WEIS MARKETS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

(1) Significant Accounting Policies

Basis of Presentation: The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring deferrals and accruals) considered necessary for a fair presentation have been included. The operating results for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the consolidated financial statements and footnotes thereto included in the company's latest Annual Report on Form 10-K.

(2) Current Relevant Accounting Standards

In February 2008, FASB issued FASB Staff Position No. 157-2 ("FSP 157-2") which delays the effective date of SFAS No. 157 for non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The adoption of FSP 157-2 did not have a material impact on the company's financial statements.

In April 2009, FASB issued FASB Staff Position No. FAS 115-2 and FAS 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments" ("FSP 115-2 and FAS 124-2"). FSP 115-2 and FAS 124-2 are intended to provide greater clarity to investors about the credit and noncredit component of an other-than-temporary impairment event and to more effectively communicate when an other-than-temporary impairment event has occurred. FSP 115-2 and FAS 124-2 apply to fixed maturity securities only and requires separate display of losses related to credit deterioration and losses related to other market factors. When an entity does not intend to sell the security and it is more likely than not that an entity will not have to sell the security before recovery of its cost basis, it must recognize the credit component of an other-than-temporary impairment in earnings and the remaining portion in other comprehensive income. In addition, upon adoption of FSP 115-2 and FAS 124-2, an entity will be required to record a cumulative-effect adjustment as of the beginning of the period of adoption to reclassify the noncredit component of a previously recognized other-than-temporary impairment from retained earnings to accumulated other comprehensive income. FSP 115-2 and FAS 124-2 is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of FAS 115-2 and FAS 124-2 did not have a material impact on the company's financial statements.

In April 2009, FASB issued FASB Staff Position No. 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" ("FSP 157-4"). FSP 157-4 provides additional authoritative guidance to assist both issuers and users of financial statements in determining whether a market is active or inactive, and whether a transaction is distressed. FSP 157-4 is effective for interim and annual reporting periods ending after June 15, 2009, and shall be applied prospectively. The adoption of FSP 157-4 did not have a material impact on the company's financial statements.

In April 2009, the FASB issued FASB Staff Position FAS No. 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments" ("FSP 107-1 and APB 28-1"). FSP 107-1 and APB 28-1 require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. FSP 107-1 and APB 28-1 is effective for interim reporting periods ending after June 15, 2009. The

adoption of FSP 107-1 and APB 28-1 did not have a material impact on the company's financial statements.

In April 2009, the FASB issued FASB Staff Position FAS No. 141R-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise From Contingencies" ("FSP 141R-1"). FSP 141R-1 amends and clarifies SFAS No. 141R to address application issues regarding initial recognition and measurement, subsequent measurement and accounting and disclosure of assets and liabilities arising from contingencies in a business combination. FSP 141R-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Although the Company did not enter into any business combinations during the first six months of 2009, the Company believes FSP 141R-1 may have a material impact on the Company's future consolidated financial statements depending on the size and nature of any future business combinations that the Company may enter into.

WEIS MARKETS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

2) Current Relevant Accounting Standards (continued)

In May 2009, the FASB issued SFAS No. 165, "Subsequent Events" ("SFAS 165"). SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 is effective for fiscal years and interim periods ended after June 15, 2009. The adoption of SFAS 165 did not have a material impact on the company's financial statements. The company evaluated any subsequent events through the date of this filing and there are no material subsequent events which require further disclosure.

In June 2009, the FASB issued SFAS No. 168, "The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162" ("SFAS 168"). SFAS 168 provides for the FASB Accounting Standards Codification™ (the "Codification") to become the single official source of authoritative, nongovernmental U.S. generally accepted accounting principles (GAAP), except for rules and interpretive releases of the SEC, which are sources of authoritative GAAP for SEC registrants. All other non-grandfathered, non-SEC accounting literature not included in the Codification will become nonauthoritative. This standard is effective for financial statements issued for fiscal years and interim periods ending after September 15, 2009. As the Codification was not intended to change or alter existing GAAP, it will not have any impact on the company's consolidated financial statements.

