PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights information contained elsewhere or incorporated by reference in this prospectus supplement and the accompanying prospectus. It may not contain all of the information that is important to you. Overview

Ashford Inc. is a Maryland corporation formed on April 2, 2014, that provides asset management, advisory and other products and services primarily to clients in the hospitality industry. We became a public company on November 12, 2014, when Ashford Trust completed the spin-off of our company through the distribution of our outstanding common stock to the Ashford Trust stockholders. Our common stock is listed on the NYSE American. As of June 30, 2018, Ashford Trust held approximately 598,000 shares of our common stock, which represented an approximate 28.4% ownership interest in our company, and Braemar held approximately 195,000 shares of our common stock, which represented an approximate 9.2% ownership interest in our company.

Our principal business objective is to provide asset management and other advisory services to other entities. We seek to grow in three primary areas: (i) expanding our existing platforms accretively and accelerating performance to earn incentive fees; (ii) creating new platforms for additional base and incentive fees; and (iii) investing in or incubating strategic businesses that may achieve accelerated growth by conducting business with our existing platforms and by leveraging our deep knowledge and extensive relationships within the hospitality sector.

In our capacity as the advisor to Ashford Trust and Braemar, we are responsible for implementing the investment strategies and managing the day-to-day operations of Ashford Trust and Braemar, in each case subject to the supervision and oversight of the respective board of directors of such entity. We provide the personnel and services that we believe are necessary to assist each of Ashford Trust and Braemar in conducting its respective business. We are not responsible for managing the day-to-day operations of the individual hotel properties owned by either Ashford Trust or Braemar, which duties are, and will continue to be, the responsibility of the hotel management companies that operate the hotel properties owned by Ashford Trust and Braemar.

We conduct our advisory business primarily through an operating entity, Ashford Hospitality Advisors LLC ("Ashford LLC"), our hospitality products and services business primarily through an operating entity, Ashford Hospitality Services LLC ("Ashford Services"), and our project management business through an operating entity, Premier Project Management LLC ("Premier Project Management"). We own substantially all of our assets through Ashford LLC, Ashford Services and Premier Project Management.

Recent Developments

Acquisition of Premier Project Management

On August 8, 2018, we completed the acquisition of Premier Project Management, the project management business formerly conducted by certain affiliates of Remington, including construction management, interior design, architectural oversight, and the purchasing, expediting, warehousing

Table of Contents

coordination, freight management, and supervision of installation of furniture, fixtures, and equipment, and related services (the "Project Management Business"), for a total transaction value of \$203 million. The purchase price was paid by issuing 8,120,000 shares of a newly created series of convertible preferred stock ("Series B Preferred Stock") to the sellers of the Project Management Business, primarily Monty J. Bennett, our Chief Executive Officer and Chairman of our board of directors, and his father Archie Bennett, Jr., the Chairman Emeritus of Ashford Trust (together, the "Bennetts"). The Series B Preferred Stock has a conversion price of \$140 per share and, if converted immediately after the consummation of the transaction, would convert into 1,450,000 shares of our common stock. Dividends on the Series B Preferred Stock are payable at an annual rate of 5.5% in the first year, 6.0% in the second year, and 6.5% in the third year and each year thereafter. Voting rights are on an as-converted basis and the holders of the Series B Preferred Stock have a voting limit of 25% of our voting securities for five years.

In connection with the acquisition of the Project Management Business, we effected a holding company reorganization. The change in holding company organizational structure was effected by a merger, pursuant to which each issued and outstanding share of common stock, par value \$0.01 per share, of our predecessor publicly-traded parent Ashford OAINC Inc. (formerly named Ashford Inc.) ("Old Ashford") was converted into one share of common stock, par value \$0.01 per share, of the Company having the same rights, powers and preferences and the same qualifications, limitations and restrictions as a share of common stock of Old Ashford. As a result of the foregoing, we became the successor issuer of Old Ashford under Rule 12g-3 of the Exchange Act. Our common stock continues to be listed on the NYSE American under the symbol "AINC."

Enhanced Return Funding Program Agreement

On June 26, 2018, the Company entered into the Enhanced Return Funding Program Agreement and Amendment No. 1 to the Amended and Restated Advisory Agreement (together, the "ERFP Agreement") with Ashford Trust. The independent directors of the board of directors of each of the Company and Ashford Trust, with the assistance of separate and independent legal counsel, engaged to negotiate the ERFP Agreement on behalf of the Company and Ashford Trust, respectively. Under the ERFP Agreement, the Company has agreed to provide \$50 million to Ashford Trust in connection with Ashford Trust's acquisition of additional hotels, with the option to increase the funding commitment to up to \$100 million upon mutual agreement by the parties. Under the ERFP Agreement, the Company is obligated to provide Ashford Trust 10% of the acquired hotel's purchase price in the form of furniture, fixtures and equipment ("FF&E"), which is subsequently leased to Ashford Trust at no cost. In connection with Ashford Trust's acquisition of the Hilton Old Town Alexandria on June 29, 2018, and subject to the terms of the ERFP Agreement, the Company is obligated to provide Ashford Trust with approximately \$11.1 million in exchange for FF&E at Ashford Trust properties. As of September 24, 2018, the Company has not yet purchased any FF&E under the ERFP Agreement. The Company expects to begin purchasing the \$11.1 million in FF&E that it is obligated to purchase in connection with the Hilton Old Town Alexandria transaction in the fourth quarter of 2018. The Company has two years from the acquisition date to purchase the FF&E pursuant to the Enhanced Return Funding Program. The Company expects to begin to recognize the related depreciation tax deduction at the time such FF&E is placed into service at Ashford Trust properties, which could begin in the fourth quarter of 2018. However, the timing of the FF&E being placed into service is subject to uncertainties outside of the Company's control that could delay the realization of any tax benefit associated with the purchase of FF&E.

