Item 7.01. Regulation FD Disclosure.

Thomas Brisbin, Chief Executive Officer, and Kimberly Gant, Chief Financial Officer of Willdan Group, Inc. (Willdan), will be presenting the slide presentation attached hereto as Exhibit 99.1, and incorporated herein by reference, at the D.A. Davidson 7th Annual Engineering & Construction Conference on Friday, September 19, 2008. The slide presentation will provide an overview of the company and its strategic direction, and may be used by Willdan in various other presentations to investors. The slide presentation is furnished and not filed pursuant to Instruction B.2 of Form 8-K.

The slide presentation includes a non-GAAP number, Adjusted EBITDA, for fiscal years 2003 through 2007 and for the six-month period ended June 27, 2008. Adjusted EBITDA is a supplemental measure used by Willdan to measure its operating performance. Willdan defines Adjusted EBITDA as net income plus net interest expense, income tax expense (benefit), depreciation and amortization, loss (gains) on sales of assets, accrued expenses related to a litigation matter and a one-time stock-based compensation expense recorded in anticipation of its IPO, less proceeds from life insurance policies carried on its former chief executive officer. Willdan's definition of Adjusted EBITDA may differ from those of many companies reporting similarly named measures. This measure should be considered in addition to, and not as a substitute for or superior to, other measures of financial performance prepared in accordance with U.S. generally accepted accounting principles, or GAAP, such as income from operations and net income. Willdan believes Adjusted EBITDA enables its management to separate non-recurring income and expense items from its results of operations to provide a more normalized and consistent view of operating performance on a period-to-period basis. Willdan uses Adjusted EBITDA to evaluate its performance for, among other things, budgeting, forecasting and incentive compensation purposes. Willdan also believes that Adjusted EBITDA is useful to investors, research analysts, investment bankers and lenders because it removes from its operational results the impact of certain non-recurring income and expense items, which may facilitate comparison of its results from period-to-period.

Adjusted EBITDA is not a recognized term under GAAP and does not purport to be an alternative to income from operations or net income as an indicator of operating performance or any other GAAP measure.

Edgar Filing: Willdan Group, Inc. - Form 8-K
