[PROSPECTUS SUPPLEMENT](#)  
(To Prospectus dated August 16, 2012)

**22,500,000 Shares**

## Common Stock

We are offering for sale 22,500,000 shares of our common stock.

Ares Capital Corporation is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments.

We are externally managed by our investment adviser, Ares Capital Management LLC, a wholly owned subsidiary of Ares Management LLC, a global alternative asset manager and a Securities and Exchange Commission ("SEC") registered investment adviser with approximately \$54 billion of total committed capital under management as of June 30, 2012. Ares Operations LLC, a wholly owned subsidiary of Ares Management LLC, provides the administrative services necessary for us to operate.

Our common stock is traded on The NASDAQ Global Select Market under the symbol "ARCC." On August 16, 2012, the last reported sales price of our common stock on The NASDAQ Global Select Market was \$17.42 per share. The net asset value per share of our common stock at June 30, 2012 (the last date prior to the date of this prospectus supplement on which we determined net asset value) was \$15.51.

**Investing in our common stock involves risks that are described in the "Risk Factors" section beginning on page 24 of the accompanying prospectus, including the risk of leverage.**

This prospectus supplement and the accompanying prospectus concisely provide important information about us that you should know before investing in our common stock. Please read this prospectus supplement and the accompanying prospectus before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at [www.arescapitalcorp.com](http://www.arescapitalcorp.com). The SEC also maintains a website at [www.sec.gov](http://www.sec.gov) that contains such information. The information on the websites referred to herein is not incorporated by reference into this prospectus supplement and the accompanying prospectus.

The underwriters have agreed to purchase the common stock from us at a price of \$16.55 per share, which will result in \$372,375,000 of proceeds to us before expenses. The underwriters may offer the shares of common stock from time to time for sale in one or more transactions on the NASDAQ Global Select Market, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices.

## Edgar Filing: ARES CAPITAL CORP - Form 497

The underwriters may also purchase up to an additional 3,375,000 shares of our common stock from us at the price per share set forth above within 30 days of the date of this prospectus supplement.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The shares will be ready for delivery on or about August 22, 2012.

**FORWARD-LOOKING STATEMENTS**

Some of the statements in this prospectus supplement and the accompanying prospectus constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this prospectus supplement and the accompanying prospectus involve a number of risks and uncertainties, including statements concerning:

our, or our portfolio companies', future business, operations, operating results or prospects;

the return or impact of current and future investments;

the impact of a protracted decline in the liquidity of credit markets on our business;

the impact of fluctuations in interest rates on our business;

the impact of changes in laws or regulations (including the interpretation thereof) governing our operations or the operations of our portfolio companies;

the valuation of our investments in portfolio companies, particularly those having no liquid trading market;

our ability to recover unrealized losses;

our ability to successfully invest any capital raised in this offering;

market conditions and our ability to access alternative debt markets and additional debt and equity capital;

our contractual arrangements and relationships with third parties;

Middle East turmoil and the potential for rising energy prices and its impact on the industries in which we invest;

the general economy and its impact on the industries in which we invest;

the uncertainty surrounding the strength of the U.S. economic recovery;

European sovereign debt issues;

the financial condition of and ability of our current and prospective portfolio companies to achieve their objectives;

Edgar Filing: ARES CAPITAL CORP - Form 497

our expected financings and investments;

our ability to successfully integrate any acquisitions;

the adequacy of our cash resources and working capital;

the timing, form and amount of any dividend distributions;

the timing of cash flows, if any, from the operations of our portfolio companies; and

the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments.

We use words such as "anticipates," "believes," "expects," "intends," "will," "should," "may" and similar expressions to identify forward-looking statements, although not all forward-looking statements include these words. Our actual results and condition could differ materially from those projected in the forward-looking statements for any reason, including the factors set forth in "Risk Factors" in the accompanying prospectus and the other information included in this prospectus supplement or the accompanying prospectus.

### Table of Contents

The forward-looking statements included in this prospectus supplement and the accompanying prospectus have been based on information available to us as of their respective dates, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

The forward-looking statements in this prospectus supplement and the accompanying prospectus are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933 (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act").

Table of Contents

**THE COMPANY**

*This summary highlights some of the information contained elsewhere in this prospectus supplement and the accompanying prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" in the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Except where the context suggests otherwise, the terms "we," "us," "our," "the Company" and "Ares Capital" refer to Ares Capital Corporation and its consolidated subsidiaries; "Ares Capital Management" and the "investment adviser" refer to Ares Capital Management LLC; "Ares Operations" and the "administrator" refer to Ares Operations LLC; and "Ares" refers to Ares Management LLC ("Ares Management") and its affiliated companies (other than portfolio companies of its affiliated funds).*

**Ares Capital**

Ares Capital, a Maryland corporation, is a specialty finance company that is a closed-end, non-diversified management investment company. We have elected to be regulated as a business development company, or a "BDC," under the Investment Company Act of 1940, as amended, and the rules and regulations promulgated thereunder, or the "Investment Company Act." We were founded on April 16, 2004, were initially funded on June 23, 2004 and completed our initial public offering on October 8, 2004. We are one of the largest BDCs with approximately \$5.8 billion of total assets as of June 30, 2012.

We are externally managed by our investment adviser, Ares Capital Management, a wholly owned subsidiary of Ares Management, a global alternative asset manager and an SEC registered investment adviser with approximately \$54 billion of total committed capital under management as of June 30, 2012. Our administrator, Ares Operations, a wholly owned subsidiary of Ares Management, provides the administrative services necessary for us to operate.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in U.S. middle-market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive. However, we may from time to time invest in larger companies. In this prospectus supplement, we generally use the term "middle-market" to refer to companies with annual EBITDA between \$10 million and \$250 million. As used herein, EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization.

We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. First and second lien senior loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. Mezzanine debt is subordinated to senior loans and is generally unsecured. Our investments in corporate borrowers generally range between \$30 million and \$400 million each, investments in the project finance/power generation sector generally range between \$10 million and \$200 million each and investments in the venture finance sector generally range between \$1 million and \$25 million each. However, the investment sizes may be more or less than these ranges and may vary based on our capital availability.

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments.

The proportion of these types of investments will change over time given our views on, among other things, the economic and credit environment in which we are operating. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential

Table of Contents

portfolio company substantially in excess of our final investment. In such situations, while we may initially agree to fund up to a certain dollar amount of an investment, we may subsequently syndicate a portion of such amount to third parties, such that we are left with a smaller investment than what was reflected in our original commitment. In addition to originating investments, we may also acquire investments in the secondary market.

The first and second lien senior loans in which we invest generally have stated terms of three to 10 years and the mezzanine debt investments in which we invest generally have stated terms of up to 10 years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, we may invest in loans and securities with any maturity or duration. The instruments in which we invest typically are not rated by any rating agency, but we believe that if such instruments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's Investors Service, lower than "BBB-" by Fitch Ratings or lower than "BBB-" by Standard & Poor's Rating Services), which is an indication of having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. Bonds that are rated below investment grade are sometimes referred to as "high yield bonds" or "junk bonds." We may invest without limit in debt or other securities of any rating, as well as debt or other securities that have not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage the current investment platform, resources and existing relationships with financial sponsors, financial institutions, hedge funds and other investment firms of Ares to provide us with attractive investment opportunities. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares has been in existence for more than 14 years and its senior partners have an average of over 22 years experience investing in senior loans, high yield bonds, mezzanine debt and private equity securities. The Company has access to the Ares staff of 231 investment professionals and 289 administrative professionals as of June 30, 2012 who provide assistance in accounting, finance, legal, compliance, operations, information technology and investor relations.

Since our initial public offering on October 8, 2004 through June 30, 2012, our realized gains have exceeded our realized losses by approximately \$101 million (excluding the one-time gain on our acquisition of Allied Capital Corporation on April 1, 2010 and gains/losses from the extinguishment of debt and other assets). For this same time period, our portfolio exits have resulted in an aggregate cash flow realized internal rate of return to us of approximately 14% (based on original cash invested of approximately \$5.4 billion and total proceeds from such exits of approximately \$6.5 billion). Approximately 73% of these exits resulted in an aggregate cash flow internal rate of return to us of 10% or greater. Internal rate of return is the discount rate that makes the net present value of all cash flows related to a particular investment equal to zero. Internal rate of return is gross of expenses related to investments as these expenses are not allocable to specific investments. Investments are considered to be exited when the original investment objective has been achieved through the receipt of cash and/or non-cash consideration upon the repayment of our debt investment or sale of an investment or through the determination that no further consideration was collectible and, thus, a loss may have been realized. These internal rates of return results are historical results relating to our past performance and are not necessarily indicative of future results, the achievement of which cannot be assured.

We and General Electric Capital Corporation and GE Global Sponsor Finance LLC (collectively, "GE") also co-invest through an unconsolidated vehicle, the Senior Secured Loan Fund LLC, which operates using the name "Senior Secured Loan Program" (the "SSLP"). The SSLP was initially formed in December 2007 to co-invest in first lien senior secured loans of middle-market companies. As of June 30, 2012, the SSLP had approximately \$7.7 billion of available capital, approximately \$5.4 billion in aggregate principal amount of which was funded as of June 30, 2012. At

Table of Contents

June 30, 2012, we had agreed to make available to the SSLP approximately \$1.5 billion, of which approximately \$1.1 billion was funded. The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with approval from a representative of each required). As of June 30, 2012, our investment in the SSLP was approximately \$1.1 billion at fair value (including unrealized appreciation of \$26.3 million) which represented approximately 20% of our total portfolio at fair value. Effective March 30, 2012, Ares Capital Management assumed from the Company the role of co-manager of the SSLP. However, this change did not impact the Company's economics in respect of its participation in the SSLP and Ares Capital Management does not receive any remuneration in respect of its co-manager role.

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies, we also may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. See "Regulation" in the accompanying prospectus. Specifically, as part of this 30% basket, we may invest in entities that are not considered "eligible portfolio companies" (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

Our portfolio company, Ivy Hill Asset Management, L.P. ("IHAM"), which became an SEC registered investment adviser effective March 30, 2012, manages 11 unconsolidated credit vehicles and sub-manages or sub-advises four other unconsolidated credit vehicles (these vehicles managed or sub-managed/sub-advised by IHAM are collectively referred to as the "IHAM Vehicles"), which are described in more detail under "Business Investments Ivy Hill Management, L.P." in the accompanying prospectus. We have also made direct investments in securities of certain of these vehicles. As of June 30, 2012, IHAM had total committed capital under management of approximately \$3.2 billion, which included approximately \$0.3 billion invested by Ares Capital in IHAM or securities issued by the IHAM Vehicles. In connection with IHAM's registration as a registered investment adviser, on March 30, 2012, we received exemptive relief from the SEC allowing us to, subject to certain conditions, own directly or indirectly up to 100% of IHAM's outstanding equity interests and make additional investments in IHAM.

**About Ares**

Founded in 1997, Ares is a global alternative asset manager and an SEC registered investment adviser with approximately \$54 billion of total committed capital under management and 520 employees as of June 30, 2012.

Ares specializes in originating and managing assets in both the leveraged finance and private equity markets. Ares' leveraged finance activities include the origination, acquisition and management of senior loans, high yield bonds, mezzanine debt and special situation investments. Ares' private equity activities focus on providing flexible, junior capital to middle-market companies. Ares has the ability to invest across a capital structure, from senior floating rate debt to common equity. This flexibility, combined with Ares' "buy and hold" philosophy, enables Ares to structure an investment to meet the specific needs of a company rather than the less flexible demands of the public markets.

Ares is comprised of the following groups:

**Private Debt Group.** The Ares Private Debt Group manages Ares Capital, Ares Capital Europe (Ares' European private debt business), Ares' commercial real estate business (which includes private funds and Ares Commercial Real Estate Corporation (NYSE: ACRE)) as well as certain other private funds and managed accounts. The Ares Private

Table of Contents

Debt Group also co-manages the SSLP. In the aggregate, the Ares Private Debt Group had approximately \$21.1 billion of total committed capital under management as of June 30, 2012, including capital which may be committed for investment both directly and through certain financial services portfolio companies of the Company. The Ares Private Debt Group focuses primarily on non-syndicated first and second lien senior loans and mezzanine debt, which in some cases may include an equity component. The Ares Private Debt Group also makes equity investments in private middle-market companies, usually in conjunction with a concurrent debt investment.

**Capital Markets Group.** The Ares Capital Markets Group had approximately \$23.1 billion of total committed capital under management as of June 30, 2012 and focuses primarily on syndicated senior secured loans, high yield bonds, distressed debt, other liquid fixed income investments and other publicly traded debt securities.

**Private Equity Group.** The Ares Private Equity Group had approximately \$9.6 billion of total committed capital under management as of June 30, 2012, primarily through Ares Corporate Opportunities Fund L.P., Ares Corporate Opportunities Fund II, L.P., Ares Corporate Opportunities Fund III, L.P. and Ares Corporate Opportunities Fund IV, L.P. (collectively referred to as "ACOF"). ACOF generally makes private equity investments in amounts substantially larger than the private equity investments anticipated to be made by Ares Capital. In particular, the Ares Private Equity Group generally focuses on control-oriented equity investments in under-capitalized companies or companies with capital structure issues.

Ares' senior partners have been working together as a group for many years and have an average of over 22 years of experience in leveraged finance, private equity, distressed debt, investment banking and capital markets. They are backed by a team of 231 highly disciplined investment professionals as of June 30, 2012 covering current investments in more than 1,100 companies across over 30 industries. Ares' rigorous investment approach is based upon an intensive, independent financial analysis, with a focus on preservation of capital, diversification and active portfolio management. These fundamentals underlie Ares' investment strategy and have resulted in large pension funds, banks, insurance companies, endowments and certain high net worth individuals investing in Ares' funds.

#### **Ares Capital Management**

Ares Capital Management, our investment adviser, is served by an origination, investment and portfolio management team of 73 U.S.-based investment professionals as of June 30, 2012 led by the senior partners of the Ares Private Debt Group: Michael Arougheti, Eric Beckman, Kipp deVeer, Mitchell Goldstein and Michael Smith. Ares Capital Management leverages off of Ares' investment platform and benefits from the significant capital markets, trading and research expertise of Ares' investment professionals. Ares Capital Management's investment committee has eight members, including the senior partners of the Ares Private Debt Group, senior partners in the Ares Private Equity Group and a senior adviser to the Ares Capital Markets Group.

#### **Recent Developments**

In July 2012, pursuant to the terms of the amended revolving funding facility of our wholly owned subsidiary, Ares Capital CP Funding LLC ("Ares Capital CP") (the "Revolving Funding Facility"), Ares Capital CP received an increase in the commitments under the Revolving Funding Facility of \$40 million, bringing the total commitment to \$620 million.

## Edgar Filing: ARES CAPITAL CORP - Form 497

### Table of Contents

In August 2012, we declared a third quarter dividend of \$0.38 per share and an additional dividend of \$0.05 per share. Both dividends are payable on September 28, 2012 to stockholders of record as of September 14, 2012.

From July 1, 2012 through August 3, 2012, we had made new investment commitments of \$299 million, of which \$281 million were funded. Of these new commitments, 70% were in first lien senior secured debt, 17% were investments in subordinated certificates of the SSLP which were applied to co-investments with GE in first lien senior secured loans, 10% were in second lien senior secured debt and 3% were in other equity securities. Of the \$299 million of new investment commitments, 97% were floating rate and 3% were non-interest bearing. The weighted average yield of debt and other income producing securities funded during the period at amortized cost was 10.4%. We may seek to syndicate a portion of these new investment commitments to third parties, although there can be no assurance that we will be able to do so.

From July 1, 2012 through August 3, 2012, we exited \$144 million of investment commitments. Of these investment commitments, 58% were first lien senior secured debt, 39% were senior subordinated debt and 3% were other equity securities. Of the \$144 million of exited investment commitments, 56% were floating rate investments, 39% were fixed rate investments, 3% were non-interest bearing and 2% were investments on non-accrual status. The weighted average yield of debt and other income producing securities exited or repaid during the period at amortized cost was 11.5%. On the \$144 million of investment commitments exited from July 1, 2012 through August 3, 2012, we recognized total net realized gains of approximately \$23 million.

In addition, as of August 3, 2012, we had an investment backlog and pipeline of approximately \$430 million and \$570 million, respectively. Investment backlog includes transactions for which a formal mandate, letter of intent or a signed commitment have been issued, and therefore we believe are likely to close. Investment pipeline includes transactions where due diligence and analysis are in process, but no formal mandate, letter of intent or signed commitment have been issued. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. In addition, we may syndicate a portion of these investments to third parties. We cannot assure you that we will make any of these investments or that we will syndicate any portion of these investments.

### **Our Corporate Information**

Our administrative offices are located at 2000 Avenue of the Stars, 12<sup>th</sup> Floor, Los Angeles, California 90067, telephone number (310) 201-4200, and our executive offices are located at 245 Park Avenue, 44<sup>th</sup> Floor, New York, New York 10167, telephone number (212) 750-7300.

Table of Contents**FEES AND EXPENSES**

The following table is intended to assist you in understanding the costs and expenses that an investor in our common stock will bear, directly or indirectly, based on the assumptions set forth below. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this table or the accompanying prospectus contains a reference to our fees or expenses, we will pay such fees and expenses out of our net assets and, consequently, stockholders will indirectly bear such fees or expenses as investors in Ares Capital.

<b>Stockholder transaction expenses (as a percentage of offering price):</b>	
Sales load	4.99%(1)
Offering expenses	0.21%(2)
Dividend reinvestment plan expenses	None (3)
<b>Total stockholder transaction expenses paid</b>	<b>5.21%</b>

**Annual expenses (as a percentage of consolidated net assets attributable to common stock)(4):**

Management fees	2.46%(5)
Incentive fees	2.89%(6)
Interest payments on borrowed funds	3.99%(7)
Other expenses	1.33%(8)
Acquired fund fees and expenses	0.01%(9)
<b>Total annual expenses</b>	<b>10.68%(10)</b>

- 
- (1) The underwriting discounts and commissions with respect to the shares sold in this offering, which is a one time fee, is the only sales load paid in connection with this offering. Because the underwriters may offer the shares from time to time, for the purpose of calculating sales load, we have assumed the underwriters will sell the shares to the public at a price of \$17.42 per share, our closing price on August 16, 2012.
- (2) Amount reflects estimated offering expenses of approximately \$830,000 based on the 22,500,000 shares offered in this offering (assuming that the underwriters do not exercise their option to purchase additional shares).
- (3) The expenses of the dividend reinvestment plan are included in "Other expenses."
- (4) The "consolidated net assets attributable to common stock" used to calculate the percentages in this table is our average net assets of \$3.4 billion for the six months ended June 30, 2012.
- (5) Our management fee is currently 1.5% of our total assets other than cash and cash equivalents (which includes assets purchased with borrowed amounts). For the purposes of this table, we have assumed that we maintain no cash or cash equivalents. The 2.46% reflected on the table is higher than 1.5% because it is calculated on our average net assets (rather than our average total assets). See "Management Investment Advisory and Management Agreement" in the accompanying prospectus.
- (6) This item represents our investment adviser's incentive fees estimated by annualizing our incentive fee related to our pre-incentive fee net investment income for the six months ended June 30, 2012 and annualizing our accrual in accordance with United States generally

Edgar Filing: ARES CAPITAL CORP - Form 497

accepted accounting principles ("GAAP") of a capital gains incentive fee of \$6.3 million for the six months ended June 30, 2012, even though no capital gains incentive fee was payable under the investment advisory and management agreement.

S-8

---

Table of Contents

GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Company Act or the investment advisory and management agreement. This GAAP accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the Capital Gains Fee (as defined below) plus the aggregate cumulative unrealized capital appreciation. If such amount is positive at the end of a period, then GAAP requires us to record a capital gains incentive fee equal to 20% of such cumulative amount, less the aggregate amount of actual Capital Gains Fees paid or capital gains incentive fees accrued under GAAP in all prior periods. The resulting accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reversal of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future or that the amount accrued for will ultimately be paid.

For purposes of this table, we have assumed that these fees will be payable (in the case of the capital gain incentive fee) and that they will remain constant, although they are based on Ares Capital's performance and will not be paid unless Ares Capital achieves certain goals. We expect to invest or otherwise utilize all of the net proceeds from this offering within three months of the date of this prospectus supplement and may have capital gains and interest income that could result in the payment of an incentive fee to our investment adviser in the first year after completion of this offering. Since our initial public offering through June 30, 2012, the average quarterly incentive fee accrued (including capital gains incentive fees accrued under GAAP even though they may not be payable) has been approximately 0.76% of our weighted average net assets (3.03% on an annualized basis). For more detailed information on the calculation of our incentive fees, please see below. For more detailed information about incentive fees previously incurred by us, please see Note 3 to our consolidated financial statements for the year ended December 31, 2011 and the three and six months ended June 30, 2012.

The incentive fee consists of two parts:

The first, payable quarterly in arrears, equals 20% of our pre-incentive fee net investment income (including interest that is accrued but not yet received in cash), subject to a 1.75% quarterly (7.0% annualized) hurdle rate and a "catch-up" provision measured as of the end of each calendar quarter. Under this provision, in any calendar quarter, our investment adviser receives no incentive fee until our net investment income equals the hurdle rate of 1.75% but then receives, as a "catch-up," 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.1875%. The effect of this provision is that, if pre-incentive fee net investment income exceeds 2.1875% in any calendar quarter, our investment adviser will receive 20% of our pre-incentive fee net investment income as if a hurdle rate did not apply.

The second part (the "Capital Gains Fee"), payable annually in arrears, equals 20% of our realized capital gains on a cumulative basis from inception through the end of the year, if any, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees.

We will defer cash payment of any incentive fee otherwise earned by our investment adviser if, during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any

Table of Contents

incentive fees payable during the period) is less than 7.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period.

These calculations will be adjusted for any share issuances or repurchases.

See "Management Investment Advisory and Management Agreement" in the accompanying prospectus.

- (7) "Interest payments on borrowed funds" represents our interest expense estimated by annualizing our actual interest and credit facility expenses incurred for the six months ended June 30, 2012. During the six months ended June 30, 2012, our average outstanding borrowings were \$2,103.9 million and cash paid for interest expense was \$50.4 million. We had outstanding borrowings of \$2,291.3 million (with a carrying value of \$2,194.8 million) at June 30, 2012. This item is based on our assumption that our borrowings and interest costs after this offering will remain similar to those prior to this offering. The amount of leverage that we employ at any particular time will depend on, among other things, our board of directors' and our investment adviser's assessment of market and other factors at the time of any proposed borrowing. See "Risk Factors Risks Relating to Our Business We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us" in the accompanying prospectus.
- (8) Includes our overhead expenses, including payments under our administration agreement (as defined in the accompanying prospectus), based on our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, and income taxes. Such expenses are estimated by annualizing "Other expenses" for the six months ended June 30, 2012. The holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) indirectly bear the cost associated with our annual expenses. See "Management Administration Agreement" in the accompanying prospectus.
- (9) The Company's stockholders indirectly bear the expenses of underlying funds or other investment vehicles that would be investment companies under section 3(a) of the Investment Company Act but for the exceptions to that definition provided for in sections 3(c)(1) and 3(c)(7) of the Investment Company Act ("Acquired Funds") in which the Company invests. This amount includes the estimated annual fees and expenses of Acquired Funds in which the Company is invested as of June 30, 2012. Certain of these Acquired Funds are subject to management fees, which generally range from 1% to 2.5% of total net assets, or incentive fees, which generally range between 15% to 25% of net profits. When applicable, fees and expenses estimates are based on historic fees and expenses for the Acquired Funds. For those Acquired Funds with little or no operating history, fees and expenses are estimates based on expected fees and expenses stated in the Acquired Funds' offering memorandum, private placement memorandum or other similar communication without giving effect to any performance. Future fees and expenses for these Acquired Funds may be substantially higher or lower because certain fees and expenses are based on the performance of the Acquired Funds, which may fluctuate over time.
- (10) "Total annual expenses" as a percentage of consolidated net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage and increase our total assets. The SEC requires that the "Total annual expenses" percentage be calculated as a percentage of net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period), rather than the total assets, including assets that have been funded with borrowed monies. As noted above, "Total annual expenses" is estimated by annualizing certain fees and expenses for the six months ended June 30, 2012, including the capital gains incentive fee required by GAAP for the six months ended June 30, 2012.

Table of Contents**Example**

The following example demonstrates the projected dollar amount of total cumulative expenses over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed that we would have no additional leverage, that none of our assets are cash or cash equivalents, and that our annual operating expenses would remain at the levels set forth in the table above. Transaction expenses are not included in the following example.

	1 year	3 years	5 years	10 years
You would pay the following expenses on a \$1,000 common stock investment, assuming a 5% annual return(1)	\$ 80	\$ 232	\$ 376	\$ 699

(1)

The above illustration assumes that we will not realize any capital gains computed net of all realized capital losses and unrealized capital depreciation. The expenses you would pay, based on a \$1,000 investment and assuming a 5% annual return resulting entirely from net realized capital gains (and therefore subject to the capital gain incentive fee), and otherwise making the same assumptions in the example above, would be: 1 year, \$90; 3 years, \$260; 5 years, \$420; and 10 years, \$772. However, cash payment of the capital incentive fee would be deferred if, during the most recent four full calendar quarter period ending on or prior to the date the payment set forth in the example is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) was less than 7.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period (as adjusted for any share issuances or repurchases).

The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The incentive fee under the investment advisory and management agreement, which, assuming a 5% annual return, would either not be payable or have an insignificant impact on the expense amounts shown above, is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, if our board of directors authorizes and we declare a cash dividend, participants in our dividend reinvestment plan who have not otherwise elected to receive cash will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the valuation date for the dividend. See "Dividend Reinvestment Plan" in the accompanying prospectus for additional information regarding our dividend reinvestment plan.

**This example and the expenses in the table above should not be considered a representation of our future expenses as actual expenses (including the cost of debt, if any, and other expenses) that we may incur in the future and such actual expenses may be greater or less than those shown.**

Table of Contents

**USE OF PROCEEDS**

We estimate that the net proceeds we will receive from the sale of 22,500,000 shares of our common stock in this offering will be approximately \$371.5 million (or approximately \$427.4 million if the underwriters fully exercise their option to purchase 3,375,000 additional shares), in each case after deducting the underwriting discounts and commissions and estimated offering expenses payable by us.

