NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE QUARTERS ENDED SEPTEMBER 30, 2012 AND 2011

NOTE 1: BASIS OF PRESENTATION

We are a corporation that has elected to be taxed as a real estate investment trust (REIT). We expect to derive most of our REIT income from investments in timberlands, including the sale of standing timber through pay-as-cut sales contracts. REIT income can be distributed to shareholders without first paying corporate level tax, substantially eliminating the double taxation on income. A significant portion of our timberland segment earnings receives this favorable tax treatment. We are, however, subject to corporate taxes on built-in-gains (the excess of fair market value over tax basis at January 1, 2010) on sales of real property (other than standing timber) held by the REIT during the first 10 years following the REIT conversion. We continue to be required to pay federal corporate income taxes on earnings of our Taxable REIT Subsidiary (TRS), which principally includes our manufacturing businesses, our real estate development business and the portion of our Timberlands segment income included in the TRS.

Our consolidated financial statements provide an overall view of our results and financial condition. They include our accounts and the accounts of entities we control, including:

- majority-owned domestic and foreign subsidiaries and
- variable interest entities in which we are the primary beneficiary.

They do not include our intercompany transactions and accounts, which are eliminated, and noncontrolling interests are presented as a separate component of equity.

We account for investments in and advances to unconsolidated equity affiliates using the equity method, with taxes provided on undistributed earnings. This means that we record earnings and accrue taxes in the period earnings are recognized by our unconsolidated equity affiliates.

We report our financial condition in two groups:

• **Forest Products** – our forest products-based operations, principally the growing and harvesting of timber, the manufacture, distribution and sale of forest products and corporate governance activities; and

• **Real Estate** – our real estate development and construction operations.

Throughout these Notes to Consolidated Financial Statements, unless specified otherwise, references to “Weyerhaeuser,” “we” and “our” refer to the consolidated company, including both Forest Products and Real Estate.

The accompanying unaudited Consolidated Financial Statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods presented. Except as otherwise disclosed in these Notes to Consolidated Financial Statements, such adjustments are of a normal, recurring nature. The Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements; certain disclosures normally provided in accordance with accounting principles generally accepted in the United States have been omitted. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Management’s Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2011. Results of operations for interim periods should not be regarded as necessarily indicative of the results that may be expected for the full year.

RECLASSIFICATIONS

We have reclassified certain balances and results from the prior year to be consistent with our 2012 reporting. This makes year-to-year comparisons easier. Our reclassifications had no effect on net earnings or Weyerhaeuser shareholders' interest. The reclassifications include the following:

- We changed the way we classify certain transactions within operating on our Consolidated Statement of Cash Flows. We now report the elimination of intersegment profit on inventory and the LIFO reserve in Unallocated Items.
- Previously these company-level adjustments were recorded in the business segments. This provides a better understanding of business operating results.

NOTE 2: BUSINESS SEGMENTS

We are principally engaged in the growing and harvesting of timber; the manufacture, distribution and sale of forest products; and real estate development and construction. Our principal business segments are:

- Timberlands – which includes logs; timber; minerals, oil and gas; and international wood products;
- Wood Products – which includes softwood lumber, engineered lumber, structural panels and building materials distribution;
- Cellulose Fibers – which includes pulp, liquid packaging board and an equity interest in a newsprint joint venture; and
- Real Estate – which includes real estate development, construction and sales.

We have disposed of various businesses and operations that are excluded from the segment results below. See Note 4: Discontinued Operations for information regarding our discontinued operations.

An analysis and reconciliation of our business segment information to the respective information in the Consolidated Financial Statements is as follows:

Unallocated Items are gains or charges not related to or allocated to an individual operating segment. They include a portion of items such as: share-based compensation; pension and postretirement costs; foreign exchange transaction gains and losses associated with financing; and the elimination of intersegment profit in inventory and the LIFO reserve.

NOTE 3: NET EARNINGS PER SHARE

Our basic and diluted earnings per share attributable to Weyerhaeuser shareholders were: \$0.22 during third quarter and \$0.45 during year-to-date 2012, respectively; and \$0.29 during third quarter and \$0.49 during year-to-date 2011, respectively.

Basic earnings per share is net earnings divided by the weighted average number of our outstanding common shares, including stock equivalent units where there is no circumstance under which those shares would not be issued.

Diluted earnings per share is net earnings divided by the sum of the:

- weighted average number of our outstanding common shares and
- the effect of our outstanding dilutive potential common shares.

Dilutive potential common shares can include:

- outstanding stock options,
- restricted stock units and
- performance share units.

We use the treasury stock method to calculate the effect of our outstanding dilutive potential common shares.

Share-based payment awards that are contingently issuable upon the achievement of specified performance or market conditions are included in our diluted earnings per share calculation in the period in which the conditions are satisfied.

SHARES EXCLUDED FROM DILUTIVE EFFECT

The following shares were not included in the computation of diluted earnings per share because they were either antidilutive or the required performance or market conditions were not met. Some or all of these shares may be dilutive potential common shares in future periods.

Potential Shares Not Included in the Computation of Diluted Earnings per Share

SHARES IN THOUSANDS	QUARTER ENDED		YEAR-TO-DATE ENDED

Stock options	6,644	23,666	6,644	23,666
Performance share units	516	471	516	471

During third quarter 2011, we repurchased 1,199,800 shares of common stock for \$20 million under the 2008 stock repurchase program. On August 11, 2011, our board of directors replaced the 2008 stock repurchase program and approved the 2011 stock repurchase program under which we are authorized to repurchase up to \$250 million of outstanding shares. During third quarter 2011, we repurchased 589,824 shares of common stock for \$9 million under the 2011 program. Cash settlements of \$5 million occurred at the beginning of the fourth quarter. All common stock purchases under the programs were made in open-market transactions. As of September 30, 2012, we had remaining authorization of \$233 million for future share repurchases.

NOTE 4: DISCONTINUED OPERATIONS

There are no operations classified as discontinued for the quarter and year-to-date periods ended September 30, 2012. Discontinued operations for the quarter and year-to-date periods ended September 30, 2011 include our hardwoods and Westwood Shipping Lines operations, both of which were sold in third quarter 2011. The following table summarizes the components of net sales and net earnings from discontinued operations.

