Item 7.01 Regulation FD Disclosure.

On June 17, 2014, Magellan Health, Inc. (the "Company") will hold an investor conference (the "Conference") in New York, New York. The Conference will feature presentations by the Company's executive management team highlighting the Company's business strategy to deliver long-term growth and enhance shareholder value, including specifics related to its various businesses.

At the Conference, the Company will reconfirm its full year guidance as issued in our First Quarter 2014 Financial Results press release dated April, 29, 2014. The full year expectations are for revenue of \$3.6 billion to \$3.8 billion, net income of \$53 million to \$69 million, segment profit of \$238 million to \$258 million, and earnings per share ("EPS") of \$1.89 to \$2.46 based on 28.1 million average fully diluted shares.

At the Conference, the Company will introduce two new non-GAAP measures. The Company's adjusted net income and adjusted EPS will exclude after-tax amortization of acquired intangible assets and stock compensation expense associated with acquisitions that closed after January 1, 2013. The Company believes these new non-GAAP measures provide a more useful comparison of the Company's underlying business performance from period to period and is more representative of the earnings capacity of the Company. The Company's management will use these new non-GAAP measures to assess business performance and to make business decisions regarding the Company's operations. Non-GAAP financial measures we disclose, such as segment profit, adjusted net income, and adjusted EPS, should not be considered a substitute for, or superior to, financial measures determined or calculated in accordance with GAAP.

Below is a table that reconciles 2013 actual and 2014 guidance for these non-GAAP measures to the nearest comparable GAAP measure.