We expect to use the net proceeds of this offering to repay outstanding indebtedness under the Revolving Credit Facility (as defined in the accompanying prospectus) (\$427.0 million outstanding as of August 10, 2012) and/or the Revolving Funding Facility (\$372.0 million outstanding as of August 10, 2012).

Subject to certain exceptions, the interest charged on the indebtedness incurred under the Revolving Credit Facility is based on LIBOR (one, two, three or six month) plus an applicable spread of 2.25% or a "base rate" (as defined in the agreements governing the Revolving Credit Facility) plus an applicable spread of 1.25%. As of August 10, 2012, one, two, three and six month LIBOR were 0.24%, 0.33%, 0.44% and 0.72%, respectively. The Revolving Credit Facility matures on May 4, 2016. Subject to certain exceptions, the interest charged on the Revolving Funding Facility is based on LIBOR plus an applicable spread of 2.50% or on a "base rate" (as defined in the agreements governing the Revolving Funding Facility) plus an applicable spread of 1.50%. The Revolving Funding Facility is scheduled to expire on April 18, 2017 (subject to extension exercisable upon mutual consent).

Affiliates of certain of the underwriters are lenders under the Revolving Credit Facility and affiliates of certain of the underwriters are lenders under the Revolving Funding Facility. Accordingly, affiliates of certain of the underwriters may receive more than 5% of the proceeds of this offering to the extent such proceeds are used to repay or repurchase outstanding indebtedness under the Revolving Credit Facility and/or the Revolving Funding Facility.

We intend to use any net proceeds from this offering that are not applied as described above for general corporate purposes, which include investing in portfolio companies in accordance with our investment objective.

Investing in portfolio companies could include investments in our investment backlog and pipeline that, as of August 3, 2012, were approximately \$430 million and \$570 million, respectively. Please note that the consummation of any of the investments in this backlog and pipeline depends upon, among other things: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation, and there can be no guarantee that we will consummate any of these investments or that we will syndicate any portion of such investments or commitments.

Our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies. In addition to such investments, we may invest up to 30% of our portfolio in opportunistic investments of non-qualifying assets, as permitted by the Investment Company Act. As part of this 30% basket, we may invest in entities that are not considered "eligible portfolio companies" (as defined in the Investment Company Act), including companies outside of the United States, entities that are operating pursuant to certain exceptions to the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for in the Investment Company Act.

Pending such investments, we will invest a portion of the net proceeds primarily in cash, cash equivalents, U.S. government securities and other high-quality short-term investments. These securities may earn yields substantially lower than the income that we anticipate receiving once we are fully invested in accordance with our investment objective. As a result, we may not be able to achieve our

Table of Contents

investment objective and/or pay any dividends during this period or, if we are able to do so, such dividends may be substantially lower than the dividends that we expect to pay when our portfolio is fully invested. If we do not realize yields in excess of our expenses, we may incur operating losses and the market price of our common stock may decline. See "Regulation Temporary Investments" in the accompanying prospectus for additional information about temporary investments we may make while waiting to make longer-term investments in pursuit of our investment objective.

Table of Contents**PRICE RANGE OF COMMON STOCK AND DISTRIBUTIONS**

Our common stock is traded on The NASDAQ Global Select Market under the symbol "ARCC." Our common stock has historically traded at prices both above and below our net asset value per share. It is not possible to predict whether the common stock offered hereby will trade at, above or below net asset value. See "Risk Factors Risks Relating to Offerings Pursuant to this Prospectus Our shares of common stock have traded at a discount from net asset value and may do so again in the future, which could limit our ability to raise additional equity capital" in the accompanying prospectus.

The following table sets forth, for each fiscal quarter for the fiscal years ended December 31, 2010, 2011 and 2012, the net asset value per share of our common stock, the range of high and low closing sales prices of our common stock, the closing sales price as a percentage of net asset value and the dividends or distributions declared by us. On August 16, 2012, the last reported closing sales price of our common stock on The NASDAQ Global Select Market was \$17.42 per share, which represented a premium of approximately 12.3% to the net asset value per share reported by us as of June 30, 2012.

	Net Asset Value(1)	Price Range		High Sales Price to Net Asset Value(2)	Low Sales Price to Net Asset Value(2)	Cash Dividend Per Share(3)
		High	Low			
<b>Year ended December 31, 2010</b>						
First Quarter	\$ 11.78	\$ 14.82	\$ 11.75	125.8%	99.7%	\$ 0.35
Second Quarter	\$ 14.11	\$ 16.40	\$ 12.53	116.2%	88.8%	\$ 0.35
Third Quarter	\$ 14.43	\$ 15.89	\$ 12.44	110.1%	86.2%	\$ 0.35
Fourth Quarter	\$ 14.92	\$ 17.26	\$ 15.64	115.7%	104.8%	\$ 0.35
<b>Year ending December 31, 2011</b>						
First Quarter	\$ 15.45	\$ 17.83	\$ 16.08	115.4%	104.1%	\$ 0.35
Second Quarter	\$ 15.28	\$ 17.71	\$ 15.70	115.9%	102.7%	\$ 0.35
Third Quarter	\$ 15.13	\$ 16.30	\$ 13.07	107.7%	86.4%	\$ 0.35
Fourth Quarter	\$ 15.34	\$ 15.95	\$ 13.26	104.0%	86.4%	\$ 0.36
<b>Year ending December 31, 2012</b>						
First Quarter	\$ 15.47	\$ 16.70	\$ 15.51	108.0%	100.3%	\$ 0.37
Second Quarter	\$ 15.51	\$ 16.55	\$ 14.67	106.7%	94.6%	\$ 0.37
Third Quarter (through August 16, 2012)	*	\$ 17.42	\$ 16.04	*	*	\$ 0.43(4)

- (1) Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high and low closing sales prices. The net asset values shown are based on outstanding shares at the end of the relevant quarter.
- (2) Calculated as the respective high or low closing sales price divided by net asset value.
- (3) Represents the dividend or distribution declared in the relevant quarter.
- (4) Consists of a quarterly dividend of \$0.38 per share and an additional dividend of \$0.05 per share.
- \* Net asset value has not yet been calculated for this period.

We currently intend to distribute dividends or make distributions to our stockholders on a quarterly basis out of assets legally available for distribution. We may also distribute additional dividends or make additional distributions to our stockholders from time to time. We may consider declaring and paying another additional dividend as early as next quarter, depending on a number of factors, including our liquidity

Edgar Filing: ARES CAPITAL CORP - Form 497

position, general market conditions, portfolio performance, earnings and the level of our undistributed taxable earnings relative to our current level. Further, the declaration of any such additional dividend is ultimately within the discretion of our board of directors. We cannot

S-14

---

## Edgar Filing: ARES CAPITAL CORP - Form 497

### Table of Contents

assure you that any such additional dividend will be declared and paid. Our quarterly and additional dividends or distributions, if any, will be determined by our board of directors.

The following table summarizes our dividends or distributions declared for the fiscal years ended December 31, 2010, 2011 and 2012:

<b>Date Declared</b>	<b>Record Date</b>	<b>Payment Date</b>	<b>Amount</b>
February 25, 2010	March 15, 2010	March 31, 2010	\$ 0.35
May 10, 2010	June 15, 2010	June 30, 2010	\$ 0.35
August 5, 2010	September 15, 2010	September 30, 2010	\$ 0.35
November 4, 2010	December 15, 2010	December 31, 2010	\$ 0.35
<b>Total declared for 2010</b>			<b>\$ 1.40</b>
March 1, 2011	March 15, 2011	March 31, 2011	\$ 0.35
May 3, 2011	June 15, 2011	June 30, 2011	\$ 0.35
August 4, 2011	September 15, 2011	September 30, 2011	\$ 0.35
November 8, 2011	December 15, 2011	December 31, 2011	\$ 0.36
<b>Total declared for 2011</b>			<b>\$ 1.41</b>
February 28, 2012	March 15, 2012	March 30, 2012	\$ 0.37
May 8, 2012	June 15, 2012	June 29, 2012	\$ 0.37
August 7, 2012	September 14, 2012	September 28, 2012	\$ 0.38
August 7, 2012	September 14, 2012	September 28, 2012	\$ 0.05(1)
<b>Total declared for 2012</b>			<b>\$ 1.17</b>

(1) Represents an additional dividend.

To maintain our status as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), we must timely distribute an amount equal to at least 90% of our investment company taxable income (as defined by the Code, which generally includes net ordinary income and net short term capital gains) to our stockholders. In addition, we generally will be required to pay an excise tax equal to 4% of the amount by which (i) 98% of our ordinary income recognized during a calendar year and (ii) 98.2% of our capital gain net income, as defined by the Code, recognized for the one year period ending on October 31<sup>st</sup> of a calendar year exceeds the distributions for the year. The taxable income on which excise tax is paid is generally distributed to stockholders in the next tax year. Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income for distribution in the following year, and pay any applicable excise tax. For the six months ended June 30, 2012 we recorded a net excise tax expense of \$4.0 million. For the years ended December 31, 2011 and 2010, we recorded a net excise tax expense of \$6.6 million and \$2.2 million, respectively. We cannot assure you that we will achieve results that will permit the payment of any cash distributions. We maintain an "opt out" dividend reinvestment plan for our common stockholders. As a result, if we declare a cash dividend, then stockholders' cash dividends will be automatically reinvested in additional shares of our common stock unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash dividends. See "Dividend Reinvestment Plan" in the accompanying prospectus.

Table of Contents**CAPITALIZATION**

The following table sets forth our actual capitalization at June 30, 2012. You should read this table together with "Use of Proceeds" and our most recent balance sheet included elsewhere in this prospectus supplement or the accompanying prospectus.

	<b>As of June 30, 2012 (unaudited, dollar amounts in thousands)</b>
	<b>Actual</b>
Cash and cash equivalents	\$ 101,265
<b>Debt(1)</b>	
Revolving Credit Facility	\$ 295,000
Revolving Funding Facility	348,000
SMBC Funding Facility	107,000
February 2016 Convertible Notes	544,769
June 2016 Convertible Notes	217,322
2017 Convertible Notes	157,876
2022 Notes	143,750
2040 Notes	200,000
2047 Notes	181,091
Total Debt	\$ 2,194,808
<b>Stockholders' Equity</b>	
Common stock, par value \$.001 per share, 400,000,000 common shares authorized, and 222,150,745 common shares issued and outstanding, respectively	222
Capital in excess of par value	3,657,160
Accumulated overdistributed net investment income	(9,578)
Accumulated net realized loss on investments, foreign currency transactions, extinguishment of debt and other assets	(267,934)
Net unrealized gain on investments	66,629
Total stockholders' equity	\$ 3,446,499
Total capitalization	\$ 5,641,307

(1)

The above table reflects the carrying value of indebtedness outstanding as of June 30, 2012. As of August 10, 2012, indebtedness under the Revolving Credit Facility, the Revolving Funding Facility and the SMBC Funding Facility was \$427.0 million, \$372.0 million and \$133.0 million, respectively. The net proceeds from the sale of our common stock in this offering are expected to be used to pay down outstanding indebtedness under the Revolving Credit Facility and/or the Revolving Funding Facility and for general corporate purposes. See "Use of Proceeds."

Table of Contents**UNDERWRITING**

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. LLC and Wells Fargo Securities, LLC are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in a purchase agreement between us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the number of shares of common stock set forth opposite its name below.

<b>Underwriter</b>	<b>Number of Shares</b>
Merrill Lynch, Pierce, Fenner & Smith Incorporated	4,500,000
Morgan Stanley & Co. LLC	4,500,000
Wells Fargo Securities, LLC	4,500,000
Goldman, Sachs & Co.	2,250,000
J.P. Morgan Securities LLC	2,250,000
UBS Securities LLC	2,250,000
RBC Capital Markets, LLC	1,125,000
Stifel, Nicolaus & Company, Incorporated	1,125,000
<b>Total</b>	<b>22,500,000</b>

Subject to the terms and conditions set forth in the purchase agreement, the underwriters have agreed, severally and not jointly, to purchase all of the shares sold under the purchase agreement if any of these shares are purchased. If an underwriter defaults, the purchase agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the purchase agreement may be terminated.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the purchase agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The underwriters are purchasing the shares of common stock from us at \$16.55 per share (representing approximately \$372.4 million aggregate net proceeds to us, before we deduct our aggregate out-of-pocket expenses of approximately \$0.8 million, or approximately \$428.2 million if the underwriters' option to purchase additional shares described below is exercised in full). The underwriters may offer the shares of common stock from time to time for sale in one or more transactions on the NASDAQ Global Select Market, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. In connection with the sale of the shares of common stock offered hereby, the underwriters may be deemed to have received compensation in the form of underwriting discounts. The underwriters may effect such transactions by selling shares of common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or purchasers of shares of common stock for whom they may act as agents or to whom they may sell as principal.

Table of Contents

**Option to Purchase Additional Shares**

We have granted an option to the underwriters to purchase up to 3,375,000 additional shares at the price per share set forth on the cover page of this prospectus supplement. The underwriters may exercise this option for 30 days from the date of this prospectus supplement. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the purchase agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

**No Sales of Similar Securities**

We have agreed, with exceptions, not to sell or transfer any common stock for 45 days after the date of this prospectus supplement without first obtaining the written consent of the representatives.

Our executive officers and directors and Ares Capital Management and certain of its affiliates have agreed, with exceptions, not to sell or transfer any common stock for 30 days after the date of this prospectus supplement without first obtaining the written consent of the representatives. Specifically, we and these other persons have agreed, with certain limited exceptions, not to directly or indirectly:

offer, pledge, sell or contract to sell any common stock,

sell any option or contract to purchase any common stock,

purchase any option or contract to sell any common stock,

grant any option, right or warrant for the sale of any common stock,

lend or otherwise dispose of or transfer any common stock,

request or demand that we file a registration statement related to the common stock, or

enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lock-up provision applies to common stock and to securities convertible into or exchangeable or exercisable for or repayable with common stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition. In the event that either (x) during the last 17 days of the lock-up period referred to above, we issue an earnings release or material news or a material event relating to the Company occurs or (y) prior to the expiration of the lock-up period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16-day period beginning on the last day of the lock-up period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

**NASDAQ Global Select Market Listing**

The shares are listed on the NASDAQ Global Select Market under the symbol "ARCC."

**Short Positions**

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than

Edgar Filing: ARES CAPITAL CORP - Form 497

the underwriters' option to purchase additional shares described above. The underwriters may close out any covered short position by either exercising their option to

S-18

---

Table of Contents

purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option granted to them. "Naked" short sales are sales in excess of the option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on the NASDAQ Global Select Market, in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

**Passive Market Making**

In connection with this offering, underwriters may engage in passive market making transactions in the common stock on the NASDAQ Global Select Market in accordance with Rule 103 of Regulation M under the Exchange Act during a period before the commencement of offers or sales of common stock and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded. Passive market making may cause the price of our common stock to be higher than the price that otherwise would exist in the open market in the absence of those transactions. The underwriters are not required to engage in passive market making and may end passive market making activities at any time.

**Electronic Offer, Sale and Distribution of Shares**

The underwriters may make prospectuses available in electronic (PDF) format. A prospectus in electronic (PDF) format may be made available on a web site maintained by the underwriters, and the underwriters may distribute such prospectuses electronically. The underwriters may allocate a limited number of shares for sale to their online brokerage customers.

**Other Relationships**

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. The underwriters and their affiliates have provided in the past and may provide from time to time in the future in the ordinary course of their business certain commercial banking, financial advisory, investment banking and other services to Ares

Table of Contents

and its affiliates and managed funds and Ares Capital or our portfolio companies for which they have received or will be entitled to receive separate fees. In particular, the underwriters or their affiliates may execute transactions with Ares Capital or on behalf of Ares Capital, Ares or any of our or their portfolio companies, affiliates and/or managed funds. In addition, the underwriters or their affiliates may act as arrangers, underwriters or placement agents for companies whose securities are sold to or whose loans are syndicated to Ares, Ares Capital or Ares Capital Management and their affiliates and managed funds.

Affiliates of certain of the underwriters are limited partners of private investment funds affiliated with our investment adviser, Ares Capital Management.

The underwriters or their affiliates may also trade in our securities, securities of our portfolio companies or other financial instruments related thereto for their own accounts or for the account of others and may extend loans or financing directly or through derivative transactions to Ares, Ares Capital, Ares Capital Management or any of the portfolio companies.

We may purchase securities of third parties from the underwriters or their affiliates after the offering. However, we have not entered into any agreement or arrangement regarding the acquisition of any such securities, and we may not purchase any such securities. We would only purchase any such securities if among other things we identified securities that satisfied our investment needs and completed our due diligence review of such securities.

After the date of this prospectus supplement, the underwriters and their affiliates may from time to time obtain information regarding specific portfolio companies or us that may not be available to the general public. Any such information is obtained by the underwriters and their affiliates in the ordinary course of its business and not in connection with the offering of the common stock. In addition, after the offering period for the sale of our common stock, the underwriters or their affiliates may develop analyses or opinions related to Ares, Ares Capital or our portfolio companies and buy or sell interests in one or more of our portfolio companies on behalf of their proprietary or client accounts and may engage in competitive activities. There is no obligation on behalf of these parties to disclose their respective analyses, opinions or purchase and sale activities regarding any portfolio company or regarding Ares Capital to our stockholders.

In the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Affiliates of certain of the underwriters serve as agents and/or lenders under our credit facilities or other debt instruments (including the Revolving Credit Facility and the Revolving Funding Facility) and are also lenders to private investment funds managed by IHAM. Certain of the underwriters and their affiliates were underwriters in connection with our initial public offering and our subsequent common stock and debt offerings and rights offering, for which they received customary fees.

Frank E. O'Bryan, one of our independent directors, holds certain securities of one or more of this offering's underwriters (or their affiliates). As a result, Mr. O'Bryan may be considered an "interested person" of the Company during the pendency of this offering under relevant rules of the Investment Company Act.

The principal business address of Merrill Lynch, Pierce, Fenner & Smith Incorporated is One Bryant Park, New York, New York 10036. The principal business address of Morgan Stanley &

Table of Contents

Co. LLC is 1585 Broadway, New York, New York 10036. The principal business address of Wells Fargo Securities, LLC is 301 S. College Street, Charlotte, NC 28288.

**Conflicts of Interest**

Proceeds of this offering will be used to repay or repurchase outstanding indebtedness under (a) the Revolving Credit Facility and/or (b) the Revolving Funding Facility and for general corporate purposes. Affiliates of certain of the underwriters, including Merrill Lynch, Pierce, Fenner & Smith Incorporated and Morgan Stanley & Co. LLC, are lenders under the Revolving Credit Facility and affiliates of certain of the underwriters, including Wells Fargo Securities, LLC, are lenders under the Revolving Funding Facility. Accordingly, affiliates of certain of the underwriters may receive more than 5% of the proceeds of this offering to the extent such proceeds are used to repay or repurchase outstanding indebtedness under the Revolving Credit Facility and/or the Revolving Funding Facility.

**Notice to Prospective Investors in the EEA**

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State, no offer of shares may be made to the public in that Relevant Member State other than:

- (a) to any legal entity which is a "qualified investor" (as defined in the Prospectus Directive);
- (b) to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than "qualified investors" (as defined in the Prospectus Directive)), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the underwriters; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of shares shall require us or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

Each person in a Relevant Member State (other than a Relevant Member State where there is a Permitted Public Offer (as defined in the Prospectus Directive)) who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (A) it is a "qualified investor" within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive, and (B) in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than "qualified investors" (as defined in the Prospectus Directive), or in circumstances in which the prior consent of the underwriters has been given to the offer or resale. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to "qualified investors" (as defined in the Prospectus Directive) or in circumstances in which the prior consent of the underwriters has been obtained to each such proposed offer or resale.

We, our representatives and our affiliates will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

This prospectus has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly, any person making or intending

Table of Contents

to make an offer in that Relevant Member State of shares that are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for us or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither we nor the underwriters have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for us or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression "an offer to the public" in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe for the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

**Notice to Prospective Investors in the United Kingdom**

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are "qualified investors" (as defined in the Prospectus Directive) (i) who have professional experience in matters relating to investments falling within Article 19 (5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order") and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "relevant persons"). This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons

**Notice to Prospective Investors in Switzerland**

The shares may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange ("SIX") or on any other stock exchange or regulated trading facility in Switzerland. This document has been prepared without regard to the disclosure standards for issuance prospectuses under art. 652a or art. 1156 of the Swiss Code of Obligations or the disclosure standards for listing prospectuses under art. 27 ff. of the SIX Listing Rules or the listing rules of any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the shares or the offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering, Ares Capital Corporation or the shares have been or will be filed with or approved by any Swiss regulatory authority. In particular, this document will not be filed with, and the offer of shares will not be supervised by, the Swiss Financial Market Supervisory Authority FINMA ("FINMA"), and the offer of shares has not been and will not be authorized under the Swiss Federal Act on Collective Investment Schemes ("CISA"). The investor protection afforded to acquirers of interests in collective investment schemes under the CISA does not extend to acquirers of shares.

**Notice to Prospective Investors in the Dubai International Financial Centre**

This document relates to an Exempt Offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority ("DFSA"). This document is intended for distribution only to persons of a type specified in the Offered Securities Rules of the DFSA. It must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any

Table of Contents

documents in connection with Exempt Offers. The DFSA has not approved this document nor taken steps to verify the information set forth herein and has no responsibility for this document. The shares to which this document relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the shares offered should conduct their own due diligence on the shares. If you do not understand the contents of this document you should consult an authorized financial advisor.

**Notice to Prospective Investors in Hong Kong**

The shares may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), or (ii) to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap.571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a "prospectus" within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), and no advertisement, invitation or document relating to the shares may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

**Notice to Prospective Investors in Singapore**

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the "SFA"), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the shares are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the shares under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

**Notice to Prospective Investors in Japan**

The securities have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and each underwriter has agreed that it will not offer or sell any securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

Ares Capital Corporation is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments.

We are externally managed by our investment adviser, Ares Capital Management LLC, a wholly owned subsidiary of Ares Management LLC, a global alternative asset manager and a Securities and Exchange Commission ("SEC") registered investment adviser with approximately \$54 billion of total committed capital under management as of June 30, 2012. Ares Operations LLC, a wholly owned subsidiary of Ares Management LLC, provides the administrative services necessary for us to operate.

Our common stock is traded on The NASDAQ Global Select Market under the symbol "ARCC." On August 13, 2012 the last reported sales price of our common stock on The NASDAQ Global Select Market was \$17.19 per share. The net asset value per share of our common stock at June 30, 2012 (the last date prior to the date of this prospectus on which we determined net asset value) was \$15.51.

**Investing in our securities involves risks that are described in the "Risk Factors" section beginning on page 24 of this prospectus, including the risk of leverage.**

We may offer, from time to time, in one or more offerings or series, up to \$3,000,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock, warrants representing rights to purchase shares of our common stock, preferred stock or debt securities, or units comprised of any combination of the foregoing, which we refer to, collectively, as the "securities." The preferred stock, debt securities, subscription rights and warrants (including as part of a unit) offered hereby may be convertible or exchangeable into shares of our common stock. The securities may be offered at prices and on terms to be described in one or more supplements to this prospectus. In the event we offer common stock, the offering price per share of our common stock less any underwriting commissions or discounts will generally not be less than the net asset value per share of our common stock at the time we make the offering. However, we may issue shares of our common stock pursuant to this prospectus at a price per share that is less than our net asset value per share (a) in connection with a rights offering to our existing stockholders, (b) with the prior approval of the majority of our common stockholders or (c) under such circumstances as the SEC may permit. This prospectus and the accompanying prospectus supplement concisely provide important information about us that you should know before investing in our securities. Please read this prospectus and the accompanying prospectus supplement before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at [www.arescapitalcorp.com](http://www.arescapitalcorp.com). The SEC also maintains a website at [www.sec.gov](http://www.sec.gov) that contains such information.

**Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.**

**This prospectus may not be used to consummate sales of securities unless accompanied by a prospectus supplement.**

**ABOUT THIS PROSPECTUS**

This prospectus is part of a registration statement that we have filed with the SEC, using the "shelf" registration process. Under the shelf registration process, we may offer, from time to time, in one or more offerings or series, up to \$3,000,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock, warrants representing rights to purchase shares of our common stock, preferred stock or debt securities, or units comprised of any combination of the foregoing, on terms to be determined at the time of the offering. The securities may be offered at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of the securities that we may offer. Each time we use this prospectus to offer securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and the prospectus supplement together with any exhibits and the additional information described under the headings "Available Information" and "Risk Factors" before you make an investment decision.

Table of Contents

**PROSPECTUS SUMMARY**

*This summary highlights some of the information contained elsewhere in this prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" and the other information included in this prospectus. Except where the context suggests otherwise, the terms "we," "us," "our," "the Company" and "Ares Capital" refer to Ares Capital Corporation and its consolidated subsidiaries; "Ares Capital Management" and the "investment adviser" refer to Ares Capital Management LLC; "Ares Operations" and the "administrator" refer to Ares Operations LLC; and "Ares" refers to Ares Management LLC ("Ares Management") and its affiliated companies (other than portfolio companies of its affiliated funds).*

*As described in more detail below, we consummated the acquisition (the "Allied Acquisition") of Allied Capital Corporation ("Allied Capital") on April 1, 2010. Other than as specifically set forth herein, financial information presented herein for and as of periods ending on or prior to March 31, 2010 does not include any information in respect of Allied Capital. In addition, other than as specifically set forth herein, financial information for the year ended December 31, 2010, including, without limitation, with respect to the Company's consolidated statements of operations, stockholders' equity and cash flows, only includes results attributable to Allied Capital for the period beginning on April 1, 2010.*

**THE COMPANY**

**Overview**

Ares Capital, a Maryland corporation, is a specialty finance company that is a closed-end, non-diversified management investment company. We have elected to be regulated as a business development company, or a "BDC," under the Investment Company Act of 1940, as amended, and the rules and regulations promulgated thereunder, or the "Investment Company Act." We were founded on April 16, 2004, were initially funded on June 23, 2004 and completed our initial public offering on October 8, 2004. We are one of the largest BDCs with approximately \$5.8 billion of total assets as of June 30, 2012.

We are externally managed by our investment adviser, Ares Capital Management, a wholly owned subsidiary of Ares Management, a global alternative asset manager and an SEC registered investment adviser with approximately \$54 billion of total committed capital under management as of June 30, 2012. Our administrator, Ares Operations, a wholly owned subsidiary of Ares Management, provides the administrative services necessary for us to operate.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in U.S. middle-market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive. However, we may from time to time invest in larger companies. In this prospectus, we generally use the term "middle-market" to refer to companies with annual EBITDA between \$10 million and \$250 million. As used herein, EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization.