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED SEPTEMBER 2011	YEAR-TO-DATE ENDED SEPTEMBER 2011
Net sales:		
Hardwoods	\$27	\$222
Westwood Shipping Lines	56	180
Total net sales from discontinued operations	\$83	\$402
Loss from operations:		
Hardwoods	\$(4) \$(3
Westwood Shipping Lines	(4) —
Other discontinued operations	—	(13
Total loss from discontinued operations	(8) (16

Net loss from operations	(5) (11
Net gain (loss) on sale (after-tax):		
Hardwoods	(8) (14
Westwood Shipping Lines	31	31
Sale of property	6	6
Net earnings from discontinued operations	\$24	\$12

Results of discontinued operations exclude certain general corporate overhead costs that have been allocated to and are included in contribution to earnings for the operating segments.

Other discontinued operations relate to gains or losses recognized in the period for businesses we have divested in prior years and are included in Unallocated Items. During second quarter 2011 we increased our reserve for estimated future environmental remediation costs and recognized an \$11 million charge associated with discontinued operations.

SALE OF HARDWOODS

On August 1, 2011, we completed the sale of our hardwoods operations to American Industrial Partners for consideration of \$109 million, of which \$25 million was a note receivable. During second quarter 2011, we reduced our hardwoods assets to their fair value less selling costs which resulted in the recognition of a \$9 million charge. An additional \$10 million pension curtailment charge was recognized in third quarter 2011 when the transaction closed. Total pre-tax charges on the sale of \$22 million were recorded in our Wood Products segment. We recognized a tax benefit on the sale of \$8 million resulting in a year-to-date net loss of \$14 million.

SALE OF WESTWOOD SHIPPING LINES

On September 30, 2011, we completed the sale of Westwood Shipping Lines to J-WesCo of Japan for \$58 million in cash. We recognized a pre-tax gain of \$49 million in Unallocated and recorded tax expense of \$18 million, resulting in a net gain of \$31 million.

NOTE 5: SHARE-BASED COMPENSATION

In 2012, we granted 1,915,486 stock options, 749,333 restricted stock units, 344,237 performance share units, and 52,304 stock appreciation rights. In addition, 374,458 outstanding restricted stock unit awards vested during year-to-date 2012. A total of 4,200,554 shares of common stock were issued as a result of restricted stock unit vesting and stock option exercises.

STOCK OPTIONS

The weighted average exercise price of all of the stock options granted in 2012 was \$20.42. The vesting and post-termination vesting terms for stock options granted in 2012 were as follows:

- options vest ratably over 4 years;
- options vest or continue to vest in the event of death, disability, or retirement at an age of at least 62;
- options continue vesting for one year in the event of involuntary termination when the retirement criteria for full or continued vesting have not been met; and
- options stop vesting for all other situations including early retirement prior to age 62.

Weighted Average Assumptions Used in Estimating the Value of Stock Options Granted in 2012

	OPTIONS	
Expected volatility	40.41	%
Expected dividends	2.94	%
Expected term (in years)	5.33	
Risk-free rate	1.01	%
Weighted average grant date fair value	\$5.72	

RESTRICTED STOCK UNITS

The weighted average fair value of the restricted stock units granted in 2012 was \$20.44. The vesting provisions for restricted stock units granted in 2012 were as follows:

- restricted stock units vest ratably over 4 years;
- restricted stock units immediately vest in the event of death while employed or disability;
- restricted stock units partially vest upon retirement at an age of at least 62 or job elimination depending on the employment period after grant date; and
- restricted stock units will be forfeited upon termination of employment in all other situations including early retirement prior to age 62.

PERFORMANCE SHARE UNITS

The weighted average grant date fair value of performance share units granted in 2012 was \$21.73. The vesting provisions for performance share units granted in 2012 and that are earned were as follows:

- units vest 50 percent, 25 percent and 25 percent on the second, third and fourth anniversaries of the grant date, respectively, as long as the individual remains employed by the company;
- units fully vest in the event of death while employed or disability;
- units partially vest upon retirement at an age of at least 62 or job elimination depending on the employment period after grant date; and
- units will be forfeited upon termination of employment in all other situations including early retirement prior to age 62.

Weighted Average Assumptions Used in Estimating the Value of Performance Share Units Granted in 2012

	Performance Share Units			
Performance period	1/1/2012 – 12/31/2013			
Valuation date closing stock price	\$20.56			
Expected dividends	2.92			%
Risk-free rate	0.08	%–	0.32	%
Expected volatility	34.66	%–	34.86	%

STOCK APPRECIATION RIGHTS

Stock appreciation rights are remeasured to reflect the fair value at each reporting period. The following table shows the weighted average assumptions applied to all outstanding stock appreciation rights as of September 30, 2012.

Weighted Average Assumptions Used to Remeasure the Value of Stock Appreciation Rights as of September 30, 2012

	SEPTEMBER 30, 2012	
Expected volatility	31.37	%
Expected dividends	2.30	%
Expected term (in years)	1.93	
Risk-free rate	0.24	%
Weighted average fair value	\$6.32	

The vesting and post-termination vesting terms for stock appreciation rights granted in 2012 are the same as for stock options described above.

DEFERRED COMPENSATION STOCK EQUIVALENT UNITS

During first quarter 2012, the directors' deferred compensation plan was amended to allow the directors to elect to receive payments of amounts deferred into stock equivalent units in cash or stock. Elections to receive these deferred amounts in stock resulted in the issuance of 40,889 shares. The number of common shares to be issued in the future to directors who elected common share payments is 495,147.

NOTE 6: CHARGES FOR RESTRUCTURING, CLOSURES AND ASSET IMPAIRMENTS

Charges for restructuring, closures and asset impairments for the quarters and year-to-date periods ended September 30, 2012 and 2011, include:

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	SEPTEMBER 2012	SEPTEMBER 2011	SEPTEMBER 2012	SEPTEMBER 2011
Restructuring and closure charges:

Real estate impairments	—	2	1	2
Other assets	2	2	2	2
	7	34	19	37
Charges for restructuring, closures and impairments	\$10	\$41	\$26	\$52

Asset impairments in 2012 are primarily related to unutilized assets held in Unallocated Items that were sold or are currently held for sale.

Asset impairments in third quarter 2011 included \$29 million of impairment charges in the Wood Products segment primarily related to the decision to permanently close four engineered lumber facilities that had been previously indefinitely closed. The fair values of the facilities were determined using significant unobservable inputs (Level 3) based on liquidation values.

The \$152 million pretax gain on sale of non-strategic timberlands resulted from the sale of 82,000 acres in southwestern Washington. Timberland exchanges and smaller dispositions are included in our net sales and revenue and cost of products sold.

Foreign exchange losses (gains) result from changes in exchange rates, primarily related to our Canadian operations. Land management income consists primarily of income derived from leasing, renting and granting easement and rights of way on our timberlands.

