Item 8.01. Other Events.

On April 23, 2013, Institutional Shareholder Services, Inc. (ISS) issued a recommendation that shareholders vote against approval of an amendment to Starwood Property Trust, Inc. s (the Company s) Manager Equity Plan and Equity Plan to increase the number of authorized shares available under such plans, citing as the principal basis for its recommendation the Company s three-year average annual equity burn rate of 3.27% (relative to an industry maximum of 3.25%). Following discussions between representatives of ISS and the Company, the Company has adopted a maximum burn rate commitment. The Company commits that, with respect to the number of shares subject to awards granted during the current fiscal year and the next two fiscal years, its average annual burn rate will not exceed 3.25%. In calculating the Company s compliance with this maximum burn rate commitment, burn rate is defined as the number of shares subject to stock awards granted during the fiscal year divided by the weighted average number of shares of the Company s common stock issued and outstanding during such fiscal year. For purposes of calculating the number of shares granted in a particular year, all awards will first be converted into option-share equivalents. In this case, each share that is subject to awards other than options will count as equivalent to three option shares.
