PART I. FINANCIAL INFORMATION

Item 1. **FINANCIAL STATEMENTS**

Review by Independent Registered Public Accounting Firm

With respect to the interim consolidated financial statements included in this Quarterly Report on Form 10-Q for the three and nine months ended September 30, 2006 and 2005, PricewaterhouseCoopers LLP, the company's independent registered public accounting firm, has applied limited procedures in accordance with professional standards for a review of such information. Their report on the interim consolidated financial statements, which follows, states that they did not audit and they do not express an opinion on the unaudited interim financial statements. Accordingly, the degree of reliance on their report on the unaudited interim financial statements should be restricted in light of the limited nature of the review procedures applied. This report is not considered a report within the meaning of Sections 7 and 11 of the Securities Act of 1933, and, therefore, the independent accountants' liability under Section 11 does not extend to it.

I-1

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of W. R. Grace & Co.:

We have reviewed the accompanying consolidated balance sheet of W. R. Grace & Co. and its subsidiaries as of September 30, 2006, and the related consolidated statements of operations, shareholders' equity (deficit) and comprehensive income (loss) for each of the three-month and nine-month periods ended September 30, 2006 and September 30, 2005 and the consolidated statements of cash flows for the nine-month periods ended September 30, 2006 and September 30, 2005. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

The accompanying interim consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Notes 1 and 2 to the interim consolidated financial statements, on April 2, 2001, the Company and substantially all of its domestic subsidiaries voluntarily filed for protection under Chapter 11 of the United States Bankruptcy Code, which raises substantial doubt about the Company's ability to continue as a going concern in its present form. Management's intentions with respect to this matter are also described in Notes 1 and 2. The accompanying interim consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2005, and the related consolidated statements of operations, cash flows, shareholders' equity (deficit) and comprehensive income (loss) for the year then ended, management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2005 and the effectiveness of the Company's internal control over financial reporting as of December 31, 2005; and in our report dated March 10, 2006, we expressed (i) an unqualified opinion on those consolidated financial statements with an explanatory paragraph relating to the Company's ability to continue as a going concern and, (ii) unqualified opinions on management's assessment of the effectiveness of the Company's internal control over financial reporting and on the effectiveness of the Company's internal control over financial reporting. The consolidated financial statements and management's assessment of the effectiveness of internal control over financial reporting referred to above are not presented herein. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2005, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

W. R. Grace & Co. and Subsidiaries

Notes to Consolidated Financial Statements (Unaudited)

1. Basis of Presentation and Summary of Significant Accounting and Financial Reporting Policies

W. R. Grace & Co., through its subsidiaries, is engaged in specialty chemicals and specialty materials businesses on a worldwide basis through two operating segments: Grace Davison, which includes silica- and alumina-based catalysts and materials used in a wide range of industrial applications; and Grace Performance Chemicals, which includes specialty chemicals and materials used in commercial and residential construction and in rigid food and beverage packaging.

W. R. Grace & Co. conducts substantially all of its business through a direct, wholly-owned subsidiary, W. R. Grace & Co.-Conn. (Grace-Conn.). Grace-Conn. owns substantially all of the assets, properties and rights of W. R. Grace & Co. on a consolidated basis, either directly or through subsidiaries.

As used in these notes, the term Company refers to W. R. Grace & Co. The term Grace refers to the Company and/or one or more of its subsidiaries and, in certain cases, their respective predecessors.

Voluntary Bankruptcy Filing During 2000 and the first quarter of 2001, Grace experienced several adverse developments in its asbestos-related litigation, including: a significant increase in personal injury claims, higher than expected costs to resolve personal injury and certain property damage claims, and class action lawsuits alleging damages from Zonolite Attic Insulation (ZAI) a former Grace attic insulation product.

After a thorough review of these developments, the Board of Directors concluded that a federal court-supervised bankruptcy process provided the best forum available to achieve fairness in resolving these claims and on April 2, 2001 (the Filing Date), Grace and 61 of its United States subsidiaries and affiliates, including Grace-Conn. (collectively, the Debtors), filed voluntary petitions for reorganization (the Filing) under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the Bankruptcy Court). The cases were consolidated and are being jointly administered under case number 01-01139 (the Chapter 11 Cases). Grace s non-U.S. subsidiaries and certain of its U.S. subsidiaries were not included in the Filing.

Under Chapter 11, the Debtors have continued to operate their businesses as debtors-in-possession under court protection from creditors and claimants, while using the Chapter 11 process to develop and implement a plan for addressing the asbestos-related claims. Since the Filing, all motions necessary to conduct normal business activities have been approved by the Bankruptcy Court. (See Note 2 for Chapter 11-Related Information.)

Basis of Presentation The interim Consolidated Financial Statements presented herein are unaudited and should be read in conjunction with the Consolidated Financial Statements presented in the Company s 2005 Annual Report on Form 10-K. Such interim Consolidated Financial Statements reflect all adjustments that, in the opinion of management, are necessary for a fair presentation of the results of the interim periods presented; all such adjustments are of a normal recurring nature. Potential accounting adjustments discovered during normal reporting and accounting processes are evaluated on the basis of materiality, both individually and in the aggregate, and are recorded in the accounting period discovered, unless a restatement of a prior period is necessary. All significant intercompany accounts and transactions have been eliminated.

The results of operations for the three-month and nine-month interim periods ended September 30, 2006 are not necessarily indicative of the results of operations for the year ending December 31, 2006.

Reclassifications Certain amounts in prior years Consolidated Financial Statements have been reclassified to conform to the 2006 presentation. Such reclassifications have not materially affected previously reported amounts in the Consolidated Financial Statements.

Use of Estimates The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires that management make estimates and assumptions affecting the assets and liabilities reported at the date of the Consolidated Financial Statements, and the revenues and expenses reported for the periods presented. Actual amounts could differ from those estimates, and the differences could be

I-7

material. Changes in estimates are recorded in the period identified. Grace's accounting measurements that are most affected by management's estimates of future events are:

- Contingent liabilities which depend on an assessment of the probability of loss and an estimate of ultimate resolution cost, such as asbestos-related matters (see Notes 2 and 3), environmental remediation (see Note 12), income taxes (see Note 12), and litigation (see Note 12);
- Pension and postretirement liabilities that depend on assumptions regarding participant life spans, future inflation, discount rates and total returns on invested funds (see Note 13);
- Liabilities for employee incentive compensation and customer rebates that depend on estimates of future sales or earnings;
- Depreciation and amortization periods for long-lived assets, including property and equipment, intangible, and other assets that depend on utilization assessments, future product and production plans and expected sales and cash flows; and
- Realization values of various assets such as net deferred tax assets, trade receivables, inventories, insurance receivables, properties and equipment, and goodwill which depend on assessments of credit and other business risks, and projections of future income and cash flows.

The accuracy of these and other estimates may also be materially affected by the uncertainties arising under Grace's Chapter 11 proceeding.

Effect of New Accounting Standards In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*. SFAS No. 158 requires an employer to recognize the funded status of defined benefit pension plans and other postretirement benefit plans as an asset or liability in its statement of financial position, and requires recognition in other comprehensive income of gains or losses and prior service costs or credits arising during the period but which are not included as components of net periodic benefit cost. SFAS No. 158 is effective for the year ending December 31, 2006. Grace is not currently able to quantify the estimated effects of the adoption of SFAS No. 158 to its statement of financial position, as actual amounts will depend on year-end assumptions and calculations. If Grace had adopted SFAS No. 158 effective December 31, 2005, Grace estimates that, after tax effects, reported total assets would have decreased by approximately \$55 million, reported total liabilities would have increased by approximately \$43 million, and reported total shareholders' deficit would have increased by approximately \$98 million. Grace does not expect adoption of SFAS No. 158 to have a material impact on its consolidated results of operations.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), which prescribes a recognition threshold and measurement attribute for tax positions taken or expected to be taken in tax returns. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Grace is required to adopt FIN 48 in the first quarter of 2007, and is currently evaluating the impact to its Consolidated Financial Statements.

In December 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment*, to require companies to measure and recognize in operations the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value. The provisions of this standard are effective for Grace in 2006. Grace implemented SFAS 123(R) in the first quarter of 2006. Under the transition method selected by Grace, the modified prospective method, the only outstanding awards affected were stock appreciation rights granted to Grace's former Chief Executive Officer. Grace measured the award at a fair value of \$2.6 million using the Black-Scholes option pricing model at March 31, 2006 and recorded that amount as compensation cost (included in selling, general and administrative expenses) in the quarter ended March 31, 2006. Grace recognized a \$0.6 million decrease and a \$0.4 million increase in the fair value of the stock appreciation rights in the quarters ended June 30, 2006 and September 30, 2006, respectively. The cumulative effect of this new rule was \$1.4 million.

at the beginning of the first quarter of 2006. Grace has not granted equity options or rights while in Chapter 11.

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs* an Amendment of ARB No. 43, Chapter 4, to provide clarification that abnormal amounts of idle facility expense, freight, handling costs, and wasted material be recognized as current-period costs. In addition, this standard requires that the allocation of fixed production overheads to the costs of inventory be based on the normal capacity of the production facilities. Grace adopted this standard in 2006 and it has not had a material impact on Grace's Consolidated Financial Statements.

2. Chapter 11-Related Information

Official Parties to Grace's Chapter 11 Proceedings Three creditors' committees, two representing asbestos claimants and the third representing other unsecured creditors, and a committee representing shareholders, have been appointed in the Chapter 11 Cases. These committees, and a legal representative of future asbestos claimants, have the right to be heard on all matters that come before the Bankruptcy Court and are likely to play important roles in the Chapter 11 Cases. The Debtors are required to bear certain costs and expenses of the committees and of the representative of future asbestos claimants, including those of their counsel and financial advisors.

Plan of Reorganization On November 13, 2004 Grace filed a plan of reorganization, as well as several associated documents, including a disclosure statement, with the Bankruptcy Court. On January 13, 2005, Grace filed an amended plan of reorganization (the *Plan*) and related documents to address certain objections of creditors and other interested parties. The Plan is supported by committees representing general unsecured creditors and equity holders, but is not supported by committees representing asbestos personal injury claimants and asbestos property damage claimants or the representative of future asbestos claimants.

Under the terms of the Plan, a trust would be established under Section 524(g) of the Bankruptcy Code to which all pending and future asbestos-related claims would be channeled for resolution. Grace has requested that the Bankruptcy Court conduct an estimation hearing to, among other things, determine the amount that would need to be paid into the trust on the effective date of the Plan to satisfy the estimated liability for all classes of asbestos claimants and trust administration costs and expenses over time. The Plan provides that Grace's asbestos-related liabilities would be satisfied using cash and securities from Grace and third parties.

The Plan will become effective only after a vote of eligible creditors and with the approval of the Bankruptcy Court and the U.S. District Court for the District of Delaware. Votes on the Plan may not be solicited until the Bankruptcy Court approves the disclosure statement. The Bankruptcy Court has currently deferred consideration of the disclosure statement and Plan until after completion of estimation hearings on the amount of Grace's asbestos-related liability. The Debtors have received extensions of their exclusive right to propose a plan of reorganization through July 23, 2007. The asbestos claimants' committees and the representative of future asbestos claimants have appealed the latest extension of exclusivity to the U.S. District Court for the District of Delaware.

Under the terms of the Plan, claims would be satisfied under the Chapter 11 Cases as follows:

Asbestos-Related Claims and Costs

A trust would be established under Section 524(g) of the Bankruptcy Code to which all pending and future asbestos-related claims would be channeled for resolution. The trust would utilize specified trust distribution procedures to satisfy the following allowed asbestos-related claims and costs:

1. *Personal injury claims that meet specified exposure and medical criteria (Personal Injury Symptomatic Eligible or PI-SE Claims)* In order to qualify for this class, claimants would have to prove that their health is impaired from meaningful exposure to asbestos-containing products formerly manufactured by Grace.

2. *Personal injury claims that do not meet the exposure and medical criteria necessary to qualify as PI-SE Claims (Personal Injury-Asymptomatic and Other or PI-AO Claims)* This class would contain all asbestos-related personal injury claims against Grace that do not meet the specific requirements to be PI-SE Claims, but do meet certain other specified exposure and medical criteria.

I-9

3. *Property damage claims, including claims related to ZAI (PD Claims)* In order to qualify for this class, claimants would have to prove Grace liability for loss of property value or remediation costs related to products formerly manufactured by Grace that claimants allege contained asbestos.

4. *Trust administration costs and legal expenses*

The pending asbestos-related legal proceedings are described in **Asbestos-Related Litigation** (see Note 3). The claims arising from such proceedings would be subject to this classification process as part of the Plan.

The Bankruptcy Court has entered separate case management orders for estimating liability for pending and future personal injury claims and adjudicating pending property damage claims, excluding ZAI claims. Trial dates for estimating liability for personal injury claims have been scheduled for June 2007. Hearings for the adjudication of various issues regarding property damage claims are currently scheduled to take place during the first and second quarters of 2007. The Debtors expect that the estimated liability will provide the basis for determining the Funding Amount to be paid into the trust on the effective date of the Plan.

Asbestos personal injury claimants, including both PI-SE and PI-AO claims, would have the option either to litigate their claims against the trust in federal court in Delaware or, if they meet specified eligibility criteria, accept a settlement amount based on the severity of their condition. Asbestos property damage claimants would be required to litigate their claims against the trust in federal court in Delaware. The Plan provides that, as a condition precedent to confirmation, the maximum estimated aggregate funding amount for all asbestos-related liabilities (PI-SE, PI-AO and PD including ZAI) and trust administration costs and expenses as determined by the Bankruptcy Court cannot exceed \$1,613 million, which Grace believes would fund over \$2 billion in claims, costs and expenses over time.

The PI-SE Claims, the PD Claims and the related trust administration costs and expenses would be funded with (1) a payment of \$512.5 million in cash (plus interest at 5.5% compounded annually from December 21, 2002) and nine million shares of common stock of Sealed Air Corporation (Sealed Air) to be made directly by Cryovac, Inc., a wholly owned subsidiary of Sealed Air (Cryovac), to the asbestos trust pursuant to the terms of a settlement agreement resolving asbestos-related, successor liability and fraudulent transfer claims against Sealed Air and Cryovac and (2) Grace common stock. The number of shares of Grace common stock required to satisfy these claims will depend on the price of Grace common stock on the effective date of the Plan, liability measures approved by the Bankruptcy Court, and the value of the Sealed Air settlement, which changes daily with the accrual of interest and the trading value of Sealed Air common stock. The Sealed Air settlement agreement has been approved by the Bankruptcy Court, but remains subject to the fulfillment of specified conditions.

The PI-AO Claims would be funded with warrants exercisable for that number of shares of Grace common stock which, when added to the shares issued directly to the trust on the effective date of the Plan, would represent 50.1% of Grace's voting securities. If the common stock issuable upon exercise of the warrants is insufficient to pay all PI-AO Claims (the liability for which is uncapped under the Plan), then Grace would pay any additional liabilities in cash.

The amounts to fund PI-SE Claims, PD Claims and the expense of trust administration would be capped at the amount determined by the Bankruptcy Court. Amounts required to fund PI-AO Claims would not be capped, so if the amount funded in respect thereof later proved to be inadequate, Grace would be responsible for contributing additional funds into the asbestos trust to satisfy PI-AO Claims. Because of the number and nature of the uncertainties involved, Grace is unable to determine the extent to which, if any, the liability for PI-AO claims may exceed the amount funded into the trust in respect thereof.

Other Claims

The Plan provides that all allowed administrative or priority claims would be paid 100% in cash and all general unsecured claims, other than those covered by the asbestos trust, would be paid 85% in cash and 15% in Grace common stock. Grace estimates that claims with a recorded value of approximately \$1,227 million, including interest accrued through September 30, 2006, would be satisfied in this manner at the effective date of the Plan. Grace would finance these payments with cash on hand, cash from Fresenius Medical Care Holdings, Inc. (Fresenius) paid in settlement of asbestos and other Grace-related claims, new

Grace debt, and Grace common stock. Grace would satisfy other non-asbestos related liabilities and claims (primarily certain environmental, tax, pension and retirement medical obligations) as they become due and payable over time using cash flow from operations, insurance proceeds from policies and settlement agreements covering asbestos-related liabilities, and new credit facilities. Proceeds from available product liability insurance applicable to asbestos-related claims would supplement operating cash flow to service new debt and liabilities not paid on the effective date of the Plan.

Effect on Grace Common Stock

The Plan provides that Grace common stock will remain outstanding at the effective date of the Plan, but that the interests of existing shareholders would be subject to dilution by additional shares of common stock issued under the Plan. In addition, in order to preserve significant tax benefits from net operating loss carryforwards (NOLs) and certain future deductions, which are subject to elimination or limitation in the event of a change in control (as defined by the Internal Revenue Code) of Grace, the Plan places restrictions on the purchase of Grace common stock. The restrictions would prohibit (without the consent of Grace), for a period of three years after the effective date of the Plan, a person or entity from acquiring more than 4.75% of the outstanding Grace common stock or, for those persons already holding more than 4.75%, prohibit them from increasing or decreasing their holdings. The Bankruptcy Court has also approved the trading restrictions described above, excluding the restriction on sales, until the effective date of the Plan.

Grace intends to address all pending and future asbestos-related claims and all other pre-petition claims as outlined in the Plan. However, Grace may not be successful in obtaining approval of the Plan by the Bankruptcy Court and other interested parties. For example, the asbestos creditors committees and representative of future asbestos claimants have challenged the confirmability of the Plan, arguing that the Plan impairs the rights of asbestos creditors and impermissibly denies them voting rights, and have asserted that Grace's asbestos-related liabilities exceed the fair value of Grace's assets. As a result of these challenges and other Bankruptcy Court rulings, a materially different plan of reorganization may ultimately be approved and, under the ultimate plan of reorganization, the interests of the Company's shareholders could be substantially diluted or cancelled. The value of Grace common stock following a plan of reorganization, and the extent of any recovery by non-asbestos-related creditors, will depend principally on the allowed value of Grace's asbestos-related claims as determined by the Bankruptcy Court.