We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. First and second lien senior loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. Mezzanine debt is subordinated to senior loans and is generally unsecured. Our investments in corporate borrowers generally range between \$30 million and \$400 million each, investments in the project finance/power generation sector generally range between \$10 million and \$200 million each and investments in the venture finance sector generally range between \$1 million and \$25 million each. However, the investment sizes may be more or less than these ranges and may vary based on our capital availability.

Table of Contents

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments.

The proportion of these types of investments will change over time given our views on, among other things, the economic and credit environment in which we are operating. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment. In such situations, while we may initially agree to fund up to a certain dollar amount of an investment, we may subsequently syndicate a portion of such amount to third parties, such that we are left with a smaller investment than what was reflected in our original commitment. In addition to originating investments, we may also acquire investments in the secondary market.

The first and second lien senior loans in which we invest generally have stated terms of three to 10 years and the mezzanine debt investments in which we invest generally have stated terms of up to 10 years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, we may invest in loans and securities with any maturity or duration. The instruments in which we invest typically are not rated by any rating agency, but we believe that if such instruments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's Investors Service, lower than "BBB-" by Fitch Ratings or lower than "BBB-" by Standard & Poor's Rating Services), which is an indication of having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. Bonds that are rated below investment grade are sometimes referred to as "high yield bonds" or "junk bonds." We may invest without limit in debt or other securities of any rating, as well as debt or other securities that have not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage the current investment platform, resources and existing relationships with financial sponsors, financial institutions, hedge funds and other investment firms of Ares to provide us with attractive investment opportunities. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares has been in existence for more than 14 years and its senior partners have an average of over 22 years experience investing in senior loans, high yield bonds, mezzanine debt and private equity securities. The Company has access to the Ares staff of 231 investment professionals and 289 administrative professionals as of June 30, 2012, who provide assistance in accounting, finance, legal, compliance, operations, information technology and investor relations.

Since our initial public offering on October 8, 2004 through June 30, 2012, our realized gains have exceeded our realized losses by approximately \$101 million (excluding the one-time gain on the Allied Acquisition and gains/losses from the extinguishment of debt and other assets). For this same time period, our portfolio exits have resulted in an aggregate cash flow realized internal rate of return to us of approximately 14% (based on original cash invested of approximately \$5.4 billion and total proceeds from such exits of approximately \$6.5 billion). Approximately 73% of these exits resulted in an aggregate cash flow internal rate of return to us of 10% or greater. Internal rate of return is the discount rate that makes the net present value of all cash flows related to a particular investment equal to zero. Internal rate of return is gross of expenses related to investments as these expenses are not allocable to specific investments. Investments are considered to be exited when the original investment objective has been achieved through the receipt of cash and/or non-cash consideration upon the repayment of our debt investment or sale of an investment or through the determination that no further consideration was collectible and, thus, a loss may have been realized. These internal rate of return results are historical results relating to our past performance and are not necessarily indicative of future results, the achievement of which cannot be assured.

Table of Contents

We and General Electric Capital Corporation and GE Global Sponsor Finance LLC (collectively, "GE") also co-invest through an unconsolidated vehicle, the Senior Secured Loan Fund LLC, which operates using the name "Senior Secured Loan Program" (the "SSLP"). The SSLP was initially formed in December 2007 to co-invest in first lien senior secured loans of middle-market companies. As of June 30, 2012, the SSLP had approximately \$7.7 billion of available capital, approximately \$5.4 billion in aggregate principal amount of which was funded as of June 30, 2012. At June 30, 2012, we had agreed to make available to the SSLP approximately \$1.5 billion, of which approximately \$1.1 billion was funded. The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with approval from a representative of each required). As of June 30, 2012, our investment in the SSLP was approximately \$1.1 billion at fair value (including unrealized appreciation of \$26.3 million) which represented approximately 20% of our total portfolio at fair value. Effective March 30, 2012, Ares Capital Management assumed from the Company the role of co-manager of the SSLP. However, this change did not impact the Company's economics in respect of its participation in the SSLP and Ares Capital Management does not receive any remuneration in respect of its co-manager role.

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies, we also may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. See "Regulation." Specifically, as part of this 30% basket, we may invest in entities that are not considered "eligible portfolio companies" (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

Our portfolio company, Ivy Hill Asset Management, L.P. ("IHAM"), which became an SEC registered investment adviser effective March 30, 2012, manages 11 unconsolidated credit vehicles and sub-manages or sub-advises four other unconsolidated credit vehicles (these vehicles managed or sub-managed/sub-advised by IHAM are collectively referred to as the "IHAM Vehicles"), which are described in more detail under "Business Investments Ivy Hill Asset Management, L.P." below. We have also made direct investments in securities of certain of these vehicles. As of June 30, 2012, IHAM had total committed capital under management of approximately \$3.2 billion, which included approximately \$0.3 billion invested by Ares Capital in IHAM or securities issued by the IHAM Vehicles. In connection with IHAM's registration as a registered investment adviser, on March 30, 2012 we received exemptive relief from the SEC allowing us to, subject to certain conditions, own directly or indirectly up to 100% of IHAM's outstanding equity interests and make additional investments in IHAM.

**About Ares**

Founded in 1997, Ares is a global alternative asset manager and an SEC registered investment adviser with approximately \$54 billion of total committed capital under management and 520 employees as of June 30, 2012.

Ares specializes in originating and managing assets in both the leveraged finance and private equity markets. Ares' leveraged finance activities include the origination, acquisition and management of senior loans, high yield bonds, mezzanine debt and special situation investments. Ares' private equity activities focus on providing flexible, junior capital to middle-market companies. Ares has the ability to invest across a capital structure, from senior floating rate debt to common equity. This flexibility, combined with Ares' "buy and hold" philosophy, enables Ares to structure an investment to meet the specific needs of a company rather than the less flexible demands of the public markets.

Table of Contents

Ares is comprised of the following groups:

**Private Debt Group.** The Ares Private Debt Group manages Ares Capital, Ares Capital Europe ("ACE") (Ares' European private debt business), Ares' commercial real estate business (which includes private funds and Ares Commercial Real Estate Corporation (NYSE: ACRE)) as well as certain other private funds and managed accounts. The Ares Private Debt Group also co-manages the SSLP. In the aggregate, the Ares Private Debt Group had approximately \$21.1 billion of total committed capital under management as of June 30, 2012, including capital which may be committed for investment both directly and through certain financial services portfolio companies of the Company. The Ares Private Debt Group focuses primarily on non-syndicated first and second lien senior loans and mezzanine debt, which in some cases may include an equity component. The Ares Private Debt Group also makes equity investments in private middle-market companies, usually in conjunction with a concurrent debt investment.

**Capital Markets Group.** The Ares Capital Markets Group had approximately \$23.1 billion of total committed capital under management as of June 30, 2012 and focuses primarily on syndicated senior secured loans, high yield bonds, distressed debt, other liquid fixed income investments and other publicly traded debt securities.

**Private Equity Group.** The Ares Private Equity Group had approximately \$9.6 billion of total committed capital under management as of June 30, 2012, primarily through Ares Corporate Opportunities Fund L.P., Ares Corporate Opportunities Fund II, L.P., Ares Corporate Opportunities Fund III, L.P. and Ares Corporate Opportunities Fund IV, L.P. (collectively referred to as "ACOF"). ACOF generally makes private equity investments in amounts substantially larger than the private equity investments anticipated to be made by Ares Capital. In particular, the Ares Private Equity Group generally focuses on control-oriented equity investments in under-capitalized companies or companies with capital structure issues.

Ares' senior partners have been working together as a group for many years and have an average of over 22 years of experience in leveraged finance, private equity, distressed debt, investment banking and capital markets. They are backed by a team of 231 highly disciplined investment professionals as of June 30, 2012 covering current investments in more than 1,100 companies across over 30 industries. Ares' rigorous investment approach is based upon an intensive, independent financial analysis, with a focus on preservation of capital, diversification and active portfolio management. These fundamentals underlie Ares' investment strategy and have resulted in large pension funds, banks, insurance companies, endowments and certain high net worth individuals investing in Ares' funds.

**Ares Capital Management**

Ares Capital Management, our investment adviser, is served by an origination, investment and portfolio management team of 73 U.S.-based investment professionals as of June 30, 2012 led by the senior partners of the Ares Private Debt Group: Michael Arougheti, Eric Beckman, Kipp deVeer, Mitchell Goldstein and Michael Smith. Ares Capital Management leverages off of Ares' investment platform and benefits from the significant capital markets, trading and research expertise of Ares' investment professionals. Ares Capital Management's investment committee has eight members, including the senior partners of the Ares Private Debt Group, senior partners in the Ares Private Equity Group and a senior adviser to the Ares Capital Markets Group.

Table of Contents

**MARKET OPPORTUNITY**

We believe that current market conditions present attractive opportunities for us to invest in middle-market companies; specifically:

We believe that the volatility in global markets over the last several years has reduced capital available to certain specialty finance companies and other capital providers, causing a reduction in competition and generally more favorable capital structures and deal terms. These market conditions may continue to create opportunities to achieve attractive risk-adjusted returns.

We believe that many traditional bank lenders have, in recent years, de-emphasized their service and product offerings to middle-market businesses in favor of lending to large corporate clients and managing capital markets transactions. In addition, these lenders are limited in their ability to underwrite and syndicate bank loans and high yield securities for middle-market issuers as they seek to build capital and meet future regulatory capital requirements. These factors may result in opportunities for alternative funding sources to middle market companies and therefore more new-issue market opportunities for us.

We believe that there is a lack of market participants that are willing to not only underwrite but also hold loans. As a result, we believe our ability to minimize syndication risk for a company seeking financing by being able to hold our loans without having to syndicate them is a competitive advantage.

We believe there is a large pool of uninvested private equity capital for middle-market businesses. We expect private equity firms will seek to leverage their investments by combining equity capital with senior secured loans and mezzanine debt from other sources, such as us.

We believe that the scheduled expirations of reinvestment periods for a significant amount of collateralized loan obligation vehicles may reduce the amount of funding available for larger middle market businesses over time.

A high volume of senior secured and high yield debt will come due in the near term and, accordingly, we believe that new financing opportunities will increase as many companies seek to refinance this indebtedness.

**COMPETITIVE ADVANTAGES**

We believe that we have the following competitive advantages over other capital providers to middle-market companies:

**The Ares Platform**

As of June 30, 2012, Ares had approximately \$54 billion of total committed capital under management in the related asset classes of non-syndicated first and second lien senior loans, syndicated loans, high yield bonds, mezzanine debt and private equity. We believe Ares' current investment platform provides a competitive advantage in terms of access to origination and marketing activities and diligence for Ares Capital. Specifically, the Ares platform provides the Company an advantage through its deal flow generation and investment evaluation process. Ares' asset management platform also provides additional market information, company knowledge and industry insight that benefit the investment and due diligence process. Ares' professionals maintain extensive financial sponsor and intermediary relationships, which provide valuable insight and access to transactions and information. Ares' senior partners have an average of more than 22 years of experience in leveraged finance, including substantial experience in investing in leveraged loans, high yield bonds, mezzanine debt, distressed debt and private equity securities.

Table of Contents

**Seasoned Management Team**

The investment professionals in the Ares Private Debt Group and members of our investment adviser's investment committee have significant experience originating and investing across market cycles. As a result of Ares' extensive investment experience in private debt and the history of the Ares Private Debt Group's seasoned management team, Ares Capital has developed a strong reputation for an ability to originate and invest across market cycles. This experience also provided Ares Capital with a competitive advantage in identifying, originating, investing in and managing a portfolio of investments in middle-market companies.

**Broad Origination Strategy**

We focus on self-originating most of our investments by pursuing a broad array of investment opportunities in middle-market companies across multiple channels. We also leverage the extensive relationships of the broader Ares platform, including relationships with the portfolio companies held by the IHAM Vehicles, to identify investment opportunities. We believe that this allows for asset selectivity and that there is a significant relationship between proprietary deal origination and credit performance. We believe that our focus on generating proprietary deal flow and lead investing also gives us greater control over capital structure, deal terms, pricing and documentation and enables us to actively manage our portfolio investments. Moreover, by leading the investment process, we are often able to secure controlling positions in credit tranches, thereby providing additional control in investment outcomes. We also have originated substantial proprietary deal flow from middle-market intermediaries, which often allows us to act as the sole or principal source of institutional capital to the borrower.

**Experience with and Focus on Middle-Market Companies**

Ares has historically focused on investments in middle-market companies and we benefit from this experience. In sourcing and analyzing deals, our investment adviser benefits from Ares' extensive network of relationships focused on middle-market companies, including management teams, members of the investment banking community, private equity groups and other investment firms with whom Ares has had long-term relationships. We believe this network enables us to identify well-positioned prospective portfolio company investments. The Ares Private Debt Group works closely with Ares' other investment professionals, who together currently oversee a portfolio of investments in over 1,100 companies across over 30 industries, and provide access to an extensive network of relationships and insights into industry trends and the state of the capital markets.

**Disciplined Investment Philosophy**

In making its investment decisions, our investment adviser has adopted Ares' long-standing, consistent, credit-based investment approach that was developed over 22 years ago by its founders. Specifically, our investment adviser's investment philosophy, portfolio construction and portfolio management involve an assessment of the overall macroeconomic environment and financial markets and company-specific research and analysis. Its investment approach emphasizes capital preservation, low volatility and minimization of downside risk. In addition to engaging in extensive due diligence from the perspective of a long-term investor, our investment adviser's approach seeks to reduce risk in investments by focusing on:

businesses with strong franchises and sustainable competitive advantages;

industries with positive long-term dynamics;

businesses and industries with cash flows that are dependable and predictable;

management teams with demonstrated track records and appropriate economic incentives;

Table of Contents

rates of return commensurate with the perceived risks;

securities or investments that are structured with appropriate terms and covenants; and

businesses backed by experienced private equity sponsors.

**Extensive Industry Focus**

We seek to concentrate our investing activities in industries with a history of predictable and dependable cash flows and in which the Ares investment professionals have had extensive investment experience. Ares investment professionals have developed long-term relationships with management teams and management consultants in over 30 industries, and have accumulated substantial information and identified potential trends within these industries. In turn, we benefit from these relationships, information and identification of potential trends in making investments.

**Scale and Flexible Transaction Structuring**

We believe that being one of the largest BDCs makes us a more desirable and flexible capital provider, especially in competitive markets. We are flexible in structuring investments, including the types of investments and the terms associated with such investments. Ares has extensive experience investing in a wide variety of structures for companies with a diverse set of terms and conditions. We believe this approach and experience enables our investment adviser to identify attractive investment opportunities throughout economic cycles and across a company's capital structure so we can make investments consistent with our stated investment objective and preserve principal while seeking appropriate risk adjusted returns. In addition, we have the ability to provide "one stop" financing with the ability to invest capital across the balance sheet and syndicate and hold larger investments than many of our competitors. We believe that the ability to underwrite, syndicate and hold larger investments benefits our stockholders by (a) potentially increasing net income and earnings through syndication, (b) increasing originated deal flow flexibility, (c) broadening market relationships and deal flow, (d) allowing us to optimize our portfolio composition and (e) allowing us to provide capital to middle-market companies, which we believe currently have limited access to capital from traditional lending sources. In addition, we believe that the ability to provide capital at every level of the balance sheet provides a strong value proposition to middle-market borrowers and our senior debt capabilities provide superior deal origination and relative value analysis capabilities compared to traditional "mezzanine only" lenders.

**OPERATING AND REGULATORY STRUCTURE**

Our investment activities are managed by Ares Capital Management, which is wholly owned by Ares, and supervised by our board of directors, a majority of whom are required to be independent of Ares and its affiliates, subject to certain cure periods. See "Risk Factors As a result of the death of Kenneth R. Heitz, who was an independent director, we are not in compliance with certain NASDAQ Global Select Market listing requirements." Ares Capital Management is registered under the Investment Advisers Act of 1940, or the "Advisers Act." Under our investment advisory and management agreement, we have agreed to pay Ares Capital Management an annual base management fee based on our total assets, as defined under the Investment Company Act (other than cash and cash equivalents, but including assets purchased with borrowed funds), and an incentive fee based on our performance. See "Management Investment Advisory and Management Agreement."

As a BDC, we are required to comply with certain regulatory requirements. While we are permitted to finance investments using debt, our ability to use debt is limited in certain significant respects. See "Business Operating and Regulatory Structure" and "Regulation." We have elected to be treated for U.S. federal income tax purposes as a regulated investment company, or a "RIC," under

Table of Contents

Subchapter M of the Internal Revenue Code of 1986, or the "Code." See "Certain Material U.S. Federal Income Tax Considerations."

**MARKET CONDITIONS**

Due to the volatility in global markets, the availability of capital and access to capital markets has been limited over the last several years. As the global liquidity situation and market conditions evolve, we will continue to monitor and adjust our approach to funding accordingly. However, given the unprecedented nature of the volatility in the global markets over the past several years and the uncertainty around the strength of the U.S. and global economies, there can be no assurances that these activities will be successful. While the current markets have improved from various periods of market dislocation and volatility, there can be no assurance that they will not worsen again in the future. If they do, we could face materially higher financing costs. Consequently, our operating strategy could be materially and adversely affected. See "Risk Factors Risks Relating to Our Business Capital markets have been in a period of disruption and instability for an extended period of time. These market conditions materially and adversely affected debt and equity capital markets in the United States, which had, and may in the future continue to have, a negative impact on our business and operations."

In connection with the prior depressed market conditions of the general economy, the stocks of BDCs as an industry have in the past traded at near historic lows as a result of concerns over liquidity, credit quality, leverage restrictions and distribution requirements. In some cases, certain BDCs became "forced sellers" of assets, defaulted on their indebtedness, decreased their distributions to stockholders or announced share repurchase programs. We cannot assure you that the market pressures we may face in the future will not have a material adverse effect on our business, financial condition and results of operations.

**ACQUISITION OPPORTUNITIES**

We believe the dislocation and illiquidity in the credit markets over the past several years has increased the likelihood of further consolidation in our industry. To that end, we and our portfolio company IHAM are evaluating (and expect to continue to evaluate in the future) a number of potential strategic acquisition opportunities, including acquisitions of:

asset portfolios;

contracts to manage CLO vehicles and other investment vehicles;

other private and public finance companies or asset managers; and

selected secondary market assets.

We and our portfolio company IHAM have been and from time to time engage in discussions with counterparties in respect of various potential strategic acquisition and investment transactions, including potential acquisitions of other finance companies. Some of these transactions could be material to our business and, if consummated, could be difficult to integrate, result in increased leverage or dilution and/or subject us to unexpected liabilities. However, none of these discussions has progressed to the point where the consummation of any such transaction could be deemed to be probable or reasonably certain as of the date of this prospectus. Consummation of any such transaction would be subject to completion of due diligence, finalization of key business and financial terms (including price) and negotiation of final definitive documentation as well as a number of other factors and conditions including, without limitation, the approval of our board of directors (after having determined that such transaction is in the best interest of our stockholders), any required third party consents and, in certain cases, the approval of our stockholders. We cannot predict how quickly the terms of any such transaction could be finalized, if at all. Accordingly, there can be no assurance that definitive

Table of Contents

documentation for any such transaction would be executed or even if executed, that any such transaction would be consummated. In connection with evaluating potential strategic acquisition and investment transactions, we have, and may in the future, incur significant expenses for the evaluation and due diligence investigation of these potential transactions.

**LIQUIDITY**

As of June 30, 2012, we had approximately \$2.3 billion in aggregate principal amount of total outstanding indebtedness, approximately \$1.5 billion aggregate principal amount of which was unsecured indebtedness of Ares Capital and approximately \$0.8 billion of which was secured indebtedness of our consolidated subsidiaries.

As of June 30, 2012, our outstanding indebtedness consisted of the following: (i) \$295.0 million in aggregate principal amount under our revolving credit facility (the "Revolving Credit Facility"), (ii) \$348.0 million in aggregate principal amount under the revolving funding facility of our consolidated subsidiary, Ares Capital CP Funding LLC ("Ares Capital CP") (the "Revolving Funding Facility"), (iii) \$107.0 million in aggregate principal amount under the revolving funding facility of our consolidated subsidiary, Ares Capital JB Funding LLC ("ACJB"), with Sumitomo Mitsui Banking Corporation ("SMBC") (the "SMBC Funding Facility" and, together with the Revolving Credit Facility and the Revolving Funding Facility, the "Facilities"), (iv) \$143.8 million aggregate principal amount of our 7.00% senior notes that mature on February 15, 2022 (the "2022 Notes"), (v) \$200.0 million aggregate principal amount of our 7.75% senior notes that mature on October 15, 2040 (the "2040 Notes"), (vi) \$230.0 million aggregate principal amount of our 6.875% senior notes due on April 15, 2047 (the "2047 Notes" and, together with the 2022 Notes and the 2040 Notes, the "Unsecured Notes"), (vii) \$575.0 million aggregate principal amount of our convertible senior unsecured notes that mature on February 1, 2016 (the "February 2016 Convertible Notes"), (viii) \$230.0 million aggregate principal amount of our convertible senior unsecured notes that mature on June 1, 2016 (the "June 2016 Convertible Notes") and (ix) \$162.5 million aggregate principal amount of our convertible senior unsecured notes that mature on March 15, 2017 (the "2017 Convertible Notes" and, together with the February 2016 Convertible Notes and the June 2016 Convertible Notes, the "Convertible Notes").

For more information on the Company's debt, see "Management's Discussion and Analysis of Financial Condition and Results of Operations Financial Condition, Liquidity and Capital Resources" and "Recent Developments."

**RECENT DEVELOPMENTS**

In July 2012, pursuant to the terms of the Revolving Funding Facility, Ares Capital CP received an increase in the commitments under the Revolving Funding Facility of \$40 million, bringing the total commitments to \$620 million.

In August 2012, we declared a third quarter dividend of \$0.38 per share and an additional dividend of \$0.05 per share. Both dividends are payable on September 28, 2012 to stockholders of record as of September 14, 2012.

Table of Contents

**RISK FACTORS**

Investing in Ares Capital involves risks. The following is a summary of certain risks that you should carefully consider before investing in our securities. In addition, see "Risk Factors" beginning on page 24 for a more detailed discussion of the factors you should carefully consider before deciding to invest in our securities.

**Risks Relating to Our Business**

Capital markets have been in a period of disruption and instability for an extended period of time. These market conditions materially and adversely affected debt and equity capital markets in the United States, which had, and may in the future continue to have, a negative impact on our business and operations.

A failure on our part to maintain our status as a BDC would significantly reduce our operating flexibility.

We are dependent upon certain key personnel of Ares for our future success and upon their access to other Ares investment professionals.

Our financial condition and results of operations depend on our ability to manage future growth effectively.

Our ability to grow depends on our ability to raise capital.

Regulations governing our operation as a BDC affect our ability to, and the way in which we, raise additional capital.

We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us.

In addition to regulatory requirements that restrict our ability to raise capital, the Facilities, the Unsecured Notes and the Convertible Notes contain various covenants that, if not complied with, could accelerate repayment under the Facilities, the Unsecured Notes and the Convertible Notes, thereby materially and adversely affecting our liquidity, financial condition and results of operations.

Our credit ratings may change and as a result the cost and flexibility under our debt instruments may change.

We operate in a highly competitive market for investment opportunities.

We may be subject to certain corporate-level taxes regardless of whether we continue to qualify as a RIC.

We may have difficulty paying our required distributions under applicable tax rules if we recognize income before or without receiving cash representing such income.

We are exposed to risks associated with changes in interest rates.

## Edgar Filing: ARES CAPITAL CORP - Form 497

Most of our portfolio investments are not publicly traded and, as a result, the fair value of these investments may not be readily determinable.

The lack of liquidity in our investments may adversely affect our business.

We may experience fluctuations in our quarterly results.

There are significant potential conflicts of interest that could impact our investment returns.

Table of Contents

Changes in laws or regulations governing our operations or the operations of our portfolio companies, changes in the interpretation thereof or newly enacted laws or regulations, such as the Dodd-Frank Act, and any failure by us or our portfolio companies to comply with these laws or regulations, could require changes to certain business practices of us or our portfolio companies, negatively impact the operations, cash flows or financial condition of us or our portfolio companies, impose additional costs on us or our portfolio companies or otherwise adversely affect our business or the business of our portfolio companies.

Our investment adviser's liability is limited under the investment advisory and management agreement, and we are required to indemnify our investment adviser against certain liabilities, which may lead our investment adviser to act in a riskier manner on our behalf than it would when acting for its own account.

We may be obligated to pay our investment adviser incentive compensation even if we incur a loss.

We may not replicate Ares' historical success and our ability to enter into transactions with Ares and our other affiliates is restricted.

As a result of the death of Kenneth R. Heitz, who was an independent director, we are not in compliance with certain NASDAQ Global Select Market listing requirements.

**Risks Relating to Our Investments**

Declines in market prices and liquidity in the corporate debt markets can result in significant net unrealized depreciation of our portfolio, which in turn would reduce our net asset value.

Economic recessions or downturns could impair our portfolio companies and harm our operating results.

Investments in privately held middle-market companies involve significant risks.

Our debt investments may be risky and we could lose all or part of our investment.

Investments in equity securities, many of which are illiquid with no readily available market, involve a substantial degree of risk.

There may be circumstances where our debt investments could be subordinated to claims of other creditors or we could be subject to lender liability claims.

Our portfolio companies may incur debt or issue equity securities that rank equally with, or senior to, our investments in such companies.

When we are a debt or minority equity investor in a portfolio company, we are often not in a position to exert influence on the entity, and other equity holders and management of the company may make decisions that could decrease the value of our portfolio holdings.

Edgar Filing: ARES CAPITAL CORP - Form 497

Our portfolio companies may be highly leveraged.

Our investment adviser's incentive fee may induce it to make certain investments, including speculative investments.

Our investments in foreign companies may involve significant risks in addition to the risks inherent in U.S. investments.

We may expose ourselves to risks if we engage in hedging transactions.

Table of Contents

We may initially invest a portion of the net proceeds of offerings pursuant to this prospectus primarily in high-quality short-term investments, which will generate lower rates of return than those expected from the interest generated on first and second lien loans and mezzanine debt.

