(1) Pursuant to Rule 457(p) under the Securities Act of 1933, filing fees of \$94,671.00 have already been paid with respect to unsold securities that were previously registered pursuant to a Registration Statement on Form F-3 (No. 333-89136) of ABN AMRO Bank N.V. (the "Prior Registration Statement"), which was initially filed on May 24, 2002 and for which a post-effective amendment was filed on September 17, 2003 and have been carried forward. On July 14, 2008 an additional filing fee of \$10,000 was paid. The \$271.17 fee with respect to these offerings, sold pursuant to this registration statement, is offset against those filing fees, and \$8,036.23 remains available for future registration fees. No additional fee has been paid with respect to this offering.

KNOCK-IN REVERSE EXCHANGEABLE SM SECURITIES DUE AUGUST 27, 2009

This pricing supplement relates to three (3) separate offerings of securities (the "Securities"). Each Security offered is linked to one, and only one, Underlying Stock. You may participate in any of the three (3) Securities offerings or, at your election, in two or more the offerings. This Pricing Supplement does not, however, allow you to purchase a Security linked to a basket of some or all of the Underlying Stocks described below.

The Securities do not guarantee any return of principal at maturity. Instead, the payout at maturity will be based on the performance of the Underlying Stock linked to each Security during the life of such Security, and in certain circumstances described below we will exchange each Security at maturity for a predetermined number of shares of the applicable Underlying Stock rather than return your principal investment in the Securities. THE MARKET VALUE OF THOSE SHARES OF UNDERLYING STOCK WILL BE LESS THAN THE PRINCIPAL AMOUNT OF EACH SECURITY AND COULD BE ZERO. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF YOUR INITIAL INVESTMENT.

PAYMENT AT MATURITY: The payment at maturity of each Security is based on the performance of the applicable Underlying Stock:

o If the closing price of the applicable Underlying Stock on the primary U.S. exchange or market for such Underlying Stock has not fallen below the applicable knock-in level on any trading

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

day from but not including the pricing date to and including the determination date, we will pay you the principal amount of such Security in cash.

o If the closing price of the applicable Underlying Stock on the primary U.S. exchange or market for such Underlying Stock falls below the applicable knock-in level on any trading day from but not including the pricing date to and including the determination date:

>> we will deliver to you a number of shares of the applicable Underlying Stock equal to the applicable stock redemption amount, in the event that the closing price of such Underlying Stock on the determination date is below the applicable initial price; or

>> we will pay you the principal amount of such Security in cash, in the event that the closing price of the applicable Underlying Stock on the determination date is at or above the applicable initial price.

You will receive cash in lieu of fractional shares.

If due to events beyond our reasonable control, as determined by us in our sole discretion, shares of the applicable Underlying Stock are not available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the applicable Underlying Stock on the Determination Date.

The payment at maturity is subject to adjustment in certain circumstances.

ISSUE PRICE: 100%

SETTLEMENT DATE: August 27, 2008

PRICING DATE: August 22, 2008

MATURITY DATE: August 27, 2009

INITIAL PRICE: The closing price of the applicable Underlying Stock on the pricing date. The initial price is subject to adjustment for certain corporate events affecting the applicable Underlying Stock, which we describe in "Description of Securities -- Adjustment Events".

STOCK REDEMPTION AMOUNT: A number of shares of the applicable Underlying Stock equal to \$1,000 divided by the applicable initial price.

INTEREST PAYMENT DATES: Interest on the Securities is payable monthly in arrears on the 27th day of each month starting on September 27, 2008 and ending on the maturity

(1) For all offerings, the agent will receive a commission of 4.05%. For additional information see "Plan of Distribution" in this Pricing Supplement.

THE SECURITIES ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER FEDERAL AGENCY.

THE SECURITIES INVOLVE RISKS NOT ASSOCIATED WITH AN INVESTMENT IN CONVENTIONAL DEBT SECURITIES. SEE "RISK FACTORS" BEGINNING ON PS-8.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved these Securities, or determined if this Pricing Supplement or the accompanying Prospectus Supplement or Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

THE AGENTS ARE NOT OBLIGATED TO PURCHASE THE SECURITIES BUT HAVE AGREED TO USE REASONABLE EFFORTS TO SOLICIT OFFERS TO PURCHASE THE SECURITIES. TO THE EXTENT THE FULL AGGREGATE PRINCIPAL AMOUNT OF THE SECURITIES LINKED TO ANY OF THE UNDERLYING STOCKS BEING OFFERED BY THIS PRICING SUPPLEMENT IS NOT PURCHASED BY INVESTORS IN THE APPLICABLE OFFERING, ONE OR MORE OF OUR AFFILIATES HAVE AGREED TO PURCHASE THE UNSOLD PORTION, WHICH MAY CONSTITUTE A SUBSTANTIAL PORTION OF THE TOTAL AGGREGATE PRINCIPAL AMOUNT OF THE SECURITIES LINKED TO SUCH UNDERLYING STOCK, AND TO HOLD SUCH SECURITIES FOR INVESTMENT PURPOSES. SEE "HOLDING OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES" UNDER THE HEADING "RISK FACTORS" AND "PLAN OF DISTRIBUTION."

This Pricing Supplement and the accompanying Prospectus Supplement and Prospectus may be used by our affiliates in connection with offers and sales of the Securities in market-making transactions.

ABN AMRO INCORPORATED

In this Pricing Supplement, the "Bank," "we," "us" and "our" refer to ABN

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

AMRO Bank N.V. and "Holding" refers to ABN AMRO Holding N.V., our parent company. We refer to the Securities offered hereby and the related guarantees as the "Securities" and to each individual security offered hereby as a "Security".

Reverse Exchangeable(SM) and ABN Notes(SM) are service marks of ABN AMRO Bank N.V.

ANY SECURITIES ISSUED, SOLD OR DISTRIBUTED PURSUANT TO THIS PRICING SUPPLEMENT MAY NOT BE OFFERED OR SOLD (i) TO ANY PERSON/ENTITY LISTED ON SANCTIONS LISTS OF THE EUROPEAN UNION, UNITED STATES OR ANY OTHER APPLICABLE LOCAL COMPETENT AUTHORITY; (ii) WITHIN THE TERRITORY OF CUBA, SUDAN, IRAN AND MYANMAR; (iii) TO RESIDENTS IN CUBA, SUDAN, IRAN OR MYANMAR; OR (iv) TO CUBAN NATIONALS, WHEREVER LOCATED.

PS-2

SUMMARY OF GENERAL TERMS FOR EACH SECURITIES OFFERING

THIS PRICING SUPPLEMENT RELATES TO THREE (3) SEPARATE OFFERINGS OF SECURITIES. EACH SECURITY OFFERED IS LINKED TO ONE, AND ONLY ONE, UNDERLYING STOCK. THE PURCHASER OF ANY OFFERING WILL ACQUIRE A SECURITY LINKED TO A SINGLE UNDERLYING STOCK, NOT TO A BASKET OR INDEX OF SOME OR ALL OF THE UNDERLYING STOCKS DESCRIBED HEREIN. YOU MAY PARTICIPATE IN ANY OF THE THREE (3) OFFERINGS OR, AT YOUR ELECTION, IN TWO OF MORE OF THE OFFERINGS.

THE FOLLOWING SUMMARY ANSWERS SOME QUESTIONS THAT YOU MIGHT HAVE REGARDING THE SECURITIES IN GENERAL TERMS ONLY. IT DOES NOT CONTAIN ALL THE INFORMATION THAT MAY BE IMPORTANT TO YOU. YOU SHOULD READ THE SUMMARY TOGETHER WITH THE MORE DETAILED INFORMATION THAT IS CONTAINED IN THE REST OF THIS PRICING SUPPLEMENT AND IN THE ACCOMPANYING PROSPECTUS AND PROSPECTUS SUPPLEMENT. YOU SHOULD CAREFULLY CONSIDER, AMONG OTHER THINGS, THE MATTERS SET FORTH IN "RISK FACTORS." IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

WHAT ARE THE SECURITIES?

