PART I

As used herein, the Registrant means McCormick & Company, Incorporated and its subsidiaries, unless the context otherwise requires.

Item 1. Business

The Registrant is a diversified specialty food company and a global leader in the manufacture, marketing and distribution of flavor products (including spices, herbs, extracts, seasonings and flavorings) and other specialty food products to the entire food industry. The Registrant's major sales, distribution and production facilities are located in North America and Europe. Additional facilities are located in Mexico, Central America, Australia, China, Singapore, Thailand and South Africa. The Registrant was formed in 1915 under Maryland law as the successor to a business established in 1889.

The Registrant operates in two business segments: consumer and industrial. The consumer segment sells spices, herbs, extracts, seasoning blends, sauces, marinades and specialty foods to the consumer food market under a variety of brands worldwide, including McCormick, Zatarain's, Simply Asia, Thai Kitchen, Ducros, Vahine, Silvo, Club House and Schwartz. The industrial segment blends, natural spices and herbs, wet flavors, coating systems and compound flavors to food manufacturers and the food service industry, served both directly and indirectly through distributors.

Please refer to pages 15 through 17, of the Registrant's Annual Report to Stockholders for 2007 for descriptions of the Registrant's consumer and industrial businesses, and pages 6, 7, 8, 11 and 16 of the Registrant's Annual Report to Stockholders for 2007 for a discussion of growth initiatives for the business. Such pages of the Registrant's Annual Report to Stockholders for 2007 are incorporated by reference.

For financial information about the Registrant's business segments, please refer to pages 18 through 22, Management's Discussion and Analysis, and Note 14, Business Segments and Geographic Areas of the Notes to Consolidated Financial Statements on pages 57 and 58 of the Annual Report to Stockholders for 2007, which pages are incorporated by reference.

For a discussion of the Registrant's recent acquisition activity, please refer to page 25, Management's Discussion and Analysis, and Note 2, Acquisitions of the Notes to Consolidated Financial Statements on page 45 of the Annual Report to Stockholders for 2007, which pages are incorporated by reference.

Raw Materials

The most significant raw materials to the Registrant are cheese, pepper, soybean oil, wheat, sweeteners, capsicums, garlic and onion. Pepper and other spices and herbs are generally sourced from countries other than the United States. Others, like cheese and onion, are primarily sourced from within the United States. The Registrant is not aware of any government restrictions or other factors that would have a material adverse effect on the availability of these raw materials. Because the raw materials are agricultural products, they are subject to fluctuations in market price and availability caused by weather, growing and harvesting conditions, market conditions and other factors beyond the Registrant's control. The Registrant responds to this volatility in a number of ways including strategic raw material purchases, purchases of raw material for future delivery and customer price adjustments.

Customers

The Registrant's products are sold directly to customers and also through brokers, wholesalers and distributors. In the consumer segment, products are resold to consumers through retail outlets, including grocery, mass merchandise, warehouse clubs, discount and drug stores under a variety of brands. In the industrial segment, products are used by food and beverage manufacturers as ingredients for their finished goods and by food service customers as ingredients for menu items to enhance the flavor of their foods. Customers for the industrial segment include food manufacturers and the food service industry, which are supplied both directly and through distributors.

The Registrant has a large number of customers for its products. In fiscal year 2007, sales to one of the Registrant's customers, PepsiCo, Inc., accounted for 10% of consolidated net sales. Sales to the Registrant's five largest customers represented approximately 28.5% of consolidated net sales for this period.

The dollar amount of backlog orders of the Registrant's business is not material to an understanding of the Registrant's business, taken as a whole. No material portion of the Registrant's business is subject to renegotiation of profits or termination of contracts or subcontracts at the election of the U.S. Government.