NOTE 8: INVENTORIES

Forest Products inventories include raw materials, work-in-process and finished goods.

The LIFO – the last-in, first-out method – inventory reserve applies to major inventory products held at our U.S. domestic locations. These inventory products include grade and fiber logs, chips, lumber, plywood, oriented strand board, pulp and paperboard.

NOTE 9: ACCRUED LIABILITIES

Forest Products accrued liabilities were comprised of the following:

NOTE 10: FAIR VALUE OF FINANCIAL INSTRUMENTS

The estimated fair values and carrying values of our long-term debt consisted of the following:

DOLLAR AMOUNTS IN MILLIONS	SEPTEMBER 30,		DECEMBER 31,	
	2012		2011	
	CARRYING	FAIR VALUE	CARRYING	FAIR VALUE
	VALUE	(LEVEL 2)	VALUE	(LEVEL 2)
Long-term debt (including current maturities):				
Forest Products	\$4,182	\$4,921	\$4,193	\$4,579
Real Estate	\$109	\$111	\$285	\$291

To estimate the fair value of long-term debt, we used the following valuation approaches:

• market approach – based on quoted market prices for the same types and issues of our debt; or

• income approach – based on the discounted value of the future cash flows using market yields for the same type and comparable issues of debt.

The inputs to the valuations are based on market data obtained from independent sources or information derived principally from observable market data.

The difference between the fair value and the carrying value represents the theoretical net premium or discount we would pay or receive to retire all debt at the measurement date.

We recognized a pretax charge in year-to-date 2011 of \$26 million, which included early retirement premiums, unamortized debt issuance costs and other miscellaneous charges in connection with the early extinguishment of debt.

This charge is included in interest expense in our Consolidated Statement of Operations.

FAIR VALUE OF OTHER FINANCIAL INSTRUMENTS

We believe that our other financial instruments, including cash, short-term investments, receivables, and payables, have net carrying values that approximate their fair values with only insignificant differences. This is primarily due to:

• the short-term nature of these instruments,

• carrying short-term investments at expected net realizable value and

• the allowance for doubtful accounts.

NOTE 11: PENSION AND OTHER POSTRETIREMENT BENEFIT PLANS

The components of net periodic benefit costs (credits) are:

During fourth quarter 2011, we ratified amendments to our postretirement medical and life insurance benefit plans for U.S. salaried employees that reduced or eliminated certain benefits that were available to both past and present employees. The company recognized a gain of \$103 million in year-to-date 2012 due to these benefit changes. This gain is included in other operating income and reflected in the amortization of prior service credit in the table above. The benefit related to the fourth quarter 2011 amendments was fully recognized in first and second quarter 2012.

Loss due to curtailment and special termination benefits includes charges of \$11 million related to the sale of our hardwoods and Westwood Shipping Lines operations in third quarter 2011. These charges are included in our results of discontinued operations.

FAIR VALUE OF PENSION PLAN ASSETS

We estimate the fair value of pension plan assets based upon the information available during the year-end reporting process. In some cases, primarily private equity funds, the information available consists of net asset values as of an interim date, cash flows between the interim date and the end of the year and market events. We revise the year-end estimated fair value of pension plan assets to incorporate year-end net asset values reflected in audited financial statements received after we have filed our Annual Report on Form 10-K. The fair value of pension assets as of December 31, 2011 were \$15 million higher than we estimated at year end.

We recorded the following adjustment during second quarter 2012 to reflect updated participant information as of the beginning of the year, which was partially offset by the increase in the pension assets:

- \$23 million increase in the liability for deferred pension;
- \$9 million decrease in the liability for deferred income taxes; and
-

\$14 million net increase in cumulative other comprehensive loss, which resulted in a decrease in total Weyerhaeuser shareholders' interest.

15

EXPECTED CONTRIBUTIONS AND BENEFIT PAYMENTS

As disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011, and updated for events occurring in 2012, we expect to:

• make approximately \$87 million of required contributions to our Canadian registered and nonregistered pension plans in 2012;

• contribute approximately \$20 million to our U.S. nonqualified pension plans in 2012; and

• make U.S. and Canadian other postretirement benefit payments of approximately \$42 million in 2012.

Congress passed legislation in June 2012 that changed the way the discount rate is computed for purposes of determining minimum pension contribution funding. Based upon this legislation, we do not have a required contribution to our U.S. qualified plan, which we previously estimated to be \$60 million due by September 2013.

NOTE 12: VARIABLE INTEREST ENTITIES

In third quarter 2012, we repaid a \$97 million note related to one of our timber monetization special-purpose entities (SPEs) undertaken in 2002. We will receive approximately \$110 million in fourth quarter 2012 when the related financial investment matures. As a result of dissolving one of our SPEs, the deferred tax liability related to our SPEs was reduced to \$240 million as of September 30, 2012, compared to \$277 million as of December 31, 2011. More information about these entities, which were formed in connection with the sale of nonstrategic timberlands in 2002-2004, can be found in our annual reports on Form 10-K for 2011 and 2002-2004.

NOTE 13: CUMULATIVE OTHER COMPREHENSIVE LOSS

Items included in our cumulative other comprehensive loss are:

DOLLAR AMOUNTS IN MILLIONS	SEPTEMBER 30, 2012	DECEMBER 31, 2011
Foreign currency translation adjustments	\$ 436	\$ 411
Net pension and other postretirement benefit loss not yet recognized in earnings	(1,756) (1,821
Prior service credit not yet recognized in earnings	119	227
Unrealized gains on available-for-sale securities	4	4
Total	\$ (1,197) \$ (1,179

The change in prior service credit not yet recognized in earnings includes the amortization of a \$103 million gain recognized in 2012, as the result of previously announced benefit changes. See Note 11: Pension and Other Postretirement Benefit Plans.

NOTE 14: LEGAL PROCEEDINGS, COMMITMENTS AND CONTINGENCIES

This note provides details about our:

- legal proceedings and
- environmental matters.

LEGAL PROCEEDINGS

We are party to legal matters generally incidental to our business. The ultimate outcome of any legal proceeding:

- is subject to a great many variables and
- cannot be predicted with certainty.

However, whenever probable losses from litigation could reasonably be determined – we believe that we have established adequate reserves. In addition, we believe the ultimate outcome of the legal proceedings: could have a material adverse effect on our results of operations, cash flows or financial position in any given quarter or year; but will not have a material adverse effect on our long-term results of operations, cash flows or financial position.

ENVIRONMENTAL MATTERS

Our environmental matters include:

- site remediation and
- asset retirement obligations.

