QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 28, 2008

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission file number: 001-13279

Intermec, Inc. (Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)

6001 36th Avenue West, Everett, WA (Address of principal executive offices)

95-4647021 (I.R.S. Employer Identification No.)

> 98203-1264 (Zip Code)

(425) 265-2400

(Registrant's telephone number, including area code)

[None]

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes \acute{y} No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer ý

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes o No \acute{y}

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class Common Stock, \$0.01 par value per share Outstanding at October 26, 2008 61,763,445 shares

INTERMEC, INC. TABLE OF CONTENTS REPORT ON FORM 10-Q FOR THE QUARTER ENDED SEPTEMBER 28, 2008

PART I. FINANCIAL INFORMATION

<u>ITEM 1.</u>	Financial Statements (unaudited)	
	Condensed Consolidated Statements of Operations (unaudited) Three and Nine Month Periods Ended September 28, 2008 and September 30, 2007.	3
	Condensed Consolidated Balance Sheets (unaudited) September 28, 2008, and December 31, 2007	4
	<u>Condensed Consolidated Statements of Cash Flows</u> (unaudited) Nine Months Ended September 28, 2008, and September 30, 2007	5
	Notes to Condensed Consolidated Financial Statements (unaudited)	6-14
<u>ITEM 2.</u>	Management's Discussion and Analysis of Financial Condition and Results of Operations	15-22

See accompanying notes to condensed consolidated financial statements.

1. Basis of Presentation

Our interim financial periods are based on a thirteen-week internal accounting calendar. In our opinion, the accompanying condensed consolidated balance sheets, interim statements of operations and statements of cash flows include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The financial statements include the accounts of Intermec and our subsidiaries. Intercompany transactions and balances have been eliminated. Equity investments in which we exercise significant influence but do not exercise control and are not the primary beneficiary are accounted for using the equity method. Investments in which we are not able to exercise significant influence over the investee are accounted for under the cost method. Preparing our financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses, and financial data included in the accompanying notes to the financial statements. Actual results and outcomes may differ from our estimates and assumptions.

Interim results are not necessarily indicative of results for a full year. The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K, as amended, for the year-ended December 31, 2007 (the "Annual Report on Form 10-K for the year ended December 31, 2007").

Reclassification and Correction of Error

Prior to the fourth quarter of 2007, we provided the effect of exchange rates on cash and cash equivalents as supplemental information within the Consolidated Statement of Cash Flows. We have determined that the effect of exchange rates on cash and cash equivalents should have been recorded as a reconciling item between beginning and ending cash and cash equivalents. Accordingly, we reclassified \$9.1 million from "net cash provided by operating activities" within the Condensed Consolidated Statement of Cash Flows to "effect of exchange rate changes on cash and cash equivalents" for the nine months ended September 30, 2007 to correct the error. Additionally, in the Condensed Consolidated Statement of Cash Flows to "effect of discontinued \$1.4 million of collection on notes receivable from investing activities of operations to investing activities of discontinued operations, and reclassified and separately presented cash provided by deferred revenue from accounts payable and accrued expenses and other long-term liabilities for comparability with the current year.

In the Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2007 we reclassified and separately presented research and development expenses from selling, general and administrative expenses for comparability with the current year.

Recent Accounting Pronouncements

In April 2008, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position (FSP) No. FAS 142-3, Determination of the Useful Life of Intangible Assets. The final FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS 142, "Goodwill and Other Intangible Assets". The FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. We are in the process of evaluating the impact FSP 142-3 will have on our consolidated financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133, which requires additional disclosures about the objectives of the derivative instruments and hedging activities, the method of accounting for such instruments under SFAS No. 133 and its related interpretations, and a tabular disclosure of the effects of such instruments and related hedged items on our financial position, financial performance, and cash flows. SFAS No. 161 is effective for us beginning January 1, 2009. We are currently assessing the potential impact that adoption of SFAS No. 161 may have on our financial statements.

In February 2007, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, Including an Amendment of FASB Statement No. 115. SFAS No. 159 permits entities to measure eligible financial assets, financial liabilities and firm commitments at fair value, on an instrument-by-instrument basis, that are otherwise not permitted to be accounted for at fair value under other generally accepted accounting principles. The fair value measurement election is irrevocable and subsequent changes in fair value must be recorded in earnings. We adopted SFAS No. 159 effective January 1, 2008 and elected to not adopt the fair value option for any financial assets or liabilities. The adoption did not have a material impact on our consolidated financial statements.

INTERMEC, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

1. Basis of Presentation (continued)

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. This statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This statement applies to all financial instruments that are being measured and reported on a fair value basis. As defined in this statement, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. We adopted SFAS No. 157 effective January 1, 2008. The adoption of SFAS No. 157 did not have a material impact on our condensed consolidated financial statements. While SFAS 157 was effective in the first fiscal quarter of 2008, the FASB provided a one year deferral for the implementation with respect to other nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). We have deferred implementation of SFAS No. 157 for our nonfinancial assets and liabilities.

SFAS No. 157 requires financial assets and liabilities to be classified and disclosed in one of the following three categories:

- § Level 1: Inputs based on quoted market prices for identical assets or liabilities in active markets.
- § Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.
- § Level 3: Unobservable inputs that are not corroborated by market data.

Our level 1 financial instrument values are based on quoted market prices in active markets for identical assets, which we use to value our certificates of deposit, money market funds and equity securities. Our level 2 financial instrument values are based on comparable sales, such as quoted market rates for similar contracts. We do not have any financial instruments that require valuation using level 3 inputs.

