exchange Act requires directors and certain officers of the Company, as well as persons who own more than ten percent (10%) of a registered class of the Company's equity securities ("Reporting Persons"), to file reports with the SEC. The Company believes that during fiscal year ended February 28, 2013; all Reporting Persons timely complied with all filing requirements applicable to them.

ITEM 11. EXECUTIVE COMPENSATION

Summary Compensation Table

The table below shows certain compensation information for services rendered in all capacities for the fiscal years ended February 28, 2013, 2012 and 2011. Other than as set forth herein, no executive officer's salary and bonus exceeded \$100,000 in any of the applicable years. The following information includes the dollar value of base salaries, bonus awards, the number of stock options granted and certain other compensation, if any, whether paid or deferred.

Name and Principal Position	Fiscal Year End	Annual Compensation		Long Term Compensation		
		Salary (\$)	Bonus (\$)	All other compensation and LTIP Payouts (\$)	Restricted Shares or Restricted Share Units (#)	Options/SARS Granted (#)
Gordon F. Lee, CEO, CFO and Director	2013	\$40,000	–	– \$	10,000	–
	2012	\$0	–	–	–	–
Richard O. Weed Secretary and Director *	2013	\$40,000	–	– \$	10,000	–
	2012	\$9,000	–	–	–	–

* Mr. Weed is a partner in the law firm of Weed & Co. LLP. Weed & Co. LLP billed the Company \$139,500 for legal services during the fiscal year ended February 28, 2013.

Employment Agreements with Management

The Company entered into an agreement with Weed & Co. LLP, a law firm with whom Mr. Weed is a partner. Under the terms of this agreement, the Company pays Weed & Co. LLP for certain specified legal services. Weed & Co. LLP billed the Company \$139,500 for legal services during the fiscal year ended February 28, 2013.

Outstanding Equity Awards

On February 7, 2011, the Board of Directors adopted the 2011 STOCK & STOCK OPTION COMPENSATION PLAN (the “Plan”) for employees, directors and other persons associated with the Company. The Plan is intended to advance the best interests of the Company by providing those persons who have a substantial responsibility for its management and growth with additional incentive and by increasing their proprietary interest in the success of the Company, thereby encouraging them to maintain their relationships with the Company. Further, the availability and offering of stock options and common stock under the Plan supports and increases the Company's ability to attract and retain individuals of exceptional talent upon whom, in large measure, the sustained progress, growth and profitability of the Company depends. The Board reserved 500,000 shares of common stock for issuance under the Plan. As of the fiscal year end, February 28, 2013, the Board had granted options to purchase 320,000 shares of common stock at \$10.00 per share to 7 persons.

On October 16, 2012, the Board of Directors adopted the 2012 STOCK & STOCK OPTION COMPENSATION PLAN (the "Plan") for employees, directors and other persons associated with the Company. The Plan is intended to advance the best interests of the Company by providing those persons who have a substantial responsibility for its management and growth with additional incentive and by increasing their proprietary interest in the success of the Company, thereby encouraging them to maintain their relationships with the Company. Further, the availability and offering of stock options and common stock under the Plan supports and increases the Company's ability to attract and retain individuals of exceptional talent upon whom, in large measure, the sustained progress, growth and profitability of the Company depends. The Board reserved 2,500,000 shares of common stock for issuance under the Plan. As of the fiscal year end, February 28, 2013, the Board had granted 500,000 shares of common stock at \$.16 per share (\$80,000) to 1 person for consulting services.

Directors' Compensation

The Company does not have a fixed policy concerning the compensation of persons serving as directors. However, board members were granted certain stock options in February 2011.

Grant R. White, a former director, received a five year option to purchase 200,000 common shares at \$10.00 per share as part of his employment agreement.

Dorian L. (Dusty) Nicol, a former director, received a five year option to purchase 50,000 common shares at \$10.00 per share as part of his employment agreement to join the Corporation as Director of Exploration.

Eduardo Zayas, a former director, received a five year option to purchase 17,500 common shares at \$10.00 per share.

Larry Segerstrom, a former director, received a five year option to purchase 10,000 common shares at \$10.00 per share.

Richard O. Weed received a five year option to purchase 10,000 common shares at \$10.00 per share.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following alphabetical table sets forth the ownership, as of May 31, 2013, of our capital stock by each person known by us to be the beneficial owner of more than 5% of our outstanding Common Stock, Series A Preferred Stock, and Series B Non-Voting 6% Convertible Preferred Stock and for each of our directors and executive officers; and all of our directors and executive officers as a group. The information presented below regarding beneficial ownership of our voting securities has been presented in accordance with the rules of the SEC and is not necessarily indicative of ownership for any other purpose. This table is based upon information derived from our stock records. Unless otherwise indicated in the footnotes to this table and subject to community property laws where applicable, we believe that each of the shareholders named in this table has sole or shared voting and investment power with respect to the shares indicated as beneficially owned. Except as set forth below, applicable percentages are based upon 19,884,604 shares of Common Stock outstanding as of May 20, 2013.

Name of Beneficial Owner	Title of Class	Amount and	
		Nature of Beneficial Ownership	Percentage of Class
Gordon F. Lee, Chief Executive Officer, Chief Financial Officer and Director (1)	Common Stock	10,000,000	50%

	Series B	1,850.2	100%

(1) Gordon F. Lee, Chief Executive Officer, Chief Financial Officer and Director bought 5,000,000 shares of common stock and a 5 year Common Stock Purchase Warrant to acquire 5,000,000 shares of common stock at \$.02 per share

from the Company on April 5, 2013. Mr. Lee received 1,000,000 shares of Series A Preferred Stock (“Series A”) on October 19, 2012 at fair value of \$0.02 per share. Each share of Series A has two hundred fifty (250) votes on all matters submitted to the stockholders of the Company and votes with the Company’s common stock on all matters. As such, Mr. Lee can cast 255,000,000 votes.