Site Remediation

Under the Comprehensive Environmental Response Compensation and Liability Act – commonly known as the Superfund – and similar state laws, we:

- are a party to various proceedings related to the cleanup of hazardous waste sites and
- have been notified that we may be a potentially responsible party related to the cleanup of other hazardous waste sites for which proceedings have not yet been initiated.

As of September 30, 2012, our total accrual for future estimated remediation costs on the active Superfund sites and other sites for which we are responsible was approximately \$34 million. The accrual has not changed materially since the end of 2011.

Asset Retirement Obligations

We have obligations associated with the retirement of tangible long-lived assets consisting primarily of reforestation obligations related to forest management licenses in Canada and obligations to close and cap landfills. As of September 30, 2012, our total accruals for these obligations was \$62 million. The accruals have not changed materially since the end of 2011.

Some of our sites have asbestos containing materials. We have met our current legal obligation to identify and manage these materials. In situations where we cannot reasonably determine when asbestos containing materials might be removed from the sites, we have not recorded an accrual because the fair value of the obligation cannot be reasonably estimated.

NOTE 15: INCOME TAXES

As a REIT, we generally are not subject to corporate level tax on income of the REIT that is distributed to shareholders. We will, however, be subject to corporate taxes on built-in-gains (the excess of fair market value over tax basis at January 1, 2010) on sales of real property (other than standing timber) held by the REIT during the first 10 years following the REIT conversion. We also will continue to be required to pay federal corporate income taxes on earnings of our TRS, which principally includes our manufacturing businesses, our real estate development business and the portion of our Timberlands segment income included in the TRS.

The 2012 provision for income taxes is based on the year-to-date effective tax rate that applies to our TRS. Our 2012 estimated annual effective tax rate, excluding discrete items, is 55.6 percent and differs from the U.S. statutory rate, primarily due to losses from non-U.S. results where no tax benefit is accrued because it is more likely than not that a benefit will not be realized. The tax rate for the quarter differs from the estimated annual effective tax rate, primarily due to a different mix of earnings or losses in the quarter relative to the annual period and a catch up in the fourth quarter for the estimated change in our effective tax rate.

During third quarter 2012, as a result of reaching agreements with taxing authorities, we reduced our unrecognized tax benefits and recognized a tax provision reduction of \$7 million.

Discrete items excluded from the calculation of our effective income tax rates include:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS ("MD&A")

FORWARD-LOOKING STATEMENTS

This report contains statements concerning our future results and performance that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements:

are based on various assumptions we make and

may not be accurate because of risks and uncertainties surrounding the assumptions that we make.

Factors listed in this section – as well as other factors not included – may cause our actual results to differ significantly from our forward-looking statements. There is no guarantee that any of the events anticipated by our forward-looking statements will occur. Or if any of the events occur, there is no guarantee what effect they will have on our operations or financial condition.

We will not update our forward-looking statements after the date of this report.

FORWARD-LOOKING TERMINOLOGY

Some forward-looking statements discuss our plans, strategies and intentions. They use words such as expects, may, will, believes, should, approximately, anticipates, estimates, and plans. In addition, these words may use the positive or negative or other variations of those terms.

STATEMENTS

We make forward-looking statements of our expectations regarding fourth quarter 2012, including:

slightly improved selling prices and comparable sales volumes for Western logs, slightly lower Southern log realizations due to mix and a small seasonal increase in fee harvest volume, increased silviculture costs, earnings from non-strategic land sales expected to be flat and comparable earnings in our Timberlands segment;

a seasonal decline in pricing and demand and lower earnings in our Wood Products segment;

lower selling prices for fluff pulp, increased sales volumes, lower maintenance expense, somewhat higher energy costs and comparable earnings in our Cellulose Fiber segment; and

a seasonal increase in home closings, lower average margins due to mix, higher selling expenses due to additional volume and slightly lower earnings from single-family homebuilding operations in our Real Estate segment.

We base our forward-looking statements on a number of factors, including the expected effect of:

the economy;

regulations;

adverse litigation outcomes and the adequacy of reserves;

changes in accounting principles;

contributions to pension plans;

projected benefit payments;

projected tax rates and credits; and

other related matters.

RISKS, UNCERTAINTIES AND ASSUMPTIONS

The major risks and uncertainties – and assumptions that we make – that affect our business and may cause actual results to differ from these forward-looking statements include, but are not limited to:

- the effect of general economic conditions, including employment rates, housing starts, interest rate levels, availability of financing for home mortgages and strength of the U.S. dollar;
- market demand for our products, which is related to the strength of the various U.S. business segments and U.S. and international economic conditions;
- performance of our manufacturing operations, including maintenance requirements;
- the successful execution of our internal performance plans, including restructurings and cost reduction initiatives;
- the level of competition from domestic and foreign producers;
- the effect of weather;
- the risk of loss from fires, floods, windstorms, hurricanes, pest infestation and other natural disasters;
- raw material prices;
- energy prices;
- transportation costs;
- the effect of forestry, land use, environmental and other governmental regulations;
- federal tax policies;
- legal proceedings;
- performance of pension fund investments and related derivatives;
- the effect of timing of retirements and changes in the market price of our common stock on charges for share-based compensation;
- changes in accounting principles; and
- other factors described under “Risk Factors” in our annual report on Form 10-K.

EXPORTING ISSUES

We are a large exporter, affected by changes in:

- economic activity in Europe and Asia – particularly Japan and China;
- currency exchange rates – particularly the relative value of the U.S. dollar to the euro and Canadian dollar and the relative value of the euro and yen; and
- restrictions on international trade or tariffs imposed on imports.

RESULTS OF OPERATIONS

In reviewing our results of operations, it is important to understand these terms:

• Price realizations refer to net selling prices – this includes selling price plus freight, minus normal sales deductions.

• Net contribution to earnings can be positive or negative and refers to earnings (loss) attributable to Weyerhaeuser shareholders before interest expense and income taxes.

In reviewing our results of operations, it is important to understand net sales and revenues and operating income included in Consolidated Results and individual segment discussions below exclude the results of discontinued operations. Refer to Note 4: Discontinued Operations.

In the following discussion, unless otherwise noted, references to increases or decreases in income and expense items, price realizations, shipment volumes, and net contributions to earnings are based on the quarter and year-to-date periods ended September 30, 2012, compared to the quarter and year-to-date periods ended September 30, 2011.