The Securities are interest paying, non-principal protected securities issued by us, ABN AMRO Bank N.V., and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities are senior notes of ABN AMRO Bank N.V. and have a maturity of one year. These Securities combine certain features of debt and equity by offering a fixed interest rate on the principal amount while the payment at maturity is determined based on the performance of the applicable Underlying Stock. Therefore your principal is at risk.

The Securities have certain features that make them what we refer to as "Knock-in Reverse Exchangeable Securities." This means that if the closing price of the applicable Underlying Stock on the primary U.S. exchange or organized market for such Underlying Stock, which we refer to as the relevant exchange, never falls below a certain price level, which we call the knock-in level on any trading day from but not including the pricing date to and including the determination date (such period, the "Knock-in Period"), then we will pay you in cash the principal amount of each Security at maturity. On the other hand, if the closing price of the applicable Underlying Stock on the relevant exchange falls below the applicable knock-in level on any trading day during the Knock-in Period, then the payment at maturity will depend on the closing price of such Underlying Stock on the determination date. In this latter case, if the closing price of the applicable Underlying Stock on the determination date is equal to or greater than the applicable initial price, we will pay you in cash the

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

principal amount of each Security you hold; if the closing price of the applicable Underlying Stock on the determination date is less than the applicable initial price, we will deliver to you, in exchange for each \$1,000 principal amount of Securities, a number of shares of such Underlying Stock equal to the applicable stock redemption amount.

WHY IS THE INTEREST RATE ON THE SECURITIES HIGHER THAN THE INTEREST RATE PAYABLE ON YOUR CONVENTIONAL DEBT SECURITIES WITH THE SAME MATURITY?

The Securities offer a higher interest rate than the yield that would be payable on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating. This is because you, the investor in the Securities, indirectly sell a put option to us on the shares of the applicable Underlying Stock. The premium due to you for this put option is combined with a market interest rate on our senior debt to produce the higher interest rate on the Securities.

WHAT ARE THE CONSEQUENCES OF THE INDIRECT PUT OPTION THAT I HAVE SOLD YOU?

The put option you indirectly sell to us creates the feature of exchangeability. If the closing price of the applicable Underlying Stock on the relevant exchange falls below the applicable knock-in level on any trading day during the Knock-in Period, and on the determination date the closing price per share of such Underlying Stock is less than the applicable initial price, you will receive a fixed number of shares of such Underlying Stock for each Security you hold, which we call the stock redemption amount for such Underlying Stock. On the other hand, if the closing price of the applicable Underlying Stock on the relevant exchange falls below the applicable knock-in level, and on the determination date the closing price per shares of such Underlying Stock is equal to or greater than the applicable initial price, you will receive \$1,000 for each Security you hold. Because of the exchangeability of the Securities, and because we will determine whether you will receive cash or shares of Underlying Stock by reference to the closing price of the applicable Underlying Stock on the determination date, such securities are generally referred to as "reverse exchangeable

PS-3

securities." However, because this feature of exchangeability is created only if the closing price of the applicable Underlying Stock on the relevant exchange falls below the applicable knock-in level on any trading day during the Knock-in Period, we call the Securities "Knock-in Reverse Exchangeable Securities."

WHAT WILL I RECEIVE AT MATURITY OF THE SECURITIES?

The payment at maturity of each Security will depend on (i) whether or not the closing price of the Underlying Stock to which such Security is linked fell below the knock-in level on any trading day during the Knock-in Period, and if so, (ii) the closing price of the applicable Underlying Stock on the determination date. To determine closing prices, we look at the prices quoted by the relevant exchange.

- o If the closing price of the applicable Underlying Stock on the relevant exchange has not fallen below the applicable knock-in level on any trading day during the Knock-in Period, we will pay you the principal amount of each Security in cash.
- o If the closing price of the applicable Underlying Stock on the

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

relevant exchange has fallen below the applicable knock-in level on any trading day during the Knock-in Period, we will either:

- o deliver to you the applicable stock redemption amount, in exchange for each Security, in the event that the closing price of the applicable Underlying Stock is below the applicable initial price on the determination date; or
- o pay you the principal amount of each Security in cash, in the event that the closing price of the applicable Underlying Stock is at or above the applicable initial price on the determination date.

If due to events beyond our reasonable control, as determined by us in our sole discretion, shares of the applicable Underlying Stock are not available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the applicable Underlying Stock on the Determination Date.

The payment at maturity is further subject to adjustment in certain circumstances, which we describe in "Description of Securities -- Adjustment Events."

HOW ARE THE STOCK REDEMPTION AMOUNT AND KNOCK-IN LEVEL DETERMINED FOR EACH OFFERING?

The stock redemption amount for each \$1,000 principal amount of any Security is equal to \$1,000 divided by the initial price of the Underlying Stock linked to such Security. The value of any fractional shares of such Underlying Stock that you are entitled to receive, after aggregating your total holdings of the Securities linked to such Underlying Stock, will be paid in cash based on the closing price of such Underlying Stock on the determination date.

The knock-in level with respect to any Underlying Stock is the percentage of the initial price of such Underlying Stock set forth on the cover of this Pricing Supplement.

The initial price and consequently the stock redemption amount and knock-in level with respect to each Underlying Stock are subject to adjustment for certain corporate events affecting such Underlying Stock, which we describe in "Description of Securities -- Adjustment Events."

WHAT INTEREST PAYMENTS CAN I EXPECT ON THE SECURITIES?

Each offering of Securities pays interest at the rate per annum for such offering set forth on the cover page of this Pricing Supplement. The interest rate for each offering of Securities is fixed at issue and is payable monthly in arrears. This means that irrespective of whether the Securities are exchanged at maturity for cash or shares, you will be entitled to monthly interest payments on the full principal amount of the Securities you hold, payable in cash. Interest on the Securities will be computed and accrue on the basis of a 360-day year of twelve 30-day months, or in the case of an incomplete month, the actual number of days elapsed from and including the most recent interest payment date, or if no interest has been paid, from the issue or other interest accrual date, to but excluding the earlier of the next interest payment date or the maturity date.

CAN YOU GIVE ME AN EXAMPLE OF THE PAYMENT AT MATURITY?

If, for example, in a hypothetical offering, the interest rate was 10% per annum, the initial price of a

PS-4

share of underlying stock was \$45.00 and the knock-in level for such offering was 80%, then the stock redemption amount would be 22.222 shares of underlying stock, or \$1,000 divided by \$45.00, and the knock-in level would be \$36.00, or 80% of the initial price.

If the closing price of that hypothetical underlying stock fell below the knock-in level of \$36.00 on any trading day during the Knock-in Period, then the payment at maturity would depend on the closing price of the underlying stock on the determination date. In this case, if the closing price of the underlying stock on the determination date is \$30.00 per share at maturity, which is below the initial price level, you would receive 22.222 shares of underlying stock for each \$1,000 principal amount of the securities. (In actuality, because we cannot deliver fractions of a share, you would receive on the maturity date for each \$1,000 principal amount of the securities 22 shares of underlying stock plus \$6.66 cash in lieu of 0.222 fractional shares, determined by multiplying 0.222 by \$30.00, the closing price per shares of underlying stock on the determination date.) In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum. IN THIS HYPOTHETICAL EXAMPLE, THE MARKET VALUE OF THOSE 22 SHARES OF UNDERLYING STOCK (INCLUDING THE CASH PAID IN LIEU OF FRACTIONAL SHARES) THAT WE WOULD DELIVER TO YOU AT MATURITY FOR EACH \$1,000 PRINCIPAL AMOUNT OF SECURITY WOULD BE \$666.66, WHICH IS LESS THAN THE PRINCIPAL AMOUNT OF \$1,000, AND YOU WOULD HAVE LOST A PORTION OF YOUR INITIAL INVESTMENT. If, on the other hand, the closing price of the underlying stock on the determination date is \$70.00 per share, which is above the initial price level, you will receive \$1,000 in cash for each \$1,000 principal amount of the securities regardless of the knock-in level having been breached. In addition, over the life of the Securities you would have received interest payments at a rate of 10% per annum.

