INFORMATION ABOUT VOTING

How are proxies being solicited?

This proxy solicitation is being made by and at the direction of the board of directors of the Company, and we will pay all expenses relating to the solicitation. Proxies may be solicited by mail, personally, by telephone or by other electronic means by officers, directors and employees of the Company and its subsidiary, Peoples Security Bank and Trust Company, or the Bank, who will not be compensated for such solicitation activities. In addition, we have engaged Regan & Associates, Inc. (New York, NY) to assist us with the solicitation. We will pay Regan & Associates a fee of \$18,000 and reimburse them for their reasonable out-of-pocket expenses. Arrangements may be made with brokerage houses and other custodians, nominees and fiduciaries for forwarding solicitation materials to the beneficial owners of shares held of record by such persons, and the Company will reimburse those persons for their reasonable expenses.

What is on the agenda for the annual meeting?

The agenda for the annual meeting includes the election of four directors to the Company's board of directors, each to serve until the 2019 annual meeting of shareholders and until his or her successor has been elected and qualified, a proposal to approve, on an advisory basis, the compensation of our named executive officers, ratification of BDO USA, LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016, a shareholder proposal regarding a request for proxy access and such other business as may properly come before the annual meeting. We are not aware of any such other business that may properly come before the annual meeting at the present time.

Who can vote?

You can vote at the annual meeting if you were a holder of our common stock at the close of business on the record date. The record date for the annual meeting is February 29, 2016. Each share of common stock you own as of the record date entitles you to one vote for each director to be elected in the election of directors and one vote on any other business as may properly come before the annual meeting. As of the record date, there were 7,402,439 shares of common stock outstanding and entitled to vote.

How do I vote if shares are held directly in my name?

If you hold your shares in certificate form and not through a bank, brokerage firm or other nominee, you may vote your shares in one of the following ways:

- **By Mail.** If you choose to vote by mail, complete the enclosed proxy, date and sign it, and return it in the postage-paid envelope provided.

Edgar Filing: PEOPLES FINANCIAL SERVICES CORP. - Form DEF 14A

- In Person. If you choose to vote in person, come to the annual meeting and cast your vote. If you attend the meeting, you may vote your shares in person even if you have previously submitted a proxy.
 - Telephonic voting. If you choose to vote by telephone, call toll-free 1-800-PROXIES (1-800-776-9437) in the United States or 1-718-921-8500 from foreign countries from any touch-tone telephone and follow the instructions. Have your proxy card available when you call, and use the company number and account number shown on your proxy card.
-

Table of Contents

- **Internet Voting.** If you choose internet voting, access www.voteproxy.com and follow the on-screen instructions. Have your proxy card available when you access the web page, and use the company number and account number shown on your proxy card.

You may submit your proxy by telephone or via internet until 11:59 PM EDT the day before the meeting.

How do I vote if shares are held in street name or through a bank, brokerage firm or other nominee?

If you hold your shares in street name or through a bank, brokerage firm or other nominee, you will need to vote your shares by providing voting instructions to your bank, brokerage firm or other nominee, in accordance with the voting instruction form provided to you by your bank, brokerage firm or other nominee, or by obtaining a legal proxy from your bank, brokerage firm or other nominee authorizing you to vote those shares at the annual meeting. Only with a legal proxy from your bank, brokerage firm or other nominee can you cast your vote in person at the annual meeting.

How will my proxy be voted?

If you hold your shares directly in your name, unless you indicate differently on your proxy, we plan to vote signed and returned proxies **FOR** the election of the board's director nominees named in this proxy statement, **FOR** the proposal to approve, on an advisory basis, the compensation of our named executive officers, **FOR** the ratification of BDO USA, LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016, and **AGAINST** the shareholder proposal regarding a request for proxy access.