Our financial assets and liabilities subject to these fair value measurement provisions comprised the following (thousands of dollars):

	L	.evel 1	Le	evel 2	Level	3	Sej	lance as of otember 3, 2008
Money market funds	\$	79,997		-	\$	-	\$	79,997

Total liabilities at fair value	\$	-	\$	(1,286)	\$	-	\$	(1,286)

1. Basis of Presentation (continued)

In September 2006, the FASB issued SFAS No. 158, Employer's Accounting for Defined Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106 and 132(R). SFAS No. 158 has new provisions regarding the measurement date as well as certain disclosure requirements. Effective December 31, 2008, SFAS No. 158 will require us to measure plan assets and benefit obligations at fiscal year end. We currently perform this measurement at September 30 of each year. In addition, beginning in fourth quarter of 2007, SFAS No. 158 required that we eliminate the use of a three-month lag period when recognizing the impact of curtailments or settlements and instead, recognize these amounts in the period in which they occur. The provisions of SFAS No. 158 do not permit retrospective application. We recorded \$0.3 million as an adjustment to opening retained earnings in the quarter as a result of adopting this provision for our U.S. pension plan due to the curtailment event. We expect to incur approximately\$0.2 million as an adjustment to retained earnings upon adoption of the remainder of this statement for our other plans.

In September 2006, the Emerging Issues Task Force ("EITF") issued EITF 06-4, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements ("EITF 06-04"), which we adopted on January 1, 2008. The Task Force concluded that an employer should recognize a liability for future benefits in accordance with SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions" or Accounting Principles Board Opinion 12 ("Opinion 12"), "Classification and Disclosure of Allowances Disclosure of Depreciable Assets and Depreciation Deferred Compensation Contracts Capital Changes Convertible Debt and Debt Issued with Stock Warrants Amortization of Debt Discount and Expense or Premium" based on the substantive agreement with the employee. Upon adoption of EITF 06-4, as of January 1, 2008, we increased accumulated deficit \$0.9 million, recognized a \$1.4 million long-term liability, and recorded a tax effect of \$0.5 million within long-term deferred tax assets.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations, which will be effective on a prospective basis for all business combinations with an acquisition date on or after January 1, 2009 with the exception of the accounting for deferred taxes, related valuation allowances and acquired uncertain tax positions. This statement generally requires an acquirer to recognize the assets acquired, the liabilities assumed, contingent purchase consideration, and any noncontrolling interest in the acquiree, at fair value on the date of acquisition. SFAS No. 141R also requires an acquirer to expense most transaction and restructuring costs as incurred, and not include such items in the cost of the acquired entity. We are currently evaluating the impact of the adoption of SFAS No. 141R on our consolidated financial statements.

2. Inventories

Inventories comprise the following (thousands of dollars):

	eptember 8, 2008	December 31, 2007		
Raw materials	\$ 59,730	\$	65,257	
Work in process	335		1,318	
Finished goods	62,426		46,570	
Inventories	\$ 122,491	\$	113,145	

3. Debt

We have an unsecured Revolving Credit Facility (the "Revolving Facility") with a maximum amount available under the Revolving Facility of \$50.0 million. Net of outstanding letters of credit and limitations on availability, we had borrowing capacity at September 28, 2008, of \$46.9 million under the Revolving Facility. We made no borrowings under the Revolving Facility during 2008, and as of September 28, 2008, no borrowings were outstanding under this facility. As of September 28, 2008, we were in compliance with all financial covenants of the Revolving Facility. The Revolving Facility matures in October 2012.

We also have letter-of-credit reimbursement agreements totaling \$ 3.7 million at September 28, 2008, and December 31, 2007.

During March 2008, we paid off our \$100.0 million senior unsecured debt.

4. Provision for Income Taxes

The tax expense for the three and nine months ended September 28, 2008, reflects an effective tax rate for continuing operations of 34.5% and 35.3%, respectively, compared to a U.S. statutory rate of 35%. In the third quarter of 2008, we recorded tax benefits which decreased our Q3 effective tax rate 1.7% for a foreign tax refund and adjustments pertaining to our 2007 tax returns filed this quarter. These rates reflect our recurring estimated effective tax rate of approximately 37% for fiscal year 2008, which excludes the impact of discrete items.

The tax expense for the three and nine months ended September 30, 2007, reflects an effective tax rate for continuing operations of 16.2% and 39.3%, respectively, compared to a U.S. statutory rate of 35%. In the third quarter of 2007, the tax provision was decreased to record benefits primarily resulting from certain changes in foreign and state tax law and for deferred taxes related to tax amortizable goodwill. These rates reflect our recurring estimated effective tax rate of approximately 36% for fiscal year 2007, which excludes the impact of discrete items.

5. Discontinued Operations

We completed our divestiture of the IAS businesses with the sale of the Cincinnati Lamb business in the first quarter of 2005 and the sale of the Landis Grinding Systems business in the fourth quarter of 2005. There was a net loss of \$1.3 million from discontinued operations for the nine months ended September 30, 2007. Final operations ceased on April 3, 2005 for our Cincinnati Lamb business and December 9, 2005 for our Landis Grinding Systems business.

6. Shares Used in Computing Earnings per Share

Basic earnings per share are calculated using the weighted average number of common shares outstanding and issuable for the applicable period. Diluted earnings per share is computed using basic weighted average shares plus the dilutive effect of unvested restricted stock and outstanding stock options using the "treasury stock" method.