Alternatively, if the closing price of the underlying stock never falls below \$36.00, which is the knock-in level, on any trading day during the Knock-in Period, at maturity you will receive \$1,000 in cash for each security you hold regardless of the closing price of the underlying stock on the determination date. In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum.

THIS EXAMPLE IS FOR ILLUSTRATIVE PURPOSES ONLY AND IS BASED ON A HYPOTHETICAL OFFERING. FOR EACH OFFERING OF SECURITIES, WE WILL SET THE INITIAL PRICE, KNOCK-IN LEVEL AND STOCK REDEMPTION AMOUNT (SUBJECT TO ADJUSTMENT FOR CERTAIN CORPORATE EVENTS AFFECTING THE APPLICABLE UNDERLYING STOCK) ON THE DATE WE PRICE THE SECURITIES, WHICH WE REFER TO AS THE PRICING DATE. IT IS NOT POSSIBLE, HOWEVER, TO PREDICT THE CLOSING PRICE OF ANY OF THE UNDERLYING STOCKS ON THE DETERMINATION DATE OR AT ANY TIME DURING THE LIFE OF THE SECURITIES.

In this Pricing Supplement, we have provided under the heading "Hypothetical Sensitivity Analysis of Total Return of the Securities at Maturity" the total return of owning securities of a hypothetical offering through maturity for various hypothetical closing prices of a hypothetical Common Stock on the determination date in the case where the knock-in level has been breached and in the case where the knock-in level has not been breached.

DO I GET ALL MY PRINCIPAL BACK AT MATURITY?

You are not guaranteed to receive any return of principal at maturity. If the closing price of the applicable Underlying Stock falls below the applicable knock-in level on any trading day during the Knock-in Period, and the closing

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

price of such Underlying Stock is below the applicable initial price on the determination date, we will deliver to you shares of such Underlying Stock. The market value of the shares of such Underlying Stock at the time you receive those shares will be less than the principal amount of the Securities and could be zero.

IS THERE A LIMIT TO HOW MUCH I CAN EARN OVER THE LIFE OF THE SECURITIES?

Yes. The amount payable under the terms of the Securities will never exceed the principal amount of the Securities payable at maturity plus the applicable interest payments you earn over the life of the Securities.

DO I BENEFIT FROM ANY APPRECIATION IN THE UNDERLYING STOCK OVER THE LIFE OF THE SECURITIES?

No. The amount paid at maturity for each \$1,000 principal amount of the Securities will not exceed \$1,000. As a result, if the applicable Underlying Stock has appreciated above its price level on the pricing date, the payment you will receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

PS-5

WHAT IS THE MINIMUM REQUIRED PURCHASE?

You can purchase Securities in \$1,000 denominations or in integral multiples thereof.

IS THERE A SECONDARY MARKET FOR THE SECURITIES?

We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may be limited. You should be willing to hold your Securities until the maturity date.

Although it is not required to do so, we have been informed by our affiliate that when these offerings are complete, it intends to make purchases and sales of the Securities from time to time in off-exchange transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. INVESTORS ARE ADVISED THAT ANY PRICES SHOWN ON ANY WEBSITE OR BLOOMBERG PAGE ARE INDICATIVE PRICES ONLY AND, AS SUCH, THERE CAN BE NO ASSURANCE THAT ANY TRADE COULD BE EXECUTED AT SUCH PRICES. Investors should contact their brokerage firm for further information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging the transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

"Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds."

TELL ME MORE ABOUT ABN AMRO BANK N.V. AND ABN AMRO HOLDING N.V.

ABN AMRO Bank N.V. is an international banking group offering a wide range of banking products and financial services worldwide through our network of offices and branches. ABN AMRO Holding N.V. is the parent company of ABN AMRO Bank N.V. Holding's main purpose is to own the Bank and its subsidiaries. All of the Securities issued by the Bank hereunder are fully and unconditionally guaranteed by Holding.

On November 2, 2007 a consortium (the "Consortium") of the Royal Bank of Scotland Group plc, Fortis SA/NV and Fortis N.V., and Banco Santander Central Hispano SA, which had made a tender offer for the shares of Holding, announced that approximately 98.8% of the shares of Holding had been tendered to the Consortium as of October 31, 2007.

Holding is no longer listed on Euronext or the New York Stock Exchange but files periodic reports with the SEC. ABN AMRO Bank N.V. is rated AA- by Standard & Poor's and Aa2 by Moody's.

WHERE CAN I FIND OUT MORE ABOUT THE ISSUERS OF THE UNDERLYING STOCKS?

Because each of the Underlying Stocks are registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the issuers of the Underlying Stocks are required to file periodically certain financial and other information specified by the Commission which is available to the public. You should read "The Underlying Stocks" in this Pricing Supplement to learn how to obtain public information regarding the Underlying Stocks and other important information. The historical highest intra-day price, lowest intra-day price and last day closing price of the Underlying Stocks for each quarter since 2003 are set forth under the heading "The Underlying Stocks" in this Pricing Supplement.

THE ISSUERS OF THE UNDERLYING STOCKS ARE NOT AFFILIATES OF OURS AND ARE NOT INVOLVED WITH THESE OFFERINGS IN ANY WAY. THE OBLIGATIONS REPRESENTED BY THE SECURITIES ARE OUR OBLIGATIONS, NOT THOSE OF THE UNDERLYING STOCKS ISSUERS. INVESTING IN THE SECURITIES IS NOT EQUIVALENT TO INVESTING IN THE SHARES OF AN ISSUER OF ANY OF THE UNDERLYING STOCKS.

WHO WILL DETERMINE WHETHER THE CLOSING PRICE OF EACH UNDERLYING STOCK HAS FALLEN BELOW THE APPLICABLE KNOCK-IN LEVEL, THE CLOSING PRICE OF EACH UNDERLYING STOCK ON THE DETERMINATION DATE, AND THE STOCK REDEMPTION AMOUNT AND THE INITIAL PRICE FOR EACH SUCH UNDERLYING STOCK?

We have appointed ABN AMRO Incorporated, which we refer to as AAI, to act as calculation agent for Wilmington Trust Company, the trustee for the

PS-6

Securities and Citibank, N.A., the securities administrator. As calculation agent, AAI will determine whether the closing price of each Underlying Stock has fallen below the applicable knock-in level, the closing price of each Underlying Stock on the determination date, and the stock redemption amount and the initial price for each such Underlying Stock. The calculation agent may adjust the initial price of any Underlying Stock and consequently the applicable stock redemption amount and applicable knock-in level, which we describe in the section called "Description of Securities -- Adjustment

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Events."

WHO INVESTS IN THE SECURITIES?

The Securities are not suitable for all investors. The Securities might be considered by investors who:

- o seek a higher interest rate than the current dividend yield on the applicable Underlying Stock or the yield on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating;
- o are willing to accept the risk of owning equity in general and the applicable Underlying Stock in particular and the risk that they could lose their entire investment;
- o do not expect to participate in any appreciation in the price of the applicable Underlying Stock; and
- o and are willing to hold the Securities until maturity.

You should carefully consider whether the Securities are suited to your particular circumstances before you decide to purchase them. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

WHAT ARE SOME OF THE RISKS IN OWNING THE SECURITIES?

Investing in the Securities involves a number of risks. We have described the most significant risks relating to the Securities under the heading "Risk Factors" in this Pricing Supplement which you should read before making an investment in the Securities.