CONSOLIDATED RESULTS

How We Did in Third Quarter and Year-to-Date 2012

NET SALES AND REVENUES / OPERATING INCOME / NET EARNINGS – WEYERHAEUSER COMPANY

Here is a comparison of net sales and revenues to unaffiliated customers, operating income and net earnings for the quarters and year-to-date periods ended September 30, 2012 and 2011:

DOLLAR AMOUNTS IN MILLIONS, EXCEPT PER-SHARE FIGURES	QUARTER ENDED		AMOUNT OF YEAR-TO-DATE CHANGE ENDED		AMOUNT OF CHANGE

Comparing Third Quarter 2012 with Third Quarter 2011

Net sales and revenues

Net sales and revenues increased \$203 million – 13 percent – primarily due to the following:

• Wood Products segment sales increased \$213 million, primarily due to higher sales volumes across all major product lines and improved selling prices for lumber, oriented strand board (OSB) and plywood;

• Real Estate segment sales increased \$19 million as increased home closings more than offset lower average prices for homes closed; and

• Timberlands segment sales increased \$15 million, primarily due to increased timberlands exchanges.

These increases were partially offset by a decrease of \$44 million in Cellulose Fibers segment sales, primarily due to lower pulp price realizations.

Net earnings attributable to Weyerhaeuser common shareholders

Our net earnings attributable to Weyerhaeuser common shareholders decreased \$40 million – 25 percent – primarily from:

- a \$117 million change in income taxes due to the change in discrete tax items and higher income in our TRS in third quarter 2012 compared to third quarter 2011;

- a \$24 million decrease in net earnings of discontinued operations; and

- a \$21 million increase in selling, general and administrative expenses, primarily due to increased share-based compensation expense in Unallocated Items as the result of a higher stock price in 2012 compared to 2011.

These decreases in our net earnings were partially offset by:

- gross margin increased \$62 million, primarily due to higher price realizations of lumber, OSB and plywood in our Wood Products segment partially offset by lower pulp price realizations in our Cellulose Fibers segment;

- charges for restructuring, closures and asset impairments decreased \$31 million; and

- a \$31 million increase in other operating income, primarily due to change in foreign exchange as a result of a stronger Canadian dollar relative to the U.S. dollar in 2012.

Comparing Year-to-Date 2012 with Year-to-Date 2011

Net sales and revenues

Net sales and revenues increased \$458 million – 10 percent – primarily due to the following:

- Wood Products segment sales increased \$492 million, primarily due to higher sales volumes across all major product lines and improved selling prices for lumber, OSB and plywood; and

- Real Estate segment sales increased \$101 million, primarily due to the sale of a 3,200 acre master planned community in Houston, Texas.

These increases were partially offset by a \$144 million decrease in Cellulose Fibers segment sales, primarily due to lower pulp price realizations.

Net earnings attributable to Weyerhaeuser common shareholders

Our net earnings attributable to Weyerhaeuser common shareholders decreased \$24 million – 9 percent – primarily from:

- a pretax gain of \$152 million on the sale of 82,000 acres of non-strategic timberlands in 2011; and

- a \$67 million increase in income taxes primarily due to the change in discrete tax items.

These decreases in our net earnings were partially offset by:

- a \$103 million pretax gain recognized in 2012 related to a previously announced postretirement plan amendment;

- a \$36 million decrease in interest expense due to lower charges associated with the early extinguishment of debt and lower interest due to a lower level of debt;

- gross margin increased \$31 million, primarily due to higher price realizations of lumber, OSB and plywood in our Wood Products segment partially offset by lower pulp price realizations in our Cellulose Fibers segment and fewer timberland exchanges and lower mineral income in our Timberlands segment; and

- charges for restructuring, closures and asset impairments decreased \$26 million.

TIMBERLANDS

How We Did Third Quarter and Year-to-Date 2012

Here is a comparison of net sales and revenues to unaffiliated customers, intersegment sales, and net contribution to earnings for the quarters and year-to-date periods ended September 30, 2012 and 2011:

(2) Includes logs, plywood and hardwood lumber harvested or produced by our international operations, primarily in South America.

Comparing Third Quarter 2012 with Third Quarter 2011

Net sales and revenues – unaffiliated customers

Net sales and revenues to unaffiliated customers increased \$15 million – 6 percent – primarily from the following:

• a \$22 million increase in timberlands exchanges;

• Southern log sales increased \$7 million due to higher log prices and a 7 percent increase in sales volumes as the result of increased harvest levels in response to increased third party demand; and

• a \$5 million increase in sales from our international operations due to a 13 percent increase in plywood prices and a 27 percent increase in plywood sales volumes.

The above items were partially offset by:

Western log sales decreased \$12 million primarily due to lower export and domestic log prices, partially offset by increased sales volumes of 7 percent; and

- a \$6 million decrease in minerals, oil and gas revenue primarily due to lower natural gas prices.

Net contribution to earnings

Net contribution to earnings increase \$19 million – 31 percent – primarily from:

- a \$21 million increase in land exchanges and higher and better-use land sales;
- a \$6 million increase due to higher sales volumes and demand for domestic logs, harvest levels increased 11 percent in both the West and South; and
- a \$5 million increase due to higher log prices in the South.

These increases were partially offset by a \$13 million decrease due to lower export and domestic log prices in the West.

Comparing Year-to-Date 2012 with Year-to-Date 2011

Net sales and revenues – unaffiliated customers

Net sales and revenues to unaffiliated customers increased \$9 million – 1 percent – notable items include:

- Southern log sales increased \$23 million due to increased sales volumes of 13 percent as a result of increased harvest levels in response to increased third party demand; and
- a \$21 million increase in sales from our international operations, primarily due to increased plywood prices of 11 percent and a 39 percent increase in plywood sales volumes.

The above items were partially offset by:

- a \$23 million decrease in timberlands exchanges; and
- a \$21 million decrease in minerals, oil and gas revenue primarily due to lower natural gas prices.

Net contribution to earnings

Net contribution to earnings decreased \$193 million – 46 percent – primarily from:

- a \$152 million decrease due to the sale of 82,000 acres of non-strategic timberlands in 2011;
- a \$34 million decrease as the mix of export log sales compared to domestic log sales decreased in the West and both domestic and export log prices were lower in the West;
- a \$21 million decrease in mineral income as a result of lower natural gas prices;
- a \$15 million decrease due to fewer timberlands exchanges and higher and better-use land sales; and
- an \$11 million increase in operating costs, primarily due to increased logging and maintenance costs.

The above items were partially offset by:

- a \$31 million increase, primarily due to higher sales volumes and demand for domestic and export logs, harvest levels increased 7 percent in the West and 18 percent in the South; and
- a \$7 million increase in earnings from our international operations, primarily due to higher plywood prices and sales volumes.

