PROPOSAL

APPROVAL OF AMENDMENT TO RESTATED CERTIFICATE OF INCORPORATION

The stockholders will be requested at the Special Meeting to approve an amendment to the Company's Restated Certificate of Incorporation to increase the number of shares of common stock authorized for issuance by the Company from 99,000,000 to 189,000,000 shares. The Board approved amending the Certificate of Incorporation at its February 19, 2004 meeting, subject to stockholder approval. Pursuant to Delaware General Corporation Law Section 242(b)(1), the amendment must be approved by the affirmative vote of a majority of the shares of common stock entitled to vote thereon to become effective.

The Company's Restated Certificate of Incorporation currently authorizes the Company to issue a total of 99,000,000 shares of common stock. There are currently 68,000,000 shares of common stock outstanding, and approximately 9,000,000 additional shares of common stock have been reserved for issuance to directors, officers, employees and consultants under the Company's stock benefit plans and programs. This leaves only 22,000,000 shares of common stock available for future issuance by the Company, which the Board considers inadequate for ongoing general business purposes. The Company's Restated Certificate of Incorporation currently authorizes the Company to issue a total of 1,000,000 shares of preferred stock for which no increase is sought.

The additional common stock to be authorized by adoption of the amendment would have rights identical to the currently outstanding common stock of the Company. Adoption of the proposed amendment and subsequent issuances of common stock from the additional authorized shares would not affect the rights of the holders of currently outstanding common stock of the Company, except for effects that may be incidental to increasing the number of shares of the Company's common stock outstanding, such as dilution of the earnings per share and voting rights of current holders of common stock. If the amendment is adopted, it will become effective upon filing of a Certificate of Amendment of the Company's Restated Certificate of Incorporation with the Secretary of State of the State of Delaware.

The Board believes that the increase in the authorized number of shares of common stock is desirable to allow for a declaration of a two-for-one split of the Company's common stock, if such a stock split is determined to be desirable by the Board, and to provide greater flexibility to use capital stock for business and financial purposes in the future without further stockholder approval. Other purposes include, without limitation, raising capital, providing equity incentives to employees, officers or directors, establishing strategic relationships with other companies and expanding the Company's business or product lines through the acquisition of other businesses or products. Certain of these uses will require and are subject to further stockholder approvals, including such approvals as may be required for increasing shares of common stock available for issuance under the Company's omnibus stock plans.

The amendment would change the first paragraph of Article IV of the Company's Restated Certificate of Incorporation to read in full as follows:

The corporation shall be authorized to issue two classes of stock to be designated, respectively, "Common" and "Preferred." The total number of shares which this corporation shall have authority to issue shall be one hundred ninety million (190,000,000). The total number of shares of Common Stock shall be one hundred eighty-nine million (189,000,000) and the par value of each share of Common Stock shall be One Dollar (\$1). The total number of shares of Preferred Stock shall be one million (1,000,000) and the par value of each share of Preferred Stock shall be One Dollar (\$1).

STOCK OWNERSHIP**Beneficial Ownership of Certain Stockholders, Directors and Executive Officers**
