Forward-Looking Statements

This Annual Report on Form 10-K may include certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. We may also make forward-looking statements in other reports filed with the Securities and Exchange Commission, (“the SEC”), in materials delivered to our stockholders, in press releases, or in oral or written statements made by our representatives. These forward-looking statements, which are often characterized by the terms “may,” “believes,” “projects,” “expects,” “plans”, or “anticipates,” do not reflect historical facts but instead are based on our current assumptions and predictions regarding future events, such as business and financial performance. Specific forward-looking statements contained in this Annual Report include, but are not limited to, our (i) belief in the continued growth of internet usage, particularly via mobile devices, and demand for web-based marketing; (ii) belief in the continued growth in the demand for local search and information, (iii) belief that small and medium businesses will continue to outsource their online marketing efforts to third parties; (iv) belief that we can cost-effectively expand into other cities due to the scalability of the LiveDeal.com platform; (v) belief that the cash on hand and additional cash generated from operations together with potential sources of cash through issuance of debt or equity will provide the company with sufficient liquidity for the next 12 months; and (vi) belief that the outcome of pending legal proceedings will not have a material adverse effect on business, financial position and results of operations, cash flow or liquidity.

Forward-looking statements involve risks, uncertainties and other factors, which may cause our actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Some factors and risks that could so affect our results and achievements include the risk factors set forth below under the heading Item 1A. “Risk Factors.” Readers should carefully review such risk factors as they identify certain important factors that could cause actual results to differ materially from those in the forward-looking statements and from historical trends. Those risk factors are not exclusive and are in addition to other factors and risks (i) that are discussed elsewhere in this Annual Report, in our filings with the SEC, and in materials incorporated therein by reference, (ii) that apply to companies generally, or (iii) that we are currently unable to identify or quantify or that we currently deem immaterial. In addition, the foregoing factors and risks may affect generally our business, results of operations and financial position.

Forward-looking statements speak only as of the date the statement was made. We do not undertake and specifically decline any obligation to update any forward-looking statements.

Any information contained on our website (www.livedeal.com) or any other websites referenced in this Annual Report are not a part of this Annual Report.

PART I

ITEM 1. Business

Our Company

LiveDeal, Inc., which, together with its subsidiaries, we refer to as the “Company”, “LiveDeal”, “we”, “us” or “our”, provides specialized online marketing solutions to small-to-medium sized local businesses, or SMBs, that boost customer awareness and merchant visibility. We offer affordable tools for SMBs to extend their marketing reach to relevant prospective customers via the internet. We also provide SMBs promotional marketing with the ability to offer special deals and activities through LiveDeal.com and our online publishing partners.

Our principal offices are located at 6240 McLeod Drive, Suite 120, Las Vegas, Nevada 89120, our telephone number is (702) 939-0231, and our corporate website (which does not form part of this report) is located at www.livedeal.com. Our common stock trades on the NASDAQ Capital Market under the symbol “LIVE”.

Summary Business Description

We provide specialized online marketing solutions that boost customer awareness and merchant visibility on the internet. In September 2013, we launched LiveDeal.com, which redefined the Company’s strategy and direction, centering its focus on the new LiveDeal.com platform and growing the base of restaurants utilizing the LiveDeal platform to attract new customers. LiveDeal.com is a unique, real-time “deal engine” connecting merchants with consumers. The Company believes that it has developed the first-of-its-kind web/mobile platform providing restaurants with full control and flexibility to instantly publish customized offers whenever they wish to attract customers.

We also recently launched two new business lines under new management after a period of re-evaluating our sales program, products, distribution methods and vendor programs. In August 2012, we commenced sourcing local deal and activities to strategic publishing partners under our LiveDeal® brand, which we refer to as promotional marketing. In November 2012, we commenced the sale of marketing tools that help local businesses manage their online presence under our Velocity Local™ brand, which we refer to as online presence marketing.

We continue to actively develop, revise and evaluate these products and services and our marketing strategies and procedures. We continue to generate a significant portion of our revenue from servicing our existing customers under our legacy product offerings, primarily our InstantProfile® line of products and services. Because of the change in our business strategy and product lines, we no longer accept new customers under our legacy product offerings.

Products and Services

LiveDeal.com.

LiveDeal.com is a unique, real-time “deal engine” connecting merchants with consumers. We believe that the Company has developed the first-of-its-kind web/mobile platform providing restaurants with full control and flexibility to instantly publish customized offers whenever they wish to attract customers. Highlights of the new LiveDeal.com include:

a user-friendly interface enabling restaurants to create limited-time offers and publish them immediately, or on a preset schedule that is fully customizable;
state-of-the-art scheduling technology giving restaurants the freedom to choose the days, times and duration of the offers, enabling them to create offers that entice consumers to visit their establishment during their slower periods;
advanced publishing options allowing restaurants to manage traffic by limiting the number of available vouchers to consumers;
superior geo-location technology allowing multi-location restaurants to segment offers by location, attracting customers to slower locations while eliminating potential over-crowding at busier sites; and
a user-friendly mobile and desktop web interface allowing consumers to easily browse, download, and instantly redeem “live” offers found on LiveDeal.com based on their location.

Restaurants can sign up to use the LiveDeal platform at our website (www.livedeal.com).

We believe one of the primary challenges facing the dining industry is the inefficient and limited number of ways restaurants are able to market offers and promotions to their potential customers. Daily deal companies typically dictate offer terms, such as the discount amount and redemption details. This not only erodes potential profits for restaurant owners but could also drive traffic during already-busy periods for the restaurants. LiveDeal’s model benefits both the restaurant and the consumer because it provides the restaurant the opportunity to create any offer they choose, limit the number of potential claimants of their promotion, publish the offer on days and at times of their choosing, and provides customers with relevant offers they can easily and quickly redeem while creating a cost-effective model for LiveDeal to grow and easily scale its operations. We expect to initially derive revenues through premium placement on the site, and we are also exploring various options for monetizing the website.

The Company, best known for migrating print yellow pages to the Internet in 1994, began to develop the model for LiveDeal.com after having worked closely with well-known publishers in the daily deal market. In mid-2013, we tested the beta platform in a number of cities, and the model has been well received by restaurants, consumers, and various restaurant associations. We launched LiveDeal.com in the San Diego and Los Angeles, California markets in September 2013 and December 2013, respectively. The Company believes it can cost-effectively expand into other cities due to the scalability of the LiveDeal.com platform, as restaurants can curate deals through our account managers or create specials on their own. In addition, individual customers transact directly with the restaurant, eliminating the need for the Company to act as an intermediary in the sale.

Velocity Local™ Online Presence Marketing.

We are continually developing and marketing a suite of products and services designed to meet the online marketing needs of SMBs at affordable prices. Our target customers for our Velocity Local™ and our LiveDeal® brands are SMB owners who work long hours to deliver real value to their customers in their own communities that do not have the time or expertise to develop the powerful, multi-faceted, online marketing and advertising programs necessary for successful online marketing. Our offerings draw on a decade of experience servicing SMBs in the internet technology environment.

We offer our SMB customers packages of services to create and maintain an online presence. Products and services we offer include template and custom website design, either optimized for desktop or mobile devices, social media marketing, or SMM, and content marketing, or CM. In combination, these products offer a comprehensive online marketing strategy for SMBs at affordable rates. We believe that our online presence marketing products are useful to a large share of SMBs because they enable potential customers to gain awareness of and locate an SMB and to learn about and purchase its products and services.

Mobile Web Apps. We believe that SMBs which take advantage of emerging mobile internet capabilities, will have greater success in acquiring customers, and that SMB owners are recognizing that mastering marketing to mobile internet users is essential for success in today's technological environment. Accordingly we offer our customers websites targeted to work with the most popular mobile devices, such as iPhones and Android-powered smartphones, that take on the look and feel of a mobile app, without the inconvenience and delay associated with finding, downloading and installing a mobile app.

We can base these “mobile web apps” on our proprietary templates at affordable prices, or design customized mobile web apps for customers with larger budgets. Our website design professionals can incorporate text and graphics they create to our customer’s specifications, or utilize text and graphics provided by our customer (such as from its traditional website or its other marketing materials). We endeavor to make these mobile web apps clean, trendy and easily usable on the smaller display area available on smart phones. Our mobile web apps can integrate key features such as click-to-call, Google Maps (providing directions and street view), service or product offerings (such as menus), and live Twitter feeds. We continue to develop and refine our templates to add common options, to serve the special needs of specific industries, and to respond to customer demand and market changes.

Traditional Website Design. We also offer custom website design services for websites targeted at traditional desktop and laptop internet users. Our website design team is composed of experienced web design and creation professionals and graphic designers who create customized websites tailored to the needs and goals of our customers. Our design team can assist with layout as well as content creation (text and images).

Content Marketing (CM). Simply having a website, even one optimized for viewing on mobile devices, does not mean potential customers will actually know about or visit the website. We provide content marketing services, including blog postings (relevant to our customer specifically or to its industry generally) and commenting, updating our client’s websites, blog commenting, social bookmarking, social media directory listing, and profile submission to the major search engines.

Social Media Marketing (SMM). We enable our customers to create an online presence which builds their customer base and enables them to keep in touch with their customers, supporters, and other businesses using popular social networks such as Facebook, Twitter, and Google+. We employ dedicated research groups to find relevant information about our clients and writes posts, tweets, and comments which can be posted on relevant social networks to increase visibility to and interaction with their followers and potential customers. These activities can also serve to improve our customer’s search engine rankings.

Promotional Marketing

We also source local special deals and activities for SMBs. With the growth of special deal promotions, many SMBs are experimenting with special offers to drive new customers to their locations. We offer our clients a solution that utilizes our business channels to market our clients’ products and services to potential customers. To use this service, an SMB will generally offer a discount for select products or services, or create a specially priced bundle. Our salespeople assist and guide the SMBs to create enticing and marketable deals. We then find an appropriate channel to publish the deal to relevant potential customers.

Potential customers can gain awareness of our clients’ businesses through these deal publications, and transact business with our SMB clients by purchasing a deal. Our SMB clients benefit from their increased visibility, additional business and the opportunity to gain loyal customers.

Prior to our launch of LiveDeal.com, our business strategy includes partnering established strategic publishing partners to publish and sell our client's deals in exchange for a share of the revenue. We have entered into sourcing agreements with several reputable publishers who have large user bases, including Travelzoo, Google Local, and Amazon, and act as an intermediary to connect SMBs to our publishing partners. Our business thus relies in part on the ability of our partners to display our clients' deals to a large, relevant audience and to sell the offers. With the launch of LiveDeal.com, we intend to focus our promotional marketing efforts and offer a substantial portion of those products and services through our own proprietary platform.

InstantProfile® (Legacy)

In addition to our current product offerings, we continue to service customers acquired under our legacy product offerings, primarily our InstantProfile® line of products and services. These services primarily consist of directory listing services. Although we currently generate a significant amount of revenue from these legacy product offerings, we are no longer acquiring customers for them.

Marketing

General. We rely on telemarketing and online lead generation to drive customer acquisition. We have created our own telemarketing sales team which works with highly automated technology and specializes in creating, deploying and managing telemarketing campaigns quickly and efficiently. We believe that our telemarketing structure enables us to build and scale sales programs quickly.

We have long-standing relationships with data and lead providers, which enable us to source high quality leads and to focus our telemarketing efforts toward the demographics we believe most likely to result in long-term customers. We primarily market our products and services to SMBs in lists we acquire from third party data companies.

Online Presence Marketing. Our current strategy is to market our online presence marketing services to small office, home office and local businesses across the country. Our target customers include retail SMBs, such as restaurants, home repair and services companies, as well as professional firms providing legal, accounting and medical services, which share the common challenges of managing and optimizing their online presence to acquire and retain customers.

Our Market

More than 27 million SMBs operate in the United States today. While a majority of SMBs have a website, most of them are not optimized for mobile devices and therefore do not effectively generate business for the SMB. SMB owners frequently lack the time, expertise or resources necessary to make their website a relevant, effective part of their marketing efforts, or to exploit the additional internet marketing channels needed for successful online marketing. Our target customers are SMBs which normally do not market their products and services nationally, but wish to utilize local marketing opportunities, including local search, to promote their products and services.

Effective online marketing requires the dedication of time, the marshaling of resources, and the development of technological, language, presentation and other skills and expertise that few SMB owners have, or have the intention or realistic ability to acquire. We recognize that, to succeed, many SMB owners must remain intensely focused on the fundamentals of their business.

At the same time, we believe that many SMB owners realize that an effective internet presence – including engaging with online and social tools – is essential to their marketing efforts, and SMBs are shifting their marketing budgets from traditional media to online channels. According to BIA/Kelsey forecasts, traditional media business segments such as print advertising, Yellow Pages and newspapers are experiencing large declines in advertising revenues, whereas social media advertising revenues will grow from \$5.1 billion in 2010 to \$8.2 billion in 2015, representing a compound annual growth rate of 10%. According to internet research firm ComScore, online ad spending increased to just over \$30 billion in the U.S. in 2011, a 20.2% increase over 2010.

According to PricewaterhouseCoopers and the Interactive Advertising Bureau, or PWC and IAB, local online/digital advertising revenues in the United States rose 14% in the first half of 2012 and continued to rise steeply through the end of 2012. Searches for products, services or businesses constrained by geographical search parameters, such as municipality or zip code, which we refer to as local searches, are an increasingly significant segment of the online marketing industry. According to a May 2011 study, The Kelsey Group estimates that the local search market in the United States will grow from \$5.7 billion in 2011 to \$10.2 billion in 2016. PWC and IAB also report that revenue from search is 47% of the total internet advertising revenue.

Accordingly, many SMBs need a partner with the necessary expertise and understanding to manage evolving internet audience acquisition services. We believe that this creates a large market opportunity for nimble, reliable and

reputable service providers that help companies leverage these new channels efficiently and at affordable prices.

The continued rise in smart phones, which now outsell traditional mobile phones, has changed the ground rules for online marketing, with the consumption of online advertising rapidly moving to mobile devices. As of mid-2012, eMarketer anticipated that overall spending on mobile advertising in the United States, including display, search and messaging-based ads served to mobile phones and tablets, would rise to \$4 billion in 2012 (a 180% increase over 2011), \$7.19 billion in 2013, and nearly \$21 billion by 2016. Borrell Associates' August 2011 Mobile Report projected that the amount spent on mobile advertising will double every year for the next five years. If borne out, in 2016, mobile advertising would exceed the amount spent on local search advertising in 2011.

We see SMBs quickly adapting to the local and mobile marketing opportunities because of the great potential to retain existing and draw in new customers at affordable prices. We anticipate that soon most online searches will be conducted using a mobile phone, which greatly increases the effectiveness of mobile marketing.

Competition

Promotional Marketing. Our promotional marketing business (including our new LiveDeal.com platform) competes for local deals with several large competitors, such as Groupon and LivingSocial, and many smaller competitors. This business is part of a new market which has operated at a substantial scale for only a limited period of time. We expect competition in this market to continue to increase because no significant barriers to entry exist. Contracts with deal publishers typically contain exclusivity provisions which restrict SMBs from offering deals through other outlets.

We seek desirable local products and services which we can provide to our publishing partners. We believe that we are in a position to compete in this market successfully due to the unique features of our LiveDeal.com platform (as described above), our experienced sales managers, our experience at sourcing, selling and servicing large numbers of small business accounts, the comprehensiveness of our database, the effectiveness of our marketing programs, and the diversity of our publisher distribution network. Our distribution partnerships allow our clients to reach large audiences and promote their products and services in innovative ways.

Online Presence. Our online presence business operates in the highly competitive, rapidly expanding and evolving market for internet marketing for SMBs. Our largest competitors are local exchange carriers, which are widely known as regional telephone operators, and national search engines such as Yahoo! and Google, that are actively expanding their presence in the local search market. We compete with website designers and operators, Yellow Pages services, advertising networks and outlets, and search engine optimization, CM and SMM service providers, as well as traditional offline media, such as traditional Yellow Pages directory publishers and television, radio, and print share advertising. Our services also compete with website production businesses and internet information service providers. Our audience acquisition services compete with advertising agencies and other businesses providing somewhat similar services.

The principal competitive factors in this market include personalization of service, ease of use, quality of services, availability of quality content, value-added products and services, access to consumers, effectiveness at driving business to our clients, and price.

Many boutique firms offer services similar to our online presence marketing products. Generally these small firms cannot provide all the comprehensive services we do. However, these small firms provide many options for web design, social media marketing, internet marketing, and search engine optimization.

Because of efficiencies stemming from our proprietary software and business structure, we are generally able to provide these services at a lower recurring cost and with lower upfront charges to commence a complete marketing campaign and build a client's mobile-optimized website.

We also compete against larger companies which offer a similar or more expanded set of products. Our principal competitive advantages over these companies are our lower prices and the better quality and service of our website design, particularly our web app platform. We believe our combination of outstanding service and low cost will enable us to provide a suite of attractive packages to our clients.

General. Many of our competitors have access to greater capital resources than we do. These resources could enable our competitors to engage in advertising and other promotional activities that will enhance their brand name recognition and market share. We believe, however, that our products provide a simple and affordable way for our clients to create a web presence to market their products and services to local audiences. We further believe that we can compete effectively by continuing to provide quality services at competitive prices and by actively developing new products and services for potential clients that enable us to become a single vendor for the online marketing needs of SMBs.

Intellectual Property

Our success will depend significantly on our ability to develop and maintain the proprietary aspects of our technology and operate without infringing upon the intellectual property rights of third parties. We currently rely primarily on a combination of copyright, trade secret and trademark laws, confidentiality procedures, contractual provisions, and similar measures to protect our intellectual property.

We estimate that reliance upon trade secrets and unpatented proprietary know-how will continue to be our principal method of protecting our trade secrets and other proprietary technologies. While we have hired third-party contractors to help develop our proprietary software and to provide various fulfillment services, we generally own (or have permissive licenses for) the intellectual property provided by these contractors. Our proprietary software is not substantially dependent on any third-party software, although our software does utilize open source code. Notwithstanding the use of this open source code, we do not believe our usage requires public disclosure of our own source code nor do we believe the use of open source code will have a material impact on our business.

We register some of our product names, slogans and logos in the United States. In addition, we generally require our employees, contractors and many of those with whom we have business relationships to sign non-disclosure and confidentiality agreements. Neither intellectual property laws, contractual arrangements, nor any of the other steps we have taken to protect our intellectual property, can ensure that third parties will not exploit our technologies or develop similar technologies.

Our proprietary publishing system provides an advanced set of integrated tools for design, service, and modifications to support our mobile web app services. Our mobile web app builder software enables easy and efficient design, end user modification and administration, and includes a variety of other tools accessible by our team members.

Employees

As of December 2, 2013, we had 21 full-time employees and one part-time employee in the United States, none of whom is covered by a collective bargaining agreement.

Corporate History

We were originally incorporated in Nevada in 1996 as Renaissance Center, Inc. We started in the online marketing industry with YP.com, which had introduced the print yellow pages to the internet. We moved into the online classifieds business when we acquired LiveDeal, Inc., a California corporation, in June 2007, and changed our corporate name to LiveDeal, Inc. in August 2007.

On July 10, 2007, we acquired a Manila, Philippines-based call center to provide telemarketing services to support our directory services business. In February 2008, we commenced sales of higher-end direct sales products which focused on search engine marketing, website creation services and add-on advertising products. We sold the YP.com domain in March 2009, and in June 2009 discontinued our classifieds business and the operations at our Philippines-based call center.

In March 2010, we began mass market sales of a suite of internet-based, local search driven, customer acquisition services for small businesses using local exchange carrier, or LEC, billing channels, and curtailed sales of our higher-end direct sales products. In July 2010, we rebranded our traditional yellow page directory service as InstantProfile® and upgraded our services to provide online subscription tools and services to broadcast information about a business to the most popular internet directories, search engines, social media networks, and Points-of-Interest (POI) databases embedded on the leading navigational devices, as well as a communication suite that enabled both conference call hosting and electronic fax services. On December 1, 2010, we ceased all new sales of our higher-end direct sales products, and in May 2011 we assigned all remaining customers in that business segment to ReachLocal, Inc. On July 15, 2011, we discontinued all new sales of our InstantProfile® product while we evaluated our sales program, products, distribution methods and vendor programs, but we continue to service existing customers.

In August 2012 we acquired substantially all of the assets of LiveOpenly, Inc., which sourced, published and sold discounted goods and services offered by SMBs.

In addition to our renewed marketing efforts for LiveDeal.com and our other online presence and promotional marketing product lines described above, in the past fiscal year we have continued our efforts to reduce our and streamline our operations. We also intend to seek additional investment and working capital that will enable us to continue to expand and improve our product offerings and grow our revenues.

Available Information

We regularly file reports with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any other filings required by the SEC. We make these reports available free of charge

in the investor relations section of our corporate website (<http://ir.livedeal.com/>) as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC. References to our corporate website address in this report are intended to be inactive textual references only, and none of the information contained on our website is part of this report or incorporated in this report by reference.

The public may inspect and copy materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Room 1580, Washington, DC 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. You may also access these materials, and other information regarding issuers like us that file information electronically with the SEC, from the SEC's internet website at <http://www.sec.gov/>.

Recent Developments

Engagement Agreement with Chardan Capital Markets LLC (At-The-Market Offering)

On January 7, 2014, we entered into an Engagement Agreement (the "Engagement Agreement") with Chardan Capital Markets LLC ("Chardan") pursuant to which we may issue and sell up to a maximum aggregate amount of 660,000 shares of our common stock from time to time through Chardan as our sales agent, under our shelf registration statement on Form S-3 (File No. 333-187397) previously filed with the SEC, pursuant to which any shares that are issued under the Engagement Agreement will be sold.