Some selected risk considerations include:

- o CREDIT RISK. Because you are purchasing a security from us, you are assuming our credit risk. In addition, because the Securities are fully and unconditionally guaranteed by Holding, you are assuming the credit risk of Holding in the event that we fail to make any payment or delivery required by the terms of the Securities.
- o PRINCIPAL RISK. The Securities are not principal protected, which means there is no guaranteed return of principal. If the closing price of the applicable Underlying Stock falls below the applicable knock-in level on any trading day during the Knock-in Period and the closing price on the determination date is less than the applicable initial price, we will deliver to you a fixed number of shares of such Underlying Stock with a market value less than the principal amount of the Securities, which value may be zero.
- o LIQUIDITY AND MARKET RISK. We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. The value of the Securities in the secondary market, if any, will be subject to many unpredictable factors, including then prevailing market conditions.

WHAT IF I HAVE MORE QUESTIONS?

You should read "Description of Securities" in this Pricing Supplement for a detailed description of the terms of the Securities. The Securities are senior notes issued as part of our ABN Notes(SM) program and guaranteed by

Holding. The Securities offered by the Bank will constitute the Bank's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all our other present and future unsecured and unsubordinated obligations. The guarantee of Holding will constitute Holding's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all Holding's other present and future unsecured and unsubordinated obligations. You can find a general description of our ABN Notes(SM) program in the accompanying Prospectus Supplement. We also describe the basic features of this type of note in the sections called "Description of Notes" and "Notes Linked to Commodity Prices, Single Securities, Baskets of Securities or Indices".

PS-7

RISK FACTORS

This section describes the most significant risks relating to the Securities. For a discussion of certain general risks associated with your investment in the Securities, please refer to the section entitled "Risk Factors" beginning on page S-3 of the accompanying prospectus supplement. YOU SHOULD CAREFULLY CONSIDER WHETHER THE SECURITIES ARE SUITED TO YOUR PARTICULAR CIRCUMSTANCES BEFORE YOU DECIDE TO PURCHASE THEM. IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

THE SECURITIES ARE NOT ORDINARY SENIOR NOTES; THERE IS NO GUARANTEED RETURN OF PRINCIPAL

The Securities combine limited features of debt and equity. The terms of the Securities differ from those of ordinary debt securities in that we will not pay you a fixed principal amount in cash at maturity if the closing price of the applicable Underlying Stock has fallen below the applicable knock-in level on any trading day during the Knock-in Period and, in addition, the closing price of the applicable Underlying Stock is below the applicable initial price on the determination date. In such event, we will exchange each Security you hold for a number of shares of the applicable Underlying Stock equal to the stock redemption amount. Such shares will have a market value of less than the principal amount of the Securities, and such value may be zero. You cannot predict the future performance of any Underlying Stock based on its historical performance. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF THE AMOUNT YOU INVEST IN THE SECURITIES.

THE SECURITIES WILL NOT PAY MORE THAN THE STATED PRINCIPAL AMOUNT AT MATURITY

The amount paid at maturity of the Securities in cash or shares of Underlying Stock will not exceed the principal amount of the Securities. If the closing price of the applicable Underlying Stock on the determination date is equal to or exceeds the applicable initial price (regardless of whether the applicable knock-in level has been previously breached), you will receive the principal amount of the Securities irrespective of any appreciation in the share price. You will not receive shares of the applicable Underlying Stock or any other asset equal to the value of the shares of the applicable Underlying Stock. As a result, if the applicable Underlying Stock has appreciated above its closing price level on the pricing date, the payment you will receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

SECURITIES THAT YOU HOLD AT THAT TIME.

WE DO NOT INTEND TO LIST THE SECURITIES ON ANY SECURITIES EXCHANGE; SECONDARY TRADING MAY BE LIMITED

You should be willing to hold your Securities until the maturity date. We do not intend to list the Securities on any securities exchange; accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Securities easily. Upon completion of the offering, our affiliate has informed us that it intends to purchase and sell the Securities from time to time in off-exchange transactions, but it is not required to do so. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In addition, to the extent the total principal amount of the Securities being offered is not being purchased by investors in each of the offerings, and one or more of our affiliates has agreed to purchase the unsold portion for its own investment. Such affiliate or affiliates intend to hold the Securities for investment purposes, which may affect the supply of Securities available for secondary trading and therefore adversely affect the price of the Securities in any secondary trading. If a substantial portion of any Securities held by our affiliates were to be offered for sale following this offering, the market price of such Securities could fall, especially if secondary trading in such Securities is limited or illiquid.

MARKET PRICE OF THE SECURITIES INFLUENCED BY MANY UNPREDICTABLE FACTORS

The value of the Securities may move up and down between the date you purchase them and the determination date when the calculation agent determines the amount to be paid to the holders of the Securities on the maturity date.

PS-8

Several factors, many of which are beyond our control, will influence the value of the Securities, including:

- o the market price of the applicable Underlying Stock, in particular, whether the market price of such Underlying Stock has fallen below the applicable knock-in level;
- o the volatility (frequency and magnitude of changes) in the price of the applicable Underlying Stock;
- o the dividend rate on the applicable Underlying Stock. While dividend payments on the applicable Underlying Stock, if any, are not paid to holders of the Securities linked to such Underlying Stock, such payments may have an influence on the market price of the applicable Underlying Stock and therefore on the Securities linked to such Underlying Stock;
- o interest and yield rates in the market;
- o economic, financial, political and regulatory or judicial events that affect the stock markets generally and which may affect the closing price of the applicable Underlying Stock and/or the Securities;
- o the time remaining to the maturity of the Securities; and

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

- o the creditworthiness of the Bank as issuer of the Securities and Holding as the guarantor of the Bank's obligations under the Securities. Any person who purchases the Securities is relying upon the creditworthiness of the Bank and Holding and has no rights against any other person. The Securities constitute the general, unsecured and unsubordinated contractual obligations of the Bank and Holding.

Some or all of these factors will influence the price that you will receive if you sell your Securities in the secondary market, if any, prior to maturity. For example, you may have to sell your Securities at a substantial discount from the principal amount if at the time of sale the market price of the applicable Underlying Stock is at, below, or not sufficiently above the applicable knock-in level. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices."

THE INCLUSION OF COMMISSIONS AND COST OF HEDGING IN THE ISSUE PRICE IS LIKELY TO ADVERSELY AFFECT SECONDARY MARKET PRICES

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the selling agents are willing to purchase Securities in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market prices are likely to exclude, commissions paid with respect to the Securities, as well as the profit component included in the cost of hedging our obligations under the Securities. In addition, any such prices may differ from values determined by pricing models used by the selling agents, as a result of dealer discounts, mark-ups or other transaction costs.

AN INCREASE IN THE VALUE OF THE APPLICABLE UNDERLYING STOCK WILL NOT INCREASE THE RETURN ON YOUR INVESTMENT

Owning a Security linked to an Underlying Stock is not the same as owning such Underlying Stock. Accordingly, the market value of your Securities may not have a direct relationship with the market price of the applicable Underlying Stock, and changes in the market price of the applicable Underlying Stock may not result in a comparable change in the market value of your Securities. If the price per share of applicable Underlying Stock increases above the applicable initial price, the market value of the Securities may not increase. It is also possible for the price per share of applicable Underlying Stock to increase while the market price of the Securities declines.

WE MAY NOT BE ABLE TO DELIVER UNDERLYING SHARES AT MATURITY

If due to events beyond our reasonable control, as determined by us in our sole discretion, shares of the applicable Underlying Stock are not available for delivery at maturity we may pay you cash in lieu of delivering such Underlying Stock. In such a case, the amount of cash we will deliver will be an amount calculated by

PS-9

multiplying the Stock Redemption Amount by the Closing Price of the shares of the applicable Underlying Stock on the Determination Date. Accordingly, if you have sold shares of such Underlying Stock and your sale is to settle on the maturity date or you have otherwise agreed to deliver shares of such Underlying Stock on the maturity date, your trade may fail in the event we do not deliver

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

shares of the applicable Underlying Stock to you.