If you hold your shares of the Company's common stock in street name (that is, through a broker or other nominee), under applicable rules, brokers have the discretion to vote on routine matters, such as the ratification of the selection of accounting firms, but do not have discretion to vote on non-routine matters. Over the past few years, changes in rules applicable to brokers have caused uncontested elections of directors, matters related to executive compensation, and matters related to corporate governance to be considered non-routine. If you hold your shares in street name, but do not give your broker or other nominee instructions on how to vote your shares, votes may not be cast on your behalf. If your broker or other nominee submits a proxy but does not vote your shares on a particular proposal because it has not received voting instructions from you, your shares will be considered to be broker non-votes with regard to that matter.

At or after the annual meeting, a judge of elections will tabulate ballots cast by shareholders present and voting in person and votes cast by proxy.

What is a broker non-vote?

Edgar Filing: PEOPLES FINANCIAL SERVICES CORP. - Form DEF 14A

A broker non-vote occurs when a bank or brokerage firm holding shares on behalf of a shareholder does not receive voting instructions from the shareholder by a specified date before the annual meeting and the bank or brokerage firm is not permitted to vote, or otherwise does not VOTE, those undirected shares on specified matters. Thus, if you do not give your broker specific instructions, your shares may not be voted on those matters (so-called broker non-votes) and will not be counted in determining the number of shares necessary for approval. Broker non-votes are not considered to be votes cast and, therefore, generally have no effect on the outcome of elections of directors or other business which are determined based on votes cast. Shares represented by broker non-votes will be counted, however, in determining the number of shares of common stock represented in person or by proxy and entitled to vote.

Table of Contents

Can I revoke my proxy or change my vote after submitting my proxy?

Yes. Any shareholder giving a proxy has the right to attend the annual meeting and vote in person. A proxy may be revoked prior to the annual meeting if a later-dated proxy or a written revocation is sent to the Company at Peoples Financial Services Corp., 150 North Washington Avenue, Scranton, Pennsylvania 18503, Attn.: Secretary, and received prior to the annual meeting. In addition, a proxy may be revoked at the annual meeting by filing a later-dated proxy or by filing a written notice of such revocation with the Secretary of the Company at the annual meeting prior to the voting of such proxy.

What constitutes a quorum at the annual meeting and how are votes counted?

We need a quorum of shareholders to hold a valid annual meeting. A quorum will be present if shareholders entitled to cast at least a majority of the votes which all shareholders are entitled to cast are represented in person or by proxy at the annual meeting. Abstentions and broker non-votes are counted as present for the purpose of establishing a quorum.

How many votes are required for the election of directors?

Directors are elected by a plurality vote of shares of common stock cast in person or by proxy at the annual meeting, provided that a quorum is present. A plurality means that the candidates for election as directors receiving the highest number of votes, up to the number of directors to be elected, shall be elected. Because the election of directors is based on a plurality of the votes cast, abstentions and broker non-votes have no effect on the outcome of the vote. Shareholders are not entitled to cumulative voting in the election of directors.

How many votes are required to approve, on an advisory basis, the compensation of our named executive officers?

As long as a quorum is present, the affirmative vote of the holders, present in person or by proxy, of shares entitled to cast at least a majority of the votes which all shareholders are entitled to cast, is required to approve, on an advisory basis, the compensation of our named executive officers. Abstentions and broker non-votes will have the same effect as votes against this proposal.

How many votes are required for the ratification of the appointment of BDO USA, LLP?

As long as a quorum is present, the affirmative vote of the holders, present in person or by proxy, of shares entitled to cast at least a majority of the votes which all shareholders are entitled to cast, is required to ratify the appointment of BDO USA, LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016. Abstentions and broker non-votes will have the same effect as votes against this proposal.

How many votes are required to approve the shareholder proposal?

As long as a quorum is present, the affirmative vote of the holders, present in person or by proxy, of shares entitled to cast at least a majority of the votes which all shareholders are entitled to cast, is required to approve the shareholder proposal. Abstentions and broker non-votes will have the same effect as votes against this proposal.

Because the proponents have cast the shareholder proposal as merely a request that the board of directors take certain actions, approval of the shareholder proposal would not be binding on the board of directors and would not affect any amendment to our bylaws. The members of our board of directors,

Table of Contents

however, value the opinions of our shareholders and will consider results of the vote on the shareholder proposal and evaluate what actions, if any, may be appropriate to address those results.