Upon delivery of a placement notice by the Company, and subject to the terms and conditions of the Engagement Agreement, Chardan may sell the common stock by any method that is deemed to be an "at-the-market" offering as defined in Rule 415 promulgated under the Securities Act of 1933, as amended (the "Securities Act"), including by means of ordinary brokers' transactions at market prices on the NASDAQ Capital Market, in block transactions, through privately negotiated transactions, or as otherwise agreed by Chardan and us. Chardan will act as sales agent on a commercially reasonable efforts basis consistent with its normal trading and sales practices and applicable state and federal law, rules and regulations and the rules of NASDAQ.

The offering pursuant to the Engagement Agreement will terminate upon the earlier of (i) the sale of all shares of common stock subject to the Engagement Agreement, or (ii) termination of the Engagement Agreement as permitted therein. The Engagement Agreement may be terminated by Chardan or us at any time upon 15 days' notice to the other party.

We will pay Chardan a commission equal to up to 3% of the gross proceeds from the sale of the common stock sold through Chardan pursuant to the Engagement Agreement and reimburse Chardan up to \$15,000 in expenses. We have also provided Chardan with customary indemnification rights. No assurance can be given that we will sell any shares under the Engagement Agreement, or, if we do, as to the price or amount of shares that we will sell, or the dates on which any such sales will take place.

The foregoing description of the Engagement Agreement contained herein does not purport to be complete and is qualified in its entirety by reference to the complete text of the Engagement Agreement, a copy of which is attached to this Annual Report on Form 10-K as Exhibit 1.1 and incorporated herein by reference. This Annual Report on Form 10-K also incorporates by reference the Engagement Agreement into our shelf registration statement on Form S-3 (File No. 333-187397) previously filed with the SEC, pursuant to which any shares that are issued under the Engagement Agreement will be sold.

On January 9, 2014, we delivered a placement notice to Chardan to sell 12,200 shares of our common stock as part of the at-the-market offering. The shares were sold for approximately \$8.93 per share, resulting in gross proceeds of approximately \$109,000. Net proceeds to us, after payment of Chardan's 3% commission was approximately \$106,000.

Convertible Note Transaction (\$5 Million Line of Credit)

On January 7, 2014, the Company entered into a Note Purchase Agreement ("Purchase Agreement") with Kingston Diversified Holdings LLC (the "Investor"), pursuant to which the Investor agreed to purchase for cash up to \$5,000,000 in aggregate principal amount of the Company's Convertible Notes ("Notes"). The Purchase Agreement and the Notes, which are unsecured, provide that all amounts payable by the Company to the Investor under the Notes will be due and payable on the second (2nd) anniversary of the date of the Purchase Agreement (the "Maturity Date").

The Purchase Agreement and the Notes provide that:

Either the Company or the Investor will have the right to cause the sale and issuance of Notes pursuant to the Purchase Agreement, provided that NASDAQ's approval of the Purchase Agreement and transactions contemplated thereby is a condition precedent to each party's right to cause any borrowings to occur under the Purchase Agreement.

~~Each~~ Note must be in a principal amount of at least \$100,000.

The Notes are issuable at a 5% discount and will accrue interest at an annual interest rate equal to 8%. All interest will be payable on the Maturity Date or upon the conversion of the applicable Note.

~~The Company has the option to prepay each Note, in whole or in part, at any time without premium or penalty.~~

Either the Company or the Investor may elect at any time on or before the Maturity Date to convert the principal and accrued but unpaid interest due under any Note into shares of the Company's common stock. The conversion price applicable to any such conversion will be an amount equal to 70% of the lesser of: (i) the closing bid price of the common stock on the date of the Purchase Agreement (i.e., \$9.35 per share); or (ii) the 10-day volume weighted average closing bid price for the common stock, as listed on NASDAQ for the 10 business days immediately preceding the date of conversion (the "Average Price"); provided, however, that in no event will the Average Price per share be less than \$1.00. For example, if the Average Price is \$0.50 per share, then for purposes of calculating the conversion price, the Average Price per share would be \$1.00 per share instead of \$0.50 per share.

If either party elects to convert all or any portion of any Note, the Company must issue to the Investor on the date of the conversion a warrant ("Contingent Warrant") to purchase a number of shares of the Company's common stock equal to the number of shares issuable upon conversion. This number of shares is subject to adjustment in the event of stock splits or combinations, stock dividends, certain *pro rata* distributions, and certain fundamental transactions. Each Contingent Warrant will be exercisable for a period of five (5) years following the date of its issuance at an exercise price equal to 110% of the conversion price of the applicable Note (with the exercise price being subject to adjustment under the same conditions as the number of shares for which the warrant is exercisable.) The Contingent Warrants provide that they may be exercised in whole or in part and include a cashless exercise feature.

The Notes provide that, upon the occurrence of any Event of Default, all amounts payable to the Investor will become immediately due and payable without any demand or notice. The events of default ("Events of Default") which trigger the acceleration of the Notes include (among other things): (i) the Company's failure to make any payment required under the Notes when due (subject to a three-day cure period), (ii) the Company's failure to comply with its covenants and agreements under the Purchase Agreement, the Notes and any other transaction documents, and (iii) the occurrence of a change of control with respect to the Company.

The Company (i) is required to provide certain financial and other information to the Investor from time to time, (ii) must maintain its corporate existence, business, assets, properties, insurance and records in accordance with the requirements set forth in the Purchase Agreement, (iii) with certain exceptions, must not incur or suffer to exist any liens or other encumbrances with respect to the Company's property or assets, (iv) must not make certain loans or investments except in compliance with the terms of the Purchase Agreement, and (v) must not enter into certain types of transactions, including dispositions of its assets or business.

The Company agreed to use commercially reasonable efforts to obtain, as promptly as practicable, any approvals of the Company's stockholders required under applicable law or NASDAQ Listing Rules in connection with the transactions contemplated by the Purchase Agreement. Unless and until any such stockholder approvals are obtained, in no event will the Investor be entitled to convert any Notes and/or exercise any Contingent Warrants to the extent that any such conversion or exercise would result in the Investor acquiring in such transactions a number of shares of the Company's common stock exceeding 19.99% of the number of shares of common stock issued and outstanding immediately prior to the Company's entry into the Purchase Agreement.

The Investor will be entitled to certain anti-dilution adjustments if the Company issues shares of its common stock at a lower price per share than the applicable conversion price for any Note(s) issued pursuant to the Purchase Agreement. If any such dilutive issuance occurs prior to the conversion of one or more Notes, the conversion price for such Note(s) will be adjusted downward pursuant to its terms (subject to a floor of \$0.70 per share). If any such dilutive issuance occurs after the conversion of one or more Notes, the Investor will be entitled to be issued additional shares of common stock for no consideration, and to an adjustment of the exercise price payable under the applicable Contingent Warrant(s). With respect to each Note actually issued pursuant to the Purchase Agreement, the Investor's anti-dilution rights will expire two (2) years following the date of issuance.

The foregoing description of the Purchase Agreement, the Notes and the Contingent Warrants contained herein does not purport to be complete and is qualified in its entirety by reference to the complete text of such documents, copies of which are attached to this Annual Report on Form 10-K as Exhibits 10.10, 10.11 and 10.12, respectively, and incorporated herein by reference

2014 Omnibus Equity Incentive Plan

On January 7, 2014, our Board of Directors adopted the 2014 Omnibus Equity Incentive Plan (the "2014 Plan"), which authorizes the issuance of distribution equivalent rights, incentive stock options, non-qualified stock options, performance stock, performance units, restricted ordinary shares, restricted stock units, stock appreciation rights, tandem stock appreciation rights and unrestricted ordinary shares to our officers, employees, directors, consultants and advisors. The Company has reserved up to 600,000 shares of common stock for issuance under the 2014 Plan. Pursuant to Nasdaq Listing Rule 5635(c), the Company intends to seek stockholder approval of the 2014 Plan at our 2014 Annual Meeting of Stockholders.

ITEM 1A. Risk Factors

An investment in our common stock involves a substantial degree of risk. Before making an investment decision, you should give careful consideration to the following risk factors in addition to the other risks and information described in this report. The following risk factors, however, may not reflect all of the risks associated with our business or an investment in our common stock. The trading price of our common stock could decline significantly due to any of these risks and investors may lose all or part of their investments. In assessing these risks, investors should also refer to the other information contained or incorporated by reference in this Annual Report on Form 10-K, including our consolidated financial statements for the fiscal year that ended on September 30, 2012 and related notes.

Risks Related to Our Business

Our management, personnel, strategic partners, and products and services are relatively new.

Our management team, many of our business and strategic partners, and a large majority of our personnel are relatively new to our company. On July 15, 2011, we discontinued all sales of our prior principal product line, InstantProfile, while we commenced an evaluation of our sales program, products, distribution methods and vendor programs. In December 2011, we sold a controlling interest in our company to an unaffiliated group of new investors. In January 2012, our board appointed Jon Isaac, who is the owner of one of the December 2011 investors, as President and CEO. Since that time, the company has hired a new management team, implemented a new company strategy, designed new products and services around that strategy, hired new personnel and formed new business relationships to implement that strategy.

The products and services we are currently offering, as well as our current marketing practices, are new and are still being developed and tested for market acceptance, which cannot be assured. Our management team is in the process of actively evaluating and attempting to improve our marketing efforts and our product and service offerings, as well as contracting with new partners and hiring and training personnel for management, sales and fulfillment. Any new product offering is subject to certain risks, including customer acceptance, competition, product differentiation, challenges relating to economies of scale and the ability to attract and retain qualified personnel, including management and designers. Many of our contracts with third party vendors, including our strategic partnerships, permit our partners to terminate the contract, with short or no prior notice, for convenience, as well as in the event we default under the terms of the contract for failing to meet our contractual obligations.

The development of new products involves considerable costs and any new product may not generate sufficient consumer interest and sales to become a profitable brand or to cover the costs of its development and subsequent promotions. There can be no assurance that we will be able to develop and grow our current offerings, or any other new offerings, to a point where they will become profitable, or generate positive cash flow. We may modify or terminate our current product and services offerings if our management determines that they are not yielding or will not yield desired results.

Our product introductions and improvements, along with our other marketplace initiatives, are designed to capitalize on customer demands and trends. In order to be successful, we must anticipate and react to changes in these demands and trends, and to modify existing products or develop new products or processes to address them.

Uncertainty in the market for our products and services.

Our current product and service offerings are new, and the demand and market acceptance for these products and services is uncertain. Potential customers may not subscribe to our current offerings or other online marketing products and services that we may offer in the future. Customers we acquire may not continue to use our products and services or other online marketing products and services that we may offer in the future, including because they find these products and services to be too costly, ineffective or less effective for meeting their business needs than other methods of advertising and marketing. Our business, prospects, financial condition or results of operations will be materially and adversely affected if we do not execute our strategy or our products and services are not adopted by a sufficient number of customers.

We will incur operating losses and significant volatility in operations while we develop our new business offerings.

During the fiscal year ended September 30, 2013, we incurred substantial operating losses as we continued to transition our business toward our new strategic focus. We will continue to incur operating losses as we develop new business products which will be financed through existing cash on hand plus potential additional debt or equity financings. While we believe our existing cash on hand, together with additional cash generated from operations or obtained from other sources, such as stock issuances, loans or other forms of financing, is sufficient to finance our operations (including working capital and needed capital expenditures) for the next twelve months, there can be no assurance that we will achieve profitability or positive operating cash flows.

To the extent that we cannot achieve profitability or positive operating cash flows, our business will be adversely affected. Further, our new business lines are likely to experience significant volatility in their respective revenues, operating results, personnel, products or services for sale, and other business parameters, as management implements its strategies and responds to operating results.

We have historically incurred losses and expect to incur losses in the future, which may impact our ability to implement our business strategies and adversely affect our financial condition.

We have a history of losses. We had a net loss of \$5.7 million for the fiscal year ended September 30, 2013, and \$1.6 million for the fiscal year ended September 30, 2012. While we have significantly reduced our operating expenses by reviewing all expenses and improving operating efficiencies, we may not be able to reduce or maintain our expenses in response to any decrease in our revenues, which may impact our ability to implement our new business strategies and would adversely affect our financial condition.

We are losing our LEC billing channels.

We have historically billed a significant amount of our legacy business revenues through LEC billing channels. The largest LEC billing companies ceased billing for third parties in 2012. We anticipate that the three remaining LEC billing companies will also cease processing for third parties as of the end of 2012. If we are not able to obtain alternative billing methods for these customers, the number of customers and our revenues will decline, which could materially and adversely affect our operating results and financial condition.

If we fail to maintain the number of customers purchasing our monthly subscription products, our revenue and our business could be harmed.

Our monthly subscription customers do not have long-term obligations to purchase our products or services and many cancel their subscriptions each month. As a result of customer churn, we must continually add new monthly subscription customers to replace customers who cancelled and to grow our business beyond our current customer base.

In addition, as the result of the discontinuation of LEC billing services in 2012 noted above, we anticipate that we will lose a material number of subscribers. If we do not add sufficient new subscribers to compensate for these lost subscribers, our operating results and our financial performance may be materially and adversely affected.

Our senior management lacks substantial experience implementing our business strategy and most of our personnel has been recently hired.

Our senior management's track record and achievements in their respective prior endeavors are not necessarily indicative of future results that will be achieved by them on our behalf. Our senior management's skills, experience and expertise may not be as well suited to our current objectives, strategies and requirements as they were in their respective prior businesses. In particular, our most senior management is relatively inexperienced in marketing services to SMBs and in providing online marketing services, and our products and services, marketing strategy, operating environment and regulatory limitations differ markedly from the other businesses which our senior management has managed and operated. In addition, the great majority of our personnel, including our management, has been hired relatively recently, and there can be no assurance that they will be able to work together effectively or provide the necessary level of services to succeed in implementing our current business strategies.

We face intense competition, including from companies with greater resources, which could adversely affect our growth and could lead to decreased revenues.

Content marketing and other online marketing services are emerging fields with a considerable amount of competitors in each field. Major internet companies, including Google, Microsoft, Verizon, AT&T and Yahoo!, currently market internet Yellow Pages, local search services and other products that directly compete with our legacy business as well as our new product offerings and major deal companies, like Groupon and Living Social, currently market daily deals that directly compete with our promotional marketing business. Other existing and potential competitors include website design and development service and software companies; internet service providers and application service providers; internet search engine providers; domain registrars; website hosting providers; local business directory providers; and ecommerce platform and service providers.

We may not compete effectively with existing and potential competitors for several reasons, including the following:

some competitors have longer operating histories, larger and more established subscriber bases, and greater financial and other resources than we have and are in better financial condition than we are, enabling them to engage in more extensive research and development, more aggressive pricing policies, and more advertising and other promotional activities that will enhance their brand name recognition and increase their market share;

some competitors may release free tools, including open source tools, which perform some or many of the services we offer to our customers;

some competitors have better name recognition or reputations, as well as larger, more established, and more extensive marketing, customer service, and customer support capabilities than we have;

·some competitors may be able to better adapt to changing market conditions and customer demand; and

·barriers to entry are not significant, and new competitors may enter our markets or develop technologies that reduces the need for our services.

Increased competitive pressure could lead to reduced market share, as well as lower prices and reduced margins, for our services.

As a result of an anticipated increase in competition in our markets, and the likelihood that some of this competition will come from companies with more established brands and resources than us, we believe brand name recognition and reputation will become increasingly important. If we are not successful in quickly building brand awareness, we could be placed at a competitive disadvantage to companies whose brands are more recognizable than ours.

Our business is subject to an uncertain and developing regulatory environment.

While relatively few laws and regulations apply specifically to internet businesses, the application of other laws and regulations to internet businesses, including ours, is unclear in many instances. There remains significant legal uncertainty in a variety of areas, including intellectual property, user privacy, the positioning of sponsored listings on search results pages, defamation, taxation, product liability, and the regulation of content in various jurisdictions.

Compliance with federal laws relating to the internet and internet businesses may impose upon us significant costs and risks, or may subject us to liability if we do not successfully comply with their requirements, whether intentionally or unintentionally. Specific federal laws that impact our business include The Digital Millennium Copyright Act of 1998, The Communications Decency Act of 1996, The Children's Online Privacy Protection Act of 1998 (including related Federal Trade Commission regulations), The Protect Our Children Act of 2008, and The Electronic Communications Privacy Act of 1986, among others. For example, the Digital Millennium Copyright Act, which is in part intended to reduce the liability of online service providers for listing or linking to third-party websites that include materials that infringe the rights of others, was adopted by Congress in 1998. If we violate the Digital Millennium Copyright Act we could be exposed to costly and time-consuming copyright litigation.

Our utilization of ACH billing exposes us to review by the National Automated Clearing House Association. Future actions from these and other regulatory agencies could expose us to substantial liability in the future, including fines and criminal penalties, preclusion from offering certain products or services, and the prevention or limitation of certain marketing practices.

Existing laws and regulations and any future regulation may have a material adverse effect on our business. For example, we believe that our direct marketing programs meet existing requirements of the Federal Trade Commission, or FTC. Any changes to FTC requirements or changes in our direct or other marketing practices, however, could result in our marketing practices failing to comply with FTC regulations, or could require us to change our marketing strategies or practices, which could adversely impact our ability to acquire new clients.

The application of certain laws and regulations to our promotional marketing business, as a new product category, is uncertain. These include federal and state laws governing considered gift cards, gift certificates, stored value cards or prepaid cards, such as the federal Credit Card Accountability Responsibility and Disclosure Act of 2009, or the CARD Act, and unclaimed and abandoned property laws. Numerous class action lawsuits that have been filed in federal and state court claiming that vouchers used in promotional marketing are subject to the CARD Act and various state laws governing gift cards and that the defendants have violated these laws by issuing vouchers with expiration dates and other restrictions. If we are required to alter our promotional marketing business practices as a result of any laws and regulations, our revenue could decrease, our costs could increase and our business could otherwise be harmed. In addition, the costs and expenses associated with defending any actions related to such additional laws and regulations and any payments of related penalties, judgments or settlements could adversely impact our financial condition and results of operations.

Our success depends upon our ability to establish and maintain relationships with our customers.

Our ability to generate revenue depends upon our ability to maintain relationships with our existing customers, to attract new customers to sign up for revenue-generating products and services, and to generate traffic to our customers' websites. We primarily use telemarketing efforts to attract new customers. These telemarketing efforts may not produce satisfactory results in the future. We attempt to maintain relationships with our customers through customer service and delivery of traffic to their businesses. An inability to either attract additional customers to use our service or to maintain relationships with our customers could have a material adverse effect on our business, prospects, financial condition, and results of operations.

If we do not introduce new or enhanced offerings to our customers, we may be unable to attract and retain those customers, which would significantly impede our ability to generate revenue.

We may need to introduce new or enhanced products and services in order to attract and retain customers and to remain competitive. Our industries have been characterized by rapid technological change, changes in advertiser and

user requirements and preferences, and frequent new product and service introductions embodying new technologies and business logic. These changes could render our technology, systems, and services obsolete or uncompetitive. We may experience difficulties that could delay or prevent us from introducing new or enhanced products and services. If we do not periodically enhance our existing products and services, develop new technologies that address our customers' and users' needs and preferences, or respond to emerging technological advances and industry standards and practices on a timely and cost-effective basis, our products and services may not be attractive to customers or their users, which would significantly impede our revenue growth. In addition, our reputation and our brand could be damaged if any new or enhanced product or service introduction is not favorably received.

Our results of operations could fluctuate due to factors outside of our control.

Our operating results have historically fluctuated significantly, and we could continue to experience fluctuations or revert to declining operating results due to factors that may or may not be within our control. Such factors include the following:

- fluctuating demand for our services, which may depend on a number of factors including:

- § changes in economic conditions and our customers' profitability,

- § changes in technologies favored by consumers,

- § customer refunds or cancellations, and

- § our ability to continue to bill through existing means;

- market acceptance of new or enhanced versions of our services or products;

- price competition or pricing changes by us or our competitors;

- new product offerings or other actions by our competitors;
- the ability of our check processing service providers to continue to process and provide billing information;
- the amount and timing of expenditures for expansion of our operations, including the hiring of new employees, capital expenditures, and related costs;
- technical difficulties or failures affecting our systems or the internet in general;
- a decline in internet traffic at our website; and
- the fixed nature of a significant amount of our operating expenses.

The loss of our ability to bill customers through our ACH billing channel would adversely impact our results of operations.

We bill a significant number of our clients through our ACH billing channel. ACH transactions are closely regulated by the National Automated Clearing House Association, which develops operating rules and business practices for the ACH network and for electronic payments in the areas of internet commerce and other electronic payment means. Changes in these rules and business practices could compromise our ability to bill a significant number of our customers through ACH billing, and we would have to transition these customers to other billing channels. Such changes would be disruptive and could result in lost clients and revenue.

We are subject to a number of risks related to credit card payments.

We bill a large portion of our clients using credit and debit cards. For credit and debit card payments, we pay interchange and other fees, which may increase over time and raise our operating expenses and adversely affect our net income. We are also subject to payment card association operating rules, certification requirements and rules governing electronic funds transfers, which could change or be reinterpreted to make it difficult or impossible for us to comply. We believe we are compliant with the Payment Card Industry Data Security Standard, which incorporates Visa's Cardholder Information Security Program and MasterCard's Site Data Protection standard. However, there is no guarantee that we will maintain such compliance or that compliance will prevent illegal or improper use of our payment system. If we fail to comply with these rules or requirements, we may be subject to fines and higher transaction fees and lose our ability to accept credit and debit card payments from our clients. A failure to adequately control fraudulent credit card transactions would result in significantly higher credit card-related costs and could have a material adverse effect on our business, financial condition or results of operations.