POTENTIAL CONFLICTS OF INTEREST; NO SECURITY INTEREST IN THE UNDERLYING STOCK HELD BY US

We and our affiliates may carry out hedging activities that minimize our risks related to the Securities, including trading in the Underlying Stocks. In particular, on or prior to the date of this Pricing Supplement, we, through our affiliates, hedged our anticipated exposure in connection with the Securities by taking positions in the Underlying Stocks, options contracts on Underlying Stocks listed on major securities markets, and/or other instruments that we deemed appropriate in connection with such hedging. Such hedging is carried out in a manner designed to minimize any impact on the price of the Underlying Stocks. Our purchase activity, however, could potentially have increased the initial price of any of the Underlying Stocks, and therefore inadvertently increased the level below which we would be required to deliver to you at maturity shares of such Underlying Stock, which, in turn, would have a value less than the principal amount of your Securities.

Through our affiliates, we are likely to modify our hedge position throughout the life of the Securities by purchasing and selling the Underlying Stocks, options contracts on the Underlying Stocks listed on major securities markets or positions in other securities or instruments that we may wish to use in connection with such hedging. Although we have no reason to believe that our hedging activity or other trading activities that we, or any of our affiliates, engage in or may engage in has had or will have a material impact on the price of the any of the Underlying Stocks, we cannot give you any assurance that we have not or will not affect such price as a result of our hedging or trading activities. It is possible that we or one of more of our affiliates could receive substantial returns from these hedging activities while the value of the Securities may decline. We or one or more of our affiliates may also engage in trading the Underlying Stocks and other investments relating to the issuers of the Underlying Stocks on a regular basis as part of our or its general broker-dealer and other businesses, for proprietary accounts, for other accounts under management or to facilitate transactions for customers, including block transactions. Any of these activities could adversely affect the price of any of the Underlying Stocks and, therefore, the value of the Securities. We or one or more of our affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the value of the Underlying Stocks. By introducing competing products into the marketplace in this manner, we or one or more of our affiliates could adversely effect the value of the Securities. It is also possible that any advisory services that we or our affiliates provide in the course of any business with any of the issuers of the Underlying Stocks or its affiliates could lead to actions on the part of the issuer of the stock which might adversely affect the value of such Underlying Stock.

The indenture governing the Securities does not contain any restrictions on our ability or the ability of any of our affiliates to sell, pledge or otherwise convey all or any portion of the Underlying Stocks acquired by us or our affiliates. Neither we nor Holding nor any of our affiliates will pledge or otherwise hold any Underlying Stock for the benefit of holders of the Securities in order to enable the holders to exchange their Securities for shares of the applicable Underlying Stock under any circumstances. Consequently, in the event of a bankruptcy, insolvency or liquidation involving us or Holding, as the case may be, any Underlying Stock that we or Holding own will be subject to the claims of our creditors or Holding's creditors generally and will not be available specifically for the benefit of the holders of the Securities.

NO SHAREHOLDER RIGHTS IN THE UNDERLYING STOCK

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

As a holder of the Securities, you will not have voting rights or rights to receive dividends or other distributions or other rights that holders of any Underlying Stock would have.

Because neither we nor Holding nor any of our affiliates are affiliated with any of the issuers of the Underlying Stocks, we have no ability to control or predict the actions of such issuers, including any corporate actions of the type that would require the calculation agent to adjust the applicable initial price and consequently the applicable knock-in level and applicable stock redemption amount, and have no ability to control the public disclosure of these corporate actions or any other events or circumstances affecting such issuers. THE ISSUERS OF THE UNDERLYING STOCKS ARE NOT INVOLVED IN THE OFFER OF THE SECURITIES IN ANY WAY AND HAVE NO OBLIGATION TO CONSIDER YOUR INTEREST AS

PS-10

AN OWNER OF THE SECURITIES IN TAKING ANY CORPORATE ACTIONS THAT MIGHT AFFECT THE VALUE OF YOUR SECURITIES. NONE OF THE MONEY YOU PAY FOR THE SECURITIES WILL GO TO ANY OF THE ISSUERS OF THE UNDERLYING STOCKS.

INFORMATION REGARDING THE ISSUERS OF THE UNDERLYING STOCKS

Neither we nor Holding nor any of our affiliates assume any responsibility for the adequacy of the information about the issuers of the Underlying Stocks contained in this Pricing Supplement or in any of such issuers' publicly available filings. AS AN INVESTOR IN THE SECURITIES, YOU SHOULD MAKE YOUR OWN INVESTIGATION INTO THESE ISSUERS. NEITHER WE NOR HOLDING NOR ANY OF OUR AFFILIATES HAVE ANY AFFILIATION WITH THE ISSUERS OF THE UNDERLYING STOCKS, AND ARE NOT RESPONSIBLE FOR SUCH ISSUERS' PUBLIC DISCLOSURE OF INFORMATION, WHETHER CONTAINED IN SEC FILINGS OR OTHERWISE.

LIMITED ANTIDILUTION PROTECTION

AAI, as calculation agent, will adjust the initial price and consequently the stock redemption amount and knock-in level for certain events affecting an Underlying Stock, such as stock splits and corporate actions. The calculation agent is not required to make an adjustment for every corporate action which affects an Underlying Stock. For example, the calculation agent is not required to make any adjustments if the issuer of an Underlying Stock or anyone else makes a partial tender or partial exchange offer for such Underlying Stock. IF AN EVENT OCCURS THAT DOES NOT REQUIRE THE CALCULATION AGENT TO ADJUST THE AMOUNT OF SHARES OF THE APPLICABLE UNDERLYING STOCK PAYABLE AT MATURITY, THE MARKET PRICE OF THE SECURITIES MAY BE MATERIALLY AND ADVERSELY AFFECTED.

HOLDINGS OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES

Certain of our affiliates have agreed to purchase for investment the portion of the Securities that has not been purchased by investors in each of these offerings, which initially they intend to hold for investment purposes. As a result, upon completion of these offerings, our affiliates may own a substantial portion of the aggregate principal amount of each offering of Securities. Circumstances may occur in which our interests or those of our affiliates could be in conflict with your interests.

POTENTIAL CONFLICTS OF INTEREST BETWEEN HOLDERS OF SECURITIES AND THE CALCULATION AGENT

As calculation agent, AAI will calculate the payout to you at maturity of the Securities. AAI and other affiliates may carry out hedging activities

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

related to the Securities, including trading in the Underlying Stocks, as well as in other instruments related to the Underlying Stocks. AAI and some of our other affiliates also trade the Underlying Stocks on a regular basis as part of their general broker dealer businesses. Any of these activities could influence AAI's determinations as calculation agent and any such trading activity could potentially affect the price of the Underlying Stocks and, accordingly could affect the payout on the Securities. AAI IS AN AFFILIATE OF ABN AMRO BANK N.V.

In addition, if certain reorganization events occur as defined under "Description of Securities--Adjustment Events" the calculation agent may adjust the applicable initial price and consequently the applicable knock-in level and applicable stock redemption amount to reflect the new securities issued in such reorganization event. The calculation agent may make such adjustment based on its assessment of the market value and volatility of those new securities, which may adversely affect the value of the Securities. The calculation agent's adjustment to the Securities may be influenced by, among other things, our or our affiliates' hedging transactions with respect to the Securities and our or their ability to hedge our obligations under the Securities following those reorganization events. While we do not currently anticipate the occurrence of a reorganization event, there can be no assurance that a reorganization event will not occur or that the calculation agent's adjustments upon a reorganization event will not adversely affect the value of the Securities.

Moreover, the issue price of the Securities includes the agents' commissions and certain costs of hedging our obligations under the Securities. Our affiliates through which we hedge our obligations under the Securities expect to make a profit. Since hedging our obligations entails risk and may be influenced by market forces beyond our affiliates' control, such hedging may result in a profit that is more or less than initially projected.