	Three Mon	ths Ended	
	September	September	
	28, 2008	30, 2007	
Weighted average shares – basic	61,238,149	60,483,794	
Dilutive effect of unvested restricted shares and stock options	406,345	840,780	
Weighted average shares – diluted	61,644,494	61,324,574	
	Nine Months Ended		
	September	September	
	28, 2008	30, 2007	
Weighted average shares – basic	61,120,946	60,241,602	
Dilutive effect of unvested restricted shares and stock options	477,565	857,730	
Weighted groups above diluted	(1 500 511	(1.000.222	
Weighted average shares – diluted	61,598,511	61,099,332	

Our employees and directors held total options to purchase 2,484,295 and 2,059,248 shares of our common stock for the three and nine months ended September 28, 2008, respectively, and 863,331 and 768,898 shares for the three and nine months ended September 30, 2007, respectively, that were not included in weighted average shares diluted because they were anti-dilutive to the diluted earnings per share computation. These options could become dilutive in future periods if the average market price of our common stock exceeds the exercise price of the outstanding options and we report net earnings.

7. Equity

For the three and nine months ended September 28, 2008, we granted to employees 70,000 and 884,250 options respectively with an average Black-Scholes value of \$8.52 per option, which vest annually in even quantities over four years. For the three and nine months ended September 28, 2008 we granted to Directors 83,684 and 118,167 options respectively with a Black-Scholes value of \$10.06 per option which vest quarterly beginning on the date of grant and each quarter thereafter for the year following the most recent annual meeting of stockholders. The Black-Scholes assumptions used for this calculation were as follows, except for the Directors where we use an expected life in years of 6.59.

	Three	Nine
	months	months
	ended	ended
Fair value assumptions	September	28, 2008
Expected life in years	4.72	4.73
Expected volatility	43.56%	41.02%
Annual rate of dividends	0%	0%
Discount rate - bond equivalent yield	3.18%	3.13%

Our accumulated other comprehensive income (loss) comprised the following (thousands of dollars):

	September 28, 2008			cember
	<u>ل</u>		ر م	,
Foreign currency translation adjustment, net of tax	\$	5,940	\$	8,842
Unamortized benefit plan costs, net of tax		(13,555)		(7,884)

8. Segment Reporting

We design, develop, manufacture, integrate, sell, resell and service wired and wireless automated identification and data collection ("AIDC") products, which include radio frequency identification ("RFID") products, wired and wireless AIDC products, mobile computing products, barcode scanners, wired and wireless bar code printers and label media products. Our revenue also comes from license fees and royalty revenue from our intellectual property licenses. Our reportable segments comprise products and services. The product segment generates revenue from the design, development, manufacture, sale and resale of AIDC products, including RFID products and intellectual property licenses related to the products and to systems integration.

The accounting policies of our two reportable segments are the same as those used to prepare our condensed consolidated financial statements. Performance and resource allocation are primarily measured by sales and standard gross profit. All other earnings, costs and expenses are aggregated and reported on a consolidated basis.

ScanSource, Inc., one of our distributors, accounted for sales of \$31.0 million and \$80.1 for the three and nine months ended September 28, 2008, and \$29.7 million and \$70.7 million for the three and nine months ended September 30, 2007, respectively.

The following table sets forth our operations by reportable segment (millions of dollars):

Revenues:	Sep	hree Mor tember , 2008	Sep	Ended otember , 2007	Se	Nine Mon ptember 8, 2008	Se	Ended ptember 0, 2007

Service	38.7	36.8	113.7	115.2
Total	\$ 234.4	\$ 206.0	\$ 669.4	\$ 595.8

9. Commitments and Contingencies

Provisions for estimated expenses related to product warranties are made at the time products are sold. These estimates are established using historical information on the nature, frequency, and average cost of warranty claims. We actively study trends of warranty claims and take action to improve product quality and minimize warranty claims. The following table indicates the change in our warranty accrual included in current liabilities (thousands of dollars):

	1	Nine Mon	ths E	nded	
	Sep	otember	Sep	tember	
	28	3, 2008	30	0, 2007	
Beginning Balance	\$	4,482	\$	6,800	
Payments		(904)		(3,234)	
Increase in liability (new warranties issued)		1,813		2,297	
Ending Balance	\$	5,391	\$	5,863	

We have entered into a variety of agreements with third parties that include indemnification clauses, both in the ordinary course of business and in connection with our divestitures of certain product lines. These clauses require us to compensate these third parties for certain liabilities and damages incurred by them.

FASB Interpretation No. 45, "Guarantors' Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," requires that we estimate and record the fair value of guarantees as a liability. We do not believe that we have any significant exposure related to such guarantees and therefore have not recorded a liability as of September 28, 2008, or December 31, 2007. We have not made any significant indemnification payments as a result of these clauses.

We currently, and from time to time, are subject to claims and lawsuits arising in the ordinary course of business. Such claims and lawsuits may take the form of counter claims in lawsuits we bring to enforce our rights. The ultimate resolution of currently pending proceedings is not expected to have a material adverse effect on our business, financial condition, results of operations or liquidity.

In June 2008, our Cedar Rapids, Iowa facilities were flooded, and we incurred damages to both a facility that we own and one that we lease. A portion of these damages was covered by insurance. While the flood caused significant damage, we were able to redirect the work done by our Cedar Rapids groups to temporary locations, and therefore the flood did not cause a significant interruption of our business. During the three and nine months ended September 28, 2008, we had \$5.1 million in clean up costs and property damages that were offset by \$4.0 million of insurance proceeds, for a net pre-tax charge of \$1.1 million.