**Risks Relating to Offerings Pursuant to this Prospectus**

Our shares of common stock have traded at a discount from net asset value and may do so again in the future, which could limit our ability to raise additional equity capital.

There is a risk that investors in our common stock may not receive dividends or that our dividends may not grow over time and that investors in our debt securities may not receive all of the interest income to which they are entitled.

Provisions of the Maryland General Corporation Law and of our charter and bylaws could deter takeover attempts and have an adverse impact on the price of our common stock.

Investing in our common stock may involve an above average degree of risk.

The market price of our common stock may fluctuate significantly.

We may in the future determine to issue preferred stock, which could adversely affect the market value of our common stock.

The net asset value per share of our common stock may be diluted if we sell shares of our common stock in one or more offerings at prices below the then current net asset value per share of our common stock or securities to subscribe for or convertible into shares of our common stock.

Your interest in us may be diluted if you do not fully exercise your subscription rights in any rights offering. In addition, if the subscription price is less than our net asset value per share, then you will experience an immediate dilution of the aggregate net asset value of your shares.

Investors in offerings of our common stock will likely incur immediate dilution upon the closing of such offering.

Our stockholders will experience dilution in their ownership percentage if they opt out of our dividend reinvestment plan.

Our stockholders may experience dilution upon the conversion of the Convertible Notes.

Our stockholders may receive shares of our common stock as dividends, which could result in adverse tax consequences to them.

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of our common stock.

## Edgar Filing: ARES CAPITAL CORP - Form 497

The trading market or market value of our publicly issued debt securities may fluctuate.

Terms relating to redemption may materially adversely affect your return on any debt securities that we may issue.

Our credit ratings may not reflect all risks of an investment in our debt securities.

### **OUR CORPORATE INFORMATION**

Our administrative offices are located at 2000 Avenue of the Stars, 12th Floor, Los Angeles, California 90067, telephone number (310) 201-4200, and our executive offices are located at 245 Park Avenue, 44th Floor, New York, New York 10167, telephone number (212) 750-7300.

Table of Contents

**OFFERINGS**

We may offer, from time to time, in one or more offerings or series, up to \$3,000,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock, warrants representing rights to purchase shares of our common stock, preferred stock or debt securities, or units comprised of any combination of the foregoing, on terms to be determined at the time of the offering. We will offer our securities at prices and on terms to be set forth in one or more supplements to this prospectus. The offering price per share of our common stock, less any underwriting commissions or discounts, generally will not be less than the net asset value per share of our common stock at the time of an offering. However, we may issue shares of our common stock pursuant to this prospectus at a price per share that is less than our net asset value per share (a) in connection with a rights offering to our existing stockholders, (b) with the prior approval of the majority of our common stockholders or (c) under such other circumstances as the SEC may permit. Any such issuance of shares of our common stock below net asset value may be dilutive to the net asset value of our common stock. See "Risk Factors Risks Relating to Offerings Pursuant to this Prospectus."

At our 2012 annual stockholders meeting, subject to certain determinations required to be made by our board of directors, our stockholders approved our ability to sell or otherwise issue shares of our common stock, not exceeding 25% of our then outstanding common stock, at a price below the then current net asset value per share during a period beginning on June 4, 2012 and expiring on the earlier of June 4, 2013 and the date of our 2013 annual stockholders meeting.

We may offer our securities directly to one or more purchasers, including existing stockholders in a rights offering, through agents that we designate from time to time or to or through underwriters or dealers. The prospectus supplement relating to each offering will identify any agents or underwriters involved in the sale of our securities, and will set forth any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See "Plan of Distribution." We may not sell any of our securities through agents, underwriters or dealers without delivery of a prospectus supplement describing the method and terms of the offering of our securities.

Set forth below is additional information regarding offerings of our securities:

Use of proceeds	Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from the sale of our securities for general corporate purposes, which includes, among other things, (a) investing in portfolio companies in accordance with our investment objective and (b) repaying indebtedness. Each supplement to this prospectus relating to an offering will more fully identify the use of the proceeds from such offering. See "Use of Proceeds."
Distributions	We currently intend to distribute dividends or make distributions to our stockholders on a quarterly basis out of assets legally available for distribution. We may also distribute additional dividends or make additional distributions to our stockholders from time to time. Our quarterly and additional dividends or distributions, if any, will be determined by our board of directors. For more information, see "Price Range of Common Stock and Distributions."

Table of Contents

Taxation	We have elected to be treated as a RIC for U.S. federal income tax purposes. As a RIC, we generally will not pay corporate-level U.S. federal income taxes on any income and gain that we distribute to our stockholders as dividends on a timely basis. Among other things, in order to maintain our RIC status, we must meet specified source of income and asset diversification requirements and distribute annually generally an amount equal to at least 90% of our investment company taxable income, out of assets legally available for distribution. See "Risk Factors Risks Relating to Our Business We may be subject to certain corporate-level taxes regardless of whether we continue to qualify as a RIC" and "Price Range of Common Stock and Distributions."
Dividend reinvestment plan	We have a dividend reinvestment plan for our stockholders. This is an "opt out" dividend reinvestment plan. As a result, if we declare a cash dividend, then stockholders' dividends will be automatically reinvested in additional shares of our common stock, unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash. Stockholders whose cash dividends are reinvested in additional shares of our common stock will be subject to the same U.S. federal, state and local tax consequences as stockholders who elect to receive their dividends in cash. See "Dividend Reinvestment Plan."
The NASDAQ Global Select Market symbol	"ARCC"
Anti-takeover provisions	Our board of directors is divided into three classes of directors serving staggered three-year terms. This structure is intended to provide us with a greater likelihood of continuity of management, which may be necessary for us to realize the full value of our investments. A staggered board of directors also may serve to deter hostile takeovers or proxy contests, as may certain other measures adopted by us. See "Description of Our Capital Stock."
Leverage	We borrow funds to make additional investments. We use this practice, which is known as "leverage," to attempt to increase returns to our common stockholders, but it involves significant risks. See "Risk Factors," "Senior Securities" and "Regulation Indebtedness and Senior Securities." With certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, equals at least 200% after such borrowing. The amount of leverage that we employ at any particular time will depend on our investment adviser's and our board of directors' assessments of market and other factors at the time of any proposed borrowing.
Management arrangements	Ares Capital Management serves as our investment adviser. Ares Operations serves as our administrator. For a description of Ares Capital Management, Ares Operations, Ares and our contractual arrangements with these companies, see "Management Investment Advisory and Management Agreement," and " Administration Agreement."

Available information

We are required to file periodic reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at [www.arescapitalcorp.com](http://www.arescapitalcorp.com). The information on our website is not deemed incorporated by reference in this prospectus. The SEC also maintains a website at [www.sec.gov](http://www.sec.gov) that contains this information.

Table of Contents**FEEs AND EXPENSES**

The following table is intended to assist you in understanding the costs and expenses that an investor in our common stock will bear, directly or indirectly, based on the assumptions set forth below. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this table contains a reference to our fees or expenses, we will pay such fees and expenses out of our net assets and, consequently, stockholders will indirectly bear such fees or expenses as investors in Ares Capital.

<b>Stockholder transaction expenses (as a percentage of offering price):</b>	
Sales load	(1)
Offering expenses	(2)
Dividend reinvestment plan expenses	None (3)
<b>Total stockholder transaction expenses paid</b>	<b>(4)</b>
<b>Annual expenses (as a percentage of consolidated net assets attributable to common stock)(5):</b>	
Management fees	2.46%(6)
Incentive fees	2.89%(7)
Interest payments on borrowed funds	3.99%(8)
Other expenses	1.33%(9)
Acquired fund fees and expenses	0.01%(10)
Total annual expenses	10.68%(11)

- 
- (1) In the event that the securities to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will disclose the applicable sales load (underwriting discount or commission). Purchases of shares of our common stock on the secondary market are not subject to sales charges but may be subject to brokerage commissions or other charges. The table does not include any sales load that stockholders may have paid in connection with their purchase of shares of our common stock.
- (2) The related prospectus supplement will disclose the estimated amount of offering expenses, the offering price and the offering expenses borne by us as a percentage of the offering price.
- (3) The expenses of the dividend reinvestment plan are included in "Other expenses."
- (4) The related prospectus supplement will disclose the offering price and the total stockholder transaction expenses as a percentage of the offering price.
- (5) The "consolidated net assets attributable to common stock" used to calculate the percentages in this table is our average net assets of \$3.4 billion for the six months ended June 30, 2012.
- (6) Our management fee is currently 1.5% of our total assets other than cash and cash equivalents (which includes assets purchased with borrowed amounts). For the purposes of this table, we have assumed that we maintain no cash or cash equivalents. The 2.46% reflected on the table is higher than 1.5% because it is calculated on our average net assets (rather than our average total assets). See "Management Investment Advisory and Management Agreement."

(7)

This item represents our investment adviser's incentive fees estimated by annualizing our incentive fee related to our pre-incentive fee net investment income for the six months ended June 30, 2012 and annualizing our accrual in accordance with GAAP of a capital gains incentive fee of \$6.3 million for the six months ended June 30, 2012, even though no capital gains incentive fee was payable under the investment advisory and management agreement.

GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate

Table of Contents

unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Company Act or the investment advisory and management agreement. This GAAP accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the Capital Gains Fee (as defined below) plus the aggregate cumulative unrealized capital appreciation. If such amount is positive at the end of a period, then GAAP requires us to record a capital gains incentive fee equal to 20% of such cumulative amount, less the aggregate amount of actual Capital Gains Fees paid or capital gains incentive fees accrued under GAAP in all prior periods. The resulting accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reversal of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future or that the amount accrued for will ultimately be paid.

For purposes of this table, we have assumed that these fees will be payable (in the case of the capital gain incentive fee) and that they will remain constant, although they are based on Ares Capital's performance and will not be paid unless Ares Capital achieves certain goals. We expect to invest or otherwise utilize all of the net proceeds from securities registered under the registration statement of which this prospectus is a part pursuant to a particular prospectus supplement within three months of the date of the offering pursuant to such prospectus supplement and may have capital gains and interest income that could result in the payment of an incentive fee to our investment adviser in the first year after completion of offerings pursuant to this prospectus. Since our initial public offering through June 30, 2012, the average quarterly incentive fee accrued (including capital gains incentive fees accrued under GAAP even though they may not be payable) has been approximately 0.76% of our weighted average net assets (3.03% on an annualized basis). For more detailed information on the calculation of our incentive fees, please see below. For more detailed information about incentive fees previously incurred by us, please see Note 3 to our consolidated financial statements for the year ended December 31, 2011 and the three and six months ended June 30, 2012.

The incentive fee consists of two parts:

The first, payable quarterly in arrears, equals 20% of our pre-incentive fee net investment income (including interest that is accrued but not yet received in cash), subject to a 1.75% quarterly (7.0% annualized) hurdle rate and a "catch-up" provision measured as of the end of each calendar quarter. Under this provision, in any calendar quarter, our investment adviser receives no incentive fee until our net investment income equals the hurdle rate of 1.75% but then receives, as a "catch-up," 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.1875%. The effect of this provision is that, if pre-incentive fee net investment income exceeds 2.1875% in any calendar quarter, our investment adviser will receive 20% of our pre-incentive fee net investment income as if a hurdle rate did not apply.

The second part, payable annually in arrears, equals 20% of our realized capital gains on a cumulative basis from inception through the end of the year, if any, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees.

We will defer cash payment of any incentive fee otherwise earned by our investment adviser if, during the most recent four full calendar quarter period ending on or prior to the date such

Table of Contents

payment is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 7.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period.

These calculations will be adjusted for any share issuances or repurchases.

See "Management Investment Advisory and Management Agreement."

- (8) "Interest payments on borrowed funds" represents our interest expense estimated by annualizing our actual interest and credit facility expenses incurred for the six months ended June 30, 2012. During the six months ended June 30, 2012, our average outstanding borrowings were \$2,103.9 million and cash paid for interest expense was \$50.4 million. We had outstanding borrowings of \$2,291.3 million (with a carrying value of \$2,194.8 million) at June 30, 2012. This item is based on our assumption that our borrowings and interest costs after an offering will remain similar to those prior to such offering. The prospectus supplement related to the offering of any debt securities pursuant to this prospectus will calculate this item based on the effects of our borrowings and interest costs after the issuance of such debt securities. The amount of leverage that we employ at any particular time will depend on, among other things, our board of directors' and our investment adviser's assessment of market and other factors at the time of any proposed borrowing. See "Risk Factors Risks Relating to Our Business We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us."
- (9) Includes our overhead expenses, including payments under our administration agreement (as defined below), based on our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, and income taxes. Such expenses are estimated by annualizing "Other expenses" for the six months ended June 30, 2012. The holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) indirectly bear the cost associated with our annual expenses. See "Management Administration Agreement."
- (10) The Company's stockholders indirectly bear the expenses of underlying funds or other investment vehicles that would be investment companies under section 3(a) of the Investment Company Act but for the exceptions to that definition provided for in sections 3(c)(1) and 3(c)(7) of the Investment Company Act ("Acquired Funds") in which the Company invests. This amount includes the estimated annual fees and expenses of Acquired Funds in which the Company is invested as of June 30, 2012. Certain of these Acquired Funds are subject to management fees, which generally range from 1% to 2.5% of total net assets, or incentive fees, which generally range between 15% to 25% of net profits. When applicable, fees and expenses estimates are based on historic fees and expenses for the Acquired Funds. For those Acquired Funds with little or no operating history, fees and expenses are estimates based on expected fees and expenses stated in the Acquired Funds' offering memorandum, private placement memorandum or other similar communication without giving effect to any performance. Future fees and expenses for these Acquired Funds may be substantially higher or lower because certain fees and expenses are based on the performance of the Acquired Funds, which may fluctuate over time.
- (11) "Total annual expenses" as a percentage of consolidated net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage and increase our total assets. The SEC requires that the "Total annual expenses" percentage be calculated as a percentage of net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period), rather than the total assets, including assets that have been funded with borrowed monies. As noted above, "Total annual expenses" is estimated by annualizing certain fees and expenses for

Table of Contents

the six months ended June 30, 2012, including the capital gains incentive fee required by GAAP for the six months ended June 30, 2012.

**Example**

The following example demonstrates the projected dollar amount of total cumulative expenses over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed that we would have no additional leverage, that none of our assets are cash or cash equivalents, and that our annual operating expenses would remain at the levels set forth in the table above. Transaction expenses are not included in the following example. In the event that shares to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will restate this example to reflect the applicable sales load.

	1 year	3 years	5 years	10 years
You would pay the following expenses on a \$1,000 common stock investment, assuming a 5% annual return(1)	\$ 80	\$ 232	\$ 376	\$ 699

(1)

The above illustration assumes that we will not realize any capital gains computed net of all realized capital losses and unrealized capital depreciation. The expenses you would pay, based on a \$1,000 investment and assuming a 5% annual return resulting entirely from net realized capital gains (and therefore subject to the capital gain incentive fee), and otherwise making the same assumptions in the example above, would be: 1 year, \$90; 3 years, \$260; 5 years, \$420; and 10 years, \$772. However, cash payment of the capital incentive fee would be deferred if, during the most recent four full calendar quarter period ending on or prior to the date the payment set forth in the example is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) was less than 7.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period (as adjusted for any share issuances or repurchases).

The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The incentive fee under the investment advisory and management agreement, which, assuming a 5% annual return, would either not be payable or have an insignificant impact on the expense amounts shown above, is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, if our board of directors authorizes and we declare a cash dividend, participants in our dividend reinvestment plan who have not otherwise elected to receive cash will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the valuation date for the dividend. See "Dividend Reinvestment Plan" for additional information regarding our dividend reinvestment plan.

**This example and the expenses in the table above should not be considered a representation of our future expenses as actual expenses (including the cost of debt, if any, and other expenses) that we may incur in the future and such actual expenses may be greater or less than those shown.**

Table of Contents

**SELECTED CONDENSED CONSOLIDATED FINANCIAL DATA OF ARES CAPITAL**

The following selected financial and other data as of and for the years ended December 31, 2011, 2010, 2009, 2008 and 2007 are derived from our consolidated financial statements, which have been audited by KPMG LLP, an independent registered public accounting firm whose report thereon is included elsewhere in this prospectus. The selected financial and other data for the six months ended June 30, 2012 and other quarterly financial information is derived from our unaudited financial statements, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results as of and for the six months ended June 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012. The data should be read in conjunction with our consolidated financial statements and notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities," which are included elsewhere in this prospectus or the accompanying prospectus supplement.

(1) In accordance with Accounting Standards Codification ("ASC") 260-10 (previously Statement of Financial Accounting Standards ("SFAS") No. 128, Earnings Per Share), the weighted average shares of common stock outstanding used in computing basic and diluted earnings per common share have been adjusted retroactively by a factor of 1.02% to recognize the bonus element associated with rights to acquire shares of common stock that we issued to stockholders of record as of March 24, 2008 in connection with a rights offering.

(2) Includes commitments to portfolio companies for which funding had yet to occur.

Table of Contents

- (3) Weighted average yield on debt and other income producing securities at fair value is computed as (a) the annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt and other income producing securities, divided by (b) total debt and other income producing securities at fair value. Weighted average yield on debt and other income producing securities at amortized cost is computed as (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt and income producing securities, divided by (b) total debt and other income producing securities at amortized cost.
- (4) Total return based on market value for the six months ended June 30, 2012 equals the increase of the ending market value at June 30, 2012 of \$15.96 per share over the ending market value at December 31, 2011 of \$15.45 per share plus the declared dividends of \$0.74 per share for the six months ended June 30, 2012. Total return based on market value for the year ended December 31, 2011 equals the decrease of the ending market value at December 30, 2011 of \$15.45 per share from the ending market value at December 31, 2010 of \$16.48 per share plus the declared dividends of \$1.41 per share for the year ended December 31, 2011. Total return based on market value for the year ended December 31, 2010 equals the increase of the ending market value at December 31, 2010 of \$16.48 per share over the ending market value at December 31, 2009 of \$12.45 per share plus the declared dividends of \$1.40 per share for the year ended December 31, 2010. Total return based on market value for the year ended December 31, 2009 equals the increase of the ending market value at December 31, 2009 of \$12.45 per share over the ending market value at December 31, 2008 of \$6.33 per share plus the declared dividends of \$1.47 per share for the year ended December 31, 2009. Total return based on market value for the year ended December 31, 2008 equals the decrease of the ending market value at December 31, 2008 of \$6.33 per share from the ending market value at December 31, 2007 of \$14.63 per share plus the declared dividends of \$1.68 per share for the year ended December 31, 2008. Total return based on market value for the year ended December 31, 2007 equals the decrease of the ending market value at December 31, 2007 of \$14.63 per share from the ending market value at December 31, 2006 of \$19.11 per share plus the declared dividends of \$1.66 per share for the year ended December 31, 2007. Total return based on market value is not annualized.
- (5) Total return based on net asset value for the six months ended June 30, 2012 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$0.74 per share for the six months ended June 30, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2011 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.41 per share for the year ended December 31, 2011, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2010 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.40 per share for the year ended December 31, 2010, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2009 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.47 per share for the year ended December 31, 2009, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2008 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.68 per share for the year ended December 31, 2008, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2007 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.66 per share for the year ended December 31, 2007, divided by the beginning net asset value. Total return based on net asset value is not annualized.

**RISK FACTORS**

*Before you invest in our securities, you should be aware of various risks, including those described below. You should carefully consider these risk factors, together with all of the other information included in this prospectus and the accompanying prospectus supplement, including our consolidated financial statements and the related notes thereto, before you decide whether to make an investment in our securities. The risks set out below are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. If any of the following events occur, our business, financial condition and results of operations could be materially adversely affected. In such case, the net asset value of our common stock and the trading price of our securities could decline, and you may lose all or part of your investment.*

**RISKS RELATING TO OUR BUSINESS**

**Capital markets have been in a period of disruption and instability for an extended period of time. These market conditions materially and adversely affected debt and equity capital markets in the United States, which had, and may in the future continue to have, a negative impact on our business and operations.**

The U.S. capital markets have been in a period of disruption for an extended period of time as evidenced by a lack of liquidity in the debt capital markets, significant write-offs in the financial services sector, the re-pricing of credit risk in the broadly syndicated credit market and the failure of major financial institutions. Despite actions of the U.S. federal government, these events contributed to worsening general economic conditions that materially and adversely impacted the broader financial and credit markets and reduced the availability of debt and equity capital for the market as a whole and financial services firms in particular. While market conditions have improved from the beginning of the disruption, there have been recent periods of volatility and there can be no assurance that adverse market conditions will not repeat themselves or worsen in the future. If these adverse and volatile market conditions continue, we and other companies in the financial services sector may have to access, if available, alternative markets for debt and equity capital in order to grow. Equity capital may be difficult to raise because, subject to some limited exceptions, as a BDC, we are generally not able to issue additional shares of our common stock at a price less than net asset value without first obtaining approval for such issuance from our stockholders and our independent directors. At our 2012 annual stockholders meeting, subject to certain determinations required to be made by our board of directors, our stockholders approved our ability to sell or otherwise issue shares of our common stock, not exceeding 25% of our then outstanding common stock, at a price below the then current net asset value per share during a period beginning on June 4, 2012 and expiring on the earlier of June 4, 2013 and the date of our 2013 annual stockholders meeting. In addition, our ability to incur indebtedness (including by issuing preferred stock) is limited by applicable regulations such that our asset coverage, as defined in the Investment Company Act, must equal at least 200% immediately after each time we incur indebtedness. The debt capital that will be available to us in the future, if at all, may be at a higher cost and on less favorable terms and conditions than what we currently experience. Any inability to raise capital could have a negative effect on our business, financial condition and results of operations.

Moreover, the re-appearance of market conditions similar to those experienced from 2007 through 2009 for any substantial length of time could make it difficult to extend the maturity of or refinance our existing indebtedness under similar terms and any failure to do so could have a material adverse effect on our business.

Given the extreme volatility and dislocation in the capital markets over the past several years, many BDCs have faced, and may in the future face, a challenging environment in which to raise or

Table of Contents

access capital. At times during the recent significant changes in the capital markets, our ability to raise capital was affected and consequently the pace of our investment activity had slowed. In addition, significant changes in the capital markets, including the extreme volatility and disruption over the past several years, has had, and may in the future have, a negative effect on the valuations of our investments and on the potential for liquidity events involving our investments. While most of our investments are not publicly traded, applicable accounting standards require us to assume as part of our valuation process that our investments are sold in a principal market to market participants (even if we plan on holding an investment through its maturity). As a result, volatility in the capital markets can adversely affect our investment valuations. Further, the illiquidity of our investments may make it difficult for us to sell such investments to access capital if required. As a result, we could realize significantly less than the value at which we have recorded our investments if we were required to sell them for liquidity purposes. An inability to raise or access capital could have a material adverse impact on our business, financial condition or results of operations.

**A failure on our part to maintain our status as a BDC would significantly reduce our operating flexibility.**

If we fail to maintain our status as a BDC, we might be regulated as a closed-end investment company that is required to register under the Investment Company Act, which would subject us to additional regulatory restrictions and significantly decrease our operating flexibility. In addition, any such failure could cause an event of default under our outstanding indebtedness, which could have a material adverse effect on our business, financial condition or results of operations.

**We are dependent upon certain key personnel of Ares for our future success and upon their access to other Ares investment professionals.**

We depend on the diligence, skill and network of business contacts of certain key personnel of the Ares Private Debt Group. We also depend, to a significant extent, on access to the investment professionals of other groups within Ares and the information and deal flow generated by Ares' investment professionals in the course of their investment and portfolio management activities. Our future success depends on the continued service of the key personnel of the Ares Private Debt Group. The departure of any of these individuals, or of a significant number of the investment professionals or partners of Ares, could have a material adverse effect on our business, financial condition or results of operations. In addition, we cannot assure you that Ares Capital Management will remain our investment adviser or that we will continue to have access to Ares' investment professionals or its information and deal flow.

**Our financial condition and results of operations depend on our ability to manage future growth effectively.**

Our ability to achieve our investment objective depends on our ability to acquire suitable investments and monitor and administer those investments, which depends, in turn, on our investment adviser's ability to identify, invest in and monitor companies that meet our investment criteria.

Accomplishing this result on a cost-effective basis is largely a function of the structuring of our investment process and the ability of our investment adviser to provide competent, attentive and efficient services to us. Our executive officers and the members of our investment adviser's investment committee have substantial responsibilities in connection with their roles at Ares and with the other Ares funds, as well as responsibilities under the investment advisory and management agreement. They may also be called upon to provide significant managerial assistance to certain of our portfolio companies. These demands on their time, which will increase as the number of investments grow, may distract them or slow the rate of investment. In order to grow, Ares will need to hire, train, supervise, manage and retain new employees. However, we cannot assure you that we will be able to do so

Table of Contents

effectively. Any failure to manage our future growth effectively could have a material adverse effect on our business, financial condition and results of operations.

In addition, as we grow, we may open up new offices in new geographic regions that may increase our direct operating expenses without corresponding revenue growth.

**Our ability to grow depends on our ability to raise capital.**

We will need to periodically access the capital markets to raise cash to fund new investments. We have elected to be treated as a RIC and operate in a manner so as to qualify for the U.S. federal income tax treatment applicable to RICs. Among other things, in order to maintain our RIC status, we must distribute to our stockholders on a timely basis generally an amount equal to at least 90% of our investment company taxable income, and, as a result, such distributions will not be available to fund investment originations. We must continue to borrow from financial institutions and issue additional securities to fund our growth. Unfavorable economic or capital market conditions may increase our funding costs, limit our access to the capital markets or could result in a decision by lenders not to extend credit to us. An inability to successfully access the capital markets could limit our ability to grow our business and fully execute our business strategy and could decrease our earnings, if any.

In addition, with certain limited exceptions, we are only allowed to borrow amounts or issue debt securities or preferred stock, which we refer to collectively as "senior securities," such that our asset coverage, as defined in the Investment Company Act, equals at least 200% immediately after such borrowing, which, in certain circumstances, may restrict our ability to borrow or issue debt securities or preferred stock. The amount of leverage that we employ will depend on our investment adviser's and our board of directors' assessments of market and other factors at the time of any proposed borrowing or issuance of senior securities. We cannot assure you that we will be able to maintain our current facilities, obtain other lines of credit or issue senior securities at all or on terms acceptable to us.