Trademarks, Licenses and Patents

The Registrant owns a number of trademark registrations. Although in the aggregate these trademarks may be material to the Registrant's business, the loss of any one of those trademarks, with the exception of the Registrant's McCormick, Club House, Ducros, Schwarzhahn and Zatarain's trademarks, would not have a material adverse effect on the Registrant's business. The McCormick trademark is extensively used by the Registrant in connection with the sale of virtually all of the Registrant's food products worldwide. The terms of the trademark registrations are as prescribed by law and the registrations will be renewed for as long as the Registrant deems them to be useful.

The Registrant has entered into a number of license agreements authorizing the use of its trademarks by affiliated and non-affiliated entities. The loss of these license agreements would not have a material adverse effect on the Registrant's business. The term of the license agreements is generally three to five years or until such time as either party terminates the agreement. Those agreements with specific terms are renewable upon agreement of the parties.

The Registrant owns various patents, but they are not viewed as material to the Registrant's business.

Seasonality

Due to seasonal factors inherent in the business, the Registrant's sales, income and cash from operations generally are lower in the first two quarters of the fiscal year, increase in the third quarter and are significantly higher in the fourth quarter due to the holiday season. The seasonality reflects customer and consumer buying patterns, primarily in the consumer segment.

Working Capital

In order to meet increased demand for its consumer products during its fourth quarter, the Registrant usually builds its inventories during the third quarter. The Registrant generally finances working capital items (inventory and receivables) through short-term borrowings, which include the use of lines of credit and the issuance of commercial paper. For a description of the Registrant's liquidity and capital resources, see Note 6 Financing Arrangements of the Notes to Consolidated Financial Statements on pages 48 and 49 of the Registrant's Annual Report to Stockholders for 2007, which pages are incorporated by reference, and the Liquidity and Financial Condition section of Management's Discussion and Analysis on pages 22 through 25 of the Registrant's Annual Report to Stockholders for 2007, which pages are incorporated by reference.

Competition

The Registrant is a global leader in the manufacture and sale of flavor products (including spices, herbs, extracts, seasonings and flavorings) and other specialty food products, and competes in a geographic market that is international and highly competitive. The Registrant's strategies for competing in each of its segments include a focus on price and value, product quality and innovation, and superior service.

Edgar Filing: MCCORMICK & CO INC - Form 10-K

Additionally, in the consumer segment, the Registrant focuses on brand recognition and loyalty, effective advertising and promotional programs, and the identification and satisfaction of consumer preferences. For further discussion, see pages 12, and 15 through 17 of the Registrant's Annual Report to Stockholders for 2007, which pages are incorporated by reference.

Research and Development

Many of the Registrant's products are prepared from confidential formulae developed by its research laboratories and product development teams. Expenditures for research and development were \$49.3 million in 2007, \$45.0 million in 2006 and \$43.1 million in 2005. The amount spent on customer-sponsored research activities is not material.

Environmental Regulations

The cost of compliance with federal, state and local provisions related to protection of the environment has had no material effect on the Registrant's business. There were no material capital expenditures for environmental control facilities in 2007 and there are no material expenditures planned for such purposes in 2008.

Employees

The Registrant had approximately 7,500 employees worldwide as of December 31, 2007. The Registrant believes its relationship with employees to be good. The Registrant has no collective bargaining contracts in the United States. At the Registrant's foreign subsidiaries, approximately 1,200 employees are covered by collective bargaining agreements or similar arrangements.

Financial Information About Geographic Locations

For information on the net sales and long-lived assets of the Registrant, see Note 14, "Business Segments and Geographic Areas" of the Notes to Consolidated Financial Statements on pages 57 and 58 of the Annual Report to Stockholders for 2007, and the "Market Risk Sensitivity" section of "Management's Discussion and Analysis" on pages 12 through 30 of the Registrant's Annual Report to Stockholders for 2007, which pages are incorporated by reference.

Foreign Operations

The Registrant is subject in varying degrees to certain risks typically associated with a global business, such as local economic and market conditions, restrictions on investments, royalties and dividends and exchange rate fluctuations. Approximately 40% of sales in 2007 were from international operations.

