Letter from the chairman

Dear Shareholder,

While the U.S. economy was weak during the first half of the six-month reporting period ended October 31, 2009, the lengthiest recession since the Great Depression finally appeared to have ended during the second half of the period.

Looking back, the U.S. Department of Commerce reported that fourth quarter 2008 U.S. gross domestic product (GDP)ⁱ contracted 5.4%. Economic weakness accelerated during the first quarter of 2009, as GDP fell 6.4%. However, the economic environment started to get relatively better during the second quarter, as GDP fell 0.7%. The economy's more modest contraction was due, in part, to smaller declines in both exports and business spending. After contracting four consecutive quarters, the Commerce Department's preliminary estimate for third quarter 2009 GDP growth was 2.8%. A variety of factors helped the economy to expand, including the government's \$787 billion stimulus program and its Cash for Clunkers car rebate program, which helped spur an increase in car sales.

Even before GDP advanced in the third quarter, there were signs that the economy was starting to regain its footing. The manufacturing sector, as measured by the Institute for Supply Management's PMIⁱⁱ, rose to 52.9 in August 2009, the first time it surpassed 50 since January 2008 (a reading below 50 indicates a contraction, whereas a reading above 50 indicates an expansion). While the PMI dipped to 52.6 in September, it rose to 55.7 in October, its best reading since April 2006.

The housing market also saw some improvement during the reporting period. According to its most recent data, the S&P/Case-Shiller Home Price Indexⁱⁱⁱ indicated that home prices rose 1.2% in August 2009 versus the prior month. This marked the fourth straight monthly gain. In addition, the National Association of Realtors' Pending Home Sales Index^{iv} rose 6.1% in

September, the eighth consecutive monthly increase.

One area that remained weak and could hamper the magnitude of economic recovery was the labor market. While monthly job losses have moderated compared to earlier in the year, the unemployment rate rose to 10.2% in October 2009, its highest level in more than twenty-six years. Since

I
Western Asset High Income Fund II Inc.

Letter from the chairman *continued*

December 2007, the number of unemployed has risen by approximately 8.2 million and there have been twenty-two consecutive months of job losses.

The Federal Reserve Board (Fed)^v continued to pursue an accommodative monetary policy during the reporting period. After reducing the federal funds rate^{vi} from 5.25% in August 2007 to a range of 0 to 1/4 percent in December 2008 a historic low the Fed has maintained this stance thus far in 2009. In conjunction with its November 2009 meeting, the Fed said that it will maintain the target range for the federal funds rate at 0 to 1/4 percent and continues to anticipate that economic conditions, including low rates of resource utilization, subdued inflation trends, and stable inflation expectations, are likely to warrant exceptionally low levels of the federal funds rate for an extended period.

Both short- and long-term Treasury yields fluctuated during the reporting period. When the period began, Treasury yields were extremely low, given numerous flights to quality that were triggered by the fallout from last year's financial crisis. After starting the period at 0.91% and 3.16%, respectively, two- and ten-year Treasury yields then generally moved higher (and their prices lower) until early June. Two- and ten-year yields peaked at 1.42% and 3.98%, respectively, before falling and ending the reporting period at 0.90% and 3.41%, respectively. Over the six months ended October 31, 2009, longer-term yields moved higher due to fears of future inflation given the government's massive stimulus program. In a reversal from 2008, investor risk aversion faded during the six-month reporting period, driving spread sector (non-Treasury) prices higher. For the six months ended October 31, 2009, the Barclays Capital U.S. Aggregate Index^{vii} returned 5.61%.

The high-yield bond market produced very strong results for the six months ended October 31, 2009. In sharp contrast to its poor results in late 2008 and February 2009, the asset class posted positive returns during all six months of the reporting period. This strong rally was due to a variety of factors, including the unfreezing of the credit markets, improving economic data and strong investor demand. All told, over the six months ended October 31, 2009, the Citigroup High Yield Market Index^{viii} returned 26.22%.

Emerging market debt prices rallied sharply posting positive returns during all six months of the reporting period. This was triggered by rising commodity prices, optimism that the worst of the global recession was over and increased investor risk appetite. Over the six months ended October 31, 2009, the JPMorgan Emerging Markets Bond Index Global (EMBI Global)^{ix} returned 16.06%.