Our Outlook

We expect comparable earnings from the Timberlands segment in fourth quarter. We expect seasonally higher fee harvest volumes and slightly improved selling prices for Western logs in export and domestic markets, offset by increased silviculture costs, primarily in the South.

Overall performance in our Wood Products segment improved year over year. We continue to focus on reducing costs and increasing revenues by broadening our customer base; introducing new products; growing our specialty, as well as commodity building products business; and improving our operational capabilities. These improvement efforts and better market conditions, have resulted in higher production rates in all primary product lines.

Comparing Third Quarter 2012 with Third Quarter 2011

Net sales and revenues

Net sales and revenues increased \$213 million – 35 percent – primarily from the following:

• Structural lumber shipment volumes increased 8 percent and average price realizations increased 19 percent.

• OSB shipment volumes increased 15 percent and average price realizations increased 52 percent.

• Engineered solid section shipment volumes increased 24 percent.

• Engineered I-joists shipment volumes increased 26 percent.

• Softwood plywood shipment volumes increased 38 percent and average price realizations increased 37 percent.

• Other products purchased for resale increased 23 percent.

Net contribution to earnings

Net contribution to earnings increased \$156 million primarily from:

• a \$122 million increase as higher lumber, OSB and plywood price realizations more than offset lower prices for engineered I-joists and engineered solid section;

• a \$36 million decrease in restructuring, closures and asset impairments;

• a \$7 million increase in sales volumes across all products; and

• 2011 included a \$17 million loss from discontinued operations.

These increases were partially offset by:

• an \$11 million increase in freight expense due to higher shipment volumes; and

• a \$7 million increase in selling, general and administrative expenses, primarily due to increased sales.

Comparing Year-to-Date 2012 with Year-to-Date 2011

Net sales and revenues

Net sales and revenues increased \$492 million – 28 percent – primarily from the following:

• Structural lumber shipment volumes increased 10 percent and average price realizations increased 12 percent.

• OSB shipment volumes increased 26 percent and average price realizations increased 25 percent.

• Engineered solid section shipment volumes increased 27 percent.

• Engineered I-joists shipment volumes increased 17 percent.

• Softwood plywood shipment volumes increased 35 percent and average price realizations increased 28 percent.

• Other products produced increased 18 percent.

• Other products purchased for resale increased 23 percent.

The above items were partially offset by a decrease of 8 percent in engineered solid section average price realizations.

Net contribution to earnings

Net contribution to earnings increased \$273 million primarily from:

- a \$204 million increase as higher lumber, OSB and plywood price realizations more than offset lower prices for engineered I-joists and engineered solid section;
- a \$39 million decrease in restructuring, closures and asset impairments;
- a \$17 million increase in sales volumes across all products;
- by-product sales increased \$16 million as the result of higher lumber production volumes;
- manufacturing and other costs decreased \$9 million, primarily due to increased operating rates;
- log costs decreased \$9 million, primarily due to lower domestic prices in the West and South; and
- 2011 included a \$25 million loss from discontinued operations.

These increases were partially offset by:

- a \$36 million increase in freight expense due to higher shipment volumes; and
- an \$8 million increase in selling, general and administrative expenses, primarily due to increased sales.

Our Outlook

We anticipate lower earnings from the Wood Products segment in fourth quarter due to seasonal declines in pricing and demand for most products.

CELLULOSE FIBERS

How We Did in Third Quarter and Year-to-Date 2012

Here is a comparison of net sales and revenues and net contribution to earnings for the quarters and year-to-date periods ended September 30, 2012 and 2011:

Comparing Third Quarter 2012 with Third Quarter 2011

Net sales and revenues

Net sales and revenues decreased \$44 million – 9 percent – primarily due to a decrease in pulp price realizations of \$102 per ton – 11 percent – resulting from global uncertainties and a weak euro, while worldwide inventory levels normalized. The effects of the price decrease was partially offset by an improved sales mix to higher value products.

Net contribution to earnings

Net contribution to earnings decreased \$61 million – 44 percent – primarily due to:

- a \$44 million decrease due to lower pulp price realizations, partially offset by an improved sales mix to higher value products;
- an \$11 million increase in maintenance and contractor services, as third quarter 2012 had one annual maintenance outage compared to none in third quarter 2011; and
- a \$7 million increase in freight, warehousing and other operating costs.

Comparing Year-to-Date 2012 with Year-to-Date 2011

Net sales and revenues

Net sales and revenues decreased \$144 million – 9 percent – primarily due to:

- Pulp price realizations decreased \$112 per ton – 12 percent – resulting from global uncertainties and a weak euro, while worldwide inventory levels normalized. The effects of the price decrease was partially offset by an improved sales mix to higher value products.
- Sales volumes for liquid packaging board decreased 7,000 tons – 3 percent – as the result of weaker demand in Japan. These decreases were partially offset by an increase in sales volumes for pulp of 18,000 tons – 1 percent.

Net contribution to earnings

Net contribution to earnings decreased \$154 million – 49 percent – primarily due to:

a \$146 million decrease due to lower pulp price realizations, partially offset by an improved sales mix to higher value products;

a \$22 million increase in fiber, chemical, freight, warehousing and other operating costs; and

an \$11 million decrease due to lower price realizations within our other products.

These decreases were partially offset by:

aintenance and contractor services decreased \$10 million due to fewer annual maintenance outages in 2012; and

a \$9 million increase in other non operating income, which includes earnings from an equity affiliate.

Our Outlook

We expect earnings from the Cellulose Fibers segment to be comparable to third quarter. We anticipate lower selling prices for fluff pulp, offset by somewhat higher sales volume and slightly lower maintenance expense.

(1) Single-family gross margin equals revenue less cost of sales and period costs (other than impairments and deposit write-offs).

Comparing Third Quarter 2012 with Third Quarter 2011

Net sales and revenues

Net sales and revenues increased \$19 million – 9 percent – primarily due to:

• Single-family housing revenues increased \$25 million. Home closings increased 21 percent to 615 in 2012 from 508 in 2011, but the average price of homes closed decreased 8 percent to \$372,000 in 2012 from \$403,000 in 2011.

• Revenues from land and lot sales decreased \$4 million. Land and lot sales are a routine part of our land development business but they do not occur evenly from period to period.