Claims Filings The Bankruptcy Court established a bar date of March 31, 2003 for claims of general unsecured creditors, asbestos-related property damage claims (other than ZAI claims) and medical monitoring claims related to asbestos. The bar date did not apply to asbestos-related personal injury claims or claims related to ZAI, which will be dealt with separately.

Approximately 14,900 proofs of claim were filed by the March 31, 2003 bar date. Of these claims, approximately 9,400 were non-asbestos related, approximately 4,300 were for asbestos-related property damage, and approximately 1,000 were for medical monitoring. The medical monitoring claims were made by individuals who allege exposure to asbestos through Grace's products or operations. These claims, if sustained, would require Grace to fund ongoing health monitoring costs for qualified claimants. In addition, approximately 800 proofs of claim were filed after the bar date.

Approximately 7,000 of the non-asbestos related claims involve claims by employees or former employees for future retirement benefits such as pension and retiree medical coverage. Grace views most of these claims as contingent and has proposed a plan of reorganization that would retain such benefits. The other non-asbestos related claims include claims for payment of goods and services, taxes, product warranties, principal and interest under pre-petition credit facilities, amounts due under leases and other contracts, leases and other executory contracts rejected in the Bankruptcy Court, environmental remediation, indemnification or contribution to actual or potential co-defendants in asbestos-related and other litigation, pending non-asbestos-related litigation, and non-asbestos-related personal injury.

The Debtors have analyzed the claims as filed and have found that many are duplicates, represent the same claim filed against more than one of the Debtors, lack any supporting documentation, or provide insufficient supporting documentation. As of September 30, 2006, the Debtors had filed objections to approximately 5,500 claims (approximately 100 of which were subsequently withdrawn), approximately 3,950 of which were

asbestos property damage claims. Of the 5,400 claims, approximately 2,300 have been expunged, approximately 250 have been resolved, approximately 2,150 have been withdrawn by claimants, and the remaining approximately 700 will be addressed through the claims objection process and the dispute resolution procedures approved by the Bankruptcy Court.

Grace believes that its recorded liabilities for claims subject to the bar date represent a reasonable estimate of the ultimate allowable amount for claims that are not in dispute or have been submitted with sufficient information to both evaluate the merit and estimate the value of the claim. The asbestos-related claims are considered as part of Grace's overall asbestos liability and are being accounted for in accordance with the conditions precedent under the Plan, as described in **Accounting Impact** below. As claims are resolved, or where better information becomes available and is evaluated, Grace will make adjustments to the liabilities recorded in its financial statements as appropriate. Any such adjustments could be material to its consolidated financial position and results of operations.

Litigation Proceedings in Bankruptcy Court In September 2000, Grace was named in a purported class action lawsuit filed in California Superior Court for the County of San Francisco, alleging that the 1996 reorganization involving a predecessor of Grace and Fresenius AG and the 1998 reorganization involving a predecessor of Grace and Sealed Air were fraudulent transfers. The Bankruptcy Court authorized the Official Committee of Asbestos Personal Injury Claimants and the Official Committee of Asbestos Property Damage Claimants to proceed with claims against Fresenius and Sealed Air and Cryovac on behalf of the Debtors' bankruptcy estate.

On November 29, 2002, Sealed Air (and Cryovac) and Fresenius each announced that they had reached agreements in principle with such Committees to settle asbestos, successor liability and fraudulent transfer claims related to such transactions (the "litigation settlement agreements"). Under the terms of the Fresenius settlement, subject to the fulfillment of certain conditions, Fresenius would pay \$115.0 million to the Debtors' estate as directed by the Bankruptcy Court upon confirmation of the Debtors' plan of reorganization. In July 2003, the Fresenius settlement was approved by the Bankruptcy Court. Under the terms of the Sealed Air settlement, subject to the fulfillment of certain conditions, Cryovac would make a payment of \$512.5 million (plus interest at 5.5% compounded annually, commencing on December 21, 2002) and nine million shares of Sealed Air common stock (collectively valued at \$1,114.5 million as of September 30, 2006), as directed by the Bankruptcy Court upon confirmation of the Debtors' plan of reorganization. In June 2005, the Sealed Air settlement was approved by the Bankruptcy Court.

Debt Capital All of the Debtors' pre-petition debt is in default due to the Filing. The accompanying Consolidated Balance Sheets reflect the classification of the Debtors' pre-petition debt within liabilities subject to compromise.

The Debtors have entered into a debtor-in-possession post-petition loan and security agreement with Bank of America, N.A. (the "DIP facility") in the aggregate amount of \$250 million. The term of the DIP facility expires on April 1, 2008.

Accounting Impact The accompanying Consolidated Financial Statements have been prepared in accordance with Statement of Position 90-7 ("SOP 90-7"), Financial Reporting by Entities in Reorganization Under the Bankruptcy Code, promulgated by the American Institute of Certified Public Accountants. SOP 90-7 requires that financial statements of debtors-in-possession be prepared on a going concern basis, which contemplates continuity of operations, realization of assets and liquidation of liabilities in the ordinary course of business. However, as a result of the Filing, the realization of certain of the Debtors' assets and the liquidation of certain of the Debtors' liabilities are subject to significant uncertainty. While operating as debtors-in-possession, the Debtors may sell or otherwise dispose of assets and liquidate or settle liabilities for amounts other than those reflected in the Consolidated Financial Statements. Further, the ultimate plan of reorganization could materially change the amounts and classifications reported in the Consolidated Financial Statements.

Pursuant to SOP 90-7, Grace's pre-petition liabilities that are subject to compromise are required to be reported separately on the balance sheet at an estimate of the amount that will ultimately be allowed by the Bankruptcy Court. As of September 30, 2006, such pre-petition liabilities include fixed obligations (such as debt and contractual commitments), as well as estimates of costs related to contingent liabilities (such as

asbestos-related litigation, environmental remediation, and other claims). Obligations of Grace subsidiaries not covered by the Filing continue to be classified on the Consolidated Balance Sheets based upon maturity dates or the expected dates of payment. SOP 90-7 also requires separate reporting of certain expenses, realized gains and losses, and provisions for losses related to the Filing as reorganization items. Grace presents reorganization items as Chapter 11 expenses, net, a separate caption in its Consolidated Statements of Operations.

Grace has not recorded the benefit of any assets that may be available to fund asbestos-related and other liabilities under the litigation settlements with Sealed Air and Fresenius, as such agreements are subject to conditions which, although expected to be met, have not been satisfied and confirmed by the Bankruptcy Court. The value available under these litigation settlement agreements as measured at September 30, 2006, was \$1,229.5 million comprised of \$115.0 million in cash from Fresenius and \$1,114.5 million in cash and stock from Cryovac. Payments under the Sealed Air settlement will be made directly to the asbestos trust by Cryovac, and will be accounted for as a satisfaction of a portion of Grace's recorded asbestos-related liability and a credit to shareholder's equity.

Grace's Consolidated Balance Sheets separately identify the liabilities that are subject to compromise as a result of the Chapter 11 proceedings. In Grace's case, liabilities subject to compromise represent pre-petition liabilities as determined under U.S. generally accepted accounting principles. Changes to the recorded amount of such liabilities will be based on developments in the Chapter 11 Cases and management's assessment of the claim amounts that will ultimately be allowed by the Bankruptcy Court. Changes to pre-petition liabilities subsequent to the Filing Date reflect: 1) cash payments under approved court orders; 2) the terms of Grace's proposed plan of reorganization, as discussed above, including the accrual of interest on pre-petition debt and other fixed obligations; 3) accruals for employee-related programs; and 4) changes in estimates related to other pre-petition contingent liabilities.

Components of liabilities subject to compromise are as follows:

<i>(In millions)</i>	September 30, 2006	December 31, 2005
Debt, pre-petition plus accrued interest	\$ 725.3	\$ 684.7
Asbestos-related liability	1,700.0	1,700.0
Income taxes	133.7	136.5
Environmental remediation	363.2	342.0
Postretirement benefits other than pension	86.4	101.3
Unfunded special pension arrangements	89.0	86.4
Retained obligations of divested businesses	14.8	18.1
Accounts payable	31.7	31.5
Other accrued liabilities	67.5	54.6
Total Liabilities Subject to Compromise	\$ 3,211.6	\$ 3,155.1

Note that the unfunded special pension arrangements reflected above exclude non-U.S. plans and qualified U.S. plans that became underfunded subsequent to the Filing. Contributions to qualified U.S. plans are subject to Bankruptcy Court approval.

Change in Liabilities Subject to Compromise The following chart is a reconciliation of the changes in pre-filing date liability balances for the period from the Filing Date through September 30, 2006.

<i>(In millions)</i>	Cumulative Since Filing
Balance, Filing Date April 2, 2001	\$ 2,366.0
Cash disbursements and/or reclassifications under Bankruptcy Court orders:	
Freight and distribution order	(5.7)
Trade accounts payable order	(9.1)
Settlements of noncore contingencies	(119.7)
Other court orders including employee wages and benefits, sales and use tax, and customer programs	(325.2)
Expense/(income) items:	
Interest on pre-petition liabilities	256.7
Employee-related accruals	36.7
Change in estimate of asbestos-related contingencies	744.8
Change in estimate of environmental contingencies	295.6
Change in estimate of income tax contingencies	(2.8)

Edgar Filing: W R GRACE & CO - Form 10-Q

Balance sheet reclassifications	(25.7)
Balance, end of period	\$ 3,211.6

Additional liabilities subject to compromise may arise due to the rejection of executory contracts or unexpired leases, or as a result of the Bankruptcy Court's allowance of contingent or disputed claims.

I-13

Beginning January 1, 2006, Grace agreed to pay interest on pre-petition bank debt at the prime rate quoted by Bloomberg, adjusted for periodic changes, and compounded quarterly. The effective rates for the three months and nine months ended September 30, 2006 were 8.25% and 7.86%, respectively. From the Filing Date through December 31, 2005, Grace accrued interest on pre-petition bank debt at a negotiated fixed annual rate of 6.09%, compounded quarterly.

Chapter 11 Expenses

(In millions)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005

In addition to Grace's financial reporting obligations as prescribed by the U.S. Securities and Exchange Commission, the Debtors are also required, under the rules and regulations of the Bankruptcy Code, to periodically file certain statements and schedules and a monthly operating report with the Bankruptcy Court. This information is available to the public through the Bankruptcy Court. This information is prepared in a format that may not be comparable to information in Grace's quarterly and annual financial statements as filed with the SEC. The monthly operating reports are not audited, do not purport to represent the financial position or results of operations of Grace on a consolidated basis, and should not be relied on for such purposes.

I-15

3. Asbestos-Related Litigation

Grace is a defendant in property damage and personal injury lawsuits relating to previously sold asbestos-containing products. As of the Filing Date, Grace was a defendant in 65,656 asbestos-related lawsuits, 17 involving claims for property damage (one of which has since been dismissed), and the remainder involving 129,191 claims for personal injury. Due to the Filing, holders of asbestos-related claims are stayed from continuing to prosecute pending litigation and from commencing new lawsuits against the Debtors. Separate creditors' committees representing the interests of property damage and personal injury claimants, and a legal representative of future personal injury claimants, have been appointed in the Chapter 11 Cases. Grace's obligations with respect to present and future claims will be determined through the Chapter 11 process.

Property Damage Litigation The plaintiffs in asbestos property damage lawsuits generally seek to have the defendants pay for the cost of removing, containing or repairing the asbestos-containing materials in the affected buildings. Each property damage case is unique in that the age, type, size and use of the building, and the difficulty of asbestos abatement, if necessary, vary from structure to structure. Information regarding product identification, the amount of product in the building, the age, type, size and use of the building, the legal status of the claimant, the jurisdictional history of prior cases and the court in which the case is pending has provided meaningful guidance as to the range of potential costs.

Out of 380 asbestos property damage cases (which involved thousands of buildings) filed prior to the Filing Date, 140 were dismissed without payment of any damages or settlement amounts; judgments after trial were entered in favor of Grace in nine cases (excluding cases settled following appeals of judgments in favor of Grace); judgments after trial were entered in favor of the plaintiffs in eight cases (one of which is on appeal) for a total of \$86.1 million; 207 property damage cases were settled for a total of \$696.8 million; and 16 cases remain outstanding (including the one on appeal). Of the 16 remaining cases, eight relate to ZAI and eight relate to a number of former asbestos-containing products (two of which also are alleged to involve ZAI).

Approximately 4,300 additional property damage claims were filed prior to the March 31, 2003 claims bar date established by the Bankruptcy Court. (The bar date did not apply to ZAI claims.) Such claims were reviewed in detail by Grace, categorized into claims with sufficient information to be evaluated or claims that require additional information and, where sufficient information existed, the estimated cost of resolution was considered as part of Grace's recorded asbestos-related liability. (Approximately 200 claims did not contain sufficient information to permit an evaluation.) Grace has objected to virtually all property damage claims on a number of different bases, including: no authorization to file a claim; the claim was previously settled or adjudicated; no or insufficient documentation; failure to identify a Grace product; the expiration of the applicable statute of limitations and/or statute of repose, and/or laches; and a defense that the product in place is not hazardous. As of October 31, 2006, following the reclassification, withdrawal or expungement of claims, approximately 640 property damage claims remain outstanding.

Eight of the ZAI cases were filed as purported class action lawsuits in 2000 and 2001. In addition, ten lawsuits were filed as purported class actions in 2004 and 2005 with respect to persons and homes in Canada. These cases seek damages and equitable relief, including the removal, replacement and/or disposal of all such insulation. The plaintiffs assert that this product is in millions of homes and that the cost of removal could be several thousand dollars per home. As a result of the Filing, the eight U.S. cases have been transferred to the Bankruptcy Court. Based on Grace's investigation of the claims described in these lawsuits, and testing and analysis of this product by Grace and others, Grace believes that the product was and continues to be safe for its intended purpose and poses little or no threat to human health. The plaintiffs in the ZAI lawsuits (and the U.S. government in the Montana criminal proceeding described in Note 12) dispute Grace's position on the safety of ZAI. In July 2002, the Bankruptcy Court approved special counsel to represent, at the Debtors' expense, the ZAI claimants in a proceeding to determine certain threshold scientific issues regarding ZAI. On October 18, 2004, the Bankruptcy Court held a hearing on motions filed by the parties to address a number of important legal and factual issues regarding the ZAI claims, and has taken the motions under advisement. No decision has yet been rendered. Grace's recorded asbestos-related liability at September 30, 2006 assumes the risk of loss from ZAI litigation is not probable. If Grace's view as to risk of loss were not

sustained, management believes the cost to resolve the matter would be material.

Personal Injury Litigation Asbestos personal injury claimants allege adverse health effects from exposure to asbestos-containing products formerly manufactured by Grace. Claims are generally similar to each other, differing primarily in the type of asbestos-related illness allegedly suffered by the plaintiff. Grace's cost to resolve such claims has been influenced by numerous variables, including the solvency of other former producers of asbestos containing products, cross-claims by co-defendants, the rate at which new claims are filed, the jurisdiction in which the claims are filed, and the defense and disposition costs associated with these claims.

Cumulatively through the Filing Date, 16,354 asbestos personal injury lawsuits involving approximately 35,720 claims were dismissed without payment of any damages or settlement amounts (primarily on the basis that Grace products were not involved) and approximately 55,489 lawsuits involving approximately 163,698 claims were disposed of (through settlements and judgments) for a total of \$645.6 million. As of the Filing Date, 129,191 claims for personal injury were pending against Grace. Grace believes that a substantial number of additional personal injury claims would have been received between the Filing Date and September 30, 2006 had such claims not been stayed by the Bankruptcy Court.

Asbestos-Related Liability The total recorded asbestos-related liability balance as of September 30, 2006 and December 31, 2005 was \$1,700.0 million and is included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets. Grace adjusted its asbestos-related liability in the fourth quarter of 2004 based on its proposed plan of reorganization as discussed in Note 2. The amount recorded at September 30, 2006 includes the \$1,613 million maximum amount reflected as a condition precedent to the Plan and \$87 million related to pre-Chapter 11 contractual settlements and judgments included in general unsecured claims.

Under the Plan, Grace is requesting that the Bankruptcy Court determine the aggregate dollar amount, on a net present value basis, that must be funded on the effective date of the Plan into an asbestos trust (established under Section 524(g) of the Bankruptcy Code) to pay all allowed pending and future asbestos-related personal injury and property damage claims (including ZAI) and related trust administration costs and expenses on the later of the effective date of the Plan or when allowed (the Funding Amount). It is a condition to confirmation of the Plan that the Bankruptcy Court shall conclude that the Funding Amount is not greater than \$1,613 million. This amount, which should be sufficient to fund over \$2 billion in pending and future claims, is based in part on Grace's evaluation of (1) existing but unresolved personal injury and property damage claims, (2) actuarially-based estimates of future personal injury claims, (3) the risk of loss from ZAI litigation, (4) proposed claim payments reflected in the Plan, and (5) the cost of the trust administration and litigation. This amount may not be consistent with what the Bankruptcy Court may conclude would be a sufficient Funding Amount.

The Bankruptcy Court has entered separate case management orders for estimating liability for pending and future personal injury claims and adjudicating pending property damage claims, excluding ZAI claims. The Debtors expect that the estimated liability will provide the basis for determining the Funding Amount to be paid into the trust on the effective date of the Plan.

For personal injury claims, the Bankruptcy Court has ordered that all claimants with claims pending as of the Filing Date (other than settled but unpaid claims) must complete detailed questionnaires providing information on, among other things, their medical condition, including diagnostic support, exposure to Grace and non-Grace asbestos-containing products, employment history, and pending lawsuits against other companies.

