Greene County Bancorp, Inc. Reports 31.8% Increase in Annual Earnings

Catskill, N.Y. -- (BUSINESS WIRE) July 30, 2004-- Greene County Bancorp, Inc. (the "Company") (NASDAQ: GCBC), the holding company for The Bank of Greene County (the "Bank"), today reported net income for the quarter and fiscal year ended June 30, 2004. Net income for the year ended June 30, 2004 amounted to \$2.9 million, or \$1.45 per basic and \$1.41 per diluted share as compared to \$2.2 million, or \$1.11 per basic and \$1.08 per diluted share for the year ended June 30, 2003, an increase of \$0.7 million, or 31.8%. Net income for the quarter ended June 30, 2004 amounted to \$738,000 or \$0.36 per basic and diluted share as compared to \$505,000, or \$0.25 per basic and diluted share for the quarter ended June 30, 2003, an increase of \$233,000, or 46.1%. Improvement in net interest income and noninterest income contributed to the overall increase in net income and was partially offset by increases in noninterest expense when comparing the years and quarters ended June 30, 2004 and 2003.

Net interest income increased to \$10.0 million for the year and \$2.5 million for the quarter ended June 30, 2004 as compared to \$8.7 million for the year and \$2.2 million for the quarter ended June 30, 2003, improvements of \$1.3 million and \$0.3 million, or 14.9% and 13.6%, respectively. Net interest spread increased 12 basis points to 3.84% as compared to 3.72% when comparing the years ended June 30, 2004 to 2003 and increased 16 basis points to 3.77% as

compared to 3.61% when comparing the quarters ended June 30, 2004 and 2003. Net interest margin increased 6 basis points to 3.93% as compared to 3.87% when comparing the years ended June 30, 2004 and 2003 and increased 10 basis points to 3.85% as compared to 3.75% when comparing the quarters ended June 30, 2004 and 2003. These changes were primarily the result of the continued low interest rate environment and lower interest expense which fell from \$4.3 million to \$3.4 million when comparing the years and from \$1.0 million to \$0.8 million when comparing the quarters ended June 30, 2004 and 2003.

The provision for loan loss for the year ended June 30, 2004 decreased to \$105,000 as compared to \$180,000 for the year ended June 30, 2003. The decrease in provision was largely due to net charge-offs decreasing to \$28,000 as compared to \$85,000 when comparing the years ended June 30, 2004 and 2003, respectively. Although the ratios of non-performing assets and non-performing loans were slightly higher when comparing the current year end to the prior year end, and the level of allowance for loan loss to net loans was slightly lower, adequate collateral backing for a majority of the nonperforming loans and the level of net charge-offs supported the allowance for loan loss level.

Noninterest income increased to \$2.7 million for the year ended June 30, 2004 as compared to \$2.5 million for the year ended June 30, 2003, an increase of \$0.2 million or 8.0%. Noninterest income increased to \$697,000 for the quarter ended June 30, 2004 as compared to \$639,000 for the quarter ended June 30, 2003, an increase of \$58,000 or 9.1%. Items contributing to this increase were fees associated with debit cards, other E-commerce fees, the Overdraft Protection Program, as well as fees from services performed through Essex Corp's "Investors Market Place". Gains on the sale of real estate owned amounted to \$1,500 for the year ended June 30, 2004 as compared to \$67,200 for the year ended June 30, 2003. Net gains on sale of securities amounted to \$46,900 for the year ended June 30, 2004 as compared to \$21,200 for the year ended June 30, 2003.

Noninterest expense increased to \$8.5 million from \$7.8 million, an increase of \$0.7 million or 9.0% when comparing the years ended June 30, 2004 and 2003. Noninterest expense increased to \$2.2 million from \$2.1 million, an increase of \$0.1 million or 4.8% when comparing the quarters ended June 30, 2004 and 2003. Increases in salaries and benefits amounted to \$557,000 and resulted from the addition of several new positions including additional marketing and computer technology staff, as well as annual salary and retirement expense increases. The Company decreased occupancy expense by \$20,000, equipment and furniture expense by \$22,000, and office supplies expense by \$24,000 when comparing the fiscal year ended June 30, 2004 and 2003. The Bank increased its volume of transaction accounts during the timeframes discussed in this release and as a result had increased costs of \$61,000 associated with such accounts. The expense for service and data processing of accounts was driven by the increased number of accounts.

The effective tax rate decreased to 29.6% for the year ended June 30, 2004, compared to 31.0% for the year ended June 30, 2003. A major reason for the change in effective rate was the increase in the percentage of income that municipal securities and other tax free investments contributed to total income during the fiscal year as well as tax benefit received for stock based compensation plans.

Total assets of the Company were \$284.6 million at June 30, 2004 as compared to \$257.0 million at June 30, 2003, an increase of \$27.6 million, or 10.7%. Growth occurred most significantly in gross loans, which increased \$16.8 million to \$150.5 million at June 30, 2004 as compared to \$133.7 million at June 30, 2003. This growth was primarily funded by growth in deposits, which increased \$25.7 million to \$243.7 million at June 30, 2004 as compared to \$218.0 million at June 30, 2003. Noninterest bearing checking accounts experienced the most significant growth of \$10.2 million followed by savings accounts whose growth of \$9.3 million offset declines of \$5.1 million in time deposit balances. Money market accounts experienced growth of \$7.5 million, including approximately \$3.2 million in deposits associated with the Company's new limited-purpose commercial bank subsidiary which opened for business in mid-June 2004.

Shareholders' equity increased to \$29.8 million at June 30, 2004 from \$29.1 million at June 30, 2003, as net income of \$2.9 million was partially offset by dividends paid of \$688,000. Net unrealized losses associated with the available-for-sale investment portfolio caused accumulated other comprehensive income to decrease by approximately \$1.8 million, net of tax. Other changes in equity were the result of activities associated with the various stock based