How many votes are required for any other proposals that may properly come before the annual meeting?

Any other proposals that may properly come before the annual meeting will be approved if the holders, present in person or by proxy, of shares entitled to cast at least a majority of the votes which all shareholders are entitled to cast are voted in favor of the action, unless the question is one upon which a different vote is required by express provision of law or by our articles of incorporation or our bylaws. Abstentions and broker non-votes will have the same effect as votes against any proposal that requires approval by a majority of the votes which all shareholders are entitled to cast. Abstentions and broker non-votes are not considered votes cast, however, and, as such, have no effect on the outcome of any proposals which would be approved based on votes cast. We are not aware of any such other proposals that may properly come before the annual meeting at the present time.

PROPOSAL 1 ELECTION OF DIRECTORS

Our bylaws provide that the number of directors constituting the entire board will be not less than five nor more than twenty-five, with the exact number to be fixed from time to time by our board of directors.

Our bylaws also provide that our board of directors will be classified into three classes, each class to be as nearly equal in number, in respect to the time for which they severally hold office. At each annual meeting of shareholders, one class of directors is to be elected and each class of directors so elected will serve for a term of approximately three years.

It is intended that the proxies solicited by the board of directors will be voted **FOR** the four director nominees named below (unless the shareholder otherwise directs). If, for any reason, any nominee becomes unavailable for election or service on the board, the proxy solicited by the board of directors will be voted for such substituted nominee as is selected by the board of directors. The board has no reason to believe that any of the named nominees are not available or will not serve if elected.

Our executive compensation program is designed to attract, reward, and retain key employees, including our named executive officers, who are critical to our success. PROPOSAL 4 SHAREHOLDER PROPOSAL REGARDING PROXY ACCESS

We expect the following proposal to be presented at the annual meeting by Daniel J. Wukich, 2009 Boxcartown Road, Jeannette, Pennsylvania, and Daniel P. Wukich, 186 Durst Road, Irwin, Pennsylvania. The proponents of the proposal own more than \$2,000 and less than 5 percent of the Company's common stock. The board of directors has recommended a vote **AGAINST** this proposal for the reasons set forth following the proposal. The board disclaims any responsibility for the content of the Wukich proposal and the supporting statement, including any information found at the referenced website, which are presented exactly in the form received by the Company.

PROXY ACCESS SHAREHOLDER PROPOSAL

RESOLVED: Shareholders of the Company ask the board of directors (the Board) to adopt, and present for shareholder approval, a proxy access bylaw. Such a bylaw shall require the Company to include in proxy materials prepared for a shareholder meeting at which directors are to be elected the name, Disclosure and Statement (as defined herein) of any person nominated for election to the board by a shareholder or group (the Nominator) that meets the criteria established below. The Company shall allow shareholders to vote on such nominee on the Company's proxy card.

The number of shareholder-nominated candidates appearing in proxy materials shall not exceed one quarter of the directors then serving. This bylaw, which shall supplement existing rights under Company bylaws, should provide that a Nominator must:

- a) have beneficially owned 1.5% or more of the Company's outstanding common stock continuously for at least two years before submitting the nomination;
- b) give the Company, within the time period identified in its bylaws, written notice of the information required by the bylaws and any Securities and Exchange Commission rules about (i) the nominee, including consent to being named in the proxy materials and to serving as director if elected; and (ii) the Nominator(s), including proof it or they own the required shares (the Disclosure); and
- c) certify that (i) it or they will assume liability stemming from any legal or regulatory violation arising out of the Nominator's communications with the Company shareholders, including the Disclosure and Statement; (ii) it or they will comply with all applicable laws and regulations if it or they use soliciting material other than the Company's proxy materials; and (iii) to the best of its or their knowledge, the required shares were acquired in the ordinary course of business and not to change or influence control at the Company.

The Nominator may submit with the Disclosure a statement not exceeding 500 words in support of the nominee (the Statement). The Board shall adopt procedures for promptly resolving disputes over whether notice of a nomination was timely, whether the Disclosure and Statement satisfy the bylaw and applicable federal regulations, and the priority to be given to multiple nominations exceeding the one-quarter limit.