Performance review

For the six months ended October 31, 2009, Western Asset High Income Fund II Inc. returned 45.34% based on its net asset value (NAV)^x and 44.71% based on its New York Stock Exchange (NYSE) market price per share. The Fund's unmanaged benchmarks, the Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index^{xi} and the EMBI Global, returned 27.72% and 16.06%, respectively, over the same time frame. The Lipper High Current Yield (Leveraged) Closed-End Funds Category Average^{xii} returned 34.92% for the same period. Please note that Lipper performance returns are based on each fund's NAV.

During the six-month period, the Fund made distributions to shareholders totaling \$0.57 per share, which may have included a return of capital. The performance table shows the Fund's six-month total return based on its NAV and market price as of October 31, 2009. **Past performance is no guarantee of future results.**

PERFORMANCE SNAPSHOT as of October 31, 2009 (unaudited)

	6-MONTH TOTAL RETURN*
PRICE PER SHARE	(not annualized)
\$8.25 (NAV)	45.34%
\$8.35 (Market Price)	44.71%

All figures represent past performance and are not a guarantee of future results. The performance stated may have been due to extraordinary market conditions, which may not be sustainable over longer periods.

*** Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.**

A special note regarding increased market volatility

Dramatically higher volatility in the financial markets has been very challenging for many investors. Market movements have been rapid sometimes in reaction to economic news, and sometimes creating the news. The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

RISKS: As interest rates rise, bond prices fall generally, reducing the value of the Fund's holdings. The Fund may use derivatives, such as options and futures, which can be illiquid, may disproportionately increase losses, and have a potentially large impact on Fund performance. High-yield bonds involve greater credit and liquidity risks than investment grade bonds. Foreign securities are subject to certain risks not associated with domestic investing, such as currency fluctuations and changes in political and economic conditions which could result in significant fluctuations. The risks are magnified in emerging markets.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

i Gross domestic product (GDP) is the market value of all final goods and services produced within a country in a given period of time.

ii The Institute for Supply Management's PMI is based on a survey of purchasing executives who buy the raw materials for manufacturing at more than 350 companies. It offers an early reading on the health of the manufacturing sector.

iii The S&P/Case-Shiller Home Price Index measures the residential housing market, tracking changes in the value of the residential real estate market in twenty metropolitan regions across the United States.

iv The Pending Home Sales Index is an index created by the National Association of Realtors that tracks home sales in which a contract is signed but the sale has not yet closed. The Index is a leading indicator of future existing home sales as it typically takes four to six weeks to close a sale after a contract has been signed.

v The Federal Reserve Board (Fed) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.

vi The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.

vii The Barclays Capital U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.

viii The Citigroup High Yield Market Index is a broad-based unmanaged index of high-yield securities.

ix The JPMorgan Emerging Markets Bond Index Global (EMBI Global) tracks total returns for U.S. dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities: Brady bonds, loans, Eurobonds and local market instruments.

x Net asset value (NAV) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of

securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund's market price as determined by supply of and demand for the Fund's shares.

xi The Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index is an index of the 2% Issuer Cap component of the Barclays Capital U.S. Corporate High Yield Index, which covers the U.S. dollar-denominated, non-investment grade, fixed-rate, taxable corporate bond market.

xii Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. Returns are based on the six-month period ended October 31, 2009, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 36 funds in the Fund's Lipper category.

1 For the six months ended October 31, 2009 (unaudited).

2 Per share amounts have been calculated using the average shares method.

3 Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

4 The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

5 The prior investment manager fully reimbursed the Fund for losses incurred resulting from an investment transaction error. Without this reimbursement, the total return would not have changed.

6 Annualized.

7 The impact to the expense ratio was less than 0.01% as a result of fees paid indirectly.

8 Reflects fee waivers and/or expense reimbursements.

Notes to financial statements (unaudited)

1. Organization and significant accounting policies

Western Asset High Income Fund II Inc. (the Fund) was incorporated in Maryland and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund seeks to maximize current income by investing at least 80% of its net assets, plus any borrowings for investment purposes, in high yield debt securities. As a secondary objective, the Fund seeks capital appreciation to the extent consistent with its objective of seeking to maximize current income.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ. Subsequent events have been evaluated through December 21, 2009, the issuance date of the financial statements.