RISK FACTORS

An investment in our common stock involves risks. You should consider carefully the following risks, as well as the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, including the risks discussed under "Part I, Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, and in any subsequent updates to this disclosure in other reports we may file with the SEC, before investing in our common stock. If any of these risks actually occur, our business, financial condition, operating results, or cash flow could be materially and adversely affected and the value of your common stock could decline significantly.

Risks Related to the Acquisition of the Project Management Business

Certain affiliated stockholders have the ability to control significant corporate activities of the Company and their interests may differ from the interests of our other stockholders.

As of September 21, 2018, the Bennetts directly or indirectly beneficially owned approximately 54.0% of our outstanding common stock (including common units, all vested and unvested options and/or shares of Series B Preferred Stock on an as-converted or as-exercised basis), provided that prior to the fifth anniversary of the closing of the Project Management Business acquisition, the voting power of the holders of the Series B Preferred Stock will be limited to 25% of the combined voting power of all of the outstanding voting securities of the Company entitled to vote on any given matter. As a result, the Bennetts may be able to influence or effectively control the decisions of the Company and, following the fifth anniversary of the closing of the Project Management Business acquisition, such holders of Series B Preferred Stock may, depending on the circumstances at the time, have the voting power to elect all of the members of our board of directors and thereby control our management and affairs. In addition, at such time, the holders of the Series B Preferred Stock may be able to determine the outcome of all matters requiring stockholder approval, including mergers and other material transactions, and may be able to cause or prevent a change in the composition of our board of directors or a change in control of the Company that could deprive our other stockholders of an opportunity to receive a premium for their common stock as part of a sale of the Company.

In addition to their direct or indirect beneficial ownership of the shares of our common stock, the Bennetts are party to the Investor Rights Agreement, dated August 8, 2018, by and among Ashford Inc., Archie Bennett, Jr., Monty J. Bennett, MJB Investments, LP and Mark Sharkey and other related parties (the "Investor Rights Agreement") under which, for so long as the holders of the Series B Preferred Stock and their affiliates continue to beneficially own no less than 20% of the issued and outstanding shares of our common stock, they will have the ability to cause the election of two members of our board of directors plus an additional two directors in the event of the non-payment of dividends on the Series B Preferred Stock for two consecutive quarters. The Bennetts' interests may not always coincide with the interests of our other stockholders. The concentrated holdings of our common stock directly or indirectly by the Bennetts, the various provisions of the Investor Rights Agreement, and the resulting representation and potential control of our board of directors by the Bennetts may prevent or discourage unsolicited acquisition proposals or offers for our common stock that you may feel are in your best interest as one of our stockholders. Moreover, this concentration of stock ownership may also adversely affect the trading price of our common stock if investors perceive a disadvantage in owning stock of a company with a controlling stockholder.

The Project Management Business acquisition may not be accretive to our stockholders.

While it is intended that the acquisition of the Project Management Business be accretive to our performance metrics (including after taking into account the possible exchange of the Series B Preferred Stock into our common stock), there can be no assurance that this will be the case, since, among other things, the expenses we have incurred as a result of the acquisition may be higher than we

Table of Contents

anticipated and revenue from the Project Management Business may decrease in the near-term and/or long-term. The failure of the acquisition to be accretive to the Company's stockholders could have a material adverse effect on the Company's business, financial condition, and results of operations.

The holders of the Series B Preferred Stock have rights that are senior to the rights of the holders of our common stock, which may decrease the likelihood, frequency and amount of dividends to holders of our common stock.

The Series B Preferred Stock requires that dividends be paid on the Series B Preferred Stock before any distributions can be paid to holders of our common stock and that, in the event of our liquidation, dissolution or winding up, whether voluntary or involuntary, the holders of Series B Preferred Stock must be satisfied before any distributions can be made to the holders of our common stock. In addition, if we declare or pay a dividend on our common stock, the holders of the Series B Preferred Stock will participate, on an as-converted basis, in such dividend with the holders of our common stock. The Series B Preferred Stock will vote together with the holders of our common stock as a single class on all matters, with the number of votes attributable to each share of Series B Preferred Stock on an as-converted basis, subject to the voting restrictions set forth in the Investor Rights Agreement. As a result of the Series B Preferred Stock's superior rights relative to our common stock, including its right to participate in any dividends to the holders of our common stock, the right of holders of our common stock to receive distributions from us may be diluted and is limited by such rights.

The holders of the Series B Preferred Stock are expected to benefit from significant cash flows that may create conflicts of interest in our management.

The Bennetts and other sellers of the Project Management Business were issued Series B Preferred Stock in consideration for the sale of such business. Each share of Series B Preferred Stock has a cumulative dividend rate of 5.50% per year until the first anniversary of the closing of the Project Management Business acquisition, 6.00% per year from the first anniversary of such closing until the second anniversary of such closing, and 6.50% per year after the second anniversary of such closing. As a result of this consideration, the holders of the Series B Preferred Stock have the right to receive significant cash flow that might otherwise have been used for general corporate purposes. The holders of the Series B Preferred Stock may be incentivized by this consideration to maximize our cash flow, and thus Monty J. Bennett may have conflicts of interest in making management decisions that might be to the detriment of our long-term strategy and success. The cash flow generated by the Project Management Business may not be equal to or in excess of the dividends payable to the holders of the shares of Series B Preferred Stock in any period.

We are dependent upon the profitability of our subsidiaries and their ability to make cash distributions to us.

We are a holding company and, thus, do not conduct material activities other than activities incidental to holding equity interests of our subsidiaries and being a publicly-traded corporation. We are dependent on the profitability of our legacy advisory business and the acquired Project Management Business, and the ability of our subsidiaries in which these businesses operate to generate cash. As a result, we are substantially dependent on the ability of our subsidiaries to fund cash needs. If our subsidiaries are less profitable than anticipated, our cash flows will be negatively affected, which could have a material adverse effect on our stock price.