(3) Comprehensive Income

The components of comprehensive income, net of related tax, for the periods ended June 27, 2009 and June 28, 2008 are as follows:

<i>(dollars in thousands)</i>	<u>13 Weeks Ended</u>		<u>26 Weeks Ended</u>	
	<u>June 27, 2009</u>	<u>June 28, 2008</u>	<u>June 27, 2009</u>	<u>June 28, 2008</u>
Net income	\$ 15,205	\$ 12,836	\$ 31,723	\$ 21,892
Other comprehensive income by component, net of tax:				
Unrealized holding gains (losses) arising during period (Net of deferred taxes of \$31 and \$467 respectively for the 13 Weeks Ended and \$312 and \$1,182 respectively for the 26 Weeks Ended)	44	(659)	(439)	(1,667)
Comprehensive income, net of tax	\$ 15,249	\$ 12,177	\$ 31,284	\$ 20,225

Page 5 of 11 (Form 10-Q)

Table of Contents

WEIS MARKETS, INC.
ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Weis Markets, Inc. was founded in 1912 by Harry and Sigmund Weis in Sunbury, Pennsylvania. Today, the company ranks among the top 50 food and drug retailers in the United States in revenues generated. As of June 27, 2009, the company operated 154 retail food stores in Pennsylvania and four surrounding states: Maryland, New Jersey, West Virginia and New York.

Company revenues are generated in its retail food stores from the sale of a wide variety of consumer products including groceries, dairy products, frozen foods, meats, seafood, fresh produce, floral, pharmacy services, deli products, prepared foods, bakery products, fuel, and general merchandise items, such as health and beauty care and household products. The company also operates 25 Superpetz pet supply stores. The company supports its retail operations through a centrally located distribution facility, its own transportation fleet, four manufacturing facilities and its administrative offices. The company's operations are reported as a single reportable segment.

The following analysis should be read in conjunction with the Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q, the 2008 Annual Report on Form 10-K, filed with the U.S. Securities and Exchange Commission, as well as the cautionary statement captioned "Forward-Looking Statements" immediately following this analysis.

WEIS MARKETS, INC.
ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(continued)

Results of Operations (continued)

Net Sales

The company's revenues are earned and cash is generated as merchandise is sold to customers at the point of sale. Discounts, except those provided by a vendor, are recognized as a reduction in sales as products are sold or over the life of a promotional program if redeemable in the future.

Comparable store sales increased 2.4% in the second quarter of 2009 compared to the same quarter in 2008, which was greater than the total sales increase of 2.0%. For the first half of this year, comparable store sales increased 2.0% compared to the first half of 2008, while total sales ran slightly lower at 1.9%.

When calculating the percentage change in comparable store sales, the company defines a new store to be comparable the week following one full year of operation. Relocated stores and stores with expanded square footage are included in comparable sales since these units are located in existing markets and are open during construction. When a store is closed, sales generated from that unit in the prior year are subtracted from total company sales starting the same week of closure in the prior year and continuing from that point forward.

In response to challenging economic times, the company continued significant investment in its promotional program "Price Freeze". After the 2009 first quarter "Price Freeze" success, the company began its second "Price Freeze" program on April 16, 2009. This program froze prices of approximately 3,000 staple items for a 90-day period and saved the company's customers \$6.5 million. In addition, the company successfully launched "Get Grillin'", a seasonal cross-merchandising program linking meat items to specific general merchandise items such as gas grills and patio furniture. As a result, meat sales improved 5.3% for the quarter. During the second quarter of 2009, the company experienced a 1.0% increase in comparable customer store visits and a 2.0% increase in average sales per customer transaction compared to the same period a year ago.

As the company previously reported, market forces positively affecting prescription growth such as an aging population base, continue to be offset by retail erosion due to increased generic penetration, competitive pressures and a softening economy. In addition, prescription plan sponsors continue to offer economic incentives to covered individuals in an effort to shift their prescription drug purchases to mail order. The company implemented new pricing strategies involving generic drugs in the second half of 2008, which has reversed the downward trend of pharmacy sales. Pharmacy sales in the second quarter of 2009 increased 1.0% compared to the second quarter of 2008 and 0.5% when compared to year-to-date.

The company continued to experience significant product deflation in its dairy category in the second quarter of the current year, particularly with eggs and milk. Dairy sales decreased 3.8% when compared with the second quarter of 2008. Year-to-date dairy sales declined 3.2% compared to 2008. Based upon reports from the USDA's Economic Research Service, management anticipates this trend to continue in 2009, declining approximately 4.0% for the total year.