(a) Investment valuation. Debt securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the bid and asked prices as of the close of business of that market. Equity securities for which market quotations are available are valued at the last reported sale price or official closing price on the primary market or exchange on which they trade. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund values these investments at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

The Fund has adopted Financial Accounting Standards Board Codification Topic 820 (formerly Statement of Financial Accounting Standards No. 157) (ASC Topic 820). ASC Topic 820 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments

Notes to financial statements (unaudited) continued

- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Fund uses valuation techniques to measure fair value that are consistent with the market approach, income approach and/or cost approach, depending on the type of the security and the particular circumstance.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

¹ This amount is included in net realized gain (loss) from investment transactions in the accompanying Statement of Operations.

² This amount is included in the change in net unrealized appreciation (depreciation) in the accompanying Statement of Operations. Change in unrealized appreciation (depreciation) includes net unrealized appreciation (depreciation) resulting from changes in investment values during the reporting period and the reversal of previously recorded unrealized appreciation (depreciation) when gains or losses are realized.

(b) Repurchase agreements. When entering into repurchase agreements, it is the Fund's policy that its custodian or a third party custodian take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market daily to ensure the adequacy of the collateral. If the seller defaults, and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

(c) Reverse repurchase agreements. The Fund may enter into a reverse repurchase agreement in which the Fund sells a portfolio security at a specified price with an agreement to purchase the same or substantially the same security from the same counterparty at a fixed or determinable price at a future date. When entering into reverse repurchase agreements, the Fund's custodian delivers to the counterparty liquid assets, the market value of which, at the

Notes to financial statements (unaudited) continued

inception of the transaction, at least equals the repurchase price (including accrued interest). The Fund pays interest on amounts obtained pursuant to reverse repurchase agreements. Reverse repurchase agreements are considered to be borrowings, which may create leverage risk to the Fund.

(d) Foreign currency translation. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including gains and losses on forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities, at the date of valuation, resulting from changes in exchange rates.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

(e) Credit and market risk. The Fund invests in high yield and emerging market instruments that are subject to certain credit and market risks. The yields of high yield and emerging market debt obligations reflect, among other things, perceived credit and market risks. The Fund's investment in securities rated below investment grade typically involves risks not associated with higher rated securities including, among others, greater risk related to timely and ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading. The consequences of political, social, economic or diplomatic changes may have disruptive effects on the market prices of investments held by the Fund. The Fund's investment in non-U.S. dollar denominated securities may also result in foreign currency losses caused by devaluations and exchange rate fluctuations.

(f) Cash flow information. The Fund invests in securities and distributes dividends from net investment income and net realized gains, which are paid in cash and may be reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments are presented in the Statement of Cash Flows.

(g) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Foreign dividend income is recorded on the ex-dividend date or as soon as practicable after the Fund determines the existence of a dividend declaration after exercising reasonable due diligence. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

(h) Distributions to shareholders. Distributions from net investment income for the Fund, if any, are declared and paid on a monthly basis. Distributions of net realized gains, if any, are declared at least annually. Distributions are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

(i) Fees paid indirectly. The Fund's custody fees are reduced according to a fee arrangement, which provides for a reduction based on the level of cash deposited with the custodian by the Fund.

(j) Federal and other taxes. It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986 (the Code), as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute its taxable income and net realized gains, if any, to shareholders in accordance with timing requirements imposed by the Code. Therefore, no federal income tax provision is required in the Fund's financial statements.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of October 31, 2009, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by Internal Revenue Service and state departments of revenue.

Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

Notes to financial statements (unaudited) continued

(k) Reclassification. GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share.

2. Investment management agreement and other transactions with affiliates

Legg Mason Partners Fund Advisor, LLC (LMPFA) is the Fund's investment manager. Western Asset Management Company (Western Asset), Western Asset Management Company Limited (Western Asset Limited) and Western Asset Management Company Pte. Ltd. in Singapore (Western Singapore) are the Fund's subadvisers. LMPFA, Western Asset, Western Asset Limited and Western Singapore are wholly-owned subsidiaries of Legg Mason, Inc. (Legg Mason).

LMPFA provides administrative and certain oversight services to the Fund. The Fund pays an investment management fee, calculated daily and paid monthly, at an annual rate of 0.80% of the Fund's average weekly net assets plus the proceeds of any outstanding borrowings used for leverage.