10. Restructuring Charges

In July 2008, we committed to a business restructuring plan intended to reduce our cost structure and streamline operations. Pursuant to this plan, we will relocate the final assembly of our product lines from Everett, Washington, to Venture Corporation Limited, a global electronics services provider. As part of the plan we will also consolidate two U.S. service depots to existing locations in Charlotte, North Carolina, and Monterey, Mexico, and transfer our on-site field service repair to a third party supplier. We expect the plan to be fully implemented by June 30, 2009.

As of September 28, 2008, 55 employees have been terminated as part of the restructuring. All severance and other periodic transitional costs will be cash expenditures. Our remaining future expected costs are \$0.2 million for employee termination and \$ 0.8 million for other costs. The aggregate costs incurred to date are presented in restructuring costs in the Condensed Consolidated Statement of Operations and are itemized along with expected additional costs in the table below:

In millions of dollars	SF	AS 112 (1)	SI	FAS 146 (2)	nployee nination	Ot	her costs	res	Total structuring

Net pension and postretirement periodic benefit cost (credit)	\$	1,853	\$	4,818	\$	(841)	\$	(408)	\$	132	\$	132

During the quarter ended September 28, 2008, we contributed approximately \$3.1 million to our pension and other postretirement benefit plans, comprising \$1.8 million in benefits paid pertaining to unfunded U.S. defined benefit plans, \$0.7 million in matching contributions to our 401(k) plan, and \$0.6 million in contributions to our foreign pension plans.

Our business restructuring plan (see Note 10) resulted in a reduction of our workforce and the curtailment of pension benefits to the redundant employees who were participants in the U.S. pension plan. In accordance with SFAS No.

88, "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits" ("SFAS 88"), the curtailment required a new measurement date to determine the gain or loss on curtailment. Additionally, the measurement resulted in a decrease in asset value of \$8.6 million and an increase in losses as a component of Accumulated Other Comprehensive Income.

During the nine months ended September 28, 2008, we contributed approximately \$8.7 million to our pension and other postretirement benefit plans, comprising \$4.6 million in benefits paid pertaining to unfunded U.S. defined benefit plans, \$2.3 million in matching contributions to our 401(k) plan, and \$1.8 million in contributions to our foreign pension plans. Benefits paid pertaining to our other postretirement benefit plans were not material during the three and nine month periods ended September 28, 2008. We expect to contribute approximately \$3.0 million to these plans during the remainder of 2008, of which \$1.7 million relates to benefit payments on our unfunded U.S. defined benefit plans, \$0.6 million in matching contributions to our 401(k) plan, \$0.6 million in contributions to our foreign pension plans and \$0.1 million in benefit payments pertaining to our other postretirement benefit plans.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements and Risk Factors

Forward-looking statements contained in this filing are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995 (alternatively: Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934) and are dependent upon a variety of important factors that could cause actual results to differ materially from those reflected in such forward-looking statements.

Forward-looking statements include but are not limited to statements about: maintaining or improving our revenues, gross margins or profits of our continuing operations, for the current period or any future period; competing effectively with our current products and planned products, and introducing new products; effectively completing restructuring activities, including the closure of certain facilities and redeployment of related functions; maintaining or reducing expenses; maintaining or improving operational efficiency; increasing product development capacity; using our investment in research and development to generate future revenue; and the applicability of accounting policies used in our financial reporting. When used in this document and in documents it references, the words "anticipate," "believe," "will," "intend," "project" and "expect" and similar expressions as they relate to Intermec or our management are intended to identify such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or any other reason after the date of this quarterly report.

Forward-looking statements involve and are dependent upon certain risks and uncertainties and are not guarantees of future performance. A number of factors can impact our business and determine whether we can or will achieve any forward-looking statement made in this report. Any one of these factors could cause our actual results to differ materially from those expressed or implied in a forward-looking statement. We outline these risk factors in reports that we file with the SEC, in press releases and on our website, www.intermec.com. You are encouraged to review the discussion below in this Part I, "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations," as well as the Risk Factors set forth in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2007, and the Risk Factors set forth in Part II, "Item 1A. Risk Factors" of our Quarterly Reports on Form 10-Q which discuss risk factors associated with our business.

Results of Operations

The following discussion compares our results of operations for the three and nine months ended September 28, 2008, and September 30, 2007. Results of operations and percentage of revenues were as follows (millions of dollars):

	Т	Three Mor	nths E	Ended		Nine Mon	nded

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Revenues

Revenues by category and geographic region and as a percentage of total revenues from continuing operations for the three and nine months ended September 28, 2008, and September 30, 2007, as well as the same three and nine month's revenue changes were as follows (millions of dollars):

			Three Month	s Er	nded			
		September : Amount	Change	Percentage Change				
Revenues by produce line:	ct							
Systems and			62.1%					
solutions	\$	145.5		\$	118.4	57.5%\$	27.1	22.9%
Printer and media		50.2	21.4%		50.8	24.6%	(0.6)	(1.3%)
Service		38.7	16.5%		36.8	17.9%	1.9	5.1%
Total revenues	\$	234.4	100.0%	\$	206.0	100.0%\$	28.4	13.8%
Revenues by geographic region:								
North America	\$	129.1	55.1%	\$	100.8	48.9%\$	28.4	28.1%
Europe, Middle Eas and Africa	st							
(EMEA)		78.1	33.3%		74.2	36.0%	3.8	5.1%
All others		27.2	11.6%		31.0	15.1%	(3.8)	(12.3%)
Total revenues	\$	234.4	100.0%	\$	206.0	100.0%\$	73.6	13.8%

Total revenue increased \$28.4 million, or 13.8% for the three months ended September 28, 2008 compared to the prior year period, as a result of a \$26.5 million increase in product revenue and a \$1.9 increase in service revenue. The increase in product revenue was attributable to a \$27.1 million increase in systems and solution products, primarily as a result of revenue growth in North America. The \$0.6 million decline in printer and media product revenue is due to lower printer revenue in Latin America, partially offset by revenue growth in EMEA (Europe, Middle East and Africa). Sequentially, total revenue increased 7.4% from the second quarter of 2008, primarily from the increase in product revenue and modest growth in service revenue.

