### ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On October 22, 2004, Weyerhaeuser Company issued a press release stating the following:

Weyerhaeuser Reports Third Quarter Net Earnings of \$594 Million,  
or \$2.45 Per Diluted Share, on Net Sales of \$5.8 Billion

FEDERAL WAY, Wash. - Weyerhaeuser Company (NYSE: WY) today reported third quarter net earnings of \$594 million, or \$2.45 per diluted share, on net sales of \$5.8 billion. This compares with \$82 million, or 37 cents per diluted share, on net sales of \$5.2 billion for the third quarter of 2003.

Third quarter 2004 earnings include the following after-tax items:

- \* A gain of \$179 million, or 74 cents per diluted share, from a sale of timberlands in Georgia.
- \* A gain of \$16 million, or 7 cents per diluted share, from a tenure reallocation agreement with the British Columbia government.
- \* A gain of \$13 million, or 5 cents per diluted share, due to the reduction of the reserve for hardboard siding claims.
- \* A charge of \$7 million, or 3 cents per diluted share, related to the sale or closure of facilities.

Third quarter 2003 earnings included the following after-tax items:

- \* A charge of \$32 million, or 14 cents per diluted share, for closure of facilities;
- \* A charge of \$15 million, or 7 cents per diluted share, associated with the settlement of a class action linerboard antitrust lawsuit;
- \* A charge of \$15 million, or 7 cents per diluted share, for integration and restructuring activities.

Other significant third quarter financial matters include:

- \* The company, including Real Estate and Related Assets, reduced outstanding debt by approximately \$270 million to approximately \$11.4 billion at the end of the quarter. In addition, cash and short-term investments increased by approximately \$500 million in the third quarter due primarily to strong cash flows from operations and proceeds from the sale of timberlands in Georgia. The \$1.2 billion balance of cash and short-term investments as of the end of the third quarter is largely expected to be applied to future debt repayment.
- \* Capital spending, excluding Real Estate and Related Assets, for the first three quarters of 2004 was approximately \$275 million.

"Our strong quarterly earnings reflect favorable market conditions and contributions from all our businesses," said Steven R. Rogel, chairman, president and chief executive officer. "Our employees continue to do an outstanding job containing costs, increasing productivity and improving efficiency. While we expect to see normal seasonal downturns in the fourth

quarter, we are well positioned in our markets."

### SUMMARY OF THIRD QUARTER FINANCIAL HIGHLIGHTS

### DISCUSSION AND OUTLOOK BY BUSINESS SEGMENT

#### TIMBERLANDS

	3Q 2004	2Q 2004	Change
Contribution to earnings (millions)	\$450	\$201	\$249

Third quarter earnings include a \$271 million pre-tax gain on the previously announced sale of timberlands in Georgia. Excluding this gain, earnings declined \$22 million from the second quarter, reflecting a normal seasonal reduction in harvest activity in the West and abnormally wet weather in the South. Aside from disruption due to wet weather, hurricanes caused minimal damage to our timberlands. Prices for logs in both domestic and export markets increased slightly from the prior quarter.

Fourth quarter earnings are expected to be similar to third quarter, excluding the third quarter sale of timberlands in Georgia.

#### WOOD PRODUCTS

	3Q 2004	2Q 2004	Change
Contribution to earnings (millions)	\$362	\$448	(\$86)

Third quarter earnings of \$362 million include a \$20 million pre-tax gain from the tenure reallocation agreement with the British Columbia government, and a \$20 million reduction in the reserve for hardboard siding claims. This compares to second quarter earnings of \$448 million, which included a \$16 million pre-tax charge from an adverse judgment in a lawsuit.

Housing starts remained high throughout the quarter, resulting in healthy demand for oriented strand board, plywood and lumber. Structural panel prices were volatile with average prices declining from the second quarter. In contrast, average prices for most lumber indicators were flat to slightly up from second quarter to third. The segment also benefited from earlier price increases in engineered lumber.