Forward-Looking Information

Edgar Filing: MCCORMICK & CO INC - Form 10-K

For a discussion of forward-looking information, see the **Forward-Looking Information** section of **Management's Discussion and Analysis** on page 33 of the Registrant's Annual Report to Stockholders for 2007, which page is incorporated by reference.

Available Information

The Registrant's Internet website address is: www.mccormick.com. The Registrant makes available free of charge through its website its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after such documents are

electronically filed with, or furnished to, the SEC. The Registrant's website also includes the Registrant's Corporate Governance Guidelines, Business Ethics Policy and charters of its Audit Committee, Compensation Committee and Nominating/Corporate Governance Committee. These documents are also available in print to any shareholder upon request.

Item 1A. Risk Factors

The following are certain risk factors that could affect the Registrant's business, financial condition and results of operations. These risk factors should be considered in connection with evaluating the forward-looking statements contained in this Annual Report on Form 10-K because these factors could cause the actual results and conditions to differ materially from those projected in forward-looking statements. Before you buy the Registrant's common stock, you should know that making such an investment involves some risks, including the risks described below. The risks that have been highlighted here are not the only ones that the Registrant faces. If any of the risks actually occur, the Registrant's business, financial condition or results of operations could be negatively affected. In that case, the trading price of the Registrant's securities could decline, and you may lose all or part of your investment.

Damage To The Registrant's Reputation Or Brand Name Could Negatively Impact The Registrant.

The Registrant's reputation for manufacturing high quality products is widely recognized. In order to safeguard that reputation, the Registrant has adopted rigorous quality assurance and quality control procedures which are designed to ensure conformity to specification and compliance with law. The Registrant also continually makes efforts to increase its brand awareness and relevance, and to maintain and improve relationships with its customers and consumers. A serious breach of the Registrant's quality assurance or quality control procedures, or deterioration of its quality image, or impairment of its customer or consumer relationships, could have a material negative impact on its financial condition and results of operations.

Issues Regarding Procurement Of Raw Materials May Negatively Impact The Registrant.

The Registrant's purchases of raw materials are subject to fluctuations in market price and availability caused by weather, growing and harvesting conditions, market conditions, governmental actions and other factors beyond the Registrant's control. The most significant raw materials are cheese, pepper, soybean oil, wheat, sweeteners, capsicums, garlic and onion. While future movements of raw material costs are uncertain, the Registrant seeks to mitigate the market price risk in a number of ways, including strategic raw material purchases, purchases of raw material for future delivery and customer price adjustments. The Registrant has not used derivatives to manage the volatility related to this risk. Any actions taken in response to market price fluctuations may not effectively limit or eliminate the Registrant's exposure to changes in raw material prices. Therefore, the Registrant cannot provide assurance that future raw material price fluctuations will not have a negative impact on its business, financial condition or operating results.

In addition, the Registrant may have very little opportunity to mitigate the availability risk of certain raw materials due to the effect of weather on crop yield, political unrest in the producing countries, changes in governmental agricultural programs and other factors beyond the Registrant's control. Therefore, the Registrant cannot provide assurance that future raw material availability will not have a negative impact on its business, financial condition or operating results.

Further, political, socio-economic, and cultural conditions, as well as disruptions caused by terrorist activities, in developing countries create risks for food safety. Although the Registrant has adopted rigorous quality assurance and quality control procedures which are designed to ensure the safety of its imported products, the Registrant cannot provide assurance that such events will not have a negative impact on its business, financial condition or operating results.

The Registrant's Profitability May Suffer As A Result Of Competition In Its Markets.

The food industry is intensely competitive. Competition in the Registrant's product categories is based on price, product innovation, product quality, brand recognition and loyalty, effectiveness of marketing and promotional activity and the ability to identify and satisfy consumer preferences. From time to time, the Registrant may need to reduce the prices for some of its products to respond to competitive and customer pressures. Such pressures also may impair the Registrant's ability to take appropriate remedial action to address commodity and other cost increases.

The Registrant's Operations May Be Impaired As A Result Of Disasters, Business Interruptions Or Similar Events.