SUPPORTING STATEMENT

We believe proxy access is a fundamental shareholder right that will make directors more accountable and contribute to increased shareholder value. The CFA Institute's 2014 assessment of pertinent academic studies and the use of proxy access in other markets similarly concluded that proxy access:

- Would benefit both the markets and corporate boardrooms, with little cost or disruption.

Table of Contents

- Has the potential to raise overall US market capitalization by up to \$140.3 billion if adopted market-wide. (<http://www.cfapubs.org/doi/pdf/10.2469/ccb.v2014.n9.1>)

Similar shareholder proposals have received substantial support, and bylaws relating to proxy access by shareholders have been adopted by companies of various sizes across industries, including Chesapeake Energy, Hewlett-Packard, Western Union and Verizon.

We urge shareholders to vote **FOR** this proposal.

The Company's Statement in Opposition to Proposal 4

The Board recommends you vote **AGAINST** the Wukich proposal.

We believe that the mechanisms for nominating directors are a critical aspect of corporate governance and any proposal that adds to or changes our shareholders' existing right to nominate directors should be carefully considered and thoughtfully tailored to ensure that the interests of all our shareholders are protected in a balanced way. We do not believe the Wukich proposal meets that standard.

The Wukich proposal is not in the best interests of our shareholders.

The Wukich proposal is not in the best interests of our shareholders because it does not contain minimum requirements necessary to ensure quality director nominees are proposed by independent and impartial shareholders. Rather, if the Wukich proposal were adopted, it could result in a shareholder or group of shareholders advancing their own or their constituencies' short term financial interests, special interests or narrow agendas that may be in direct conflict with the Company's and shareholder's long term interests.

Our nominating and corporate governance committee, the members of which are subject to a fiduciary duty to the Company and the independence requirements of Nasdaq and the SEC, seeks to recommend for nomination director candidates who possess a diverse combination of skills, market knowledge, professional experience and backgrounds necessary to oversee our business. The Wukich proposal, on the other hand, would allow shareholders who have no fiduciary duty and are not bound by the Company's corporate governance guidelines and policies or the Nasdaq and SEC independence rules to advance their own agenda or narrow interests or those of unknown third-parties, without regard to the Company's and our shareholder's best interests, by bypassing the existing process our board of directors uses to nominate directors. In fact, the current proxy access proposal was submitted during pending litigation between the proponents and the Bank.

While our shareholders always would be free to vote for or against candidates, the cost and disruption of having to defend against narrow agenda-driven attacks is not in shareholders' interests.

The Wukich proposal could cause disruption to the Company's orderly annual election of directors.

If adopted, the Wukich proxy access proposal could result in contested director elections becoming a routine event. As various proxy access proposals have been developed and considered over the past several years, a 3 percent ownership requirement and a 3-year holding period have emerged as prevailing requirements. The Wukich proposal would establish far more permissive requirements, a 1.5 percent ownership requirement and a 2-year holding period. Additionally, the Wukich proposal does not address how the proposed proxy access would be reconciled with the Company's classified board, in which approximately one-third of the directors are elected each year for three-year terms.

Table of Contents

Divisive proxy contests could occur every year and substantially disrupt Company affairs and the effective functioning of our board of directors without adding any significant value to the current process. This could harm us in various ways, including the potential for high annual turnover of directors leading to an inexperienced board of directors that lacks sufficient knowledge and understanding of the Company's current and past business which is necessary to provide meaningful and effective oversight of the Company's operations and long-term strategies. Abrupt changes in the composition of the Company's board of directors could lead to disruptions and possible turnover of our management, which in turn may impair our ability to develop, refine, monitor and execute on long-term plans. In addition, our management and directors would be required to divert their time from managing and overseeing Company business to focus on proxy contests in the election of directors. Disruption of our board of directors' functioning could disrupt the ongoing implementation of our strategies and put shareholder value at risk.

Our shareholders are already entitled to recommend director candidates and our existing corporate governance practices require us to evaluate them under the same criteria as other director candidates.