We depend upon our executive officers and key personnel.

Our performance depends substantially on the performance of our executive officers and other key personnel. The success of our business in the future will depend on our ability to attract, train, retain, and motivate high quality personnel, especially highly qualified sales, technical and managerial personnel. The loss of services of any executive officers or key personnel could have a material adverse effect on our business, results of operations or financial condition. We do not have term employment agreements with, or key man life insurance covering, any of our executive officers.

Competition for talented personnel is intense, and there is no assurance that we will be able to continue to attract, train, retain or motivate highly qualified technical and managerial personnel in the future. In addition, market conditions may require us to pay higher compensation to qualified management and technical personnel than we currently anticipate. Any inability to attract and retain qualified management and technical personnel in the future could have a material adverse effect on our business, prospects, financial condition, and results of operations.

We depend upon third parties to provide certain services and software, and our business may suffer if the relationships upon which we depend fail to produce the expected benefits or are terminated.

We depend upon third-party software to operate certain of our services. The failure of this software to perform as expected could have a material adverse effect on our business. Additionally, although we believe that several alternative sources for this software are available, any failure to obtain and maintain the rights to use such software could have a material adverse effect on our business, prospects, financial condition, and results of operations. We also depend upon third parties who provide the cloud computing services which host our customers' websites, including the mobile web apps, to be sufficiently reliable and provide sufficient capacity and bandwidth so that our business can function properly and our customers' websites are responsive to current and anticipated traffic. Any restrictions or interruption in those providers' services or connection to the internet could have a material adverse effect on our business, prospects, financial condition, and results of operations. If we are forced to switch hosting facilities, we may not be successful in finding an alternative service provider on acceptable terms or in hosting the required computer servers and implementing the required technology ourselves. We may also be limited in our remedies against these providers in the event of a failure of service.

We expect that our anticipated future growth, including through potential acquisitions, may strain our management, administrative, operational and financial infrastructure, which could adversely affect our business.

We anticipate that significant expansion of our present operations will be required to compensate for the loss of clients related to the cessation of LEC billing and to capitalize on potential growth in market opportunities, and that this expansion will place a significant strain on our management, operational and financial resources. We expect to add a significant number of additional key personnel in the future, including key managerial, sales and technical employees who will have to be fully integrated into our operations. In order to manage our growth, we will be required to continue to implement and improve our operational, marketing and financial systems, to expand existing operations, to attract and retain superior management and personnel, and to train, manage and expand our employee base. We may not be able to expand our operations effectively, our systems, procedures and controls may be inadequate to support our expanded operations, and our management may fail to implement our business plan successfully.

We may not be able to secure additional capital to expand our operations.

Although we currently have no material long-term needs for capital expenditures, we will likely be required to make increased capital expenditures to fund our anticipated growth of operations, infrastructure, and personnel. In the future, we may need to seek additional capital through the issuance of debt or equity, depending upon our results of operations, market conditions or unforeseen needs or opportunities. Our future liquidity and capital requirements will depend on numerous factors, including:

- the pace of expansion of our operations;
- our need to respond to competitive pressures; and
- future acquisitions of complementary products, technologies or businesses.

The sale of additional equity or convertible debt securities could result in additional dilution to existing stockholders. We cannot provide assurance that any financing arrangements will be available in amounts or on terms acceptable to us, if at all.

We may not be able to adequately protect our intellectual property rights.

Our success depends both on our internally developed technology and licensed third party technology. We rely on a variety of trademarks, service marks, and designs to promote our brand names and identity. We also rely on a

combination of contractual provisions, confidentiality procedures, and trademark, copyright, trade secrecy, unfair competition, and other intellectual property laws to protect the proprietary aspects of our products and services. Legal standards relating to the validity, enforceability, and scope of the protection of certain intellectual property rights in internet-related industries are uncertain and still evolving. The steps we take to protect our intellectual property rights may not be adequate to protect our intellectual property and may not prevent our competitors from gaining access to our intellectual property and proprietary information. In addition, we cannot provide assurance that courts will always uphold our intellectual property rights or enforce the contractual arrangements that we have entered into to obtain and protect our proprietary technology.

Third parties, including our partners, contractors or employees, may infringe or misappropriate our copyrights, trademarks, service marks, trade dress, and other proprietary rights. Any such infringement or misappropriation could have a material adverse effect on our business, prospects, financial condition, and results of operations. In addition, the relationship between regulations governing domain names and laws protecting trademarks and similar proprietary rights is unclear. We may be unable to prevent third parties from acquiring domain names that are similar to, infringe upon or otherwise decrease the value of our trademarks and other proprietary rights, which may result in the dilution of the brand identity of our services.

We may decide to initiate litigation in order to enforce our intellectual property rights or to determine the validity and scope of our proprietary rights. Any such litigation could result in substantial expense, and may not adequately protect our intellectual property rights. In addition, we may be exposed to future litigation by third parties based on claims that our products or services infringe or misappropriate their intellectual property rights. Any such claim or litigation against us, whether or not successful, could result in substantial costs and harm our reputation. In addition, such claims or litigation could force us to do one or more of the following:

- cease selling or using any of our products and services that incorporate the subject intellectual property, which would adversely affect our revenue;

- attempt to obtain a license from the holder of the intellectual property right alleged to have been infringed or misappropriated, which license may not be available on reasonable terms; and

- attempt to redesign or, in the case of trademark claims, rename our products or services to avoid infringing or misappropriating the intellectual property rights of third parties, which may be costly and time-consuming.

Even if we were to prevail, such claims or litigation could be time-consuming and expensive to prosecute or defend, and could result in the diversion of our management's time and attention. These expenses and diversion of managerial resources could have a material adverse effect on our business, prospects, financial condition, and results of operations.

We may be subject to intellectual property claims that create uncertainty about ownership or use of technology essential to our business and divert our managerial and other resources.

Our success depends, in part, on our ability to operate without infringing the intellectual property rights of others. Third parties may, in the future, claim our current or future services, products, trademarks, technologies, business methods or processes infringe their intellectual property rights, or challenge the validity of our intellectual property rights. We may be subject to patent infringement claims or other intellectual property infringement claims that would be costly to defend and could limit our ability to use certain critical technologies or business methods. We may also become subject to interference proceedings conducted in the patent and trademark offices of various countries to determine the priority of inventions.

The defense and prosecution, if necessary, of intellectual property suits, interference proceedings and related legal and administrative proceedings can become very costly and may divert our technical and management personnel from their normal responsibilities. We may not prevail in any of these suits or proceedings. An adverse determination of any litigation or defense proceedings could require us to pay substantial compensatory and exemplary damages, could restrain us from using critical technologies, business methods or processes, and could result in us losing, or not gaining, valuable intellectual property rights.

Furthermore, due to the voluminous amount of discovery frequently conducted in connection with intellectual property litigation, some of our confidential information could be disclosed to competitors during this type of litigation. In addition, public announcements of the results of hearings, motions or other interim proceedings or developments in the litigation could be perceived negatively by investors, and thus have an adverse effect on the trading price of our common stock.

We may be required to expand or upgrade our infrastructure.

Our ability to provide high-quality services largely depends upon the efficient and uninterrupted operation of our computer and communications systems. We (or our third party service providers) may be required to expand or upgrade our (or their) technology, infrastructure, fulfillment capabilities, or customer support capabilities in order to accommodate any significant growth in customers or to replace aging or faulty equipment or technologies. We (or they) may not be able to project accurately the rate or timing of increases, if any, in the use of our services or expand and upgrade our (or their) systems and infrastructure to accommodate these increases in a timely manner.

Any expansion of our (or our third party service providers') infrastructure may require us (or them) to make significant upfront expenditures for servers, routers, computer equipment, and additional internet and intranet equipment, as well as to increase bandwidth for internet connectivity. Any such expansion or enhancement may cause system disruptions.

Our (or our third party service providers') inability to expand or upgrade our technology, infrastructure, fulfillment capabilities, customer support capabilities or equipment as required or without disruptions could impair the reputation of our brand and our services and diminish the attractiveness of our service offerings to our clients.

We may have an adverse resolution of litigation that may harm our operating results or financial condition.

At times, we are a party to lawsuits. Litigation can be expensive, lengthy, and disruptive to normal business operations. Moreover, the results of complex legal proceedings are difficult to predict. An unfavorable resolution of a particular lawsuit could require us to pay substantial damages or to comply with court orders that could have a material adverse effect on our business, operating results, or financial condition.

We may fail to retain existing merchants, or add new merchants, in our promotional marketing business.

Our promotional marketing business depends in part on our strategic partners to publish discounted products and services we source from our SMB clients. We depend on our ability to attract and retain SMBs that are prepared to offer products or services on compelling terms through our strategic partners. We are a recent entrant to this market and we do not have long-term arrangements to guarantee the availability of deals that offer attractive quality, value and variety to consumers or favorable payment terms to us. We must continue to attract and retain merchants in various geographical areas to our promotional marketing business in order to increase revenue and achieve profitability. If new merchants do not find our marketing and promotional services effective, or if existing merchants do not believe that utilizing our products provides them with a long-term increase in customers, revenues or profits, they may stop making offers through us. In addition, we may experience attrition in our merchants in the ordinary course of business resulting from several factors, including losses to competitors and merchant closures or bankruptcies. If we are unable to attract new merchants in numbers sufficient to grow our promotional marketing business, or if too many merchants are unwilling to offer products or services with compelling terms through our strategic partners, or to offer favorable payment terms to us, we may sell fewer daily deals and our operating results will be adversely affected.

Our promotional marketing business depends heavily on our strategic partners.

Our promotional marketing business is highly dependent upon our ability to sell discounted products and services offered by our SMB clients through our strategic partners. Unlike many of our established competitors, we currently lack a significant subscriber base for selling these offers to potential customers of these SMB clients. Instead, we rely on our strategic partners, some of whom have extremely large user bases, to publish these offers to reach these potential customers. We do not have long-term relationships with these strategic partners. Our agreements with these strategic partners generally permit our partners to terminate the agreement with short or no prior notice, for convenience, and/or do not require our partners to publish the offers we source from our SMB clients.

Our business is subject to the risks of earthquakes, fires, floods and other natural catastrophic events and to interruption by man-made problems such as computer viruses or terrorism.

Our service systems and operations are vulnerable to damage or interruption from earthquakes, fires, floods, power losses, telecommunications failures, terrorist attacks, acts of war, human errors, break-ins and similar events. For example, a significant natural disaster, such as an earthquake, fire or flood, could have a material adverse impact on our business, operating results and financial condition, and our insurance coverage will likely be insufficient to compensate us for losses that may occur. Our servers may also be vulnerable to computer viruses, break-ins and similar disruptions from unauthorized tampering with our computer systems, which could lead to interruptions, delays, loss of critical data or the unauthorized disclosure of confidential intellectual property or client data. We may not have sufficient protection or recovery plans in certain circumstances, such as natural disasters affecting the Las Vegas or San Diego area, and our business interruption insurance may be insufficient to compensate us for losses that may occur. As we rely heavily on our servers, computer and communications systems and the internet to conduct our business and provide high quality customer service, such disruptions could negatively impact our ability to operate our business, which could have a material and adverse effect on our operating results and financial condition.

We have made strategic acquisitions and divestitures in the past few years and may complete similar transactions in the future and cannot assure you that any future transactions will be successful.

As part of our business strategy, we have acquired a number of businesses and assets, including our recent acquisition of LiveOpenly, Inc., and we regularly look for opportunities to support our new business strategy through appropriate acquisitions, divestitures and strategic alliances. There can be no assurance that we will be successful in identifying appropriate transaction partners or integrating the acquired businesses into our operations in a way that ultimately supports our business strategy or revenues. We may enter into additional acquisitions, business combinations or strategic alliances in the future. Acquisitions may result in dilutive issuances of equity securities, use of our cash resources, incurrence of debt and amortization of expenses related to intangible assets acquired. In addition, the process of integrating an acquired company, business or technology, which requires a substantial commitment of resources and management's attention, may create unforeseen operating difficulties and expenditures. The acquisition of a company or business is accompanied by a number of risks, including:

- exposure to unanticipated liabilities of an acquired company (or acquired assets);

- difficulties integrating or developing acquired technology into our services or acquired products or services into our operations, and unanticipated expenses or disruptions related to such integration;

- the potential loss of key partners or key personnel in connection with, or as the result of, a transaction;

- the impairment of relationships with clients of the acquired business, or our own clients, partners or employees, as a result of any integration of operations or the expansion of our offerings;

- the recording of goodwill and intangible assets that will be subject to impairment testing on a regular basis and potential periodic impairment charges;

- the diversion of the attention of our management team from other business concerns, including the day-to-day management of our businesses or the internal growth strategies that we are currently implementing;

- the risk of entering into markets or producing products where we have limited or no experience, including the integration or removal of the acquired or disposed technologies and products with or from our existing technologies and products; and

- the inability properly to implement or remediate internal controls, procedures and policies appropriate for a public company at businesses that prior to our acquisition were not subject to federal securities laws and may have lacked appropriate controls, procedures and policies.

We may not be able to adapt as the internet, mobile technologies and customer demands continue to evolve.

The internet, e-commerce, the online marketing industry and mobile devices are characterized by:

- rapid technological change;
- changes in customer and user requirements and preferences;
- frequent new product and service introductions embodying new technologies and business logic; and
- the emergence of new industry standards and practices that could render our existing service offerings, technology, and hardware and software infrastructure obsolete.

In order to compete successfully in the future, we must:

- enhance our existing services and develop new services and technology that address the increasingly sophisticated and varied needs of our prospective or current customers;
- license, develop or acquire technologies useful in our business on a timely basis; and
- respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis.

Our failure to respond in a timely manner to changing market conditions or client requirements could have a material adverse effect on our business, prospects, financial condition, and results of operations.

Our business could be negatively impacted if the security of our or our partners' equipment becomes compromised.

To the extent that our activities involve the storage and transmission of proprietary information about our customers or users, security breaches could damage our reputation and expose us to a risk of loss or litigation and possible liability. We may be required to expend significant capital and other resources to protect against security breaches or to minimize problems caused by security breaches. Our (or our third party service providers') security measures may not prevent security breaches. The failure to prevent these security breaches or a misappropriation of proprietary

information may have a material adverse effect on our business, prospects, financial condition, and results of operations.

If we are not able to maintain an effective system of internal controls, we may not be able to accurately or timely report our financial results, which could cause our stock price to fall or result in our stock being delisted.

Effective internal controls are necessary for us to provide reliable and accurate financial reports. We will need to devote significant resources and time to comply with the requirements of Sarbanes-Oxley with respect to internal control over financial reporting. In addition, Section 404 under Sarbanes-Oxley requires that we assess the design and operating effectiveness of our controls over financial reporting. Our ability to comply with the annual internal control report requirement will depend on the effectiveness of our financial reporting and data systems and controls across our company and our operating subsidiaries. We expect these systems and controls to become increasingly complex to the extent that we integrate acquisitions and our business grows. To effectively manage this complexity, we will need to continue to improve our operational, financial, and management controls and our reporting systems and procedures. Any failure to implement required new or improved controls, or difficulties encountered in the implementation or operation of these controls, could harm our operating results or cause us to fail to meet our financial reporting obligations, which could adversely affect our business and jeopardize our listing on the NASDAQ Capital Market, either of which would harm our stock price.

Risks Related to the Internet

We may be unable to keep pace with rapid technological change in the internet industry.

In order to remain competitive, we will be required continually to enhance and improve the functionality and features of our existing products and services, which could require us to invest significant capital or make substantial changes to our personnel, technologies or equipment. If our competitors introduce new products and services embodying new technologies or if new industry standards and practices emerge, our existing services, technologies, and systems may become obsolete or uncompetitive. We may not have the funds or technical knowledge to upgrade our services, technologies, or systems. If we face material delays in introducing new or enhanced products and services, our customers and users may select those of our competitors, in which event our business, prospects, financial condition, and results of operations could be materially and adversely affected.

Regulation of the internet may adversely affect our business.

The laws governing the internet remain largely unsettled, even in areas where legislation has been enacted. It may take years to determine whether and how existing laws, such as those governing intellectual property, privacy, defamation, product liability, and taxation apply to the internet and internet services. Unfavorable resolution of these issues may substantially harm our business and operating results.

Due to the increasing popularity and use of the internet and online services such as online Yellow Pages, federal, state, local, and foreign governments may adopt laws and regulations, or amend existing laws and regulations, with respect to the internet and other online services. These laws and regulations may affect issues such as user privacy, pricing, content, taxation, copyrights, distribution, product liability and quality of products and services. In addition, the growth and development of the market for electronic commerce may prompt calls for more stringent consumer protection laws, both in the United States and abroad, that may impose additional burdens on companies conducting business over the internet, including those covering user privacy, data protection, spyware, “do not email” lists, “do not call” lists, access to high speed and broadband service. Other laws and regulations that have been adopted, or may be adopted in the future, that may affect our business include pricing, taxation (including sales, value-added and other transactional taxes), tariffs, patents, copyrights, trademarks, trade secrets, export of encryption technology, electronic contracting, click-fraud, acceptable content, search terms, lead generation, behavioral targeting, consumer protection, and quality of products and services. Any new legislation could hinder the growth in use of the internet generally or in our industry and could impose additional burdens on companies conducting business online, which could, in turn, decrease the demand for our products and services, increase our cost of doing business, or otherwise have a material adverse effect on our business, prospects, financial condition, and results of operations.

We may not be able to obtain internet domain names that we would like to have.

We believe that our existing internet domain names are an extremely important part of our business. We may desire, or it may be necessary in the future, to use these or other domain names in the United States and internationally. Various internet regulatory bodies regulate the acquisition and maintenance of domain names in the United States and other countries. These regulations are subject to change. Governing bodies may establish additional top-level domains, appoint additional domain name registrars or modify the requirements for holding domain names. As a result, we may be unable to acquire or maintain relevant domain names in all countries in which we plan to conduct business in the future.

The extent to which laws protecting trademarks and similar proprietary rights will be extended to protect domain names currently is not clear. We therefore may be unable to prevent competitors from acquiring domain names that are similar to, infringe upon or otherwise decrease the value of our domain names, trademarks, trade names, and other proprietary rights. We cannot provide assurance that potential users and customers will not confuse our domain names, trademarks, and trade names with other similar names and marks. If that confusion occurs, we may lose business to a competitor and some customers and users may have negative experiences with other companies that those customers and users erroneously associate with us.

Our technical systems could be vulnerable to online security risks, service interruptions or damage to our systems.

Our (or our third party service providers') systems and operations may be vulnerable to damage or interruption from fire, floods, power loss, telecommunications failures, break-ins, sabotage, computer viruses, penetration of our network by unauthorized computer users or "hackers," natural disaster, and similar events. Preventing, alleviating, or eliminating computer viruses and other service-related or security problems may require interruptions, delays or cessation of service. We may need to expend significant resources protecting against the threat of security breaches or alleviating potential or actual service interruptions. The occurrence of such unanticipated problems or security breaches could cause material interruptions or delays in our business, loss of data, or misappropriation of proprietary information or could render us unable to provide services to our customers for an indeterminate length of time. The occurrence of any or all of these events could materially and adversely affect our business, prospects, financial condition, and results of operations.

If we are sued for content distributed through, or linked to by, our website or those of our customers, we may be required to spend substantial resources to defend ourselves and could be required to pay monetary damages.

We aggregate and distribute third-party data and other content over the internet. In addition, third-party websites are accessible through our website or those of our customers. As a result, we could be subject to legal claims for defamation, negligence, intellectual property infringement, product or service liability or other torts. Other claims may be based on errors or false or misleading information provided on or through our website or websites of our customers, or on links to sexually explicit or gambling websites and sexually explicit advertisements. We may need to expend substantial resources to investigate and defend these claims, regardless of whether we successfully defend against them. While we carry general business insurance, the amount of coverage we maintain may not be adequate. In addition, implementing measures to reduce our exposure to this liability may require us to spend substantial resources and limit the attractiveness of our products or services to users.

If our security measures are breached and unauthorized access is obtained to a client's data, our service may be perceived as not being secure and clients may curtail or stop using our service.

Our service may involve the storage and transmission of clients' proprietary information, such as credit card and bank account numbers, and security breaches could expose us to a risk of loss of this information, litigation and possible liability. Our payment services may be susceptible to credit card and other payment fraud schemes, including unauthorized use of credit cards, debit cards or bank account information, identity theft or merchant fraud.

If our security measures are breached in the future as a result of third-party action, employee error, malfeasance or otherwise, and as a result, someone obtains unauthorized access to our clients' data, our reputation could be damaged, our business may suffer and we could incur significant liabilities. Because techniques used to obtain unauthorized access or to sabotage systems change frequently and frequently are not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures. If an actual or perceived breach of our security occurs, the market perception of the effectiveness of our security measures could be harmed and we could lose sales and clients.

Our revenue may be negatively affected if we are required to charge sales tax or other transaction taxes on all or a portion of our past and future sales to customers located in jurisdictions where we are currently not collecting and reporting tax.