(2) Richard O. Weed, Secretary and Director, owns 250,000 shares of common stock and holds an option to purchase 10,000 shares of common stock at \$10.00 per share that expires February 24, 2016. Mr. Weed received 1,000,000 shares of Series A on October 19, 2012 at fair value of \$0.02 per share and 1,000,000 shares of Series A on February 20, 2013 from Eduardo Zayas. Each share of Series A has two hundred fifty (250) votes on all matters submitted to the stockholders of the Company and votes with the Company’s common stock on all matters. As such, Mr. Weed can cast 500,000,000 votes. Mr. Weed is considered the beneficial owner of 1,850.2 shares of the Company’s Series B Non-Voting 6% Convertible Preferred Stock (“Series B”) because Weed & Co. LLP owns 850.2 shares of Series B it acquired for accrued legal fees of \$85,020 on February 1, 2013 and Six Eighteen Corp. owns 1,000 shares of Series B it acquired as satisfaction of a \$77,159.80 Judgment dated August 20, 2012 against the Company.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

The Company entered into an agreement with Weed & Co. LLP, a law firm with whom Mr. Weed is a partner. Under the terms of this agreement, the Company pays Weed & Co. LLP for certain specified legal services. The Company paid Weed & Co. LLP \$139,500 for legal services during the fiscal year ended February 28, 2013.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

On October 7, 2010, our Board of Directors approved the engagement of Rosenberg Rich Baker Berman & Company (“RRBB”) to serve as our principal independent public accountant to audit our financial statements for the fiscal year ended February 28, 2013. RRRB served as our principal independent public accountant to audit our financial statements for the fiscal year ended February 29, 2012.

Audit fees billed by our principal independent public accountants for services rendered for the audit of our annual financial statements and review of our quarterly financial statements included in Form 10-Q for the last two fiscal years are presented below. Audit-related fees, tax fees, and other fees for services billed by our principal independent public accountant during each of the last two fiscal years are also presented in the following table:

	Years Ended February 28 and 29, 2013 2012	
Audit Fees	\$69,225	\$44,700
Audit-related fees	\$-	\$-
Tax fees	\$-	\$-
Registration Statement Fees	\$-	\$-
All other fees	\$-	\$-

Our Board of Directors established a policy whereby the outside auditors are required to seek pre-approval on an annual basis of all audit, audit-related, tax and other services by providing a prior description of the services to be performed. For the year ended February 28, 2013, 100% of all audit-related services were pre-approved by the Board of Directors, which concluded that the provision of such services by RRBB was compatible with the maintenance of that firm’s independence in the conduct of its auditing functions.

FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and

Stockholders of Focus Gold Corporation

We have audited the accompanying balance sheets of Focus Gold Corporation as of February 28, 2013 and February 29, 2012, and the related statements of operations, stockholders' equity, and cash flows for each of the years ended February 28, 2013 and February 29, 2013. Focus Gold Corporation's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Focus Gold Corporation as of February 28, 2013 and February 29, 2012, and the results of its operations and its cash flows for the years ended February 28, 2013 and February 29, 2012 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the company will continue as a going concern. As discussed in Note 2 to the financial statements, the company is in the exploration stage and has suffered recurring losses from operations. This raises substantial doubt about the company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

FOCUS GOLD CORPORATION

(An exploration stage company)

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

1. Organization and Description of Business

Focus Gold Corporation (the "Company") was incorporated on December 23, 2005 under the laws of the state of Nevada under the name Real Estate Referral Center Inc. On April 21, 2009, the Company changed its name to Gold Bag, Inc. and effective June 6, 2011 to Focus Gold Corporation. In October 2010 the Company entered into an option agreement with Victoria Gold Inc. for the right to explore and purchase mineral claims located in Ontario Canada and since that time the Company's principal business has been the acquisition and exploration of mineral resources. The Company is considered an exploration stage company and its financial statements are presented in a manner similar to a development stage company as defined in FASC 915-10-05, and interpreted by the Securities and Exchange Commission for mining companies in Industry Guide 7. As at February 28, 2013, the Company has disposed of all its mineral properties and the Company intends to restructure itself and has engaged an outside consultant to identify, review, and assess additional mineral properties for purchase. The Company has developed a private equity strategy to acquiring gold mining properties following several key investment criteria that include properties that are in safe governmental jurisdictions primarily in the Americas; that provide geographic diversification across its portfolio; invest \$500,000 to \$5 million in projects with significant exploration upside; and where possible, the Company will acquire properties with existing capable management teams and then provide senior level experienced management oversight. Once a property has matured, the Company will seek to divest of the property either through a strategic sale or through a spin-off into a stand-alone public company.

On December 31, 2010, the Company acquired 100% ownership of Fairfields Gold S.A. de CV ("Fairfields"), a Mexican corporation involved in the exploration and expansion of its mineral properties. On October 25, 2011, through its wholly owned subsidiary Focus Celtic Gold Corporation ("Celtic") the Company completed on the acquisition of 98.65% ownership of Metallum Resources Plc. ("Metallum"), an England & Wales corporation which is involved in the exploration and expansion of its mineral properties. Subsequent to the acquisition, the Company exchanged shares of Celtic for settlement of accounts payable reducing the Company's equity stake in Celtic to 92.16%. On October 5, 2012, the Company sold its 92.16% interest in Celtic. The associated assets and liabilities of Celtic and Metallum have been classified as discontinued operations at February 29, 2012. The operations of Celtic and Metallum Resources Plc. through October 5, 2012 have been reflected in loss from operations of discontinued entities in the consolidated statements of operations. On February 8, 2013, the Company sold its 100% interest in Fairfields. The associated assets and liabilities of Fairfields have been classified as discontinued operations at February 29, 2012. The operations of Fairfields through February 8, 2013 have been reflected in loss from operations of discontinued entities in the consolidated statements of operations.