The increase in quarterly service revenues of \$1.9 million, or 5.1%, is primarily attributable to a 16.7% increase in EMEA as a result of improved pricing and the impact of favorable foreign currency exchange rates compared to the prior year period. North America service revenue was relatively flat, while the rest of the world experienced 8.2% growth on a relatively smaller base.

Geographically, revenues in North America and EMEA increased \$28.4 million, or 28.1%, and \$3.8 million, or 5.1%, respectively, over the corresponding prior-year period. The increase in North America was primarily attributable to increased hardware demand for handheld computers, particularly from governmental agencies. The changes in foreign currency conversion rates favorably impacted EMEA revenue by \$3.7 million in the third quarter of 2008, as

compared to the prior year period.

In the three months ended September 28, 2008, we observed longer purchase decision-making time frames among large enterprise customers. Thus far, this appears to have resulted in a delay, rather than a cancellation, of some customer projects. We believe that customers in our target markets will continue to invest in projects intended to enhance mobile worker productivity but they may subject these projects to closer scrutiny and longer decision-making processes, in response to uncertainty in the general economic outlook.

17

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

			Nine Month	ns Ended			
		September	28, 2008 Percent of Revenues		ber 30, 2007 Percent of Revenues	Change	Percentage Change
Revenues by product line:	A	mount	Revenues	Amount	Revenues		
Systems and solutions	\$	400.7	59.9%	\$ 329	.5 55.3%	\$ 71.2	21.6%
Printer and media		155.0	23.1%	151	.1 25.4%	3.9	2.5%
Service		113.7	17.0%	115	.2 19.3%	(1.5)	(1.3%)
Total revenues	\$	669.4	100.0%	\$ 595	.8 100.0%	\$ 73.6	12.3%
Revenues by geographic region:							
North America	\$	355.8	53.1%	\$ 299	.8 50.4%	\$ 56.0	18.7%
Europe, Middle East and Africa							
(EMEA)		232.0	34.7%	205	.8 34.5%	26.3	12.8%
All others		81.6	12.2%	90	.2 15.1%	(8.7)	(9.6%)
Total revenues	\$	669.4	100.0%	\$ 595	.8 100.0%	\$ 73.6	12.3%

Total revenue for the nine months ended September 28, 2008, increased \$73.6 million, or 12.3%, due to a \$75.1 million, or 24.1%, increase in product revenues, partially offset by \$1.5 million, or 1.3%, decrease in service revenues. The increase in product revenues was due to the \$71.2 million increase in systems and solution products and a \$3.9 million increase in printer and media products. The product revenue growth is primarily a result of the 18.7% growth in North America and 12.8% growth in EMEA. New product introductions continue to drive increased hardware demand in both regions. Product revenue for the rest of the world decreased 9.6%, primarily due to lower revenue in Latin America.

The decrease in nine month service revenues of \$ 1.5 million, or 1.3%, was primarily attributable to the slightly lower contract revenue in the first quarter ended March 30, 2008, combined with lower year-to-date custom software and break fix time and material revenues.

Geographically, revenues in North America and EMEA increased \$56 million, or 18.7%, and \$26.3 million, or 12.8%, respectively, over the corresponding prior-year period. The increases were primarily attributable to increased hardware demand in both regions, with new product introductions driving a majority of the growth. The changes in foreign currency conversion rates favorably impacted EMEA revenue by \$19.0 million for the nine months ended September 28, 2008, as compared to the prior year period.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Gross Profit

Gross profit and gross margin by revenue category for the three and nine months ended September 28, 2008 and September 30, 2007, were as follows (millions of dollars):

Total gross profit												
and gross margin	\$	91.7	39.1%	\$	78.1	37.9%	\$	267.9	40.0%	\$	223.8	37.6%
Service Total gross profit		75.8 15.9	38.7% 41.1%	\$	63.7 14.4	37.6% 39.1%	\$	219.9 48.0	39.6% 42.3%	\$	174.2 49.6	36.2 43.0

The total gross profit for the three and nine months ended September 28, 2008, increased by \$13.6 million and \$44.1 million, respectively, compared to the corresponding prior year periods. The increases are attributable to product revenue growth in the North America and EMEA regions, as well as improvements in product gross margins in the respective periods. The increase in product gross margins is primarily due to new product introductions, favorable manufacturing absorption on higher volumes and product cost reductions.

Service gross profit increased \$1.5 million for the three months ended September 28, 2008 compared to the prior year period, primarily due to the increase in revenue. The cost reductions as a result of the restructuring activities were partially offset by transition-related costs in the period. The decrease in service gross profit of \$1.6 million for the nine months ended September 28, 2009 compared to the corresponding 2007 period is primarily due to the lower revenue in the first half of 2008.

