TENET INFORMATION SERVICES, INC. AND SUBSIDIARY NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - INTERIM FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by Tenet Information Services, Inc. and Subsidiary (the Company) and are unaudited. In the opinion of management, the accompanying unaudited financial statements contain all necessary adjustments for fair presentation, consisting of normal recurring adjustments except as disclosed herein.

The accompanying unaudited interim financial statements have been condensed pursuant to the rules and regulations of the Securities and Exchange Commission; therefore, certain information and disclosures generally included in financial statements have been omitted. These financial statements should be read in connection with the Company's annual financial statements included in the Company's annual report on Form 10-KSB as of June 30, 2002. The financial position and results of operations of the interim periods presented are not necessarily indicative of the results to be expected for the year ended June 30, 2003.

NOTE 2 - BASIC AND DILUTED EARNINGS PER COMMON SHARE

Basic earnings per common share are computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution which could occur if all contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock. A total of 605,000 potentially issuable common shares were excluded from the calculation of diluted earnings (loss) per common share at December 31, 2002 and 2001, because the effects would be anti-dilutive.

NOTE 3 - REVENUE RECOGNITION ON LONG TERM SOFTWARE CONTRACTS

Revenues from long-term software installations are recognized on the percentage of completion method, measured by the percentage of costs incurred to date to total estimated costs for each contract.

Contract costs include all direct material, labor and subcontract costs and those indirect costs relating to contract performance. General and administrative costs are charged to expense as incurred. Provisions for estimated losses on uncompleted contracts are recognized in the period in which such losses are determined. Changes in job performance, job conditions and estimated profitability, including those arising from contract penalty provisions, and final contract settlements may result in revisions to revenues and costs and are recognized in the period in which the revisions are determined. An amount equal to contract costs attributable to claims is included in revenues when realization is probable and the amount can be reliably

Edgar Filing: TENET INFORMATION SERVICES INC - Form 10QSB

estimated.

The asset, work performed in excess of billings, represents costs incurred and revenues earned in excess of amounts billed. The liability, Billings in excess of costs, represents billings in excess of costs incurred and revenue recognized. Contract retentions are included in accounts receivable.

NOTE 4 - EXTRAORDINARY ITEM

On November 1, 2001, Tenet completed negotiations with a creditor for settlement of a \$25,000 note, which was due in two payments of \$12,500 on December 31, 2000 and December 31, 2001, respectively. The creditor accepted a one-time \$5,000 payment as payment in full of all obligations of the note. This negotiated settlement will result in a one-time extra-ordinary gain of \$20,000 plus accrued interest of \$1,625 during the quarter ended December 31, 2001.

Item 2: Management's Discussion and Analysis or Plan of Operation

General

This discussion should be read in conjunction with management's discussion and analysis of financial condition and results of operations included in the Company's Annual Report on Form 10-KSB for the fiscal year ended June 30, 2002

The Company is engaged in developing and servicing data processing information products used in hospitals. The Company's main product is an emergency department computer system known as EDNet. In addition, the Company also has a consulting practice which specializes in methods and systems improvements, productivity measurement, cost identification and organizational analysis for all inpatient and outpatient hospital departments, as well as customized software solutions for specific hospital departmental requirements.

As of December 31, 2002, the Company had installed its EDNet product to 24 emergency department and urgent care sites. All sites have annual maintenance contracts for continued support and updates. As of December 31, 2002 the Company was in the process of installing EDNet upgrades at 6 client sites and has received a purchase order from an existing client to install the product at two of their additional sites.

Results of Operations

For the three months ended December 31, 2002 compared with the three months ended December 31, 2001.

During the three-month period ended December 31, 2002, the Company had revenues of \$200,973 which represented a 6 percent increase from \$189,601 for the corresponding period of the prior fiscal year. The 2002 sales consisted of:

	3-months ended 12/31/02	% of sales	3-months ended 12/31/01	% of sales	Change in sales	% Change of sales
Emergency	\$106,213	53%	\$160,565	85%	\$ (54,352)	(34)%
Consulting	\$ 94,760	47%	\$ 29,036	15%	\$ 65,724	227%
	\$200,973	100%	\$189,601	100%	\$ 11,372	6%
	=====	=====	=====	=====	=====	=====

Consulting revenue reflects a new consulting contract with a major hospital as well as follow-on work from an existing client. Emergency Department revenues were weaker due to temporary delays in completing client upgrade work.

Edgar Filing: TENET INFORMATION SERVICES INC - Form 10QSB

Cost of revenues increased 5% to \$116,795 for the three-month period ended December 31, 2002 from \$111,021 for the corresponding period of the prior fiscal year. The increased sales level required higher costs but the gross margin improved to 42%, in line with historical averages.