The prior period results of continuing operations of Celtic and Fairfields have been reclassified to loss from discontinued operations. All significant intercompany accounts and transactions are eliminated in consolidation.

2. Significant Accounting Policies

This summary of significant accounting policies of the Company is presented to assist in understanding the Company's financial statements. The consolidated financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the consolidated financial statements.

(a) Basis of Presentation

These consolidated financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in US dollars. These consolidated financial statements represent the consolidation of the Company with its subsidiary Focus Gold Mexico Limited and as discontinued operations, its former subsidiaries Fairfields Gold S.A. de CV at February 29, 2012 and for the period since December 31, 2010 through February 8, 2013 and Focus Celtic Gold Corporation and Metallum Resources Plc. at February 29, 2012 and for the period since October 25, 2011 through October 5, 2012. All significant intercompany transactions have been eliminated.

FOCUS GOLD CORPORATION

(An exploration stage company)

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

The Company is considered an exploration stage company and its financial statements are presented in a manner similar to a development stage company as defined in ASC 915 “Development stage entities”, and interpreted by the Securities and Exchange Commission for mining companies in Industry Guide 7. Pursuant to the rules and regulations of the Securities and Exchange Commission, a mining company in the exploration stage should not refer to itself as a development stage company in its financial statements. The Company is required to provide additional disclosures from its date of inception, or the date the Company was reactivated to undertake exploration stage activities; therefore, the statement of operations, stockholders’ equity and comprehensive loss and cash flows include cumulative amounts from October 1, 2010 to February 28, 2013.

The Company is in the business of exploring and developing its mineral properties and having disposed of all of its mineral properties or interests in mineral properties it has acquired since entering the exploration stage in October 2010, the Company intends to restructure itself and has engaged an outside consultant to identify, review, and assess additional mining properties for purchase. The acquisition of such mineral properties is dependent on the availability of properties that meet the Company’s business objectives and on the ability of the Company to obtain necessary financing to acquire such property or properties and undertake exploration or exploitation thereon to determine the existence of economically recoverable reserves.

(b) Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with original maturities of three months or less. To limit its credit risk exposure for amounts in excess of federally insured limits, the Company places its deposits with financial institutions of high credit standing.

(c) Equipment

Equipment is recorded at cost less accumulated depreciation. Depreciation is provided on a straight-line basis over three to five years, which represents the estimated useful lives of the assets.

(d) Mineral Properties, Leases and Exploration and Development Costs

The Company accounts for mineral properties in accordance with ASC 930: *Extractive Activities-Mining*. Costs of acquiring mineral properties and leases are capitalized by project area upon purchase of the associated claims (see Note 5). Mineral properties are periodically assessed for impairment of value and any diminution in value.

The Company accounts for mineral exploration and development costs in accordance with ASC 932: *Extractive Activities*. All exploration expenditures are expensed as incurred, previously capitalized costs are expensed in the period the property is abandoned. Expenditures to develop new mines, to define further mineralization in existing ore bodies, and to expand the capacity of operating mines, are capitalized and amortized on units of production basis over proven and probable reserves.

Any option payments received by the Company from third parties or tax credits refunded to the Company are credited to the capitalized cost of the mineral property or to exploration costs as applicable. If payments received exceed the capitalized cost of the mineral property or the exploration costs incurred, the excess is recognized as income in the year received.

The amounts shown for mineral properties do not necessarily represent present or future values. Their recoverability is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development, and future profitable production or proceeds from the disposition thereof.

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

(e) Derivative Instruments

Derivative instruments consist of common stock warrants and certain instruments embedded in certain notes payable and related agreements. These financial instruments are recorded in the balance sheets at fair value as liabilities. Changes in fair value are recognized in earnings in the period of change.

(f) Impairment of Long-lived Assets

The Company reviews and evaluates its long-lived assets for impairment at each balance sheet date and documents such impairment testing. The tests include an evaluation of the assets and events or changes in circumstances that would indicate that the related carrying amounts may not be recoverable. Mineral properties in the exploration stage are monitored for impairment based on factors such as the Company's continued right to explore the area, exploration reports, assays, technical reports, drill results and the Company's continued plans to fund exploration programs on the property, whether sufficient work has been performed to indicate that the carrying amount of the mineral property cost carried forward as an asset will not be fully recovered, even though a viable mine has been discovered.

The tests for long-lived assets in the exploration, development or producing stage that would have a value beyond proven and probable reserves would be monitored for impairment based on factors such as current market value of the mineral property and results of exploration, future asset utilization, business climate, mineral prices and future undiscounted cash flows expected to result from the use of the related assets. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated future net undiscounted cash flows expected to be generated by the asset, including evaluating its reserves beyond proven and probable amounts.

The Company's policy is to record an impairment loss in the period when it is determined that the carrying amount of the asset may not be recoverable either by impairment or by abandonment of the property. The impairment loss is calculated as the amount by which the carrying amount of the assets exceeds its fair value.

During the year ended February 28, 2013, the Company recorded an impairment charge on its Metallum properties and Watabeag & Russell claims (Notes 3 and 7 respectively).

(g) Stock-based Compensation

The Company accounts for stock based compensation to employees as required by ASC718: *Compensation-Stock Compensation* and stock based compensation to nonemployees as required by ASC505-50: *Equity-Based Payments to Non-Employees*. Options and warrants are valued using the Black-Scholes pricing model (See Note 10). The offset to the recorded stock based compensation cost is to additional paid-in capital. Consideration received on the exercise of stock options is recorded as share capital and additional paid-in capital and the related additional paid-in capital is transferred to share capital.

(h) Comprehensive Income

ASC 220: *Comprehensive Income*, establishes standards for the reporting and display of comprehensive income and its components in the financial statements. As at February 29, 2012 and February 28, 2011, the Company's only component of comprehensive income was foreign currency translation adjustments.