Approximately 60,000 questionnaires were returned in response to the July 12, 2006 deadline. Grace has analyzed the questionnaires and believes that a substantial percentage of the submitted questionnaires provide insufficient or incomplete responses. In response to a request by Grace to compel the asbestos personal injury claimants to cure these deficiencies, the Bankruptcy Court has issued a ruling clarifying the information required of claimants submitting questionnaire responses and allowing claimants additional time to supplement their responses.

In August 2006, the Bankruptcy Court established bar dates for filing asbestos personal injury claims pending as of the Filing Date. Claimants asserting settled but unpaid pre-petition personal injury claims were required to file proofs of claim by

October 16, 2006. Approximately 35,000 of such claims were submitted. Non-settled pre-petition personal injury proofs of claim must be filed by November 15, 2006.

Grace expects the estimation process for personal injury claims will include the compilation of data from the questionnaires, review and analysis of such data by experts, the preparation of expert reports, including estimates of the number of personal injury claims expected to be filed in the future, and depositions of witnesses and other pretrial discovery proceedings. Grace expects the process to conclude in an estimation hearing in mid-2007.

For property damage claims, the case management order provides that estimation will be preceded by litigation on certain common threshold issues affecting a substantial majority of claims. Such litigation will consist of determining, among other things, (1) whether asbestos-containing products formerly manufactured by Grace are hazardous in place, (2) the date by which building owners knew or should have known of the reported hazards of asbestos-containing materials in their buildings, which would provide the basis for a statute of limitations defense, and (3) the evidentiary admissibility of certain asbestos testing methodologies. During the period preceding the estimation hearing, Grace will also ask the Bankruptcy Court to rule on Grace's specific objections to individual claims and groups of claims. Claims not resolved or expunged through the common issue litigation or the objection process are expected to be the subject of an estimation hearing that is currently scheduled to take place during the second quarter of 2007.

The Funding Amount will be primarily a function of the number of estimated allowed property damage and personal injury claims, and the amount payable per claim. Through the estimation process, Grace will seek to demonstrate that most claims have no value because they fail to establish any material property damage, health impairment or significant occupational exposure to asbestos from Grace's operations or products. If the Bankruptcy Court agrees with Grace's position on the number of, and the amounts to be paid in respect of, allowed personal injury and property damage claims, then Grace believes that the Funding Amount could be less than \$1,613 million. However, this outcome is highly uncertain and will depend on a number of Bankruptcy Court rulings favorable to Grace's position.

Conversely, the asbestos claimants committees and the representative of future asbestos claimants continue to assert that Grace's asbestos-related liabilities are substantially higher than \$1,613 million, and in fact are in excess of Grace's business value. If the Court accepts the position of the asbestos claimants committees, then any plan of reorganization likely would result in the loss of all or substantially all equity value by current shareholders. Therefore, due to the significant uncertainties of this process and asbestos litigation generally, Grace is not able to estimate a probable Funding Amount that would be accepted by the Bankruptcy Court.

However, as Grace is willing to proceed with confirmation of the Plan with a Funding Amount of up to \$1,613 million (assuming that other conditions precedent to confirmation of the Plan are satisfied, including the availability of the payment from Cryovac directly to the asbestos trust under the settlement agreement described in Note 2), during the fourth quarter of 2004, Grace accrued a charge of \$714.8 million to increase its recorded asbestos-related liability to reflect the maximum amount allowed as a condition precedent under the Plan. This amount, plus \$87.0 million for pre-Chapter 11 contractual settlements and judgments, brings the total recorded asbestos-related liability as of September 30, 2006 and December 31, 2005 to \$1,700 million. Any differences between the Plan as filed and as approved for confirmation could fundamentally change the accounting measurement of Grace's asbestos-related liability and that change could be material.

Insurance Rights Grace previously purchased insurance policies that provide coverage for years 1962 to 1985 with respect to asbestos-related lawsuits and claims. Since 1985, insurance coverage for asbestos-related liabilities has not been commercially available to Grace.

With one exception, coverage disputes regarding Grace's primary insurance policies have been settled, and the settlement amounts paid in full. Grace's excess coverage is for loss above certain levels. The levels vary from policy to policy, creating layers of excess coverage, some of which are triggered before others. As of September 30, 2006, after subtracting previous reimbursements by insurers and allowing for discounts pursuant to certain settlement agreements, there remains approximately \$959 million of excess coverage from approximately 54 presently solvent insurers.

Grace has entered into settlement agreements with various excess insurance carriers. These settlements involve amounts paid and to be paid to Grace. The unpaid maximum aggregate amount for settled insurers available under these settlement agreements is approximately \$476 million. With respect to asbestos-related personal injury claims, the settlement agreements generally require that the claims be spread over the claimant's exposure period and that each insurer pay a pro rata portion of each claim based on the amount of coverage provided during each year of the total exposure period.

Presently, Grace has no agreements in place with insurers with respect to approximately \$483 million of excess coverage, which is at layers of coverage that have not yet been triggered, but certain layers would be triggered if the Plan were approved at the recorded asbestos-related liability of \$1,700 million. Grace believes that any allowed ZAI claims also would be covered under the settlement agreements and unsettled policies discussed above to the extent they relate to installations of ZAI occurring after July 1, 1973.

In addition to the approximately \$959 million of excess coverage with solvent insurers, Grace has approximately \$318 million of excess coverage with insolvent or non-paying insurance carriers. Non-paying carriers are those that, although technically solvent, are not currently meeting their obligations to pay claims. Grace has filed and continues to file claims in the insolvency proceedings of insolvent carriers. Grace is currently receiving distributions from some of these insolvent carriers and expects to receive distributions in the future. Settlement amounts are recorded as income when received.

Grace estimates that, assuming an ultimate payout of asbestos-related claims equal to the recorded liability of \$1,700 million, it should be entitled to approximately \$500 million, on a net present value basis, of insurance recovery.

4. Acquisitions and Joint Ventures

In June 2006, Grace acquired the custom catalyst manufacturing assets of Basell, USA, as well as Basell's components business for cash consideration of \$20.0 million. The manufacturing assets and the results of operations of the acquired business have been included as part of the Grace Davison operating segment since the date of acquisition.

During the first nine months of 2005, Grace completed two acquisitions for a total cash cost of \$2.5 million as follows:

- In February 2005, Grace acquired certain assets of Midland Dexter Venezuela, S.A. (Midevensa). Midevensa supplies coatings and sealants for rigid packaging in the local and export markets of Latin America.
- In March 2005, Grace acquired certain assets relating to the concrete admixtures business of Perstorp Peramin AB (Perstorp) located in Sweden. Perstorp supplies specialty chemicals and materials to the construction industry in Sweden and other Northern European countries.

5. Other (Income) Expense

Components of other (income) expense are as follows:

Other (Income) Expense (In millions)	Three Months Ended September 30, 2006		Nine Months Ended September 30, 2006	
	2006	2005	2006	2005
Income from insurance settlements	\$ (0.9)	\$ (4.2)	\$ (7.8)	\$ (24.5)
COLI income, net	(0.5)	0.3	(2.2)	(1.6)
Interest income	(1.7)	(0.8)	(4.7)	(2.4)
Net (gain) loss on sales of investments and disposals of assets	0.2	1.4	(2.6)	0.9
Currency translation intercompany loan	(2.4)	1.1	(16.1)	32.5
Value of currency contracts	1.6	(1.1)	15.1	(32.3)

Edgar Filing: W R GRACE & CO - Form 10-Q

Other currency transaction effects	(0.2)	0.3	2.5	0.8
Other miscellaneous income	(2.4)	(1.4)	(6.3)	(7.8)
Total other (income) expense	\$ (6.3)	\$ (4.4)	\$ (22.1)	\$ (34.4)

Grace accounts for currency fluctuations on an intercompany loan between its subsidiaries in the United States and Germany as a component of operating results instead of as a component of other comprehensive income because Grace has determined that the loan is not part of its permanent capital structure in Germany.

I-19

6. Other Balance Sheet Accounts

<i>(In millions)</i>	September 30, 2006	December 31, 2005
Inventories		
Raw materials	\$ 67.1	\$ 67.3
In process	40.0	32.8
Finished products	189.7	210.8
General merchandise	33.0	33.2
Less: Adjustment of certain inventories to a last-in/first-out (LIFO) basis	(42.4)	(65.8)
	\$ 287.4	\$ 278.3
Other Assets		
Deferred pension costs	\$ 119.6	\$ 108.8
Deferred charges	11.9	20.8
Long-term receivables, less allowances of \$0.8 (2005 \$0.7)	7.4	7.6
Patents, licenses and other intangible assets, net	86.4	87.6
Pension-unamortized prior service cost	12.7	12.7
Investments in unconsolidated affiliates and other	0.6	0.6
	\$ 238.6	\$ 238.1
Other Current Liabilities		
Accrued compensation	\$ 82.0	\$ 70.4
Deferred tax liability	0.9	0.8
Customer volume rebates	36.2	35.4
Accrued commissions	12.7	11.1
Accrued reorganization fees	23.8	18.0
Other accrued liabilities	66.8	62.2
	\$ 222.4	\$ 197.9

During the third quarter of 2006, a reduction in U.S. LIFO inventory levels resulted in costs pertaining to prior years being reflected in cost of sales for the three months ended September 30, 2006. This had the effect of increasing pre-tax income by \$1.3 million compared to current cost.

Accrued compensation in the table above includes salaries and wages as well as estimated amounts due under the annual and long-term incentive programs. Other liabilities in the Consolidated Balance Sheet includes amounts expected to be paid under these programs after October 1, 2007.

7. Life Insurance

Grace is the beneficiary of corporate-owned life insurance (COLI) policies on certain current and former employees with a net cash surrender value of \$86.9 million and \$84.8 million at September 30, 2006 and December 31, 2005, respectively. The policies were acquired to fund various employee benefit programs and other long-term liabilities and are structured to provide cash flow (primarily tax-free) over an extended number of years.

The following tables summarize activity in these policies for the nine months ended September 30, 2006 and 2005, and the components of net cash value at September 30, 2006 and December 31, 2005:

Life Insurance Activity Summary	Nine Months Ended September 30,	
<i>(In millions)</i>	2006	2005
Earnings on policy assets	\$ 3.2	\$ 4.1
Interest on policy loans	(1.0)	(2.5)
Premiums		1.8
Policy loan repayments	0.1	0.5
Proceeds from termination of life insurance policies		(14.8)
Net investing activity	(0.2)	(2.2)
Change in net cash value	\$ 2.1	\$ (13.1)
Tax-free proceeds received	\$ 0.4	\$ 2.2

Components of Net Cash Value

<i>(In millions)</i>	September 30, 2006	December 31, 2005
Gross cash value	\$ 112.0	\$ 109.2
Principal policy loans	(23.6)	(23.7)
Accrued interest policy loans	(1.5)	(0.7)
Net cash value	\$ 86.9	\$ 84.8
Insurance benefits in force	\$ 196.9	\$ 196.3

Grace's financial statements display income statement activity and balance sheet amounts on a net basis, reflecting the contractual interdependency of policy assets and liabilities.

In January 2005, Grace surrendered and terminated most of its other COLI policies and received approximately \$14.8 million of net cash value from the termination.

8. Debt**Components of Debt**

<i>(In millions)</i>	September 30, 2006	December 31, 2005
Debt payable within one year		
Other short-term borrowings	\$ 3.2	\$ 2.3
Debt payable after one year		
Other long-term borrowings	\$ 0.4	\$ 0.4
Debt Subject to Compromise		
Bank borrowings	\$ 500.0	\$ 500.0
Other borrowings	14.4	14.3
Accrued interest	210.9	170.4
	\$ 725.3	\$ 684.7
Annualized weighted average interest rates on total debt	7.9	% 6.1

In April 2001, the Debtors entered into the DIP facility for a two-year term in the aggregate amount

of \$250 million. The DIP facility is secured by a priority lien on substantially all assets of the Debtors with the exclusion of foreign stock holdings, and bears interest based on the London Interbank Offered Rate (LIBOR). The Debtors have extended the term of the DIP facility through April 1, 2008. Grace had no outstanding borrowings under the DIP facility as of September 30, 2006; however, \$48.7 million of standby letters of credit were issued and outstanding under the facility. The letters of credit, which reduce available funds under the facility, were issued primarily for trade-related matters such as performance bonds, and certain insurance and environmental matters.

9. Shareholders Equity (Deficit)

Under its Certificate of Incorporation, the Company is authorized to issue 300,000,000 shares of common stock, \$0.01 par value. Of the common stock unissued at September 30, 2006, approximately 5,251,838 shares were reserved for issuance pursuant to stock options and other stock incentives. Since the Filing Date, Grace has not granted any stock options.

For additional information, see Notes 15 and 17 to the Consolidated Financial Statements in Grace's 2005 Form 10-K.

10. Earnings (Loss) Per Share

The following table shows a reconciliation of the numerators and denominators used in calculating basic and diluted earnings (loss) per share.

Earnings (Loss) Per Share (In millions, except per share amounts)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Numerators				
Net income (loss)	\$ 18.4	\$ 32.1	\$ 13.3	\$ 67.9
Denominators				
Weighted average common shares - basic calculation	68.3	66.9	67.7	66.8
Dilutive effect of employee stock options	0.2	0.3	0.4	0.5
Weighted average common shares - diluted calculation	68.5	67.2	68.1	67.3
Basic earnings (loss) per share	\$ 0.27	\$ 0.48	\$ 0.20	\$ 1.02
Diluted earnings (loss) per share	\$ 0.27	\$ 0.48	\$ 0.20	\$ 1.01

Excluded from the calculation of diluted earnings (loss) per share were currently outstanding options to purchase 4,677,325 and 4,673,728 shares for the three and nine months ended September 30, 2006, respectively, and 6,397,833 shares for each of the three and nine months ended September 30, 2005, because such shares would have been antidilutive.

11. Comprehensive Income (Loss)

The tables below present the pre-tax, tax and after tax components of Grace's other comprehensive income (loss) for the three months and nine months ended September 30, 2006 and 2005:

Three Months Ended September 30, 2006

(In millions)	Pre-Tax Amount	Tax Expense	After- Tax Amount
Commodity hedging activities	\$ (0.6)	\$ 0.2	\$ (0.4)
Foreign currency translation adjustments	8.3		8.3
Other comprehensive income (loss)	\$ 7.7	\$ 0.2	\$ 7.9

Nine months Ended September 30, 2006

(In millions)	Pre-Tax Amount	Tax Benefit	After- Tax Amount
Commodity hedging activities	\$ (1.0)	\$ 0.3	\$ (0.7)
Foreign currency translation adjustments	22.9		22.9
Other comprehensive income (loss)	\$ 21.9	\$ 0.3	\$ 22.2

Three Months Ended September 30, 2005

Edgar Filing: W R GRACE & CO - Form 10-Q

(In millions)

	Pre-Tax Amount	Tax Benefit	After- Tax Amount
Foreign currency translation adjustments	\$ (0.9)	\$	\$ (0.9)
Other comprehensive income (loss)	\$ (0.9)	\$	\$ (0.9)

Nine months Ended September 30, 2005

(In millions)

	Pre-Tax Amount	Tax Benefit	After- Tax Amount
Foreign currency translation adjustments	\$ (23.3)	\$	\$ (23.3)
Other comprehensive income (loss)	\$ (23.3)	\$	\$ (23.3)

From time to time, Grace enters into derivatives such as forward contracts or option contracts directly with natural gas suppliers, and fixed-rate swaps with financial institutions to mitigate the risk of volatility of natural gas prices in the United States. Under fixed-rate swaps, Grace locks in a fixed rate with a financial institution for future natural gas purchases, purchases its natural gas from a supplier at the prevailing market rate, and settles with the bank for any difference in the rates, thereby swapping a variable rate for a fixed rate. During the first nine months of 2006, Grace purchased forward contracts, swaps and options for

a portion of its expected natural gas requirements. The outstanding swaps and options were treated as effective cash flow hedges for accounting purposes and revalued at the end of each of the first three quarters of 2006, with corresponding adjustments to other comprehensive income (loss).

The following table presents the components of Grace's accumulated other comprehensive income (loss) at September 30, 2006 and December 31, 2005:

Components of Accumulated Other Comprehensive Income (Loss)

<i>(In millions)</i>	September 30, 2006	December 31, 2005
Commodity hedging (net of tax)	\$ (0.7)	\$ ()
Minimum pension liability (net of tax)	(362.7)	(362.7)
Foreign currency translation	(8.3)	(31.2)
Accumulated other comprehensive income (loss)	\$ (371.7)	\$ (393.9)

Grace is a global enterprise, which operates in over 40 countries with local currency generally deemed to be the functional currency for accounting purposes. The foreign currency translation amount represents the adjustments necessary to translate the balance sheets valued in local currencies to the U.S. dollar as of the end of each period presented, and to translate revenues and expenses at average exchange rates for each period presented.

The decline in equity market returns in 2000-2002, coupled with a decline in interest rates from 2000-2004, as well as updated assumptions for expected life-spans and the longevity of Grace's active work force, created a shortfall between the accounting measurement of Grace's obligations under certain of its qualified pension plans for U.S. employees and the market value of dedicated pension assets. This condition required Grace to record a minimum pension liability for these plans equal to the funding shortfall and to offset related deferred costs against shareholders equity (deficit) at December 31, 2005.

12. Commitments and Contingent Liabilities

Asbestos-Related Litigation See Note 3

Environmental Remediation Grace is subject to loss contingencies resulting from extensive and evolving federal, state, local and foreign environmental laws and regulations relating to the generation, storage, handling, discharge and disposition of hazardous wastes and other materials. Grace accrues for anticipated costs associated with investigative and remediation efforts where an assessment has indicated that a probable liability has been incurred and the cost can be reasonably estimated. These accruals do not take into account any discounting for the time value of money.