LMPFA delegates to Western Asset the day-to-day portfolio management of the Fund. Western Singapore and Western Asset Limited do not do not receive any compensation from the Fund and are paid by Western Asset for their services to the Fund. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund. In turn, Western Asset pays Western Singapore and Western Asset Limited a subadvisory fee of 0.30% on assets managed by each subadviser.

During periods in which the Fund utilizes financial leverage, the fees which are payable to the investment manager as a percentage of the Fund's net assets will be higher than if the Fund did not utilize leverage because the fees are calculated as a percentage of the Fund's assets, including those investments purchased with leverage.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

4. Derivative instruments and hedging activities

Financial Accounting Standards Board Codification Topic 815 (formerly Statement of Financial Accounting Standards No. 161) (ASC Topic 815) requires enhanced disclosure about an entity s derivative and hedging activities.

During the six months ended October 31, 2009, the Fund did not hold any derivative instruments.

5. Loan

At October 31, 2009, the Fund had a \$300,000,000 credit line available pursuant to a revolving credit and security agreement dated as of December 21, 2006, as from time to time amended (Agreement), with CIESCO, LLC and Citibank, N.A. (Citibank). Citibank acts as administrative agent and secondary lender. Also, as of October 31, 2009, the Fund had a \$166,500,000 loan outstanding pursuant to the Agreement. The loan generally bears interest at a variable rate based on the weighted average interest rates of the underlying commercial paper or LIBOR, plus any applicable margin. In addition, the Fund pays a commitment fee on the total amount of the loan available, whether used or unused. For the six months ended October 31, 2009, the Fund paid \$1,928,826 in commitment fees. Securities held by the Fund are subject to a lien, granted to the lenders, to the extent of the borrowing outstanding and any additional expenses. For the six months ended October 31, 2009, based on the number of days during the reporting period that the Fund had a loan balance outstanding, the average loan balance was \$163,538,043 and the weighted average interest rate was 1.800%. Total interest expense on the loan for the period was \$1,504,179.

Subsequent to the period of this report, on December 15, 2009, the Fund terminated the Agreement and repaid the full amount of the outstanding loan and all interest due to Citibank. Simultaneously with the foregoing termination and repayment, the Fund entered into a Credit Agreement for Margin Financing (Credit Agreement) with Pershing LLC, a wholly-owned subsidiary of The Bank of New York Mellon Corporation (Pershing). The Credit Agreement provides a \$300 million line of credit for a 364-day term (until December 14, 2010). The Fund had \$166,500,000 outstanding under the Credit Agreement on December 15, 2009.

6. Distributions subsequent to October 31, 2009

On August 13, 2009, the Board of Directors (the Board) of the Fund declared a distribution in the amount of \$0.0950 per share payable on November 27, 2009 to shareholders of record on November 20, 2009.

On November 16, 2009, the Fund's Board declared three distributions in the amount of \$0.0950 per share, payable on December 28, 2009, January 29, 2010 and February 26, 2010 to shareholders of record on December 18, 2009, January 22, 2010 and February 19, 2010, respectively.

7. Transfer of net assets

On September 23, 2008, the Fund acquired the assets and certain liabilities of Western Asset Zenix Income Fund (the Acquired Fund) pursuant to a plan of reorganization approved by shareholders of the Acquired Fund. Total shares

Notes to financial statements (unaudited) *continued*

issued by the Fund and the total net assets of the Acquired Fund and the Fund on the date of the transfer were as follows:

ACQUIRED FUND	SHARES ISSUED BY THE FUND	TOTAL NET ASSETS OF THE ACQUIRED FUND	TOTAL NET ASSETS OF THE FUND
Western Asset Zenix Income Fund Inc.	4,286,967	\$39,324,962	\$711,960,565

As part of the reorganization, common shareholders of the Acquired Fund received 0.22624 shares of the Fund's shares. The Fund did not issue any fractional shares to common shareholders. In lieu thereof, the Fund purchased all fractional shares at the current net asset value of the shares and remitted the cash proceeds to former common shareholders in proportion of their fractional shares.

In addition, holders of the Auction Rate Cumulative Preferred Stock (ARPS) issued by the Acquired Fund received cash in the amount of the required liquidation preference of \$25,000 per share plus accrued and unpaid dividends thereon. All of the outstanding \$35 million ARPS were retired using additional drawdowns on the existing credit facility of the Fund.