Our shareholders may already recommend one or more director candidates, whom the board and nominating and corporate governance committee will evaluate under the same criteria applied to their own candidates. In 2013, our shareholders and the shareholders of Pensco Financial Services Corporation approved a merger, the terms of which have guided the director nomination process. Since then, despite our shareholders' ability to recommend director candidates, we have not received any shareholder submissions of director candidates, not even from Daniel J. Wukich or Daniel P. Wukich.

We believe the process currently contained in the Company's governance documents protects the interests of our shareholders by way of requiring thoughtful identification and screening of experienced and diverse director nominees which helps us achieve the optimal balance of directors. Furthermore, our nominating and corporate governance committee charter requires that we review and assess our committee performance and our nominations process each year.

Board members with the right mix of background, expertise, experience and perspective are the fundamental prerequisite for a high-functioning board. We believe that the selection of such candidates is best left to the members of the nominating and corporate governance committee who have a fiduciary duty to our shareholders and the Company and who are bound by Nasdaq and SEC independence requirements, as well as our corporate governance guidelines and policies with regard to board nominee qualifications.

We are committed to strong corporate governance. To that end, we will consider input from all interested shareholders regarding our current process for nominating directors. Our shareholders have direct access to our board and our board regularly reviews feedback provided by our shareholders. We value our shareholders' opinions, and welcome further discussion regarding proxy access to ensure that any proxy access provision adopted by the Company is thoughtfully designed to protect the best interests of all shareholders and mitigate risk of abuse.

For all of the foregoing reasons, the board recommends that you vote **AGAINST** this proposal.

BOARD OF DIRECTORS AND COMMITTEES

Director Independence

Our common stock is listed on The Nasdaq Stock Market, LLC. Accordingly, our board evaluated the independence of each director and director nominee under the listing standards of The Nasdaq Stock Market, LLC. During this review, the board considered transactions and relationships between each director or any member of his or her immediate family and the Company and its subsidiaries and affiliates. The board also considered whether there were any transactions or relationships between directors or any member of their immediate family (or any entity of which a director or an immediate family member is an executive officer, general partner or significant equity holder) and members of our senior management or their affiliates.

As a result of this review, the board affirmatively determined that William E. Aubrey II, Joseph G. Cesare, M.D., James G. Keisling, P. Frank Kozik, Ronald G. Kukuchka, Richard S. Lochen, Jr., Robert W. Naismith, Ph.D., James B. Nicholas, Emily S. Perry, George H. Stover, Jr., Steven L. Weinberger, Earle A. Wootton and Joseph T. Wright, Jr. are independent under the listing standards of The Nasdaq Stock Market, LLC. In addition, the board determined that each member of our audit committee and compensation committee is independent in accordance with the additional independence criteria applicable to such committee members under the listing standards of The Nasdaq Stock Market, LLC, including the recently adopted listing standards regarding the independence of compensation committee members as determined after taking into account any relationship between such committee members and any compensation consultants engaged by the compensation committee. Only Craig W. Best, our Chief Executive Officer and President, was determined to be not independent.

In determining the independence of each director, the board considered that we, our subsidiaries, and our predecessor companies, in the ordinary course of business have purchased products and services from companies at which some of our directors or their immediate family members were officers or employees during 2015. The board determined that none of these relationships impaired the independence of the directors.

Board Meetings

During 2015, the board of directors held twelve meetings. There was one meetings of the independent directors. All of our directors attended at least 75% of board meetings and meetings of committees of the board on which such directors served.

We have no formal policy with respect to director attendance at our annual meeting of shareholders. All of our then-serving directors attended our 2015 annual meeting of shareholders, except for Steven Weinberger.

Board Leadership Structure and Role in Risk Oversight

Edgar Filing: PEOPLES FINANCIAL SERVICES CORP. - Form DEF 14A

The board of directors of the Company has determined that the separation of the offices of chairman of the board and chief executive officer enhances board independence and oversight. Moreover, the separation of the chairman of the board and chief executive officer allows the chief executive officer to better focus on his responsibilities relating to day-to-day management of the Company, enhancing shareholder value and expanding and strengthening the Company's franchise while allowing the chairman to lead the board in its fundamental role of providing advice to and independent oversight of management. Consistent with this determination, William E. Aubrey II serves as Chairman of the Board of the Company and Craig W. Best serves as Chief Executive Officer and President of the Company.