Grace's environmental liabilities are reassessed whenever circumstances become better defined or remediation efforts and their costs can be better estimated. These liabilities are evaluated based on currently available information, including the progress of remedial investigation at each site, the current status of discussions with regulatory authorities regarding the method and extent of remediation at each site, existing technology, prior experience in contaminated site remediation and the apportionment of costs among potentially responsible parties. Grace expects that the funding of environmental remediation activities will be affected by the Chapter 11 proceedings.

At September 30, 2006, Grace's estimated liability for environmental investigative and remediation costs totaled \$363.2 million, as compared with \$342.0 million at December 31, 2005. The amount is based on funding and/or remediation agreements in place and Grace's best estimate of its cost for sites not subject to a formal remediation plan. Grace's estimated environmental liabilities are included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets.

For the period ended June 30, 2006, Grace recorded pre-tax charges of \$30.0 million for environmental matters. Of the pre-tax charges, \$28.0 million was in connection with a cost recovery lawsuit brought by the U.S. Government and was necessary based on a recent communication from the U.S. Department of Justice delineating asserted reimbursable spending during the 2002 through 2005 period, as described below. The remainder of the pre-tax charges were attributable to the ongoing review of recorded environmental liabilities.

Edgar Filing: W R GRACE & CO - Form 10-Q

Net cash expenditures charged against previously established reserves for the nine months ended September 30, 2006 and 2005 were \$8.7 million and \$26.1 million, respectively. Cash expenditures in 2005 included a settlement payment of \$21.4 million related to a formerly owned site.

I-22

Vermiculite Related Matters

EPA Lawsuit In November 1999, Region 8 of the Environmental Protection Agency (EPA) began an investigation into alleged excessive levels of asbestos-related disease in the Libby population related to Grace 's former mining activities in Libby, Montana. This investigation led the EPA to undertake additional investigative activity and to carry out response actions in and around Libby. On March 30, 2001, the EPA filed a lawsuit in U.S. District Court for the District of Montana, Missoula Division (*United States v. W. R. Grace & Company et al.*) under the Comprehensive Environmental Response, Compensation and Liability Act for the recovery of costs allegedly incurred by the United States in response to the release or threatened release of asbestos in the Libby, Montana area relating to such former mining activities. These costs include cleaning and/or demolition of contaminated buildings, excavation and removal of contaminated soil, health screening of Libby residents and former mine workers, and investigation and monitoring costs. In this action, the EPA also sought a declaration of Grace 's liability that would be binding in future actions to recover further response costs.

In December 2002, the District Court granted the United States ' motion for partial summary judgment on a number of issues that limited Grace 's ability to challenge the EPA 's response actions. In January 2003, a trial was held on the remainder of the issues, which primarily involved the reasonableness and adequacy of documentation of the EPA 's cost recovery claims through December 31, 2001. On August 28, 2003, the District Court issued a ruling in favor of the United States that requires Grace to reimburse the government for \$54.5 million (plus interest) in costs expended through December 2001, and for all appropriate future costs to complete the remediation activities. The Ninth Circuit Court of Appeals upheld the District Court 's rulings. Grace 's petition for the U.S. Supreme Court to hear the case was denied.

Grace 's total estimated liability for vermiculite-related remediation, including the cost of remediation of vermiculite processing sites outside of Libby, at September 30, 2006 and December 31, 2005 was \$255.7 million and \$226.2 million, respectively. The estimate at September 30, 2006 includes \$164.4 million for asserted reimbursable costs through 2005, including the charge taken in the second quarter of 2006. The current estimate does not include the cost to remediate the Grace-owned mine site at Libby or other nearby properties that may require remediation, which costs are not currently estimable. Grace 's estimate of costs is based on U.S. Government spending data through December 31, 2005, public comments regarding the EPA 's spending plans, discussions of spending forecasts with EPA representatives, analysis of other information made available from the EPA, and evaluation of probable remediation costs at vermiculite processing sites. However, the EPA 's cost estimates have increased regularly and substantially over the course of this remediation. Consequently, as the EPA 's spending on these matters increases, Grace 's liability for remediation will increase. Grace has been informed that the U.S. Government is attempting to estimate the future cost of this environmental remediation. This information may require Grace to increase its estimate of liability and the increase could be material.

Montana Criminal Proceeding On February 7, 2005, the United States Department of Justice announced the unsealing of a grand jury indictment against Grace and seven current or former senior level employees (*United States of America v. W. R. Grace & Co. et al*) relating to Grace 's former vermiculite mining and processing activities in Libby, Montana. The indictment accuses the defendants of (1) conspiracy to violate environmental laws and obstruct federal agency proceedings; (2) violations of the federal Clean Air Act; and (3) obstruction of justice.

Grace purchased the Libby mine in 1963 and operated it until 1990; vermiculite processing activities continued until 1992. The grand jury charges that the conspiracy took place from 1976 to 2002. According to the U.S. Department of Justice, Grace could be subject to fines in an amount equal to twice the after-tax profit earned from its Libby operations or twice the alleged loss suffered by victims, plus additional amounts for restitution to victims. The indictment alleges that such after tax profits were \$140 million. Grace has categorically denied any criminal wrongdoing and intends to vigorously defend itself at trial.

In March 2005, the U.S. District Court for the District of Montana entered a scheduling order setting a trial date of September 11, 2006. In July

2006, the Court dismissed a portion of the conspiracy count of a superseding indictment alleging conspiracy to knowingly endanger residents of the Libby area and others in violation of the Clean Air Act. In August 2006, the Court granted a motion by the defendants to exclude as evidence sample results that included minerals that do not constitute asbestos under the Clean Air Act. The Government has appealed these and other rulings to the Ninth Circuit Court of Appeals. As a result of the appeal, the trial has been delayed until September 2007 or later pending resolution of the appeals.

The U.S. Bankruptcy Court previously granted Grace's request to advance legal and defense costs to the employees, subject to a reimbursement obligation if it is later determined that the employees did not meet the standards for indemnification set forth under the appropriate state corporate law. For the nine months ended September 30, 2006 and 2005, total expense for Grace and the employees was \$48.2 million and \$12.8 million respectively, which amounts are included in selling, general and administrative expenses in the accompanying Consolidated Statements of Operations. Cumulative expenses to address this matter were \$68.2 million through September 30, 2006.

Grace is unable to assess whether the indictment, or any conviction resulting therefrom, will have a material adverse effect on the results of operations or financial condition of Grace or affect Grace's bankruptcy proceedings. While the appeal is pending, Grace expects legal fees for this matter to be \$2 million to \$4 million per quarter. Grace intends to expense such costs as they are incurred.

New Jersey Lawsuit On June 1, 2005, the New Jersey Department of Environmental Protection (DEP) filed a lawsuit against Grace and two former employees seeking civil penalties for alleged misrepresentations and false statements made in a Preliminary Assessment/Site Investigation Report and Negative Declarations submitted by Grace to the DEP in 1995 pursuant to the New Jersey Industrial Site Recovery Act. Grace submitted the Report, which was prepared by an independent environmental consultant, in connection with the closing of Grace's former plant in Hamilton Township, New Jersey. Grace is also aware that the State of New Jersey and U.S. Department of Justice each are conducting criminal investigations related to Grace's former operations of such plant.

Grace purchased the Hamilton plant assets in 1963 and ceased operations in 1994. During the operating period, Grace produced spray-on fire protection products and vermiculite-based products at this plant. The current property owners are conducting remediation activities as directed by the EPA. The property owners and the EPA have filed proofs of claim against Grace in the amount of approximately \$4 million with respect to the Hamilton plant site.

Grace is unable at this time to assess the effect of this lawsuit or the pending criminal investigations on Grace's results of operations, cash flows, or liquidity, or on its bankruptcy proceeding.

Non-Vermiculite Related Matters

At September 30, 2006 and December 31, 2005, Grace's estimated liability for remediation of sites not related to its former vermiculite mining and processing activities was \$107.5 million and \$115.8 million, respectively. This liability relates to Grace's current and former operations, including its share of liability for off-site disposal at facilities where it has been identified as a potentially responsible party. Grace's estimated liability is based upon an evaluation of claims for which sufficient information was available. As Grace receives new information and continues its claims evaluation process, its estimated liability may change materially.

Tax Matters In 2005, Grace settled all proposed tax adjustments with the Internal Revenue Service (the IRS) with respect to the 1993-1996 Federal income tax audit, and paid applicable taxes and interest of \$90.0 million, with the exception of approximately \$7.0 million of proposed adjustments relating to research and experimentation credits, with respect to which a settlement is currently under discussion with the IRS.

As a consequence of resolving federal tax adjustments for the 1993-1996 tax periods, Grace owes approximately \$12 million in additional state taxes and accrued interest, which will be paid in accordance with Grace's bankruptcy proceedings.

In June 2006, Grace received revised examination reports from the IRS for the 1988-1989 and 1997-2001 tax periods (collectively, the Examination Reports) asserting, in the aggregate, approximately \$32.5 million of net additional tax plus accrued interest. The most significant issue addressed in the Examination Reports concerns the carryback of a specified liability loss from the 1998 tax period to the 1989 taxable year. Since

Grace was in a net operating loss position for all but two of the other tax periods covered in the audit, most of the other issues addressed in the Examination Reports, if determined adversely to Grace, would be unlikely to result in any cash tax liability but rather would likely impact the amount of certain tax attributes claimed by Grace in those tax periods such as losses and credits. On May 25, 2006, Grace filed a protest with the IRS Office of Appeals with respect to this carry-back issue. Grace's federal tax returns covering 2002 and later years are open for future examination by the IRS.

The IRS has assessed additional federal income tax withholding and Federal Insurance Contributions Act taxes plus interest and related penalties for calendar years 1993 through 1998 against a Grace subsidiary that formerly operated a temporary staffing business for nurses and other health care personnel. In August 2006, Grace agreed with the U.S. Department of Justice and the IRS on a settlement amount of \$13.0 million and other terms that would resolve the matter. Grace has a right to indemnification from its former partner in the business for approximately \$2.6 million of the settlement amount. The settlement has been approved by the Bankruptcy Court, but remains subject to the execution of written closing agreements with the IRS and the Department of Justice.

In September 2006, the German Ministry of Finance issued guidance that excludes Grace's German subsidiary from the application of a law that was effective in 2005 prohibiting interest deductions in relation to certain related party loans.

Grace recorded a \$12.0 million reduction in third quarter 2006 tax expense as a result of the resolution of the two foregoing issues.

As of December 31, 2005, Grace had approximately \$112.6 million in net operating loss (NOL) carryforwards. Grace anticipates generating additional NOLs upon emergence from bankruptcy as contemplated in the Plan. Because Grace did not pay a significant amount of U.S. taxes in prior years and/or has already received tax refunds from available NOL carryback years, it expects to carryforward most of its current and anticipated NOLs. Under federal income tax law, a corporation is generally permitted to carryforward NOLs for a 20-year period for deduction against future taxable income. Grace's ability to deduct NOL carryforwards could be significantly limited if it were to undergo an ownership change during or as a result of the Chapter 11 Cases. During the course of the bankruptcy proceeding, the Bankruptcy Court entered an order that places certain limitations on trading in Grace common stock or options convertible into Grace common stock. Pursuant to these limitations, Grace intends to object to any purchase of Grace common stock or options that would potentially contribute to an ownership change. However, Grace can provide no assurance that these limitations will prevent an ownership change or that its ability to utilize net operating loss carryforwards will not be significantly limited as a result of Grace's reorganization.

Purchase Commitments Grace engages in purchase commitments to minimize the volatility of major components of direct manufacturing costs including natural gas, certain metals, asphalt, amines and other materials. Such commitments are for quantities that Grace fully expects to use in its normal operations.

Guarantees and Indemnification Obligations Grace is a party to many contracts containing guarantees and indemnification obligations. These contracts primarily consist of:

- Contracts providing for the sale of a former business unit or product line in which Grace has agreed to indemnify the buyer against liabilities arising prior to the closing of the transaction, including environmental liabilities. These liabilities are included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets.
- Guarantees of real property lease obligations of third parties, typically arising out of (a) leases entered into by former subsidiaries of Grace, or (b) the assignment or sublease of a lease by Grace to a third party. These obligations are included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets.
- Licenses of intellectual property by Grace to third parties in which Grace has agreed to indemnify the licensee against third party infringement claims.
- Contracts entered into with third party consultants, independent contractors, and other

service providers in which Grace has agreed to indemnify such parties against certain liabilities in connection with their performance. Based on historical experience and the likelihood that such parties will make a claim against Grace, Grace believes that such indemnification obligations are immaterial.

- **Product warranties with respect to certain products sold to customers in the ordinary course of business.** These warranties typically provide that product will conform to specifications. Grace generally does not establish a liability for product warranty based on a percentage of sales or other formula. Grace accrues a warranty liability on a transaction-specific basis depending on the individual facts and circumstances related to each sale. Both the liability and annual expense related to product warranties are immaterial to the Consolidated Financial Statements.

Financial Assurances Financial assurances have been established for a variety of purposes, including insurance and environmental matters, asbestos settlements and appeals, trade-related commitments and other matters. At September 30, 2006, Grace had gross financial assurances issued and outstanding of \$256.1 million, comprised of \$135.0 million of surety bonds issued by various insurance companies, and \$121.1 million of standby letters of credit and other financial assurances issued by various banks. As discussed in Note 8, \$48.7 million of these financial assurances have been issued under the DIP facility.

Accounting for Contingencies Although the outcome of each of the matters discussed above cannot be predicted with certainty, Grace has assessed its risk and has made accounting estimates as required under U.S. generally accepted accounting principles. As a result of the Filing, claims related to certain of the items discussed above will be addressed as part of Grace's Chapter 11 proceedings. Accruals recorded for such contingencies have been included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets. The amounts of these liabilities as ultimately determined through the Chapter 11 proceedings could be materially different from amounts recorded at September 30, 2006.

13. Pension Plans and Other Postretirement Benefit Plans

Pension Plans Grace maintains defined benefit pension plans covering employees of certain units who meet age and service requirements. Benefits are generally based on final average salary and years of service. Grace funds its U.S. qualified pension plans (U.S. qualified pension plans) in accordance with U.S. federal laws and regulations. Non-U.S. pension plans (non-U.S. pension plans) are funded under a variety of methods, as required under local laws and customs.

Grace also provides, through nonqualified plans, supplemental pension benefits in excess of U.S. qualified pension plan limits imposed by federal tax law. These plans cover officers and higher-level employees and serve to increase the combined pension amount to the level that they otherwise would have received under the U.S. qualified pension plans in the absence of such limits. The nonqualified plans are unfunded and Grace pays the costs of benefits as they are incurred.

At the December 31, 2005 measurement date for Grace's defined benefit pension plans (the Plans), the accumulated benefit obligation (ABO) was approximately \$1,386 million as measured under U.S. generally accepted accounting principles. At September 30, 2006, Grace's recorded pension liability for underfunded plans was \$481.6 million (\$392.6 million included in liabilities not subject to compromise and \$89.0 million related to supplemental pension benefits, included in liabilities subject to compromise). The recorded liability reflects 1) the shortfall between dedicated assets and the ABO of underfunded plans (\$254.8 million); and 2) the ABO of pay-as-you-go plans (\$226.8 million).

Postretirement Benefits Other Than Pensions Grace provides postretirement health care and life insurance benefits (referred to as other post-employment benefits or OPEB) for retired employees of certain U.S. business units and certain divested units. The postretirement medical plan provides various levels of benefits to employees hired before 1991 who retire from Grace after age 55 with at least 10 years of service. These plans are unfunded and Grace pays a portion of the costs of benefits under these plans as they are incurred. Grace applies SFAS No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions, which requires that the future costs of

postretirement health care and life insurance benefits be accrued over the employees' years of service.

Retirees and beneficiaries covered by the postretirement medical plan are required to contribute a minimum of 40% of the calculated premium for that coverage. During 2002, per capita costs under the retiree medical plans exceeded caps on the amount Grace was required to contribute under a 1993 amendment to the plan. As a result, for 2003 and future years, retirees will bear 100% of any increase in premium costs.

For 2006 measurement purposes, per capita costs, before retiree contributions, were assumed to initially increase at a rate of 8.5%. The rate is assumed to decrease gradually to 5.0% through 2010 and remain at that level thereafter. A one percentage point increase or decrease in assumed health care medical cost trend rates would have a negligible impact on Grace's postretirement benefit obligations.