We generally do not charge, collect or have imposed upon us sales, value added (VAT) or other transaction taxes related to the products and services we sell, except for certain corporate level taxes and transaction level taxes outside of the United States. However, the federal, state, and local governments or one or more foreign countries may seek to impose sales or other transaction tax obligations on us in the future. A successful assertion by any tax jurisdiction in which we do business that we should be collecting sales or other transaction taxes on the sale of our products or services, or the adoption of new laws to require us to collect such taxes, could result in substantial tax liabilities related to past sales, create increased administrative burdens or costs, discourage customers from purchasing or continuing to purchase products or services from us, decrease our ability to compete or otherwise substantially harm our business and results of operations.

Risks Related to Our Securities

We have experienced difficulties maintaining compliance with applicable requirements for the continued listing of our common stock on the NASDAQ Capital Market, and any future failure to comply with such requirements could result in the delisting of common stock from that trading market.

During our 2011 fiscal year, we fell out of compliance with certain requirements for the continued listing of our common stock on The NASDAQ Capital Market, including the requirements that we maintain (i) at least 500,000 “publicly held” shares of common stock (i.e., shares not held by directors, officers or 10% stockholders), (ii) at least \$2.5 million of stockholders’ equity, and (iii) a market value of our “publicly held” shares of at least \$1.0 million. While we obtained a notice from NASDAQ on August 23, 2012 that we regained compliance with the applicable listing rules, and on November 30, 2012 that we were removed from further compliance monitoring, we can provide no assurance that we will remain in compliance with NASDAQ’s listing requirements, or that our common stock will continue to be traded on The NASDAQ Capital Market or any other market.

Stock prices of technology companies have declined precipitously at times in the past and the trading price of our common stock is likely to be volatile, which could result in substantial losses to investors.

The trading price of our common stock has been highly volatile over the past few years and investors could experience losses in response to factors including the following, many of which are beyond our control:

- decreased demand in the internet services sector;
- variations in our operating results;
- announcements of technological innovations or new products or services by us or our competitors;
- changes in expectations of our future financial performance, including financial estimates by securities analysts and investors;
- our failure to meet analysts’ expectations;
- changes in operating and stock price performance of other technology companies similar to us;

- conditions or trends in the technology industry, the online marketing industry or the mobile device industry;
- additions or departures of key personnel or strategic partners; and
- future sales of our debt or equity securities, including common stock.

Domestic and international stock markets often experience significant price and volume fluctuations that are unrelated or disproportionate to the operating performance of companies with securities trading in those markets. These fluctuations, as well as political events, terrorist attacks, threatened or actual war, and general economic conditions unrelated to our performance, may adversely affect the price of our common stock. In the past, securities holders of other companies often have initiated securities class action litigation against those companies following periods of volatility in the market price of those companies' securities. If the market price of our stock fluctuates and our stockholders initiate this type of litigation, we could incur substantial costs and experience a diversion of our management's attention and resources, regardless of the outcome. This could materially and adversely affect our business, prospects, financial condition, and results of operations.

Our stock price may be volatile, and the value of an investment in our common stock may decline.

An active, liquid and orderly market for our common stock may not be developed or sustained, which could depress the trading price of our common stock.

The trading price of our common stock may be subject to wide fluctuations in response to various factors, some of which are beyond our control, including:

- our operating performance and the operating performance of similar companies;
- the overall performance of the equity markets;
- the number of shares of our common stock publicly owned and available for trading;
- threatened or actual litigation;
- changes in laws or regulations relating to our solutions;

- any major change in our Board of Directors or management;
- publication of research reports about us or our industry or changes in recommendations or withdrawal of research coverage by securities analysts;
- large volumes of sales of our shares of common stock by existing stockholders; and
- general political and economic conditions.

Due to our concentrated stock ownership, public stockholders may have no effective voice in our management and the trading price of our common stock may be adversely affected.

Three stockholders beneficially own approximately 60.9% of our outstanding shares of common stock, and one of them, our CEO, is the beneficial owner of approximately 39.6% of our outstanding shares of common stock. Each of these three stockholders also has a contractual right to nominate one member of our Board of Directors. These stockholders, collectively, have the ability to determine the outcome of the election of directors at our annual meetings and to determine the outcome of many significant corporate transactions, such as mergers, consolidations, dissolutions or the sale of all or substantially all of our assets, many of which only require the approval of a majority of our voting power. These stockholders may have interests that differ from other stockholders and may vote in a way with which other stockholders disagree and which may be adverse to other stockholders' interests. Moreover, such a concentration of voting power could have the effect of delaying or preventing a third party from acquiring us at a premium. This significant concentration of share ownership may also adversely affect the trading price for our common stock because investors often perceive disadvantages in owning stock in companies with concentrated stock ownership.

We do not anticipate paying dividends on our common stock in the foreseeable future.

We do not intend to pay cash dividends in the foreseeable future due to our limited funds for operations. Therefore, any return on your investment would likely come only from an increase in the market value of our common stock.

Certain provisions of Nevada law, in our organizational documents and in contracts to which we are party may prevent or delay a change of control of our company.

We are subject to the Nevada anti-takeover laws regulating corporate takeovers. These anti-takeover laws prevent Nevada corporations from engaging in a merger, consolidation, sales of its stock or assets, and certain other transactions with any stockholder, including all affiliates and associates of the stockholder, who owns 10% or more of the corporation's outstanding voting stock, for three years following the date that the stockholder acquired 10% or more of the corporation's voting stock, except in certain situations. In addition, our amended and restated articles of incorporation and bylaws include a number of provisions that may deter or impede hostile takeovers or changes of control or management. These provisions include the following:

- the authority of our Board of Directors to issue up to 5,000,000 shares of preferred stock and to determine the price, rights, preferences, and privileges of these shares, without stockholder approval;
- stockholders must comply with advance notice requirements to transact any business at the annual meeting;
- all stockholder actions must be effected at a duly called meeting of stockholders and not by written consent, unless such action or proposal is first approved by our Board of Directors;
- special meetings of the stockholders may be called only by the Chairman of the Board, the Chief Executive Officer, or the President of our company;
- a director may be removed from office only for cause by the holders of at least two-thirds of the voting power entitled to vote at an election of directors;
- our Board of Directors is expressly authorized to alter, amend or repeal our bylaws;
- newly-created directorships and vacancies on our Board of Directors may only be filled by a majority of remaining directors, and not by our stockholders; and
- cumulative voting is not allowed in the election of our directors.

These provisions of Nevada law and our articles and bylaws could prohibit or delay mergers or other takeover or change of control of our company and may discourage attempts by other companies to acquire us, even if such a transaction would be beneficial to our stockholders.

In addition, provisions in a Securities Purchase Agreement we entered into in December 2011 grant each of three of our stockholders the right to nominate one member of our Board of Directors.

Our common stock may be subject to the “penny stock” rules as promulgated under the Securities Exchange Act of 1934.

In the event that no exclusion from the definition of “penny stock” under the Securities Exchange Act of 1934, as amended, is available, then any broker engaging in a transaction in our common stock will be required to provide its customers with a risk disclosure document, disclosure of market quotations, if any, disclosure of the compensation of the broker-dealer and its sales person in the transaction, and monthly account statements showing the market values of our securities held in the customer’s accounts. The bid and offer quotation and compensation information must be provided prior to effecting the transaction and must be contained on the customer’s confirmation of sale. Certain brokers are less willing to engage in transactions involving “penny stocks” as a result of the additional disclosure requirements described above, which may make it more difficult for holders of our common stock to dispose of their shares.

ITEM 1B. Unresolved Staff Comments

Not applicable.

ITEM 2. Properties

Our principal executive and administrative offices are located at 6240 McLeod Drive, Suite 120, Las Vegas, Nevada, where we lease approximately 2,500 square feet of space in the McLeod Business Park. Our current monthly rent is approximately \$2,500, subject to annual increases. Our lease for this space ends on November 30, 2015; however, we have the option to extend the lease for two additional lease terms of three years each. We also lease approximately 11,000 square feet of space located at 325 East Warm Springs Road, Suite 100, Las Vegas Nevada, which we utilize as our call center. We currently pay approximately \$13,000 in monthly rent for the call center, which is subject to annual increases. Our lease for this space ends on approximately February 29, 2016; however, we have the option to extend the lease for two additional lease terms of three years each. Our San Diego executive office is located at 12520 High Bluff Drive, San Diego, California, where we utilize approximately 1,600 square feet of space in Plaza Del Mar. This office is currently being provided to us by a company that is a related party to the Isaac Capital Group LLC, one of our largest stockholders which is owned by Jon Isaac, our President and CEO and one of our directors.

ITEM 3. Legal Proceedings

Except as described below, we are not a party to, and none of our property was the subject of, any material pending legal proceedings, other than ordinary routine litigation incidental to our business. While we currently believe that the ultimate outcome of these routine proceedings will not have a material adverse effect on our consolidated financial condition or results of operations, litigation is subject to inherent uncertainties. An unfavorable ruling could result in a material adverse impact on our net income and financial condition in the period in which a ruling occurs. Moreover, routine litigation, even if not meritorious, could result in the expenditure of significant financial and managerial resources and could adversely affect our net income and financial condition.

Global Education Services, Inc. v. LiveDeal, Inc.

On June 6, 2008, Global Education Services, Inc., which we refer to as GES, filed a consumer fraud lawsuit against us in the King County Superior Court in the State of Washington, alleging that our use of activator checks violated the Washington Consumer Protection Act and seeking class certification pursuant to Washington law. GES sought injunctive relief against our use of activator checks, damages in an amount equal to three times the damages allegedly sustained by the members of the putative class, exemplary damages for the alleged violation of law and its fees and costs. We denied the allegations and commenced defending the litigation.

Early in 2010, the Court denied both parties' dispositive motions, at which time they commenced settlement discussions. The parties reached a settlement and entered into a settlement agreement on or about November 5, 2012. The settlement agreement required \$150,000 to be paid to plaintiff's counsel, \$10,000 to be paid to GES as the "representative plaintiff" and \$70 to be paid to each eligible class member. The Court granted final approval of the settlement on April 26, 2013 and the Court's order became final on May 27, 2013. All class member claims have been

paid and the last attorneys' fee payment was made on November 23, 2013. Accordingly, the litigation is fully resolved and the matter closed.

J3 Harmon LLC v. LiveDeal, Inc.

On February 9, 2012, J3 Harmon LLC, which we refer to as J3, filed a lawsuit against us in the Superior Court for Maricopa County in the State of Arizona, alleging breach of a commercial lease agreement. J3 sought damages for alleged unpaid rents during the lease term as well as alleged damages for storage costs after the expiration of the lease term. We denied the allegations and asserted various affirmative defenses. In September 2012, the Maricopa County Superior Court entered a judgment in favor of J3 in the sum of \$62,886.13. We appealed this judgment.

On October 1, 2013, the Arizona Court of Appeals affirmed in part and reversed in part on the principal damages and remanded the matter for judgment. Subsequently, the Maricopa County Superior Court entered Judgment on Mandate against the Company in the principal sum of \$46,636.31 and attorneys' fees of \$5,624.40, with post-judgment interest from October 3, 2012. There is no further basis for appeal by the Company. The Company anticipates paying the judgment during the fiscal quarter ending March 31, 2014 and, upon such payment, the matter will be resolved. As of September 30, 2013, we maintained an accrual of \$52,261 related to this.

ITEM 4. Mine Safety Disclosures

Not applicable.

PART II

ITEM 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our Common Stock

Our common stock is traded on the NASDAQ Capital Market under the symbol “LIVE”.

The following table sets forth the quarterly high and low sale prices per share of our common stock during the last two fiscal years.

	Quarter Ended	High	Low
2012	December 31, 2011	\$7.37	\$1.02
	March 31, 2012	\$7.19	\$2.59
	June 30, 2012	\$15.57	\$3.87
	September 30, 2012	\$18.58	\$3.38
2013	December 31, 2012	\$5.34	\$3.04
	March 31, 2013	\$4.10	\$2.11
	June 30, 2013	\$3.43	\$2.51
	September 30, 2013	\$5.19	\$2.38

Holders of Record

On January 6, 2014, there were approximately 154 holders of record of our common stock according to our transfer agent. We have no record of the number of stockholders who hold their stock in “street name” with various brokers.

Dividend Policy

We have one class of authorized preferred stock (Series E Preferred Stock), of which there are currently 127,840 shares issued and outstanding. Each share of Series E Preferred Stock is entitled to and receives a dividend of \$0.015 per year. At September 30, 2013, we had accrued but unpaid dividends totaling approximately \$15,821.

Presently, we do not pay dividends on our common stock. The timing and amount of future dividend payments on our common stock, if any, will be determined by our Board of Directors based upon our earnings, capital requirements and financial position, general economic conditions, alternative uses of capital, and other pertinent factors.

Issuer Purchases of Equity Securities

During our fiscal quarter ended September 30, 2013, neither we nor any “affiliated purchaser”, as defined in Exchange Act Rule 10b-18(a)(3)), repurchased any shares of our common stock. At September 30, 2013, we had retired all of our shares of treasury stock.

Securities Authorized for Issuance Under Equity Compensation Plans

Reference is made to Note 11 of the notes to our consolidated financial statements for certain disclosures about our equity compensation plans.

Recent Sales of Unregistered Securities

On August 22, 2013, the Company agreed to issue 15,773 shares of common stock to a software developer in exchange for services valued at an aggregate of \$50,000. The per share valuation associated with the issuance was \$3.17, which was equal to the closing price of our common stock as reported on the NASDAQ Capital Market on the date of the transaction. Pursuant to applicable NASDAQ Listing Rules, the share issuance is subject to stockholder approval of our new 2014 Omnibus Equity Incentive Plan, which the Company intends to seek at our 2014 Annual Meeting of Stockholders.

On September 9, 2013, we issued 200,000 shares to Novalk Apps S.A.S. in exchange for certain customer relationship manager, or CRM, software assets acquired pursuant to an Asset Purchase Agreement dated as of the same date. Such assets were valued at an aggregate of \$994,000. The per share purchase price for such shares was \$4.97, which was equal to the closing price of our common stock as reported on the NASDAQ Capital Market on the date of the transaction.

On September 30, 2013, we issued 44,233 shares of common stock to John Kocmur, a member of our Board of Directors, in exchange for a cash payment of \$152,160. The per share purchase price for such shares was \$3.44, which was equal to the closing price of our common stock as reported on the NASDAQ Capital Market on the date of the transaction.

We offered and sold these shares without registration under the Securities Act of 1933 as amended (the “Securities Act”), in reliance upon the exemption from the registration contained in Section 4(2) of the Securities Act and, in certain cases, Rule 506 of Regulation D thereunder. Such shares may not be offered or sold in the United States in the absence of an effective registration statement or exemption from the registration requirements under the Securities Act. An appropriate legend has been placed on the certificates we issued to represent these securities.

ITEM 6. Selected Financial Data

Not applicable.

ITEM 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

For a description of our significant accounting policies and an understanding of the significant factors that influenced our performance during the fiscal year ended September 30, 2013, this “Management’s Discussion and Analysis” should be read in conjunction with the Consolidated Financial Statements, including the related notes, appearing in Item 8 of this Annual Report.

Executive Overview

Our Company

LiveDeal, Inc., which, together with its subsidiaries, we refer to as the “Company”, “LiveDeal”, “we”, “us” or “our”, provides specialized online marketing solutions to small-to-medium sized local businesses, or SMBs, that boost customer awareness and merchant visibility. We offer affordable tools for SMBs to extend their marketing reach to relevant prospective customers via the internet. We also provide SMBs promotional marketing with the ability to offer special deals and activities through LiveDeal.com and our online publishing partners.

Our principal offices are located at 6240 McLeod Drive, Suite 120, Las Vegas, Nevada 89120, our telephone number is (702) 939-0231, and our corporate website (which does not form part of this report) is located at www.livedeal.com. Our common stock trades on the NASDAQ Capital Market under the symbol “LIVE”.

Changes in Business Strategy; New Products and Services

Change in Business Strategy. We have been engaged in a significant re-evaluation of and adjustment to our business strategy over the last several years. The focus of these efforts has been two-fold: first, to make our product offerings more appealing in the evolving market for assisting SMBs with their online marketing challenges; and second, to move ahead of our competitors in this market segment. In connection with this re-evaluation, we terminated all new sales under our direct sales business line on December 1, 2010, and on July 15, 2011, we discontinued all new sales of our InstantProfile® product. As a result of the cessation of our marketing efforts to acquire new customers, and the attrition of existing customers, our net revenues continued to decline, from \$4.1 million in fiscal 2011 to \$3.1 million in fiscal 2012 and \$2.4 million in fiscal 2013.

Promotional Marketing and Online Presence Marketing (Velocity Local™). We recently launched two new business lines under new management after a period of re-evaluating our sales program, products, distribution methods and vendor programs.

In August 2012, we commenced sourcing local deal and activities to strategic publishing partners under our LiveDeal® brand, which we refer to as promotional marketing. In November 2012, we commenced the sale of marketing tools that help local businesses manage their online presence under our Velocity Local™ brand, which we refer to as online presence marketing.

We offer our SMB customers packages of services to create and maintain an online presence. Products and services we offer include template and custom website design, either optimized for desktop or mobile devices, social media marketing, or SMM, and content marketing, or CM. In combination, these products offer a comprehensive online marketing strategy for SMBs at affordable rates. We believe that our online presence marketing products are useful to a large share of SMBs because they enable potential customers to gain awareness of and locate an SMB and to learn about and purchase its products and services.

LiveDeal.com. In September 2013, we launched LiveDeal.com, which redefined the Company's strategy and direction, centering its focus on the new LiveDeal.com platform and growing the base of restaurants utilizing the LiveDeal platform to attract new customers. LiveDeal.com is a unique, real-time "deal engine" connecting merchants with consumers. The Company believes that it has developed the first-of-its-kind web/mobile platform providing restaurants with full control and flexibility to instantly publish customized offers whenever they wish to attract customers.

Highlights of the new LiveDeal.com include:

a user-friendly interface enabling restaurants to create limited-time offers and publish them immediately, or on a preset schedule that is fully customizable;

state-of-the-art scheduling technology giving restaurants the freedom to choose the days, times and duration of the offers, enabling them to create offers that entice consumers to visit their establishment during their slower periods;

advanced publishing options allowing restaurants to manage traffic by limiting the number of available vouchers to consumers;

superior geo-location technology allowing multi-location restaurants to segment offers by location, attracting customers to slower locations while eliminating potential over-crowding at busier sites; and

a user-friendly mobile and desktop web interface allowing consumers to easily browse, download, and instantly redeem "live" offers found on LiveDeal.com based on their location.

Restaurants can sign up to use the LiveDeal platform at our website (www.livedeal.com).

We believe one of the primary challenges facing the dining industry is the inefficient and limited number of ways restaurants are able to market offers and promotions to their potential customers. Daily deal companies typically dictate offer terms, such as the discount amount and redemption details. This not only erodes potential profits for restaurant owners but could also drive traffic during already-busy periods for the restaurants. LiveDeal's model benefits both the restaurant and the consumer because it provides the restaurant the opportunity to create any offer they choose, limit the number of potential claimants of their promotion, publish the offer on days and at times of their choosing, and provides customers with relevant offers they can easily and quickly redeem while creating a cost-effective model for LiveDeal to grow and easily scale its operations. We expect to initially derive revenues through premium placement on the site, and we are also exploring various options for monetizing the website.

The Company, best known for migrating print yellow pages to the Internet in 1994, began to develop the model for LiveDeal.com after having worked closely with well-known publishers in the daily deal market. In mid-2013, we tested the beta platform in a number of cities, and the model has been well received by restaurants, consumers, and various restaurant associations. We launched LiveDeal.com in the San Diego and Los Angeles, California markets in

September 2013 and December 2013, respectively. The Company believes it can cost-effectively expand into other cities due to the scalability of the LiveDeal.com platform, as restaurants can curate deals through our account managers or create specials on their own. In addition, individual customers transact directly with the restaurant, eliminating the need for the Company to act as an intermediary in the sale.

Trends in Revenues. We continue to actively develop, revise and evaluate these products and services and our marketing strategies and procedures. We continue to generate a significant portion of our revenue from servicing our existing customers under our legacy product offerings, primarily our InstantProfile® line of products and services. Because of the change in our business strategy and product lines, we no longer accept new customers under our legacy product offerings.

Because of the infancy of our new lines of business, we have yet to generate significant revenue from our online presence marketing or our promotional marketing lines of business. Given that we have not been accepting new customers for our legacy product offerings since July 2011 and that we did not launch our new product offerings until August 2012, our revenues declined for fiscal 2013 as compared to fiscal 2012 as we continued to build a foundation for our new products and services and position the Company for future growth through our LiveDeal.com and Velocity Local™ offerings.

Employment Agreement with President and CEO

On January 13, 2012, our Board of Directors appointed Jon Isaac to serve as our President and Chief Executive Officer. At the time, the Company did not enter into a written Employment Agreement with Mr. Isaac, but he was paid an annual salary of \$1 for his services and was eligible to receive bonuses in such forms and amounts as determined by the Company's Compensation Committee.

On February 14, 2013, the Company entered into a written Employment Agreement with Jon Isaac, pursuant to which he will continue serving as our President and Chief Executive Officer for the period from January 1, 2013 to January 1, 2016. The material terms of the Employment Agreement are as follows:

- \$200,000 annual base salary throughout the term of the Employment Agreement.
- Eligibility to receive performance-based bonuses in the sole discretion of the Company's Compensation Committee.

A one-time discretionary bonus of \$150,000 for services performed as President and Chief Executive Officer for the previous 12 months, to be paid in cash on or before March 31, 2013. This bonus was approved by the Company's Compensation Committee.