Cash distributions made by the operating companies to fund payments of dividends on the Series B Preferred Stock may subject us to taxes to the extent such distributions are treated as a taxable dividend or distribution.

Because our ownership in Ashford Advisors Inc. (which owns Ashford LLC and Ashford Services) is held indirectly through Ashford Hospitality Holdings LLC, an entity treated as a partnership for U.S.

Table of Contents

federal income tax purposes, we will not be entitled to a 100% dividends received deduction on dividends paid by Ashford Advisors Inc., and instead will only be entitled to a partial dividends received deduction, with respect to amounts distributed by Ashford Advisors Inc. for our benefit that are treated as a taxable dividend. In general, a distribution by Ashford Advisors Inc. is treated as a taxable dividend to the extent any such distribution is made out of Ashford Advisors Inc.'s current or accumulated earnings and profits (as determined for U.S. federal income tax purposes). To the extent the amount of such distribution exceeds Ashford Advisors Inc.'s current and accumulated earnings and profits, it will be treated first as a non-taxable return of capital to the extent of Ashford Hospitality Holdings LLC's adjusted tax basis in the shares of Ashford Advisors Inc. and, to the extent the amount of such distribution exceeds such adjusted tax basis, will be treated as capital gain from the sale or exchange of such shares. Consequently, we will be subject to U.S. federal income tax on a portion of amounts distributed by Ashford Advisors Inc. for our benefit that are treated as a taxable dividend and on the full amount of any such distribution treated as a capital gain. Accordingly, in connection with any distributions made by the operating companies to fund payments of dividends on our preferred stock, additional distributions will likely be required to fund such taxes and any taxes payable on such additional distributions.

The representation of the Bennetts on our board of directors may increase if we fail to make certain dividend payments on the Series B Preferred Stock.

For so long as the holders of Series B Preferred Stock hold at least 20% of the issued and outstanding shares of our common stock (on an as-converted basis), Archie Bennett, Jr., during his lifetime, and Monty J. Bennett, during his lifetime, are each entitled to nominate two individuals as members of our board of directors, which are currently Monty J. Bennett and W. Michael Murphy. If we fail to make two consecutive dividend payments to the holders of the Series B Preferred Stock, then Archie Bennett, Jr., during his lifetime, and Monty J. Bennett, during his lifetime, will each be entitled to nominate two additional individuals as members of our board of directors and the size of our board of directors will be increased by two directors to accommodate these nominations. The Bennetts and certain of their affiliates, therefore, would likely have increased control over our operations and management.

We may not manage the integration of the Project Management Business effectively in such a manner that we realize the anticipated benefits of the Project Management Business acquisition.

We may not manage the integration of the Project Management Business effectively. The acquisition has been a time-consuming and costly process and we may encounter difficulties, including, among other things:

the inability to successfully integrate the Project Management Business into our existing business in a manner that permits us to operate effectively or efficiently, which could result in the anticipated benefits of the acquisition not being realized in the timeframe currently anticipated or at all;

the risk of not realizing all of the anticipated strategic and financial benefits of the acquisition within the expected timeframe or at all;

potential unknown liabilities and unforeseen increased expenses, delays, or regulatory conditions associated with the acquisition; and

performance shortfalls as a result of the diversion of management's attention caused by the completion of the acquisition and integrating the operations of the Project Management Business.

Table of Contents

For the aforementioned reasons, it is possible that the acquisition of the Project Management Business could result in the distraction of management, the disruption of the ongoing businesses, or inconsistencies in each business's operations, services, standards, controls, procedures, and policies. Therefore, the failure to integrate the Project Management Business effectively could have a material adverse effect on the Company's business, financial condition, and results of operations.

We are exposed to risks to which the Company has not historically been exposed, including business risks inherent to the Project Management Business.

The Project Management Business exposes us to risks to which we have not historically been exposed. Addressing these risks could distract management, disrupt our ongoing business, or result in inconsistencies in our operations, services, standards, controls, procedures, and policies, any of which could adversely affect our ability to maintain relationships with our lenders, joint venture partners, vendors, and employees or to achieve all or any of the anticipated benefits of the acquisition. The acquisition of the Project Management Business, and the incurrence of business risks inherent to the Project Management Business could have a material adverse effect on our business, financial condition, results of operations, and ability to effectively operate our business.

We may be a "controlled company" within the meaning of the rules of NYSE American and, as a result, would qualify for, and could rely on, exemptions from certain corporate governance requirements.

Following the expiration of the voting restrictions in the Investor Rights Agreement, the Bennetts could, under certain circumstances, potentially control a majority of the voting power of our equity securities. As a result, we may become a "controlled company" within the meaning of the corporate governance standards of NYSE American at such time. Currently, under the rules of NYSE American, a company of which more than 50% of the outstanding voting power is held by an individual, group, or another company is a "controlled company" and may be exempt from certain stock exchange corporate governance requirements, which, generally, include the following:

the requirement that a majority of the board of directors consists of independent directors;

the requirement that the Company's nominating and corporate governance committee consists entirely of independent directors; and

the requirement that the Company's compensation committee consists entirely of independent directors.

Accordingly, in the event we become a "controlled company" and elect to be exempt from some or all of these corporate governance requirements, you may not have the same protections afforded to stockholders of companies that are subject to all of the NYSE American corporate governance requirements.

Risks Related to the Offering

Sales of our common stock in the public markets, or the perception that such sales might occur, including when the transfer restrictions of the Series B Preferred Stock terminate in accordance with the Investor Rights Agreement, could cause the market price of our common stock to decline.