The components of net periodic benefit cost (income) for the three months and nine months ended September 30, 2006 and 2005 are as follows:

Components of Net Periodic Benefit Cost (Income) (In millions)	Three Months Ended September 30, 2006			2005		
	Pension U.S.	Non-U.S.	OPEB	Pension U.S.	Non-U.S.	OPEB
Service cost	\$ 4.1	\$ 2.1	\$ 0.1	\$ 4.1	\$ 1.5	\$ (0.1)
Interest cost	14.5	4.6	1.0	14.4	4.4	1.3
Expected return on plan assets	(13.3)	(4.5)		(12.8)	(3.9)	
Amortization of prior service cost	0.7	0.2	(2.6)	1.3	0.1	(3.1)
Amortization of unrecognized actuarial loss	5.7	1.8	0.1	5.8	2.4	0.4
Net curtailment and settlement loss						
Net periodic benefit cost (income)	\$ 11.7	\$ 4.2	\$ (1.4)	\$ 12.8	\$ 4.5	\$ (1.5)

Components of Net Periodic Benefit Cost (Income) (In millions)	Nine Months Ended September 30, 2006			2005		
	Pension U.S.	Non-U.S.	OPEB	Pension U.S.	Non-U.S.	OPEB
Service cost	\$ 12.2	\$ 6.2	\$ 0.3	\$ 12.3	\$ 5.3	\$ 0.3
Interest cost	43.6	13.1	3.0	43.4	13.1	3.7
Expected return on plan assets	(39.8)	(13.3)		(38.4)	(11.8)	
Amortization of prior service cost	1.9	0.5	(7.8)	3.9	0.5	(9.5)
Amortization of unrecognized actuarial loss	17.2	5.9	0.3	17.2	6.2	1.2
Net curtailment and settlement loss				1.1	1.6	
Net periodic benefit cost (income)	\$ 35.1	\$ 12.4	\$ (4.2)	\$ 39.5	\$ 14.9	\$ (4.3)

Plan Contributions and Funding Subject to the approval of the Bankruptcy Court, Grace intends to satisfy its obligations under the Plans and to comply with all of the requirements of the Employee Retirement Income Security Act of 1974. On June 16, 2006, Grace obtained Bankruptcy Court approval to fund minimum required payments of approximately \$92 million for the period from July 2006 through January 2007. These estimated payments reflect the impact of the Pension Protection Act of 2006, which extended the interest rates required under the Pension Funding Equity Act of 2004 for plan years commencing in 2006 and 2007. In that regard, Grace contributed approximately \$20 million in July 2006, approximately \$45 million in September 2006 and approximately \$6 million in October 2006, to the trusts that hold assets of the Plans. However, there can be no assurance that the Bankruptcy Court will continue to approve arrangements to satisfy the funding needs of the Plans. Contributions to non-U.S. plans are not subject to Bankruptcy Court approval and Grace intends to fund such plans based on actuarial and trustee recommendations.

Grace plans to pay benefits as they become due under virtually all pay-as-you-go plans and to maintain compliance with federal funding laws for its U.S. qualified pension plans.

14. Operating Segment Information

Grace is a global producer of specialty chemicals and materials. It generates revenues from two operating segments: Grace Davison, which includes silica- and alumina-based catalysts and

Edgar Filing: W R GRACE & CO - Form 10-Q

materials used in a wide range of industrial applications; and Grace Performance Chemicals, which includes specialty chemicals and materials used in commercial and residential construction and in rigid food and beverage packaging. Intersegment sales, eliminated in consolidation, are not material. The table below presents information related to Grace's operating segments for the three months and nine months ended September 30, 2006 and 2005, respectively. Only those corporate expenses directly related to the operating segments are allocated for reporting purposes. All remaining corporate items are reported separately and labeled as such.

Operating Segment Data

(In millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Net Sales				
Grace Davison	\$ 396.5	\$ 338.3	\$ 1,133.2	\$ 1,031.9
Grace Performance Chemicals	344.9	315.1	995.9	901.2
Total	\$ 741.4	\$ 653.4	\$ 2,129.1	\$ 1,933.1
Pre-tax Operating Income				
Grace Davison	\$ 45.6	\$ 36.8	\$ 127.9	\$ 117.6
Grace Performance Chemicals	51.9	45.5	139.2	118.5
Corporate costs	(26.4)	(23.2)	(77.5)	(80.7)
Total	\$ 71.1	\$ 59.1	\$ 189.6	\$ 155.4

Corporate costs include expenses of corporate headquarters functions incurred in support of core operations, such as corporate financial and legal services, human resources management, communications and regulatory affairs. Corporate costs also include certain pension and postretirement benefits, including the amortization of deferred costs that are considered a core operating expense but not allocated to operating segments.

The following table presents information related to the geographic areas in which Grace operated for the three months and nine months ended September 30, 2006 and 2005, respectively.

Geographic Area Data

(In millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Net Sales				
United States	\$ 268.7	\$ 244.0	\$ 775.6	\$ 719.9
Canada and Puerto Rico	39.0	41.0	105.0	106.2
Total North America	\$ 307.7	\$ 285.0	\$ 880.6	\$ 826.1
Germany	37.7	32.0	103.1	90.5
Europe, other than Germany	243.5	200.5	694.1	607.9
Total Europe	\$ 281.2	\$ 232.5	\$ 797.2	\$ 698.4
Asia Pacific	113.7	98.9	340.4	304.6
Latin America	38.8	37.0	110.9	104.0
Total	\$ 741.4	\$ 653.4	\$ 2,129.1	\$ 1,933.1

The pre-tax operating income for Grace's operating segments for the three months and nine months ended September 30, 2006 and 2005, respectively, is reconciled below to income (loss) before income taxes and minority interest presented in the accompanying Consolidated Statements of Operations.

Reconciliation of Operating Segment Data to Financial Statements

(In millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Pre-tax operating income - core operations	\$ 71.1	\$ 59.1	\$ 189.6	\$ 155.4
Minority interest	7.9	7.4	26.2	18.4
Chapter 11 expenses, net	(12.0)	(9.3)	(32.2)	(19.9)

Edgar Filing: W R GRACE & CO - Form 10-Q

Net gain (loss) on sales of investments and disposals of assets	(0.2)	(1.4)	2.6	(0.9)
Provision for environmental remediation			(30.0)	
Interest expense and related financing costs	(18.8)	(13.4)	(54.5)	(41.3)
Other, net	(24.1)	(5.5)	(56.8)	0.6
Income (loss) before income taxes and minority interest	\$ 23.9	\$ 36.9	\$ 44.9	\$ 112.3

Minority interest primarily pertains to Advanced Refining Technologies LLC (ART), a joint venture between Grace and Chevron Products Company where Grace has a 55% economic interest.

I-28

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Financial Summary for September 30, 2006

Following is a summary analysis of key financial measures of our performance for the three months and nine months ended September 30, 2006 compared with the prior year periods.

- Sales increased 13.5% and 10.1% for the three months and nine months ended September 30, 2006, respectively, primarily as a result of higher sales volume in all geographic regions, improved product mix, and selling price increases in response to cost inflation.
- Net results for each period has been primarily affected by: 1) the performance of our businesses which is categorized as core operations ; and 2) the impact of legal contingencies and other nonoperating liabilities which is categorized as noncore activities.
- Net income was \$18.4 million for the three months ended September 30, 2006, compared with net income of \$32.1 million for the three months ended September 30, 2005. Net income was \$13.3 million for the nine months ended September 30, 2006, compared with net income of \$67.9 for the nine months ended September 30, 2005. The lower net income in the three months and nine months ended September 30, 2006, as compared to the 2005 periods, was principally due to increases in our pre-tax loss from noncore activities and costs of Chapter 11, partially offset by the resolution of certain tax matters at amounts lower than previously estimated.
- Pre-tax income from core operations increased 20.3% and 22.0% for the three months and nine months ended September 30, 2006, respectively, primarily attributable to higher sales volume in all geographic regions, higher selling prices to partially offset cost inflation, and lower overall pension costs.
- Pre-tax operating income of our Grace Performance Chemicals operating segment increased 14.1% and 17.5% for the three months and nine months ended September 30, 2006, respectively, attributable principally to higher sales of products used in commercial and residential construction.
- Pre-tax operating income of our Grace Davison operating segment increased 23.9% and 8.8% for the three months and nine months ended September 30, 2006, respectively, attributable primarily to higher sales of specialty materials and catalysts used in refining, chemical, and industrial applications.
- Operating cash flow for the nine months ended September 30, 2006 was \$49.4 million compared with \$14.8 million for the prior year period. The higher cash flow is attributable to improved operating results in 2006. Other major factors affecting cash flows in the periods include the payment of \$119.7 million to settle tax and environmental contingencies in 2005 and an increase in 2006 of \$76.7 million to fund defined benefit pension arrangements.
- Pre-tax loss from noncore activities was \$26.0 million in the third quarter of 2006 compared with \$7.7 million in the prior year quarter. Pre-tax loss from noncore activities was \$88.9 million year-to-date in 2006 compared with \$2.7 million in the prior year period. The third quarter and year-to-date changes are principally due to a \$30.0 million increase in the estimated costs of environmental remediation recorded in the second quarter of 2006 and increases in legal defense costs in both periods for the criminal proceeding related to Grace's former vermiculite mining operations in Montana. Pre-tax loss from noncore activities in the prior year periods benefited from gains recorded from insurance recoveries on pre-Chapter 11 environmental and asbestos-related costs.

Edgar Filing: W R GRACE & CO - Form 10-Q

We are attempting to resolve noncore liabilities and contingencies through our Chapter 11 proceeding. Our noncore liabilities include asbestos-related litigation, environmental remediation, tax disputes and business litigation. Our operating statements include periodic adjustments to account for changes in estimates of such liabilities and developments in our Chapter 11 proceeding. These liabilities and contingencies may result in continued volatility in net results in the future.

We present the net costs of our reorganization under Chapter 11 of the U.S. Bankruptcy Code as Chapter 11 expenses, net, a separate caption in our Consolidated Statements of Operations. Chapter 11 expenses are not included in the

I-29

measures, income from core operations and income (loss) from noncore operations.

Description of Core Business

We are engaged in specialty chemicals and specialty materials businesses on a worldwide basis through our two operating segments:

Grace Davison includes:

- Catalysts and chemical additives used by petroleum refiners, including fluid catalytic cracking, or FCC, catalysts, that help to crack the hydrocarbon chain in distilled crude oil to produce transportation fuels, such as gasoline and diesel fuels, and other petroleum-based products, and FCC additives used to reduce sulfur in gasoline, maximize propylene production from refinery FCC units, and reduce emissions of sulfur oxides, nitrogen oxides and carbon monoxide from refinery FCC units;
- Hydroprocessing catalysts used by petroleum refiners in process reactors to upgrade heavy oils into lighter, more useful products by removing impurities such as nitrogen, sulfur and heavy metals, allowing less expensive feedstocks to be used in the petroleum refining process;
- Specialty catalysts, including polyolefin catalysts and catalyst supports that are essential components in the manufacture of polyethylene and polypropylene resins, and other chemical catalysts used in a variety of industrial, environmental and consumer applications;
- Silica-based and silica-alumina-based engineered materials used in:
 - industrial markets, such as coatings, plastics and rubber, precision investment casting, refractory, insulating glass windows, desiccants, and gas and liquids purification;
 - consumer applications, such as food products, toothpaste, pharmaceutical and personal care products, and the processing of edible oils and beverages;
 - digital media coatings on ink jet papers; and
 - Silica-based materials and chromatography columns, instruments, consumables and accessories used in life and analytical sciences applications.

We conduct our hydroprocessing catalyst business through Advanced Refining Technologies, LLC, or ART, our joint venture with Chevron Products Company. We report 100% of the revenues of our ART joint venture, but only receive 55% of the income after the minority interest is allocated to Chevron.

Key external factors for our FCC catalysts and hydroprocessing catalysts are the economics of the petroleum refining industry, specifically the impacts of demand for transportation fuels and petrochemical products, and crude oil supply.

Sales of our other three Grace Davison product groups are affected by general economic conditions including the underlying growth rate of targeted end-use applications.

Grace Performance Chemicals includes:

- Construction materials and systems, including concrete admixtures and fibers used to improve the durability and working properties of concrete, additives used in cement processing to improve energy efficiency and enhance the characteristics of finished cement, waterproofing materials used in commercial and residential construction and renovation to protect buildings from water penetration, and fireproofing materials used to protect buildings from structural failure in the event of fire; and
- Packaging technologies, primarily specialty sealants and coatings used in rigid food and beverage packages, including can and closure sealants used to seal and enhance the shelf life of can and bottle contents, and coatings for cans and closures that prevent metal corrosion, protect package contents from the influence of metal and ensure proper adhesion of sealing compounds.

Edgar Filing: W R GRACE & CO - Form 10-Q

Construction products sales are affected by non-residential construction activity and, to a lesser extent, residential construction activity, which tend to lag the general economy in both decline and recovery. Waterproofing products sales are also significantly affected by residential renovation activity. A significant portion of our sales of construction products is in the U.S., so we are

I-30

strongly influenced by the level of U.S. construction activity.

Our packaging technologies sales are affected by general economic conditions globally as well as an ongoing shift in demand from metal and glass to plastic packaging for foods and beverages. This shift is causing a decline in can sealant usage, but provides opportunities for closure sealants and other products for plastic packaging.

Global scope We operate our business on a global scale with more than 60% of our revenue and 40% of our operating properties outside the United States. Our business is conducted in more than 40 countries and in more than 20 currencies. Our operating segments are managed on a global basis, serving global markets, with currency fluctuations in relation to the U.S. dollar affecting reported earnings, net assets and cash flows.

The table below shows the sales in each of our operating segments, and domestic and international sales, as a percentage of our total sales.

Percentage of Total Grace Sales	Three Months Ended		Nine Months Ended	
	September 30, 2006	2005	September 30, 2006	2005
Grace Davison	53.5 %	51.8 %	53.2 %	53.4 %
Grace Performance Chemicals	46.5 %	48.2 %	46.8 %	46.6 %
Total	100.0 %	100.0 %	100.0 %	100.0 %
Grace U.S.	36.3 %	37.3 %	36.4 %	37.2 %
Grace non-U.S.	63.7 %	62.7 %	63.6 %	62.8 %
Total	100.0 %	100.0 %	100.0 %	100.0 %

Voluntary Bankruptcy Filing

In response to a sharply increasing number of asbestos-related personal injury claims, on April 2, 2001, Grace and 61 of our United States subsidiaries and affiliates, including W. R. Grace & Co. Conn., filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware. Our non-U.S. subsidiaries and certain of our U.S. subsidiaries were not included in the Chapter 11 filing.

Under Chapter 11, we have continued to operate as debtors-in-possession under court protection from creditors and claimants, while using the Chapter 11 process to develop and implement a plan for addressing the asbestos-related claims. Since the Chapter 11 filing, the bankruptcy court has approved all motions necessary to conduct normal business activities.

On January 13, 2005, we filed an amended plan of reorganization and related documents with the bankruptcy court. The plan of reorganization is supported by committees representing general unsecured creditors and equity holders, but is not supported by committees representing asbestos personal injury claimants and asbestos property damage claimants or the representative of future asbestos claimants. Under the terms of the plan of reorganization, a trust would be established to which all pending and future asbestos-related claims would be channeled for resolution. The plan of reorganization can become effective only after a vote of eligible creditors and with the approval of the bankruptcy court and the U.S. District Court for the District of Delaware. See Plan of Reorganization below for more information.

Critical Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires that we make estimates and assumptions affecting the assets and liabilities reported at the date of the Consolidated Financial Statements, and the revenues and expenses reported for the periods presented. Actual amounts could differ from those estimates. Changes in estimates are recorded in the period identified. Accounting measurements that are most affected by our estimates of future events and are deemed to be critical accounting estimates by our management are:

- Contingent liabilities which depend on an assessment of the probability of loss and an estimate of ultimate resolution cost, such as asbestos-related matters (see Notes 2 and 3 to the Consolidated Financial Statements), environmental remediation (see Note 12 to the Consolidated Financial Statements), income taxes (see Note 12 to the Consolidated Financial Statements), and litigation (see Note 12 to the Consolidated Financial Statements);

- Pension and postretirement liabilities that depend on assumptions regarding participant life spans, future inflation, discount rates and total returns on invested funds (see Note 13 to the Consolidated Financial Statements);

I-31

- Liabilities for employee incentive compensation and customer rebates that depend on estimates of future sales or earnings;
- Depreciation and amortization periods for long-lived assets, including property and equipment, intangible, and other assets that depend on utilization assessments, future product and production plans and expected sales and cash flows; and
- Realization values of various assets such as net deferred tax assets, trade receivables, inventories, insurance receivables, properties and equipment, and goodwill which depend on assessments of credit and other business risks, and projections of future income and cash flows.

The accuracy of these and other estimates may also be materially affected by the uncertainties arising under our Chapter 11 proceeding.

Summary Financial Information and Metrics

Set forth on the following page is a chart that lists our key operating statistics, and dollar and percentage changes for the three months and nine months ended September 30, 2006 and 2005. Please refer to this Analysis of Continuing Operations chart when reading Management's discussion and analysis of financial condition and results of operations.

In the Analysis of Continuing Operations chart, as well as in the financial information presented throughout management's discussion and analysis of financial condition and results of operations, we present our financial results in the same manner as results are reviewed internally. We break out our results of operations by operating segment and between core operations and noncore activities. Core operations comprise the financial results of Grace Davison, Grace Performance Chemicals, and the costs of corporate activities that directly or indirectly support our business operations. In contrast, noncore activities comprise all other events and transactions not directly related to the generation of operating revenue or the support of our core operations and generally relate to our former operations and products. See Pre-tax Income (Loss) from Noncore Activities for more information about noncore activities. We use pre-tax income from core operations as the performance factor in determining certain incentive compensation and as the profitability factor in all significant business decisions.

Pre-tax income from core operations, pre-tax income (loss) from noncore activities, pre-tax income from core operations as a percentage of sales, and pre-tax income from core operations before depreciation and amortization do not purport to represent income or cash flow measures as defined under U.S. generally accepted accounting principles, and you should not consider them an alternative to such measures as an indicator of our performance. We provide these measures so you can distinguish the operating results of our current business base from the income and expenses of our past businesses, discontinued products, and corporate legacies, and the effect of our Chapter 11 proceedings, and to ensure that you understand the key data that management uses to evaluate our results of operations.

Pre-tax income from core operations has material limitations as an operating performance measure because it excludes income and expenses that comprise our noncore activities, as presented in the Pre-tax Income (Loss) from Noncore Activities table in the Grace Overview section below. Income (loss) from noncore activities includes, among other things, provisions for asbestos-related litigation and environmental remediation, income from insurance settlements, and legal defense costs, all of which have been material components of our net income (loss). Pre-tax income from core operations before depreciation and amortization also has material limitations as an operating performance measure since it excludes the impact of depreciation and amortization expense. Our business is substantially dependent on the successful deployment of our capital assets; therefore, depreciation and amortization expense is a necessary element of our costs and ability to generate revenue. We compensate for the limitations of these measurements by using these indicators together with net income (loss) as measured under U.S. generally accepted accounting principles to present a complete analysis of our results of operations. You should evaluate pre-tax income from core operations and pre-tax income from core operations before depreciation and amortization in conjunction with net income (loss) for a more complete analysis of our profitability.