· Reimbursement for reasonable housing expenses.

· Grant of options to purchase 150,000 shares of the Company's common stock, subject to continued employment on the applicable vesting dates and the other terms and conditions summarized below:

· 50,000 shares will vest on the first anniversary of the date of grant and be exercisable for five years after vesting at an exercise price of \$5.00 per share;

· 50,000 shares will vest in 12 equal monthly installments, beginning on the date that is 13 months after the date of grant and ending on the second anniversary of the date of grant, and be exercisable for five years after vesting at an exercise price of \$7.50 per share; and

· 50,000 shares will vest in 12 equal monthly installments, beginning on the date that is 25 months after the date of grant and ending on the third anniversary of the date of grant, and be exercisable for five years after vesting at an exercise price of \$10.00 per share

Critical Accounting Estimates and Assumptions

The preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires our management to make many estimates and assumptions that may materially affect both our consolidated financial statements and related disclosures, such as reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses during the reporting period, and the comparability of the information presented over different reporting periods. Estimates and assumptions are based on management's experience and other information available prior to the issuance of our financial statements. Our actual realized results may differ materially from management's initial estimates as reported. Summaries of our significant accounting policies are detailed in the notes to the consolidated financial statements, which are an integral component of this filing.

The discussion in this section of "critical" accounting estimates and assumptions is according to the disclosure guidelines of the SEC, wherein:

the nature of the estimates or assumptions is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change; and

· the impact of the estimates and assumptions on our financial condition or operating performance is material.

Besides those meeting these "critical" criteria, we make many other accounting estimates and assumptions in preparing our financial statements and related disclosures. Although not associated with "highly uncertain matters," these estimates and assumptions are also subject to revision as circumstances warrant, and materially different results may sometimes occur.

The following summarizes "critical" estimates and assumptions made by management in the preparation of the consolidated financial statements and related disclosures.

Revenue Recognition

We recognize revenue for our services when all of the following criteria are satisfied:

- persuasive evidence of an arrangement exists;
- services have been performed;
- the selling price is fixed or determinable; and
- collectability is reasonably assured.

Through September 30, 2013, we have not generated significant revenue from our two new product offerings: online presence marketing and promotional marketing.

With respect to our legacy businesses, we generate revenue from customer subscriptions for directory and advertising services. We recognize revenues as services are rendered. In some instances, we receive payments in advance of rendering services, whereupon such revenues are deferred until the related services are rendered. Our billing and collection procedures include significant involvement of outside parties, referred to as aggregators for LEC billing and service providers for ACH billing. We provide allowances for customer refunds, non-paying customers and fees which are estimated at the time of billing.

Allowance for Doubtful Accounts

We estimate allowances for doubtful accounts for accounts that are billed directly by us as well as those serviced by third party aggregators and service providers (processors).

Included in accounts receivable are amounts held by LEC aggregators as reserves for future refunds, billing adjustments, service fees, etc. As we have ceased billing activities with many of these service providers, there is some uncertainty as to the collectability of such receivables and we have increased our allowance for doubtful accounts accordingly.

The aggregate of accounts receivable balances from the LEC operations that do not have billing activity was \$229,270 and \$956,524 as of September 30, 2013 and 2012, respectively, and the aggregate of corresponding allowances was \$140,085 and \$853,452, respectively. These aggregate amounts include the accounts receivable balances and allowances for the accounts held by the Chapter 11 bankruptcy filing of one of our LEC aggregators. At September 30, 2013 and 2012 we had \$0 and \$777,755 of accounts receivable and reserve allowance, respectively, associated with this LEC aggregator. This was settled on April 2, 2013 and \$85,550 was received for settlement.

Carrying Value of Intangible Assets

Our intangible assets consist of licenses for the use of internet domain names or universal resource locators, or URLs, capitalized website development costs and software, other information technology licenses and marketing and technology-related intangibles acquired through acquisitions. All these assets are capitalized at their original cost (or at fair value for assets acquired through business combinations) and amortized over their estimated useful lives. We capitalize internally generated software and website development costs in accordance with the provisions of the FASB Accounting Standards Codification (“ASC”) ASC 350, “Intangibles – Goodwill and Other”.

We evaluate the recoverability of the carrying amount of intangible assets whenever events or changes in circumstances indicate that the carrying amount of these assets may not be fully recoverable. In the event of such changes, impairment would be assessed if the expected undiscounted net cash flows derived for the asset are less than

its carrying amount. During the second quarter of fiscal 2011, \$367,588 in net intangible assets were written off which were previously used in the discontinued direct sales business. A further evaluation was conducted in the fourth quarter of fiscal 2011 due to continued operating losses; however, it was determined that no further impairment existed at that time. In 2012, due to improved financial results, there were no changes in events or circumstances which would indicate carrying amounts would not be recoverable.

Income Taxes

Income taxes are accounted for using the asset and liability method as prescribed by ASC 740 "Income Taxes". Under this method, deferred income tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which these temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance would be provided for those deferred tax assets for which if it is more likely than not that the related benefit will not be realized.

We have estimated net deferred income tax assets (net of valuation allowances) of \$0 at September 30, 2013 and 2012. A full valuation allowance has been established against all net deferred tax assets as of September 30, 2013 and 2012 based on estimates of recoverability. While we have optimistic plans for our new business strategy, we determined that such a valuation allowance was necessary given the current and expected near term losses and the uncertainty with respect to our ability to generate sufficient profits from our new business lines. Therefore, we established a valuation allowance for all deferred tax assets in excess of those expected to be realizable through the application of operating loss carrybacks.

We performed an analysis of uncertain tax positions and we did not identify any significant uncertainties that would affect the carrying value of our deferred tax assets and liabilities as of September 30, 2013 and 2012.

Results of Operations*Net Revenues*

	Net Revenues			
	2013	2012	Change	Percent
Year Ended September 30,	\$2,351,868	\$3,070,503	\$(718,635)	(23%)

Net revenues in fiscal 2013 decreased by \$718,635, as compared to fiscal 2012, primarily due to the end of LEC billing, which resulted in a decrease of approximately \$1.2 million, which was partially offset by increases in revenue of approximately \$500,000 from the Company's online marketing product.

Cost of Services

	Cost of Services			
	2013	2012	Change	Percent
Year Ended September 30,	\$916,331	\$715,457	\$200,874	28%

Cost of services increased in fiscal 2013 as compared to fiscal 2012, primarily due to increased allowances related to the end of the LEC billing, slightly offset by the increases in fulfillment costs for the online marketing product.

	Gross Profit			
	2013	2012	Change	Percent
Year Ended September 30,	\$1,435,537	\$2,355,046	\$(919,509)	(39)%

Gross profit decreased in fiscal 2013 as compared to fiscal 2012 primarily due to the decline in revenues described above, which was partially offset by the decreased cost of fulfillment services.

General and Administrative Expenses

Edgar Filing: LIVEDEAL INC - Form 10-K

General and Administrative Expenses

	2013	2012	Change	Percent
--	------	------	--------	---------

Year Ended September 30,	\$4,114,843	\$3,290,002	\$824,841	25%
--------------------------	-------------	-------------	-----------	-----

General and administrative expenses increased in fiscal 2013 as compared to fiscal 2012 as outlined below:

- Increased compensation costs of approximately \$968,000 due to staffing of sales representatives, fulfillment and customer support for the revenue products;

- Decreased professional fees of approximately \$32,000 related to:

- § Decreased legal fees of \$172,717, due to a reduction in litigation related expenses,

- § Reductions in marketing consultant fees of \$15,695, partially offset by,

- § Increased other miscellaneous consultant costs of \$87,076,

- § Increased accounting fees of \$27,354; and

- § Increased IT consultant fees of \$42,064

- Increased depreciation and amortization expense of approximately \$4,000; and

- Other expense decreases of approximately \$115,000, including rent and utilities, services and fees, office and supplies expenses, office closure expenses, travel and entertainment and other corporate expenses associated with our office closures, reductions in force and other cost containment initiatives.

The following table sets forth our recent operating performance for general and administrative expenses by quarter:

	Q4 2013	Q3 2013	Q2 2013	Q1 2013	Q4 2012	Q3 2012	Q2 2012	Q1 2012
Compensation for employees, leased employees, officers and directors	555,323	528,767	726,137	436,062	242,490	378,700	295,333	341,325
Professional fees	212,465	147,618	248,663	234,799	254,549	110,706	226,403	143,805
Depreciation and amortization	70,288	65,183	65,073	63,566	67,635	55,669	67,391	69,281
Other general and administrative costs	357,204	184,090	191,658	27,947	244,740	347,278	232,301	212,403

Sales and Marketing Expenses

Sales and Marketing Expenses			
2013	2012	Change	Percent

Year Ended September 30,	\$58,788	\$12,310	\$46,478	378%
--------------------------	----------	----------	----------	------

Sales and marketing expenses increased in fiscal 2013 as compared to fiscal 2012 primarily due to production of a promotional video and corporate branding.

Operating Loss

Operating Loss			
2013	2012	Change	Percent

Year Ended September 30,	\$(2,738,094)	\$(947,266)	\$(1,790,828)	189%
--------------------------	---------------	-------------	---------------	------

The increase in our operating loss for fiscal 2013 as compared to fiscal 2012 was a product of the changes in net revenues, cost of services, general and administrative expenses and sales and marketing expenses, each of which is described above.

Total Other Income (Expense)

Total Other Income (Expense)

Edgar Filing: LIVEDEAL INC - Form 10-K

	2013	2012	Change	Percent
Year Ended September 30,	\$(3,011,628)	\$(640,375)	\$(2,371,253)	370%

Other income (expense) in fiscal 2013 consisted of:

-\$279,403 due to reversal of vendor invoices due to settlement;

-\$1,585 of interest income on cash balances; offset by

(\$3,292,616) of interest expense including \$3,291,466 of non-cash charges associated with a beneficial conversion feature associated with our convertible debt issued to ICG.

Other income (expense) in fiscal 2012 consisted of:

- (\$613,000) of interest expense, including \$489,594 of non-cash charges associated with a beneficial conversion feature associated with our convertible debt issued to ICG;
- (\$30,000) loss on disposal of fixed assets; partially offset by
- \$2,600 of interest income on cash balances.

Income from Discontinued Operations

	Income from Discontinued Operations			
	2013	2012	Change	Percent
Year Ended September 30,	\$2,708	\$12,433	\$(9,725)	(78)%

In 2011, the Company decided to discontinue the direct sales business and, accordingly, results from that segment are reflected as discontinued operations in our consolidated financial statements for all periods presented. Our income from direct sales for the year ended September 30, 2013 and 2012 consisted of the recovery of a bad debt from a previous period.

Net Loss

	Net Loss			
	2013	2012	Change	Percent
Year Ended September 30,	\$(5,747,014)	\$(1,575,208)	\$(4,171,806)	265%

Changes in net loss are primarily attributable to changes in operating loss, other income (expense), and income from discontinued operations, each of which is described above.

Liquidity and Capital Resources

Fiscal 2013 vs. Fiscal 2012 Cash Flows

Net cash provided by (used in) operating activities decreased by \$1,833,993 to (\$1,805,009) for the fiscal year ended September 30, 2013, compared to \$28,984 for the fiscal year ended September 30, 2012. Our net loss increased by approximately \$4.1 million in fiscal 2013 as compared to fiscal 2012, which was partially offset by an increase in non-cash charges and other adjustments of approximately \$2.9 million in fiscal 2013 as compared to fiscal 2012, primarily related to interest expense associated with the beneficial feature of our convertible notes with ICG, a related party. Cash flows from operations were also impacted by a decrease of approximately \$500,000 in changes in working capital and other assets in fiscal 2013 as compared to fiscal 2012. Our primary source of cash inflows has historically been net remittances from our directory services customers processed in the form of ACH billings and LEC billings. As of September 30, 2013, three such entities accounted for 44%, 25% and 18% of gross accounts receivable.

Our most significant cash outflows include payments for general operating expenses, including payroll costs, and general and administrative expenses that typically occur within close proximity of expense recognition.

Net cash used for investing activities totaled approximately \$141,000 for fiscal 2013, consisting of \$91,000 for expenditures for intangible assets and \$50,000 for purchases of equipment. Net cash used for investing activities totaled approximately \$531,000 for fiscal 2012, consisting of \$482,000 for expenditures for intangible assets (including website investments) and \$48,000 for purchases of equipment.

During fiscal 2013, our cash flows from financing activities consisted of proceeds from the issuance of convertible debt and warrants of \$1,250,000 and issuance of stock for cash of \$152,160. During fiscal 2012, our cash flows from financing activities consisted of issuance of stock to investors of \$2,350,000 and proceeds for the issuance of convertible debt of \$250,000, partially offset by payments on notes payable of \$1,000,000 and \$37,000 of payments on capital lease obligations.

We had working capital of \$179,968 as of September 30, 2013 compared to a working capital of \$370,780 as of September 30, 2012, with current assets decreasing by \$794,762 and current liabilities decreasing by \$603,950 from September 30, 2012 to September 30, 2013.

Future Sources of Cash; New Products and Services

While our existing cash on hand is insufficient to sustain our current operating activities, we believe that we will be able to secure additional resources to fund our operations. Other sources of financing may include stock issuances (for example, pursuant to our Engagement Agreement with Chardan Capital Markets LLC, under which we may issue and sell up to a maximum aggregate amount of 660,000 shares of our common stock from time to time through Chardan as our sales agent, using our shelf registration statement on Form S-3 (File No. 333-187397) previously filed with the SEC); additional loans (for example, through our sale and issuance of convertible notes pursuant to the \$5 million line of credit that we entered into in January 2014); or other forms of financing. We cannot provide any assurance that additional financing arrangements will be available in amounts or on terms acceptable to us, if at all. Further, our business is likely to experience significant volatility in its revenues, operating losses, personnel involved, products or services for sale, and other business parameters, as management implements its new product and marketing strategies and responds to operating results.

Although we stopped new Velocity product sales July 15, 2011, we continued to service existing customers acquired under our Directory Services and InstantProfile product and service lines and we are simultaneously exploring other strategic alternatives. In August 2012, we commenced sourcing local deals and activities to strategic publishing partners under our LiveDeal® brand, and in November 2012, we commenced the sale of marketing tools that help local businesses manage their online presence under our Velocity Local™ brand. In September 2013, we launched LiveDeal.com, which redefined the Company's strategy and direction, centering its focus on the new LiveDeal.com platform and growing the base of restaurants utilizing the LiveDeal platform to attract new customers. LiveDeal.com is a unique, real-time "deal engine" connecting merchants with consumers. There can be no assurance that that these new product lines will generate sufficient revenue or that we will achieve profitability, positive operating cash flows, or sufficient cash flows for operations.

Contractual Obligations

The following table summarizes our contractual obligations at September 30, 2013 and the effect such obligations are expected to have on our future liquidity and cash flows:

	Payments Due by Fiscal Year						
	Total	2014	2015	2016	2017	2018	Thereafter
Operating lease commitments	\$470,680	\$211,767	\$201,630	\$57,283	\$ -	\$ -	\$ -
	57,000	19,000	19,000	19,000			-

Noncancellable service contracts	\$527,680	\$230,767	\$220,630	\$76,283	\$ -	\$ -	\$ -
----------------------------------	-----------	-----------	-----------	----------	------	------	------

At September 30, 2013, we had no other off-balance sheet arrangements, commitments or guarantees that require additional disclosure or measurement.

ITEM 7A. Quantitative and Qualitative Disclosures about Market Risk

As of September 30, 2013, we did not participate in any market risk-sensitive commodity instruments for which fair value disclosure would be required. We believe that we are not subject in any material way to other forms of market risk, such as foreign currency exchange risk or foreign customer purchases (of which there were none in fiscal 2013 or 2012) or commodity price risk.

ITEM 8. Financial Statements and Supplementary Data

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders

LiveDeal, Inc.

We have audited the accompanying consolidated balance sheets of LiveDeal, Inc. and Subsidiaries (the “Company”) as of September 30, 2013 and 2012, and the related consolidated statements of operations, stockholders’ equity and cash flows for each of the years in the two year period ended September 30, 2013. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of September 30, 2013 and 2012, and the results of its operations and its cash flows for each of the years in the two year period ended September 30, 2013, in conformity with U.S. generally accepted accounting principles.

The Company's consolidated financial statements are prepared using the U.S. generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company had a net loss of \$5,747,014 for the year ended September 30, 2013 and had an accumulated deficit of \$27,333,647 as of September 30, 2013. These factors, as discussed in Note 3 to the financial statements raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to the matter are also described in Note 3. The statements do not include any adjustments that might result from the outcome of this uncertainty.

LiveDeal, Inc.

Notes to Consolidated Financial Statements

Note 1: Organization and Basis of Presentation

The accompanying consolidated financial statements include the accounts of LiveDeal, Inc. (formerly YP Corp.), a Nevada corporation, and its wholly owned subsidiaries (collectively the “Company”). The Company delivers local customer acquisition services for small and medium-sized businesses combined with online listing services to deliver an affordable way for businesses to extend their marketing reach to local, relevant customers via the Internet.

The Company’s new strategic focus is on developing and marketing a suite of affordable products and services designed to meet the online marketing needs of small and medium-sized businesses by boosting customer awareness and merchant visibility on the internet. The Company primarily sells this suite of products and services via telemarketing.

The following sets forth historical transactions with respect to the Company’s organizational development:

Telco Billing, Inc. was formed in April 1998 to provide advertising and directory listings for businesses on its Internet website in a “Yellow Pages” format. Telco provides those services to its subscribers for a monthly fee. These services are provided primarily to businesses throughout the United States. Telco became a wholly owned subsidiary of the Company after the June 1999 acquisition.

At the time that the transaction was agreed to, the Company had 12,567,770 common shares issued and outstanding. As a result of the merger transaction with Telco, there were 29,567,770 common shares outstanding, and the former Telco stockholders held approximately 57% of the Company’s voting stock. For financial accounting purposes, the acquisition was a reverse acquisition of the Company by Telco, under the purchase method of accounting, and was treated as a recapitalization with Telco as the acquirer. Consistent with reverse acquisition accounting, (i) all of Telco’s assets, liabilities, and accumulated deficit were reflected at their combined historical cost (as the accounting acquirer) and (ii) the preexisting outstanding shares of the Company (the accounting acquiree) were reflected at their net asset value as if issued on June 16, 1999.

On June 6, 2007, the Company completed its acquisition of LiveDeal, Inc. (“LiveDeal”), a California corporation. LiveDeal operated an online local classifieds marketplace, www.livedeal.com, which listed millions of goods and services for sale across the United States. The technology acquired in the acquisition offered such classifieds functionality as fraud protection, identity protection, e-commerce, listing enhancements, photos, community-building, package pricing, premium stores, featured Yellow Page business listings and advanced local search capabilities. This business has since been discontinued. See Note 4.

On July 10, 2007, the Company acquired substantially all of the assets and assumed certain liabilities of OnCall Subscriber Management Inc., a Manila, Philippines-based company that provided telemarketing services. The acquisition took place through the Company's wholly-owned subsidiary, 247 Marketing LLC, a Nevada limited liability company, which remains in existence but is inactive.

On August 10, 2007, the Company filed amended and restated articles of incorporation with the Office of the Secretary of State of the State of Nevada, pursuant to which the Company's name was changed to LiveDeal, Inc., effective August 15, 2007. The name change was approved by the Company's Board of Directors pursuant to discretion granted to it by the Company's stockholders at a special meeting on August 2, 2007.

During 2010, the Company evaluated its business and adopted a new business strategy that addressed each of the Company's business segments as separate entities and re-launched and restructured the Company's legacy line of business. This evaluation was necessitated by the challenges facing the Company's Direct Sales business lines that provide Internet-based customer acquisition strategies for small business, as well as declining revenues from the Company's traditional business line (i.e. directory services).

During 2011, as part of the Company's strategy to evaluate each of the Company's business segments as separate entities, management noted that the Direct Sales business segment had incurred operating losses and declining revenues and did not fit with the Company's change in strategic direction. Accordingly, in March 2011, the Company made the strategic decision to discontinue our Direct Sales business and product offerings. Prior year financial statements have been restated to present the Direct Sales business segment as a discontinued operation.

On August 16, 2012, the Company acquired substantially all of the assets of LiveOpenly, Inc., a California corporation (“LiveOpenly”), which sourced, published and sold discounted offers for goods and services through local retail merchants, in exchange for the issuance of 75,000 shares of the Company’s common stock. In connection with the acquisition, the Company recorded \$420,000 of net assets, consisting entirely of intangible assets. No goodwill was recognized as the purchase price equaled the net assets received.

During 2012, the Company also launched two new business lines under new management after a period of re-evaluating our sales program, products, distribution methods and vendor programs. First, we commenced the sale of marketing tools that help local businesses manage their online presence under our Velocity Local™ brand, which we refer to as online presence marketing, in November 2012. Second, we commenced sourcing local deal and activities to strategic publishing partners under our LiveDeal® brand, which we refer to as promotional marketing, in August 2012. We continue to actively develop, revise and evaluate these products and services.

During 2013, the Company launched LiveDeal.com, which redefined the Company’s strategy and direction, centering its focus on the new LiveDeal.com platform and growing the base of restaurants utilizing the LiveDeal platform to attract new customers. LiveDeal.com is a unique, real-time “deal engine” connecting merchants with consumers. The Company believes that it has developed the first-of-its-kind web/mobile platform providing restaurants with full control and flexibility to instantly publish customized offers whenever they wish to attract customers.