(i) Income Taxes

Income taxes are provided based upon the liability method of accounting pursuant to ASC 740-10-25: *Income Taxes – Recognition*. Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against deferred tax assets if management does not believe the Company has met the “more likely than not” standard imposed by ASC 740-10-25-5 to allow recognition of such an asset. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amount used for income tax purposes.

FOCUS GOLD CORPORATION

(An exploration stage company)

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

The Company follows the provisions of uncertain tax positions as addressed in ASC 740-10-65-1. The Company recognized no increase in the liability for unrecognized tax benefits. The Company has no tax position at February 28, 2013 or February 29, 2012 for which the ultimate deductibility is highly certain but for which there is uncertainty about the timing of such deductibility. The Company recognizes interest accrued related to unrecognized tax benefits in interest and financial expenses in other income (expenses) on the consolidated statement of operations. No such interest or penalties were recognized during the periods presented. The Company had no accruals for interest and penalties at February 28, 2013 or February 29, 2012 other than for payroll taxes unpaid and flow-through shares issued in Canada. The Company's utilization of any net operating loss carry forward may be unlikely as a result of its exploration stage activities.

(j) Net Loss Per Share

The Company computes earnings (loss) per share in accordance with ASC Topic 260 Earnings Per Share. ASC Topic 260 requires presentation of both basic and diluted earnings per share ("EPS") on the face of the income statement. Basic EPS is computed by dividing earnings (loss) available to common shareholders by the weighted average number of shares outstanding during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive. At February 28, 2013, the total number of potentially dilutive shares of common stock excluded from basic net loss per share as anti-dilutive was 320,000 from options and 282,262 from warrants.

(k) Foreign Currency Translation

The Company's functional and reporting currency is the United States dollar. Monetary assets and liabilities denominated in foreign currencies are translated in accordance with ASC Topic 830: Foreign Currency Matters, using the exchange rate prevailing at the balance sheet date. Gains and losses arising on settlement of foreign currency denominated transactions or balances are included in the determination of income. Foreign currency transactions are primarily undertaken in Canadian dollars. The Company has not, to the date of these financials statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

The functional currency of the Company's former subsidiary Fairfields, is the Mexican Peso. The functional currency of the Company's former subsidiary Metallum is the British Pound. The financial statements of the Company's foreign subsidiaries are translated to United States dollars in accordance with ASC Topic 830 using period-end rates of exchange for assets and liabilities, and average rates of exchange for the year for revenues and expenses. Translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of stockholders' equity. Foreign currency transaction gains and losses are included in current operations.

(l) Share Capital

The Company records proceeds from share issuances, net of issue costs. Shares issued for consideration other than cash are valued in accordance with ASC 845: nonmonetary transactions, at the fair value of the nonmonetary assets acquired or the fair value of the nonmonetary asset given up.

(m) Flow-Through Common Shares

Canadian tax legislation permits a company to issue flow-through instruments whereby the deduction for tax purposes relating to qualified resource expenditures is claimed by the investors rather than the company.

Flow-through shares are recognized in share capital based on the fair value attributed to common shares without a flow-through feature on the date the Company and the investors agree to the transaction. The difference ("premium") between the amount recognized in common shares and the amount the investors pay for the flow-through shares is recognized as a flow-through share related liabilities which is reversed into the statement of loss within other income when the eligible expenditures are incurred. The amount recognized as flow-through share related liabilities represents the difference between the fair value of the common shares and the amount the investor pays for the flow-through shares.

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

(n)

Warrants

The Company accounts for warrants issued in conjunction with stock issuances under private placement using the fair value method. Under this method, the value of warrants issued is measured at fair value at the grant date using the Black-Scholes valuation model and recorded as share capital and additional paid-in capital.

The Company recognized the value of detachable warrants issued in conjunction with issuance of notes payable using the Black-Scholes pricing model. The Company recorded the relative fair value of the warrant as an increase to additional paid-in capital and discount against the related debt. The discount attributed to the value of the warrants is being amortized over the term of the underlying debt instrument.

(o)

Estimates

The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant areas requiring the use of management estimates include the determination of impairment of mineral properties and equipment, useful lives for amortization, valuation allowances for future income tax assets, fair value of non-cash stock-based compensation and reclamation and environmental obligations. Actual results, as determined by future events, may differ from these estimates.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update No. 2011-04 (ASU No. 2011-04) "Fair Value Measurement" (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. As a result of the new guidance, U.S. GAAP and the IFRSs have the same definition and meaning of fair value and the same substantive disclosure requirements about fair value measurements (with minor differences in wording and style). ASU No. 2011-04 amends Topic 820 in two ways. Specifically, some of the amendments clarify how to apply the existing fair value measurement and disclosure requirements, while some of the

amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. ASU No. 2011-04 and IFRS 13 do not extend the use of fair value accounting, but rather provide guidance on how it should be applied where its use is already required or permitted by other standards within U.S. GAAP or IFRS. ASU No. 2011-04 supersedes much of the guidance in ASC Topic 820, but also clarifies existing guidance and changes certain wording in order to align ASC Topic 820 with IFRS 13. IFRS 13 provides, for the first time, a precise definition of fair value and a single source of fair value measurement requirements, disclosure requirements, and related guidance for use across the IFRSs. The Company's adoption of this policy did not have a material effect on the Company's consolidated financial statements.

In June 2011, the FASB issued Accounting Standards Update No 2011-05 (ASU No 2011-05), "Comprehensive Income (Topic 220): Presentation of Comprehensive Income". ASU 2011-05 eliminates the option that permits the presentation of other comprehensive income in the statement of changes in equity and requires presenting components of net income and comprehensive income in either a one-statement approach with totals for both net income and comprehensive income, or a two-statement approach where a statement presenting the components of net income and total net income must be immediately followed by a financial statement that presents the components of other comprehensive income, a total for other comprehensive income, and a total for comprehensive income. The guidance provided in ASU No. 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and should be applied retrospectively. The adoption of this ASU did not have a material impact on our consolidated financial statements.