NM = Not meaningful

- (1) Grace Davison pre-tax operating income includes minority interest related to the Advanced Refining Technologies joint venture.
- (2) Reflects the add-back of minority interests in consolidated subsidiaries.
- (3) Includes depreciation and amortization related to manufacturing of products.

Grace Overview

The following is an overview of our financial performance for the three months and nine months ended September 30, 2006 compared with the prior year periods.

Net Sales The following tables identify the period-over-period increase or decrease in sales attributable to changes in product volume, product price and/or mix, and the impact of foreign currency translation.

Net Sales Variance Analysis	Three Months Ended September 30, 2006 as a Percentage Increase (Decrease) from Three Months Ended September 30, 2005							
	Volume		Price/Mix		Currency Translation		Total	
Grace Davison	10.1	%	5.3	%	1.8	%	17.2	%
Grace Performance Chemicals	7.2	%	0.7	%	1.6	%	9.5	%
Net sales	8.7	%	3.1	%	1.7	%	13.5	%
By Region:								
North America	8.0	%	(0.3	%)	0.3	%	8.0	%
Europe	8.3	%	8.9	%	3.7	%	20.9	%
Asia Pacific	15.6	%	(1.8	%)	1.2	%	15.0	%
Latin America	1.4	%	2.4	%	1.1	%	4.9	%

Net Sales Variance Analysis	Nine Months Ended September 30, 2006 as a Percentage Increase (Decrease) from Nine Months Ended September 30, 2005							
	Volume		Price/Mix		Currency Translation		Total	
Grace Davison	5.6	%	5.2	%	(1.0	%)	9.8	%
Grace Performance Chemicals	8.0	%	3.0	%	(0.5	%)	10.5	%
Net sales	6.7	%	4.1	%	(0.7	%)	10.1	%
By Region:								
North America	2.9	%	3.4	%	0.3	%	6.6	%
Europe	10.8	%	6.0	%	(2.7	%)	14.1	%
Asia Pacific	10.8	%	1.0	%	0.0	%	11.8	%
Latin America	3.1	%	1.4	%	2.1	%	6.6	%

Sales for the three months and nine months ended September 30, 2006 were favorably impacted by higher volume, product mix, and selling price increases in response to cost inflation.

Pre-tax Income from Core Operations Operating profit for the three months and nine months ended September 30, 2006 improved due to sales volume growth and selling price increases, partially offset by raw material cost inflation.

Corporate costs include corporate functional costs (such as financial and legal services, human resources, communications and information technology), the cost of corporate governance (including directors and officers liability insurance) and pension costs related to both corporate employees and to the effects of changes in assets and liabilities for all of our pension plans. Corporate costs for the nine months ended September 30, 2006 decreased compared with the prior year period primarily due to lower pension expense from the effect of contributions made to defined benefit pension plans in recent years.

We value our U.S. inventories under the last-in/first-out method, or LIFO, and our non-U.S. inventories under the first-in/first-out, or FIFO, method. LIFO was selected in 1974 for U.S. financial reporting and tax purposes because it generally results in a better matching of current revenue with current costs during periods of inflation. We have not elected LIFO for our non-U.S. inventories due to statutory restrictions. However, if we valued our U.S. inventories using the FIFO method, consistent with our non-U.S. subsidiaries, our pre-tax income from core operations would have been approximately 8.6% lower for the nine months ended September 30, 2006 and 4.1% higher for the nine months ended September 30, 2005 (6% higher for all of 2005). The significant change in inventory valuations between FIFO and LIFO relates primarily to the price volatility, over the past several quarters, of commodity metals and natural gas used in Grace Davison products and production processes. We attempt to mitigate price volatility through hedging techniques such as layering our needed supply under fixed delivery contracts, entering into commodity option and swap contracts with suppliers and financial institutions, and by negotiating sales contracts that permit the partial pass-through of market price increases for these volatile commodity items.

Edgar Filing: W R GRACE & CO - Form 10-Q

We normally attempt to lock in raw material costs through long-term supply contracts and targeted hedging programs. Arrangements and programs can span a few months to several years. Major raw materials include natural gas, certain metals, petroleum-based materials and certain industrial chemicals. The actual cost of these raw materials can differ significantly from spot prices at any point in time. Our reported gross profit for the periods presented has been favorably impacted by certain raw material supply arrangements and unfavorably affected by others, relative to the then-current market price. We expect that new supply agreements and hedging arrangements will result in raw material costs that can be significantly favorable or unfavorable compared with prior periods. We attempt to mitigate period-over-period commodity-driven cost changes through utilization and customer pricing strategies; however, gross profit margins will likely be affected when compared over time.

I-34

Pre-tax Income (Loss) from Noncore Activities Pre-tax income (loss) from noncore activities reflects financial matters unrelated to our core operating units. We expect this category of costs and income to be volatile as potentially material items are addressed through our Chapter 11 proceedings and the financial implications of our legal contingencies become apparent. Some noncore activities are shown as separate items in the Consolidated Statements of Operations. Those not separately listed are primarily included in selling, general and administrative expenses and in other (income) expense. The following table shows the components of noncore activities:

Pre-tax Income (Loss) from Noncore Activities

(In millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Provision for environmental remediation vermiculite	\$	\$	\$ (29.4)	\$
Provision for environmental remediation other sites			(0.6)	
Insurance settlements environmental and asbestos-related	0.9	4.2	7.8	24.5
Asbestos administration	(2.7)	(2.1)	(8.1)	(6.4)
COLI income, net	0.5	(0.3)	2.2	1.6
D&O insurance cost portion related to Chapter 11	(1.5)	(1.2)	(4.5)	(4.2)
Pension and postretirement benefit costs divested businesses	(1.9)	(0.9)	(5.9)	(3.5)
Translation effects intercompany loan	2.4	(1.1)	16.1	(32.5)
Value of currency contracts	(1.6)	1.1	(15.1)	32.3
Net gain on sale of real estate			5.0	
Stock appreciation rights	(0.4)		(2.4)	
Legal defense costs	(21.0)	(5.5)	(48.9)	(14.5)
Other	(0.7)	(1.9)	(5.1)	
Total	\$ (26.0)	\$ (7.7)	\$ (88.9)	\$ (2.7)

Changes to pre-tax income (loss) from noncore activities were attributable primarily to:

- Increases in legal defense costs of \$15.5 million and \$34.4 million for the three months and nine months ended September 30, 2006, respectively, compared to the prior year periods, primarily related to the Montana legal proceeding (see Note 12 to the Consolidated Financial Statements for more information),
- A \$30.0 million increase in estimated costs in the 2006 periods for environmental remediation primarily in Montana (see Note 12 to the Consolidated Financial Statements for more information), and
- \$24.5 million received from insurance carriers in the 2005 periods with respect to coverage for past environmental remediation costs and asbestos-related liability under liquidation arrangements or dispute settlements, as compared with \$7.8 million in the first nine months of 2006.

In March 2004, we began accounting for currency fluctuations on a 293 million intercompany loan between our subsidiaries in the United States and Germany as a component of operating results instead of as a component of other comprehensive income. This change was prompted by an analysis of new tax laws in Germany and our cash flow planning in connection with our Chapter 11 reorganization, which together indicated that we should no longer consider this loan as part of our permanent capital structure in Germany. In May 2004, we entered into a series of foreign currency forward contracts with a U.S. bank to mitigate future currency fluctuations on the remaining loan balance. Contract amounts of 200.7 million were extended in June 2005 at varying rates and have terms that coincide with loan repayments due periodically through December 2008. As part of the contract extension, we were required to pay a settlement premium of \$9.3 million to the bank. We expect to recover this settlement premium over time as the contracts are settled at rates greater than the initial rates in the May 2004 foreign currency forward contracts. For the nine months ended September 30, 2006, 47.6 million of loan principal was repaid. For the three months and nine months ended September 30, 2006, respectively, \$1.6 million and \$15.1 million of contract losses were recognized, offset by foreign currency gains of \$2.4 million and \$16.1 million. For the three months and nine months ended September 30, 2005, respectively, \$1.1 million and \$32.3 million of contract gains were recognized, offset by foreign currency losses of \$1.1 million and \$32.5 million.

Chapter 11 Expenses Although we are unable to measure precisely the impact of the Chapter 11 proceedings on our overall financial performance, we incur significant added costs that are directly attributable to operating in Chapter 11. Net Chapter 11 expenses consist primarily of legal, financial and consulting fees that we, the three creditors committees and the representative of future asbestos claimants, incur. These costs fluctuate with the activity in our Chapter 11 proceedings.

I-35

Our pre-tax income from core operations included expenses for Chapter 11-related compensation charges of \$6.8 million and \$4.5 million for the three months ended September 30, 2006 and 2005, respectively, and \$16.2 million and \$13.9 million for the nine months ended September 30, 2006 and 2005, respectively.

We incur numerous other indirect costs to manage the Chapter 11 proceedings such as: management time devoted to Chapter 11 matters; added cost of debt capital; added costs of general business insurance, including D&O liability insurance premiums; and lost business and acquisition opportunities due to the complexities and restrictions of operating under Chapter 11.

Interest Expense Net interest expense is higher for the three months and nine months ended September 30, 2006 compared with the prior year periods due to a higher rate of interest to which general unsecured creditors would be entitled under the plan of reorganization. The plan of reorganization states that each holder of an allowed general unsecured claim shall be paid in full, plus post-petition interest. Post-petition interest shall accrue through the date of payment as follows:

- For the holders of pre-petition bank credit facilities, beginning January 1, 2006, we have agreed to pay interest on pre-petition bank debt at the prime rate quoted by Bloomberg, adjusted for periodic changes, and compounded quarterly. The effective rates for the three months and nine months ended September 30, 2006 were 8.25% and 7.86%, respectively. From April 2, 2001, the voluntary bankruptcy filing date, through December 31, 2005, we accrued interest on pre-petition bank debt at a negotiated fixed annual rate of 6.09%, compounded quarterly.
- For the holders of claims who, but for the Chapter 11 filing, would be entitled under a contract or otherwise to accrue or be paid interest on such claim in a non-default (or non-overdue payment) situation under applicable non-bankruptcy law, the rate provided in the contract between the Grace entity and the claimant or such rate as may otherwise apply under applicable non-bankruptcy law.
- For all other holders of allowed general unsecured claims, at a rate of 4.19% per annum, compounded annually.

Such interest, which under the plan of reorganization is payable 85% in cash and 15% in Grace common stock, will not be paid until the plan of reorganization is confirmed and funded.

Income Taxes In the third quarter of 2006, we reached a resolution with taxing authorities in the United States concerning a tax position that was the subject of dispute. Also in the third quarter, the German legislature issued a clarification of a new tax law that will permit us to continue to receive the benefit of interest deductions on an intercompany loan that the new law would have otherwise prohibited. We recorded a \$12.0 million reduction in the third quarter tax expense to account for the resolution of these tax matters. In the third quarter of 2005, we reached an agreement with the IRS on a number of tax matters, and reduced our tax liabilities and tax provision by \$16.0 million. Excluding these adjustments and non-deductible Chapter 11 expenses, the effective tax rate for the three and nine months ended September 30, 2006 and 2005 was approximately 35% on consolidated taxable income.

Operating Segment Overview

The following is an overview of financial measures of the performance of our operating segments for the three months and nine months ended September 30, 2006, as compared with the prior year periods.

Grace Davison

Three Months Ended September 30, 2006

Net Sales by Region (In millions)	Three Months Ended September 30,		\$ Change Fav (Unfav)	% Change Fav
	2006	2005		

Edgar Filing: W R GRACE & CO - Form 10-Q

(Unfav)

North America	\$ 147.0	\$ 131.3	\$ 15.7	12.0	%
Europe	168.9	135.0	33.9	25.1	%
Asia Pacific	65.9	56.3	9.6	17.1	%
Latin America	14.7	15.7	(1.0)	(6.4)	%
Total Grace Davison	\$ 396.5	\$ 338.3	\$ 58.2	17.2	%

Sales

The key factors contributing to Grace Davison's sales increase were:

- Recovery in demand for refining catalysts, which was adversely affected in the third and fourth quarters of 2005 by the Gulf hurricanes;

I-36

- Selling price increases implemented earlier in 2006 to partially offset natural gas and raw material cost inflation;
- Higher volume of specialty materials and catalysts in all geographic regions from stronger economic activity and from strategic investments in products used in pharmaceutical applications; and
- A recent acquisition of polyolefin catalyst capacity and technology.

Overall sales were up across all major product lines due to strong demand from high levels of economic activity.

Pre-tax Operating Income

The increase in Grace Davison's 2006 pre-tax operating income was attributable to higher sales volume, higher selling prices partially offset by the negative effects of higher raw material and energy costs, lower operating expenses as a percentage of sales and the recovery from the Gulf hurricanes. We report 100% of sales for the Advanced Refining Technologies LLC joint venture, but only account for 55% of the income in our measure of operating performance.

Nine months Ended September 30, 2006

Net Sales by Region (In millions)	Nine Months Ended September 30,		\$ Change Fav (Unfav)	% Change Fav (Unfav)	
	2006	2005			
North America	\$ 409.5	\$ 388.9	\$ 20.6	5.3	%
Europe	476.7	415.4	61.3	14.8	%
Asia Pacific	205.8	181.3	24.5	13.5	%
Latin America	41.2	46.3	(5.1)	(11.0)	%
Total Grace Davison	\$ 1,133.2	\$ 1,031.9	\$ 101.3	9.8	%

Sales

Sales increases for the nine months ended September 30, 2006 reflected similar economic conditions and cost factors as those experienced in the three months ended September 30, 2006, with the exception of sales in North America. Sales in this region were negatively affected during the quarter ended March 31, 2006 by continued shutdowns of several petroleum refineries from the Gulf hurricanes and for preventive maintenance at customer sites.

Pre-tax Operating Income

The increase in operating income for the nine months ended September 30, 2006 was a result of higher volume and selling prices in all geographic regions and across all product groups and the recovery from the Gulf hurricanes, partially offset by the negative effects of higher raw material and energy costs.

Grace Performance Chemicals

Three Months Ended September 30, 2006

Net Sales by Region (In millions)	Three Months Ended September 30,		\$ Change Fav (Unfav)	% Change Fav (Unfav)	
	2006	2005			
North America	\$ 160.7	\$ 153.7	\$ 7.0	4.6	%
Europe	112.3	97.5	14.8	15.2	%

Edgar Filing: W R GRACE & CO - Form 10-Q

Asia Pacific	47.8	42.6	5.2	12.2	%
Latin America	24.1	21.3	2.8	13.1	%
Total Grace Performance Chemicals	\$ 344.9	\$ 315.1	\$ 29.8	9.5	%

Sales

The key factors contributing to Grace Performance Chemicals' sales increase were:

- Growth in commercial construction activity, particularly in Europe and Asia;
- Added distribution channels for residential building materials in the United States, which more than offset softness in new residential construction activity; and
- Expanded use of new product technologies worldwide.

Sales growth was strong in all regions, reflecting the above factors, as well as geographic expansion initiatives.

Pre-tax Operating Income

The increase in Grace Performance Chemicals' 2006 operating income was primarily a result of sales volume growth as described above, selling price increases and productivity and cost containment initiatives, partially offset by raw material cost inflation.

I-37

Nine months Ended September 30, 2006

Net Sales by Region (In millions)	Nine Months Ended September 30,		\$ Change Fav (Unfav)	% Change Fav (Unfav)	
	2006	2005			
North America	\$ 471.1	\$ 437.2	\$ 33.9	7.8	%
Europe	320.5	283.0	37.5	13.3	%
Asia Pacific	134.6	123.3	11.3	9.2	%
Latin America	69.7	57.7	12.0	20.8	%
Total Grace Performance Chemicals	\$ 995.9	\$ 901.2	\$ 94.7	10.5	%

Sales

Sales increases for the nine months ended September 30, 2006 reflected similar economic conditions and results from internal programs as in the three months ended September 30, 2006, augmented by stronger residential construction activity in the first half of the year.

Pre-tax Operating Income

The increase in operating income for the nine months ended September 30, 2006 was a result of the sales increases described above, as well as positive results from productivity and cost containment initiatives, partially offset by raw material cost inflation.

Operating Returns on Assets Employed The following tables set forth the Grace Davison and Grace Performance Chemicals total asset position and pre-tax return on average total assets as of September 30, 2006 and December 31, 2005. We use the measure pre-tax return on average total assets as an indicator of our efficiency in using our assets and allocating our resources to generate earnings. We devote significantly higher capital to the manufacture of Grace Davison products than to the manufacture of Grace Performance Chemicals products. Conversely, non-manufacturing costs, particularly selling expenses, are significantly higher for Grace Performance Chemicals than for Grace Davison.

Grace Davison

(In millions)	September 30, 2006	December 31, 2005	
Trade receivables	\$ 223.8	\$ 178.2	
Inventory	192.2	177.6	
Other current assets	17.2	24.3	
Total current assets	433.2	380.1	
Properties and equipment, net	394.6	390.7	
Goodwill and other intangible assets	108.5	98.2	
Other assets			
Total assets	\$ 936.3	\$ 869.0	
Pre-tax return on average total assets	18.4	% 17.9	%

Grace Davison's total assets increased by \$67.3 million in the first nine months of 2006. The increase primarily was due to higher trade receivables caused by increased sales, and higher inventory in response to sales growth and seasonality.