A natural disaster such as an earthquake, fire, flood, or severe storm, or a catastrophic event such as a terrorist attack, an epidemic affecting the Registrant's operating activities, major facilities, or employees' and customers' health, or a computer system failure, could cause an interruption or delay in the Registrant's business and loss of inventory and/or data or render the Registrant unable to accept and fulfill customer orders in a timely manner, or at all. In addition, some of the Registrant's inventory and production facilities are located in areas that are susceptible to harsh weather; a major storm, heavy snowfall or other similar event could prevent the Registrant from delivering products in a timely manner. The Registrant cannot provide assurance that its disaster recovery plan will address all of the issues it may encounter in the event of a disaster or other unanticipated issue, and the Registrant's business interruption insurance may not adequately compensate it for losses that may occur from any of the foregoing. In the event that an earthquake, natural disaster, terrorist attack or other catastrophic event were to destroy any part of the Registrant's facilities or interrupt its operations for any extended period of time, or if harsh weather or health conditions prevent the Registrant from delivering products in a timely manner, the Registrant's business, financial condition and operating results could be seriously harmed.

The Registrant May Not Be Able To Successfully Consummate Proposed Acquisitions Or Divestitures Or Integrate Acquired Businesses.

From time to time, the Registrant may acquire other businesses and, based on an evaluation of its business portfolio, divest existing businesses. These potential acquisitions and divestitures may present financial, managerial and operational challenges, including diversion of management attention from existing businesses, difficulty with integrating or separating personnel and financial and other systems, increased expenses, assumption of unknown liabilities, and indemnities and potential disputes with the buyers or sellers. In addition, the Registrant may be required to incur asset impairment charges (including charges related to goodwill and other intangible assets) in connection with acquired businesses which may reduce its profitability. If the Registrant is unable to consummate these transactions, or successfully integrate and grow acquisitions and achieve contemplated revenue synergies and cost savings, its financial results could be adversely affected.

The Registrant's Foreign Operations Are Subject To Additional Risks.

The Registrant operates its business and markets its products internationally. In 2007, 40% of the Registrant's sales were generated in foreign countries. The Registrant's foreign operations are subject to the risks described in this section, as well as risks related to fluctuations in currency values, foreign currency exchange controls, discriminatory fiscal policies, compliance with foreign laws, enforcement of remedies in foreign jurisdictions and other economic or political uncertainties. In particular, the Registrant's subsidiaries conduct their businesses in local currency and, for purposes of financial reporting, their results are translated into U.S. dollars based on average exchange rates prevailing during a reporting period. During times of a strengthening U.S. dollar, the Registrant's reported net revenues and operating income will be reduced because the local currency will translate into fewer U.S. dollars. Additionally, international sales are subject to risks related to imposition of tariffs, quotas, trade barriers and other similar restrictions. All of these risks could result in increased costs or decreased revenues, either of which could adversely affect the Registrant's profitability.

The Consolidation Of Customers May Put Pressures On The Registrant's Operating Margins And Profitability.

The Registrant's customers, such as supermarkets, warehouse clubs and food distributors, have consolidated in recent years and consolidation is expected to continue throughout the U.S., the European Union and other major markets. Such consolidation could present a challenge to margin growth and profitability in that it has produced large, sophisticated customers with increased buying power who are more capable of operating with reduced inventories, resisting price increases, and demanding lower pricing, increased promotional programs and specifically tailored products. These factors and others could have an adverse impact on the Registrant's future sales growth and profitability.

Fluctuations In Foreign Currency Markets May Negatively Impact The Registrant.