Secondary sales of shares of our common stock into the public market, particularly sales by our directors, executive officers, and principal stockholders, including the Bennetts, or the perception that these sales might occur, could cause the market price of our common stock to decline and may make it more difficult for holders of our common stock to sell at a desirable price. Pursuant to the Investor Rights Agreement, for five years after the closing of the Project Management Business acquisition, each of the sellers of the Project Management Business are prohibited from selling or otherwise transferring shares of our common stock or Series B Preferred Stock to any person that is or would become,

Edgar Filing: Ashford Inc. - Form 424B5

together with such person's affiliates and associates, a beneficial owner of 10% or more of the shares of our common stock, considering the Series B Preferred Stock on an as-converted basis, subject to certain exceptions. After such transfer restrictions expire, all of the shares of our common stock and Series B Preferred Stock owned by such sellers will be eligible for sale in the public market, subject to compliance with U.S. securities laws. The market price of our common stock could decline as a result of the sale of shares of our common stock in the public market, the availability of shares of our common stock for sale, or the perception in the market that the holders of a large number of shares of our common stock intend to sell.

The trading price of our common stock may fluctuate significantly.

The trading price of our common stock may fluctuate significantly. From January 1, 2018 through September 21, 2018, the closing sale price of our common stock on the NYSE American ranged from \$56.01 to \$100.00 per share. The trading price of our common stock may fluctuate in response to many factors, including:

actual or anticipated variations in our operating results, funds from operations, cash flows, liquidity or distributions;

our ability to successfully integrate the Project Management Business;

changes in our earnings estimates or those of analysts;

publication of research reports about us, the real estate industry generally or the hospitality sector in which we operate;

actual or anticipated changes in tax laws and regulations;

changes in market valuations of similar companies;

adverse market reaction to any securities we may issue in the future;

additions or departures of key management personnel;

speculation in the press or investment community;

general market and economic conditions; and

the realization of any of the other risk factors included or incorporated by reference in this prospectus supplement or the accompanying prospectus.

Many of the factors listed above are beyond our control. These factors may cause the trading price of our common stock to decline, regardless of our financial performance and condition and prospects. It is impossible to provide any assurance that the trading price of our common stock or the amount of dividends we pay on our common stock will not decline in the future, and it may be difficult for holders to resell shares of our common stock at prices they find attractive or at all.

We may invest or spend the proceeds of this offering in ways with which you may not agree and in ways that may not yield a return to our stockholders.

Edgar Filing: Ashford Inc. - Form 424B5

We will retain broad discretion over the use of proceeds from this public offering. Stockholders may not deem such uses desirable, and our use of the proceeds may not yield a significant return or any return at all for our stockholders. We intend to use the net proceeds from this offering for working capital and general corporate purposes, including to fund future acquisitions, investments and our obligations under the ERFPA Agreement. Because of the number and variability of factors that determine our use of the proceeds from this offering, our actual uses of the proceeds from this offering may vary substantially from our currently planned uses.

Table of Contents

This offering may have a dilutive effect on our estimated earnings per share.

After giving effect to the issuance of the shares of common stock in this offering, the receipt of the expected net proceeds and the use of those proceeds as described under "Use of Proceeds," this offering may have a dilutive effect on our estimated earnings per share. The actual amount of dilution cannot be determined at this time and will be based on numerous factors. Additionally, subject to the 45-day lock-up restrictions described in "Underwriting No Sales of Similar Securities," we are not restricted from issuing additional shares of common stock or preferred stock, including any securities that are convertible into or exchangeable or exercisable for, or that represent the right to receive, shares of common stock or preferred stock or any substantially similar securities in the future. The market price of our common stock could decline as a result of sales of a large number of shares of common stock in the market after this offering or the perception that such sales could occur.

You may experience future dilution as a result of future equity offerings.

In order to raise additional capital, we may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock. We may also issue common stock or securities convertible into or exchangeable for our common stock in connection with investments and business acquisitions or combinations. We cannot assure you that we will be able to sell or issue shares or other securities in any other offering at a price per share that is equal to or greater than the price per share paid by investors in this offering, and investors purchasing or receiving as consideration shares or other securities in the future could have rights superior to existing stockholders. The price per share at which we sell or issue additional shares of our common stock or other securities convertible into or exchangeable for our common stock in future transactions may be higher or lower than the price per share in this offering. As of June 30, 2018, 1,484,355 shares of common stock are either subject to outstanding options or restricted stock unit awards, or reserved for future issuance under our equity incentive plans are eligible for sale in the public market to the extent permitted by the provisions of various vesting schedules, 205,413 shares of common stock are reserved for issuance to the Bennetts under our deferred compensation plan and 1,450,000 shares of common stock are issuable upon conversion by the holders of the Series B Preferred Stock. The future issuances of common stock, including the aforementioned shares of common stock issuable in connection with the exercise of options or restricted stock unit awards, our deferred compensation plan or conversion of the Series B Preferred Stock, will have a dilutive effect on your investment.

USE OF PROCEEDS

We estimate that the net proceeds from this offering will be approximately \$ million (or approximately \$ million if the underwriters exercise their option to purchase additional shares of common stock in full), based on the public offering price of \$ per share, after deducting underwriting discounts and commissions and estimated offering expenses payable by us, from the sale of common stock hereby.

We intend to use the net proceeds from this offering for working capital and general corporate purposes, including to fund future acquisitions, investments and our obligations under the ERFPA Agreement. Pending any such uses, we may invest the net proceeds in a variety of short-term, investment-grade and interest-bearing instruments.

S-12

UNDERWRITING

Subject to the terms and conditions set forth in an underwriting agreement between us and UBS Securities LLC, as the representative of the underwriters named below, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the number of shares of common stock set forth opposite its name below.

Name	Number of Shares
UBS Securities LLC	
RBC Capital Markets, LLC	
Janney Montgomery Scott LLC	

Total

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the shares of common stock sold under the underwriting agreement if any of these shares are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares of common stock, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares of common stock, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Expenses

Shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price not to exceed \$ _____ per share. The underwriters may allow, and dealers may reallow, a concession not to exceed \$ _____ per share on sales to other dealers. If all the shares are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms.