Management remains confident in its ability to generate sales growth in a highly competitive environment, but also understands some competitors have greater financial resources and could use these resources to take measures which could adversely affect the company's competitive position.

Cost of Sales and Gross Profit

Cost of sales consists of direct product costs (net of discounts and allowances), warehouse costs, transportation costs and manufacturing facility costs.

Table of Contents

WEIS MARKETS, INC.
ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(continued)

Results of Operations (continued)

According to the latest U.S. Bureau of Labor Statistics' report, seasonally adjusted annual rate food-at-home consumer price index fell 4.0% and 3.8% for the second quarter 2009 and first half of the year, respectively. The producer price index for finished consumer foods rose 4.2% for the quarter and declined 2.3% for the first half of 2009. The company has been able to maintain a consistent gross profit rate of 27.0% for the quarter and the year despite the fluctuation of retail and wholesale prices.

The company realized a 23.2% improvement in store inventory losses ("shrink") in the first half of 2009 compared to the same period a year ago. Management remains committed to controlling store inventory losses through its ongoing shrink initiatives.

The company's profitability is particularly impacted by the cost of oil. Cost of sales was impacted by a 52.0% decrease for the second quarter and a 35.6% decrease year-to-date in the cost of diesel fuel used by the company to deliver goods from its distribution center to its stores as compared to the same periods in 2008. In the past year, the company mechanically lowered the top speed of its tractors, implemented routing software to improve loading patterns and reduce delivery mileage, and started a driver training program regarding shift patterns. With these initiatives, management estimates a 6.0% reduction in fuel usage this year. Although fuel prices have dropped substantially since last year, it should be noted that fluctuating fuel prices may adversely affect the delivered cost of product and the cost of other petroleum-based supplies such as plastic bags in the near term.

Although the company experienced product cost inflation and deflation in various commodities for both quarters presented, management does not feel it can accurately measure the full impact of inflation and deflation on retail pricing due to changes in the types of merchandise sold between periods, shifts in customer buying patterns and the fluctuation of competitive factors.

Operating, General and Administrative Expenses

Business operating costs including expenses generated from administration and purchasing functions, are recorded in "Operating, general and administrative expenses." Business operating costs include items such as wages, benefits, utilities, repairs and maintenance, advertising costs and credits, rent, insurance, equipment depreciation, leasehold amortization and costs for outside provided services.

Employee-related costs such as wages, employer paid taxes, health care benefits and retirement plans, comprise over 60% of the total operating, general and administrative expenses. Employee-related costs increased 3.5% in the second quarter and 1.2% in the first half of 2009 compared to the same periods last year. As a percent of sales, employee-related costs increased 0.2% in the second quarter and decreased 0.1% year-to-date compared to the same periods in 2008. The company's self-insured health care benefits increased 19.4% in the second quarter and 4.2% year-to-date, compared to the same periods in 2008. Although management continues various programs to reduce this expense, it expects a trend of increasing health care benefit costs of approximately 8.0% for the year. As a percent of sales, direct store labor decreased 0.2% compared to the first half of 2008 due to improved scheduling disciplines.

Supplies expense decreased \$331,000 in the second quarter of 2009 and \$1.1 million in the first half of the year compared to the same periods of 2008 due to cost reductions realized in petroleum-based supply products and improved operational controls implemented by the store teams. Advertising and promotional media costs decreased \$238,000 in the second quarter and \$1.3 million year-to-date due to reductions in radio and TV advertisements compared to 2008. Receipts from the sale of cardboard salvage decreased \$540,000 in the second quarter and \$1.2 million year-to-date, as market prices for this recycled product declined sharply.

Investment Income

The company's investment portfolio consists of short-term money market funds, Pennsylvania tax-free state and municipal bonds and equity securities. The company classifies all of its marketable securities as available-for-sale. Due to declining yields on short-term money market funds in the second quarter of 2009, the company experienced a \$200,000 decrease in interest income compared to the same period a year ago. Year-to-date investment income declined \$632,000 as compared to the same period in 2008.

Provision for Income Taxes

The effective income tax rate differs from the federal statutory rate of 35% primarily due to the effect of state taxes, net of permanent differences relating to tax-free income.

Income is earned by selling merchandise at price levels that produce revenues in excess of cost of merchandise sold and operating and administrative expenses. Although the company may experience short term fluctuations in its earnings due to unforeseen short-term operating cost increases, it historically has been able to increase revenues and maintain stable earnings from year to year.