The Registrant is exposed to fluctuations in foreign currency cash flows primarily related to raw material purchases. Most of this exposure is due to foreign operations needing to purchase raw materials in U.S. dollars. The Registrant also is exposed to fluctuations in the value of foreign currency investments in subsidiaries and unconsolidated affiliates and cash flows related to repatriation of these investments. Additionally, the Registrant is exposed to volatility in the translation of foreign currency earnings to U.S. dollars. Primary exposures include the U.S. dollar versus the Euro, British pound sterling, Canadian dollar, Australian dollar, Mexican peso, Chinese renminbi and Thai baht. On occasion, the Registrant may enter into forward and option contracts to manage these foreign currency risks. However, these contracts may not effectively limit or eliminate the Registrant's exposure to a decline in operating results due to foreign currency exchange changes. Therefore, the Registrant cannot provide assurance that future exchange rate fluctuations will not have a negative impact on its business, financial position or operating results.

Increases In Interest Rates May Negatively Impact The Registrant.

The Registrant had total outstanding short-term borrowings of approximately \$149.2 million at an average interest rate of approximately 5.28% on November 30, 2007. The Registrant's policy is to manage its interest costs using a mix of fixed and variable rate debt. The Registrant also uses interest rate swaps to achieve a desired proportion of fixed and variable rate debt. The Registrant utilizes derivative financial instruments to enhance its ability to manage risk, including interest rate exposures that exist as part of its ongoing business operations. The Registrant does not enter into contracts for trading purposes, nor is it a party to any leveraged derivative instrument. The Registrant's use of

derivative financial instruments is monitored through regular communication with senior management and the utilization of written guidelines. However, the Registrant's use of these instruments may not effectively limit or eliminate its exposure to changes in interest rates. Therefore, the Registrant cannot provide assurance that future interest rate increases will not have a material negative impact on its business, financial position or operating results.

The Pending Acquisition Of The Assets Of Lawry's May Pose Risks To The Registrant's Business.

The Registrant has entered into an asset purchase agreement with Conopco, Inc. under which the Registrant agreed to purchase specified assets used in connection with the manufacturing, marketing, distributing and selling of food products under the Lawry's and Adolph's brands, including the Lawry's® and Adolph's® trade names, trademarks, and service marks, and all associated goodwill. There may be risks or costs resulting from the Lawry's acquisition that are not presently known to the Registrant. Various factors, including regulatory approval, may delay or prevent us from completing the acquisition and increase the costs associated with the acquisition. For example, the Registrant has agreed with Conopco to divest its Season-All® business if the divestiture becomes necessary to obtain clearance under the Hart-Scott-Rodino Act (HSR). The Registrant has agreed to pay Conopco a \$30 million termination fee, subject to certain limited conditions, in the event that HSR clearance is not obtained.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The Registrant's principal executive offices and primary research facilities are owned and are located in suburban Baltimore, Maryland.

The following is a list of the Registrant's principal manufacturing properties, all of which are owned except for the facilities in Commerce, California and Melbourne, Australia which are leased:

In addition to distribution facilities and warehouse space available at its manufacturing facilities, the Registrant leases regional distribution facilities in Belcamp, Maryland, Salinas, California, and Dallas, Texas and owns a distribution facility in Monteux, France. The Registrant also owns, leases or contracts other properties used for manufacturing consumer and industrial products and for sales, warehousing, distribution and administrative functions.

The Registrant believes its plants are well maintained and suitable for their intended use. The Registrant further believes that these plants generally have adequate capacity and can accommodate seasonal demands, changing product mixes and additional growth. Many additions and improvements have been made to these facilities over the years and the plants' manufacturing equipment includes equipment of the latest type and technology.

Item 3. Legal Proceedings

There are no material pending legal proceedings in which the Registrant or any of its subsidiaries is a party or in which any of their property is the subject.

Item 4. Submission of Matters to a Vote of Security Holders

No matter was submitted to a vote of security holders during the fourth quarter of Registrant's fiscal year 2007.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The Registrant has disclosed in Note 16, Selected Quarterly Data (Unaudited) of the Notes to Consolidated Financial Statements on page 59 of the Registrant's Annual Report to Stockholders for 2007, which page is incorporated by reference, the information relating to the market price and dividends paid on the Registrant's classes of common stock. The market price of the Registrant's common stock at the close of business on December 31, 2007 was \$37.95 for the Common Stock and \$37.91 for the Common Stock Non-Voting.