Selling, general, and administrative expenses increased 169% to \$106,217 for the three-month period ended December 31, 2002 from \$39,416 for the corresponding period of the previous fiscal year. This increase reflects higher employment levels and audit related expenses.

Software development costs decreased 26% to \$21,675 for the three-month period ended December 31, 2002 from \$29,213 for the corresponding period of the prior fiscal year. Development activities are now focused on enhancements to the EDNet product.

The Company had a net operating loss of \$(43,714) for the three-month period ended December 31, 2002 compared with an operating net profit of \$9,951 for the corresponding period of the previous year. This decline is associated with additional costs and expenses preparing for sales growth.

Interest expense decreased to \$4,304 for the three-month period ended December 31, 2001 compared to \$4,894 during the prior fiscal year.

The Company's net loss of \$48,018 or \$(0.00) per share for the three-month period ended December 31, 2002 compared with net income of \$26,682 or \$0.00 per share for the corresponding period of the previous fiscal year. The net loss for the quarter is a result of the higher expense levels.

For the six months ended December 31, 2001 compared with the six months ended December 31, 2000.

During the six month period ended December 31, 2002, the Company had revenues of \$346,429, which represented a 0% increase from \$345,864 for the corresponding period of the prior fiscal year. The 2002 sales consisted of:

	6-month ended 12/31/02	% of sales	6-month ended 12/31/01	% of sales	Change in sales	%
	-----	-----	-----	-----	-----	-----
Emergency	\$218,488	63%	\$280,560	81%	\$(62,072)	22%
Consulting	\$127,941	37%	\$ 65,304	19%	\$ 62,637	96%
	-----	-----	-----	-----	-----	-----
	\$346,429	100%	\$345,864	100%	\$ 565	0%
	=====	=====	=====	=====	=====	=====

While sales were essentially flat, increases in consulting revenue offset the reduction in software activity.

Cost of revenues increased 14% to \$211,339 for the six-month period ended December 31, 2002 compared to \$185,929 for the corresponding period of the prior fiscal year. The gross margin decreased from 46% of sales to 39% in 2002. The lower margins reflect a higher mix of consulting revenues which are typically more labor intensive than software.

Selling, general, and administrative expenses increased 89% to \$159,520 for the six-month period ended December 31, 2002 from \$84,418 for the corresponding period of the previous fiscal year. This increase reflects higher employment levels.

Edgar Filing: TENET INFORMATION SERVICES INC - Form 10QSB

Software development expenses decreased 12% to \$46,806 for the six-month period ended December 31, 2002 from \$53,359 for the corresponding period of the prior fiscal year. Development efforts are now focused on product enhancements to meet customer requirements.

The Company had an operating loss of (\$71,236) for the six-month period ended December 31, 2002 compared with an operating income of \$22,158 for the corresponding period of the previous year. Increased SG&A expense levels contributed to the increase.

Interest expense decreased to \$8,161 for the six-month period ended December 31, 2002 from \$11,204 for the corresponding period of the prior year. Interest expense decreased due to reduction of debt.

Liquidity and Capital Resources

The Company's primary needs for capital are to fund an increased sales effort and to keep the software products current in the marketplace. For the six months ended December 31, 2002 operating activities used \$64,581 in cash as compared to those same activities providing \$15,591 in the six months ended December 31, 2001. The Company has sufficient capital for its current operations. However, in order to significantly expand sales, the Company may require additional cash from an external source. At December 31, 2002 the Company had total assets of \$164,161 and shareholders' deficit of (\$295,216) compared to total assets of \$221,558 and shareholders' deficit of (\$215,819) at June 30, 2002, the Company's last fiscal year end. The decrease in assets is primarily due to an 87% decrease in cash. The increase in shareholders equity is primarily the result of operating losses resulting from higher expense levels in the last six months. The Company did not capitalize any software development costs during the six months ended December 31, 2002 nor did it capitalize any such costs during the prior year.

The Company's cash position decreased 87% during the six month period ended December 31, 2002 to \$10,569 down from \$78,585 as of June 30, 2002. The Company's working capital deficit was \$316,452 at December 31, 2002 as compared to \$215,819 at June 30, 2002.

Inflation has not had a significant impact on the Company's operations.

Item 3: Controls and Procedures

(a) Evaluation of disclosure controls and procedures. The Company maintains controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Based upon their evaluation of those controls and procedures performed within 90 days of the filing date of this report, the chief executive officer and the principal financial officer of the Company concluded that the Company's disclosure controls and procedures were adequate.

(b) Changes in internal controls. The Company made no significant changes in its internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation of those controls by the chief executive officer and principal financial officer.