PS-11

TAX TREATMENT

You should also consider the tax consequences of investing in the Securities. Significant aspects of the tax treatment of the Securities are uncertain. We do not plan to request a ruling from the U.S. Internal Revenue Service (the "IRS") or from the Dutch authorities regarding the tax treatment of the Securities, and the IRS, the Dutch authorities or a court may not agree with the tax treatment described in the accompanying Prospectus Supplement. Please read carefully the sections entitled "United States Federal Taxation" (and in particular the subsection entitled "--Mandatorily Exchangeable Notes--Reverse Exchangeable and Knock-in Reverse Exchangeable Securities") and "Taxation in the Netherlands" in the accompanying Prospectus Supplement. You should consult your tax advisor about your own situation.

HYPOTHETICAL RETURN ANALYSIS OF THE SECURITIES AT MATURITY

The following tables set out the total return to maturity of a \$1,000 investment in a hypothetical Knock-In Reverse Exchangeable security linked to the Common Stock of XYZ Corporation, a hypothetical underlying Common Stock, based on the assumptions outlined below and several variables, which include (a) whether the closing price of the hypothetical underlying stock has fallen below the hypothetical knock-in level on any trading day during the Knock-in Period and (b) several hypothetical closing prices for the hypothetical underlying stock on the determination date. The information in the tables is based on hypothetical market values. We cannot predict the market price or the closing price of any underlying stock on the determination date or at any time during the life of the Securities. THE ASSUMPTIONS EXPRESSED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY AND DO NOT CORRESPOND TO ANY OF THE UNDERLYING STOCKS TO WHICH THE SECURITIES ARE LINKED. EACH UNDERLYING STOCK WILL HAVE ITS OWN INITIAL PRICE, KNOCK-IN LEVEL AND INTEREST RATE.

ASSUMPTIONS

Hypothetical underlying stock: Common Stock of XYZ Corporation

Hypothetical initial price: \$45.00

Hypothetical knock-in level: \$36.00 (80% of the hypothetical initial price)

Hypothetical annual interest on the security: 10.00%

Hypothetical term of the Security: 1 year

Hypothetical exchange factor: 1.0 (we have assumed that no market disruption event occurs and the calculation agent does not need to adjust the exchange factor for any adjustment events during the term of the Securities).

PAYMENT AT MATURITY IF THE CLOSING PRICE OF THE HYPOTHETICAL UNDERLYING STOCK FALLS BELOW THE HYPOTHETICAL KNOCK-IN LEVEL ON ANY TRADING DAY DURING THE KNOCK-IN PERIOD:

| \$36.00 | \$1,000.00 | \$100.00 | \$1,100.00 | 10.00% |

- (a) Based on the assumptions set forth above, if the closing price of the hypothetical underlying stock falls below \$36.00 on any trading day during the Knock-in Period and, in addition, the closing price of the hypothetical underlying stock is less than \$45.00 on the determination date, the payment at maturity will be made in shares of the hypothetical underlying Common Stock. For determining the value of the hypothetical payment at maturity, we have assumed that the closing price of the hypothetical underlying stock will be the same on the maturity date as on the determination date.
- (b) The total return presented is exclusive of any tax consequences of owning the Securities. You should consult your tax adviser regarding whether owning the Securities is appropriate for your tax situation. See the sections titled "Risk Factors" in this Pricing Supplement and "United States Federal Taxation" and "Taxation in the Netherlands" in the accompanying Prospectus Supplement.
- (c) Interest on the Securities will be computed on the basis of a 360-day year of twelve 30-day months or, in the case of an incomplete month, the number of actual days elapsed. Accordingly, depending on the number of days in any monthly interest payment period, the coupon payable in such period and, consequently, the total interest payable over the life of the Securities, may be less than the amount reflected in this column.
- (d) Based on the assumptions set forth above, if the closing price of the hypothetical underlying stock never falls below \$36.00 on any trading day

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

during the Knock-in Period, the payment at maturity will be made in cash.

PS-19

DESCRIPTION OF SECURITIES

Capitalized terms not defined herein have the meanings given to such terms in the accompanying Prospectus Supplement. The term "Security" refers to each \$1,000 principal amount of any of the Knock-in Reverse Exchangeable Securities due August 27, 2009 linked to one of the Underlying Stocks set forth below and fully and unconditionally guaranteed by Holding.

The Offerings..... This Pricing Supplement relates to three (3) separate offerings of Securities. Each issue of offered Securities is linked to one, and only one, Underlying Stock. The purchaser of a note will acquire a Security linked to a single Underlying Stock, not to a basket or index that includes some or all of the Underlying Stocks. You may participate in any of the three (3) offerings or, at your election, in two or all of the offerings.

Underlying Companies..... The Securities are linked to the Common Stocks of Wells Fargo & Company ("Wells Fargo"), JP Morgan Chase & Co. ("JP Morgan"), and American Express Company ("American Express"), respectively.

Principal Amounts..... \$2,300,000 for Securities linked to the Common Stock of Wells Fargo;
\$2,300,000 for Securities linked to the Common Stock of JP Morgan; and
\$2,300,000 for Securities linked to the Common Shares of American Express.

Underlying Stocks..... Common Stock, \$1-2/3 par value per share for Securities linked to the Common Stock of Wells Fargo;
Common Stock, \$1 par value per share for Securities linked to the Common Stock of JP Morgan; and
Common Shares, \$0.20 par value per share for Securities linked to the Common Shares of American Express.

Proposed Settlement Date..... August 27, 2008

Proposed Pricing Date..... August 22, 2008

Issue Price..... 100%

Initial Price..... \$29.36 for Securities linked to the Common Stock of Wells Fargo;
\$37.67 for Securities linked to the Common Stock of JP Morgan; and
\$38.79 for Securities linked to the Common Shares

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

of American Express.

In each case, the Initial Price is the Closing Price per share of Underlying Stock when we priced the Securities on the Pricing Date, divided by the Exchange Factor.

Knock-in Level..... A percentage of the applicable Initial Price equal to:

70% for Securities linked to the Common Stock of Wells Fargo;
70% for Securities linked to the Common Stock of JP Morgan; and
70% for Securities linked to the Common Shares of American Express.

The applicable Initial Price will be determined by the Calculation Agent. The applicable Initial Price and consequently the applicable Knock-in Level may be adjusted for certain corporate events affecting the applicable Underlying Company.

Maturity Date..... August 27, 2009

Specified Currency..... U.S. Dollars

CUSIP..... 00083GF90 for Securities linked to the Common Stock of Wells Fargo;
00083GG24 for Securities linked to the Common Stock of JP Morgan; and
00083GG32 for Securities linked to the Common Shares of American

PS-20

Express.

Denominations..... The Securities may be purchased in denominations of \$1,000 and integral multiples thereof.

Form of Securities..... Each of the three (3) Securities issued as part of this offering will be represented by a separate registered global security, deposited with the Depository Trust Company.

Guarantee..... The payment and delivery obligations of ABN AMRO Bank N.V. under the Securities, when and as they shall become due and payable, whether at maturity or upon acceleration, are fully and unconditionally guaranteed by ABN AMRO Holding N.V.

Interest Rate..... 16.10% per annum (prorated over the life of the Securities) for Securities linked to the Common Stock of Wells Fargo, which represents (a) an interest coupon of 3.16% per annum and (b) an

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

option premium of 12.94% per annum;
15.60% per annum (prorated over the life of the Securities) for Securities linked to the Common Stock of JP Morgan, which represents (a) an interest coupon of 3.16% per annum and (b) an option premium of 12.44% per annum;
14.90% per annum (prorated over the life of the Securities) for Securities linked to the Common Shares of American Express, which represents (a) an interest coupon of 3.16% per annum and (b) an option premium of 11.74% per annum.

Interest on the Securities is payable in arrears on the 27th of each month starting on September 27, 2008 and ending on the Maturity Date.

Knock-in Period..... The period from but not including the Pricing Date to and including the Determination Date.