Grace Performance Chemicals

(In millions)	September 30, 2006	December 31, 2005	
Trade receivables	\$ 262.0	\$ 222.7	
Inventory	95.2	100.7	
Other current assets	14.1	15.7	
Total current assets	371.3	339.1	
Properties and equipment, net	239.1	226.4	
Goodwill and other intangible assets	91.2	93.5	
Other assets	6.7	6.6	
Total assets	\$ 708.3	\$ 665.6	
Pre-tax return on average total assets	24.9	% 22.4	%

Edgar Filing: W R GRACE & CO - Form 10-Q

Grace Performance Chemicals' total assets increased by \$42.7 million in the first nine months of 2006, mainly due to higher trade receivables as a result of increased sales.

Noncore Liabilities

We have a number of financial exposures originating from past businesses, products and events. These obligations arose from transactions and/or business practices that date to when Grace was a much larger company, when we produced products or operated businesses that are no longer part of our revenue base, when government regulation was less stringent and when scientific knowledge with respect to such businesses and products was much less advanced than today.

The following table summarizes our net noncore liabilities at September 30, 2006 and December 31, 2005:

Net Noncore Liabilities <i>(In millions)</i>	September 30, 2006	December 31, 2005
Asbestos-related liabilities	\$ (1,700.0)	\$ (1,700.0)
Asbestos-related insurance receivable	500.0	500.0
Asbestos-related liability, net	(1,200.0)	(1,200.0)
Environmental remediation	(363.2)	(342.0)
Postretirement benefits	(86.4)	(101.3)
Income taxes	(133.7)	(136.5)
Retained obligations and other	(20.1)	(23.4)
Net noncore liability	\$ (1,803.4)	\$ (1,803.2)

The resolution of most of these noncore recorded liabilities and contingent liabilities will be determined through the Chapter 11 proceedings. We cannot predict with any certainty how, and for what amounts, any of these contingencies will be resolved. The amounts of these liabilities as ultimately determined through the Chapter 11 proceedings could be materially different from amounts recorded at September 30, 2006.

Plan of Reorganization

As described under "Voluntary Bankruptcy Filing" in Notes 1 and 2 to the Consolidated Financial Statements, Grace and our principal U.S. operating subsidiary are debtors-in-possession under Chapter 11 of the bankruptcy code. Our non-U.S. subsidiaries, although not part of the Chapter 11 filing, are owned directly or indirectly by our principal operating subsidiary or other filing entities. Consequently, we expect that any Chapter 11 plan of reorganization, including our proposed plan of reorganization, will involve the combined value of our global businesses and other assets to fund (with cash and/or securities) our obligations as adjudicated through the bankruptcy process. We have analyzed our cash flow and capital needs to continue to fund our businesses and believe that, while in Chapter 11, sufficient cash flow and credit facilities are available to support our business strategy.

On January 13, 2005, we filed a plan of reorganization and related documents that amended our original plan of reorganization and disclosure statement filed on November 13, 2004 to address certain objections of creditors and other interested parties. The plan of reorganization is supported by committees representing general unsecured creditors and equity holders, but is not supported by committees representing asbestos personal injury claimants and asbestos property damage claimants or the representative of future asbestos claimants. See Note 2 to the Consolidated Financial Statements for more information on the plan of reorganization.

Risks of the plan of reorganization We intend to address all pending and future asbestos-related claims and all other pre-petition claims as outlined in the plan of reorganization. However, we may not be successful in obtaining approval of the plan of reorganization by the bankruptcy court. Instead, a materially different plan of reorganization may ultimately be approved and, under the ultimate plan of reorganization, the interests of our shareholders could be substantially diluted or cancelled. The value of Grace common stock following a plan of reorganization, and the extent of any recovery by non-asbestos-related creditors, will depend principally on the allowed value of our asbestos-related claims as determined by the bankruptcy court.

Our proposed plan of reorganization assumes several fundamental conditions including that:

- Our asbestos-related liabilities can be resolved at a net present value cost of no more than \$1,700 million (including \$87 million for pre-petition asbestos-related contractual settlements and judgments), including all property damage claims (including claims related to our former Zonolite Attic Insulation, or ZAI, product) and all pending and future personal injury claims; and
- The benefit of assets from litigation settlement agreements with Sealed Air Corporation and its subsidiary, Cryovac, Inc., and Fresenius Medical Care Holdings, Inc. will be available to satisfy liabilities under the plan of reorganization.

There can be no guarantee that these two fundamental conditions can be met. The measure of our asbestos-related liabilities could be settled by the bankruptcy court (in conformity with the plan of reorganization or otherwise), by a negotiation with interested parties, and/or by legislation for the personal injury component of this contingency.

In May 2005, the U.S. Senate Judiciary Committee reported the Specter-Leahy Fairness in Asbestos Injury Resolution Act of 2005, or FAIR, to the U.S. Senate. The FAIR bill is intended to create a fair and efficient system to resolve claims of victims for personal injury caused by asbestos exposure. FAIR, as reported, provides for the creation of a government-administered trust, to be funded by payments from insurers and defendant companies. It also includes medical criteria against which monetary values have been assigned so that people with an asbestos-related condition will receive compensation under a no-fault system.

Under the current version of FAIR, our required payments to the fund would be approximately \$30.4 million payable annually over a period of up to 30 years.

Whether FAIR, as reported or as it may be amended, is enacted into law is highly uncertain. Legislation to provide a resolution for asbestos personal injury mass tort litigation has been considered many times before and in no instance has legislation passed both houses of Congress. A resolution of personal injury claims based on FAIR

I-39

may not satisfy the conditions precedent under the litigation settlement agreements with Sealed Air and Fresenius and, therefore, may reduce or eliminate the availability of those assets to fund a plan of reorganization.

Any resolution, other than that reflected in the plan of reorganization, could have a material adverse effect on the percentage of Grace common stock to be retained by our current shareholders beyond that reflected in the proforma financial information presented below. We will adjust our financial statements and the proforma effects of the plan of reorganization as facts and circumstances warrant.

Proforma Financial Information The plan of reorganization, as described above, contains certain assumptions that can only be confirmed with certainty at, or near, its effective date. The unaudited proforma financial information presented below reflects the accounting effects of our proposed plan of reorganization (1) as if it were put in effect on the date of our most recent consolidated balance sheet, September 30, 2006, and (2) as if it were in effect for (a) the full year ended December 31, 2005, and (b) the nine months ended September 30, 2006. Proforma adjustments for tax effects have been applied at a 35% tax rate. The proforma financial information included herein, may not be consistent with the plan of reorganization documents filed on January 13, 2005 due to subsequent changes in operations and accounting estimates. Such proforma financial statements reflect how our assets, liabilities, equity and income would be affected by the plan of reorganization as follows:

A. Borrowings Under New Debt Agreements and Contingencies

The plan of reorganization reflects the assumption that \$1,000 million in debt financing will be available to fund settled claims payable at the effective date of the plan of reorganization (approximately \$800 million) and to provide working capital (approximately \$200 million) for continuing operations. No such financing currently exists but, we expect, based on discussions with prospective lenders, our sustained level of core operations while we have operated under Chapter 11, and publicly available information regarding funding available to comparable companies, that we could obtain financing at this level before the plan of reorganization is effective. In addition, the proforma financial information reflects \$150 million in contingencies to pay professional and bank fees, other non-operating liabilities and their related tax effects that will not become liabilities until the effective date of the plan of reorganization. The \$26.3 million adjustment to increase deferred taxes reflects the tax impact on \$150 million in contingencies as described above, of which we estimate 50% would be deductible for tax purposes. Proforma adjustments related to the borrowings under new debt financing and contingencies have been denoted by the capital letter **A** in the proforma balance sheet presented below.

B. Fresenius and Sealed Air Settlements

The plan of reorganization reflects the value, in the form of cash and securities, expected to be realized under litigation settlement agreements as follows: \$115.0 million of cash from Fresenius; and, \$1,114.5 million of estimated value from Cryovac, Inc., a subsidiary of Sealed Air (calculated as of September 30, 2006) in the form of \$512.5 million of cash plus accrued interest at 5.5% from December 21, 2002 compounded annually (approximately \$114.9 million), and nine million shares of Sealed Air common stock valued at \$54.12 per share (approximately \$487.1 million). Tax accounts have been adjusted to reflect the satisfaction of our recorded liabilities by way of these third-party agreements. The Fresenius settlement amount will be payable directly to Grace and will be accounted for as income; however, we have presented the amount of the settlement as a proforma balance sheet adjustment only in order to avoid distorting the predictive value of the proforma statement of operations with this one-time gain. Payments under the Sealed Air settlement will be paid directly to the asbestos trust by Cryovac and will be accounted for as satisfaction of a portion of our recorded asbestos-related liability and a credit to shareholder's equity. In addition, the valuation allowance related to our federal deferred tax assets will not be required as a result of these settlements and has therefore been reversed. Both the Sealed Air and Fresenius settlements are subject to the fulfillment of specified conditions. The \$(40.3) million adjustment to deferred income taxes in the proforma balance sheet below represents the tax impact of the \$115.0 million Fresenius settlement. The \$(342.1) million adjustment to deferred income taxes represents the tax impact of the \$1,114.5 Sealed Air settlement, less a \$48.0 million

adjustment to reverse the deferred tax asset valuation allowance. Proforma adjustments related to the Fresenius and Sealed Air settlements have been denoted by the capital letter **B** in the proforma balance sheet presented below.

C. Payment of Pre-Petition Liabilities

The plan of reorganization reflects the transfer of funds and securities to settle estimated obligations payable under the plan of reorganization at the effective date. We would be required to issue approximately 40.8 million shares of Grace common stock, based on the closing price per share of \$13.26 on September 30, 2006, for total proceeds of \$540.4 million, and utilize cash of \$1,054.6 million to settle these estimated obligations (see the adjustments denoted by the capital letter **C** in the proforma balance sheet below). We have adjusted tax accounts to reflect the change in the nature of our tax assets from predominately temporary differences to predominately time-limited tax net operating losses for the payment of tax-deductible obligations such as asbestos claims and environmental claims (see the adjustments denoted by the capital letter **D** in the proforma balance sheet below). We have assumed non-asbestos pass-through liabilities will be paid in cash when due. A portion of the funding required to meet our emergence obligations will involve repatriating monies through a dividend from certain non-U.S. subsidiaries. We believe that the reserve related to repatriation of funds presently recorded will be adequate to absorb the U.S. tax effects of this dividend, assuming that we employ certain tax planning strategies to preserve our net operating losses.

The following table presents a more detailed description of the proforma tax effects on our deferred tax assets related to net operating losses and temporary differences, net of valuation allowance of 1) the payment of pre-petition liabilities, 2) the Fresenius/Sealed Air payments, and 3) the structuring of emergence financing and receipt of dividends.

Summary of Change in Deferred Tax Asset Balances (In millions)	Tax Effects of Net Operating Loss Carry- Forwards	Temporary Differences, Net of Valuation Allowance
September 30, 2006 Balance As Reported	\$ 39.4	\$ 697.8
Proforma Adjustments:		
Contingent liabilities		26.3

September 30, 2006 Proforma Balance	\$ 98.4	\$ 282.7

D. Proforma Consolidated Statement of Operations and Capital Structure

The proforma income adjustments to our September 30, 2006 and December 31, 2005 Consolidated Statements of Operations consist of:

- The elimination of all recorded charges and expenses directly related to Chapter 11, as these costs would be eliminated upon effectiveness of the Plan, and the elimination of provisions recorded for environmental remediation obligations as we expect this risk would be resolved under the Plan (these eliminations are denoted by the capital letter **E** in the proforma statements of operations below);
- Adjustments to reduce Selling, General and Administrative expenses and Other Income to eliminate noncore legal expenses, and noncore insurance income related to asbestos litigation, as the liabilities to which these noncore activities relate would be settled as part of the Plan (these adjustments are denoted by the letter **F** in the proforma statements of operations below);

Edgar Filing: W R GRACE & CO - Form 10-Q

- The elimination of interest expense associated with pre-petition bank debt, and the addition of interest expense associated with the new \$1,000.0 million in financing as discussed above, which results in the net increase in interest expense denoted by the

I-41

adjustments marked by the letter **G** in the proforma statements of operations below;

- The tax effects of the proforma statements of operations adjustments at our effective tax rate (see the adjustments denoted by the capital letter **H** in the proforma statements of operations below); and
- The addition of new shares of Grace common stock related to the assumed financing of the plan of reorganization (see the adjustments denoted by the capital letter **I** in the proforma statements of operations below).

Proforma expenses reflect an assumed 7.4% average interest rate on outstanding borrowings, based on market conditions as of September 30, 2006. A hypothetical 1/8 percent variance in interest rates would increase or decrease our proforma net income (loss) by approximately \$0.7 million and \$0.5 million for the full year 2005 and the nine months ended September 30, 2006, respectively.

For purposes of proforma earnings per share and proforma share capital, we used the trading price of \$13.26 per share as of September 30, 2006 for calculating issued and outstanding shares. At this per share valuation, we assume that 40.8 million shares will be issued at the effective date of the plan of reorganization to fund asbestos and general unsecured claims, 9.8 million shares would be issuable upon exercise of warrants to satisfy our estimate of PI-AO claims, and 1.8 million shares would be issued upon exercise of in-the-money stock options. We present the trading value solely to show proforma Consolidated Statements of Operations. This trading value may not be indicative of the actual trading value of Grace common stock following the effective date of the plan of reorganization. If our distributable value per share at the effective date of the plan of reorganization is below approximately \$7.70 per share, we would be required to revalue our balance sheet for a change in control. (The trading value of Grace common stock over the twelve-month period ended September 30, 2006 was between \$6.75 and \$17.49 per share.) These proforma financial statements reflect no change in assets or income related to this potential accounting outcome.

E. Non-asbestos Contingencies

The accompanying proforma financial information assumes all non-asbestos related contingencies (including environmental, tax and civil and criminal litigation) are settled for recorded amounts as of September 30, 2006. Certain liabilities are assumed to be paid at the effective date of the plan of reorganization based on our estimate of amounts that will be determinable and payable. The remainder, which would also be subject to the plan of reorganization, if approved, is assumed to be paid subsequent to the effective date of the plan of reorganization as amounts are either not due until a later date or will be determined through post-effective-date litigation. The ultimate value of such claims may change materially as Chapter 11 and other legal proceedings further define our non-asbestos related obligations.

Asbestos-Related Litigation See Note 3 to the Consolidated Financial Statements.

Environmental Matters See Note 12 to the Consolidated Financial Statements.

Defined Contribution Retirement Plans We sponsor a defined contribution retirement plan for our employees in the United States. This plan qualifies under section 401(k) of the U.S. tax code. At the present time, we contribute an amount equal to 100% of employee contributions, up to 6% of an individual employee's salary or wages. We contributed \$3.0 million and \$10.9 million in the three-month and nine-month periods ended September 30, 2006, respectively, compared to \$2.5 million and \$9.9 million in the comparable prior year periods.

Defined Benefit Pension Plans We sponsor defined benefit pension plans for our employees in the United States, Canada, the United Kingdom, Australia, Germany, Italy, France, Spain, Denmark, Japan, Philippines, South Korea, Taiwan, South Africa, Brazil and Mexico and fund government sponsored programs in other countries where we operate. Certain of our sponsored plans are advance-funded and others are pay-as-you-go. The advance-funded plans are administered by trustees who direct the management of plan assets and arrange to have obligations paid when due out of a trust. The most significant advance-funded plans cover our salaried employees in the U.S. and U.K. and employees covered by collective bargaining agreements at certain of our U.S. facilities.

The following table presents the components of net pension expense and cash contributions for the advance-funded and pay-as-you-go plans:

Components of Net Pension Expense <i>(In millions)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Annual pension benefits earned	\$ 6.2	\$ 5.6	\$ 18.4	\$ 17.6
Interest on opening liability—advance-funded plans	16.3	16.3	48.6	48.6
Expected return on funded assets	(17.8)	(16.7)	(53.1)	(50.2)
Net financing of advance-funded plans	(1.5)	(0.4)	(4.5)	(1.6)
Interest on opening liability—pay-as-you-go plans	2.8	2.5	8.1	7.9
Net pension financing costs	1.3	2.1	3.6	6.3
Amortization of:				
Plan changes related to prior service	0.9	1.4	2.4	4.4
Accumulated differences between actual and assumed performance(1)	7.5	8.2	23.1	23.4
Net curtailment and settlement loss				2.7
Net pension catch-up expense	8.4	9.6	25.5	30.5
Total Net Pension Expense	\$ 15.9	\$ 17.3	\$ 47.5	\$ 54.4

Cash Contributions to Defined Benefit Pension Plans <i>(In millions)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
U.S. advance-funded plans	\$ 65.1	\$ 15.4	\$ 95.3	\$ 15.4
U.S. pay-as-you-go plans	1.3	1.2	3.9	9.5
Foreign advance-funded plans	2.2	2.3	6.4	5.5
Foreign pay-as-you-go plans	1.3	0.7	3.9	2.4
Total Cash Contributions	\$ 69.9	\$ 19.6	\$ 109.5	\$ 32.8

- (1) Primarily related to return on assets, termination, mortality, and data corrections

At the December 31, 2005 measurement date for the U.S. advance-funded defined benefit pension plans, the accumulated benefit obligation, or ABO, was approximately \$965 million as measured under U.S. generally accepted accounting principles. The ABO is measured as the present value (using a 5.5% discount rate as of December 31, 2005) of vested and non-vested benefits earned from employee service to date, based upon current salary levels. This discount rate is based on a high quality bond portfolio designed to meet the payout pattern of the pension plans. Of the participants in the pension plans, approximately 80% are current

I-44

retirees or employees of our former businesses, which skews the payout pattern to the nearer term. Assets available to fund the ABO at December 31, 2005 were approximately \$645 million, or approximately \$320 million less than the measured obligation.