Net contribution to earnings

Net contribution to earnings increased \$7 million – 70 percent – primarily due to a \$9 million increase in contribution from single family housing. Home closings increased 21 percent and single-family gross margins improved to 24.3 percent in 2012 compared to 23.0 percent in 2011. This was partially offset by the effect of lower average prices on homes closed. Changes in average prices and average margins are primarily due to a change in mix. Changes in mix reflect both changes in product lines (entry-level homes versus move-up products) and changes in geographic markets where the closings occur.

Comparing Year-to-Date 2012 with Year-to-Date 2011

Net sales and revenues

Net sales and revenues increased \$101 million – 18 percent – primarily due to:

Revenues from land and lot sales increased \$86 million. Second quarter 2012 included the sale of a 3,200 acre master planned community in Houston, Texas.

Single family housing revenues increased \$14 million. Home closings increased 11 percent to 1,472 in 2012 from 1,330 in 2011. The average price of homes closed declined 7 percent to \$374,000 in 2012 from \$403,000 in 2011.

Net contribution to earnings

Net contribution to earnings increased \$7 million – 41 percent – primarily due to:

- an \$8 million increase in contribution from land and lot sales; and
- a \$5 million reduction in selling, general and administrative expenses.

These improvements were partially offset by a \$4 million decrease in contribution from single-family housing. Home closings increased 11 percent, which was more than offset by decreases in single-family margins and average prices due to a shift in the mix of homes closed. Single-family gross margins were 21.0 percent in 2012 compared to 22.4 percent in 2011.

Our Outlook

Excluding any earnings from potential land sales, we expect slightly lower earnings from single-family homebuilding operations in fourth quarter. We anticipate a seasonal increase in home closings, lower average margins due to mix and higher selling expenses due to the additional closing volume.

UNALLOCATED ITEMS

Unallocated Items are gains or charges not related to or allocated to an individual operating segment. They include a portion of items such as: share-based compensation; pension and postretirement costs; foreign exchange transaction gains and losses associated with financing; and the elimination of intersegment profit in inventory and the LIFO reserve. Unallocated Items were:

\$(17) million during third quarter and \$22 million during year-to-date 2012.

\$39 million during third quarter and \$(44) million during year-to-date 2011.

Changes in Unallocated Items were primarily due to:

recognized gains of \$103 million during first half 2012 related to a previously announced postretirement plan amendment; and

third quarter and year-to-date 2011 included gains of \$54 million and \$45 million, respectively, related to discontinued operations, including a \$49 million gain on the sale of our Westwood Shipping Lines operations.

INTEREST EXPENSE

Our net interest expense incurred was:

\$87 million during third quarter and \$260 million during year-to-date 2012.

\$86 million during third quarter and \$296 million during year-to-date 2011.

Year-to-date interest expense incurred decreased primarily due to lower charges associated with the early extinguishment of debt and lower interest due to a lower level of debt. Year-to-date 2011 net interest expense includes a pretax charge of \$26 million, which included early retirement premiums, unamortized debt issuance costs and other miscellaneous charges in connection with the early extinguishment of debt.

INCOME TAXES

As a REIT, we generally are not subject to corporate level tax on income of the REIT that is distributed to shareholders. We will, however, be subject to corporate taxes on built-in-gains (the excess of fair market value over tax basis at January 1, 2010) on sales of real property (other than standing timber) held by the REIT during the first 10 years following the REIT conversion. We also will continue to be required to pay federal corporate income taxes on earnings of our TRS, which principally includes our manufacturing businesses, our real estate development business and the portion of our Timberlands segment income included in the TRS.

The 2012 provision for income taxes is based on the year-to-date effective tax rate that applies to our TRS. Our 2012 estimated annual effective tax rate, excluding discrete items, is 55.6 percent and differs from the U.S. statutory rate, primarily due to losses from non-U.S. results where no tax benefit is accrued because it is more likely than not that a benefit will not be realized. The tax rate for the quarter differs from the estimated annual effective tax rate, primarily due to a different mix of earnings or losses in the quarter relative to the annual period and a catch up in the fourth quarter for the estimated change in our effective tax rate.

During third quarter 2012, as a result of reaching agreements with taxing authorities, we reduced our unrecognized tax benefits and recognized a tax provision reduction of \$7 million.

Discrete items excluded from the calculation of our effective income tax rates include:

LIQUIDITY AND CAPITAL RESOURCES

We are committed to maintaining a sound and conservative capital structure which enables us to:
 protect the interests of our shareholders and lenders and
 have access at all times to all major financial markets.

Two important elements of our policy governing capital structure include:

- viewing the capital structure of Forest Products separately from that of Real Estate given the very different nature of their assets and business activity and

- minimizing liquidity risk by managing timing of debt maturities.

The amount of debt and equity for Forest Products and Real Estate will reflect the following:

- basic earnings capacity and

- liquidity characteristics of their respective assets.

CASH FROM OPERATIONS

Cash from operations includes:

- cash received from customers;

- cash paid to employees, suppliers and others;

- cash paid for interest on our debt;

- cash paid for pension and postretirement contributions; and

- cash paid for taxes.

Consolidated net cash provided in our operations was:

\$329 million in 2012 and

\$144 million in 2011.

Comparing 2012 with 2011

Net cash from operations increased \$185 million in 2012 as compared with 2011, primarily due to the following:

- Cash paid for interest decreased \$72 million, primarily due to the early retirement of \$518 million of debt in second quarter 2011. We paid interest of \$290 million in year-to-date 2012 compared to \$362 million in year-to-date 2011.

Cash paid to employees, suppliers and others decreased approximately \$63 million. Cash paid decreased due to the sale of discontinued operations in third quarter 2011 partially offset by increases in cash paid in our Wood Products and Real Estate segments due to increased production.

Cash we received from customers increased approximately \$57 million. Cash received increased due to increased sales in our Wood Products segment and a land sale completed in second quarter 2012 in our Real Estate segment, from which we received approximately \$98 million in cash. Partially offsetting this was the sale of discontinued operations in third quarter 2011 and decreased sales in our Cellulose Fibers segment.

- Net cash inflows related to income taxes increased \$35 million. We received income tax refunds of \$14 million in year-to-date 2012 and paid income taxes of \$21 million in year-to-date 2011.

Partially offsetting the above increases was a decrease in cash as pension and postretirement contributions increased \$45 million. In 2011, the majority of contributions to the Canadian registered and nonregistered pension plans occurred in the fourth quarter. Contributions to these plans in 2012 have been spread out more evenly over the year. Overall contributions to the Canadian plans in 2012 are expected to be comparable to 2011.