Research and Development

Research and development costs for the three and nine months ended September 28, 2008 and September 30, 2007, were as follows (millions of dollars):

		Th	ree M	Ionths end	ded	Nine Months ended							
					C	Change						Change	
	September			September		from prior		September		September		from prior	
	28, 2008		30, 2007		year		28, 2008		30, 2007		year		
Research and development													
expense	\$	15.0	\$	16.0	\$	(1.0)	\$	48.7	\$	49.0	\$	(0.3)	

The total research and development ("R&D") expense was \$15.0 million and \$48.6 million for the three and nine months ended September 28, 2008, respectively, compared with R&D expense of \$16.0 million and \$49.0 million for the corresponding prior-year periods. R&D expense for the current quarter includes a \$1.4 million credit recorded for the reimbursement of certain R&D expenses under a foreign grant program that became realizable in the quarter.

Selling, General and Administrative

Selling, General and Administrative costs for the three and nine months ended September 28, 2008 and September 30, 2007, were as follows (millions of dollars):

		Th	ree N	Months end	ded		Nine Months ended						
											(Change	
	September			September		Change from		September		September		from prior	
	28	$2\hat{8},2008$		30, 2007		prior year		28, 2008		30, 2007	year		
Selling, general and													
administrative expense	\$	57.3	\$	57.6	\$	(0.3.)	\$	175.4	\$	162.9	\$	12.5	

The total selling, general and administrative ("SG&A") expense was \$57.3 million and \$175.4 million for the three and nine months ended September 28, 2008, respectively, compared with SG&A expense of \$57.6 million and \$162.9 million for the corresponding prior-year period. The increase in SG&A expense in the third quarter of 2008 is primarily related to the impact of international costs translated to US dollars at less favorable exchange rates. The third quarter of 2007 SG&A expense included approximately \$2.0 million of other operating gains. The higher costs for the nine month period in 2008 is primarily related to the impact of international costs translated to US dollars at less favorable exchange rates at less favorable exchange rates than in the same period of 2007, higher information systems expense as a result of our ERP upgrade, higher selling and marketing costs, and higher labor costs, partially offset by a \$2.9 million gain from the sale of property in the second quarter of 2008.

19

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Flood related charges

In June 2008, our Cedar Rapids, Iowa facilities were flooded, and we incurred damages to both a facility that we own and one that we lease. A portion of these damages was covered by insurance to the extent reasonable. While the flood caused significant damage, we were able to redirect the work done by our Cedar Rapids groups to temporary locations, and therefore the flood did not cause a significant interruption of our business. During the three and nine months ended September 28, 2008, we had \$5.1 million in clean up costs and property damages that were offset by \$4.0 million of insurance for a net pre-tax charge of \$1.1 million.

Interest, Net

Interest income, net of interest expense for the three and nine months ended September 28, 2008 and September 30, 2007, was as follows (millions of dollars):

		Th	ee M	onths en	ded	Nine Months ended						
	Sept	ember	Sep	otember	Chang	e from	Sep	tember	Sep	tember	Change from	
	28,	2008	30, 2007		prior year		28, 2008		30, 2007		prior year	
Interest income, net	\$	0.7	\$	0.7	\$	-	\$	1.4	\$	1.1	\$	0.3

Net interest income was \$0.7 million and \$1.4 million for the three and nine months ended September 28, 2008, compared to net interest income of \$0.7 million and \$1.1 million for the corresponding prior-year period.

Restructuring

In July 2008, we committed to a business restructuring plan intended to reduce our cost structure and streamline operations. Pursuant to this plan, we will relocate the final assembly of our product lines from Everett, Washington, to Venture Corporation Limited, a global electronics services provider. As part of the plan we will also consolidate two U.S. service depots to existing locations in Charlotte, North Carolina, and Monterey, Mexico, and transfer our on-site field service repair to a third party supplier. We expect the plan to be fully implemented by June 30, 2009.

As of September 28, 2008, 55 employees have been terminated as part of the restructuring. All severance and other periodic transitional costs will be cash expenditures. Our remaining future expected costs are \$0.2 million for employee termination and \$ 0.8 million for other costs. The aggregate costs incurred to date are presented in restructuring costs in the Condensed Consolidated Statement of Operations and are itemized along with expected additional costs in the table below:

In millions of dollars	SFA	AS 112	SFA	AS 146	Employ terminati		Otł	ner costs	res	Total tructuring
Total Restructuring										
Original restructuring charge, Third quarter										
of 2008	\$	2.7	\$	0.6	\$	3.0	\$	0.3	\$	3.3
Utilization		(0.6)		-	(0.6)		(0.3)		(0.9)
Balance at September 28, 2008	\$	2.1	\$	0.6	\$	2.4	\$	-	\$	2.4
Utilization by segment										

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Provision for Income Taxes

The provision for income taxes for the three and nine months ended September 28, 2008 and September 30, 2007, was as follows (millions of dollars):

		Th	ee M	Ionths en	ded		Nine Months ended						
	Sept	tember	Se	ptember	Chan	ge from	Sej	otember	Sep	otember	Change from		
	28, 2008		30, 2007		prior year		28, 2008		30, 2007		prior year		
Provision for income taxes	\$	5.8	\$	0.8	\$	5.0	\$	14.4	\$	5.1	\$	9.3	

The tax expense for the three and nine months ended September 28, 2008, reflects an effective tax rate for continuing operations of 34.5% and 35.3%, respectively, compared to a U.S. statutory rate of 35%. In the third quarter of 2008, we recorded tax benefits which decreased our Q3 effective tax rate 1.7% for a foreign tax refund and adjustments pertaining to our 2007 tax returns filed this quarter. These rates reflect our recurring estimated effective tax rate of approximately 37% for fiscal year 2008, which excludes the impact of discrete items.