Table of Contents

Risk is inherent with every business, and how well a business manages risk can ultimately determine its success. We face a number of risks, including credit risk, interest rate risk, liquidity risk, operational risk, strategic risk, legal risk and reputational risk. Management, including our chief risk officer, is responsible for the day-to-day management of risks we face, while our board of directors, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk management oversight role, the board of directors has the responsibility to satisfy itself that the risk management processes designed and implemented by management are adequate and functioning as designed. To do this, the Chairman of the Board meets regularly with management to discuss strategy and risks facing the Company. Senior management attends board meetings and is available to address any questions or concerns raised by the board on risk management. The Chairman of the Board and independent members of the board of directors work together to provide strong, independent oversight of the Company's management and affairs through its standing committees and, when necessary, special meetings of independent directors.

Primary responsibility for areas of risk oversight is allocated among our standing committees as follows:

Committee	Primary Areas of Risk Oversight
Audit Committee	Risks and exposures associated with financial matters, particularly financial reporting, tax, accounting, disclosure, internal control over financial reporting, financial policies, investment guidelines and credit and liquidity matters.
Nominating and Governance Committee	Risks and exposures associated with leadership, succession planning and corporate governance.
Compensation Committee	Risks and exposures associated with executive compensation programs and arrangements, including incentive plans.

Compensation Risk Management

Our compensation committee has reviewed the compensation policies and practices of the Company and has determined that the policies and practices do not motivate imprudent risk taking and are not reasonably likely to have a material adverse effect on the Company. The compensation committee is aware that compensation arrangements, if not properly structured, may encourage inappropriate risk-taking. An example of how the Peoples' compensation programs protect against imprudent risk taking is the clawback agreement that executives are required to execute in connection with their participation in the Peoples Cash Incentive Program (as further described below).

Board Committees

As noted above, the board of directors of the Company conducts much of its business through committees of the board. During 2015, the board maintained standing audit, compensation and nominating committees. The Pensco merger agreement and our amended and restated bylaws provide that for a period of three years following the Pensco merger (which became effective on November 30, 2013), unless eighty percent of the directors determine otherwise, former Pensco directors are to have pro rata representation on all committees of the board of directors. Our Board committees' composition during 2015 complied with this requirement, as more particularly described below.

- keep apprised of requirements, trends and best practices in corporate governance;
- review and make recommendations to our board of directors with respect to any proposed changes to our articles of incorporation, bylaws, or committee charters; and
- develop and make recommendations to our board of directors with respect to key executive succession plans.

Nomination Process

In accordance with the Penseco merger agreement and our bylaws, for our 2014, 2015 and 2016 annual meetings of shareholders, our director nominees have been recommended for the board of directors approval by two subcommittees of our nominating and corporate governance committee. One subcommittee is comprised of directors who were directors of Peoples prior to the Penseco merger, referred to as the Peoples subcommittee, and the other is comprised of directors who were directors of Penseco Financial Services Corporation prior to the Penseco merger, referred to as the Penseco subcommittee. The Peoples subcommittee is responsible for recommending director nominees with respect to each directorship held by an incumbent director who was a director of Peoples immediately prior to the Penseco merger, or any other incumbent director who was nominated by the Peoples subcommittee. The Penseco subcommittee is responsible for recommending director nominees with respect to each directorship held by an incumbent director who was a director of Penseco immediately prior to the Penseco merger, or any other incumbent director who was nominated by the Penseco subcommittee.

The board of directors will consider director candidates recommended by shareholders. Any shareholder who wishes to recommend a director candidate for consideration may send notice to Peoples Financial Services Corp., 150 North Washington Avenue, Scranton, Pennsylvania 18503, Attention: Investor Relations Officer. The notice should contain the information described in the section titled Shareholder Proposals, on page 45.