Expected Pension Contributions and Benefit Payments

As disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011, and updated for events occurring in 2012, we expect to:

• make approximately \$87 million of required contributions to our Canadian registered and nonregistered pension plans in 2012;

• contribute approximately \$20 million to our U.S. nonqualified pension plans in 2012; and

• make U.S. and Canadian other postretirement benefit payments of approximately \$42 million in 2012.

Congress passed legislation in June 2012 that changed the way the discount rate is computed for purposes of determining minimum pension contribution funding. Based upon this legislation, we do not have a required contribution to our U.S. qualified plan, which we previously estimated to be \$60 million due by September 2013.

CASH FROM INVESTING ACTIVITIES

Cash from investing activities can include:

• acquisitions of property, equipment, timberlands and reforestation;

• investments in or distribution from equity affiliates; and

• proceeds from sale of assets and operations.

Summary of Capital Spending by Business Segment

DOLLAR AMOUNTS IN MILLIONS	YEAR-TO-DATE ENDED	
	SEPTEMBER 2012	SEPTEMBER 2011
Timberlands	\$44	\$40
Wood Products	37	21
Cellulose Fibers	134	92
Real Estate	2	2
Unallocated Items	2	1
Discontinued operations	—	3
Total	\$219	\$159

We anticipate that our net capital expenditures for 2012 – excluding acquisitions – will be around \$290 million.

Proceeds from the Sale of Nonstrategic Assets

Proceeds received from the sale of nonstrategic assets were \$36 million in 2012 and \$353 million in 2011. 2011 included:

• \$192 million for the sale of 82,000 acres of non-strategic timberlands in southwestern Washington;

• \$84 million for the sale of our hardwoods operations (we expect to receive an additional \$25 million in 2016 from a note receivable);

• \$58 million for the sale of our Westwood Shipping Lines operations; and

• \$19 million for the sale of other non-strategic assets.

Variable Interest Entities

In third quarter 2012, we repaid a \$97 million note related to one of our timber monetization special-purpose entities (SPEs) undertaken in 2002. We will receive approximately \$110 million in fourth quarter 2012 when the related financial investment matures. More information about these entities, which were formed in connection with the sale of nonstrategic timberlands in 2002-2004, can be found in our annual reports on Form 10-K for 2011 and 2002-2004.

CASH FROM FINANCING ACTIVITIES

Cash from financing activities can include:

issuances and payment of long-term debt,
borrowings and payments under revolving lines of credit,
changes in our book overdrafts,
proceeds from stock offerings and option exercises and
payment of cash dividends and repurchasing stock.

Debt

We repaid debt of:

\$187 million in 2012 (including \$176 million of Real Estate debt maturities), and
\$550 million in 2011.

Debt maturities in the next twelve months are:

\$156 million in first quarter 2013,
• \$21 million in second quarter 2013
and
\$163 million in third quarter 2013.

Revolving credit facility

Weyerhaeuser Company and Weyerhaeuser Real Estate Company (WRECO) have a \$1.0 billion 4-year revolving credit facility that expires in June 2015. WRECO can borrow up to \$50 million under this facility. Neither of the entities is a guarantor of the borrowing of the other under this credit facility.

There were no net proceeds from the issuance of debt or from borrowings (repayments) under our available credit facility in year-to-date 2012 or 2011.

Debt covenants

As of September 30, 2012 Weyerhaeuser Company and WRECO:

had no borrowings outstanding under the credit facility and
were in compliance with the credit facility covenants.

Weyerhaeuser Company Covenants

Key covenants related to Weyerhaeuser Company include the requirement to maintain:

a minimum defined net worth of \$3.0 billion;
a defined debt-to-total-capital ratio of 65 percent or less; and
ownership of, or long-term leases on, no fewer than four million acres of timberlands.

Weyerhaeuser Company's defined net worth is comprised of:

• total Weyerhaeuser shareholders' interest,
• excluding accumulated comprehensive income (loss) related to pension and postretirement benefits,
• minus Weyerhaeuser Company's investment in subsidiaries in our Real Estate segment or other unrestricted subsidiaries.

Total Weyerhaeuser Company capitalization is comprised of:

• total Weyerhaeuser Company (excluding WRECO) debt
• plus total defined net worth.

As of September 30, 2012, Weyerhaeuser Company had:

• a defined net worth of \$5.1 billion and
• a defined debt-to-total-capital ratio of 45.5 percent.

Weyerhaeuser Real Estate Company Covenants

Key covenants related to WRECO's revolving credit facility and medium-term notes include the requirement to maintain:

• a minimum capital base of \$100 million,
• a defined debt-to-total-capital ratio of 80 percent or less and
• Weyerhaeuser Company or a subsidiary must own at least 79 percent of WRECO.

WRECO's defined net worth is:

• total WRECO shareholders' interest,
• minus intangible assets,
• minus WRECO's investment in joint ventures and partnerships.

Total WRECO defined debt is:

• total WRECO debt – including any intercompany debt
• plus outstanding WRECO guarantees and letters of credit.

Total WRECO capitalization is defined as:

• total WRECO defined debt and
• total WRECO defined net worth.

As of September 30, 2012, WRECO had:

• a capital base of \$865 million and
• a defined debt-to-total-capital ratio of 50.6 percent.

Option Exercises

We received cash proceeds from the exercise of stock options of:

\$73 million in 2012 and
\$37 million in 2011.

Paying dividends and repurchasing stock

We paid dividends of \$242 million in year-to-date 2012 and 2011.

On October 11, 2012, our board of directors declared a regular dividend of 17 cents per share, a 13 percent increase in our quarterly dividend, payable November 30, 2012, to shareholders of record at the close of business November 9, 2012.

During third quarter 2011, we repurchased 1,199,800 shares of common stock for \$20 million under the 2008 stock repurchase program. On August 11, 2011, our board of directors replaced the 2008 stock repurchase program and approved the 2011 stock repurchase program under which we are authorized to repurchase up to \$250 million of outstanding shares. During third quarter 2011, we repurchased 589,824 shares of common stock for \$9 million under the 2011 program. Cash settlements of \$5 million occurred at the beginning of the fourth quarter. All common stock purchases under the programs were made in open-market transactions. As of September 30, 2012, we had remaining authorization of \$233 million for future share repurchases.

CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls are controls and other procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, to allow timely decisions regarding required disclosure. The company's principal executive officer and principal financial officer have concluded that the company's disclosure controls and procedures were effective as of September 30, 2012, based on an evaluation of the company's disclosure controls and procedures as of that date.

CHANGES IN INTERNAL CONTROLS

No changes occurred in the company's internal control over financial reporting during year-to-date 2012 that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.