The tax expense for the three and nine months ended September 30, 2007, reflects an effective tax rate for continuing operations of 16.2% and 39.3%, respectively, compared to a U.S. statutory rate of 35%. In the third quarter of 2007, the tax provision was decreased to record benefits primarily resulting from certain changes in foreign and state tax law and for deferred taxes related to tax amortizable goodwill. These rates reflect our recurring estimated effective tax rate of approximately 36% for fiscal year 2007, which excludes the impact of discrete items.

21

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Liquidity and Capital Resources

Cash, cash equivalents and short-term investments as of September 28, 2008, totaled \$202.1 million, compared to \$265.5 million as of December 31, 2007. Operating activities for the nine months ended September 28, 2008 provided \$38.3 million of cash flow, primarily resulting from customer receipts exceeding billings by \$40.7 million and \$12.1 million from teh utilization of deferred tax assets, partially offset by a decrease in accounts payable of \$38.3 million and increased inventory of \$12.0 million. Investing activities for the nine months ended September 28, 2008, provided \$20.5 million related primarily to the sale of investments totaling \$28.5 million. Financing activities for the nine months ended September 28, 2008, used \$92.7 million, primarily for the \$100 million debt repayment in March, 2008.

Net of outstanding letters of credit and limitations on minimum availability, we had borrowing capacity at September 28, 2008, of \$46.9 million under the Revolving Facility. We made no borrowings under the Revolving Facility during the third quarter of 2008, and as of September 28, 2008, no borrowings were outstanding under the Revolving Facility. As of September 28, 2008, we were in compliance with the financial covenants of the Revolving Facility.

The key terms of the Revolving Facility are as follows:

- Loans will bear interest at a variable rate equal to (at our option) (i) LIBOR plus the applicable margin, which ranges from 0.60% to 1.00%, or (ii) the Bank's prime rate, less the applicable margin, which ranges from 0.25% to 1.00%. If an event of default occurs and is continuing, then the interest rate on all obligations under the Revolving Facility may be increased by 2.0% above the otherwise applicable rate, and the Bank may declare any outstanding obligations under the Revolving Facility to be immediately due and payable.
- A fee ranging from 0.60% to 1.00% on the maximum amount available to be drawn under each letter of credit that is issued and outstanding under the Revolving Facility will be required. The fee on the unused portion of the Revolving Facility ranges from 0.125% to 0.20%.
- Certain of our domestic subsidiaries have guaranteed the Revolving Facility.
- The Revolving Facility contains various restrictions and covenants, including restrictions on our ability and the ability of our subsidiaries to consolidate or merge, make acquisitions, create liens, incur additional indebtedness or dispose of assets.
- Financial covenants include a Maximum Leverage test and a Minimum Tangible Net Worth test, each as defined in the Revolving Facility.

Management believes that cash and cash equivalents on hand, combined with projected cash flow from operations and available borrowings under our Revolving Facility will be sufficient to fund our operations, research and development efforts, anticipated capital expenditures, liabilities, commitments, and other capital requirements, for at least the next twelve months.

Contractual Obligations

Our contractual commitments as of September 28, 2008, have not changed materially from those disclosed in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2007.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to foreign exchange rate risk with respect to our foreign operations and from foreign currency transactions.

Due to our global operations, our cash flows and earnings are exposed to foreign exchange rate fluctuations. When appropriate, we may attempt to limit our exposure to changing foreign exchange rates by entering into short-term foreign currency exchange contracts.

Except as noted in the preceding paragraph, as of September 28, 2008, there have been no material changes from the information provided in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2007, which contains a complete discussion of our material exposures to interest rate and foreign exchange rate risks.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures, which are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, as appropriate to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of management, including the CEO and CFO, an evaluation was performed on the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this quarterly report. Based on that evaluation, management, including the CEO and CFO, concluded that our disclosure controls and procedures were effective as of September 28, 2008.

An evaluation was also performed under the supervision and with the participation of management, including the CEO and CFO, of any change in our internal controls over financial reporting that occurred during the last fiscal quarter and that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting. That evaluation did not identify any change in our internal controls over financial reporting that occurred during the latest fiscal quarter and that has materially affected, or is reasonably likely to materially likely to materially affect, our internal controls over financial reporting that occurred during the latest fiscal quarter and that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We currently, and from time to time, are subject to claims and lawsuits arising in the ordinary course of business. Such claims and lawsuits may take the form of counter claims in lawsuits we bring to enforce our rights. The ultimate resolution of currently pending proceedings is not expected to have a material adverse effect on our business, financial condition, results of operations or liquidity.

ITEM 1A. RISK FACTORS

You are encouraged to review the discussion of Forward Looking Statements and Risk Factors appearing in this report at Part I, "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations."

In addition to the other information set forth in this Report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2007, and the factors discussed in Part II, Item 1A, "Risk Factors" in our Quarterly Report on Form 10-Q for the quarter ended March 30, 2008 (the "First Quarter Form 10-Q"), which could materially affect our business, financial condition or operating results. The risks described in our Annual Report on Form 10-K for the year ended December 31, 2007, and in the First Quarter Form 10-Q are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or operating results.

