Item 7.01 Regulation FD Disclosure.

The original 8-K issued on March 20, 2008 inadvertently included incorrect estimates for the Company's first quarter 2008 mainline operating expense per ASM and fuel expense & cost of third party sales - UAFC per ASM in the Non-GAAP To GAAP Reconciliations. This corrected version reflects the Company's actual estimates.

Non-GAAP To GAAP Reconciliations

Pursuant to SEC Regulation G, the Company has included the following reconciliation of reported non-GAAP financial measures to comparable financial measures reported on a GAAP basis. The Company believes that excluding fuel costs from certain measures is useful to investors because it provides an additional measure of management's performance excluding the effects of a significant cost item over which management has limited influence. The Company also believes that adjusting for special items is useful to investors because they are non-recurring charges not indicative of the Company's on-going performance.