(An exploration stage company)

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

In September 2011, the FASB issued ASU No. 2011-08, which updates the guidance in ASC Topic 350, “Intangibles – Goodwill & Other” (ASU-2011-08). The amendments in ASU 2011-08 permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than the carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in ASC Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events or circumstances, an entity determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. The amendments in ASU 2011-08 include examples of events and circumstances that an entity should consider in evaluating whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount, however the examples are not intended to be all-inclusive and an entity may identify other relevant events and circumstances to consider in making the determination. The examples in this ASU 2011-08 supersede the previous examples under ASC Topic 350 of events and circumstances an entity should consider in determining whether it should test for impairment between annual tests, and also supersede the examples of events and circumstances that an entity having a reporting unit with a zero or negative should consider in determining whether to perform the second step of the impairment test. Under the amendments in ASU 2011-08, an entity is no longer permitted to carry forward its detailed calculation of a reporting unit's fair value from a prior year as previously permitted under ASC Topic 350. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The adoption of ASU 2011-08 did not have a material impact on the Company's financial position or results of operations.

In December 2011, the FASB issued ASU No. 2011-12, “Comprehensive Income – Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05” (“ASU 2011-12”). ASU 2011-12 defers changes in Update 2011-05 that relate to the presentation of reclassification adjustments. ASU 2011-12 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 (November 30, 2012 for the Company). The adoption of ASU 2011-12 did not have a material impact on our results of operations, financial condition, or cash flows.

Effective January 1, 2013, the Company adopted ASU No. 2013-02, “Reporting Amounts Reclassified Out of Accumulated Other Comprehensive Income,” which amends ASC 220, “Comprehensive Income.” The amended guidance in ASU No. 2013-02 requires entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component and to present, either on the face of the financial statements or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income. The amended guidance does not change the current requirements for reporting net income or other comprehensive income. The adoption of ASU No. 2013-02 did not have a significant impact on the Company's

consolidated financial statements.

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations

(q)

Going Concern

The Company's financial statements are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America, and have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of business. The Company incurred a net loss of \$12,260,077 during the year ended February 28, 2013, and has an accumulated deficit of \$18,815,146 since entry into the exploration stage. Additionally, the Company is in default of various notes with principal amounts aggregating \$270,000. The Company changed its principal business to the development and exploitation of mineral properties in October 2010, but has not yet established an ongoing source of revenues sufficient to cover its operating costs and to allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease development of operations.

FOCUS GOLD CORPORATION

(An exploration stage company)

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

In order to continue as a going concern, develop a reliable source of revenues, and achieve a profitable level of operations the Company will need, among other things, additional capital resources. Management's plans to continue as a going concern include raising additional capital through sales of common stock and or a debt financing. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

(r)

Fair Value Measurements

The FASB's Accounting Standards Codification defines fair value as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants and requires that assets and liabilities carried at fair value are classified and disclosed in the following three categories:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active or inactive markets and valuations derived from models where all significant inputs are observable in active markets.

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs are unobservable in any market.

Edgar Filing: FOCUS GOLD Corp - Form 10-K

Given the conditions surrounding the trading of the Company's equity securities, the Company values its derivative instruments related to embedded conversion features and warrants from the issuance of convertible debentures in accordance with the Level 3 guidelines. For the year ended February 28, 2013, the following table reconciles the beginning and ending balances for financial instruments that are recognized at fair value in these condensed consolidated financial statements. The fair value of warrants and embedded conversion features that have exercise reset features are estimated using an adjusted Black-Scholes model based on the Company's estimation of the likelihood of the occurrence of a reset.

	Balance at February 29, 2012	New Issuances	Changes in Fair Values	Balance at February 28, 2013
Level 3 – Derivative liabilities from:				
Conversion features	\$ –	\$1,959,416	\$(1,204,105)	\$755,311
Warrants	–	418,531	600,144	1,018,675
	\$ –	\$2,377,947	\$(603,962)	\$1,773,986

Changes in the unobservable input values would likely cause material changes in the fair value of the Company's Level 3 financial instruments. The significant unobservable input used in the fair value measurement is the estimation of the likelihood of the occurrence of a change to the contractual terms of the financial instruments. A significant increase (decrease) in this likelihood would result in a higher (lower) fair value measurement.

(s) Reclassification

Certain amounts in the balance sheet of February 29, 2012 and statement of operations for the year ended February 29, 2012 have been reclassified to conform with the current year's presentation.

All references to common shares of the Company have been adjusted to give effect to the implementation of a 20:1 reverse split of the Company's authorized and issued common stock which was effected on January 14, 2013.

3. Discontinued Operations

On October 5, 2012 the Company entered an agreement with European Resource Capital Inc. for the sale of the Company's 24,420,000 shares of common stock of Celtic (92.16% interest), 64,987,982 Metallum options providing the acquirer with the option to acquire an additional 64,987,982 common shares of Metallum for £0.10 per share through December 31, 2012 and amounts receivable from Celtic of approximately \$217,031 in exchange for \$2,500,000 (Canadian) (\$2,553,887 at exchange rates at the date of this transaction). European Resource Capital Inc. issued the Company an eight percent (8%) 5 year \$2,500,000 (Canadian) promissory note payable that is secured by the 24,420,000 shares of Celtic common stock.

On February 8, 2013, the Company's wholly owned subsidiary Focus Gold Mexico Limited entered into a share purchase agreement with three individuals, Santiago Leon Avaleyra, Eduardo Zayas Dueñas and Carmen Leticia Calderon Leon, as purchasers, to sell its 50 shares of common stock in Fairfields Gold, S.A. de C.V. for \$1,900,000 or purchasers can return the original consideration from the December 31, 2010 transaction (512,500 shares of the Company's common stock) on the closing date of February 20, 2013. On closing, the Company received as consideration 512,501 shares of its common stock with an aggregate fair value as at February 8, 2013 of \$66,625. The 512,501 shares of common stock received has been recorded as treasury stock on the consolidated balance sheet pending cancellation.