Liquidity and Capital Resources

During the first twenty-six weeks of 2009, the company generated \$68.9 million in cash flows from operating activities compared to \$59.6 million for the same period in 2008. Since the beginning of the fiscal year, working capital increased 14.5% compared to a decrease of 2.4% in the same period of 2008. The considerable increase in working capital in 2009 was primarily due to the company's decreased investment in property and equipment.

Net cash used in investing activities was \$16.1 million compared to \$36.6 million in the first half of 2009 and 2008, respectively. These funds were used primarily for property and equipment purchases in the periods presented. Property and equipment purchases during the first half of 2009 totaled \$18.6 million compared to \$36.4 million in the first half of 2008. As a percentage of sales, capital expenditures were 1.5% and 3.0% in 2009 and 2008, respectively.

The company's capital expansion program includes the construction of new superstores, the expansion and remodeling of existing units, the acquisition of sites for future expansion, new technology purchases and the continued upgrade of the company's processing and distribution facilities. Company management estimates that its current development plans will require an investment of approximately \$80.5 million in 2009, which includes the company's plans to acquire the Binghamton based Giant Markets.

Net cash used in financing activities during the first twenty-six weeks of 2009 was \$17.3 million compared to \$15.6 million in the same period a year ago. The majority of the financing activities consisted of dividend payments to shareholders. At June 27, 2009, the company had outstanding letters of credit of \$32.0 million.

Total cash dividend payments on common stock, on a per share basis, amounted to \$.58 for the first half of 2009 and \$.58 for the first half 2008. At its regular meeting held in July, the Board of Directors unanimously approved a quarterly dividend of \$.29 per share, payable on August 17, 2009 to shareholders of record on August 3, 2009. Treasury stock purchases amounted to \$1.7 million in the first half of 2009, compared to \$2,000 in the first half of 2008. The Board of Directors' 2004 resolution authorizing the repurchase of up to one million shares of the company's common stock has a remaining balance of 761,044 shares.

The company has no other commitment of capital resources as of June 27, 2009, other than the lease commitments on its store facilities under operating leases that expire at various dates through 2028. The company anticipates funding its working capital requirements and its \$80.5 million capital expansion program, which includes the company's plans to acquire the Binghamton based Giant Markets, through internally generated cash flows from operations.

Critical Accounting Estimates

The company has chosen accounting policies that it believes are appropriate to accurately and fairly report its operating results and financial position, and the company applies those accounting policies in a consistent manner. The Significant Accounting Policies are summarized in Note 1 to the Consolidated Financial Statements included in the 2008 Annual Report on Form 10-K. There have been no changes to the Critical Accounting Policies since the company filed its Annual Report on Form 10-K for the year ended December 27, 2008.

Forward-Looking Statements

In addition to historical information, this 10-Q Report may contain forward-looking statements. Any forward-looking statements contained herein are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. For example, risks and uncertainties can arise with changes in: general economic conditions, including their impact on capital expenditures; business conditions in the retail industry; the regulatory environment; rapidly changing technology and competitive factors, including increased competition with regional and national retailers; and price pressures. Readers are cautioned not to place undue reliance on forward-looking statements, which reflect management's analysis only as of the date hereof. The company undertakes no obligation to publicly revise or update these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the risk factors described in other documents the company files periodically with the Securities and Exchange Commission.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Quantitative Disclosure - There have been no material changes in the company's market risk during the six months ended June 27, 2009. Quantitative information is set forth in Item 7a on the company's annual report on Form 10-K under the caption "Quantitative and Qualitative Disclosures About Market Risk," which was filed for the fiscal year ended December 27, 2008 and is incorporated herein by reference.

Qualitative Disclosure - This information is set forth in the company's annual report on Form 10-K under the caption "Liquidity and Capital Resources," within "Management's Discussion and Analysis of Financial Condition and Results of Operations," which was filed for the fiscal year ended December 27, 2008 and is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

The Chief Executive Officer and the Acting Chief Financial Officer of the company (its principal executive officer and principal financial officer, respectively) have concluded, based on their evaluation as of a date within 90 days prior to the date of the filing of this Report, that the company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the company in such reports is accumulated and communicated to the company's management, including the Chief Executive Officer and Acting Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There were no significant changes in the company's internal controls or in other factors that could significantly affect these controls subsequent to the date of such evaluation.