The Company had a net loss of \$5.7 million for the year ended September 30, 2013 and \$1.6 million for the year ended September 30, 2012. The Company had an operating cash outflow of approximately \$(1.8) million for the year ended September 30, 2013 and operating cash inflow of approximately \$29,000 for the year ended September 30, 2012. The Company had cash of \$761,458 as of September 30, 2013. Management believes the Company’s cash on hand and additional cash generated from operations together with potential sources of cash such through the issuance of debt or equity will provide the Company with sufficient liquidity for the next 12 months.

Note 2: Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements represent the consolidated financial position and results of operations of the Company and include the accounts and results of operations of the Company, LiveDeal, Local Marketing Experts, Inc., Velocity Marketing Concepts, Inc., 247 Marketing Inc., Telco Billing, Inc. Telco of Canada, Inc., and Velocity Local Inc. ,the Company’s wholly owned subsidiaries, for the years ended September 30, 2013 and 2012, as applicable. All intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Significant estimates made in connection with the accompanying consolidated financial statements include the estimate of dilution and fees associated with LEC billings, the estimated reserve for doubtful accounts receivable, estimated forfeiture rates for stock-based compensation, fair values in connection with the analysis of goodwill and long-lived assets for impairment, valuation allowances against net deferred tax assets and estimated useful lives for intangible assets and property and equipment.

Financial Instruments

Financial instruments consist primarily of cash, cash equivalents, accounts receivable, advances to affiliates and obligations under accounts payable, accrued expenses and notes payable. The carrying amounts of cash, cash equivalents, accounts receivable, accounts payable, accrued expenses and notes payable approximate fair value because of the short maturity of those instruments.

Cash and Cash Equivalents

This includes all short-term highly liquid investments that are readily convertible to known amounts of cash and have original maturities of three months or less. At times, cash deposits may exceed FDIC-insured limits.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets ranging from three to five years. Depreciation expense was \$29,357 and \$132,899 for the years ended September 30, 2013 and 2012, respectively.

Revenue Recognition

Directory Services

Revenue is billed and recognized monthly for services subscribed in that specific month. The Company has historically utilized outside billing companies to perform billing services through two primary channels:

- direct ACH withdrawals; and
- inclusion on the customer's local telephone bill provided by their Local Exchange Carriers, or LECs.

For billings via ACH withdrawals, revenue is recognized when such billings are accepted. For billings via LECs, the Company recognizes revenue based on net billings accepted by the LECs. Due to the periods of time for which adjustments may be reported by the LECs and the billing companies, the Company estimates and accrues for dilution and fees reported subsequent to year-end for initial billings related to services provided for periods within the fiscal year. Such dilution and fees are reported in cost of services in the accompanying consolidated statements of operations. Customer refunds are recorded as an offset to gross revenue.

Revenue for billings to certain customers that are billed directly by the Company and not through the outside billing companies is recognized based on estimated future collections. The Company continuously reviews this estimate for reasonableness based on its collection experience.

Deals Revenue

The Company recognizes revenue from its sales through its strategic publishing partners of discounted goods and services offered by its merchant clients ("Deals") when the following criteria are met: persuasive evidence of an arrangement exists; delivery has occurred; the selling price is fixed or determinable; and collectability is reasonably

assured. These criteria are met when the number of customers who purchase the daily deal exceeds the predetermined threshold, where, if applicable, the Deal has been electronically delivered to the purchaser and a listing of Deals sold has been made available to the merchant. At that time, the Company's obligations to the merchant, for which it is serving as an agent, are substantially complete. The Company's remaining obligations, which are limited to remitting payment to the merchant, are inconsequential or perfunctory. The Company records as revenue an amount equal to the net amount it retains from the sale of Deals after paying an agreed upon percentage of the purchase price to the featured merchant excluding any applicable taxes. Revenue is recorded on a net basis because the Company is acting as an agent of the merchant in the transaction.

Deferred Revenue

In some instances, the Company receives payments in advance of rendering services, whereupon such revenues are deferred until the related services are rendered. Deferred revenue was \$2,829 and \$2,310 at September 30, 2013 and 2012, respectively.

Allowance for Doubtful Accounts

The Company maintains an allowance for doubtful accounts, which includes allowances for customer refunds, dilution and fees from LEC billing aggregators and other uncollectible accounts. The Company has increased its allowances for doubtful accounts to 82.8% of gross accounts receivable at September 30, 2013 as compared to 65.7% of gross accounts receivable at September 30, 2012. The determination of the allowance for doubtful accounts is dependent on many factors, including regulatory activity, changes in fee schedules by LEC service providers and recent historical trends.

As of September 30, 2013, approximately 57% of the Company's allowance for doubtful accounts is an allowance against an outstanding receivable balance that is in dispute. After excluding these reserves from the related accounts receivable balances the allowance for doubtful accounts as a percentage of gross accounts receivable increases to 68%. As of September 30, 2012, approximately 93% of the Company's allowance for doubtful accounts is an allowance against accounts receivable balances and reserves held by a LEC that is in bankruptcy and an allowance against an outstanding receivable balance that is in dispute. After excluding these reserves from the related accounts receivable balances, the allowance for doubtful accounts as a percentage of gross accounts receivable decreases to 12.6%. See Note 17.

Legal Costs

The Company expenses legal costs associated with loss contingencies as they are incurred.

Income Taxes

Income taxes are accounted for using the asset and liability method. Under this method, deferred income tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which these temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance would be provided for those deferred tax assets for which if it is more likely than not that the related benefit will not be realized. The Company classifies tax-related penalties and interest as a component of income tax expense for financial statement presentation.

Stock-Based Compensation

The Company from time to time grants restricted stock awards and options to employees and executives. Such awards are valued based on the grant date fair-value of the instruments, net of estimated forfeitures. The value of each award is amortized on a straight-line basis over the vesting period.

Net Loss Per Share

Net loss per share is calculated in accordance with FASB ASC 260, "*Earnings Per Share*". Under ASC 260 basic net loss per share is computed using the weighted average number of common shares outstanding during the period except that it does not include unvested restricted stock subject to cancellation. Diluted net loss per share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. Potential common shares consist of the incremental common shares issuable upon the exercise of warrants, restricted shares and convertible preferred stock. The dilutive effect of outstanding restricted shares and warrants is reflected in diluted earnings per share by application of the treasury stock method. Convertible preferred stock is reflected on an if-converted basis.

Internally Developed Software and Website Development Costs

The Company incurs internal and external costs to develop software and websites to support its core business functions. The Company capitalizes internally generated software and website development costs in accordance with the provisions of the FASB ASC 350, “Intangibles – Goodwill and Other”.

Impairment of Long-lived Assets

The Company assesses long-lived assets for impairment in accordance with the provisions of FASB ASC 360 “Property, Plant and Equipment”. A long-lived asset (or group of assets) shall be tested for recoverability whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. The carrying amount of a long lived asset is not recoverable if it exceeds the sum of the undiscounted net cash flows expected to result from the use and eventual disposition of the asset. The amount of impairment loss, if any, is measured as the difference between the net book value of the asset and its estimated fair value. For purposes of these tests, long-lived assets must be grouped with other assets and liabilities for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities.

Recently Issued Accounting Pronouncements

In January 2013, the FASB issued ASU No. 2013-01, Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities, which clarifies which instruments and transactions are subject to the offsetting disclosure requirements originally established by ASU 2011-11. The new ASU addresses preparer concerns that the scope of the disclosure requirements under ASU 2011-11 was overly broad and imposed unintended costs that were not commensurate with estimated benefits to financial statement users. In choosing to narrow the scope of the offsetting disclosures, the FASB determined that it could make them more operable and cost effective for preparers while still giving financial statement users sufficient information to analyze the most significant presentation differences between financial statements prepared in accordance with U.S. GAAP and those prepared under IFRSs. Like ASU 2011-11, the amendments in this update will be effective for fiscal periods beginning on, or after January 1, 2013. The adoption of ASU 2013-01 has not had a material impact on our financial position or results of operations.

In October 2012, the FASB issued ASU No. 2012-04, “*Technical Corrections and Improvements*, (“ASU 2012-04”).” This update includes source literature amendments, guidance clarification, reference corrections and relocated guidance affecting a variety of topics in the Codification. The update also includes conforming amendments to the Codification to reflect ASC 820’s fair value measurement and disclosure requirements. The amendments in this update that will not have transition guidance are effective upon issuance. The amendments in this update that are subject to the transition guidance will be effective for fiscal periods beginning after December 15, 2012. This ASU is effective for reporting periods beginning on or after January 1, 2013. Our adoption of ASU 2011-11 on January 1, 2013, did not have a material impact our financial statement.

**Note 3: **Going
Concern****

The accompanying Consolidated Financial Statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying Consolidated Financial Statements, the Company had a net loss of \$5,747,014 for the year ended September 30, 2013 and had an accumulated deficit of \$27,333,647 as of September 30, 2013

Because of the infancy of the Company’s new lines of business, the Company has yet to generate significant revenue from its online presence marketing or promotional marketing lines of business. Given that the Company has not been accepting new customers for its legacy product offerings since July 2011 and that it did not launch its new product offerings until August 2012, the Company’s revenues declined for fiscal 2013 as compared to fiscal 2012 as the Company continued to build a foundation for its new products and services and position the Company for future growth through its LiveDeal.com and Velocity LocalTM offerings.

The Company will require additional capital to finance its planned business operations as it continues to build and market its LiveDeal.com and Velocity LocalTM offerings and develop other new products. In addition, the Company may require additional capital to finance acquisitions or other strategic investments in its business. Other sources of financing may include stock issuances (for example, pursuant to our Engagement Agreement with Chardan Capital Markets LLC, under which we may issue and sell up to a maximum aggregate amount of 660,000 shares of our common stock from time to time through Chardan as our sales agent, using our shelf registration statement on Form S-3 (File No. 333-187397) previously filed with the SEC); additional loans (for example, through our sale and issuance of convertible notes pursuant to the \$5 million line of credit that we entered into in January 2014); or other forms of financing. Any financing obtained may further dilute or otherwise impair the ownership interest of the Company's existing stockholders. If the Company is unable to generate positive cash flows or raise additional capital in a timely manner or on acceptable terms, the Company may (i) not be able to make acquisitions or other strategic investments in its business, (ii) modify, delay or abandon some or all of its business plans, and/or (iii) be forced to cease operations.

The accompanying Consolidated Financial Statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

Note 4: Discontinued Operations

As part of the Company's strategy to evaluate each of its business segments as separate entities, management noted that the Direct Sales business segment had incurred operating losses and declining revenues and did not fit with the Company's change in strategic direction. Accordingly, in March 2011, the Company made the strategic decision to discontinue its Direct Sales business and product offerings. Prior year financial statements have been restated to present the Direct Sales business segment as a discontinued operation.

The Company initiated shutdown activities in March 2011 and closed the Direct Sales business segment in May 2011. In conjunction with the discontinued operations, the Company recorded the following charges in the year ended September 30, 2011:

- Employee contract termination charges of \$7,083 reflecting the reduction in force of 7 employees; and
- Non cash impairment charges of \$367,588 consisting of the write-off of net intangible assets.

The direct sales business segment accounted for \$0 net revenues for the years ended September 30, 2013 and 2012. Net revenues from this business segment are now included as part of income from discontinued operations in the accompanying consolidated statements of operations. Net income for the year ended September 30, 2013 and 2012 consisted of a recovery on a bad debt from a previous period.

Note 5: Business Combination

On August 16, 2012 (the “Acquisition Date”), the Company completed its acquisition of substantially all of the assets of LiveOpenly, Inc., a California corporation (“LiveOpenly”), which sourced, published and sold discounted offers for goods and services through local retail merchants. The Company acquired the assets of LiveOpenly to assist in the implementation its new business line. Under the terms of the acquisition, the Company acquired LiveOpenly’s sourcing contracts, software, customer lists, trademarks, domain names, and related assets in exchange for the issuance of 75,000 shares of our common stock. The purchase price for the assets of LiveOpenly was determined by using the value of the stock on the Acquisition Date, which was \$420,000. The purchase price was allocated to a customer list and marketing related intangibles of \$252,000 and \$168,000, respectively. The intangibles will be amortized over their estimated useful life of seven years. No goodwill was recognized as the purchase price equaled the fair value of the net assets received.

In connection with the purchased business from LiveOpenly, the Company engaged Ejimofor Umenyiora, the former Director of Sales of LiveOpenly, and Akeem Adeteju, the former Chief Technology Officer of LiveOpenly, as independent contractors.

Note 6: Balance Sheet Information

Total receivables, net:		
Gross receivables	\$1,278,905	\$2,373,654
Less: Allowance for doubtful accounts	(1,059,365)	(1,559,236)
	\$219,540	\$814,418

Long term receivables consist of reserves held by LEC processors that are not expected to be settled within 12 months.

As of September 30, 2013, approximately 57% of the Company's allowance for doubtful accounts was an allowance against an outstanding receivable balance that is in dispute. After excluding these reserves from the related accounts receivable balances the allowance for doubtful accounts as a percentage of gross accounts receivable increases to 68%. As of September 30, 2012, approximately 93% of the Company's allowance for doubtful accounts was an allowance against accounts receivable balances and reserves held by a LEC that is in bankruptcy and an allowance against an outstanding receivable balance that is in dispute. After excluding these reserves from the related accounts receivable balances, the allowance for doubtful accounts as a percentage of gross accounts receivable decreases to 12.6%. See Note 17.

Components of allowance for doubtful accounts are as follows:

	September 30, 2013	September 30, 2012
Allowance for dilution and fees on amounts due from billing aggregators	\$ 730,777	\$ 1,525,126
Allowance for customer refunds	6,281	34,111
	\$ 737,058	\$ 1,559,237

	September 30, 2013	September 30, 2012

Accrued expenses - other	225,138	311,225
	\$ 299,464	\$ 410,104

Note 7: Intangible Assets

The Company's intangible assets consist of licenses for the use of Internet domain names, Universal Resource Locators, or URLs, capitalized website development costs, other information technology licenses and marketing and technology related intangibles acquired through the acquisition of LiveDeal, Inc. All such assets are capitalized at their original cost and amortized over their estimated useful lives ranging from three to 20 years.

Based in part on a third party appraisal of the Company's long-lived assets, the Company determined that no impairment of its long-lived intangible assets existed at September 30, 2013 and 2012.

The following summarizes estimated future amortization expense related to intangible assets that have net balances as of September 30, 2013:

2014	416,211
2015	406,550
2016	362,316
2017	358,352
2018	324,389
Thereafter	991,583
	\$2,859,401

Total amortization expense related to intangible assets was \$234,751 and \$140,667 for the years ended September 30, 2013 and 2012, respectively.

Note 8: Long-Term Debt

Everest Group Loan

On May 13, 2011, the Company, certain of the Company’s wholly owned subsidiaries (collectively with the Company, the “Borrowers”), and Everest Group LLC (“Lender”) entered into a Loan Agreement (the “Loan Agreement”), pursuant to which the Lender agreed to loan the Borrowers an aggregate amount not to exceed \$1,000,000 (the “Loan”). The Loan was funded to the Borrowers on May 16, 2011. The Borrowers used the proceeds of the Loan for working capital and other general corporate purposes.

The Loan Agreement provided for a one-year term, unless terminated earlier pursuant to its terms or extended upon the mutual agreement of all parties. The Borrowers paid an annual interest rate equal to 18% on the unpaid principal balance of the Loan. Interest will be payable monthly in arrears commencing on June 1, 2011. Commencing on November 1, 2011, and on the first day of each subsequent calendar month, the Borrowers were required to make \$50,000 monthly installment payments of principal on the Loan, with the unpaid principal balance was due and payable on the termination date of the Loan. The Loan was paid off in May 2012.

ICG Convertible Note Transaction

On April 3, 2012 (the “Closing Date”), the Company entered into a Note Purchase Agreement (the “ICG Purchase Agreement”) with Isaac Capital Group, LLC (“ICG”), which is a related party, pursuant to which ICG agreed to purchase for cash up to \$2,000,000 in aggregate principal amount of the Company’s unsecured Subordinated Convertible Notes

(“Notes”). ICG is owned by Jon Isaac, the Company’s President and Chief Executive Officer and a director on the Company’s Board. Prior to this transaction, Mr. Isaac owned 403,225 shares, or 16.8% of the Company’s outstanding common stock. The Purchase Agreement and the Notes, which are unsecured, provide that all amounts payable by the Company to ICG under the Notes will be due and payable on April 3, 2013 (“Maturity Date”), provided that the Company has the option in its discretion to extend the Maturity Date by up to one (1) year if no Event of Default (as defined in the Purchase Agreement) has occurred and is continuing, and the Company is in material compliance with its agreements and covenants under the Purchase Agreement and the Notes, as of the Maturity Date.

On January 14, 2013, the Company and ICG amended the Purchase Agreement to clarify ambiguities and correct inadvertent mistakes related to the warrant issuance timing and the conversion price of a Note, and to amend various anti-dilution features. These changes were consistent with the intent of the parties at the time they entered into the Purchase Agreement and are consistent with the Company’s past practices related to the Notes and warrants. In particular, the amendment clarifies that the warrants will be issued upon conversion (rather than upon issuance) of the Notes and provides that the conversion price of a Note shall be based upon a floor price of \$1.00 per share, regardless if the Company’s stock is trading below that amount at the time ICG elects to convert a Note.

The Purchase Agreement and the Notes, as amended, provide that:

· The Notes will accrue interest at an annual interest rate equal to 8%. All interest will be payable on the Maturity Date or upon the conversion of the applicable Note.

· The Company has the option to prepay each Note, in whole or in part, at any time without premium or penalty.

If ICG elects to convert all or any portion of any Note, the Company must issue to ICG on the date of the conversion a warrant (“Contingent Warrant”) to purchase a number of shares of the Company’s common stock equal to the number of shares issuable upon conversion. This number of shares is subject to adjustment in the event of stock splits or combinations, stock dividends, certain *pro rata* distributions, and certain fundamental transactions. Each Contingent Warrant will be exercisable for a period of five (5) years following the date of its issuance at an exercise price equal to 120% of the conversion price of the applicable Note (with the exercise price being subject to adjustment under the same conditions as the number of shares for which the warrant is exercisable.) The Contingent Warrants provide that they may be exercised in whole or in part and include a cashless exercise feature.

The Notes provide that, upon the occurrence of any Event of Default, all amounts payable to ICG will become immediately due and payable without any demand or notice.

The Company may issue additional Notes in an aggregate principal amount of up to \$1,750,000 to ICG from time to time upon notice to ICG prior to April 3, 2013, provided that each Note must be in a principal amount of at least \$100,000.

The Company (i) is required to provide certain financial and other information to ICG from time to time, (ii) must maintain its corporate existence, business, assets, properties, insurance and records in accordance with the requirements set forth in the Purchase Agreement, (iii) with certain exceptions, must not incur or suffer to exist any liens or other encumbrances with respect to the Company's property or assets, (iv) must not make certain loans or investments except in compliance with the terms of the Purchase Agreement, and (v) must not enter into certain types of transactions, including dispositions of its assets or business.

The events of default ("Events of Default") which trigger the acceleration of the Notes include (among other things): (i) the Company's failure to make any payment required under the Notes when due (subject to a three-day cure period), (ii) the Company's failure to comply with its covenants and agreements under the Purchase Agreement, the Notes and any other transaction documents, and (iii) the occurrence of a change of control with respect to the Company.

The Company issued an initial Note in the principal amount of \$250,000 to ICG on the Closing Date. Because the conversion price of \$2.53 was less than the stock price, this gave rise to a beneficial conversion feature valued at \$166,667. The Company recognized this beneficial conversion feature as a debt discount and additional paid in capital. The discount to the Note is being amortized to interest expense until maturity or its earlier repayment or conversion.

On September 10, 2012, ICG elected to convert a Note with a conversion price of \$2.38 per share, resulting in the issuance of 109,139 shares. In accordance with the terms of the agreement, warrants to acquire 109,139 shares were issued upon conversion with an exercise price of $(\$2.38 \times 120\%)$ \$2.85 per share. Upon conversion of the convertible debt instrument, the remaining debt discount of \$97,222 was immediately recognized as interest expense. The fair value of the warrants issued in connection with the debt conversion was \$322,927 and was immediately recognized as interest expense.

On December 11, 2012, the Company issued a second Note to ICG in the principal amount of \$250,000, pursuant to the Purchase Agreement. On December 17, 2012, ICG elected to convert that Note with a conversion price of \$2.02 per share, resulting in the issuance of 123,829 shares of the Company's common stock and a warrant to acquire 123,829 additional shares of the Company's common stock at an exercise price of \$2.43 per share. Upon conversion of the convertible debt instrument, the remaining debt discount was immediately recognized as interest expense so that the original amount related to the beneficial conversion feature of 200,738 was fully expensed.

On March 22, 2013 and March 25, 2013, the Company issued a third and fourth Note to ICG in the principal amount of \$500,000 and \$250,000 respectively, pursuant to the Purchase Agreement. Because the conversion price of \$1.38 was less than the stock price, this gave rise to beneficial conversion features valued at \$401,386. The Company recognized this beneficial conversion feature as a debt discount and additional paid in capital on March 25, 2013. On March 27, 2013, ICG elected to convert these Notes, resulting in the issuance of 543,962 shares of the Company's common stock and a warrant to acquire 543,962 additional shares of the Company's common stock at an exercise price of \$1.66 per share. Upon conversion of such Notes, the remaining debt discount of \$396,977 was immediately recognized as interest expense. The fair value of the warrants issued in connection with the conversion of these Notes was \$1,299,884 and was immediately recognized as interest expense.