The following table shows the underwriting discounts that we are to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares of common stock.

	No Exercise	Full Exercise
Per share	\$ _____	\$ _____
Total	\$ _____	\$ _____

The expenses of this offering that are payable by us are estimated to be approximately \$350,000 (excluding underwriting discounts).

Option to Purchase Additional Shares

We have granted an option to the underwriters to purchase up to _____ additional shares of common stock at the public offering price, less the underwriting discount, solely for the purpose of covering overallocments, if any. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the underwriting agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table. The underwriters may exercise this option for 30 days from the date of this prospectus supplement.

No Sales of Similar Securities

We, our executive officers and directors and certain stockholders have agreed not to sell or transfer any common stock or securities convertible into, exchangeable for, exercisable for, or repayable with common stock (including the Series B Preferred Stock) for a period of 45 days after the date of this prospectus supplement without first obtaining the written consent of UBS Securities LLC, subject to certain limited exceptions. Specifically, we and these other persons have agreed, with certain limited exceptions, not to directly or indirectly:

offer, pledge, sell or contract to sell any common stock,

purchase or sell any option or contract to purchase any common stock,

grant any option, right or warrant for the sale of any common stock,

lend or otherwise dispose of or transfer any common stock,

request or demand that we file a registration statement related to the common stock, or

enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lock-up provision applies to common stock and to securities convertible into or exchangeable or exercisable for or repayable with common stock, including the Series B Preferred Stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition.

Price Stabilization, Short Positions and Penalty Bids

Until the distribution of the shares of common stock is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our shares of common stock. However, the underwriters may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell the common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. The underwriters must close out any short position by purchasing shares in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives

have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of the common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on the NYSE American, in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

The underwriters and their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. OUR COMPANY

Ashford Inc. ("we" or the "Company") is a Maryland corporation formed on April 2, 2014 that provides asset management and advisory services to Ashford Hospitality Trust, Inc. ("Ashford Trust") and Ashford Hospitality Prime, Inc. ("Ashford Prime"). Ashford Trust commenced operating in August 2003 and is focused on investing in full service hotels in the upscale and upper-upscale segments in the U.S. that have revenue per available room ("RevPAR") generally less than twice the national average. Ashford Prime invests primarily in luxury hotels and resorts with RevPAR of at least twice the U.S. national average. Ashford Prime became a publicly traded company in November 2013 upon the completion of its spin-off from Ashford Trust. Each of Ashford Trust and Ashford Prime is a real estate investment trust ("REIT") as defined in the Internal Revenue Code of 1986, as amended (the "Code"), and the common stock of each of Ashford Trust and Ashford Prime is traded on the NYSE. In addition, through our subsidiaries, we provide other on site services to hotels owned by Ashford Trust, Ashford Prime and other hospitality companies. Our common stock of Ashford Inc. is listed on the NYSE American Exchange.

In our capacity as the advisor to Ashford Trust and Ashford Prime, we are responsible for implementing the investment strategies and managing the day-to-day operations of Ashford Trust and Ashford Prime, in each case subject to the supervision and oversight of the respective board of directors of such entity. We provide the personnel and services necessary to allow each of Ashford Trust and Ashford Prime to conduct its respective business. We may also perform similar functions for new or additional platforms. We are not responsible for managing the day-to-day operations of the individual hotel properties owned by either Ashford Trust or Ashford Prime, which duties are the responsibility of the hotel management companies that operate the hotel properties owned by Ashford Trust and Ashford Prime.

We conduct our business and own substantially all of our assets through an operating entity, Ashford Hospitality Holdings LLC. We own approximately 99.8% of the outstanding common units of Ashford Hospitality Holdings LLC and serve as its sole manager.

Unless otherwise indicated in a prospectus supplement, we expect to use the net proceeds from the sale of these securities for general corporate purposes, which may include the repayment of outstanding indebtedness, the repurchase of our outstanding equity securities, capital expenditures, investments to grow our business, key money consideration, working capital and other general purposes. DESCRIPTION OF OUR CAPITAL STOCK

General

We were formed under the laws of the State of Delaware on April 2, 2014 and were subsequently reincorporated in Maryland effective October 31, 2016. Rights of our stockholders are governed by the Maryland General Corporation Law, or MGCL, our charter and our bylaws. The following is a summary of the material provisions of our capital stock. Copies of our charter and bylaws are filed as exhibits to the registration statement of which this prospectus is a part. See "Where You Can Find More Information."

Authorized Stock

Our charter provides that we may issue up to 200 million shares of capital stock, of which 100 million shares will be common stock, par value \$0.01 per share, 50 million shares will be blank check common stock, par value \$0.01 per share, and 50 million shares will be preferred stock, par value \$0.01 per share. Our Board of Directors has designated 2,000,000 shares of our preferred stock as Series A Preferred Stock.

Power to Issue Additional Shares of Our Common Stock and Preferred Stock

We believe that the power of our board of directors, without stockholder approval, to issue additional authorized but unissued shares of our common stock or preferred stock and to classify or reclassify unissued shares of our common stock or preferred stock and thereafter to cause us to issue such classified or reclassified shares of stock provides us with flexibility in structuring possible future financings and acquisitions and in meeting other needs that might arise. The additional classes or series, as well as the common stock, will be available for issuance without further action by our stockholders, unless stockholder consent is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. Although our board of directors does not currently intend to do so, it could authorize us to issue an additional class or series of stock that could, depending upon the terms of the particular class or series, delay, defer or prevent a transaction or a change of control of our company, even if such transaction or change of control involves a premium price for our stockholders or stockholders believe that such transaction or change of control may be in their best interests.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock and preferred stock is Computershare Trust Company, N.A.

DESCRIPTION OF OUR COMMON STOCK

The following description of our common stock sets forth certain general terms and provisions of our common stock to which any prospectus supplement may relate, including a prospectus supplement providing that common stock will be issuable upon conversion or exchange of our debt securities or preferred stock or upon the exercise of warrants or rights to purchase our common stock.

