NOTES TO FINANCIAL STATEMENTS: Interim financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the periods. The December 31, 2003, balance sheet has been derived from the audited financial statements. These interim financial statements conform with the requirements for interim financial statements and consequently do not include all the disclosures normally required by generally accepted accounting principles.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

The Company has not engaged in any material operations in the period ending March 31, 2004, or since before approximately 1989. The Company intends to continue to seek out the acquisition of assets, property or business that may be beneficial to the Company and its stockholders.

The Company's only foreseeable cash requirements during the next 12 months will relate to maintaining the Company in good standing in the State of Utah, keeping its reports "current" with the Securities and Exchange Commission or the payment of expenses associated with reviewing or investigating any potential business venture. Management does not anticipate that the Company will have to raise additional funds during the next 12 months, however, if additional moneys are needed, they may be advanced by management or principal stockholders as loans to the Company. Because the Company has not identified any such venture as of the date of this Report, it is impossible to predict the amount of any such loan. However, any such loan will not exceed \$25,000 and will be on terms no less favorable to the Company than would be available from a commercial lender

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10QSB

in an arm's length transaction. As of the date of this Report, the Company has not begun seeking any acquisition.

Results of Operations.

The Company has had no operations during the quarterly period ended March 31, 2004, or since on or before approximately 1989. During the quarterly period covered by this Report, the Company received no revenue and incurred expenses of \$214, stemming from general and administrative expenses.

Liquidity

At March 31, 2004, the Company had total current assets of \$0 and total liabilities of \$9,918.

Controls and Procedures.

An evaluation was performed under the supervision and with the participation of the Company's management, including the President and Treasurer, regarding the effectiveness of the design and operation of the Company's disclosure controls and procedures within 90 days before the filing date of this quarterly report. Based on that evaluation, the Company's management, including the President and Treasurer, concluded that the Company's disclosure controls and procedures were effective. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to their evaluation.