**Regulations governing our operation as a BDC affect our ability to, and the way in which we, raise additional capital.**

We may issue senior securities or borrow money from banks or other financial institutions, up to the maximum amount permitted by the Investment Company Act. Under the provisions of the Investment Company Act, we are permitted, as a BDC, to incur indebtedness or issue senior securities only in amounts such that our asset coverage, as calculated in accordance with the Investment Company Act, equals at least 200% after each such incurrence or issuance. If the value of our assets declines, we may be unable to satisfy this test, which may prohibit us from paying dividends and could prevent us from maintaining our status as a RIC or may prohibit us from repurchasing shares of our common stock. In addition, our inability to satisfy this test could cause an event of default under our existing indebtedness. If we cannot satisfy this test, we may be required to sell a portion of our investments at a time when such sales may be disadvantageous and, depending on the nature of our leverage, repay a portion of our indebtedness. Accordingly, any failure to satisfy this test could have a material adverse effect on our business, financial condition or results of operations. As of June 30, 2012, our asset coverage for senior securities was 257%.

We are not generally able to issue and sell our common stock at a price below net asset value per share. We may, however, sell our common stock, or warrants, options or rights to acquire our common stock, at a price below the current net asset value per share of our common stock if our board of directors determines that such sale is in our best interests and the best interests of our stockholders, and our stockholders approve such sale. Any such sale would be dilutive to the net asset value per share of our common stock. In any such case, the price at which our securities are to be issued and sold may not be less than a price which, in the determination of our board of directors, closely approximates the market value of such securities (less any commission or discount). If our common

Table of Contents

stock trades at a discount to net asset value, this restriction could adversely affect our ability to raise capital.

At our 2012 annual stockholders meeting, subject to certain determinations required to be made by our board of directors, our stockholders approved our ability to sell or otherwise issue shares of our common stock, not exceeding 25% of our then outstanding common stock, at a price below the then current net asset value per share during a period beginning on June 4, 2012 and expiring on the earlier of June 4, 2013 and the date of our 2013 annual stockholders meeting.

To generate cash for funding new investments, we have also securitized, and may in the future seek to securitize, our loans. To securitize loans, we may create a separate, wholly owned subsidiary and contribute or sell a pool of loans to such subsidiary (or one of its subsidiaries). Such subsidiary may then sell equity, issue debt or sell interests in the pool of loans, on a limited-recourse basis, the payments on which are generally limited to the pool of loans and the proceeds therefrom. We may also retain a portion of the equity interests in the securitized pool of loans. Any retained equity would be exposed to losses on the related pool of loans before any of the related debt securities. An inability to successfully securitize our loan portfolio could limit our ability to grow our business and fully execute our business strategy. The securitization market is subject to changing market conditions (including the unprecedented dislocation of the securitization and finance markets over the past several years generally) and we may not be able to access this market when we would otherwise deem appropriate. Moreover, the successful securitization of our loan portfolio might expose us to losses as the residual loans in which we do not sell interests may be those that are riskier and more apt to generate losses. The Investment Company Act may also impose restrictions on the structure of any securitization.

**We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us.**

Borrowings, also known as leverage, magnify the potential for gain or loss on amounts invested and, therefore, increase the risks associated with investing in our securities. We currently borrow under our Facilities and have issued or assumed other senior securities, and in the future may borrow from, or issue additional senior securities to, banks, insurance companies, funds, institutional investors and other lenders and investors. Lenders and holders of such senior securities have fixed dollar claims on our consolidated assets that are superior to the claims of our common stockholders or any preferred stockholders. If the value of our consolidated assets increases, then leveraging would cause the net asset value per share of our common stock to increase more sharply than it would have had we not incurred leverage.

Conversely, if the value of our consolidated assets decreases, leveraging would cause net asset value to decline more sharply than it otherwise would have had we not incurred leverage. Similarly, any increase in our consolidated income in excess of consolidated interest payable on the borrowed funds would cause our net income to increase more than it would had we not incurred leverage, while any decrease in our consolidated income would cause net income to decline more sharply than it would have had we not incurred leverage. Such a decline could negatively affect our ability to make common stock dividend payments. There can be no assurance that a leveraging strategy will be successful.

As of June 30, 2012, we had \$750.0 million of outstanding borrowings under our Facilities, \$573.8 million in aggregate principal amount outstanding of the Unsecured Notes and \$967.5 million in aggregate principal amount outstanding of our Convertible Notes. In order for us to cover our annual interest payments on indebtedness, we must achieve annual returns on our June 30, 2012 total assets of at least 1.96%. The weighted average stated interest rate charged on our outstanding indebtedness as of June 30, 2012 was 5.0%. We intend to continue borrowing under the Facilities in the future and we may increase the size of the Facilities or issue additional debt securities or other evidences of indebtedness (although there can be no assurance that we will be successful in doing so). For more

Table of Contents

information on the Company's indebtedness, see "Recent Developments." Our ability to service our debt depends largely on our financial performance and is subject to prevailing economic conditions and competitive pressures. The amount of leverage that we employ at any particular time will depend on our investment adviser's and our board of directors' assessments of market and other factors at the time of any proposed borrowing.

Our Facilities, the Unsecured Notes and the Convertible Notes impose financial and operating covenants that restrict our business activities, including limitations that could hinder our ability to finance additional loans and investments or to make the distributions required to maintain our status as a RIC. A failure to renew our Facilities or to add new or replacement debt facilities or issue additional debt securities or other evidences of indebtedness could have a material adverse effect on our business, financial condition or results of operations.

The following table illustrates the effect on return to a holder of our common stock of the leverage created by our use of borrowing at the weighted average stated interest rate of 5.0% as of June 30, 2012, together with (a) our total value of net assets as of June 30, 2012; (b) \$2,291.3 million in aggregate principal amount of indebtedness outstanding as of June 30, 2012 and (c) hypothetical annual returns on our portfolio of minus 15% to plus 15%.

Assumed Return on Portfolio (Net of Expenses)(1)	(15)%	(10)%	(5)%	0%	5%	10%	15%
Corresponding Return to Common Stockholders(2)	(28.57)%	(20.15)%	(11.72)%	(3.30)%	5.13%	13.55%	21.98%

(1) The assumed portfolio return is required by SEC regulations and is not a prediction of, and does not represent, our projected or actual performance. Actual returns may be greater or less than those appearing in the table. Pursuant to SEC regulations, this table is calculated as of June 30, 2012. As a result, it has not been updated to take into account any changes in assets or leverage since June 30, 2012.

(2) In order to compute the "Corresponding Return to Common Stockholders," the "Assumed Return on Portfolio" is multiplied by the total value of our assets at June 30, 2012 to obtain an assumed return to us. From this amount, the interest expense (calculated by multiplying the weighted average stated interest rate of 5.0% by the \$2,291.3 million of principal debt) is subtracted to determine the return available to stockholders. The return available to stockholders is then divided by the total value of our net assets as of June 30, 2012 to determine the "Corresponding Return to Common Stockholders."

**In addition to regulatory requirements that restrict our ability to raise capital, the Facilities, the Unsecured Notes and the Convertible Notes contain various covenants that, if not complied with, could accelerate repayment under the Facilities, the Unsecured Notes and the Convertible Notes, thereby materially and adversely affecting our liquidity, financial condition and results of operations.**

The agreements governing the Facilities, the Unsecured Notes and the Convertible Notes require us to comply with certain financial and operational covenants. These covenants include:

restrictions on the level of indebtedness that we are permitted to incur in relation to the value of our assets;

restrictions on our ability to incur liens; and

maintenance of a minimum level of stockholders' equity.

As of the date of this prospectus, we are in compliance in all material respects with the covenants of the Facilities, the Unsecured Notes and the Convertible Notes. However, our continued compliance

Table of Contents

with these covenants depends on many factors, some of which are beyond our control. For example, depending on the condition of the public debt and equity markets and pricing levels, net unrealized depreciation in our portfolio may increase in the future. Any such increase could result in our inability to comply with our obligation to restrict the level of indebtedness that we are able to incur in relation to the value of our assets or to maintain a minimum level of stockholders' equity.

Accordingly, although we believe we will continue to be in compliance, there are no assurances that we will continue to comply with the covenants in the Facilities, the Unsecured Notes and the Convertible Notes. Failure to comply with these covenants could result in a default under the Facilities, the Unsecured Notes or the Convertible Notes that, if we were unable to obtain a waiver from the lenders or holders of such indebtedness, as applicable, such lenders or holders could accelerate repayment under such indebtedness and thereby have a material adverse impact on our business, financial condition and results of operations.

**Our credit ratings may change and as a result the cost and flexibility under our debt instruments may change.**

As of June 30, 2012, we had a long-term counterparty credit rating from Standard & Poor's Ratings Services of "BBB," a long-term issuer default rating from Fitch Ratings of "BBB" and a long-term issuer rating from Moody's Investors Service of "Ba1." Interest expense on our Revolving Credit Facility is based on a pricing grid that fluctuates depending on our credit ratings. There can be no assurance that our ratings will be maintained. If our ratings are downgraded, our cost of borrowing will increase.

In addition, ratings agencies are required to make substantial changes to their ratings policies and practices as a result of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"), which President Obama signed into law on July 21, 2010. There can be no assurance that such changes will not affect our ratings.

**We operate in a highly competitive market for investment opportunities.**

A number of entities compete with us to make the types of investments that we make in middle-market companies. We compete with other BDCs, public and private funds, commercial and investment banks, commercial financing companies, insurance companies, hedge funds, and, to the extent they provide an alternative form of financing, private equity funds. Many of our competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. Some competitors may have a lower cost of funds and access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than us. Furthermore, many of our competitors are not subject to the regulatory restrictions that the Investment Company Act imposes on us as a BDC and that the Code imposes on us as a RIC. We cannot assure you that the competitive pressures we face will not have a material adverse effect on our business, financial condition and results of operations. Also, as a result of this competition, we may not be able to pursue attractive investment opportunities from time to time.

We do not seek to compete primarily based on the interest rates we offer and we believe that some of our competitors may make loans with interest rates that are comparable to or lower than the rates we offer. Rather, we compete with our competitors based on our existing investment platform, seasoned investment professionals, experience and focus on middle-market companies, disciplined investment philosophy, extensive industry focus and flexible transaction structuring. For a more detailed discussion of these competitive advantages, see "Business Competitive Advantages."

We may lose investment opportunities if we do not match our competitors' pricing, terms and structure. If we match our competitors' pricing, terms and structure, we may experience decreased net

Table of Contents

interest income and increased risk of credit loss. As a result of operating in such a competitive environment, we may make investments that are on less favorable terms than what we may have originally anticipated, which may impact our return on these investments.

**We may be subject to certain corporate-level taxes regardless of whether we continue to qualify as a RIC.**

We have elected to be treated as a RIC under Subchapter M of the Code and operate in a manner so as to qualify for the U.S. federal income tax treatment applicable to RICs. As a RIC, we generally will not pay corporate-level U.S. federal income taxes on our income and gain that we distribute to our stockholders as dividends on a timely basis. We will be subject to corporate-level U.S. federal income tax on any undistributed income and/or gain. To qualify as a RIC, we must meet certain source of income, asset diversification and annual distribution requirements. We may also be subject to certain U.S. federal excise taxes, as well as state, local and foreign taxes.

To satisfy the Annual Distribution Requirement (as defined below) for a RIC we must distribute to our stockholders on a timely basis generally an amount equal to at least 90% of our investment company taxable income for each year. We have the ability to pay a large portion of our dividends in shares of our stock, and as long as a portion of such dividend is paid in cash and other requirements are met, such stock dividends will be taxable as a dividend for U.S. federal income tax purposes. This may result in our U.S. stockholders having to pay tax on such dividends, even if no cash is received, and may result in our non-U.S. stockholders being subject to withholding tax in respect of amounts distributed in our stock. Because we use debt financing, we are subject to certain asset coverage ratio requirements under the Investment Company Act and financial covenants under our indebtedness that could, under certain circumstances, restrict us from making distributions necessary to qualify as a RIC. If we are unable to obtain cash from other sources, we may fail to qualify as a RIC and, thus, may be subject to corporate-level income tax on all of our income and/or gain.

To qualify as a RIC, we must also meet certain annual source of income requirements at the end of each taxable year and asset diversification requirements at the end of each calendar quarter. Failure to meet these tests may result in our having to (a) dispose of certain investments quickly or (b) raise additional capital to prevent the loss of RIC status. Because most of our investments are in private companies and are generally illiquid, any such dispositions may be at disadvantageous prices and may result in losses. Also, the rules applicable to our qualification as a RIC are complex with many areas of uncertainty. Accordingly, no assurance can be given that we have qualified or will continue to qualify as a RIC. If we fail to qualify as a RIC for any reason and become subject to regular "C" corporation income tax, the resulting corporate taxes could substantially reduce our net assets, the amount of income available for distribution and the amount of our distributions. Such a failure would have a material adverse effect on us and our stockholders. The recently enacted "Regulated Investment Company Modernization Act of 2010," which is effective for 2011 and later tax years, provides some relief from RIC disqualification due to failures of the source of income and asset diversification requirements, although there may be additional taxes due in such cases. We cannot assure you that we would qualify for any such relief should we fail the source of income or asset diversification requirements.

**We may have difficulty paying our required distributions under applicable tax rules if we recognize income before or without receiving cash representing such income.**

For U.S. federal income tax purposes, we are required to include in income certain amounts that we have not yet received in cash, such as original issue discount, which may arise, for example, if we receive warrants in connection with the making of a loan, or payment-in-kind ("PIK") interest representing contractual interest added to the loan principal balance and due at the end of the loan term. Such original issue discount or PIK interest are included in income before we receive any

Table of Contents

corresponding cash payments. We also may be required to include in income certain other amounts that we will not receive in cash, including, for example, amounts attributable to hedging and foreign currency transactions or cancellation of indebtedness income resulting from a restructuring of an investment in debt securities.

Since, in certain cases, we may recognize income before or without receiving cash in respect of such income, we may have difficulty meeting the U.S. federal income tax requirement to distribute generally an amount equal to at least 90% of our investment company taxable income to maintain our status as a RIC. Accordingly, we may have to sell some of our investments at times we would not consider advantageous, raise additional debt or equity capital or reduce new investment originations to meet these distribution requirements. If we are not able to obtain cash from other sources, we may fail to qualify as a RIC and thus be subject to additional corporate-level taxes. Such a failure would have a material adverse effect on us and on our stockholders. See "Certain Material U.S. Federal Income Tax Considerations Taxation as a RIC."

**We are exposed to risks associated with changes in interest rates.**

General interest rate fluctuations may have a substantial negative impact on our investments and investment opportunities and, accordingly, may have a material adverse effect on our investment objective and rate of return on invested capital. Because we borrow money and may issue debt securities or preferred stock to make investments, our net investment income is dependent upon the difference between the rate at which we borrow funds or pay interest or dividends on such debt securities or preferred stock and the rate at which we invest these funds. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

Trading prices for debt that pays a fixed rate of return tend to fall as interest rates rise. Trading prices tend to fluctuate more for fixed-rate securities that have longer maturities. In the past, we have entered into certain hedging transactions, such as interest rate swap agreements, to mitigate our exposure to adverse fluctuations in interest rates, and we may do so again in the future. In addition, we may increase our floating rate investments to position the portfolio for rate increases. However, we cannot assure you that such transactions will be successful in mitigating our exposure to interest rate risk. Hedging transactions may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments.

Although we have no policy governing the maturities of our investments, under current market conditions we expect that we will invest in a portfolio of debt generally having maturities of up to 10 years. This means that we are subject to greater risk (other things being equal) than a fund invested solely in shorter-term securities. A decline in the prices of the debt we own could adversely affect the trading price of our shares. Also, an increase in interest rates available to investors could make an investment in our common stock less attractive if we are not able to increase our dividend rate, which could reduce the value of our common stock.

**Most of our portfolio investments are not publicly traded and, as a result, the fair value of these investments may not be readily determinable.**

A large percentage of our portfolio investments are not publicly traded. The fair value of investments that are not publicly traded may not be readily determinable. We value these investments quarterly at fair value as determined in good faith by our board of directors based on, among other things, the input of our management and audit committee and independent valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12-month period (with certain de minimis exceptions). The valuation process is conducted at the end of each fiscal

Table of Contents

quarter, with a minimum of 50% (based on value) of our valuations of portfolio companies without readily available market quotations subject to review by an independent valuation firm each quarter. However, we may use additional independent valuation firms to review the value of our investments more frequently, including in connection with the occurrence of significant events or changes in value affecting a particular investment. In addition, our independent accountants review our valuation process as part of their overall integrated audit. The types of factors that may be considered in valuing our investments include the enterprise value of the portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to similar publicly traded companies, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation. Because such valuations, and particularly valuations of private investments and private companies are inherently uncertain, may fluctuate over short periods of time and may be based on estimates, our determinations of fair value may differ materially from the values that would have been used if a ready market for these investments existed and may differ materially from the values that we may ultimately realize. Our net asset value per share could be adversely affected if our determinations regarding the fair value of these investments are materially higher than the values that we realize upon disposition of such investments.

**The lack of liquidity in our investments may adversely affect our business.**

As we generally make investments in private companies, substantially all of these investments are subject to legal and other restrictions on resale or are otherwise less liquid than publicly traded securities. The illiquidity of our investments may make it difficult for us to sell such investments if the need arises. In addition, if we are required to liquidate all or a portion of our portfolio quickly, we could realize significantly less than the value at which we have recorded our investments. In addition, we may face other restrictions on our ability to liquidate an investment in a portfolio company to the extent that we or an affiliated manager of Ares has material non-public information regarding such portfolio company.

**We may experience fluctuations in our quarterly results.**

We could experience fluctuations in our quarterly operating results due to a number of factors, including the interest rates payable on the debt investments we make, the default rates on such investments, the level of our expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which we encounter competition in our markets and general economic conditions. As a result of these factors, results for any period should not be relied upon as being indicative of performance in future periods.

**There are significant potential conflicts of interest that could impact our investment returns.**

Certain of our executive officers and directors, and members of the investment committee of our investment adviser, serve or may serve as officers, directors or principals of other entities and affiliates of our investment adviser and investment funds managed by our affiliates. Accordingly, they may have obligations to investors in those entities, the fulfillment of which might not be in our or our stockholders' best interests or that may require them to devote time to services for other entities, which could interfere with the time available to provide services to us. Certain members of our investment adviser's investment committee have significant responsibilities for other Ares funds. For example,

Table of Contents

Messrs. Ressler and Rosenthal are required to devote a substantial majority of their business time to the affairs of ACOF. Similarly, although the professional staff of our investment adviser will devote as much time to the management of the Company as appropriate to enable our investment adviser to perform its duties in accordance with the investment advisory and management agreement, the investment professionals of our investment adviser may have conflicts in allocating their time and services among the Company, on the one hand, and investment vehicles managed by Ares or one or more of its affiliates, on the other hand. These activities could be viewed as creating a conflict of interest insofar as the time and effort of the professional staff of our investment adviser and its officers and employees will not be devoted exclusively to the business of the Company but will instead be allocated between the business of the Company and the management of these other investment vehicles. However, Ares believes that the efforts of such individuals are synergistic with and beneficial to the affairs of Ares Capital, ACOF and these other investment vehicles managed by Ares or its affiliates.

In addition, certain Ares funds may have investment objectives that compete or overlap with, and may from time to time invest in asset classes similar to those targeted by, Ares Capital. Consequently, we, on the one hand, and these other entities, may from time to time pursue the same or similar capital and investment opportunities. Ares and our investment adviser endeavor to allocate investment opportunities in a fair and equitable manner, and in any event consistent with any fiduciary duties owed to Ares Capital. Nevertheless, it is possible that we may not be given the opportunity to participate in certain investments made by investment funds managed by investment managers affiliated with Ares. In addition, there may be conflicts in the allocation of investment opportunities among us and the funds managed by us or one or more of our controlled affiliates or among the funds they manage. We may or may not participate in investments made by funds managed by us or one or more of our controlled affiliates.

We have from time to time sold assets to certain of the vehicles managed by IHAM and, as part of our investment strategy, we may offer to sell additional assets to vehicles managed by us and/or one or more of our controlled affiliates (including IHAM) or we may purchase assets from vehicles managed by us and/or one or more of our controlled affiliates. In addition, vehicles managed by us or one or more of our controlled affiliates (including IHAM) may offer assets to or may purchase assets from one another. While assets may be sold or purchased at prices that are consistent with those that could be obtained from third parties in the marketplace, and although these types of transactions generally require approval of one or more independent parties, there may be an inherent conflict of interest in such transactions between us and funds managed by us or one of our controlled affiliates.

We pay management and incentive fees to our investment adviser, and reimburse our investment adviser for certain expenses it incurs. In addition, investors in our common stock will invest on a gross basis and receive distributions on a net basis after expenses, resulting in, among other things, a lower rate of return than one might achieve if distributions were made on a gross basis.

Our investment adviser's base management fee is based on a percentage of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) and, consequently, our investment adviser may have conflicts of interest in connection with decisions that could affect our total assets, such as decisions as to whether to incur indebtedness or to make future investments.

The part of the incentive fee payable by us to our investment advisor that relates to our pre-incentive fee net investment income is computed and paid on income that may include interest that is accrued but not yet received in cash. If a portfolio company defaults on a loan that is structured to provide accrued interest, it is possible that accrued interest previously used in the calculation of the incentive fee will become uncollectible.

Our investment advisory and management agreement renews for successive annual periods if approved by our board of directors or by the affirmative vote of the holders of a majority of our

Table of Contents

outstanding voting securities, including, in either case, approval by a majority of our directors who are not "interested persons" of the Company as defined in Section 2(a)(19) of the Investment Company Act. However, both we and our investment adviser have the right to terminate the agreement without penalty upon 60 days' written notice to the other party. Moreover, conflicts of interest may arise if our investment adviser seeks to change the terms of our investment advisory and management agreement, including, for example, the terms for compensation. See "Management Investment Advisory and Management Agreement." While any material change to the investment advisory and management agreement must be submitted to stockholders for approval under the Investment Company Act, we may from time to time decide it is appropriate to seek stockholder approval to change the terms of the agreement.

We are party to an administration agreement (as defined below), with our administrator, Ares Operations, a wholly owned subsidiary of Ares, pursuant to which our administrator furnishes us with administrative services and we pay our administrator at cost our allocable portion of overhead and other expenses (including travel expenses) incurred by our administrator in performing its obligations under our administration agreement, including our allocable portion of the cost of certain of our officers (including our chief compliance officer, chief financial officer, general counsel, secretary and treasurer) and their respective staffs, but not investment professionals.

Our portfolio company, IHAM, is party to an administration agreement, referred to herein as the "IHAM administration agreement," with Ares Operations. Pursuant to the IHAM administration agreement, Ares Operations provides IHAM with administrative services and IHAM reimburses Ares Operations for all of the actual costs associated with such services, including Ares Operations' allocable portion of overhead and the cost of its officers and respective staff in performing its obligations under the IHAM administration agreement. Prior to entering into the IHAM administration agreement, IHAM was party to a services agreement with our investment adviser, pursuant to which our investment adviser provided similar services.

We are party to an office lease that will expire in February 2026 pursuant to which we are leasing office facilities from a third party. We are also party to an office sublease with Ares Commercial Real Estate Management LLC ("ACREM"), the manager of Ares Commercial Real Estate Corporation, pursuant to which we are subleasing approximately 12% of ACREM's office space for a fixed rent equal to 12% of the basic annual rent payable by ACREM under its office lease, plus certain additional costs and expenses. We also entered into separate subleases with Ares Management and IHAM, pursuant to which Ares Management and IHAM sublease approximately 15% and 20%, respectively, of our New York office space, for a fixed rent equal to 15% and 20%, respectively, of the basic annual rent payable by us under our office lease, plus certain additional costs and expenses.

As a result of the arrangements described above, there may be times when the management team of Ares (including those members of management focused primarily on managing Ares Capital) has interests that differ from those of our stockholders, giving rise to a conflict.

Our stockholders may have conflicting investment, tax and other objectives with respect to their investments in us. The conflicting interests of individual stockholders may relate to or arise from, among other things, the nature of our investments, the structure or the acquisition of our investments, and the timing of dispositions of our investments. As a consequence, conflicts of interest may arise in connection with decisions made by our investment adviser, including with respect to the nature or structuring of our investments, that may be more beneficial for one stockholder than for another stockholder, especially with respect to stockholders' individual tax situations. In selecting and structuring investments appropriate for us, our investment adviser will consider the investment and tax objectives of the Company and our stockholders, as a whole, not the investment, tax or other objectives of any stockholder individually.

Table of Contents

**Changes in laws or regulations governing our operations or the operations of our portfolio companies, changes in the interpretation thereof or newly enacted laws or regulations, such as the Dodd-Frank Act, and any failure by us or our portfolio companies to comply with these laws or regulations, could require changes to certain business practices of us or our portfolio companies, negatively impact the operations, cash flows or financial condition of us or our portfolio companies, impose additional costs on us or our portfolio companies or otherwise adversely affect our business or the business of our portfolio companies.**

We and our portfolio companies are subject to regulation by laws and regulations at the local, state, federal and, in some cases, foreign levels. These laws and regulations, as well as their interpretation, may be changed from time to time, and new laws and regulations may be enacted. Accordingly, any change in these laws or regulations, changes in their interpretation, or newly enacted laws or regulations and any failure by us or our portfolio companies to comply with these laws or regulations, could require changes to certain business practices of us or our portfolio companies, negatively impact the operations, cash flows or financial condition of us or our portfolio companies, impose additional costs on us or our portfolio companies or otherwise adversely affect our business or the business of our portfolio companies.

On July 21, 2010, President Obama signed into law the Dodd-Frank Act. Many of the provisions of the Dodd-Frank Act have extended implementation periods and delayed effective dates and will require extensive rulemaking by regulatory authorities. While the impact of the Dodd-Frank Act on us and our portfolio companies may not be known for an extended period of time, the Dodd-Frank Act, including future rules implementing its provisions and the interpretation of those rules, along with other legislative and regulatory proposals directed at the financial services industry or affecting taxation that are proposed or pending in the U.S. Congress, may negatively impact the operations, cash flows or financial condition of us or our portfolio companies, impose additional costs on us or our portfolio companies, intensify the regulatory supervision of us or our portfolio companies or otherwise adversely affect our business or the business of our portfolio companies.