Payment at Maturity..... If the Closing Price of any Underlying Stock has not fallen below the applicable Knock-in Level on any Trading Day during the Knock-in Period, we will pay you the principal amount of each Security linked to such Underlying Stock in cash. If the Closing Price of any Underlying Stock has fallen below the applicable Knock-in Level on any Trading Day during the Knock-in Period, then (i) if the Closing Price of such Underlying Stock on the Determination Date is below the applicable Initial Price, we will deliver to you, in exchange for each Security linked to such Underlying Stock, a number of shares of such Underlying Stock equal to the applicable Stock Redemption Amount or (ii) if the Closing Price of such Underlying Stock on the Determination Date is at or above the applicable Initial Price, we will pay you the principal amount of each Security linked to such Underlying Stock in cash. We will pay cash in lieu of delivering fractional shares of Underlying Stock in an amount equal to the corresponding fractional Closing Price of such Underlying Stock, as determined by the Calculation Agent on the Determination Date. If due to events beyond our reasonable control, as determined by us in our sole discretion, shares of the Underlying Stock are not available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the shares of the Underlying Stock on the Determination Date. Following a Reorganization Event, the amount payable at maturity is subject to adjustments as described below under "--Adjustment Events."

Stock Redemption Amount..... 34.060 for Securities linked to the Common Stock of Wells Fargo;
26.546 for Securities linked to the Common Stock of JP Morgan; and

PS-21

25.780 for Securities linked to the Common Shares of American Express.

The Calculation Agent will determine the Stock Redemption Amount on the Determination Date by dividing \$1,000 by the Initial Price of the applicable Underlying Stock.

The applicable Initial Price and consequently the applicable Stock Redemption Amount may be adjusted for certain corporate events affecting the applicable Underlying Company. The interest payment on the Securities at maturity will be paid in cash.

Determination Date..... August 24, 2009; provided that if such day is not a Trading Day, or if a Market Disruption Event has occurred on such a Trading Day, the Determination Date shall be the immediately succeeding Trading Day; provided, further, that the Determination Date shall be no later than the second scheduled Trading Day preceding the Maturity Date, notwithstanding the occurrence of a Market Disruption Event on such second scheduled Trading Day.

Closing Price..... If the shares of any Underlying Stock (or any other security for which a closing price must be determined) are listed on a U.S. securities exchange registered under the Exchange Act, or are included in the OTC Bulletin Board Service, which we refer to as the OTC Bulletin Board (operated by the Financial Industry Regulatory Authority), the Closing Price for one share of such Underlying Stock (or one unit of any such other security) on any Trading Day means (i) the last reported sale price, regular way, in the principal trading session on such day on the principal securities exchange on which the shares of such Underlying Stock (or any such other security) are listed or admitted to trading or (ii) if not listed or admitted to trading on any such securities exchange or if such last reported sale price is not obtainable (even if the shares of such Underlying Stock, or other such security, are listed or admitted to trading on such securities exchange), the last reported sale price in the principal trading session on the over-the-counter market as reported on the Relevant Exchange or OTC Bulletin Board on such day. If the last reported sale price is not available pursuant to clause (i) or (ii) of the preceding sentence, the Closing Price for any Trading Day shall be the mean, as determined by the Calculation Agent, of the bid prices for the shares of such Underlying Stock (or any such other security) obtained from as many dealers in such security (which may include AAI or any of

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

our other affiliates), but not exceeding three, as will make such bid prices available to the Calculation Agent. The term "OTC Bulletin Board Service" shall include any successor service thereto.

- Relevant Exchange..... The primary U.S. securities organized exchange or market of trading for the applicable Underlying Stock. If a Reorganization Event has occurred, the Relevant Exchange will be the stock exchange or securities market on which the Exchange Property (as defined below under "--Adjustment Events") that is a listed equity security is principally traded as determined by the Calculation Agent.
- Trading Day..... A day, as determined by the Calculation Agent, on which trading is generally conducted on the Relevant Exchange.
- Book Entry Note or
Certificated Note..... Book Entry
- Trustee..... Wilmington Trust Company
- Securities Administrator..... Citibank, N.A.
- Market Disruption Event..... Means, with respect to any securities for which a Closing Price must be

PS-22

determined:

(i) either:

(x) any suspension of or limitation imposed on trading in such securities by the primary exchange therefore or otherwise and whether by reason of movements in price exceeding limits permitted by such exchange or otherwise or by any exchange or quotation system on which trading in futures or options contracts relating to such securities is executed, or

(y) any event (other than an event described in clause (z) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (1) to effect transactions in or obtain market values for such securities on the primary exchange therefore or (2) to effect transactions in or obtain market values for futures or options contracts relating to such securities on any other exchange, or

- (z) the closure on any Trading Day of the primary exchange for such securities, or any exchange or quotation system on which trading in future or options relating such securities is executed, prior to its scheduled closing time unless such earlier closing time is announced by such exchange at least one hour prior to the earlier of (1) the actual closing time for the regular trading session on such exchange on such Trading Day and (2) the submission deadline for orders to be entered into such exchange for execution on such Trading Day; and
- (ii) a determination by the Calculation Agent in its sole discretion that the event described in clause (i) above materially interfered with our ability or the ability of any of our affiliates to unwind or adjust all or a material portion of the hedge with respect to the Securities.

For purposes of determining whether a market disruption event has occurred: (1) a limitation on the hours or number of days of trading will not constitute a market disruption event if it results from an announced change in the regular business hours of the relevant exchange; (2) a decision to permanently discontinue trading in the relevant futures or options contract will not constitute a market disruption event; (3) limitations pursuant to New York Stock Exchange Inc. Rule 70A (or any applicable rule or regulation enacted or promulgated by the New York Stock Exchange Inc., any other self-regulatory organization or the Commission of similar scope as determined by the calculation agent) on trading during significant market fluctuations shall constitute a suspension, absence or material limitation of trading; (4) a suspension of trading in a futures or options contract on such securities by the primary securities market trading in such futures or options, if available, by reason of (x) a price change exceeding limits set by such securities exchange or market, (y) an imbalance of orders relating to such contracts or (z) a disparity in bid and ask quotes relating to such contracts will constitute a suspension, absence or material limitation of trading in futures or options contracts related to such securities; and (5) a suspension, absence or material limitation of trading on the primary securities market on which futures or options contracts related to such securities are traded will not include any time when such securities market is itself closed for trading under ordinary circumstances.

The Calculation Agent shall as soon as reasonably

practicable under the

PS-23

circumstances notify us, the trustee, the Depository Trust Company and the agents of the existence or occurrence of a Market Disruption Event on any day that but for the occurrence or existence of a Market Disruption Event would have been the Determination Date.

Exchange Factor..... The Exchange Factor for each Underlying Stock will be set initially at 1.0, but will be subject to adjustment upon the occurrence of certain corporate events affecting such Underlying Stock. See "Adjustment Events" below.

Adjustment Events..... The Exchange Factor or the amounts paid at maturity for each Underlying Stock will be adjusted as follows:

1. If such Underlying Stock is subject to a stock split or reverse stock split, then once such split has become effective, the Exchange Factor will be proportionately adjusted.
2. If such Underlying Stock is subject (i) to a stock dividend (i.e., the issuance of additional shares of such Underlying Stock) that is given ratably to all holders of such Underlying Stock or (ii) to a distribution of the shares of such Underlying Stock as a result of the triggering of any provision of the corporate charter of the applicable Underlying Company, in each case other than a stock split described in paragraph 1, then once the dividend has become effective and such Underlying Stock is trading ex-dividend, the Exchange Factor will be proportionally adjusted.
3. There shall be no adjustments to the Exchange Factor applicable to such Underlying Stock to reflect cash dividends or other distributions paid with respect to such Underlying Stock unless such cash dividends or other distributions constitute Extraordinary Dividends as described below (except that distributions described in paragraph 2 above shall not be subject to this paragraph). A cash dividend or other distribution with respect to any of the Underlying Stocks shall be deemed to be an "Extraordinary Dividend" if such dividend or other distribution exceeds the immediately preceding non-Extraordinary Dividend for such Underlying Stock by an amount equal to at least 10% of the Closing Price of such