Assets available at September 30, 2006 to fund the ABO of the U.S. advance-funded defined benefit pension plans totaled approximately \$715 million up \$70 million from December 31, 2005, primarily as a result of current year contributions. It is our intention to satisfy obligations under the pension plans and to comply with the requirements of the Employee Retirement Income Security Act of 1974. On June 16, 2006, we obtained bankruptcy court approval to fund minimum required payments of approximately \$92 million for the period from July 2006 through January 2007 for U.S. advance-funded plans. These estimated payments reflect the impact of the Pension Protection Act of 2006, which extended the interest rates required under the Pension Funding Equity Act of 2004 for plan years commencing in 2006 and 2007. In that regard, we contributed approximately \$20 million in July 2006, approximately \$45 million in September 2006 and approximately \$6 million in October 2006, to the trusts that hold the assets of these pension plans. There can be no assurance that the bankruptcy court will continue to approve arrangements to satisfy the funding needs of the Plans. Contributions to non-U.S. plans are not subject to bankruptcy court approval and we intend to fund such plans based on actuarial and trustee recommendations; \$3.5 million and \$10.3 million was funded during the three months and nine months ended September 30, 2006, respectively.

We expect total pension expense for 2006 to be approximately \$63 million, and benefit payments to retirees to aggregate approximately \$96 million for all pension programs in 2006. At September 30, 2006, our recorded pension liability for U.S. and non-U.S. underfunded plans was \$481.6 million (\$392.6 million included in liabilities not subject to compromise and \$89.0 million related to supplemental pension benefits, included in liabilities subject to compromise) which includes the following components: (1) shortfall between dedicated assets and ABO of underfunded plans (\$254.8 million); and (2) ABO of pay-as-you-go plans (\$226.8 million).

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*. SFAS No. 158 requires an employer to recognize the funded status of defined benefit pension plans and other postretirement benefit plans as an asset or liability in its statement of financial position, and requires recognition in other comprehensive income of gains or losses and prior service costs or credits arising during the period but which are not included as components of net periodic benefit cost. SFAS No. 158 is effective for the year ending December 31, 2006. We are not currently able to quantify the estimated effects of the adoption of SFAS No. 158 to our statement of financial position, as actual amounts will depend on year-end assumptions and calculations. If we had adopted SFAS No. 158 effective December 31, 2005, we estimate that, after tax effects, reported total assets would have decreased by approximately \$55 million, reported total liabilities would have increased by approximately \$43 million, and reported total shareholders' deficit would have increased by approximately \$98 million. We do not expect the adoption of SFAS No. 158 to have a material impact on our consolidated results of operations.

Postretirement Benefits Other Than Pensions We provide certain health care and life insurance benefits for retired employees, a large majority of whom are retirees of divested businesses. These plans are unfunded, and we pay the costs of benefits under these plans as they are incurred. Our share of benefits under this program was \$4.2 million and \$10.7 million during the three months and nine months ended September 30, 2006, compared with \$3.2 million and \$8.3 million during the three months and nine months ended September 30, 2005. Our recorded liability for postretirement benefits of \$86.4 million at September 30, 2006 is stated at net present value discounted at 5.5% (as discussed under Defined Benefit Pension Plans). Our proposed plan of reorganization provides for the continuation of these benefits.

Cash Resources and Available Credit Facilities At September 30, 2006, we had \$453.7 million in

cash and cash equivalents and \$86.9 million in net cash value of life insurance. In addition, we had access to committed credit facilities in the U.S., Germany and France. In the U.S., under the \$250.0 million DIP facility, \$192.8 million was available at September 30, 2006, net of letters of credit and holdback provisions. The term of the DIP facility expires April 1, 2008. In Germany, under a 10.0 million line of credit, we had access to 4.5 million at September 30, 2006, net of bankers guarantees and other holdbacks. The term of the facility expires January 17, 2007. In France, under a 3.9 million line of credit, we had access to 3.5 million at September 30, 2006, net of bankers guarantees. The term of the facility expires May 31, 2007. We believe that these funds and credit facilities will be sufficient to finance our operations while in Chapter 11.

Debt and Other Contractual Obligations Total debt outstanding at September 30, 2006 was \$728.9 million, including \$210.9 million of accrued interest on pre-petition debt. As a result of the Chapter 11 filing, we are now in default on \$514.4 million of pre-petition debt, which, together with accrued interest thereon, is included in liabilities subject to compromise in the accompanying Consolidated Balance Sheet as of September 30, 2006. The automatic stay provided under the bankruptcy code prevents our lenders from taking any action to collect the principal amounts as well as related accrued interest. However, we will continue to accrue and report interest on such debt during the Chapter 11 proceedings unless further developments lead management to conclude that it is probable that such interest will be compromised.

See Note 12 to the Consolidated Financial Statements for a discussion of financial assurances.

Analysis of Cash Flows

Our net cash flow from operating activities for the nine months ended September 30, 2006 was \$49.4 million, compared with \$14.8 million for the prior year period. The higher cash flow is attributable to improved operating results in 2006 and the non-recurrence of \$119.7 million paid to settle tax and environmental contingencies in 2005. Pre-tax income from core operations before depreciation and amortization was \$275.3 million, 11.6% higher than in the prior year period, a result of the higher income from core operations described above. Cash used for investing activities was \$95.0 million, compared with \$40.3 million for the prior year period, primarily reflecting capital replacements and investments in new production capacity, and the acquisition of a custom catalyst business in June 2006.

Cash Flow from Core Operations The following table presents the components of net cash flow from core operations for the nine months ended September 30, 2006 and 2005.

	Nine Months Ended September 30,	
	2006	2005
Core Operations		
<i>(In millions)</i>		
Cash flows:		
Pre-tax operating income	\$ 189.6	\$ 155.4
Depreciation and amortization	85.7	91.2
Pre-tax income before depreciation and amortization	275.3	246.6
Working capital and other changes	(102.7)	(68.0)
Cash flow before investing	172.6	178.6
Capital expenditures	(82.5)	(59.2)
Businesses acquired	(20.0)	(2.5)
Net cash flow from core operations	\$ 70.1	\$ 116.9

We expect to continue to invest excess cash flow and/or other available capital resources in our core business base. We expect that these investments are likely to be in the form of additional plant capacity, product line extensions, geographic market expansions, and/or acquisitions in existing product lines. Investments that are outside the ordinary course of business may be subject to bankruptcy court approval and review by the Chapter 11 creditor committees.

Cash Flow from Noncore Activities The cash flow from our noncore activities can be volatile. Expenditures are generally governed by bankruptcy court rulings and receipts are generally non-recurring. Much of the noncore spending in the past three years has been under Chapter 11 first-day motions that allow us to fund postretirement benefits and required environmental remediation on Grace-owned sites. Cash inflows have been from asbestos-related insurance recovery

on pre-Chapter 11 liability payments, and unusual events.

	Nine Months Ended September 30,	
	2006	2005
Noncore Activities		
<i>(In millions)</i>		
Cash flows:		
Pre-tax income (loss) from noncore activities	\$ (88.9)	\$ (2.7)
Other non-cash charges	46.2	12.2
Cash spending for:		
Noncore contingencies:		
Tax settlement		(90.0)
Environmental settlements		(29.7)
Environmental remediation	(8.7)	(4.7)
Postretirement benefits	(10.7)	(8.3)
Retained obligations and other	(2.7)	(0.7)
Net cash flow from noncore activities	\$ (64.8)	\$ (123.9)

Net cash flow from core operations and net cash flow from noncore activities do not represent income or cash flow as defined under generally accepted accounting principles, and you should not consider them to be an alternative to such measures as an indicator of our performance. We provide these measures so that you can distinguish the cash flows of our current business base from the cash flows of past businesses, discontinued products, and corporate legacies and the effect of our Chapter 11 proceedings, and to ensure that you understand the key data that management uses to evaluate our cash flows.

Forward-Looking Statements

This document contains, and our other public communications may contain, forward-looking information, that is, information related to future, not past, events. Such information generally includes the words believes, plans, intends, targets, will, expects, anticipates, and similar expressions. Forward-looking information includes all statements regarding our Chapter 11 proceeding (including the proforma financial statements included in Management's Discussion and Analysis of Financial Condition and Results of Operations); expected financial position; results of operations; cash flows; financing plans; business strategy; budgets; capital and other expenditures; competitive positions; growth opportunities for existing products; benefits from new technology and cost reduction initiatives, plans and objectives; and markets for securities. For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Factors that could cause actual results to materially differ from those contained in the forward-looking statements include: our bankruptcy and proposed plan of reorganization, our legal proceedings, especially the Montana criminal proceeding and the environmental proceedings, the cost and availability of raw materials, especially natural gas and petroleum-based raw materials, our unfunded pension obligations, risks related to foreign operations, especially, security, regulation and currency risks, costs of compliance with environmental regulation and those factors set forth in our most recent Annual Report on Form 10-K, this quarterly report on Form 10-Q and current reports on Form 8-K, which have been filed with the Securities and Exchange Commission. Like other businesses, we are subject to risks and uncertainties that could cause our actual results to differ materially from our projections or that could cause other forward-looking information to prove incorrect. Further, our reported results should not be considered as an indication of our future performance. Readers are cautioned not to place undue reliance on our projections and forward-looking information, which speak only as of the date thereof. We undertake no obligation to publicly release any revisions to the projections and forward-looking information contained in this document, or to update them to reflect events or circumstances occurring after the date of this document.

I-47

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Grace's debt obligations, its global operations, the nature of the specialty chemicals production process and the industry in which it engages expose Grace to various market risks. Grace utilizes derivative financial instruments and derivative commodity instruments to mitigate certain of its market risks. The following is a discussion of Grace's primary market risk exposures, how those exposures are managed, and certain quantitative data pertaining to Grace's market risk sensitive instruments.

Interest Rate Risk

Interest rate fluctuations directly affect interest expense and cash to be paid out in the form of interest payments on variable-rate debt, and can potentially lead to changes in the market value of the associated variable-rate debt.

Grace has \$500 million of outstanding pre-petition variable-rate borrowings under bank revolving credit agreements, and interest is accrued on this debt based on the prime rate as quoted by Bloomberg (the "Prime rate"). Due to the Filing, interest accrued on pre-petition debt is added to the principal balance. As of September 30, 2006, total interest accrued on this debt and added to the \$500 million principal was \$208.5 million. If the Prime rate were to vary in the near-term by one percentage point, the effect would be to increase or decrease interest expense and outstanding principal by approximately \$7.5 million over the twelve-month period ended September 30, 2007.

Grace also maintains a \$250 million debtor-in-possession facility (DIP). The interest rate under this facility is based on LIBOR, a variable rate. As of September 30, 2006, no amount was outstanding under this facility, and \$192.8 million was available to Grace, net of letters of credit and holdback provisions.

Grace does not currently use derivative instruments to attempt to mitigate its interest rate risk.

Foreign Currency Exchange Rate Risk

Because Grace does business in over 40 countries, results are exposed to fluctuations in foreign exchange rates. Grace seeks to minimize exposure to these fluctuations by matching revenue streams in volatile currencies with expenditures in the same currencies, but it is not always possible to do so. From time to time, Grace uses financial instruments such as foreign currency forward contracts, options, or combinations of the two to reduce the risk of certain specific transactions. However, Grace does not have a policy of hedging all exposures, because management does not believe that such a level of hedging would be cost-effective, particularly translation exposures that are not expected to affect cash flows in the near-term. Significant uses of derivatives to mitigate the effects of changes in foreign currency exchange rates are as follows:

In May 2004, Grace purchased forward contracts with a U.S. bank to minimize currency risk related to a Euro-denominated intercompany loan due from a German subsidiary of Grace to a U.S. subsidiary of Grace. In June 2005, Grace extended a portion of the forward contract amounts to dates that mature on the dates of the scheduled principal repayments. As part of the contract extension, Grace was required to pay a settlement premium of \$9.3 million to the bank. Grace expects this settlement premium will be recovered over time as the contracts are settled at rates greater than the initial rates in the May 2004 foreign currency forward contracts. Currency fluctuations on this loan are recorded as a component of operating results. The loan is denominated in Euros, and the total amount outstanding under the intercompany loan was \$153.1 million as of September 30, 2006 (approximately \$194.1 million).

The following table provides information about Grace's significant foreign currency forward exchange agreements as of September 30, 2006, specifically, the notional amounts and weighted average exchange rates by expected (contractual) maturity dates. These notional amounts generally are used to calculate the

I-48

contractual payments to be exchanged under the contract. The fair values represent the fair value of the derivative contracts.

Forward Exchange Agreements (Receive \$U.S./Pay Euros)	Expected Maturity Date			Total	Fair Value
	2006	2007	2008		
Contract amount (in millions of \$U.S.)	\$ 23.0	\$ 92.8	\$ 79.1	\$ 194.9	\$ (6.3)
Average contractual exchange rate, \$U.S. to Euros	1.26	1.27	1.28	1.27	N/A

Grace's U.S. subsidiaries purchase a significant amount of products from Grace Canada, and these purchases are denominated in Canadian dollars (CAD). From time to time, Grace may purchase foreign currency exchange rate forward contracts and/or options in order to reduce the impact of currency exchange to Grace's consolidated gross margin as a result of intercompany transactions denominated in CAD. In the third quarter of 2006, Grace U.S. purchased options to acquire CAD from a U.S. financial institution to hedge foreign currency exposures related to intercompany purchases of products from Grace Canada. Grace U.S. entered into contracts with a total notional value of 4.9 million CAD (approximately \$4.4 million as of September 30, 2006) and a weighted average strike price of CAD 1.1063/\$U.S. All foreign currency options contracts entered into as of September 30, 2006 will expire by December 31, 2006. The fair value of these options at September 30, 2006 was not material.

The fair values of foreign currency exchange rate derivative contracts are presented as other assets or other liabilities and allocated between current and non-current, as appropriate, in the Consolidated Balance Sheets.

Commodity Price Risk

Grace operates in markets where the prices of raw materials and energy are commonly affected by cyclical movements of the economy. The principal raw materials used in Grace's products include caustic, alumina, rare earths, nickel, aluminum, cobalt carbonate, kaolin, molybdenum, sodium aluminate, sodium silicate, olefins, gypsum, resins, rubber and latices. Natural gas is the largest single energy source that Grace purchases. These commodities are generally available to be purchased from more than one supplier. In order to minimize the risk of increasing prices on its significant raw materials and energy, Grace has moved towards a centralized supply chain organization for procurement in order to improve purchasing activities. Grace has also formed a risk management committee to review proposals to hedge purchases of raw materials, energy and currency.

Natural gas prices can be volatile, as experienced during 2005 in the aftermath of Hurricanes Katrina and Rita in the Gulf Coast. These disasters caused a significant increase in natural gas prices that negatively impacted Grace's production costs in the third and fourth quarters of 2005. Grace has implemented an energy risk management program under which its goal is to hedge its natural gas supply in a way that provides protection against the continued price volatility of the natural gas market. In order to mitigate volatile natural gas prices, Grace has entered into forward contracts, fixed price swaps and options to hedge a portion of its 2006 and 2007 natural gas requirements. As of September 30, 2006, Grace has not entered into any commodity derivatives to hedge raw material prices.

The following table provides information about Grace's forward contracts, swaps and options that are sensitive to changes in commodity prices, specifically natural gas prices. Contract volumes, or notional amounts, are presented in millions of British thermal units (MMBtu), weighted average contract prices are presented in \$U.S. per MMBtu, and the total contract amount and fair value are presented in millions of \$U.S. The fair values represent the fair value of the derivative contracts. The fair value for swaps represents the excess of the variable price (market price) over the fixed price (pay price) multiplied by the nominal contract volumes. The fair value of options represents the excess of the market value amounts (as quoted on the New York Mercantile Exchange) over the contract amount.

Type of Contract	Contract Volumes	Maturity	Weighted Average Price (\$US/MMBtu)	Total Contract Amount	Fair Value
Forwards	990,000	2006	\$ 9.39	\$ 9.3	\$ 6.4
Forwards	570,000	2007	10.56	6.0	4.4
Swaps (long).	660,000	2007	7.93	5.2	(0.4)
Call Options (long)	200,000	2006	10.50	2.1	(0.3)

The fair value of commodity swaps and options derivative contracts are presented as other assets or other liabilities and allocated between current and non-current, as appropriate, in the Consolidated Balance Sheets. Grace's forward contracts for natural gas qualify for the normal purchases and normal sales exception from SFAS No. 133, as they do not contain net settlement provisions, and result in physical delivery of natural gas from suppliers. Therefore, the fair values of these contracts are not recorded in Grace's Consolidated Balance Sheets.

I-50

Item 4. **CONTROLS AND PROCEDURES**

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As of September 30, 2006, Grace carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act). Based upon that evaluation, Grace's Chief Executive Officer and Chief Financial Officer concluded that Grace's disclosure controls and procedures are effective to ensure that information required to be disclosed in Grace's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that material information relating to Grace is made known to management, including Grace's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes in Grace's internal control over financial reporting during the quarter ended September 30, 2006 that have materially affected, or are reasonably likely to materially affect, Grace's internal control over financial reporting.

I-51

PART II. OTHER INFORMATION

Item 1. **LEGAL PROCEEDINGS**

Notes 2, 3 and 12 to the interim consolidated financial statements in Part I of this Report are incorporated herein by reference.

Item 1A. **RISK FACTORS**

With respect to certain risk factors disclosed in the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2005, more recent numerical measures and other information are available in the Financial Statements, Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosures About Market Risk sections of this Report. These more recent measures and information are incorporated herein by reference.

Item 6. **EXHIBITS**

The following is a list of Exhibits filed as part of this Quarterly Report on Form 10-Q:

- 15 Accountants' Awareness Letter
- 31.(i).1 Certification of Periodic Report by Chief Executive Officer under Section 302 of the Sarbanes-Oxley Act of 2002
- 31.(i).2 Certification of Periodic Report by Chief Financial Officer under Section 302 of the Sarbanes-Oxley Act of 2002
- 32 Certification of Periodic Report by Chief Executive Officer and Chief Financial Officer under Section 906 of the Sarbanes-Oxley Act of 2002
