#### Item 5. Other Events and Required FD Disclosure.

On August 14, 2003, Aon Corporation filed its Form 10-Q for the quarterly period ending June 30, 2003. In footnote 2, "Accounting and Disclosure Changes," the anticipated impact of adopting Financial Accounting Standards Board (FASB) Statement No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*, in third quarter 2003 was discussed. At that time, Aon anticipated that going forward it would need to:

1. reclassify the Company's Redeemable Preferred Stock (\$50 million) and Capital Securities (\$702 million) (collectively, "the Securities") as liabilities
2. reclassify dividends paid on the Securities as interest expense

Edgar Filing: AON CORP - Form 8-K

3. record a cumulative adjustment to reflect the fair value of the Securities at July 1, 2003, which would result in a decrease in net income of \$73 million, or \$0.23 per share, and
4. record future changes in the fair value of the Securities as interest expense.

In an effort to clarify the Company's initial interpretation of the requirements of the new Statement, subsequent to filing the second quarter Form 10-Q, the Company held further discussions with its independent auditors, who, in turn, discussed matters related to #3 and #4 above with the FASB staff. Based on those discussions, it was determined that Aon's adoption of Statement No. 150 should result in the Securities being transferred to liabilities at their current carrying value at July 1, 2003. Therefore, net income will not be impacted by the initial adoption of Statement No. 150, nor will it be impacted by future changes in the fair value of the Securities.
