ITEM 8.01. OTHER EVENTS.

Boston Scientific Corporation today announced that a U.S. District Court jury in Marshall, Texas has reached a verdict in a patent infringement suit brought against the Company by Medtronic. Medtronic alleged that certain Boston Scientific balloon catheters and stent delivery systems infringed four U.S. patents held by Medtronic. Boston Scientific claimed non-infringement, invalidity, unenforceability and other equitable relief. The District Court previously granted the Company's summary judgment motion on one of the patents and dismissed Medtronic's claim of willful infringement. The jury found that certain Boston Scientific balloon catheters and stent delivery systems infringe Medtronic's patents and that the patents are valid. The jury awarded damages of \$250 million.

Boston Scientific has raised a number of defenses that were not considered by this jury but will be heard by the District Court on July 31, 2008. If those defenses are successful, the jury's verdict will be set aside.

If those defenses are not successful, the Company plans to seek to overturn the verdict in post-trial motions before the District Court and, if necessary, to appeal to the U.S. Court of Appeals for the Federal Circuit in Washington, D.C. The Company is confident it will prevail on appeal because it believes the jury verdict is unsupported by both the evidence and the law.

A copy of the press release is filed as Exhibit 99.1.

ITEM 9.01. FINANCIAL STATEMENTS AND EXHIBITS.

Exhibit No. Description

99.1 Press release issued by Boston Scientific Corporation dated May 28, 2008