On March 28, 2013, the Company issued a fifth Note to ICG in the principal amount of \$250,000 pursuant to the Purchase Agreement. Because the conversion price of \$1.40 was less than the stock price, this gave rise to a beneficial conversion feature valued at \$250,000. The Company recognized this beneficial conversion feature as a debt discount and additional paid in capital on March 28, 2013. On March 28, 2013, ICG elected to convert the Note, resulting in the issuance of 178,572 additional shares of the Company's common stock and a warrant to acquire 178,572 shares at an exercise price of \$1.68 per share. Upon conversion of such Note, the debt discount of \$250,000 was immediately recognized as interest expense. The fair value of the warrants issued in connection with the conversion of the Note was \$589,442 and was immediately recognized as interest expense.

The Company intends to use the proceeds of all Notes issued in connection with the Purchase Agreement for working capital and other general corporate purposes.

Note 9: Stockholder's Equity

Issuances of Common Stock

December 2011 Equity Issuance

On December 12, 2011, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with each of Isaac Capital Group LLC ("ICG"), which is a related party, John Kocmur ("Kocmur"), Kingston Diversified Holdings LLC ("Kingston"), Augustus Gardini, L.P. ("Augustus") and Lausanne LLC ("Lausanne" and collectively with ICG, Kocmur, Kingston and Augustus, the "Purchasers") pursuant to which the Company's issued and sold an aggregate of 1,612,899 shares (the "Shares") of the Company's common stock for an aggregate purchase price equal to \$2.0 million. Each of ICG, Kocmur and Kingston (the "Lead Purchasers") invested \$500,000 and were issued 403,225 shares of the Company's Common Stock, and each of Augustus and Lausanne invested \$250,000 and were issued 201,612 shares of the Company's Common Stock.

Pursuant to the Purchase Agreement:

The per share purchase price was \$1.24, which was the closing bid price of the Company's common stock, as reported by the NASDAQ Capital Market, on December 12, 2011, the date of the closing of the purchase and sale.

Each Lead Purchaser was given the right, until the date that purchaser beneficially owns less than 5% of the Company's issued and outstanding common stock, to nominate one director for election by the Company's stockholders at each meeting of the stockholders at which directors are to be elected, and to designate a replacement director to fill any vacancy if the director previously designated or nominated by that purchaser ceases for any reason to be a director.

March 2012 Equity Issuance

In March 2012, the Company issued 45,180 shares of its common stock in exchange for a cash payment of \$150,000.

June 2012 Equity Issuance

In June 2012, the Company issued 36,364 shares of its common stock in exchange for a cash payment of \$200,000.

August 2013 Equity Issuance

On August 22, 2013, the Company agreed to issue 15,773 shares of common stock to a software developer in exchange for professional services valued at an aggregate of \$50,000. The per share valuation associated with the issuance was \$3.17, which was equal to the closing price of our common stock as reported on the NASDAQ Capital Market on the date of the transaction. Pursuant to applicable NASDAQ Listing Rules, the share issuance is subject to stockholder approval of our new 2013 Omnibus Equity Incentive Plan, which the Company intends to seek at our 2014 Annual Meeting of Stockholders.

September 2013 Equity Issuance

On September 9, 2013, we issued 200,000 shares to Novalk Apps S.A.S. in exchange for certain customer relationship manager, or CRM, software assets acquired pursuant to an Asset Purchase Agreement dated as of the same date. Such assets were valued at an aggregate of \$994,000. The per share purchase price for such shares was \$4.97, which was equal to the closing price of our common stock as reported on the NASDAQ Capital Market on the date of the transaction.

On September 30, 2013, we issued 44,233 shares of common stock to John Kocmur, a member of our Board of Directors, in exchange for a cash payment of \$152,160. The per share purchase price for such shares was \$3.44, which was equal to the closing price of our common stock as reported on the NASDAQ Capital Market on the date of the transaction.

Note Conversions

In September and December 2012 and March 2013, ICG elected to convert five Notes, resulting in the issuance of shares of the Company's common stock and warrants to acquire additional shares of the Company's common stock. See Note 10.

Form S-3 Shelf Registration Statement

On March 20, 2013, the Company filed a Registration Statement on Form S-3 with the Securities and Exchange Commission (the “SEC”). On May 6, 2013, the Company filed an amendment to such Registration Statement on Form S-3 (as amended, the “Shelf Registration Statement”). Pursuant to the Shelf Registration Statement, which became effective May 16, 2013, the Company may offer and sell, from time to time in one or more offerings, any combination of common stock, preferred stock, debt securities, warrants, or units having a maximum aggregate offering price of \$10,000,000. The Company intends to use the net proceeds from any sale of securities covered by the Shelf Registration Statement and the prospectus contained therein for general corporate purposes.

Increase in Shares Under Amended and Restated 2003 Stock Plan

At the Company’s 2012 Annual Meeting of Stockholders, our stockholders approved a proposal to increase the number of shares of the Company’s common stock available for issuance under the Company’s Amended and Restated 2003 Stock Plan from 140,000 to 340,000 shares.

Series E Convertible Preferred Stock

During the year ended September 30, 2002, pursuant to an existing tender offer, holders of 13,184 shares of the Company’s common stock exchanged said shares for 131,840 shares of Series E Convertible Preferred Stock, at the then \$0.85 market value of the common stock. The shares carry a \$0.30 per share liquidation preference and accrue dividends at the rate of 5% per annum on the liquidation preference per share, payable quarterly from legally available funds. If such funds are not available, dividends shall continue to accumulate until they can be paid from legally available funds. Holders of the preferred shares are entitled, after two years from issuance, to convert them into common shares on a hundred-to-one basis together with payment of \$0.45 per converted share.

Dividends

During each of the years ended September 30, 2013 and 2012, the Company accrued dividends of \$1,918, payable to holders of Series E preferred stock. No dividends were paid in 2013 or 2012.

Note 10: Warrants

Edgar Filing: LIVEDEAL INC - Form 10-K

As discussed in Note 8, the Company issued several Notes and converted them into shares of common stock, resulting in the issuance of warrants. The following table summarizes information about the Company's warrants at September 30, 2013:

	Number of Units	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Intrinsic Value
Outstanding at September 30, 2012	109,139	\$ 2.85	4.95	253,202
Granted	846,363	1.78		
Exercised	—	—		
Outstanding at September 30, 2013	955,502	\$ 1.90	4.39	1,471,998
Exerciseable at September 30, 2013	955,502	\$ 1.90	4.39	1,471,998

The warrants were valued using the Black-Scholes pricing model with the following assumptions:

Volatility	121%-127%
Risk-free interest rate	.74% -.89%
Expected term	5 years
Forfeiture rate	0%
Dividend yield rate	0%

Note 11: Stock Based Compensation***Restricted Stock Awards***

The Company previously maintained the 2003 Amended and Restated 2003 Stock Plan (“2003 Plan”), which was approved by the Company’s stockholders, for the issuance of stock-based compensation awards. As amended, the Company was permitted to issue an aggregate of 340,000 shares of common stock under the 2003 Plan. All Company personnel and contractors are eligible to participate in the 2003 Plan. By its terms, the 2003 Plan expired on July 21, 2013 (which was the tenth anniversary of the effective date of the 2003 Plan), and no new awards were made thereafter. The Company anticipates implementing a new equity incentive plan to replace the 2003 Plan.

In September 2011, in an effort to preserve cash, the Board, after consultation with the Compensation Committee, entered into an agreement to compensate the members of the Board for their monthly retainer and other services as directors and/or members of the Board’s various standing committees through the award of shares of the Company’s common stock under the 2003 Plan. Since inception an aggregate of 83,495 shares were issued to members of the Board of Directors. During the year ended September 30, 2013, 26,484 shares were issued to the Board of Directors.

As of September 30, 2013, there were 134,816 shares authorized under the 2003 Plan that were granted and remain outstanding and fully vested.

The following table sets forth the activity with respect to unvested restricted stock grants (results reported in post-split amounts):

Outstanding (unvested) at September 30, 2011	1,342
Granted	–
Forfeited	(26)
Vested	(1,053)
Outstanding (unvested) at September 30, 2012	263
Granted	–
Forfeited	–
Vested	(263)
Outstanding (unvested) at September 30, 2013	0

Stock Option Awards

Edgar Filing: LIVEDEAL INC - Form 10-K

From time to time, the Company grants stock option awards to officers and employees. Such awards are valued based on the grant date fair value of the instruments, net of estimated forfeitures, using a Black-Scholes option pricing model with the following assumptions:

	Year Ended September 30, 2013	Year Ended September 30, 2012
Volatility	124%-127%	—
Risk-free interest rate	.08%-.66%	—
Expected term	1-3.77 years	—
Forfeiture rate	10%	—
Dividend yield rate	0%	—

The volatility used was based on historical volatility of the Company's common stock, which management considers to be the best indicator of expected future volatility. The risk free interest rate was determined based on treasury securities with maturities equal to the expected term of the underlying award. The expected term was determined based on the simplified method outlined in Staff Accounting Bulletin No. 110.

Stock option awards are expensed on a straight-line basis over the requisite service period. During the years ended September 30, 2013 and 2012, the Company recognized expense of \$173,073 and \$16,942, respectively, associated with stock option awards. At September 30, 2013, all stock compensation expense associated with issued awards has been recognized.

The following summarizes stock option activity for the year ended September 30, 2013:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Intrinsic Value
Outstanding at September 30, 2012	–			
Granted	225,000	\$ 8.47		
Exercised	–			
Forfeited	–			
Outstanding at September 30, 2013	225,000	\$ 8.47	5.9	–
Exercisable at September 30, 2013	25,000	\$ 10.00	0.6	–

The following table summarizes information about the Company's non-vested shares as of September 30, 2013:

	Number of Shares	Weighted-Average Grant-Date Fair Value
Non-vested Shares		
Nonvested at September 30, 2012	–	
Granted	200,000	\$ 2.18
Nonvested at September 30, 2013	200,000	\$ 2.18

Note 12: Net Loss Per Share

Net loss per share is calculated using the weighted average number of shares of common stock outstanding during the year. Basic weighted average common shares outstanding do not include shares of restricted stock that have not yet vested, although such shares are included as outstanding shares in the Company's consolidated balance sheet. Diluted loss per share is computed using the weighted average number of common shares outstanding and if dilutive, potential common shares outstanding during the period. Potential common shares consist of the incremental common shares issuable from restricted shares, stock options, convertible debt and convertible preferred stock. Preferred stock dividends are subtracted from net loss to determine the amount available to common stockholders.

The following table presents the computation of basic and diluted loss per share:

	Year Ended September 30,	
	2013	2012

Edgar Filing: LIVEDEAL INC - Form 10-K

Loss from continuing operations	\$ (5,749,722)	\$ (1,587,641)
Less: preferred stock dividends	(1,918)	(1,918)
Loss from continuing operations applicable to common stock	(5,751,640)	(1,589,559)
Income (loss) from discontinued operations	2,708	12,433
Net loss applicable to common stock	\$ (5,748,932)	\$ (1,577,126)
Weighted average common shares outstanding - basic and diluted	3,131,420	2,068,828
Earnings per share - basic and diluted:		
Loss from continuing operations	\$ (1.84)	\$ (0.77)
Discontinued operations	0.00	0.01
Net loss	\$ (1.84)	\$ (0.76)

The following potentially dilutive securities were excluded from the calculation of net loss per share because the effects are antidilutive based on the application of the treasury stock method and/or because the Company incurred net losses during the period:

	Year Ended	
	September 30, 2013	2012
Options to purchase shares of common stock	225,000	–
Warrants to purchase shares of common stock	955,502	109,139
Series E convertible preferred stock	127,840	127,840
Shares of non-vested restricted stock	–	263
Total potentially dilutive shares	1,308,342	237,242

Note 13: Restructuring Activities

In May 2011 the Company ceased the Direct Sales business and migrated the remaining customers to Reach Local in exchange for 10% and 5% of gross revenues derived from such customers during the first and second year, respectively. The Company recorded \$816 and \$6,053 in revenues for this agreement during the years ended September 30, 2013 and 2012, respectively. In connection with the discontinued Direct Sales business, seven employees were terminated. See Note 4.

Note 14: Related Party Transactions

Convertible Notes with ICG

As described in Note 8, during 2012 and 2013 the Company entered into a series of convertible note purchase agreements with ICG, an entity owned by Jon Isaac, the Company's President and Chief Executive Officer and a director on the Company's Board group. Under these agreements, the Company received gross proceeds of \$1,250,000 and \$250,000 during the years ended September 30, 2013 and 2012, respectively.

Under the terms of these agreements, ICG executed its conversion option on all then-outstanding notes during the years ended September 30, 2013 and 2012. In exchange for the conversion of \$1,250,000 of convertible notes during the year ended September 30, 2013, ICG received an aggregate of 846,363 of shares of common stock and, upon conversion, ICG also received warrants to acquire an additional 846,363 shares of common stock. In exchange for the conversion of \$250,000 of convertible notes during the year ended September 30, 2012, ICG received an aggregate of 109,139 of shares of common stock and, upon conversion, ICG also received warrants to acquire an additional 109,139 shares of common stock.

Because the conversion price under ICG's notes was less than the fair market value of the stock on the date of issuance, the Company recognized a beneficial conversion feature which was treated as a debt discount and amortized on a straight line basis as interest expense until the date of conversion, at which time all remaining debt discount was recognized as interest expense. Additionally, the fair value of the warrants that were contingently issuable to ICG upon conversion were recognized as additional interest expense.

During the years ended September 30, 2013 and 2012, the Company recognized total interest expense of \$3,291,466 and \$489,594 associated with the ICG notes.

Issuance of Common Stock with ICG

As described in Note 9, during the year ended September 30, 2012, the Company issued 403,225 shares of common stock to ICG in exchange for gross proceeds of \$500,000.

Note 15: Commitments and Contingencies

Operating Leases and Service Contracts

The Company leases its office space and certain equipment under long-term operating leases expiring through fiscal year 2016. Rent expense under these leases was \$152,372 and \$350,822 for the years ended September 30, 2013 and 2012, respectively. The Company has also entered into several non-cancelable service contracts.

As of September 30, 2013, future minimum annual lease payments under operating lease agreements and non-cancelable service contracts for fiscal years ended September 30 are as follows:

2014	211,767
2015	201,630
2016	57,283
2017	–
2018	–
Thereafter	–
	\$470,680

Litigation

The Company is party to certain legal proceedings incidental to the conduct of its business. Management believes that the outcome of pending legal proceedings will not, either individually or in the aggregate, have a material adverse effect on its business, financial position, and results of operations, cash flows or liquidity.

Except as described below, as of September 30, 2013, the Company was not a party to any pending material legal proceedings other than claims that arise in the normal conduct of its business. While management currently believes that the ultimate outcome of these routine proceedings will not have a material adverse effect on its consolidated financial condition or results of operations, litigation is subject to inherent uncertainties. If an unfavorable ruling were to occur, there exists the possibility of a material adverse impact on the Company's net income in the period in which a ruling occurs. The Company's estimate of the potential impact of the following legal proceedings on its financial position and its results of operation could change in the future.

Global Education Services, Inc. v. LiveDeal, Inc.

On June 6, 2008, Global Education Services, Inc., which we refer to as GES, filed a consumer fraud lawsuit against us in the King County Superior Court in the State of Washington, alleging that our use of activator checks violated the Washington Consumer Protection Act and seeking class certification pursuant to Washington law. GES sought injunctive relief against our use of activator checks, damages in an amount equal to three times the damages allegedly sustained by the members of the putative class, exemplary damages for the alleged violation of law, and its fees and costs. We denied the allegations of the complaint and commenced defending the litigation.

Early in 2010, the Court denied both parties' dispositive motions, at which time they commenced settlement discussions. The parties reached a settlement and entered into a settlement agreement on or about November 5, 2012.

The settlement agreement required \$150,000 to be paid to plaintiff's counsel, \$10,000 to be paid to GES as the "representative plaintiff," and \$70 to be paid to each eligible class member. The Court granted final approval of the settlement on April 26, 2013 and the Court's order became final on May 27, 2013. All class member claims have been paid and the last attorneys' fee payment was made on November 23, 2013. Accordingly, the litigation is fully resolved and the matter closed.

J3 Harmon LLC v. LiveDeal, Inc.

On February 9, 2012, J3 Harmon LLC, which we refer to as J3, filed a lawsuit against us in the Superior Court for Maricopa County in the State of Arizona, alleging breach of a commercial lease agreement. J3 sought damages for alleged unpaid rents during the lease term as well as alleged damages for storage costs after the expiration of the lease term. We denied the allegations and asserted various affirmative defenses. In September 2012, the Maricopa County Superior Court entered a judgment in favor of J3 in the sum of \$62,886.13. We appealed this judgment.

On October 1, 2013, the Arizona Court of Appeals affirmed in part and reversed in part on the principal damages and remanded the matter for judgment. Subsequently, the Maricopa County Superior Court entered Judgment on Mandate against the Company in the principal sum of \$46,636.31 and attorneys' fees of \$5,624.40, with post-judgment interest from October 3, 2012. There is no further basis for appeal by the Company. The Company anticipates paying the judgment during the fiscal quarter ending March 31, 2014 and, upon such payment, the matter will be resolved. As of September 30, 2013, the Company maintained an accrual of \$52,261 related to this matter.

LEC Billings

The Company has historically billed a significant amount of our legacy business revenues through LEC billing channels. The largest LEC billing companies ceased billing for third parties in 2012. If we are not able to obtain alternative billing methods for these customers, the number of legacy subscribers and our revenues will decline, which could materially and adversely affect our operating results and financial condition. The Company had approximately \$73,000 of revenues billed through LEC billing channels for the year ended September 30, 2013. LEC billing channel costs related to those revenues equaled approximately \$171,000 for the year ended September 30, 2013.

Except as referenced above, the Company has not recorded any accruals pertaining to its legal proceedings as they do not meet the criteria for accrual under FASB ASC 450.

Note 16: Provision for Income Taxes

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A full valuation allowance is established against all net deferred tax assets as of September 30, 2013 and 2012 based on estimates of recoverability. While the Company has optimistic plans for its business strategy, it determined that such a valuation allowance was necessary given the current and expected near term losses and the uncertainty with respect to its ability to generate sufficient profits from its new business model.

Because of the impacts of the valuation allowance, there was no income tax expense or benefit for the year ended September 30, 2013.

A reconciliation of the differences between the effective and statutory income tax rates for years ended September 30, is as follows:

	2013		2012	
	Amount	Percent	Amount	Percent
Federal statutory rates	\$(1,953,982)	34%	\$(535,573)	34%
State income taxes	(193,167)	3%	(52,946)	3%
Write off of deferred tax asset related to vested restricted stock	–	0%	10,670	(1%)
Permanent differences	15,967	(0%)	3,411	(0%)
Valuation allowance against net deferred tax assets	2,131,183	(37%)	574,438	(36%)
Other		0%		0%
Effective rate	\$–	0%	\$–	0%

At September 30, deferred income tax assets and liabilities were comprised of:

	2013	2012
Deferred income tax asset, current:		
Book to tax differences in accounts receivable	\$382,218	\$582,549
Book to tax differences in prepaid assets and accrued expenses	8,425	(7,774)
Total deferred income tax asset, current	390,643	574,775
Less: valuation allowance	(390,643)	(574,775)
Deferred income tax asset, current, net	—	—
Deferred income tax asset, long-term:		
Net operating loss carryforwards	12,821,092	10,012,906
Book to tax differences for stock based compensation	6,407	6,407
Book to tax differences in intangible assets	6,693,536	6,961,861
Book to tax differences in other	326	326
Book to tax differences in depreciation	(2,297,221)	(2,072,674)
Total deferred income tax asset, long-term	17,224,140	14,908,825
Less: valuation allowance	(17,224,140)	(14,908,825)
Deferred income tax asset, net	—	—
Total deferred income tax asset	\$—	\$—

The Company has recorded as of September 30, 2013 a valuation allowance of \$17,224,140, as it believes that it is more likely than not that the deferred tax assets will not be realized in future years. Management has based its assessment on available historical and projected operating results.

The Company annually conducts an analysis of its tax positions and has concluded that it has no uncertain tax positions as of September 30, 2013.

As part of its deferred tax assets, the Company has net operating loss carry-forwards resulting from its acquisition of LiveDeal, Inc. in fiscal 2007. Such amounts are subject to IRS code section 382 limitations and expire in 2027. The 2007 to 2010 tax years are still subject to audit.

Note 17: Concentration of Credit Risk

The Company maintains cash balances at banks in California and Nevada. Accounts are insured by the Federal Deposit Insurance Corporation up to \$250,000 per institution as of September 30, 2013. At times, balances may exceed federally insured limits.

Financial instruments that potentially subject the Company to concentrations of credit risk are primarily trade accounts receivable. The trade accounts receivable are due primarily from business customers over widespread geographical locations within the LEC billing areas across the United States. The Company historically has experienced significant dilution and customer credits due to billing difficulties and uncollectible trade accounts receivable. The Company estimates and provides an allowance for uncollectible accounts receivable. The handling and processing of cash receipts pertaining to trade accounts receivable is maintained primarily by three third-party billing companies. The Company is dependent upon these billing companies for collection of its accounts receivable. The billing companies and LECs charge fees for their services, which are netted against the gross accounts receivable balance. The billing companies also apply holdbacks to the remittances for potentially uncollectible accounts. These amounts will vary due to numerous factors and the Company may not be certain as to the actual amounts on any specific billing submittal until several months after that submittal. The Company estimates the amount of these charges and holdbacks based on historical experience and subsequent information received from the billing companies. The Company also estimates uncollectible account balances and provides an allowance for such estimates. The billing companies retain certain holdbacks that may not be collected by the Company for a period extending beyond one year. Additionally, certain other billings' channels consisting of billings submitted to LEC Processors through third parties were discontinued. As such, a significant portion of the receivables at September 30, 2013 and 2012 pertaining to LEC service providers represent the holdbacks described above.