Edgar Filing: MCCORMICK & CO INC - Form 10-K

The Registrant's Common Stock and Common Stock Non-Voting are listed and traded on the New York Stock Exchange. The approximate number of holders of Common Stock of the Registrant based on record ownership as of December 31, 2007 was as follows:

Title of Class	Approximate Number of Record Holders
Common Stock, no par value	2,000
Common Stock Non-Voting, no par value	10,500

The following table summarizes the Company's purchases of Common Stock (CS) and Common Stock Non-Voting (CSNV) during the fourth quarter of 2007:

ISSUER PURCHASES OF EQUITY SECURITIES					Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs		
September 1, 2007 to September 30, 2007	CS 0 CSNV 225,000	\$0 \$35.46	CS 0 CSNV 225,000		\$51.2 million
October 1, 2007 to October 31, 2007	CS 58,913 CSNV 0	\$36.58 \$0	CS 58,913 CSNV 0		\$49.1 million
November 1, 2007 to November 30, 2007	CS 0.378 CSNV 0	\$35.16 \$0	CS 0.378 CSNV 0		\$49.1 million
Total	CS 58,913.378 CSNV 225,000	\$36.58 \$35.46	CS 58,913.378 CSNV 225,000		\$49.1 million

Note: In June 2005, the Board of Directors approved an additional \$400 million share repurchase authorization. As of November 30, 2007, \$49.1 million remained of the \$400 million authorization. This amount is expected to be sufficient for 2008 share repurchases in view of the anticipated acquisition of the Lawry's business.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

The Registrant maintains a system of disclosure controls and procedures that is designed to provide reasonable assurance that information which is required to be disclosed is accumulated and communicated to management in a timely manner. The Registrant's principal executive officer and principal financial officer evaluated as of November 30, 2007 the effectiveness of this system of disclosure controls and procedures, and have concluded that such disclosure controls and procedures were effective as of such date.

Internal Control over Financial Reporting

Management's report on the Registrant's internal controls over financial reporting and the report of the Registrant's Independent Registered Public Accounting Firm on internal controls over financial reporting are included on pages 37 and 38 of the Registrant's Annual Report to Stockholders for 2007, which pages are incorporated by reference. No change occurred in the Registrant's internal controls

over financial reporting (as defined in Rule 13a-15(f)) during the last fiscal quarter which was identified in connection with the evaluation required by Rule 13a-15(a) as materially affecting, or reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Certifications

The certifications of the Registrant's Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as Exhibits 31 and 32 to this Annual Report on Form 10-K. Additionally, as required by Section 303A.12(a) of the New York Stock Exchange (NYSE) Listed Company Manual, the Registrant's Chief Executive Officer filed a certification with the NYSE on April 13, 2007 reporting that he was not aware of any violation by the Registrant of the NYSE's Corporate Governance listing standards.

Item 9B. Other Information

In connection with the retirement of Mr. Lawless as Chief Executive Officer effective January 1, 2008, the Registrant entered into a consulting agreement with Mr. Lawless, the current Chairman of the Registrant's Board of Directors. The agreement provides that Mr. Lawless, when and as requested by Mr. Wilson, the Registrant's current Chief Executive Officer, will provide consulting services and advice to the Registrant and participate in various external activities and events for the benefit of the Registrant. The agreement, which was approved by the Compensation Committee of the Registrant's Board of Directors on January 22, 2008 and was executed on January 23, 2008, has a term of twelve months beginning January 1, 2008 and may be renewed for additional periods of time thereafter upon mutual written agreement. Mr. Lawless is to provide up to 400 hours of consulting services per year to the Registrant, subject to his reasonable availability. For his services and commitments, the Registrant will pay Mr. Lawless a consulting fee at a rate equal to \$20,000 per month for each month during the term of the agreement. The Registrant will also reimburse Mr. Lawless for reasonable expenses that he incurs in providing these services.