Acquisitions

Metallum Resources Plc.

On February 23, 2011, the Company entered into definitive acquisition agreement (the “Metallum Acquisition Agreement”) to purchase all outstanding shares of Metallum Resources Plc. (“Metallum”), a gold and base metals explorer with a focus in Northern Ireland, Republic of Ireland and Scotland. Metallum, founded in 2006, is an unlisted public company incorporated under the laws of England and Wales. Under the terms of this agreement, the Company agreed to purchase all of Metallum's outstanding shares at a price of GBP £0.10 per share through the issuance of the Company's common stock. The number of shares of common stock to be issued at the Agreement's closing was to be calculated by multiplying GBP £0.10 by the GBP/USD exchange rate on the day of closing, divided by the average closing price of the Company's shares on the OTCBB for the 10-day period ended five trading days prior to the closing date. Effective June 29, 2011 the parties agreed to a conversion ratio of .325 shares of the Company's common stock for each Metallum common shares based on a 5 day average trading price of the Company of \$0.493 per share and a conversion rate of £ to \$ of 1.60:1.

On October 25, 2011, the Company closed on the Metallum Acquisition Agreement. The acquisition was accounted for as an asset acquisition. In consideration, based on arms-length negotiations, the Company issued 1,185,787 shares of its common stock to stockholders of Metallum at an agreed price of \$9.80 per share for 72,971,475 or 98.65% of Metallum's outstanding shares and issued 1,056,055 options for the purchase of common shares of the Company with an exercise price of \$9.80 per share expiring December 31, 2012 for 64,987,982 or approximately 99.5% of Metallum's 64,987,982 outstanding options.

Fair Value Determination and Allocation of Consideration Transferred

Edgar Filing: FOCUS GOLD Corp - Form 10-K

The fair value of the 1,185,787 common shares was determined to be \$3.80 per share based on the fair value of the Company's stock on October 25, 2011, the acquisition date. The options were valued at \$654,464 using a Black Scholes valuation model. The following assumptions were used in the Black Scholes calculation: expected life of 1.18 years; volatility of 98.5%; no dividend yield; and a risk free interest rate of 0.11%.

The following is a summary of the estimates of the fair value of the acquired assets less assumed liabilities at the acquisition date:

Net assets acquired and liabilities assumed:

Watabeag & Russell Creek Claims – Ontario, Canada (terminated November 27, 2012)

On October 1, 2010 the Company and Victoria Gold Corp. entered into an option agreement covering 16 gold mining claims in the Province of Ontario. Under the option agreement, the Company has the right to acquire Victoria Gold Corp.'s ownership interest in eight (8) mining claims located in Currie Township, Timmins Mining District, Ontario known as the Watabeag property and eight (8) mining claims located in Bowman Township, Timmins Mining District, Ontario known as the Russell Creek property.

The Watabeag property comprises a total of 131 hectares and is located approximately 60km east of Timmins, Ontario. Exploration on the property began in 1973 with additional drilling in the 80's. Four overburden holes were drilled in 1980 to follow up anomalous gold values. An additional 11 overburden holes were completed in 1981 to define two anomalies with well-defined head and tail features. The initial drill hole intersected mixed dacite and feldspar with a brecciated and altered zone assaying 8.9g/t Au across a 0.9m interval.

The Russell Creek property is a total of 128 hectares and is located approximately 70 kilometers east of Timmins. Minor exploration for gold commenced in 1980 when Asarco (Cook Joint Venture) completed ground magnetic and EM surveys in the area of two weak airborne EM conductors. The surveys defined a north west trending fault structure along Russell Creek.

On November 27, 2012, the Company reached agreement with Victoria Gold Corp. to terminate the option agreement without liability or obligation by the Company. The Company has accordingly expensed the \$50,000 carrying value of the Watabeag & Russell to impairment of mineral properties in the consolidated statement of operations for the year ended February 28, 2013.

As at November 27, 2012 (the date of the option's expiry), the Company had not commenced exploration activities on these properties.

Note Receivable

On October 5, 2012 the Company entered a sales agreement with European Resource Capital Inc. for the sale of the Company's 24,420,000 shares of common stock of Celtic (92.16% interest), 64,987,982 Metallum options providing the acquirer with the option to acquire an additional 64,987,982 common shares of Metallum for £0.10 per share through December 31, 2012 and amounts receivable from Celtic of \$217,031 in exchange for payment of \$2,500,000 (Canadian) (\$2,553,887 at exchange rates at the date of this transaction). European Resource Capital Inc. issued the Company an eight percent (8%) 5 year \$2,500,000 (Canadian) promissory note payable that is secured by the 24,420,000 shares of Celtic common stock. The sales agreement acknowledges that JMJ Financial has an unperfected lien against 25% of the purchased shares. Where the Company is unsuccessful in removing JMJ Financials' unperfected lien, European Resource Capital may settle such lien and reduce the \$2,500,000 (Canadian) promissory note by 35% of its present value.

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

On March 21, 2013 the Company restructured its relationship with European Resource Capital Inc. (“ERC”) by entering an Assignment Agreement dated March 21, 2013 with ERC and Distressed Debt Investment Corp. Under the Assignment Agreement, the Company was paid \$200,000 (Canadian Dollars, \$193,602 at exchange rates at April 1, 2013 the date of receipt of proceeds) and received a one percent (1%) net smelter return royalty in the minerals extracted from the properties comprising the prospecting licenses in Ireland, Northern Ireland and Scotland currently registered in the name of Celtic or its subsidiaries. The fair value of the 1% smelter return royalty of \$1,892,000 was based on an independent third party valuation analysis using estimates and assumptions provided by management of Celtic, and other information compiled by management of Celtic. The fair value of the consideration received during the restructuring in March 2013 aggregating \$193,602 has been reflected in the determination of fair value of the \$2,500,000 (Canadian) promissory note and accrued interest at February 28, 2013 and the difference of \$545,849 has been recorded in the consolidated statement of operations for the year ended February 28, 2013 as an impairment of note receivable.