**Our investment adviser's liability is limited under the investment advisory and management agreement, and we are required to indemnify our investment adviser against certain liabilities, which may lead our investment adviser to act in a riskier manner on our behalf than it would when acting for its own account.**

Our investment adviser has not assumed any responsibility to us other than to render the services described in the investment advisory and management agreement, and it will not be responsible for any action of our board of directors in declining to follow our investment adviser's advice or recommendations. Pursuant to the investment advisory and management agreement, our investment adviser and its members and their respective officers, managers, partners, agents, employees, controlling persons and members and any other person or entity affiliated with it will not be liable to us for their acts under the investment advisory and management agreement, absent willful misfeasance, bad faith, gross negligence or reckless disregard in the performance of their duties. We have agreed to indemnify, defend and protect our investment adviser and its members and their respective officers, managers, partners, agents, employees, controlling persons and members and any other person or entity affiliated with it with respect to all damages, liabilities, costs and expenses resulting from acts of our investment adviser not arising out of willful misfeasance, bad faith, gross negligence or reckless disregard in the performance of their duties under the investment advisory and management agreement. These protections may lead our investment adviser to act in a riskier manner when acting on our behalf than it would when acting for its own account. See "Risk Factors Risks Relating to Our Investments Our investment adviser's incentive fee may induce it to make certain investments, including speculative investments."

Table of Contents

**We may be obligated to pay our investment adviser incentive compensation even if we incur a loss.**

Our investment adviser is entitled to incentive compensation for each fiscal quarter in an amount equal to a percentage of the excess of our pre-incentive fee net investment income for that quarter (before deducting incentive compensation and certain other items) above a threshold return for that quarter. Our pre-incentive fee net investment income for incentive compensation purposes excludes realized and unrealized capital losses or depreciation and income taxes related to realized gains that we may incur in the fiscal quarter, even if such capital losses or depreciation and income taxes related to realized gains result in a net loss on our statement of operations for that quarter. Thus, we may be required to pay our investment adviser incentive compensation for a fiscal quarter even if there is a decline in the value of our portfolio or we incur a net loss for that quarter.

Under the investment advisory and management agreement, we will defer cash payment of any incentive fee otherwise earned by our investment adviser if, during the most recent four full calendar quarter periods ending on or prior to the date such payment is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 7.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period. These calculations will be adjusted for any share issuances or repurchases. Any deferred incentive fees will be carried over for payment in subsequent calculation periods to the extent such payment can then be made under the investment advisory and management agreement.

If a portfolio company defaults on a loan that is structured to provide accrued interest, it is possible that accrued interest previously used in the calculation of the incentive fee will become uncollectible. Our investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued income that we never receive as a result of a default on the obligation that resulted in the accrual of such income.

**We may not replicate Ares' historical success and our ability to enter into transactions with Ares and our other affiliates is restricted.**

We cannot assure you that Ares Capital will replicate Ares' historical success, and we caution you that our investment returns could be substantially lower than the returns achieved by other Ares managed funds.

Further, we and certain of our controlled affiliates are prohibited under the Investment Company Act from knowingly participating in certain transactions with our upstream affiliates, or our investment adviser and its affiliates, without the prior approval of our independent directors and, in some cases, the SEC. Any person that owns, directly or indirectly, 5% or more of our outstanding voting securities is our upstream affiliate for purposes of the Investment Company Act and we are generally prohibited from buying or selling any security (other than our securities) from or to such affiliate, absent the prior approval of our independent directors. The Investment Company Act also prohibits "joint" transactions with an upstream affiliate, or our investment adviser or its affiliates, which could include investments in the same portfolio company (whether at the same or different times), without prior approval of our independent directors. In addition, we and certain of our controlled affiliates are prohibited from buying or selling any security from or to, or entering into joint transactions with, our investment adviser and its affiliates, or any person who owns more than 25% of our voting securities or is otherwise deemed to control, be controlled by, or be under common control with us, absent the prior approval of the SEC through an exemptive order (other than in certain limited situations pursuant to current regulatory guidance). The analysis of whether a particular transaction constitutes a joint transaction requires a review of the relevant facts and circumstances.

We have applied for an exemptive order from the SEC that would permit us and certain of our controlled affiliates to co-invest with funds managed by Ares. Any such order, if issued, will be subject

Table of Contents

to certain terms and conditions and there can be no assurance that such order will be granted by the SEC. Accordingly, we cannot assure you that we or our controlled affiliates will be permitted to co-invest with funds managed by Ares, other than in the limited circumstances currently permitted by regulatory guidance or in the absence of a joint transaction.

**As a result of the death of Kenneth R. Heitz, who was an independent director, we are not in compliance with certain NASDAQ Global Select Market listing requirements.**

Kenneth R. Heitz, who was an independent member of our board of directors, passed away on July 9, 2012. As a result of Mr. Heitz's death, we are no longer in compliance with NASDAQ Marketplace Rule 5605(b)(1), because a majority of our board of directors is no longer comprised of independent directors. We notified the NASDAQ Global Select Market that we intend to rely on the cure provisions of Rule 5605(b)(1)(A), which provides that we have until the earlier of our next annual shareholders meeting or July 9, 2013 to comply with the above-referenced listing requirements.

**RISKS RELATING TO OUR INVESTMENTS**

**Declines in market prices and liquidity in the corporate debt markets can result in significant net unrealized depreciation of our portfolio, which in turn would reduce our net asset value.**

As a BDC, we are required to carry our investments at market value or, if no market value is ascertainable, at fair value as determined in good faith by or under the direction of our board of directors. We may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our valuation. While most of our investments are not publicly traded, applicable accounting standards require us to assume as part of our valuation process that our investments are sold in a principal market to market participants (even if we plan on holding an investment through its maturity). As a result, volatility in the capital markets can also adversely affect our investment valuations. Decreases in the market values or fair values of our investments are recorded as unrealized depreciation. The effect of all of these factors on our portfolio can reduce our net asset value by increasing net unrealized depreciation in our portfolio. Depending on market conditions, we could incur substantial realized losses and may suffer unrealized losses, which could have a material adverse impact on our business, financial condition and results of operations.

**Economic recessions or downturns could impair our portfolio companies and harm our operating results.**

Many of our portfolio companies may be susceptible to economic downturns or recessions (including the economic downturn that began in 2007) and may be unable to repay our loans during these periods. Therefore, during these periods our non-performing assets may increase and the value of our portfolio may decrease if we are required to write down the values of our investments. Adverse economic conditions may also decrease the value of collateral securing some of our loans and the value of our equity investments. Economic slowdowns or recessions could lead to financial losses in our portfolio and a decrease in revenues, net income and assets. Unfavorable economic conditions also could increase our funding costs, limit our access to the capital markets or result in a decision by

Table of Contents

lenders not to extend credit to us. These events could prevent us from increasing investments and harm our operating results. We experienced to some extent such effects during the economic downturn that began in 2007 and may experience such effects again in any future downturn or recession.

A portfolio company's failure to satisfy financial or operating covenants imposed by us or other lenders could lead to defaults and, potentially, acceleration of the time when the loans are due and foreclosure on its assets representing collateral for its obligations, which could trigger cross defaults under other agreements and jeopardize our portfolio company's ability to meet its obligations under the debt that we hold and the value of any equity securities we own. We may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms with a defaulting portfolio company.

**Investments in privately held middle-market companies involve significant risks.**

We primarily invest in privately held U.S. middle-market companies. Investments in privately held middle-market companies involve a number of significant risks, including the following:

these companies may have limited financial resources and may be unable to meet their obligations, which may be accompanied by a deterioration in the value of any collateral and a reduction in the likelihood of us realizing any guarantees we may have obtained in connection with our investment;

they typically have shorter operating histories, narrower product lines and smaller market shares than larger businesses, which tend to render them more vulnerable to competitors' actions and market conditions, as well as general economic downturns;

they typically depend on the management talents and efforts of a small group of persons; therefore, the death, disability, resignation or termination of one or more of these persons could have a material adverse impact on our portfolio company and, in turn, on us;

there is generally little public information about these companies. These companies and their financial information are not subject to the Securities Exchange Act of 1934 (the "Exchange Act") and other regulations that govern public companies, and we may be unable to uncover all material information about these companies, which may prevent us from making a fully informed investment decision and cause us to lose money on our investments;

they generally have less predictable operating results and may require substantial additional capital to support their operations, finance expansion or maintain their competitive position;

our executive officers, directors and our investment adviser may, in the ordinary course of business, be named as defendants in litigation arising from our investments in the portfolio companies; and

they may have difficulty accessing the capital markets to meet future capital needs.

**Our debt investments may be risky and we could lose all or part of our investment.**

The debt that we invest in is typically not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's Investors Service, lower than "BBB-" by Fitch Ratings or lower than "BBB-" by Standard & Poor's Ratings Services). Indebtedness of below investment grade quality is regarded as having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. Therefore, our investments may result in an above average amount of risk and volatility or loss of principal. We also invest in assets other than first and second lien and mezzanine debt investments, including high-yield securities, U.S. government securities, credit derivatives and other structured securities and certain direct equity investments. These investments entail additional risks that could adversely affect our investment returns.

Table of Contents

**Investments in equity securities, many of which are illiquid with no readily available market, involve a substantial degree of risk.**

We may purchase common and other equity securities. Although common stock has historically generated higher average total returns than fixed income securities over the long-term, common stock also has experienced significantly more volatility in those returns and in recent years has significantly under performed relative to fixed income securities. The equity securities we acquire may fail to appreciate and may decline in value or become worthless and our ability to recover our investment will depend on our portfolio company's success. Investments in equity securities involve a number of significant risks, including:

any equity investment we make in a portfolio company could be subject to further dilution as a result of the issuance of additional equity interests and to serious risks as a junior security that will be subordinate to all indebtedness (including trade creditors) or senior securities in the event that the issuer is unable to meet its obligations or becomes subject to a bankruptcy process;

to the extent that the portfolio company requires additional capital and is unable to obtain it, we may not recover our investment; and

in some cases, equity securities in which we invest will not pay current dividends, and our ability to realize a return on our investment, as well as to recover our investment, will be dependent on the success of the portfolio company. Even if the portfolio company is successful, our ability to realize the value of our investment may be dependent on the occurrence of a liquidity event, such as a public offering or the sale of the portfolio company. It is likely to take a significant amount of time before a liquidity event occurs or we can otherwise sell our investment. In addition, the equity securities we receive or invest in may be subject to restrictions on resale during periods in which it could be advantageous to sell them.

There are special risks associated with investing in preferred securities, including:

preferred securities may include provisions that permit the issuer, at its discretion, to defer distributions for a stated period without any adverse consequences to the issuer. If we own a preferred security that is deferring its distributions, we may be required to report income for tax purposes before we receive such distributions;

preferred securities are subordinated to debt in terms of priority to income and liquidation payments, and therefore will be subject to greater credit risk than debt;

preferred securities may be substantially less liquid than many other securities, such as common stock or U.S. government securities; and

generally, preferred security holders have no voting rights with respect to the issuing company, subject to limited exceptions.

Additionally, when we invest in first and second lien senior loans or mezzanine debt, we may acquire warrants or other equity securities as well. Our goal is ultimately to dispose of such equity interests and realize gains upon our disposition of such interests. However, the equity interests we receive may not appreciate in value and, in fact, may decline in value. Accordingly, we may not be able to realize gains from our equity interests and any gains that we do realize on the disposition of any equity interests may not be sufficient to offset any other losses we experience.

We may invest, to the extent permitted by law, in the equity securities of investment funds that are operating pursuant to certain exceptions to the Investment Company Act and in advisers to similar investment funds and, to the extent we so invest, will bear our ratable share of any such company's expenses, including management and performance fees. We will also remain obligated to pay

Table of Contents

management and incentive fees to Ares Capital Management with respect to the assets invested in the securities and instruments of such companies. With respect to each of these investments, each of our common stockholders will bear his or her share of the management and incentive fee of Ares Capital Management as well as indirectly bearing the management and performance fees and other expenses of any such investment funds or advisers.

As a result of the Allied Acquisition, Allied Capital's equity investments, including equity investments larger than those we have traditionally made and controlled portfolio company equity investments, became part of our portfolio. We continue to actively seek opportunities over time to dispose of certain of these investments and generally rotate them into higher-yielding first and second lien senior loans and mezzanine debt or other investments. However, there can be no assurance that this strategy will be successful.

**There may be circumstances where our debt investments could be subordinated to claims of other creditors or we could be subject to lender liability claims.**

If one of our portfolio companies were to go bankrupt, even though we may have structured our interest as senior debt, depending on the facts and circumstances, a bankruptcy court might recharacterize our debt holding as an equity investment and subordinate all or a portion of our claim to that of other creditors. In addition, lenders can be subject to lender liability claims for actions taken by them where they become too involved in the borrower's business or exercise control over the borrower. For example, we could become subject to a lender's liability claim, if, among other things, we actually render significant managerial assistance.

**Our portfolio companies may incur debt or issue equity securities that rank equally with, or senior to, our investments in such companies.**

Our portfolio companies may have, or may be permitted to incur, other debt, or issue other equity securities, that rank equally with, or senior to, our investments. By their terms, such instruments may provide that the holders are entitled to receive payment of dividends, interest or principal on or before the dates on which we are entitled to receive payments in respect of our investments. These debt instruments would usually prohibit the portfolio companies from paying interest on or repaying our investments in the event and during the continuance of a default under such debt. Also, in the event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company, holders of securities ranking senior to our investment in that portfolio company typically are entitled to receive payment in full before we receive any distribution in respect of our investment. After repaying such holders, the portfolio company may not have any remaining assets to use for repaying its obligation to us. In the case of securities ranking equally with our investments, we would have to share on an equal basis any distributions with other security holders in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant portfolio company.

The rights we may have with respect to the collateral securing any junior priority loans we make to our portfolio companies may also be limited pursuant to the terms of one or more intercreditor agreements that we enter into with the holders of senior debt. Under such an intercreditor agreement, at any time that senior obligations are outstanding, we may forfeit certain rights with respect to the collateral to the holders of the senior obligations. These rights may include the right to commence enforcement proceedings against the collateral, the right to control the conduct of such enforcement proceedings, the right to approve amendments to collateral documents, the right to release liens on the collateral and the right to waive past defaults under collateral documents. We may not have the ability to control or direct such actions, even if as a result our rights as junior lenders are adversely affected.

Table of Contents

**When we are a debt or minority equity investor in a portfolio company, we are often not in a position to exert influence on the entity, and other equity holders and management of the company may make decisions that could decrease the value of our portfolio holdings.**

When we make debt or minority equity investments, we are subject to the risk that a portfolio company may make business decisions with which we disagree and the other equity holders and management of such company may take risks or otherwise act in ways that do not serve our interests. As a result, a portfolio company may make decisions that could decrease the value of our investment.

**Our portfolio companies may be highly leveraged.**

Some of our portfolio companies may be highly leveraged, which may have adverse consequences to these companies and to us as an investor. These companies may be subject to restrictive financial and operating covenants and the leverage may impair these companies' ability to finance their future operations and capital needs. As a result, these companies' flexibility to respond to changing business and economic conditions and to take advantage of business opportunities may be limited. Further, a leveraged company's income and net assets will tend to increase or decrease at a greater rate than if borrowed money were not used.

**Our investment adviser's incentive fee may induce it to make certain investments, including speculative investments.**

The incentive fee payable by us to Ares Capital Management may create an incentive for Ares Capital Management to make investments on our behalf that are risky or more speculative than would be the case in the absence of such compensation arrangement. The way in which the incentive fee payable to our investment adviser is determined, which is calculated as a percentage of the return on invested capital, may encourage our investment adviser to use leverage to increase the return on our investments. Under certain circumstances, the use of leverage may increase the likelihood of default, which would disfavor the holders of our common stock and the holders of securities convertible into our common stock. In addition, our investment adviser will receive the incentive fee based, in part, upon net capital gains realized on our investments. Unlike the portion of the incentive fee based on income, there is no hurdle rate applicable to the portion of the incentive fee based on net capital gains. As a result, our investment adviser may have a tendency to invest more in investments that are likely to result in capital gains as compared to income producing securities. Such a practice could result in our investing in more speculative securities than would otherwise be the case, which could result in higher investment losses, particularly during economic downturns.

The part of the incentive fee payable by us that relates to our pre-incentive fee net investment income will be computed and paid on income that may include interest that is accrued but not yet received in cash. If a portfolio company defaults on a loan that is structured to provide accrued interest, it is possible that accrued interest previously used in the calculation of the incentive fee will become uncollectible. Our investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on such accrued interest that we never actually receive.

Because of the structure of the incentive fee, it is possible that we may have to pay an incentive fee in a quarter where we incur a loss. For example, if we receive pre-incentive fee net investment income in excess of the hurdle rate for a quarter, we will pay the applicable incentive fee even if we have incurred a loss in that quarter due to realized and/or unrealized capital losses. In addition, if market interest rates rise, we may be able to invest our funds in debt instruments that provide for a higher return, which would increase our pre-incentive fee net investment income and make it easier for our investment adviser to surpass the fixed hurdle rate and receive an incentive fee based on such net investment income.

Table of Contents

**Our investments in foreign companies may involve significant risks in addition to the risks inherent in U.S. investments.**

Our investment strategy contemplates potential investments in foreign companies. Investing in foreign companies may expose us to additional risks not typically associated with investing in U.S. companies. These risks include changes in exchange control regulations, political and social instability, expropriation, imposition of foreign taxes (potentially at confiscatory levels), less liquid markets, less available information than is generally the case in the United States, higher transaction costs, less government supervision of exchanges, brokers and issuers, less developed bankruptcy laws, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility.

Although most of our investments will be U.S. dollar denominated, our investments that are denominated in a foreign currency will be subject to the risk that the value of a particular currency will change in relation to one or more other currencies. Among the factors that may affect currency values are trade balances, the level of short-term interest rates, differences in relative values of similar assets in different currencies, long-term opportunities for investment and capital appreciation and political developments. We may employ hedging techniques to minimize these risks, but we cannot assure you that such strategies will be effective or without risk to us.

**We may expose ourselves to risks if we engage in hedging transactions.**

We have and may in the future enter into hedging transactions, which may expose us to risks associated with such transactions. We may utilize instruments such as forward contracts, currency options and interest rate swaps, caps, collars and floors to seek to hedge against fluctuations in the relative values of our portfolio positions from changes in currency exchange rates and market interest rates. Use of these hedging instruments may include counter-party credit risk.

Hedging against a decline in the values of our portfolio positions does not eliminate the possibility of fluctuations in the values of such positions or prevent losses if the values of such positions decline. However, such hedging can establish other positions designed to gain from those same developments, thereby offsetting the decline in the value of such portfolio positions. Such hedging transactions may also limit the opportunity for gain if the values of the underlying portfolio positions should increase. Moreover, it may not be possible to hedge against an exchange rate or interest rate fluctuation that is so generally anticipated that we are not able to enter into a hedging transaction at an acceptable price.

The success of our hedging transactions will depend on our ability to correctly predict movements in currencies and interest rates. Therefore, while we may enter into such transactions to seek to reduce currency exchange rate and interest rate risks, unanticipated changes in currency exchange rates or interest rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions being hedged may vary. Moreover, for a variety of reasons, we may not seek to (or be able to) establish a perfect correlation between such hedging instruments and the portfolio holdings being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss. In addition, it may not be possible to hedge fully or perfectly against currency fluctuations affecting the value of securities denominated in non-U.S. currencies because the value of those securities is likely to fluctuate as a result of factors not related to currency fluctuations. See also "Risk Factors Risk Relating to Our Business We are exposed to risks associated with changes in interest rates."

Table of Contents

**We may initially invest a portion of the net proceeds of offerings pursuant to this prospectus primarily in high-quality short-term investments, which will generate lower rates of return than those expected from the interest generated on first and second lien loans and mezzanine debt.**

We may initially invest a portion of the net proceeds of offerings primarily in cash, cash equivalents, U.S. government securities and other high-quality short-term investments. These securities may earn yields substantially lower than the income that we anticipate receiving once we are fully invested in accordance with our investment objective. As a result, we may not be able to achieve our investment objective and/or pay any dividends during this period or, if we are able to do so, such dividends may be substantially lower than the dividends that we expect to pay when our portfolio is fully invested. If we do not realize yields in excess of our expenses, we may incur operating losses and the market price of our shares may decline.

**RISKS RELATING TO OFFERINGS PURSUANT TO THIS PROSPECTUS**

**Our shares of common stock have traded at a discount from net asset value and may do so again in the future, which could limit our ability to raise additional equity capital.**

Shares of closed-end investment companies frequently trade at a market price that is less than the net asset value that is attributable to those shares. This characteristic of closed-end investment companies is separate and distinct from the risk that our net asset value per share may decline. It is not possible to predict whether any shares of our common stock will trade at, above, or below net asset value. In the recent past, including during much of 2009, the stocks of BDCs as an industry, including at times shares of our common stock, traded below net asset value and at near historic lows as a result of concerns over liquidity, leverage restrictions and distribution requirements. When our common stock is trading below its net asset value per share, we will generally not be able to issue additional shares of our common stock at its market price without first obtaining approval for such issuance from our stockholders and our independent directors. At our 2012 annual stockholders meeting, subject to certain determinations required to be made by our board of directors, our stockholders approved our ability to sell or otherwise issue shares of our common stock, not exceeding 25% of our then outstanding common stock, at a price below the then current net asset value per share during a period beginning on June 4, 2012 and expiring on the earlier of June 4, 2013 and the date of our 2013 annual stockholders meeting.

**There is a risk that investors in our common stock may not receive dividends or that our dividends may not grow over time and that investors in our debt securities may not receive all of the interest income to which they are entitled.**

We intend to make distributions on a quarterly basis to our stockholders out of assets legally available for distribution. We cannot assure you that we will achieve investment results that will allow us to make a specified level of cash distributions or year-to-year increases in cash distributions. If we declare a dividend and if more stockholders opt to receive cash distributions rather than participate in our dividend reinvestment plan, we may be forced to sell some of our investments in order to make cash dividend payments.

In addition, due to the asset coverage test applicable to us as a BDC, we may be limited in our ability to make distributions. Further, if we invest a greater amount of assets in equity securities that do not pay current dividends, it could reduce the amount available for distribution. See "Price Range of Common Stock and Distributions."

The above-referenced restrictions on distributions may also inhibit our ability to make required interest payments to holders of our debt, which may cause a default under the terms of our debt agreements. Such a default could materially increase our cost of raising capital, as well as cause us to incur penalties under the terms of our debt agreements.

Table of Contents

**Provisions of the Maryland General Corporation Law and of our charter and bylaws could deter takeover attempts and have an adverse impact on the price of our common stock.**

The Maryland General Corporation Law, our charter and our bylaws contain provisions that may discourage, delay or make more difficult a change in control of Ares Capital or the removal of our directors. We are subject to the Maryland Business Combination Act (the "Business Combination Act"), subject to any applicable requirements of the Investment Company Act. Our board of directors has adopted a resolution exempting from the Business Combination Act any business combination between us and any other person, subject to prior approval of such business combination by our board, including approval by a majority of our disinterested directors. If the resolution exempting business combinations is repealed or our board or disinterested directors do not approve a business combination, the Business Combination Act may discourage third parties from trying to acquire control of us and increase the difficulty of consummating such an offer. Our bylaws exempt from the Maryland Control Share Acquisition Act (the "Control Share Acquisition Act") acquisitions of our stock by any person. If we amend our bylaws to repeal the exemption from the Control Share Acquisition Act, the Control Share Acquisition Act also may make it more difficult for a third party to obtain control of us and increase the difficulty of consummating such an offer.

We have also adopted measures that may make it difficult for a third party to obtain control of us, including provisions of our charter classifying our board of directors into three classes serving staggered three-year terms, and provisions of our charter authorizing our board of directors to classify or reclassify shares of our stock into one or more classes or series, to cause the issuance of additional shares of our stock, and to amend our charter from time to time, without stockholder approval, to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we have authority to issue. These provisions, as well as other provisions of our charter and bylaws, may discourage, delay, defer, make more difficult or prevent a transaction or a change in control that might otherwise be in the best interests of our stockholders.

**Investing in our common stock may involve an above average degree of risk.**

The investments we make in accordance with our investment objective may result in a higher amount of risk than alternative investment options and volatility or loss of principal. Our investments in portfolio companies may be highly speculative and aggressive and, therefore, an investment in our securities may not be suitable for someone with lower risk tolerance.

**The market price of our common stock may fluctuate significantly.**

The capital and credit markets have experienced periods of extreme volatility and disruption over the past several years. The market price and liquidity of the market for shares of our common stock may be significantly affected by numerous factors, some of which are beyond our control and may not be directly related to our operating performance. These factors include:

significant volatility in the market price and trading volume of securities of publicly traded RICs, BDCs or other companies in our sector, which are not necessarily related to the operating performance of these companies;

price and volume fluctuations in the overall stock market from time to time;

changes in law, regulatory policies or tax guidelines, or interpretations thereof, particularly with respect to RICs or BDCs;

loss of our RIC status;

changes in our earnings or variations in our operating results;

changes in the value of our portfolio of investments;

Table of Contents

any shortfall in revenue or net income or any increase in losses from levels expected by investors or securities analysts;

departure of key personnel of Ares;

operating performance of companies comparable to us;

short-selling pressure with respect to shares of our common stock or BDCs generally;

future sales of our securities convertible into or exchangeable or exercisable for our common stock or the conversion of such securities, including the Convertible Notes;

uncertainty surrounding the strength of the U.S. economic recovery;

concerns regarding European sovereign debt;

general economic trends and other external factors; and

loss of a major funding source.

In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been brought against that company. If our stock price fluctuates significantly, we may be the target of securities litigation in the future. Securities litigation could result in substantial costs and divert management's attention and resources from our business.

**We may in the future determine to issue preferred stock, which could adversely affect the market value of our common stock.**

The issuance of shares of preferred stock with dividend or conversion rights, liquidation preferences or other economic terms favorable to the holders of preferred stock could adversely affect the market price for our common stock by making an investment in the common stock less attractive. In addition, the dividends on any preferred stock we issue must be cumulative. Payment of dividends and repayment of the liquidation preference of preferred stock must take preference over any dividends or other payments to our common stockholders, and holders of preferred stock are not subject to any of our expenses or losses and are not entitled to participate in any income or appreciation in excess of their stated preference (other than convertible preferred stock that converts into common stock). In addition, under the Investment Company Act, preferred stock constitutes a "senior security" for purposes of the 200% asset coverage test.