The Company has concentrations of receivables with respect to certain wholesale accounts and remaining holdbacks with LEC service providers. Three such entities accounted for 44%, 25% and 18% of gross receivables at September

30, 2013 as compared to 35%, 27% and 15% of gross receivables at September 30, 2012.

Note 18: Segment Reporting

After discontinuing the Company's Direct Sales business as described in Note 4, as of September 30, 2013, the Company only operated one business segment. All of the Company's revenues are with external customers, are derived from operations in the United States, and no single customer accounts for more than 10% of the Company's revenues.

Note 19: Subsequent Events Disclosure

Engagement Agreement with Chardan Capital Markets LLC (At-The-Market Offering)

On January 7, 2014, we entered into an Engagement Agreement (the "Engagement Agreement") with Chardan Capital Markets LLC ("Chardan") pursuant to which we may issue and sell up to a maximum aggregate amount of 660,000 shares of our common stock from time to time through Chardan as our sales agent, under our shelf registration statement on Form S-3 (File No. 333-187397) previously filed with the SEC, pursuant to which any shares that are issued under the Engagement Agreement will be sold.

Upon delivery of a placement notice by the Company, and subject to the terms and conditions of the Engagement Agreement, Chardan may sell the common stock by any method that is deemed to be an "at-the-market" offering as defined in Rule 415 promulgated under the Securities Act of 1933, as amended (the "Securities Act"), including by means of ordinary brokers' transactions at market prices on the NASDAQ Capital Market, in block transactions, through privately negotiated transactions, or as otherwise agreed by Chardan and us. Chardan will act as sales agent on a commercially reasonable efforts basis consistent with its normal trading and sales practices and applicable state and federal law, rules and regulations and the rules of NASDAQ.

The offering pursuant to the Engagement Agreement will terminate upon the earlier of (i) the sale of all shares of common stock subject to the Engagement Agreement, or (ii) termination of the Engagement Agreement as permitted therein. The Engagement Agreement may be terminated by Chardan or us at any time upon 15 days' notice to the other party.

We will pay Chardan a commission equal to up to 3% of the gross proceeds from the sale of the common stock sold through Chardan pursuant to the Engagement Agreement and reimburse Chardan up to \$15,000 in expenses. We have also provided Chardan with customary indemnification rights. No assurance can be given that we will sell any shares under the Engagement Agreement, or, if we do, as to the price or amount of shares that we will sell, or the dates on which any such sales will take place.

The foregoing description of the Engagement Agreement contained herein does not purport to be complete and is qualified in its entirety by reference to the complete text of the Engagement Agreement, a copy of which is attached to this Annual Report on Form 10-K as Exhibit 1.1 and incorporated herein by reference. This Annual Report on Form 10-K also incorporates by reference the Engagement Agreement into our shelf registration statement on Form S-3 (File No. 333-187397) previously filed with the SEC, pursuant to which any shares that are issued under the Engagement Agreement will be sold.

On January 9, 2014, we delivered a placement notice to Chardan to sell 12,200 shares of our common stock as part of the at-the-market offering. The shares were sold for approximately \$8.93 per share, resulting in gross proceeds of approximately \$109,000. Net proceeds to us, after payment of Chardan's 3% commission was approximately \$106,000.

Convertible Note Transaction (\$5 Million Line of Credit)

On January 7, 2014, the Company entered into a Note Purchase Agreement ("Purchase Agreement") with Kingston Diversified Holdings LLC (the "Investor"), pursuant to which the Investor agreed to purchase for cash up to \$5,000,000 in aggregate principal amount of the Company's Convertible Notes ("Notes"). The Purchase Agreement and the Notes, which are unsecured, provide that all amounts payable by the Company to the Investor under the Notes will be due and payable on the second (2nd) anniversary of the date of the Purchase Agreement (the "Maturity Date").

The Purchase Agreement and the Notes provide that:

~~Either the Company or the Investor will have the right to cause the sale and issuance of Notes pursuant to the Purchase Agreement, provided that NASDAQ's approval of the Purchase Agreement and transactions contemplated thereby is a condition precedent to each party's right to cause any borrowings to occur under the Purchase~~

Agreement.

~~Each Note must be in a principal amount of at least \$100,000.~~

~~The Notes are issuable at a 5% discount and will accrue interest at an annual interest rate equal to 8%. All interest will be payable on the Maturity Date or upon the conversion of the applicable Note.~~

~~The Company has the option to prepay each Note, in whole or in part, at any time without premium or penalty.~~

~~the Company or the Investor may elect at any time on or before the Maturity Date to convert the principal and accrued but unpaid interest due under any Note into shares of the Company's common stock. The conversion price applicable to any such conversion will be an amount equal to 70% of the lesser of: (i) the closing bid price of the common stock on the date of the Purchase Agreement (i.e., \$9.35 per share); or (ii) the 10-day volume weighted average closing bid price for the common stock, as listed on NASDAQ for the 10 business days immediately preceding the date of conversion (the "Average Price"); provided, however, that in no event will the Average Price per share be less than \$1.00. For example, if the Average Price is \$0.50 per share, then for purposes of calculating the conversion price, the Average Price per share would be \$1.00 per share instead of \$0.50 per share.~~

~~If either party elects to convert all or any portion of any Note, the Company must issue to the Investor on the date of the conversion a warrant ("Contingent Warrant") to purchase a number of shares of the Company's common stock equal to the number of shares issuable upon conversion. This number of shares is subject to adjustment in the event of stock splits or combinations, stock dividends, certain *pro rata* distributions, and certain fundamental transactions. Each Contingent Warrant will be exercisable for a period of five (5) years following the date of its issuance at an exercise price equal to 110% of the conversion price of the applicable Note (with the exercise price being subject to adjustment under the same conditions as the number of shares for which the warrant is exercisable.) The Contingent Warrants provide that they may be exercised in whole or in part and include a cashless exercise feature.~~

The Notes provide that, upon the occurrence of any Event of Default, all amounts payable to the Investor will become immediately due and payable without any demand or notice. The events of default (“Events of Default”) which trigger the acceleration of the Notes include (among other things): (i) the Company’s failure to make any payment required under the Notes when due (subject to a three-day cure period), (ii) the Company’s failure to comply with its covenants and agreements under the Purchase Agreement, the Notes and any other transaction documents, and (iii) the occurrence of a change of control with respect to the Company.

The Company (i) is required to provide certain financial and other information to the Investor from time to time, (ii) must maintain its corporate existence, business, assets, properties, insurance and records in accordance with the requirements set forth in the Purchase Agreement, (iii) with certain exceptions, must not incur or suffer to exist any liens or other encumbrances with respect to the Company’s property or assets, (iv) must not make certain loans or investments except in compliance with the terms of the Purchase Agreement, and (v) must not enter into certain types of transactions, including dispositions of its assets or business.

The Company agreed to use commercially reasonable efforts to obtain, as promptly as practicable, any approvals of the Company’s stockholders required under applicable law or NASDAQ Listing Rules in connection with the transactions contemplated by the Purchase Agreement. Unless and until any such stockholder approvals are obtained, in no event will the Investor be entitled to convert any Notes and/or exercise any Contingent Warrants to the extent that any such conversion or exercise would result in the Investor acquiring in such transactions a number of shares of the Company’s common stock exceeding 19.99% of the number of shares of common stock issued and outstanding immediately prior to the Company’s entry into the Purchase Agreement.

The Investor will be entitled to certain anti-dilution adjustments if the Company issues shares of its common stock at a lower price per share than the applicable conversion price for any Note(s) issued pursuant to the Purchase Agreement. If any such dilutive issuance occurs prior to the conversion of one or more Notes, the conversion price for such Note(s) will be adjusted downward pursuant to its terms (subject to a floor of \$0.70 per share). If any such dilutive issuance occurs after the conversion of one or more Notes, the Investor will be entitled to be issued additional shares of common stock for no consideration, and to an adjustment of the exercise price payable under the applicable Contingent Warrant(s). With respect to each Note actually issued pursuant to the Purchase Agreement, the Investor’s anti-dilution rights will expire two (2) years following the date of issuance.

The foregoing description of the Purchase Agreement, the Notes and the Contingent Warrants contained herein does not purport to be complete and is qualified in its entirety by reference to the complete text of such documents, copies of which are attached to this Annual Report on Form 10-K as Exhibits 10.10, 10.11 and 10.12, respectively, and incorporated herein by reference

2014 Omnibus Equity Incentive Plan

On January 7, 2014, our Board of Directors adopted the 2014 Omnibus Equity Incentive Plan (the “2014 Plan”), which authorizes the issuance of distribution equivalent rights, incentive stock options, non-qualified stock options, performance stock, performance units, restricted ordinary shares, restricted stock units, stock appreciation rights, tandem stock appreciation rights and unrestricted ordinary shares to our officers, employees, directors, consultants and advisors. The Company has reserved up to 600,000 shares of common stock for issuance under the 2014 Plan.

Pursuant to Nasdaq Listing Rule 5635(c), the Company intends to seek stockholder approval of the 2014 Plan at our 2014 Annual Meeting of Stockholders.

Resignation of Director

On January 9, 2014, John Kocmur informed the Board of Directors of his decision to resign as a director of the Company, effective immediately. Mr. Kocmur did not resign because of any disagreement relating to the Company's operations, policies or practices.

Note 20: Selected Quarterly Financial Data (Unaudited)

Quarterly financial information for 2013 and 2012 follows:

	Quarter Ended			
	December 31, 2011	March 31, 2012	June 30, 2012	September 30, 2012

ITEM 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosures

None.

ITEM 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were effective to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting. Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)). Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of our internal control over financial reporting as of September 30, 2013. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control — Integrated Framework. Based on our assessment using those criteria, our management concluded that our internal control over financial reporting was effective as of September 30, 2013.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to a permanent exemption of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report. Accordingly, our management's assessment of the effectiveness of our internal control over financial reporting as of September 30, 2013 has not been audited by our auditors, Kabani & Company, or any other independent registered accounting firm.

ITEM 9B. Other Information

Engagement Agreement with Chardan Capital Markets LLC (At-The-Market Offering)

On January 7, 2014, we entered into an Engagement Agreement (the "Engagement Agreement") with Chardan Capital Markets LLC ("Chardan") pursuant to which we may issue and sell up to a maximum aggregate amount of 660,000 shares of our common stock from time to time through Chardan as our sales agent, under our shelf registration statement on Form S-3 (File No. 333-187397) previously filed with the SEC, pursuant to which any shares that are issued under the Engagement Agreement will be sold.

Upon delivery of a placement notice by the Company, and subject to the terms and conditions of the Engagement Agreement, Chardan may sell the common stock by any method that is deemed to be an "at-the-market" offering as defined in Rule 415 promulgated under the Securities Act of 1933, as amended (the "Securities Act"), including by means of ordinary brokers' transactions at market prices on the NASDAQ Capital Market, in block transactions, through privately negotiated transactions, or as otherwise agreed by Chardan and us. Chardan will act as sales agent on a commercially reasonable efforts basis consistent with its normal trading and sales practices and applicable state and federal law, rules and regulations and the rules of NASDAQ.

The offering pursuant to the Engagement Agreement will terminate upon the earlier of (i) the sale of all shares of common stock subject to the Engagement Agreement, or (ii) termination of the Engagement Agreement as permitted therein. The Engagement Agreement may be terminated by Chardan or us at any time upon 15 days' notice to the other party.

We will pay Chardan a commission equal to up to 3% of the gross proceeds from the sale of the common stock sold through Chardan pursuant to the Engagement Agreement and reimburse Chardan up to \$15,000 in expenses. We have also provided Chardan with customary indemnification rights. No assurance can be given that we will sell any shares under the Engagement Agreement, or, if we do, as to the price or amount of shares that we will sell, or the dates on which any such sales will take place.

On January 9, 2014, we delivered a placement notice to Chardan to sell 12,200 shares of our common stock as part of the at-the-market offering. The shares were sold for approximately \$8.93 per share, resulting in gross proceeds of approximately \$109,000. Net proceeds to us, after payment of Chardan's 3% commission was approximately \$106,000.

The foregoing description of the Engagement Agreement contained herein does not purport to be complete and is qualified in its entirety by reference to the complete text of the Engagement Agreement, a copy of which is attached to this Annual Report on Form 10-K as Exhibit 1.1 and incorporated herein by reference. This Annual Report on Form 10-K also incorporates by reference the Engagement Agreement into our shelf registration statement on Form S-3 (File No. 333-187397) previously filed with the SEC, pursuant to which any shares that are issued under the Engagement Agreement will be sold.

Convertible Note Transaction (\$5 Million Line of Credit)

On January 7, 2014, the Company entered into a Note Purchase Agreement (“Purchase Agreement”) with Kingston Diversified Holdings LLC (the “Investor”), pursuant to which the Investor agreed to purchase for cash up to \$5,000,000 in aggregate principal amount of the Company’s Convertible Notes (“Notes”). The Purchase Agreement and the Notes, which are unsecured, provide that all amounts payable by the Company to the Investor under the Notes will be due and payable on the second (2nd) anniversary of the date of the Purchase Agreement (the “Maturity Date”).

The Purchase Agreement and the Notes provide that:

Either the Company or the Investor will have the right to cause the sale and issuance of Notes pursuant to the Purchase Agreement, provided that NASDAQ’s approval of the Purchase Agreement and transactions contemplated thereby is a condition precedent to each party’s right to cause any borrowings to occur under the Purchase Agreement.

~~Each Note must be in a principal amount of at least \$100,000.~~

~~The Notes are issuable at a 5% discount and will accrue interest at an annual interest rate equal to 8%. All interest will be payable on the Maturity Date or upon the conversion of the applicable Note.~~

~~The Company has the option to prepay each Note, in whole or in part, at any time without premium or penalty.~~

Either the Company or the Investor may elect at any time on or before the Maturity Date to convert the principal and accrued but unpaid interest due under any Note into shares of the Company’s common stock. The conversion price applicable to any such conversion will be an amount equal to 70% of the lesser of: (i) the closing bid price of the common stock on the date of the Purchase Agreement (i.e., \$9.35 per share); or (ii) the 10-day volume weighted average closing bid price for the common stock, as listed on NASDAQ for the 10 business days immediately preceding the date of conversion (the “Average Price”); provided, however, that in no event will the Average Price per share be less than \$1.00. For example, if the Average Price is \$0.50 per share, then for purposes of calculating the conversion price, the Average Price per share would be \$1.00 per share instead of \$0.50 per share.

~~If either party elects to convert all or any portion of any Note, the Company must issue to the Investor on the date of the conversion a warrant (“Contingent Warrant”) to purchase a number of shares of the Company’s common stock equal to the number of shares issuable upon conversion. This number of shares is subject to adjustment in the event of stock splits or combinations, stock dividends, certain *pro rata* distributions, and certain fundamental transactions.~~

Each Contingent Warrant will be exercisable for a period of five (5) years following the date of its issuance at an exercise price equal to 110% of the conversion price of the applicable Note (with the exercise price being subject to adjustment under the same conditions as the number of shares for which the warrant is exercisable.) The Contingent Warrants provide that they may be exercised in whole or in part and include a cashless exercise feature.

The Notes provide that, upon the occurrence of any Event of Default, all amounts payable to the Investor will become immediately due and payable without any demand or notice. The events of default (“Events of Default”) which trigger the acceleration of the Notes include (among other things): (i) the Company’s failure to make any payment required under the Notes when due (subject to a three-day cure period), (ii) the Company’s failure to comply with its covenants and agreements under the Purchase Agreement, the Notes and any other transaction documents, and (iii) the occurrence of a change of control with respect to the Company.

The Company (i) is required to provide certain financial and other information to the Investor from time to time, (ii) must maintain its corporate existence, business, assets, properties, insurance and records in accordance with the requirements set forth in the Purchase Agreement, (iii) with certain exceptions, must not incur or suffer to exist any liens or other encumbrances with respect to the Company's property or assets, (iv) must not make certain loans or investments except in compliance with the terms of the Purchase Agreement, and (v) must not enter into certain types of transactions, including dispositions of its assets or business.

The Company agreed to use commercially reasonable efforts to obtain, as promptly as practicable, any approvals of the Company's stockholders required under applicable law or NASDAQ Listing Rules in connection with the transactions contemplated by the Purchase Agreement. Unless and until any such stockholder approvals are obtained, in no event will the Investor be entitled to convert any Notes and/or exercise any Contingent Warrants to the extent that any such conversion or exercise would result in the Investor acquiring in such transactions a number of shares of the Company's common stock exceeding 19.99% of the number of shares of common stock issued and outstanding immediately prior to the Company's entry into the Purchase Agreement.

The Investor will be entitled to certain anti-dilution adjustments if the Company issues shares of its common stock at a lower price per share than the applicable conversion price for any Note(s) issued pursuant to the Purchase Agreement. If any such dilutive issuance occurs prior to the conversion of one or more Notes, the conversion price for such Note(s) will be adjusted downward pursuant to its terms (subject to a floor of \$0.70 per share). If any such dilutive issuance occurs after the conversion of one or more Notes, the Investor will be entitled to be issued additional shares of common stock for no consideration, and to an adjustment of the exercise price payable under the applicable Contingent Warrant(s). With respect to each Note actually issued pursuant to the Purchase Agreement, the Investor's anti-dilution rights will expire two (2) years following the date of issuance.

The foregoing description of the Purchase Agreement, the Notes and the Contingent Warrants contained herein does not purport to be complete and is qualified in its entirety by reference to the complete text of such documents, copies of which are attached to this Annual Report on Form 10-K as Exhibits 10.10, 10.11 and 10.12, respectively, and incorporated herein by reference

2014 Omnibus Equity Incentive Plan

On January 7, 2014, our Board of Directors adopted the 2014 Omnibus Equity Incentive Plan (the "2014 Plan"), which authorizes the issuance of distribution equivalent rights, incentive stock options, non-qualified stock options, performance stock, performance units, restricted ordinary shares, restricted stock units, stock appreciation rights, tandem stock appreciation rights and unrestricted ordinary shares to our officers, employees, directors, consultants and advisors. The Company has reserved up to 600,000 shares of common stock for issuance under the 2014 Plan. Pursuant to Nasdaq Listing Rule 5635(c), the Company intends to seek stockholder approval of the 2014 Plan at our 2014 Annual Meeting of Stockholders.

Resignation of Director

On January 9, 2014, John Kocmur informed the Board of Directors of his decision to resign as a director of the Company, effective immediately. Mr. Kocmur did not resign because of any disagreement relating to the Company's operations, policies or practices.

Potential Forward Stock Split

On January 8, 2014, the Company's Board of Directors authorized management to proceed with plans for a forward stock split with respect to the Company's issued and outstanding common stock. The ratio for the forward stock split would be between 3:1 to 5:1. The forward stock split may be subject to stockholder and/or other approvals, and there is no assurance regarding the timing or ratio at which it will be completed or that it will be completed at all.

PART III

The information required by Part III is omitted from this Annual Report on Form 10-K because the required information will be incorporated by reference from our definitive proxy statement for our 2014 Annual Meeting of Stockholders, to be filed with the SEC pursuant to Regulation 14A of the Exchange Act (the "Proxy Statement") not later than 120 days after the end of the fiscal year covered by this Annual Report.

ITEM 10. Directors, Executive Officers and Corporate Governance

The information required by this Item will be disclosed in the Proxy Statement and is incorporated by reference from the Proxy Statement.

The Company has adopted a Code of Ethics that applies to all of its officers, directors and employees.

ITEM 11. Executive Compensation

The information required by this Item will be disclosed in the Proxy Statement and is incorporated by reference from the Proxy Statement.

ITEM 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this Item will be disclosed in the Proxy Statement and is incorporated by reference from the Proxy Statement.

ITEM 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this Item will be disclosed in the Proxy Statement and is incorporated by reference from the Proxy Statement.

ITEM 14. Principal Accounting Fees and Services

The information required by this Item will be disclosed in the Proxy Statement and is incorporated by reference from the Proxy Statement.

PART IV

ITEM 15. Exhibits and Financial Statement Schedules

- (1) Financial Statements are listed on the Index to Consolidated Financial Statements on page 28 of this Annual Report.
- (2) The following represents financial statement schedules required to be filed with this Annual Report:

SCHEDULE II – VALUATION AND QUALIFYING ACCOUNTS AND RESERVES

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON SCHEDULE

To the Stockholders and Board of Directors of

LIVEDEAL, INC. AND SUBSIDIARIES

We have audited the consolidated financial statements of LiveDeal, Inc. and its subsidiaries (the “Company”) as of September 30, 2013 and 2012 and for the years then ended and have issued our report thereon dated January 10, 2014. Our audit was conducted for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The information included in the accompanying Schedule II–Valuation and Qualifying Accounts is presented for purposes of complying with the Securities and Exchange Commission’s rules and is not a required part of the basic consolidated financial statements. Such information for the years ended September 30, 2013 and 2012 has been subjected to the auditing procedures applied in the audits of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.
