Item 1.01 Entry into a Material Definitive Agreement.

On January 16, 2009, Chordiant Software, Inc., a Delaware corporation (the “Company”) and Ness USA, Inc., formerly Ness Global Services, Inc. (“Ness”) entered into Addendum “C” (the “Addendum”) to the Master Services Agreement dated December 15, 2003 by and among Chordiant, Ness, Ness Technologies India Ltd. and Ness Technologies, Inc. (collectively, the “Ness Entities”), as amended (the “Master Services Agreement”).

Under the terms of the Master Services Agreement, the Ness Entities provide the Company’s customers with technical product support through a worldwide help desk facility, a sustaining engineering function that serves as the interface between technical product support and the Company’s internal engineering organization, product testing services and product development services, as well as certain additional technical and consulting services (collectively, the “Services”). Under the terms of the Master Services Agreement, the Company pays for services rendered on a monthly fee basis, including the requirement to reimburse the Ness Entities for approved out-of-pocket expenses, except for professional services which are paid on an hourly fee basis. In addition, the Company has guaranteed certain lease obligations of the Ness Entities for equipment used in performing the Services.

Pursuant to the terms of the Addendum, the parties extended the term of the Master Services Agreement through December 31, 2011. The Addendum also provides that in the fourth calendar quarter of 2008, the Company shall receive a predetermined discount from Ness’ standard billable rate under the Master Services Agreement. In addition, in calendar year 2009, the Company shall receive a discount from Ness’ standard billable rate under the Master Services Agreement according to a discount structure which is based upon the number of billable resources per month utilized by the Company. Further, in the event the Company terminates the Master Services Agreement for convenience or executes its transfer option on or prior to December 31, 2009, in addition to any other termination penalties or fees that may be applicable under the Master Services Agreement, the Company shall pay Ness a termination penalty (the “Termination Penalty”) equal to the cumulative difference between the actual amount paid by the Company for the billable resources it utilized during calendar year 2009 through the date of termination and the amount the Company would have paid for such billable resources at Ness’ standard billable rate under the Master Services Agreement, up to a maximum of \$450,000. The Termination Penalty shall not apply to termination by the Company for any other reason. Pursuant to the Master Services Agreement, the Company and Ness will agree on billable rates for calendar years 2010 and 2011 in the future. The Addendum provides that the then-current billable rates for the months of October 2009 and October 2010, respectively, shall be used as the basis for the billable rate negotiations for calendar years 2010 and 2011, respectively, with any proposed billable rate increase subject to limitation if the parties agree market conditions so require.