The risk factor included in the Annual Report on Form 10-K for the year ended December 31, 2007 under the caption "Macroeconomic conditions beyond our control could lead to decreases in demand for our products, reduced profitability or deterioration in the quality of our accounts receivable" is restated in its entirety as follows:

Ÿ Macroeconomic conditions beyond our control could lead to decreases in demand for our products, reduced profitability or deterioration in the quality of our accounts receivable. Domestic and international political and economic conditions are uncertain due to a variety of factors, including

- global, regional and national economic downturns;
 - the availability and cost of credit;
 - volatility in stock and credit markets;
 - energy costs;
 - fluctuations in currency exchange rates;
 - the risk of global conflict;
- the risk of terrorism and war in a given country or region; and
 - public health issues.

Our business depends on our customers' demand for our products and services, the general economic health of current and prospective customers, and their desire or ability to make technology capital expenditures. A deterioration of global political or economic conditions or in a given country or region could affect potential customers in a way that reduces demand for our products and disrupts our manufacturing and sales plans. Changes in foreign currency exchange rates may negatively impact reported revenue and/or expenses. In addition, our sales are typically made on unsecured credit terms that are generally consistent with the prevailing business practices in the country in which the customer is located. A deterioration of political or economic conditions in a given country or region could reduce or eliminate our ability to collect on accounts receivable in that country or region. In any of these events, our results of operations could be materially and adversely affected. The risk factor included in the First Quarter Form 10-Q under the caption "Our use of third-party suppliers and distributors could adversely affect our business and financial results" is deleted and replaced by the following three risk factors:

Ÿ On July 10, 2008, we announced our plan to streamline our supply chain by having Venture Corporation Limited ("Venture") perform the final assembly of our product lines at various locations in Asia. Accordingly, we will be dependent on Venture for the manufacture of substantially all of our products and any failure or inability of Venture to provide its manufacturing services to us would adversely affect our business. In relying on Venture to assemble our products, we will no longer have direct physical control over the manufacturing process and operations. This might adversely affect our ability to control the quality of our products and the timeliness of their delivery to our customers. Either of those adverse conditions could negatively affect our customer relationships and our revenues. Furthermore, Venture's access to our intellectual property could possibly increase the risk of infringement or misappropriation of our assets by a third party.

If Venture were unable to manufacture our products at one or more of its facilities for any extended period, we would be required to obtain alternative sources of manufacturing. There is no assurance that any such sources would be available in a timely manner or at comparable cost. Any such interruption of Venture's manufacturing capabilities could increase our costs, impair our ability to provide our customers with our products in a timely and efficient manner and adversely affect our customer relationships and our financial results.

Finally, the transition of our manufacturing to foreign jurisdictions could also result in operational risk as well as customer concerns regarding product quality and delivery schedules during the transition period. We expect to complete the transition by the end of the second quarter of 2009. However, completion of the transition could be delayed by foreign or U.S. regulatory requirements or other unforeseen events. If the transition is inefficient or delayed, our sales and income could be adversely affected. 24

ITEM 1A. RISK FACTORS (continued)

Ÿ Venture's use of third-party suppliers could adversely affect our product quality, delivery schedules or customer satisfaction, any of which could have an adverse effect on our financial results. Third-party suppliers that we approve will be providing the components that Venture will use in the final assembly of our products. Some of these components may be available only from a single source or limited sources, and if they become unavailable for any reason, we or Venture may be unable to obtain alternative sources of supply on a timely basis. Our products may also be adversely affected by the quality control of these third-party suppliers or by their inability to meet delivery deadlines. Failure of these third-party suppliers in any of these respects may negatively affect our revenue and customer relationships. Furthermore, these suppliers may have access to our intellectual property, which may increase the risk of infringement or misappropriation.

Ÿ Our reliance on third-party distributors could adversely affect our business, revenues and earnings. In addition to offering our products to certain customers and resellers directly, we rely to a great degree on third-party distributors and integrators to sell our products to end-users. In 2006 and 2007, one distributor, ScanSource, Inc., accounted for more than 10% of our sales, and it or other distributors may account for a substantial portion of our sales in the future. Changes in markets, customers or products may adversely affect the ability of these distributors to effectively bring our products to market at the right time and in the right locations. In addition, if a significant distributor, such as ScanSource, were to become unavailable or substantially reduce its purchases from us, we would be required to obtain alternative sources of distribution or enhance our internal sales force. Such a disruption in the distribution of our products could impair or delay sales of our products to end users and increase our costs of distribution, which could adversely affect our sales and income.

The risk factor included in the Annual Report on Form 10-K for the year ended December 31, 2007 under the caption "Fluctuations in currency exchange rates may adversely impact our cash flows and earnings" is restated in its entirety as follows:

Ÿ Fluctuations in currency exchange rates may adversely impact our cash flows and earnings. Due to our global operations, our cash flow, revenue and earnings are exposed to currency exchange rate fluctuations. Our international sales our typically quoted, billed and collected in the customer's local currency, and therefore exposed to changes in exchange rates. Our product costs are largely denominated in U.S. dollars, and as such, do not significantly change with exchange rate fluctuations. Exchange rate fluctuations may also affect the cost of goods and services that we purchase and personnel we employ. When appropriate, we may attempt to limit our exposure to exchange rate changes by entering into short-term currency exchange contracts. There is no assurance that we will hedge or will be able to hedge such foreign currency exchange risk or that our hedges will be successful.

Our currency exchange gains or losses (net of hedges) may materially and adversely impact our cash flows and earnings. Additionally, adverse movements in currency exchange rates could result in increases in our cost of goods sold or reduction in growth in international orders, materially impacting our cash flows and earnings.