**The net asset value per share of our common stock may be diluted if we sell shares of our common stock in one or more offerings at prices below the then current net asset value per share of our common stock or securities to subscribe for or convertible into shares of our common stock.**

At our 2012 annual stockholders meeting, subject to certain determinations required to be made by our board of directors, our stockholders approved our ability to sell or otherwise issue shares of our common stock, not exceeding 25% of our then outstanding common stock, at a price below the then current net asset value per share during a period beginning on June 4, 2012 and expiring on the earlier of June 4, 2013 and the date of our 2013 annual stockholders meeting.

In addition, at our 2009 annual stockholders meeting, our stockholders approved a proposal authorizing us to sell or otherwise issue warrants or securities to subscribe for or convertible into shares of our common stock subject to certain limitations (including, without limitation, that the number of shares issuable does not exceed 25% of our then outstanding common stock and that the exercise or conversion price thereof is not, at the date of issuance, less than the greater of the market value per share and the net asset value per share of our common stock). The authorization granted to sell or issue warrants or securities to subscribe for or convertible into shares of our common stock has no expiration.

Table of Contents

Any decision to sell shares of our common stock below its then current net asset value per share or securities to subscribe for or convertible into shares of our common stock would be subject to the determination by our board of directors that such issuance is in our and our stockholders' best interests.

If we were to sell shares of our common stock below its then current net asset value per share, such sales would result in an immediate dilution to the net asset value per share of our common stock. This dilution would occur as a result of the sale of shares at a price below the then current net asset value per share of our common stock and a proportionately greater decrease in the stockholders' interest in our earnings and assets and their voting interest in us than the increase in our assets resulting from such issuance. Because the number of shares of common stock that could be so issued and the timing of any issuance is not currently known, the actual dilutive effect cannot be predicted.

In addition, if we issue warrants or securities to subscribe for or convertible into shares of our common stock, subject to certain limitations, the exercise or conversion price per share could be less than net asset value per share at the time of exercise or conversion (including through the operation of anti-dilution protections). Because we would incur expenses in connection with any issuance of such securities, such issuance could result in a dilution of the net asset value per share at the time of exercise or conversion. This dilution would include reduction in net asset value per share as a result of the proportionately greater decrease in the stockholders' interest in our earnings and assets and their voting interest than the increase in our assets resulting from such issuance.

Further, if current stockholders of the Company do not purchase any shares to maintain their percentage interest, regardless of whether such offering is above or below the then current net asset value per share, their voting power will be diluted. For additional information and hypothetical examples of these risks, see "Sales of Common Stock Below Net Asset Value" and the prospectus supplement pursuant to which such sale is made.

**Your interest in us may be diluted if you do not fully exercise your subscription rights in any rights offering. In addition, if the subscription price is less than our net asset value per share, then you will experience an immediate dilution of the aggregate net asset value of your shares.**

In the event we issue subscription rights, stockholders who do not fully exercise their subscription rights should expect that they will, at the completion of a rights offering pursuant to this prospectus, own a smaller proportional interest in us than would otherwise be the case if they fully exercised their rights. We cannot state precisely the amount of any such dilution in share ownership because we do not know at this time what proportion of the shares will be purchased as a result of such rights offering.

In addition, if the subscription price is less than the net asset value per share of our common stock, then our stockholders would experience an immediate dilution of the aggregate net asset value of their shares as a result of the offering. The amount of any decrease in net asset value is not predictable because it is not known at this time what the subscription price and net asset value per share will be on the expiration date of a rights offering or what proportion of the shares will be purchased as a result of such rights offering. Such dilution could be substantial. See "Risk Factors Risks Relating to Offerings Pursuant to this Prospectus The net asset value per share of our common stock may be diluted if we sell shares of our common stock in one or more offerings at prices below the then current net asset value per share of our common stock or securities to subscribe for or convertible into shares of our common stock" and "Sales of Common Stock Below Net Asset Value."

**Investors in offerings of our common stock will likely incur immediate dilution upon the closing of such offering.**

We generally expect the public offering price of any offering of shares of our common stock to be higher than the book value per share of our outstanding common stock (unless we offer shares

Table of Contents

pursuant to a rights offering or after obtaining prior approval for such issuance from our stockholders and our independent directors). Accordingly, investors purchasing shares of common stock in offerings pursuant to this prospectus may pay a price per share that exceeds the tangible book value per share after such offering.

**Our stockholders will experience dilution in their ownership percentage if they opt out of our dividend reinvestment plan.**

All dividends declared in cash payable to stockholders that are participants in our dividend reinvestment plan are automatically reinvested in shares of our common stock. As a result, our stockholders that opt out of our dividend reinvestment plan will experience dilution in their ownership percentage of our common stock over time.

**Our stockholders may experience dilution upon the conversion of the Convertible Notes.**

The February 2016 Convertible Notes are convertible into shares of our common stock beginning August 15, 2015 or, under certain circumstances, earlier. The June 2016 Convertible Notes are convertible into shares of our common stock beginning on December 15, 2015 or, under certain circumstances, earlier. The 2017 Convertible Notes are convertible into shares of our common stock beginning on September 15, 2016 or, under certain circumstances, earlier. Upon conversion of the Convertible Notes, we have the choice to pay or deliver, as the case may be, at our election, cash, shares of our common stock or a combination of cash and shares of our common stock. The current conversion price of the February 2016 Convertible Notes is approximately \$19.13 per share of common stock, the current conversion price of the June 2016 Convertible Notes is approximately \$19.04 per share and the current conversion price of the 2017 Convertible Notes is approximately \$19.34 per share, in each case subject to adjustment in certain circumstances. If we elect to deliver shares of common stock upon a conversion at the time our tangible book value per share exceeds the conversion price in effect at such time, our stockholders may incur dilution. In addition, our stockholders will experience dilution in their ownership percentage of common stock upon our issuance of common stock in connection with the conversion of the Convertible Notes and any dividends paid on our common stock will also be paid on shares issued in connection with such conversion after such issuance.

**Our stockholders may receive shares of our common stock as dividends, which could result in adverse tax consequences to them.**

In order to satisfy the Annual Distribution Requirement applicable to RICs, we have the ability to declare a large portion of a dividend in shares of our common stock instead of in cash. As long as a portion of such dividend is paid in cash (which portion can be as low as 10% for dividends declared with respect to our taxable years ending on or before December 31, 2011) and certain requirements are met, the entire distribution would be treated as a dividend for U.S. federal income tax purposes. As a result, a stockholder would be taxed on 100% of the fair market value of the dividend on the date a stockholder received it in the same manner as a cash dividend, even though most of the dividend was paid in shares of our common stock.

**Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of our common stock.**

Sales of substantial amounts of our common stock, or the availability of such common stock for sale (including as a result of the conversion of our Convertible Notes into common stock), could adversely affect the prevailing market prices for our common stock. If this occurs and continues, it could impair our ability to raise additional capital through the sale of securities should we desire to do so.

Table of Contents

**The trading market or market value of our publicly issued debt securities may fluctuate.**

Our publicly issued debt securities may or may not have an established trading market. We cannot assure you that a trading market for our publicly issued debt securities will ever develop or be maintained if developed. In addition to our creditworthiness, many factors may materially adversely affect the trading market for, and market value of, our publicly issued debt securities. These factors include, but are not limited to, the following:

- the time remaining to the maturity of these debt securities;
- the outstanding principal amount of debt securities with terms identical to these debt securities;
- the ratings assigned by national statistical ratings agencies;
- the general economic environment;
- the supply of debt securities trading in the secondary market, if any;
- the redemption or repayment features, if any, of these debt securities;
- the level, direction and volatility of market interest rates generally; and
- market rates of interest higher or lower than rates borne by the debt securities.

You should also be aware that there may be a limited number of buyers when you decide to sell your debt securities. This too may materially adversely affect the market value of the debt securities or the trading market for the debt securities.

**Terms relating to redemption may materially adversely affect your return on any debt securities that we may issue.**

If your debt securities are redeemable at our option, we may choose to redeem your debt securities at times when prevailing interest rates are lower than the interest rate paid on your debt securities. In addition, if your debt securities are subject to mandatory redemption, we may be required to redeem your debt securities also at times when prevailing interest rates are lower than the interest rate paid on your debt securities. In this circumstance, you may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as your debt securities being redeemed.

**Our credit ratings may not reflect all risks of an investment in our debt securities.**

Our credit ratings are an assessment by third parties of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of our debt securities. Our credit ratings, however, may not reflect the potential impact of risks related to market conditions generally or other factors discussed above on the market value of or trading market for the publicly issued debt securities.

Table of Contents

**FORWARD-LOOKING STATEMENTS**

Some of the statements in this prospectus constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this prospectus involve a number of risks and uncertainties, including statements concerning:

our, or our portfolio companies', future business, operations, operating results or prospects;

the return or impact of current and future investments;

the impact of a protracted decline in the liquidity of credit markets on our business;

the impact of fluctuations in interest rates on our business;

the impact of changes in laws or regulations (including the interpretation thereof) governing our operations or the operations of our portfolio companies;

the valuation of our investments in portfolio companies, particularly those having no liquid trading market;

our ability to recover unrealized losses;

market conditions and our ability to access alternative debt markets and additional debt and equity capital;

our contractual arrangements and relationships with third parties;

Middle East turmoil and the potential for rising energy prices and its impact on the industries in which we invest;

the general economy and its impact on the industries in which we invest;

the uncertainty surrounding the strength of the U.S. economic recovery;

European sovereign debt issues;

the financial condition of and ability of our current and prospective portfolio companies to achieve their objectives;

our expected financings and investments;

our ability to successfully integrate any acquisitions;

the adequacy of our cash resources and working capital;

the timing, form and amount of any dividend distributions;

the timing of cash flows, if any, from the operations of our portfolio companies; and

the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments.

We use words such as "anticipates," "believes," "expects," "intends," "will," "should," "may" and similar expressions to identify forward-looking statements, although not all forward-looking statements include these words. Our actual results and condition could differ materially from those projected in the forward-looking statements for any reason, including the factors set forth in "Risk Factors" and elsewhere in this prospectus.

The forward-looking statements included in this prospectus have been based on information available to us on the date of this prospectus, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any

Table of Contents

forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

The forward-looking statements in this prospectus are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933 (the "Securities Act") and Section 21E of the Exchange Act.

Table of Contents**USE OF PROCEEDS**

Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from the sale of our securities for general corporate purposes, which includes investing in portfolio companies in accordance with our investment objective. We also expect to use the net proceeds of an offering to repay or repurchase outstanding indebtedness, which may include indebtedness (\$2.5 billion aggregate principal amount outstanding as of August 10, 2012) under (a) the Revolving Credit Facility (\$427.0 million aggregate principal amount outstanding as of August 10, 2012), (b) the Revolving Funding Facility (\$372.0 million aggregate principal amount outstanding as of August 10, 2012), (c) the SMBC Funding Facility (\$133.0 million aggregate principal amount outstanding as of August 10, 2012), (d) the 2022 Notes (\$143.8 million aggregate principal amount outstanding as of August 10, 2012), (e) the 2040 Notes (\$200.0 million aggregate principal amount outstanding as of August 10, 2012), (f) the 2047 Notes (\$230.0 million aggregate principal amount outstanding as of August 10, 2012), (g) the February 2016 Convertible Notes (\$575.0 million aggregate principal amount outstanding as of August 10, 2012), (h) the June 2016 Convertible Notes (\$230.0 million aggregate principal amount outstanding as of August 10, 2012) and (i) the 2017 Convertible Notes (\$162.5 million aggregate principal amount outstanding as of August 10, 2012).

Subject to certain exceptions, the interest charged on the indebtedness incurred under the Revolving Credit Facility is based on LIBOR (one, two, three or six month) plus an applicable spread of 2.25% or a "base rate" (as defined in the agreements governing the Revolving Credit Facility) plus an applicable spread of 1.25%. As of August 10, 2012, one, two, three and six month LIBOR were 0.24%, 0.33%, 0.44% and 0.72%, respectively. The Revolving Credit Facility matures on May 4, 2016. Subject to certain exceptions, the interest charged on the Revolving Funding Facility is based on LIBOR plus an applicable spread of 2.50% or on a "base rate" (as defined in the agreements governing the Revolving Funding Facility) plus an applicable spread of 1.50%. The Revolving Funding Facility is scheduled to expire on April 18, 2017 (subject to extension exercisable upon mutual consent). Subject to certain exceptions, the interest charged on the indebtedness incurred under the SMBC Funding Facility is based on one month LIBOR plus an applicable spread of 2.125% or a "base rate" (as defined in the agreements governing the SMBC Funding Facility) plus an applicable spread of 1.125%. The SMBC Funding Facility is scheduled to expire on January 20, 2020 (subject to two one-year extension options exercisable upon mutual consent). The interest charged on the Unsecured Notes and Convertible Notes is as follows: (a) 7.00% in the case of the 2022 Notes, (b) 7.75% in the case of the 2040 Notes, (c) 6.875% in the case of the 2047 Notes, (d) 5.75% in the case of the February 2016 Convertible Notes, (e) 5.125% in the case of the June 2016 Convertible Notes and (f) 4.875% in the case of the 2017 Convertible Notes. The 2022 Notes, 2040 Notes, 2047 Notes, February 2016 Convertible Notes, June 2016 Convertible Notes and 2017 Convertible Notes mature on February 15, 2022, October 15, 2040, April 15, 2047, February 1, 2016, June 1, 2016 and March 15, 2017, respectively. The supplement to this prospectus relating to an offering may more fully identify the use of the proceeds from such offering.

We anticipate that substantially all of the net proceeds of an offering of securities pursuant to this prospectus and its related prospectus supplement will be used for the above purposes within three months of any such offering, depending on the availability of appropriate investment opportunities consistent with our investment objective, but no longer than within six months of any such offerings.

Our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies. In addition to such investments, we may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. See "Regulation." Specifically, as part of this 30% basket, we may invest in entities that are not considered "eligible portfolio companies" (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company

Table of Contents

Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act. Pending such investments, we will invest a portion of the net proceeds primarily in cash, cash equivalents, U.S. government securities and other high-quality short-term investments. These securities generally earn yields substantially lower than the income that we anticipate receiving once we are fully invested in accordance with our investment objective. As a result, we may not be able to achieve our investment objective and/or pay any dividends during this period or, if we are able to do so, such dividends may be substantially lower than the dividends that we expect to pay when our portfolio is fully invested. If we do not realize yields in excess of our expenses, we may incur operating losses and the market price of our common stock and debt securities may decline. See "Regulation Temporary Investments" for additional information about temporary investments we may make while waiting to make longer-term investments in pursuit of our investment objective.

Table of Contents**PRICE RANGE OF COMMON STOCK AND DISTRIBUTIONS**

Our common stock is traded on The NASDAQ Global Select Market under the symbol "ARCC." Our common stock has historically traded at prices both above and below our net asset value per share. It is not possible to predict whether our common stock will trade at, above or below net asset value. See "Risk Factors Risks Relating to Offerings Pursuant to this Prospectus Our shares of common stock have traded at a discount from net asset value and may do so again in the future, which could limit our ability to raise additional equity capital."

The following table sets forth, for each fiscal quarter for the fiscal years ended December 31, 2010, 2011 and 2012, the net asset value per share of our common stock, the range of high and low closing sales prices of our common stock, the closing sales price as a percentage of net asset value and the dividends or distributions declared by us. On August 13, 2012, the last reported closing sales price of our common stock on The NASDAQ Global Select Market was \$17.19 per share, which represented a premium of approximately 10.8% to the net asset value per share reported by us as of June 30, 2012.

	Net Asset Value(1)	Price Range		High Sales Price to Net Asset Value(2)	Low Sales Price to Net Asset Value(2)	Cash Dividend Per Share(3)
		High	Low			
<b>Year ended December 31, 2010</b>						
First Quarter	\$ 11.78	\$ 14.82	\$ 11.75	125.8%	99.7%	\$ 0.35
Second Quarter	\$ 14.11	\$ 16.40	\$ 12.53	116.2%	88.8%	\$ 0.35
Third Quarter	\$ 14.43	\$ 15.89	\$ 12.44	110.1%	86.2%	\$ 0.35
Fourth Quarter	\$ 14.92	\$ 17.26	\$ 15.64	115.7%	104.8%	\$ 0.35
<b>Year ending December 31, 2011</b>						
First Quarter	\$ 15.45	\$ 17.83	\$ 16.08	115.4%	104.1%	\$ 0.35
Second Quarter	\$ 15.28	\$ 17.71	\$ 15.70	115.9%	102.7%	\$ 0.35
Third Quarter	\$ 15.13	\$ 16.30	\$ 13.07	107.7%	86.4%	\$ 0.35

<b>Year ending December 31, 2012</b>						
First Quarter	\$ 15.47	\$ 16.70	\$ 15.51	108.0%	100.3%	\$ 0.37
Second Quarter	\$ 15.51	\$ 16.55	\$ 14.67	106.7%	94.6%	\$ 0.37
Third Quarter (through August 13, 2012)	*	\$ 17.19	\$ 16.04	*	*	\$ 0.43(4)

- (1) Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high and low closing sales prices. The net asset values shown are based on outstanding shares at the end of the relevant quarter.
- (2) Calculated as the respective high or low closing sales price divided by net asset value.
- (3) Represents the dividend or distribution declared in the relevant quarter.
- (4) Consists of a quarterly dividend of \$0.38 per share and an additional dividend of \$0.05 per share.
- \* Net asset value has not yet been calculated for this period.

We currently intend to distribute dividends or make distributions to our stockholders on a quarterly basis out of assets legally available for distribution. We may also distribute additional dividends or make additional distributions to our stockholders from time to time. Our quarterly and additional dividends or distributions, if any, will be determined by our board of directors.

## Edgar Filing: ARES CAPITAL CORP - Form 497

### Table of Contents

The following table summarizes our dividends or distributions declared for the fiscal years ended December 31, 2010, 2011 and 2012:

<b>Date Declared</b>	<b>Record Date</b>	<b>Payment Date</b>	<b>Amount</b>
February 25, 2010	March 15, 2010	March 31, 2010	\$ 0.35
May 10, 2010	June 15, 2010	June 30, 2010	\$ 0.35
August 5, 2010	September 15, 2010	September 30, 2010	\$ 0.35
November 4, 2010	December 15, 2010	December 31, 2010	\$ 0.35
<b>Total declared for 2010</b>			<b>\$ 1.40</b>
March 1, 2011	March 15, 2011	March 31, 2011	\$ 0.35
May 3, 2011	June 15, 2011	June 30, 2011	\$ 0.35
August 4, 2011	September 15, 2011	September 30, 2011	\$ 0.35
November 8, 2011	December 15, 2011	December 31, 2011	\$ 0.36
<b>Total declared for 2011</b>			<b>\$ 1.41</b>
February 28, 2012	March 15, 2012	March 30, 2012	\$ 0.37
May 8, 2012	June 15, 2012	June 29, 2012	\$ 0.37
August 7, 2012	September 14, 2012	September 28, 2012	\$ 0.38
August 7, 2012	September 14, 2012	September 28, 2012	\$ 0.05(1)
<b>Total declared for 2012</b>			<b>\$ 1.17</b>

(1)

Represents an additional dividend.

To maintain our RIC status, we must timely distribute an amount equal to at least 90% of our investment company taxable income (as defined by the Code, which generally includes net ordinary income and net short term capital gains) to our stockholders. In addition, we generally will be required to pay an excise tax equal to 4% of the amount by which (i) 98% of our ordinary income recognized during a calendar year and (ii) 98.2% of our capital gain net income, as defined by the Code, recognized for the one year period ending on October 31<sup>st</sup> of a calendar year exceeds the distributions for the year. The taxable income on which excise tax is paid is generally distributed to stockholders in the next tax year. Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income for distribution in the following year, and pay any applicable excise tax. For the six months ended June 30, 2012 we recorded a net excise tax expense of \$4.0 million. For the years ended December 31, 2011 and 2010, we recorded a net excise tax expense of \$6.6 million and \$2.2 million, respectively. We cannot assure you that we will achieve results that will permit the payment of any cash distributions. We maintain an "opt out" dividend reinvestment plan for our common stockholders. As a result, if we declare a cash dividend, then stockholders' cash dividends will be automatically reinvested in additional shares of our common stock unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash dividends. See "Dividend Reinvestment Plan."

Table of Contents**RATIOS OF EARNINGS TO FIXED CHARGES**

For the six months ended June 30, 2012 and the years ended December 31, 2011, 2010, 2009, 2008 and 2007, the ratios of earnings to fixed charges of the Company, computed as set forth below, were as follows:

	<b>For the Six Months Ended June 30, 2012</b>	<b>For the Year Ended December 31, 2011</b>	<b>For the Year Ended December 31, 2010</b>	<b>For the Year Ended December 31, 2009</b>	<b>For the Year Ended December 31, 2008</b>	<b>For the Year Ended December 31, 2007</b>
Earnings to Fixed Charges(1)	4.0(2)	3.7(3)	9.8(4)	9.4(5)	(2.8)	3.4

For purposes of computing the ratios of earnings to fixed charges, earnings represent net increase in stockholders' equity resulting from operations plus (or minus) income tax expense (benefit) including excise tax expense plus fixed charges. Fixed charges include interest and credit facility fees expense and amortization of debt issuance costs.

- (1) Earnings include net realized and unrealized gains or losses. Net realized and unrealized gains or losses can vary substantially from period to period.

Excluding the net unrealized gains or losses, the earnings to fixed charges ratio would be 2.8 for the six months ended June 30, 2012, 4.0 for the year ended December 31, 2011, 6.9 for the year ended December 31, 2010, 5.7 for the year ended December 31, 2009, 4.7 for the year ended December 31, 2008 and 3.7 for the year ended December 31, 2007.

Excluding the net realized and unrealized gains or losses, the earnings to fixed charges ratio would be 3.5 for the six months ended June 30, 2012, 3.4 for the year ended December 31, 2011, 3.8 for the year ended December 31, 2010, 6.5 for the year ended December 31, 2009, 4.5 for the year ended December 31, 2008 and 3.6 for the year ended December 31, 2007.

- (2) Earnings for the six months ended June 30, 2012 included a net realized loss on the extinguishment of debt of \$2.7 million.
- (3) Earnings for the year ended December 31, 2011 included a net realized loss on the extinguishment of debt of \$19.3 million.
- (4) Earnings for year ended December 31, 2010, included a one-time gain on the Allied Acquisition of \$195.9 million, a net realized loss on the extinguishment of debt of \$2.0 million and net realized gain on sale of other assets of \$5.9 million.
- (5) Earnings for the year ended December 31, 2009, included a net realized gain on the extinguishment of debt of \$26.5 million.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS**

*The information contained in this section should be read in conjunction with the "Selected Condensed Consolidated Financial Data of Ares Capital" and our financial statements and notes thereto appearing elsewhere in this prospectus or the accompanying prospectus supplement.*

**OVERVIEW**

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a BDC under the Investment Company Act.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component like warrants.

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments, of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments. Also, as a result of the Allied Acquisition, Allied Capital's equity investments, which included equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio. We intend to continue actively seeking opportunities over time to dispose of certain of the assets that were acquired in the Allied Acquisition, particularly non-yielding equity investments and controlled portfolio company investments, as well as lower or non-yielding debt investments and investments that may not be core to our investment strategy, and generally rotate them into higher-yielding first and second lien senior loans and mezzanine debt investments. However, there can be no assurance that this strategy will be successful.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities and indebtedness of private U.S. companies and certain public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less. We also may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. Specifically, as part of this 30% basket, we may invest in entities that are not considered "eligible portfolio companies" (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

We are externally managed by Ares Capital Management, a wholly owned subsidiary of Ares, a global alternative asset manager and an SEC registered investment adviser, pursuant to an investment advisory and management agreement. Ares Operations, a wholly owned subsidiary of Ares, provides the administrative services necessary for us to operate.

We have elected to be treated as a RIC under Subchapter M of the Code, and operate in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must, among other things, meet certain source of income and asset diversification requirements and timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Code, for each year. Pursuant to this election, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders provided that we satisfy those requirements.

Table of Contents

*Allied Acquisition*

On April 1, 2010, we consummated the Allied Acquisition in an all stock merger whereby each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock. The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our common stock to Allied Capital's then-existing stockholders, resulting in our then-existing stockholders owning approximately 69% of the combined company and the then-existing Allied Capital stockholders owning approximately 31% of the combined company.

Information presented herein as of and for the three and six months ended June 30, 2012 and 2011 and as of and for the year ended December 31, 2011 and the period from April 1, 2010 through December 31, 2010 includes the results of operations and financial condition of the combined company following the Allied Acquisition unless otherwise indicated in the footnotes. Information presented herein as of and for the year ended December 31, 2009 relates solely to Ares Capital, as it existed before the Allied Acquisition.

Table of Contents**PORTFOLIO AND INVESTMENT ACTIVITY**

The Company's investment activity for the six months ended June 30, 2012 and 2011 and the years ended December 31, 2011, 2010 and 2009 is presented below (information presented herein is at amortized cost unless otherwise indicated).

(1) New investment commitments include new agreements to fund revolving credit facilities or delayed draw loans.

## Edgar Filing: ARES CAPITAL CORP - Form 497

### Table of Contents

- (2) Includes investment commitments to the SSLP to make co-investments with GE in first lien senior secured loans of middle market companies of \$83.2 million and \$183.6 million for the six months ended June 30, 2012 and 2011, respectively, and \$496.8 million, \$391.6 million and \$165.0 million for the years ended December 31, 2011, 2010 and 2009, respectively.
- (3) See Note 4 to our consolidated financial statements for the three and six months ended June 30, 2012 for more detail on the SSLP.
- (4) Number of new investment commitments represents each commitment to a particular portfolio company.
- (5) "Weighted average yield at fair value" is computed as the (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt and other income producing securities, divided by (b) total debt and other income producing securities at fair value. "Weighted average yield at amortized cost" is computed as the (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt and other income producing securities, divided by (b) total debt and other income producing securities at amortized cost.
- (6) Excludes investments or investment commitments acquired as part of the Allied Acquisition on April 1, 2010.
- (7) Represents fair value for investments in the portfolio as of the most recent prior quarter end, if applicable.

As of June 30, 2012 and December 31, 2011, investments consisted of the following:

(in millions)	As of			
	June 30, 2012		December 31, 2011	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Senior term debt	\$ 3,155.6	\$ 3,123.7	\$ 2,691.0	\$ 2,671.1
Subordinated Certificates of the SSLP(1)	1,099.5	1,125.8	1,034.3	1,059.2
Senior subordinated debt	486.2	457.9	592.6	515.0
Collateralized loan obligations	40.5	40.2	55.5	54.0
Preferred equity securities	233.3	246.6	251.2	251.1

Income producing equity securities (excluding collateralized loan obligations)	9.8%	9.5%	10.4%	10.0%

---

- (1) The proceeds from these certificates were applied to co-investments with GE to fund first lien senior secured loans.