The segment incurred \$31 million in countervailing and anti-dumping duties and related costs on Canadian softwood lumber the company sold into the United States in the third quarter. This compares to \$34 million in the second

## Edgar Filing: WEYERHAEUSER CO - Form 8-K

quarter.

Fourth quarter earnings are expected to be lower than the third quarter, as lumber and structural panel prices decline from recent, very high levels.

### PULP AND PAPER

	3Q 2004	2Q 2004	Change
Contribution to earnings (millions)	\$80	\$14	\$66

Earnings increased during the quarter as uncoated free sheet paper prices improved across all product lines. Papergrade pulp prices increased during the quarter but have begun to decline. Fluff pulp prices improved early in the quarter and remained stable. Fine Paper prices strengthened throughout the quarter and are expected to continue to improve in the fourth quarter as a result of recent price increases.

Fourth quarter earnings are expected to be slightly lower than the third quarter -- despite stable fluff pulp markets and increases in paper prices -- due to weakening papergrade pulp markets and costs associated with scheduled maintenance downtime.

### CONTAINERBOARD, PACKAGING AND RECYCLING

	3Q 2004	2Q 2004	Change
Contribution to earnings (millions)	\$82	\$62	\$20

Earnings improved over second quarter levels due primarily to price increases for both containerboard and boxes, as well as slightly lower costs for old corrugated containers. Third quarter results include pre-tax charges of \$12 million related to facility closures.

Customer demand for boxes is expected to remain healthy, but decline seasonally. The company expects higher fourth quarter earnings due primarily to increasing prices.

### REAL ESTATE AND RELATED ASSETS

	3Q 2004	2Q 2004	Change
Contribution to earnings (millions)	\$155	\$118	\$37

Third quarter earnings benefited from increased single-family home closings and higher margins, and from the sale of a multi-family site that generated a pre-tax gain of \$18 million. The pace of single-family home sales during the third quarter declined seasonally compared to the prior quarter. However, the backlog of homes sold, but not closed, is approximately seven months.

Fourth quarter earnings are expected to modestly exceed the third quarter because of increased closing volume and strong margins.

###

This news release contains statements concerning the company's future results and performance that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Some of these forward-looking statements can be identified by the use of forward-looking terminology such as "expects," "may," "will," "believes," "should," "approximately," "anticipates," "estimates," and "plans," and the negative or other variations of those terms or comparable terminology or by discussions of strategy, plans or intentions. In particular, some of these forward-looking statements deal with expectations regarding the company's markets in the fourth quarter; expected earnings and performance of the company's business segments during the fourth quarter, demand and pricing for the company's products in the fourth quarter, debt repayment, capital spending, timber harvest in the fourth quarter, no major timberland sales in the fourth quarter, slowdown of housing construction in the fourth quarter, closings of home sales in the fourth quarter, scheduled maintenance downtime in the fourth quarter, new home sales and other matters. The accuracy of such statements is subject to a number of risks, uncertainties and assumptions that may cause actual results to differ materially from those projected, including, but not limited to, the effect of general economic conditions, including the level of interest rates and housing starts; market demand for the company's products, which may be tied to the relative strength of various U.S. business segments; energy prices; performance of the company's manufacturing operations; the successful execution of internal performance plans; the level of competition from domestic and foreign producers; the effect of forestry, land use, environmental and other governmental regulations; fires, floods and other natural disasters; disruption of transportation and legal proceedings. The company is also a large exporter and is affected by changes in economic activity in Europe and Asia, particularly Japan, and by changes in currency exchange rates, particularly the relative value of the U.S. dollar to the Euro and the Canadian dollar; and restrictions on international trade or tariffs imposed on imports, including the countervailing and dumping duties imposed on the company's softwood lumber shipments from Canada to the United States. These and other factors that could cause or contribute to actual results differing materially from such forward looking statements are discussed in greater detail in the company's Securities and Exchange Commission filings.