The total net assets of the Acquired Fund before acquisition included unrealized depreciation of \$15,489,958, accumulated net realized loss of \$38,472,172 and overdistributed net investment income of \$5,553. Total net assets of the Fund immediately after the transfer were \$751,285,527. The transaction was structured to qualify as a tax-free reorganization under the Internal Revenue Code of 1986, as amended.

8. Capital loss carryforward

As of April 30, 2009, the Fund had a net capital loss carryforward of approximately \$216,304,444, of which \$41,322,321 expires in 2010, \$78,206,001 expires in 2011, \$6,091,329 expires in 2016 and \$90,684,793 expires in 2017. These amounts will be available to offset any future taxable capital gains.

Dividend reinvestment plan (unaudited)

Pursuant to certain rules of the Securities and Exchange Commission the following additional disclosure is provided.

Each shareholder purchasing shares of common stock (Shares) of Western Asset High Income Fund II Inc. (Fund) will be deemed to have elected to be a participant in the Dividend Reinvestment Plan (Plan), unless the shareholder specifically elects in writing (addressed to the Agent at the address below or to any nominee who holds Shares for the shareholder in its name) to receive all distributions in cash, paid by check, mailed directly to the record holder by or under the direction of American Stock Transfer & Trust Company as the Fund's dividend-paying agent (Agent). A shareholder whose Shares are held in the name of a broker or nominee who does not provide an automatic reinvestment service may be required to take such Shares out of street name and register such Shares in the shareholder's name in order to participate, otherwise dividends and distributions will be paid in cash to such shareholder by the broker or nominee. Each participant in the Plan is referred to herein as a Participant. The Agent will act as Agent for each Participant, and will open accounts for each Participant under the Plan in the same name as their Shares are registered.

Unless the Fund declares a distribution payable only in the form of cash, the Agent will apply all distributions in the manner set forth below.

If, on the determination date (as defined below), the market price per Share equals or exceeds the net asset value per Share on that date (such condition, a market premium), the Agent will receive the distribution in newly issued Shares of the Fund on behalf of Participants. If, on the determination date, the net asset value per Share exceeds the market price per Share (such condition, a market discount), the Agent will purchase Shares in the open market. The determination date will be the fourth New York Stock Exchange trading day (a New York Stock Exchange trading day being referred to herein as a Trading Day) preceding the payment date for the distribution. For purposes herein, market price will mean the average of the highest and lowest prices at which the Shares sell on the New York Stock Exchange on the particular date, or if there is no sale on that date, the average of the closing bid and asked quotations.

Purchases made by the Agent will be made as soon as practicable commencing on the Trading Day following the determination date and terminating no later than 30 days after the distribution payment date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities law; provided, however, that such purchases will, in any event, terminate on the Trading Day prior to the ex-dividend date next succeeding the distribution payment date.

If (i) the Agent has not invested the full distribution amount in open market purchases by the date specified above as the date on which such purchases must terminate or (ii) a market discount shifts to a market premium during the purchase period, then the Agent will cease making open market purchases and

will receive the uninvested portion of the distribution amount in newly issued Shares (x) in the case of (i) above, at the close of business on the date the Agent is required to terminate making open market purchases as specified above or (y) in the case of (ii) above, at the close of business on the date such shift occurs; but in no event prior to the payment date for the distribution.

In the event that all or part of a distribution amount is to be paid in newly issued Shares, such Shares will be issued to Participants in accordance with the following formula: (i) if, on the valuation date, the net asset value per share is less than or equal to the market price per Share, then the newly issued Shares will be valued at net asset value per Share on the valuation date provided, however, that if the net asset value is less than 95% of the market price on the valuation date, then such Shares will be issued at 95% of the market price and (ii) if, on the valuation date, the net asset value per share is greater than the market price per Share, then the newly issued Shares will be issued at the market price on the valuation date. The valuation date will be the distribution payment date, except that with respect to Shares issued pursuant to the paragraph above, the valuation date will be the date such Shares are issued. If a date that would otherwise be a valuation date is not a Trading Day, the valuation date will be the next preceding Trading Day.

The open market purchases provided for above may be made on any securities exchange on which the Shares of the Fund are traded, in the over-the-counter market or in negotiated transactions, and may be on such terms as to price, delivery and otherwise as the Agent shall determine. Funds held by the Agent uninvested will not bear interest, and it is understood that, in any event, the Agent shall have no liability in connection with any inability to purchase Shares within the time periods herein provided, or with the timing of any purchases effected. The Agent shall have no responsibility as to the value of the Shares acquired for the Participant's account. The Agent may commingle amounts of all Participants to be used for open market purchases of Shares and the price per Share allocable to each Participant in connection with such purchases shall be the average price (including brokerage commissions) of all Shares purchased by the Agent.

