Explanatory Note

This report was initially filed on November 14, 2006 before our independent registered public accounting firm was able to complete its review of our interim financial statements for the quarterly periods ended September 30, 2006 and 2005. The sole changes to this form 10-Q/A are to eliminate references to the lack of independent registered public accounting firm review from the Explanatory Note and the certifications pursuant to Section 9-06 of the Sarbanes-Oxley Act of 2002 and to restate our Controls and Procedures contained in Item 4 of this report.

Background

As disclosed in Amendment No. 1 to our Form 10-K, we have restated our previously issued consolidated financial statements for the years ended December 31, 2005, 2004 and 2003 to correct an error in those financial statements relating to our derivative accounting under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133).

During the third quarter of 2006, we, in consultation with our independent registered public accounting firm, identified that our application of, and documentation related to, the short-cut method under SFAS No. 133 for our derivative instruments was incorrect. From inception of the hedging program, we applied a method of cash flow hedge accounting under SFAS No. 133 to account for the interest rate swap transactions that allowed us to assume the effectiveness of such transactions. We have determined that the prepayment clauses in the debt agreements, which had not been identified by us or by our accounting experts at implementation, disqualified us from being able to avoid periodic testing of effectiveness under SFAS no. 133. We are not permitted to retroactively apply an appropriate method of qualifying for hedge accounting treatment for these instruments and, as a result, the changes in the fair value of these derivative instruments during their term will be reflected as a net non-cash gain/loss in flooring interest expense rather than in other comprehensive income in the balance sheet. Following our discovery of the errors in the application and documentation of hedge accounting under SFAS No. 133, we initiated a comprehensive review of all of our determinations and documentation related to hedge accounting under the short cut method for our interest rate swaps, as well as our related processes and procedures.

Disclosure Controls and Procedures

We initially evaluated our disclosure controls and procedures (as such term is defined under Rule 13a-15(e) of the Exchange Act) as of the end of the period covered by this report under the direction and with the participation of our Chief Executive Officer and Chief Financial Officer. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer initially concluded that our disclosure controls and procedures were effective as of September 30, 2006.

In connection with the aforementioned restatement of financial statements, under the direction of our Chief Executive Officer and Chief Financial Officer, we reevaluated our disclosure controls and procedures and concluded that our disclosure controls and procedures were not effective as of September 30, 2006 due to a material weakness in internal control over financial reporting with respect to hedge accounting for interest rate swaps.

Remediation of Material Weakness

To remediate the material weakness described above and enhance our internal control over financial reporting, subsequent to the filing of this Form 10-Q/A, management will implement the following changes:

- Improve training and education and understanding of hedge accounting requirements in accordance with generally accepted accounting principles for all relevant personnel involved in derivatives transactions.
- Revise our documentation to qualify for hedge accounting in accordance with generally accepted accounting principles with the assistance of outside experts that have been engaged. This includes ongoing monitoring and review to ensure the continuing qualification of hedge accounting.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the above evaluation that occurred during the fiscal quarter ended September 30, 2006 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