9.

Notes Payable

In July 2011, the Company entered into a Demand Promissory Note (the “Note”) with a private investor as the lender with the principal amount of \$200,000. The Note was payable on demand after August 30, 2011 and accrued interest at the rate of 2% per month calculated and compounded monthly until maturity. A commitment, arrangement and placement fee of \$59,000 was payable at maturity. The commitment, arrangement and placement fee of \$59,000 was initially recorded as a discount to the Note. The Note had a provision that if not repaid upon demand within 3 days, the lender may elect to receive as full repayment for the loan in restricted common stock of the Company at the rate of five times the principal divided by the 10 day average closing price of the Company’s common stock prior to the date of demand. On March 1, 2012, the Company finalized a settlement agreement with the lender for an amount of \$400,000 as full and complete satisfaction of principal, interest, commitment arrangement, placement fees and any other rights of the lender under the Note. On March 29, 2012, the Company reached a settlement agreement on its Note, to settle the amount owing at \$400,000. The Note was further amended to remove any provisions that allowed for payment of the loan through penalty shares which was replaced with a convertible feature. Under the amendments the Note accrued interest at 1%, per month compounded monthly, and matured October 1, 2012, and was convertible at any time into shares of the Company’s common stock, at the holder’s option, at a conversion price, equal to 80% of the average of the three lowest trade prices for the Company’s common stock during the 20 trading days prior to the conversion. No interest or principal payments were required until the maturity date. The Company determined that the resulting modifications of the Note were not substantial in accordance with ASC 470-50, “Modifications and Extinguishments”, thus modification accounting was applied. The Note was determined to have a derivative liability related to its conversion feature with a fair value of \$457,552 at March 29, 2012. The fair value of the derivative liability was determined using the Black-Scholes option pricing model with the following assumptions: expected life

of 0.51 years; volatility of 91.7%; no dividend yield; and a risk free interest rate of 0.14%. The fair value of the derivative liability was recorded as a discount to the debt of \$400,000 and \$57,552 of interest and financing fees. The discount has been fully amortized to amortization of debt discount over the term of the Note and its conversion to shares of common stock. During the year ended February 28, 2013, this Note was converted into an aggregate 1,381,426 common shares of the Company.

In September 2011, the Company entered into two Demand Promissory Notes (the "Notes") in the aggregate amount of \$270,000. The Notes were due upon demand after November 14, 2011 (\$200,000, the "September 14, 2011 Note") and November 19, 2011 (\$70,000, the "September 19, 2011 Note"). The Notes bear interest at the rate of 2% per month calculated and compounded monthly and a commitment arrangement and placement fee of \$67,500 per month (less interest). On June 14 and 19, 2012 the Company entered into a Promissory Note Amending Agreement with the holders of the Notes where by the note holders have agreed to extend the maturity of the September 14, 2011 Note to September 14, 2012 and the September 19, 2011 Note to September 19, 2012 and to settle outstanding commitment, arrangement and placement fees of \$554,825 in exchange for 200,000 shares of the Company's common stock, and eliminate any future commitment, arrangement and placement fees under these promissory notes. In September 2012 the Notes with a principal amount of \$270,000 matured without payment and are in default as of February 28, 2013. Under the terms of the Notes as modified, in the event of non-payment by the Company at maturity, the interest rate on the Notes increases to 5% per month and the Company is required to issue 57,500 and 20,000 shares of the Company's common stock respectively in advance for each month of non-payment of the Notes. The fair value at February 28, 2013 of these penalty shares of \$48,430 (February 29, 2012, \$nil) and accrued interest of \$178,101 (February 29, 2012, \$30,310) are included in the Notes Payable in the consolidated balance sheet.

Notes to Consolidated Financial Statements

For the years ended February 28, 2013 and February 29, 2012

On October 25, 2011, the Company issued a 6% convertible redeemable secured note (the "6% Note") for a principal amount of \$100,000. The 6% Note was due and payable October 25, 2012 and accrued interest on the outstanding principal balance at the rate of 6% per annum. The 6% Note became convertible at any time after April 25, 2012, into shares of the Company's common stock at a conversion price that is equal to 70% of the lowest closing bid price of the Company's common stock as reported on the National Quotations Bureau Pink Sheets on which the Company's shares are traded, for any of the five trading days including the day upon which a Notice of Conversion is received by the Company. The exercise price was adjustable to a lower amount where within the three business days after the exercise the closing bid for the Company's common stock was 5% lower than the price set out in the notice. As part of the loan, the Company issued to the note holder 33,333 transferable warrants to purchase one common share per warrant at \$3.00 per share for a period of three years. The fair value of the 33,333 warrants was \$96,372. The fair value of the warrants was calculated using the Black-Scholes option pricing model with the following assumptions: expected life of 3.0 years; volatility of 126.9%; no dividend yield; and a risk free interest rate of 0.43%. The relative fair value of the warrants was \$49,076 and was recorded as a discount to the debt. The 6% Note and accrued interest of \$3,914 were fully paid during the year ended February 28, 2013 through the conversion of the 6% Note to an aggregate of 268,762 shares of the Company's common stock.