Table of Contents

Ares Capital Management, our investment adviser, employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, our investment adviser grades the credit risk of all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended primarily to reflect the underlying risk of a portfolio investment relative to our initial cost basis in respect of such portfolio investment (i.e., at the time of acquisition), although it may also take into account under certain circumstances the performance of the portfolio company's business, the collateral coverage of the investment and other relevant factors. Under this system, investments with a grade of 4 involve the least amount of risk to our initial cost basis. The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit. Investments graded 3 involve a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition. This portfolio company is generally performing as expected and the risk factors to our ability to ultimately recoup the cost of our investment are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a grade of 3. Investments graded 2 indicate that the risk to our ability to recoup the initial cost basis of such investment has increased materially since origination or acquisition, including as a result of factors such as declining performance and non-compliance with debt covenants; however, payments are generally not more than 120 days past due. An investment grade of 1 indicates that the risk to our ability to recoup the initial cost basis of such investment has substantially increased since origination or acquisition, and the portfolio company likely has materially declining performance. For debt investments with an investment grade of 1, most or all of the debt covenants are out of compliance and payments are substantially delinquent. For investments graded 1, it is anticipated that we will not recoup our initial cost basis and may realize a substantial loss of our initial cost basis upon exit. For investments graded 1 or 2, our investment adviser enhances its level of scrutiny over the monitoring of such portfolio company. Our investment adviser grades the investments in our portfolio at least each quarter and it is possible that the grade of certain of these portfolio investments may be reduced or increased over time.

Set forth below is the grade distribution of our portfolio companies as of June 30, 2012 and December 31, 2011:

(dollar amounts in millions)	As of							
	June 30, 2012				December 31, 2011			
	Fair Value	%	Number of Companies	%	Fair Value	%	Number of Companies	%
Grade 1	74.6	1.4%	8	5.6%	\$ 77.1	1.5%	9	6.4%
Grade 2	211.4	3.8%	14	9.7%	184.4	3.7%	11	7.8%
Grade 3	4,625.3	84.0%	109	75.7%	4,265.5	83.7%	110	78.0%
Grade 4	593.5	10.8%	13	9.0%	567.5	11.1%	11	7.8%
	\$ 5,504.8	100.0%	144	100.0%	\$ 5,094.5	100.0%	141	100.0%

As of each June 30, 2012 and December 31, 2011, the weighted average grade of the investments in our portfolio at fair value was 3.0.

As of June 30, 2012, 2.3% and 0.7% of the total investments at amortized cost and at fair value, respectively, were on non-accrual status. As of December 31, 2011, 3.3% and 0.9% of the total investments at amortized cost and at fair value, respectively, were on non-accrual status.

**Senior Secured Loan Program**

The Company has an investment in the subordinated certificates (the "SSLP Certificates") issued by the Senior Secured Loan Fund LLC, which operates using the name "Senior Secured Loan Program," an unconsolidated vehicle. The Company, through the SSLP, co-invests in first lien senior

Table of Contents

secured loans of middle market companies with GE. The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with approval from a representative of each required).

As of June 30, 2012 and December 31, 2011, the SSLP had available capital of approximately \$7.7 billion, of which approximately \$5.4 billion and \$5.0 billion in aggregate principal amount was funded at June 30, 2012 and December 31, 2011, respectively. As of June 30, 2012 and December 31, 2011, the Company had agreed to make available to the SSLP \$1.5 billion, of which \$377 million and \$443 million was unfunded, respectively. It is within the Company's discretion to make these additional amounts available to the SSLP.

As of June 30, 2012 and December 31, 2011, the SSLP had total assets of \$5.4 billion and \$5.0 billion, respectively. GE's investment in the SSLP consisted of senior notes of \$4.1 billion and \$3.8 billion and SSLP Certificates of \$159 million and \$149 million at June 30, 2012 and December 31, 2011, respectively. The SSLP Certificates are junior in right of payment to the senior notes owned by GE. As of June 30, 2012 and December 31, 2011, the Company and GE owned 87.5% and 12.5%, respectively, of the outstanding SSLP Certificates.

As of June 30, 2012 and December 31, 2011, the SSLP's portfolio was comprised of all first lien senior secured loans to U.S. middle-market companies and none of these loans was on non-accrual status. The portfolio companies in the SSLP are in industries similar to the companies in the Company's portfolio.

Below is a summary of the SSLP's portfolio, followed by a listing of the individual first lien senior secured loans in the SSLP's portfolio as of June 30, 2012 and December 31, 2011:

(dollar amounts in millions)	As of	
	June 30, 2012	December 31, 2011
Total first lien senior secured loans(1)	\$ 5,399.5	\$ 5,017.9
Weighted average yield on first lien senior secured loans(2)	8.1%	8.2%
Number of borrowers in the SSLP	34	32
Largest loan to a single borrower(1)	\$ 300.0	\$ 300.0
Total of five largest loans to borrowers(1)	\$ 1,387.2	\$ 1,362.9

(1) At principal amount.

(2) Computed as the (a) annual stated interest rate on accruing first lien senior secured loans, divided by (b) total first lien senior secured loans at principal amount.

Disclosure of the names of these portfolio companies is restricted by the terms of the underlying agreements governing the loans to these portfolio companies.

Table of Contents

The amortized cost and fair value of the SSLP Certificates held by the Company was \$1.1 billion and \$1.1 billion, respectively, as of June 30, 2012, and \$1.0 billion and \$1.1 billion, respectively, as of December 31, 2011. The SSLP Certificates pay a weighted average contractual coupon of three month LIBOR plus approximately 8.0% and also entitle the Company to receive a portion of the excess cash flow from the loan portfolio, which may result in a return to the holders of the SSLP Certificates that is greater than both the contractual coupon on the SSLP Certificates as well as the weighted average yield on the SSLP's portfolio of 8.1% and 8.2% at June 30, 2012 and December 31, 2011, respectively. The Company's yield on its investment in the SSLP at fair value was 15.6% and 15.7% as of June 30, 2012 and December 31, 2011, respectively. For the three and six months ended June 30, 2012, the Company earned interest income of \$44 million and \$88 million, respectively. For the three and six months ended June 30, 2011, the Company earned interest income of \$27 million and \$50 million, respectively. For the years ended December 31, 2011, 2010 and 2009, the Company earned interest income of \$118 million, \$50 million and \$5 million, respectively. The Company is also entitled to certain fees in connection with the SSLP. For the three and six months ended June 30, 2012, in connection with the SSLP, the Company earned capital structuring service fees and sourcing, management and other fees totaling \$12 million and \$26 million, respectively. For the three and six months ended June 30, 2011, in connection with the SSLP, the Company earned capital structuring service fees and sourcing, management and other fees totaling \$11 million and \$19 million, respectively. For the years ended December 31, 2011, 2010 and 2009, in connection with the SSLP, the Company earned capital structuring service fees and sourcing, management and other fees totaling \$55 million, \$36 million and \$1 million, respectively.

**RESULTS OF OPERATIONS***For the three and six months ended June 30, 2012 and 2011*

Operating results for the three and six months ended June 30, 2012 and 2011 were as follows:

(in millions)	For the three months ended		For the six months ended	
	June 30, 2012	June 30, 2011	June 30, 2012	June 30, 2011
Total investment income	\$ 177.6	\$ 144.3	\$ 345.3	\$ 280.0
Total expenses	86.8	98.6	174.8	184.5
Net investment income before income taxes	90.8	45.7	170.5	95.5
Income tax expense, including excise tax	2.9	1.9	5.6	3.9
Net investment income	87.9	43.8	164.9	91.6
Net realized gains (losses) from investments	(38.9)	(6.4)	(46.5)	56.2
Net unrealized gains from investments	44.6	10.0	80.8	32.2
Realized loss on extinguishment of debt	(2.7)	(10.5)	(2.7)	(19.3)
Net increase in stockholders' equity resulting from operations	\$ 90.9	\$ 36.9	\$ 196.5	\$ 160.7

Net income can vary substantially from period to period due to various factors, including the level of new investment commitments, the recognition of realized gains and losses and unrealized appreciation and depreciation. As a result, quarterly comparisons of net income may not be meaningful.

Table of Contents**Investment Income**

(in millions)	For the three months ended		For the six months ended	
	June 30, 2012	June 30, 2011	June 30, 2012	June 30, 2011
Interest	\$ 138.0	\$ 111.3	\$ 270.9	\$ 221.8
Capital structuring service fees	21.3	20.1	38.9	31.1
Dividend income	8.9	6.7	18.2	15.5
Management and other fees	4.5	4.6	9.4	8.1
Other income	4.9	1.6	7.9	3.5
Total investment income	\$ 177.6	\$ 144.3	\$ 345.3	\$ 280.0

The increase in interest income for the three months ended June 30, 2012 was primarily due to the increase in the size of the portfolio, which increased from an average of \$4.4 billion at amortized cost for the three months ended June 30, 2011 to an average of \$5.3 billion at amortized cost for the comparable period in 2012. Even though new investment commitments decreased from \$890 million for the three months ended June 30, 2011 to \$728 million for the comparable period in 2012, capital structuring service fees increased for the three months ended June 30, 2012 as compared to 2011 primarily due to the increase in the average capital structuring service fees received on new investments, which increased from 2.3% in 2011 to 2.9% in 2012. The increase in dividend income for the three months ended June 30, 2012 was primarily attributable to dividend income of \$3.1 million earned from a preferred equity investment that was made in August 2011, offset by a decrease in non-recurring dividends. The increase in other income for the three months ended June 30, 2012 was primarily attributable to higher amendment and letter of credit fees.

The increase in interest income for the six months ended June 30, 2012 was primarily due to the increase in the size of the portfolio which increased from an average of \$4.3 billion at amortized cost for the six months ended June 30, 2011 to an average of \$5.2 billion at amortized cost for the comparable period in 2012. Even though new investment commitments decreased from \$1.4 billion for the six months ended June 30, 2011 to \$1.1 billion for the comparable period in 2012, capital structuring service fees increased for the six months ended June 30, 2012 as compared to 2011 primarily due to the increase in the average capital structuring service fees received on new investments which increased from 2.2% in 2011 to 3.5% in 2012. The increase in management and other fees for the six months ended June 30, 2012 was primarily due to the management and sourcing fees earned from the SSLP, which increased from \$5.2 million for the six months ended June 30, 2011 to \$7.7 million for the comparable period in 2012 as the aggregate principal amount of investments made through the SSLP increased from approximately \$3.3 billion at June 30, 2011 to approximately \$5.4 billion at June 30, 2012. The increase in dividend income for the six months ended June 30, 2012 was primarily attributable to dividend income of \$6.3 million earned from a preferred equity investment that was made in August 2011, offset by a decrease in non-recurring dividends. The increase in other income for the six months ended June 30, 2012 was primarily attributable to higher amendment and letter of credit fees.

Table of Contents**Operating Expenses**

(in millions)	For the three months ended		For the six months ended	
	June 30, 2012	June 30, 2011	June 30, 2012	June 30, 2011
Interest and credit facility fees	\$ 35.0	\$ 28.6	\$ 67.8	\$ 58.8
Incentive fees related to pre-incentive fee net investment income	22.1	17.1	42.8	32.9
Incentive fees related to capital gains per GAAP	0.6	24.6	6.3	39.8
Base management fees	20.8	17.4	40.8	34.1
Professional fees	3.5	5.5	7.2	8.2
Administrative fees	2.2	2.5	4.5	4.9
Other general and administrative	2.6	2.9	5.4	5.8
Total operating expenses	\$ 86.8	\$ 98.6	\$ 174.8	\$ 184.5

Interest and credit facility fees for the three and six months ended June 30, 2012 and 2011, were comprised of the following:

(in millions)	For the three months ended		For the six months ended	
	June 30, 2012	June 30, 2011	June 30, 2012	June 30, 2011
Stated interest expense	\$ 27.8	\$ 20.4	\$ 53.2	\$ 42.1
Facility fees	1.2	2.2	2.5	4.3
Amortization of debt issuance cost	3.2	3.4	6.7	6.2
Accretion of discount related to the Allied Unsecured Notes	0.1	0.2	0.1	2.6
Accretion of original issuance discount on the Convertible Notes	2.7	2.4	5.3	3.6
Total interest and credit facility fees	\$ 35.0	\$ 28.6	\$ 67.8	\$ 58.8

Stated interest expense for the three months ended June 30, 2012 increased from the comparable period in 2011 due to the increase in our average principal amount of debt outstanding, partially offset by a decrease in our weighted average stated interest rate of our debt. For the three months ended June 30, 2012, our average principal amount of debt outstanding was approximately \$2.2 billion as compared to \$1.5 billion for the comparable period in 2011, and the weighted average stated interest rate on our debt was 5.0% for the three months ended June 30, 2012 as compared to 5.5% for the comparable period in 2011.

Stated interest expense for the six months ended June 30, 2012 increased from the comparable period in 2011 due to the increase in the average principal amount of debt outstanding, partially offset by a decrease in our weighted average stated interest rate of our debt. For the six months ended June 30, 2012, our average principal debt outstanding was \$2.1 billion as compared to \$1.5 billion for the comparable period in 2011, and the weighted average stated interest rate on our debt was 5.1% for the six months ended June 30, 2012 as compared to 5.6% for the comparable period in 2011.

The increase in base management fees and incentive fees related to pre-incentive fee net investment income for the three and six months ended June 30, 2012 from the comparable periods in 2011 was primarily due to the increase in the size of the portfolio and in the case of incentive fees, the related increase in pre-incentive fee net investment income.

Table of Contents

For the three and six months ended June 30, 2012, the capital gains incentive fee expense was \$0.6 million and \$6.3 million, respectively, bringing the total capital gains incentive fee accrual calculated in accordance with GAAP to \$55.3 million (included in management and incentive fees payable in the consolidated balance sheet) as of June 30, 2012. For the three and six months ended June 30, 2011, the capital gains incentive fee expense calculated in accordance with GAAP was \$24.6 million and \$39.8 million, respectively. As a result of an amendment to the capital gains portion of the incentive fee under the investment advisory and management agreement that was adopted June 6, 2011, for the three and six months ended June 30, 2011 we accrued \$26 million of capital gains incentive fees in respect of the assets purchased in the Allied Acquisition. The accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reduction of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future. For the three and six months ended June 30, 2012 and 2011, we did not incur a capital gains fee under the investment advisory and management agreement and there are no amounts currently due under the agreement. See Note 3 to the Company's consolidated financial statements for the three and six months ended June 30, 2012 for more information on the incentive and base management fees.

Professional fees include legal, accounting, valuation and other professional fees incurred related to the management of the Company. Administrative fees represent fees paid to Ares Operations for our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our executive officers and their respective staffs. Other general and administrative expenses include rent, insurance, depreciation, director's fees and other costs.

**Income Tax Expense, Including Excise Tax**

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders generally at least 90% of its investment company taxable income, as defined by the Code, for each year. In order to maintain its RIC status, the Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such income, the Company accrues excise tax on estimated excess taxable income. For the three and six months ended June 30, 2012, a net expense of \$2.0 million and \$4.0 million was recorded for U.S. federal excise tax, respectively. For the three and six months ended June 30, 2011, a net expense of \$1.0 million and \$1.7 million was recorded for U.S. federal excise tax, respectively.

Certain of our consolidated subsidiaries are subject to U.S. federal and state income taxes. For the three and six months ended June 30, 2012, we recorded a tax expense of approximately \$0.9 million and \$1.6 million, respectively, for these subsidiaries. For the three and six months ended June 30, 2011, we recorded a tax expense of approximately \$0.9 million and \$2.2 million, respectively, for these subsidiaries.

Table of Contents**Net Realized Gains/Losses**

During the three months ended June 30, 2012, the Company had \$416.8 million of sales, repayments or exits of investments resulting in \$38.9 million of net realized losses. These sales, repayments or exits included \$30.0 million of investments sold to IHAM and certain vehicles managed by IHAM. A net realized loss of \$0.8 million was recorded on these transactions. See Note 12 to the Company's consolidated financial statements for the three and six months ended June 30, 2012 for more detail on IHAM and its managed vehicles. Net realized losses of \$38.9 million on investments were comprised of \$26.3 million of gross realized gains and \$65.2 million of gross realized losses. The realized gains and losses on investments during the three months ended June 30, 2012 consisted of the following:

Table of Contents**For the years ended December 31, 2011, 2010 and 2009**

Operating results for the years ended December 31, 2011, 2010 and 2009 are as follows:

(in millions)	For the Years Ended December 31,		
	2011	2010	2009
Total investment income	\$ 634.5	\$ 483.4	\$ 245.3
Total expenses	344.6	262.2	111.3
Net investment income before income taxes	289.9	221.2	134.0
Income tax expense, including excise tax	7.5	5.4	0.6
Net investment income	282.4	215.8	133.4
Net realized gains (losses) from investments and foreign currencies	96.6	45.5	(45.9)
Net unrealized gains (losses) from investments	(40.2)	230.7	88.7
Gain from the acquisition of Allied Capital		195.9	
Realized gains (losses) on extinguishment of debt	(19.3)	(2.0)	26.5
Realized gain on sale of other assets		5.9	
Net increase in stockholders' equity resulting from operations	\$ 319.5	\$ 691.8	\$ 202.7

**Investment Income**

(in millions)	For the Years Ended December 31,		
	2011	2010	2009
Interest	\$ 473.2	\$ 393.6	\$ 225.3
Capital structuring service fees	97.4	54.7	5.6
Dividend income	38.4	14.4	3.9
Management fees	16.7	14.4	3.5
Other income	8.8	6.3	7.0
Total investment income	\$ 634.5	\$ 483.4	\$ 245.3

The increase in interest income for the year ended December 31, 2011 as compared to 2010 was primarily due to the increase in the size of the portfolio, which increased from an average of \$3.7 billion at amortized cost for the year ended December 31, 2010 to an average of \$4.6 billion at amortized cost in 2011. The increase in capital structuring service fees for the year ended December 31, 2011 as compared to 2010 was primarily due to the increase in new investment commitments, which increased from \$1.7 billion for the year ended December 31, 2010 to \$3.7 billion for the comparable period in 2011. The increase in dividend income for the year ended December 31, 2011 as compared to 2010 is primarily attributable to dividend income from IHAM which was \$7.3 million for the year ended December 31, 2010 and \$19.0 million for the comparable period in 2011, which resulted from the growth of and increased earnings in IHAM. In addition, there was an increase in dividends from certain portfolio companies in which we have an equity investment. Total dividend income for the year ended December 31, 2011 included \$10.3 million of dividend income that was non-recurring in nature from non-income producing equity securities. Management fees for the year ended December 31, 2011 included management fees earned from the SSLP totaling \$11.6 million, as compared to \$5.9 million for 2010. Additionally management fees earned related to investments and management contracts acquired in the Allied Acquisition decreased to \$3.6 million for the year ended December 31, 2011 from \$7.2 million in 2010.

The increase in interest income for the year ended December 31, 2010 as compared to 2009 was primarily due to the increase in the size of the portfolio, which was largely due to the investments

Table of Contents

acquired as part of the Allied Acquisition. Interest income from investments acquired as part of the Allied Acquisition was approximately \$139.2 million for the year ended December 31, 2010. The remainder of the increase in interest income was due to an increase in the Ares Capital investment portfolio, which increased from an average of \$2.3 billion at amortized cost for the year ended December 31, 2009 to an average of \$2.5 billion at amortized cost for the comparable period in 2010. The increase in capital structuring service fees for the year ended December 31, 2010 was primarily due to the increase in new investment commitments, which increased from \$480 million for the year ended December 31, 2009 to \$1.7 billion for the comparable period in 2010. The increase in dividend income for the year ended December 31, 2010 as compared to 2009 was primarily attributable to dividend income from IHAM, which was \$2.5 billion for the year ended December 31, 2009 and \$7.3 million for 2010. Total dividend income for the year ended December 31, 2010 included \$2.6 million of dividend income that was non-recurring in nature from non-income producing equity securities. The increase in management fees for the year ended December 31, 2010 as compared to 2009 was primarily due to the management fees earned from the SSLP, which increased from \$0.6 million for the year ended December 31, 2009 to \$5.9 million for the comparable period in 2010 as the SSLP increased from approximately \$900 million aggregate principal amount of investments at December 31, 2009 to approximately \$2.5 billion principal amount of investments at December 31, 2010. Additionally, management fees earned related to investments and management contracts acquired in the Allied Acquisition were \$7.2 million for the year ended December 31, 2010.

**Operating Expenses**

(in millions)	For the Year Ended		
	December 31,		
	2011	2010	2009
Interest and credit facility fees	\$ 122.5	\$ 79.3	\$ 24.3
Incentive fees related to pre-incentive fee net investment income	79.0	61.3	33.4
Incentive fees related to capital gains per GAAP	33.3	15.6	
Base management fees	71.6	52.0	30.4
Professional fees	14.7	12.3	7.8

Accretion of discount related to Allied Unsecured Notes (as defined below)	2.6	8.2	
Accretion of original issue discount on the Convertible Notes	8.4		
<b>Total interest and credit facility fees expense</b>	<b>\$ 122.5</b>	<b>\$ 79.3</b>	<b>\$ 24.3</b>

Table of Contents

Stated interest expense for the year ended December 31, 2011 increased from 2010 due to the increase in our average principal debt outstanding and an increase in our weighted average stated interest rate. For 2011, our average principal debt outstanding was \$1.8 billion as compared to \$1.5 billion for 2010, and the weighted average stated interest rate on our debt was 5.1% as compared to 3.9% for 2010. Our weighted average stated interest rate of our debt for 2011 increased from 2010 due to having higher amounts of unsecured indebtedness, with longer durations to maturity and higher stated interest rates, outstanding during 2011. Amortization of debt issuance costs for the year ended December 31, 2011 increased from 2010 primarily due to the debt issuance costs associated with the Convertible Notes issued in early 2011.

Stated interest expense for the year ended December 31, 2010 increased from 2009 due to the increase in our average principal debt outstanding and an increase in our weighted average stated interest rate. For 2010, the average principal debt outstanding was \$1.5 billion as compared to \$870 million for 2009, and the weighted average stated interest rate on our debt was 3.9% as compared to 2.2% for 2009. In connection with the Allied Acquisition, we acquired \$746 million in principal amount of debt on April 1, 2010, which had a weighted average stated interest rate of 6.56% and resulted in total interest expense for the year ended December 31, 2010 of \$43.5 million, including \$8.2 million of purchased discount accretion.

The increase in base management fees and incentive fees related to pre-incentive fee net investment income for the year ended December 31, 2011 from 2010 was primarily due to the increase in the size of the portfolio and in the case of incentive fees, the related increase in pre-incentive fee net investment income. For the year ended December 31, 2011, the capital gains incentive fee expense was \$33.3 million bringing the total capital gains incentive fee accrual in accordance with GAAP to \$48.9 million (included in management and incentive fees payable in the consolidated balance sheet) as of December 31, 2011. As a result of the Capital Gains Amendment, the year ended December 31, 2011 included an accrual of \$26.0 million of capital gains incentive fees in accordance with GAAP as a result of the application of the Capital Gains Amendment with respect to the assets purchased in the Allied Acquisition. The accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reduction of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future. For the year ended December 31, 2011 we did not incur a capital gains fee under the investment advisory and management agreement and therefore there are no amounts currently due under the agreement. See Note 3 to the Company's consolidated financial statements for the year ended December 31, 2011 for more information on the incentive and base management fees.

Incentive and base management fees for the year ended December 31, 2010 increased from 2009 primarily due to the increase in the size of the portfolio and in the case of the incentive fees, the related increase in net investment income as well as the net appreciation of the investment portfolio. In 2010 we did not incur a Capital Gains Fee under the investment advisory and management agreement; however, in accordance with GAAP, we accrued \$15.6 million in incentive fees as a result of the unrealized appreciation in the portfolio. In 2009 we did not incur a Capital Gains Fee under the investment advisory and management agreement or record any such fee in accordance with GAAP.

Professional fees include legal, accounting, valuation and other professional fees incurred related to the management of the Company. Administrative fees represent fees paid to Ares Operations for our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our executive officers and their respective staffs. Other general and administrative expenses include rent, insurance, depreciation, director's fees and other costs. The general increases in professional fees and administrative fees were primarily due to the increase in the size of the company following the

Table of Contents

Allied Acquisition and the various associated costs of managing a larger portfolio. The decline in professional fees and other costs related to the Allied Acquisition for the year ended December 31, 2011 as compared to 2010, primarily resulted from having substantially completed the integration of Allied Capital by December 31, 2010. The increase in professional fees and other costs related to the Allied Acquisition for the year ended December 31, 2010 as compared to 2009 were primarily as a result of the occurrence of various closing and transition related costs following the Allied Acquisition.

**Income Tax Expense, Including Excise Tax**

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders generally at least 90% of its investment company taxable income, as defined by the Code, for each year. In order to maintain its RIC status, the Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such income, the Company accrues excise tax on estimated excess taxable income as such taxable income is earned. For the years ended December 31, 2011 and 2010, a net expense of \$6.6 million and \$2.2 million was recorded for U.S. federal excise tax, respectively. For the year ended December 31, 2009 a net benefit of \$0.1 million was recorded for U.S. federal excise tax.

Certain of our consolidated subsidiaries are subject to U.S. federal and state income taxes. For the years ended December 31, 2011, 2010 and 2009, we recorded a tax expense of approximately \$0.9 million, \$3.2 million and \$0.6 million, respectively, for these subsidiaries.

**Net Realized Gains/Losses**

During the year ended December 31, 2011, the Company had \$2.5 billion of sales, repayments or exits of investments resulting in \$96.6 million of net realized gains. These sales, repayments or exits included \$261.3 million of investments sold to IHAM or certain vehicles managed by IHAM (see Note 13 to the Company's consolidated financial statements for the year ended December 31, 2011 for more detail on IHAM and its managed vehicles). Net realized gains of \$96.6 million on investments were comprised of \$249.1 million of gross realized gains and \$152.5 million of gross realized losses. These net realized gains included approximately \$86.9 million in net realized gains from investments acquired as part of the Allied Acquisition (see Note 17 to the Company's consolidated financial