All shares of our common stock covered by this prospectus will be duly authorized, fully paid and nonassessable. Subject to the preferential rights of any other class or series of stock, holders of shares of our common stock are entitled to receive dividends on such stock when, as and if authorized by our board of directors out of funds legally available therefor and declared by us and to share ratably in the assets of our company legally available for distribution to our stockholders in the event of our liquidation, dissolution or winding up after payment of or adequate provision for all known debts and liabilities of our company, including the preferential rights on dissolution of any class or classes of

Edgar Filing: Ashford Inc. - Form 424B5

preferred stock. We do not anticipate declaring or paying dividends to holders of our common stock in the foreseeable future.

Subject to the provisions of our charter, each outstanding share of our common stock entitles the holder to one vote on all matters submitted to a vote of stockholders, including the election of directors and, except as provided with respect to any other class or series of stock, the holders of such shares will possess the exclusive voting power. There is no cumulative voting in the election of the board of directors, which means that the holders of a plurality of the outstanding shares of common stock can elect all of the directors then standing for election, and the holders of the remaining shares will not be able to elect any directors.

Holders of shares of common stock have no preference, conversion, exchange, sinking fund or redemption rights and have no preemptive rights to subscribe for any securities of Ashford Inc. Shares of common stock will have equal dividend, liquidation and other rights.

Under the MGCL, a Maryland corporation generally cannot dissolve, amend its charter, merge, consolidate, transfer all or substantially all of its assets, engage in a statutory share exchange or engage in similar transactions outside the ordinary course of business unless declared advisable by the board of directors and approved by the affirmative vote of stockholders holding at least two-thirds of the shares entitled to vote on the matter unless a lesser percentage (but not less than a majority of all of the votes entitled to be cast on the matter) is set forth in the corporation's charter. Our charter reduces the stockholder vote for these fundamental matters to a majority of the outstanding voting power. Additionally, Maryland law permits a corporation to transfer all or substantially all of its assets without the approval of the stockholders of the corporation to one or more persons if all of the equity interests of the person or persons are owned, directly or indirectly, by the corporation. Because operating assets may be held by a corporation's subsidiaries, as in our situation, this may mean that a subsidiary of a corporation can transfer all of its assets without a vote of the corporation's stockholders.

Our charter authorizes our board of directors to reclassify any unissued shares of our common stock into other classes or series of classes of stock and to establish the number of shares in each class or series and to set the preferences, conversion and other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications or terms or conditions of redemption for each such class or series.

DESCRIPTION OF OUR PREFERRED STOCK

Our charter authorizes our board of directors to classify any unissued shares of preferred stock and to reclassify any previously classified but unissued shares of any series. Prior to issuance of shares of each series, our board of directors is required by the MGCL and our charter to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each such series. Thus, our board of directors could authorize the issuance of shares of preferred stock with terms and conditions that could have the effect of delaying, deferring or preventing a transaction or a change of control of our company that might involve a premium price for holders of our common stock or that stockholders believe may be in their best interests. As of October 31, 2017, no shares of our Series A Cumulative Preferred Stock ("Series A Preferred Stock") are outstanding. Our preferred stock will, when issued, be fully paid and nonassessable and will not have, or be subject to, any preemptive or similar rights.

The prospectus supplement relating to the series of preferred stock offered by that supplement will describe the specific terms of those securities, including:

the title and stated value of that preferred stock;

the number of shares of that preferred stock offered, the liquidation preference per share and the offering price of that preferred stock;

Edgar Filing: Ashford Inc. - Form 424B5

the dividend rate(s), period(s) and payment date(s) or method(s) of calculation thereof applicable to that preferred stock;

whether dividends will be cumulative or non-cumulative and, if cumulative, the date from which dividends on that preferred stock will accumulate;

the voting rights applicable to that preferred stock;

the procedures for any auction and remarketing, if any, for that preferred stock;

the provisions for a sinking fund, if any, for that preferred stock;

the provisions for redemption including any restriction thereon, if applicable, of that preferred stock;

any listing of that preferred stock on any securities exchange;

the terms and conditions, if applicable, upon which that preferred stock will be convertible into shares of our common stock, including the conversion price (or manner of calculation of the conversion price) and conversion period;

a discussion of federal income tax considerations applicable to that preferred stock;

any limitations on issuance of any series of preferred stock ranking senior to or on a parity with that series of preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of our affairs; and

any other specific terms, preferences, rights, limitations or restrictions of that preferred stock.

Rank

Unless otherwise specified in the applicable prospectus supplement, the preferred stock will, with respect to dividend rights and rights upon liquidation, dissolution or winding up of our affairs rank:

senior to all classes or series of common stock and to all equity securities ranking junior to the preferred stock with respect to dividend rights or rights upon liquidation, dissolution or winding up of our affairs;

on a parity with all equity securities issued by us the terms of which specifically provide that those equity securities rank on a parity with the preferred stock with respect to dividend rights or rights upon liquidation, dissolution or winding up of our affairs; and

junior to all equity securities issued by us the terms of which specifically provide that those equity securities rank senior to the preferred stock with respect to dividend rights or rights upon liquidation, dissolution or winding up of our affairs.

The term "equity securities" does not include convertible debt securities.

Dividends

Edgar Filing: Ashford Inc. - Form 424B5

Subject to the preferential rights of any other class or series of stock and to the provisions of the charter regarding the restrictions on transfer of stock, holders of shares of our preferred stock will be entitled to receive dividends on such stock when, as and if authorized by our board of directors out of funds legally available therefor and declared by us, at rates and on dates as will be set forth in the applicable prospectus supplement.