Underlying Stock (as adjusted for any subsequent corporate event requiring an adjustment hereunder, such as a stock split or reverse stock split) on the Trading Day preceding the ex-dividend date for the payment of such Extraordinary Dividend (the "ex-dividend date"). If an Extraordinary Dividend occurs with respect to such Underlying Stock, the Exchange Factor with respect to such Underlying Stock will be adjusted on the ex-dividend date with respect to such Extraordinary Dividend so that the new Exchange Factor will equal the product of (i) the then-current Exchange Factor and (ii) a fraction, the numerator of which is the Closing Price on the Trading Day preceding the ex-dividend date, and the denominator of which is the amount by which the Closing Price on the Trading Day preceding the ex-dividend date exceeds the Extraordinary Dividend Amount. The "Extraordinary Dividend Amount" with respect to an Extraordinary Dividend for any Underlying Stock shall equal (i) in the case of cash dividends or other distributions that constitute regular dividends, the amount per share of such Extraordinary Dividend minus the amount per share of the immediately preceding non-Extraordinary Dividend for such Underlying Stock or (ii) in the case of cash dividends or other distributions that do not constitute regular dividends, the amount per share of such Extraordinary Dividend. To the extent an Extraordinary Dividend is not paid in cash, the value of

PS-24

the non-cash component will be determined by the calculation agent, whose determination shall be conclusive. A distribution on the shares of such Underlying Stock described in clause (A), clause (D) or clause (E) in the definitions of "Reorganization Event" of paragraph 5 below that also constitutes an Extraordinary Dividend shall not cause an adjustment to the Exchange Factor pursuant to this paragraph 3.

4. If any Underlying Company issues rights or warrants to all holders of the applicable Underlying Stock to subscribe for or purchase such Underlying Stock at an exercise price per share less than the closing price of such Underlying Stock on both (i) the date the exercise price of such rights or warrants is determined and (ii) the expiration date of such rights or

warrants, and if the expiration date of such rights or warrants precedes the maturity of this note, then the Exchange Factor shall be adjusted to equal the product of the prior Exchange Factor and a fraction, the numerator of which shall be the number of shares of the applicable Underlying Stock outstanding immediately prior to the issuance of such rights or warrants plus the number of additional shares of the applicable Underlying Stock offered for subscription or purchase pursuant to such rights or warrants and the denominator of which shall be the number of shares of the applicable Underlying Stock outstanding immediately prior to the issuance of such rights or warrants plus the number of additional shares of the applicable Underlying Stock which the aggregate offering price of the total number of shares of the applicable Underlying Stock so offered for subscription or purchase pursuant to such rights or warrants would purchase at the closing price on the expiration date of such rights or warrants, which shall be determined by multiplying such total number of shares offered by the exercise price of such rights or warrants and dividing the product so obtained by such Closing Price.

5. If a Reorganization Event (as defined below) occurs, the payment at maturity will depend on (i) whether the Closing Price of the applicable Underlying Stock fell below the applicable Knock-in Level on any Trading Day from but not including the Pricing Date to and including one Trading Day prior to the date of the Reorganization Event (for purposes of this paragraph 5, we refer to such period as the "Relevant Period"), and (ii) the kind and amount of Exchange Property (as defined below) received by holders of such Underlying Stock in the Reorganization Event.

In the case where the Closing Price of the applicable Underlying Stock has fallen below the applicable Knock-in Level on any Trading Day during the Relevant Period, each holder of a Security will receive at maturity, in respect of each \$1,000 principal amount of each Security, the lesser of: (i) \$1,000 in cash or (ii) Exchange Property in an amount with a value equal to the product of the applicable Stock Redemption Amount times the Transaction Value (as defined below).

In the case where the Closing Price of the applicable Underlying Stock has not fallen below the applicable Knock-in Level on any Trading Day during the Relevant Period, then

the payment at maturity will depend upon the type of Exchange Property received by holders of such Underlying Stock in accordance with the following:

- (i) If the Exchange Property consists solely of equity securities listed on a securities exchange that, in the opinion of the Calculation Agent, maintains sufficient liquidity for trading

PS-25

in such Exchange Property, then the payment at maturity for each \$1,000 principal amount of Securities will depend on whether the Closing Price of such Exchange Property has fallen below the applicable Knock-in Level on any Trading Day commencing on the date of such Reorganization Event to and including the Determination Date:

- (a) If the Closing Price of such Exchange Property has not fallen below the applicable Knock-in Level on any Trading Day commencing on the date of such Reorganization Event to and including the Determination Date, then each holder of a Security will receive the principal amount of \$1,000 in cash; or
- (b) If the Closing Price of such Exchange Property has fallen below the applicable Knock-in Level on any Trading Day commencing on the date of such Reorganization Event to and including the Determination Date, then (x) if the Closing Price of such Exchange Property on the Determination Date is below the applicable Initial Price, we will deliver to you, in exchange for each Security, Exchange Property with a value equal to the product of the applicable Stock Redemption Amount times the Transaction Value and (y) if the Closing Price of such Exchange Property on the

Determination Date is at or above the applicable Initial Price, we will pay you \$1,000 in cash.

The Calculation Agent will adjust the applicable Initial Price and consequently the applicable Knock-in Level to reflect the new securities delivered in such Reorganization Event and the market value and volatility levels of such securities and any Exchange Factor adjustments to the applicable Initial Price as of the effective date of the Reorganization Event. Following any such adjustment, the Initial Price will be such adjusted Initial Price, divided by the Exchange Factor (which shall have been reset to 1.0 immediately following the Reorganization Event). The Bank will provide notice to the Trustee and the Securities Administrator of the adjusted Knock-in Level and Initial Price as soon as practicable after the date of such Reorganization Event.

- (ii) If the Exchange Property consists solely of property other than such listed equity securities, each holder of a Security will receive, on the Maturity Date, in exchange for each \$1,000 principal amount of Securities, the lesser of: (i) \$1,000 in cash or (ii) Exchange Property in an amount with a value equal to the product of the applicable Stock Redemption Amount times the Transaction Value as of the Determination Date. We may, in lieu of delivering such Exchange Property, pay you the cash value of such Exchange Property as of the Determination Date, as determined by the Calculation Agent. We will notify the Trustee and the Securities Administrator of the amount and type of Exchange Property to be delivered or cash to be paid.
- (iii) If the Exchange Property consists of any combination of such listed equity securities and other property, then we will (a)

deliver, on the Maturity Date, the portion of Exchange Property consisting of such other property with a value equal to the product of the applicable Stock Redemption Amount (prior to any adjustment under this clause) times the Transaction Value of such portion of Exchange Property on the Determination Date or, at our election, pay the cash value thereof, as determined by the Calculation Agent, (b) proportionally adjust the applicable Stock Redemption Amount to reflect the portion of the Exchange Property constituting such listed equity securities, (c) adjust the applicable Initial Price and consequently the applicable Knock-in Level to reflect such listed equity securities, the market value and volatility levels of such listed equity securities and any Exchange Factor adjustments to the applicable Initial Price as of the effective date of the Reorganization Event and (d) reduce the principal amount of each \$1,000 of Securities to an amount equal to such adjusted Stock Redemption Amount multiplied by such adjusted Initial Price. Following such adjustments, the amount paid at maturity for each Security will be determined as set forth under clause (i) above, except references to each \$1,000 principal amount of Security and \$1,000 in cash and the reference to \$1,000 in the definition of Stock Redemption Amount shall be references to the adjusted principal amount of Securities as described in clause (d) of the preceding sentence. In addition, following any such adjustment, the applicable Initial Price will be such adjusted Initial Price, divided by the Exchange Factor (which shall have been reset to 1.0 immediately following the Reorganization Event). The Bank will provide notice to the Trustee and the Securities Administrator of any adjustments to the Securities as a result of this clause (iii) as soon as

practicable after the date of such
Reorganization Event.