On March 22, 2012 the Company issued a Convertible Promissory Note to JMJ Financial ("JMJ") in aggregate principal amount of \$2,110,000 (the "JMJ Note") advanced over time. In consideration for issuing of the JMJ Note and the 125,000 warrants, JMJ provided the initial funding of \$275,000 (total of \$356,000 through February 28, 2013). The JMJ Note bears interest at a one-time amount of 10%, matures three years from the date of issuance, is secured by 25% of the Company's investment property and ownership or other equity interests the Company holds in Focus Celtic Gold Corporation, its wholly owned subsidiary, and is convertible into shares of the Company's common stock, at JMJ's option, at a conversion price, equal to 80% of the average of the three lowest trade prices for the Company's common stock during the 20 trading days prior to the conversion. The Note was issued with a 10% original issue discount. The original issue discount of \$39,556 is being accreted to amortization of debt discount over the term of the note. JMJ has agreed to restrict their ability to convert the JMJ Note and receive shares of common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of the Company's common stock. No interest or principal payments are required until the maturity date. The Note may be prepaid at any time prior to Maturity Date at 150%. The 125,000 warrants issued to JMJ entitle JMJ to purchase up to 125,000 shares of the Company's common stock at \$4.00 per share, subject to adjustment to maintain an aggregate exercise price of \$500,000. The 125,000 common share purchase warrants may in certain circumstances be exercised in whole or part in a cashless exercise equal to the difference between the VWAP on the trading day immediately preceding the date on which the holder elects to exercise the warrant and the exercise price of the warrant times the number of warrants so being exercised. The warrant exercise price may be adjusted to a lesser amount than \$4.00 where at any time while the warrant is outstanding and the Company sells or grants an option to purchase or sell or grant any right to re-price, or issue and

share of common stock or security convertible into the Company's common stock at an effective price less than the \$4.00 exercise price, the exercise price shall be reduced to that lesser amount. The warrant is non-transferrable. The Company has determined that the warrants and the convertible feature of the JMJ Note are derivative liabilities with fair values of \$418,531 and \$867,469 respectively at their dates of issue. The fair value of the derivative liability was calculated using the Black-Scholes option pricing model with the following assumptions: expected life of 3.0 years; volatility of 102.6%; no dividend yield; and a risk free interest rate of 0.56%. The fair value of the derivative liability was recorded as a discount to the debt of \$337,692 and \$948,308 of interest and financing fees. The discount is being amortized to amortization of debt discount over the term of the JMJ Note. The unamortized discount at February 28, 2013 was \$193,858. At February 28, 2013, the fair value of the derivative liability on the warrants and conversion feature was determined to be \$1,018,675 and \$291,921 respectively. The fair value of the derivative liability at February 28, 2013 was determined using the Black-Scholes option pricing model with the following assumptions: expected life of 2.1 years; volatility of 109.39%; no dividend yield; and a risk free interest rate of 0.25%. The Company estimates the fair value of this derivative liability at each reporting period and records any change in the fair value of the derivative liability to the statement of operations. On June 13, 2012 with the Company's failure to file its Form 10-K for the year ended February 29, 2012, the Company entered into technical default on the JMJ Note. During the year ended February 28, 2013 the holder of the JMJ Note exercised conversion rights and the Company issued an aggregate 1,032,500 of its common stock for \$58,417 principal amount of this note.

(d) Stock options

The Company has an incentive share option plan (the "Plan") that it adopted February 7, 2011, that allows it to grant incentive stock options to its officers, directors, employees and other persons associated with the Company. The Plan is intended to advance the best interests of the Company by providing those persons who have a substantial responsibility for its management and growth with additional incentive and by increasing their proprietary interest in the success of the Company, thereby encouraging them to maintain their relationships with the Company. Further, the availability and offering of stock options and common stock under the Plan supports and increases the Company's ability to attract and retain individuals of exceptional talent upon whom, in large measure, the sustained progress, growth and profitability of the Company depends. The board of directors reserved 500,000 shares of common stock for issuance under the Plan. As of the fiscal year end, February 29, 2011, the board of directors had granted options to purchase 320,000 shares of common stock at \$10 per share to 7 persons. Through the years ended February 28, 2013 and February 29, 2012 no further grants of options have been made under this plan.

Expiry date	Exercise price per share	Balance February 29, 2012	Granted	Forfeited	Expired/Cancelled	Balance February 28, 2013
February 24, 2016	\$ 10.00	320,000	—	—	—	320,000
		320,000	—	—	—	320,000

All 320,000 stock options granted and were exercisable at February 28, 2013.

As the Company does not have historical experience to estimate the expected life of options, the Company used the project development life of its Huicicila concession as its estimate. The \$5.60 fair value of each stock option grant in the year ended February 28, 2011 was calculated using the Black-Scholes option pricing model with the following weighted average assumptions: expected life of 2.5 years; volatility of 141%; no dividend yield; and a risk free interest rate of 0.95%. In the year ended February 28, 2013 the Company recorded aggregate stock-based compensation expense of \$nil (February 29, 2012 - \$1,510,167) for options based on a twelve month service period from January 1, 2011.

(e) 2012 Stock & Stock Option Compensation Plan

On October 15, 2012 the Company adopted an incentive share option plan referred to as the 2012 Stock & Stock Option Compensation Plan (the "2012 Plan"), for employees, directors and other persons associated with the Company, and is intended to advance the best interests of the Company by providing those persons who have a substantial responsibility for its management and growth with additional incentive and by increasing their proprietary interest in the success of the Company, thereby encouraging them to maintain their relationships with the Company. The board of directors or a committee of the board of directors are responsible for administration of the 2012 Plan and have full power to grant stock options and common stock, construe and interpret the 2012 Plan, establish rules and regulations and perform all other acts, including the delegation of administrative responsibilities, it believes reasonable and proper. The Committee may cancel any stock options awarded under the 2012 Plan if an optionee conducts himself in a manner which the Committee determines to be inimical to the best interest of the Company.

The board of directors reserved 2,500,000 shares of common stock for issuance under the 2012 Plan. Through February 28, 2013, the board of directors had granted 500,000 shares of common stock to one consultant under the 2012 Plan.