Dividends on any series or class of our preferred stock may be cumulative or noncumulative, as provided in the applicable prospectus supplement. Dividends, if cumulative, will be cumulative from and after the date set forth in the applicable prospectus supplement. If our board of directors fails to

Edgar Filing: Ashford Inc. - Form 424B5

authorize a dividend payable on a dividend payment date on any series or class of preferred stock for which dividends are noncumulative, then the holders of that series or class of preferred stock will have no right to receive a dividend in respect of the dividend period ending on that dividend payment date, and we will have no obligation to pay the dividend accrued for that period, whether or not dividends on such series or class are declared or paid for any future period.

If any shares of preferred stock of any series or class are outstanding, no dividends may be authorized or paid or set apart for payment on the preferred stock of any other series or class ranking, as to dividends, on a parity with or junior to the preferred stock of that series or class for any period unless:

the series or class of preferred stock has a cumulative dividend, and full cumulative dividends have been or contemporaneously are authorized and paid or authorized and a sum sufficient for the payment of those dividends is set apart for payment on the preferred stock of that series or class for all past dividend periods and the then current dividend period; or

the series or class of preferred stock does not have a cumulative dividend, and full dividends for the then current dividend period have been or contemporaneously are authorized and paid or authorized and a sum sufficient for the payment of those dividends is set apart for the payment on the preferred stock of that series or class.

When dividends are not paid in full (or a sum sufficient for the full payment is not set apart) upon the shares of preferred stock of any series or class and the shares of any other series or class of preferred stock ranking on a parity as to dividends with the preferred stock of that series or class, then all dividends authorized on shares of preferred stock of that series or class and any other series or class of preferred stock ranking on a parity as to dividends with that preferred stock shall be authorized pro rata so that the amount of dividends authorized per share on the preferred stock of that series or class and other series or class of preferred stock will in all cases bear to each other the same ratio that accrued dividends per share on the shares of preferred stock of that series or class (which will not include any accumulation in respect of unpaid dividends for prior dividend periods if the preferred stock does not have a cumulative dividend) and that other series or class of preferred stock bear to each other. No interest, or sum of money in lieu of interest, will be payable in respect of any dividend payment or payments on preferred stock of that series or class that may be in arrears.

Redemption

We may have the right or may be required to redeem one or more series of preferred stock, in whole or in part, in each case upon the terms, if any, and at the time and at the redemption prices set forth in the applicable prospectus supplement.

If a series of preferred stock is subject to mandatory redemption, we will specify in the applicable articles supplementary and prospectus supplement the number of shares we are required to redeem, when those redemptions start, the redemption price, and any other terms and conditions affecting the redemption. The redemption price will include all accrued and unpaid dividends, except in the case of noncumulative preferred stock. The redemption price may be payable in cash or other property, as specified in the applicable prospectus supplement. If the redemption price for preferred stock of any series or class is payable only from the net proceeds of the issuance of our stock, the terms of that preferred stock may provide that, if no such stock shall have been issued or to the extent the net proceeds from any issuance are insufficient to pay in full the aggregate redemption price then due, that preferred stock shall automatically and mandatorily be converted into shares of our applicable stock pursuant to conversion provisions specified in the applicable prospectus supplement.

Liquidation Preference

Upon any voluntary or involuntary liquidation or dissolution of us or winding up of our affairs, then, before any distribution or payment will be made to the holders of common stock or any other series or class of stock ranking junior to any series or class of the preferred stock in the distribution of assets upon any liquidation, dissolution or winding up of our affairs, the holders of that series or class of preferred stock will be entitled to receive out of our assets legally available for distribution to shareholders liquidating distributions in the amount of the liquidation preference per share (set forth in the applicable prospectus supplement), plus an amount equal to all dividends accrued and unpaid on the preferred stock (which will not include any accumulation in respect of unpaid dividends for prior dividend periods if the preferred stock does not have a cumulative dividend). After payment of the full amount of the liquidating distributions to which they are entitled, the holders of preferred stock will have no right or claim to any of our remaining assets.

If, upon any voluntary or involuntary liquidation, dissolution or winding up, the legally available assets are insufficient to pay the amount of the liquidating distributions on all outstanding shares of any series or class of preferred stock and the corresponding amounts payable on all shares of other classes or series of our stock of ranking on a parity with that series or class of preferred stock in the distribution of assets upon liquidation, dissolution or winding up, then the holders of that series or class of preferred stock and all other classes or series of capital stock will share ratably in any distribution of assets in proportion to the full liquidating distributions to which they would otherwise be respectively entitled.

If liquidating distributions have been made in full to all holders of any series or class of preferred stock, our remaining assets will be distributed among the holders of any other classes or series of stock ranking junior to that series or class of preferred stock upon liquidation, dissolution or winding up, according to their respective rights and preferences and in each case according to their respective number of shares. For these purposes, the consolidation or merger of us with or into any other entity, or the sale, lease, transfer or conveyance of all or substantially all of our property or business, will not be deemed to constitute a liquidation, dissolution or winding up of our affairs.

Voting Rights

Holders of preferred stock will not have any voting rights, except as set forth below or as indicated in the applicable prospectus supplement.

Unless provided otherwise for any series or class of preferred stock, so long as any shares of preferred stock of a series or class remain outstanding, we will not, without the affirmative vote or consent of the holders of at least a majority of the shares of that series or class of preferred stock outstanding at the time, given in person or by proxy, either in writing or at a meeting (such series or class voting separately as a class):

authorize or create, or increase the authorized or issued amount of, any class or series of stock ranking prior to that series or class of preferred stock with respect to payment of dividends or the distribution of assets upon liquidation, dissolution or winding up or reclassify any authorized stock into any of those shares, or create, authorize or issue any obligation or security convertible into or evidencing the right to purchase any of those shares; or

amend, alter or repeal the provisions of our charter (including articles supplementary establishing any class or series of preferred stock), whether by merger, consolidation or otherwise, so as to materially and adversely affect any right, preference, privilege or voting power of that series or class of preferred stock or the holders of the preferred stock.