The Agent will maintain all Participant accounts in the Plan and will furnish written confirmations of all transactions in each account, including information needed by Participants for personal and tax records. The Agent will hold Shares acquired pursuant to the Plan in noncertificated form in the Participant's name or that of its nominee, and each Participant's proxy will include those Shares purchased pursuant to the Plan. The Agent will forward to Participants any proxy solicitation material and will vote any Shares so held for Participants only in accordance with the proxy returned by Participants to the Fund. Upon written request, the Agent will deliver to Participants, without charge, a certificate or certificates for the full Shares.

The Agent will confirm to Participants each acquisition made for their respective accounts as soon as practicable but not later than 60 days after the

Dividend reinvestment plan (unaudited) *continued*

date thereof. Although Participants may from time to time have an undivided fractional interest (computed to three decimal places) in a Share of the Fund, no certificates for fractional shares will be issued. Distributions on fractional shares will be credited to each Participant's account. In the event of termination of a Participant's account under the Plan, the Agent will adjust for any such undivided fractional interest in cash at the market value of the Fund's Shares at the time of termination less the pro rata expense of any sale required to make such an adjustment.

Any share dividends or split shares distributed by the Fund on Shares held by the Agent for Participants will be credited to their respective accounts. In the event that the Fund makes available to Participants rights to purchase additional Shares or other securities, the Shares held for Participants under the Plan will be added to other Shares held by the Participants in calculating the number of rights to be issued to Participants.

The Agent's service fee for handling distributions will be paid by the Fund. Participants will be charged a pro rata share of brokerage commissions on all open market purchases.

Participants may terminate their accounts under the Plan by notifying the Agent in writing. Such termination will be effective immediately if notice is received by the Agent not less than ten days prior to any distribution record date; otherwise such termination will be effective on the first Trading Day after the payment due for such distribution with respect to any subsequent distribution. The Plan may be amended or terminated by the Fund as applied to any distribution paid subsequent to written notice of the change or termination sent to Participants at least 30 days prior to the record date for the distribution. The Plan may be amended or terminated by the Agent, with the Fund's prior written consent, on at least 30 days' written notice to Plan Participants. Notwithstanding the preceding two sentences, the Agent or the Fund may amend or supplement the Plan at any time or times when necessary or appropriate to comply with applicable law or rules or policies of the Securities and Exchange Commission or any other regulatory authority. Upon any termination, the Agent will cause a certificate or certificates for the full Shares held by each Participant under the Plan and cash adjustment for any fraction to be delivered to each Participant without charge. If the Participant elects by notice to the Agent in writing in advance of such termination to have the Agent sell part or all of a Participant's Shares and remit the proceeds to Participant, the Agent is authorized to deduct a \$2.50 fee plus brokerage commission for this transaction from the proceeds.

Any amendment or supplement shall be deemed to be accepted by each Participant unless, prior to the effective date thereof, the Agent receives written notice of the termination of the Participant's account under the Plan. Any such amendment may include an appointment by the Agent in its place and stead of a successor Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Agent under these terms and conditions. Upon any such appointment of an Agent for the

purpose of receiving distributions, the Fund will be authorized to pay to such successor Agent, for each Participant's account, all distributions payable on Shares of the Fund held in each Participant's name or under the Plan for retention or application by such successor Agent as provided in these terms and conditions.

In the case of Participants, such as banks, broker-dealers or other nominees, which hold Shares for others who are beneficial owners (Nominee Holders), the Agent will administer the Plan on the basis of the number of Shares certified from time to time by each Nominee Holder as representing the total amount registered in the Nominee Holder's name and held for the account of beneficial owners who are to participate in the Plan.

The Agent shall at all times act in good faith and use its best efforts within reasonable limits to insure the accuracy of all services performed under this Agreement and to comply with applicable law, but assumes no responsibility and shall not be liable for loss or damage due to errors unless such error is caused by its negligence, bad faith, or willful misconduct or that of its employees.

All correspondence concerning the Plan should be directed to the Agent at 1-888-888-0151.
