PATHFINDER BANCORP, INC. ANNOUNCES THIRD QUARTER EARNINGS

Oswego, New York, November 9, 2005 Pathfinder Bancorp, Inc., the mid-tier holding company of Pathfinder Bank, (NASDAQ SmallCap Market; symbol: PBHC, listing: PathBcp) reported net income of \$116,000, or \$0.05 per share, for the three months ended September 30, 2005 as compared to \$360,000, or \$0.15 per share for the same period in 2004. For the nine months ended September 30, 2005, the Company reported net income of \$499,000, or \$0.20 per share, compared to \$1.2 million, or \$0.50 per share, for the same period in 2004.

"The Company continues to experience disappointing earnings resulting primarily from net interest rate spread compression combined with higher expenses associated with an expanding branch and delivery network," according to Thomas W. Schneider, President and Chief Executive Officer. "Net interest rate spread

Edgar Filing: PATHFINDER BANCORP INC - Form 8-K

decreased to 3.06% compared to 3.17% a year earlier, as deposit costs have risen faster than earnings on loans and securities," Schneider continued. "Additionally, the write down of an equity holding reduced earnings by \$116,000, or \$0.05 per share.

"Although volume increases in deposits and loans have not offset the margin compression during the first nine months of the year, deposit growth in our new Central Square branch and our commercial loan pipeline are both well ahead of fourth quarter budget," according to Schneider. "We remain positive that a stabilizing net interest margin, a relatively solid growth outlook, and implementation of cost reduction measures will improve earnings significantly as we move into 2006."

Net interest income for the quarter ended September 30, 2005 decreased slightly when compared to the same period during 2004. Interest expense increased \$235,000, or 17%, offset by an increase in interest income of \$234,000, or 7%. Net interest rate spread decreased to 3.06% for the third quarter of 2005 from 3.17% for the same period in 2004. Average interest-earning assets increased 3% to \$279.6 million in the quarter ended September 30, 2005 as compared to \$271.6 million in the quarter ended September 30, 2004, while the yield on those assets increased 21 basis points to 5.54% compared to 5.33% for the same period in 2004. The increase in average earning assets is primarily attributable to an \$11.3 million increase in investment securities, and a \$2.2 million increase in loans, partially offset by a \$5.5 million decrease in interest-earning deposits. Average interest-bearing liabilities increased \$4.6 million, and the cost of

funds increased 33 basis points to 2.49% from 2.16% for the same period in 2004. The increase in the average balance of interest-bearing liabilities resulted primarily from a \$7.0 million, or 17.2%, increase in borrowed funds, partially offset by a \$2.4 million decrease in deposits.

Provision for loan losses for the quarter ended September 30, 2005 decreased 19% to \$91,000 from \$112,000 for the same period in 2004. The Company's ratio of allowance for loan losses to period end loans has decreased to 0.97% at September 30, 2005 from 0.98% at December 31, 2004. Nonperforming loans to period end loans have decreased to 0.88% at September 30, 2005, compared to 0.99% at December 31, 2004. Overall asset quality has improved significantly over the past two years through a combination of tightened credit administration and more robust collection activities.

Non-interest income, net of gains and losses from the sale of securities, loans and foreclosed real estate, increased 19% to \$599,000 for the quarter ended September 30, 2005 compared to \$502,000 for the same period in the prior year. The increase in non-interest income is primarily attributable to a \$105,000 increase in service charges on deposit accounts, partially offset by a decrease of \$5,000 in loan servicing fees and a \$4,000 decrease in the earnings on bank owned life insurance. Net gains and losses from the sale of securities, loans and foreclosed real estate decreased \$363,000 and resulted in a net loss from these activities of \$150,000 for the quarter ended September 30, 2005 compared to a \$213,000 gain for the same period in the prior year. An equity holding in the Federal National Mortgage Association has been deemed to be other than temporarily impaired and a charge to earnings was taken to write the security down to its current market value. The total charge off on this issue was \$193,000, which resulted in a \$116,000 reduction in third quarter earnings, net of taxes.

Operating expenses increased 8% to \$2.5 million for the quarter ended September 30, 2005 compared to \$2.3 million for the quarter ended September 30, 2004. During the third quarter of 2005, salary and employee benefits, building occupancy, data processing expenses and professional and other services increased \$89,000, \$17,000, \$66,000 and \$19,000, respectively. These increases

Edgar Filing: PATHFINDER BANCORP INC - Form 8-K

were offset by a \$19,000 decrease in other operating expenses. The increase in salaries and employee benefits was primarily due to the salaries and benefits associated with the personnel at the new Central Square branch combined with the hiring of a Business Development Officer. The increase in building occupancy expenses was primarily due to operating costs associated with the new Central Square branch. The increase in data processing expenses was primarily due to software purchases and related annual maintenance charges, along with increased check processing charges. The increase in professional and other services primarily resulted from costs associated with advertising at the new Central Square branch.