However, any increase in the amount of the authorized preferred stock or the creation or issuance of any other series or class of preferred stock, or any increase in the amount of authorized shares of

Edgar Filing: Ashford Inc. - Form 424B5

such series or class or any other series or class of preferred stock, in each case ranking on a parity with or junior to the preferred stock of that series or class with respect to payment of dividends or the distribution of assets upon liquidation, dissolution or winding up, will not be deemed to materially and adversely affect such rights, preferences, privileges or voting powers.

These voting provisions will not apply if, at or prior to the time when the act with respect to which that vote would otherwise be required will be effected, all outstanding shares of that series or class of preferred stock have been redeemed or called for redemption upon proper notice and sufficient funds have been deposited in trust to effect that redemption.

Conversion Rights

The terms and conditions, if any, upon which shares of any series or class of preferred stock are convertible into shares of common stock will be set forth in the applicable prospectus supplement. The terms will include:

the number of shares of common stock into which the preferred stock is convertible;

the conversion price (or manner of calculation of the conversion price);

the conversion period;

provisions as to whether conversion will be at the option of the holders of the preferred stock or us;

the events requiring an adjustment of the conversion price; and

provisions affecting conversion in the event of the redemption of the preferred stock.

Series A Preferred Stock

In accordance with our charter, we are authorized to issue 50 million shares of preferred stock, which currently includes up to 2 million shares of Series A Preferred Stock, of which no shares were outstanding as of October 31, 2017. The Series A Preferred Stock is issuable to holders of our preferred share purchase rights (the "Rights"). Each Right entitles the registered holder to purchase from the Company one one-thousandth of a share of Series A Preferred Stock at a price of \$275 per one one-thousandth of a share of Series A Preferred Stock. On December 5, 2017, our board of directors extended the expiration date of the Rights until the date of our 2018 annual meeting of stockholders, at which time the stockholders will vote on a further extension of the Final Expiration Date. If the stockholders do not approve such further extension, the Rights will expire on the date of the 2018 annual meeting of stockholders.

Dividend Rights. The holders of Series A Preferred Stock are entitled to receive dividends in preference to holders of shares of any class or series of stock ranking junior to it, equal to 1,000 multiplied by the aggregate per share amount of all dividends of common stock.

Liquidation Rights. Upon any voluntary or involuntary liquidation, dissolution or winding up of our company, the holders of Series A Preferred Stock will be entitled to receive an amount per share equal to 1,000 multiplied by the aggregate amount to be distributed per share to holders of shares of common stock plus an amount equal to any accrued and unpaid dividends, before any payment or distribution will be made or set aside for holders of any junior stock.

Voting Rights. Holders of Series A Preferred Stock have the following voting rights: (i) each share of Series A Preferred Stock entitles the holder thereof to 1,000 votes on all matters submitted to a vote of the stockholders of the company; (ii) holders of shares of Series A Preferred stock and the holders of shares of common stock and any other capital stock having general voting rights shall vote together

as one class on all matters submitted to a vote of stockholders; and (iii) holders of Series A Preferred Stock have no special voting rights and their consent is not required for taking any corporate action.

Conversion and Preemptive Rights. The Series A Preferred Stock is not convertible or exchangeable for any of our other securities or property, and holders of shares of our Series A Preferred Stock have no preemptive rights to subscribe for any securities of our company.

DESCRIPTION OF OUR DEPOSITARY SHARES

We may, at our option, elect to offer fractional shares of preferred stock, or "depository shares," rather than full shares of preferred stock. In that event, we will issue receipts for depository shares, and each receipt will represent a fraction of a share of a particular series of preferred stock as described in the applicable prospectus supplement.

The shares of any series of preferred stock represented by depository shares will be deposited under a deposit agreement to be entered into between us and the depository named in the applicable prospectus supplement. The deposit agreement will contain terms applicable to the holders of depository shares in addition to the terms stated in the depository receipts. Subject to the terms of the deposit agreement, each owner of a depository share will be entitled, in proportion to the applicable fraction of the preferred share represented by such depository share, to all the rights and preferences of the preferred share, including dividend, voting, redemption, subscription and liquidation rights. The terms of any depository shares will be described in the applicable prospectus supplement and the provisions of the deposit agreement, which will be filed with the SEC. You should carefully read the deposit agreement and the depository receipt attached to the deposit agreement for a more complete description of the terms of the depository shares.

If any series of preferred stock underlying the depository shares may be converted or redeemed, each record holder of depository receipts representing the shares of preferred stock being converted or redeemed will have the right or obligation to convert or redeem the depository shares represented by the depository receipts.

Whenever we redeem or convert shares of preferred stock held by the depository, the depository will redeem or convert, at the same time, the number of depository shares representing the preferred stock to be redeemed or converted. The depository will redeem or convert the depository shares from the proceeds it receives from the corresponding redemption or conversion of the applicable series of preferred stock. The redemption or conversion price per depository share will be equal to the applicable fraction of the redemption or conversion price per share of the applicable series of preferred stock. If fewer than all the depository shares are to be redeemed or converted, the depository will select which shares are to be redeemed or converted by lot on a pro rata basis or by any other equitable method as the depository may decide.

After the redemption or conversion date, the depository shares called for redemption or conversion will no longer be outstanding. When the depository shares are no longer outstanding, all rights of the holders of such shares will end, except the right to receive money, securities or other property payable upon redemption or conversion.

We will pay all fees, charges and expenses of the depository, including such fees, charges and expenses in connection with the initial deposit of preferred stock and any redemption of the preferred stock. Holders of depository shares will pay taxes and any other charges as are stated in the deposit agreement for their accounts.

DESCRIPTION OF OUR DEBT SECURITIES

The following description, together with the additional information we include in any applicable prospectus supplements, summarizes the material terms and provisions of the debt securities that we may offer under this prospectus.