Process for Identifying and Evaluating Nominees

In selecting director candidates to be nominated for election at an annual meeting, the nominating and corporate governance committee begins by determining whether the incumbent directors whose terms expire at the meeting desire, and are qualified, to continue their service on the board. We are of the view that the repeated service of qualified incumbents promotes stability and continuity in the boardroom, giving us the benefit of the familiarity and insight into our affairs that our directors have accumulated during their tenure. Accordingly, it is the policy of the nominating and corporate governance committee, absent special circumstances, to nominate qualified incumbent directors who continue to satisfy the committee's criteria for membership on the Board; who the committee believes will continue to make important contributions to the Board; and who consent to stand for re-election and, if re-elected, to continue their service on the Board.

If there are Board positions for which the committee will identify and evaluate non-incumbent directors, it will proceed as follows:

Identification. For purposes of identifying nominees for the board of directors, the nominating and corporate governance committee relies on personal contacts of the committee and other members of

Table of Contents

the board of directors as well as its knowledge of members of the Company's market area. The nominating and corporate governance committee will also consider director candidates recommended by shareholders in accordance with the policy and procedures set forth above. The nominating and corporate governance committee may use an independent search firm in identifying nominees. However, the committee did not engage an independent search firm for this purpose during the year ended December 31, 2015 or in connection with the nominees for election at the 2016 annual meeting.

Evaluation. In evaluating potential nominees, the nominating and corporate governance committee determines whether the candidate is eligible and qualified for service on the board of directors by evaluating the candidate under the selection criteria set forth below under the heading "Minimum Qualifications" below. In addition, the nominating and corporate governance committee may conduct a background check and may interview the candidate. Candidates proposed by shareholders are considered under the same criteria, except that the committee may also consider the size and duration of the equity interest of the recommending shareholder in the Company and the extent to which the recommending shareholder intends to continue holding this interest.

Minimum Qualifications

Our bylaws include a mandatory retirement policy applicable to our directors. Any director, upon reaching the mandatory retirement age of 73 years, will be permitted to serve as a director for the remainder of his or her term, after which he or she shall no longer be eligible to serve as a director. Notwithstanding the foregoing, each director appointed to the board of directors in connection with the Pensco merger is eligible to stand for election for one additional three-year term, regardless of age.

The nominating and corporate governance committee has not adopted a specific set of minimum qualifications that must be met by nominees. Nominees are selected on the basis of their integrity, experience, achievements, judgment, intelligence, personal character and capacity to make independent analytical inquiries, ability and willingness to devote adequate time to Board duties, and the likelihood of being able to serve on the Board for a sustained period. In evaluating potential director nominees, our nominating and corporate governance committee (and its subcommittees) will evaluate an individual's specific qualities or skills including, but not limited to an individual's: contributions to the range of talent, skill and expertise of the Board; financial, regulatory and business experience, knowledge of the banking and financial services industries, familiarity with the operations of public companies and ability to read and understand financial statements; familiarity with our market area and participation in and ties to local businesses and local civic, charitable and religious organizations; personal and professional integrity, honesty and reputation; ability to represent the best interests of the Company's shareholders and the best interests of the Company and Bank; ability to devote sufficient time and energy to the performance of his or her duties; independence; and current equity holdings in the Company.

The nominating and corporate governance committee (and its subcommittees) will also consider any other factors it deems relevant, including competition, size of the board of directors, and regulatory disclosure obligations. The nominating and corporate governance committee will also consider the extent to which a candidate helps the board of directors reflect the diversity of the Company's shareholders, employees, customers, and communities. The committee also considers factors such as global experience, experience as a director of a public company, and knowledge of relevant industries.

In addition, prior to nominating an existing director for re-election to the board of directors, the committee will consider and review an existing director's Board and committee performance and his or her satisfaction of any minimum qualifications established by the committee.

Compensation Discussion and Analysis

Overview of Objectives

The executive compensation program of Peoples is designed to provide a competitive base salary as well as to provide certain incentives to our named executive officers to effectively lead and manage the Company and its growth strategy. Decisions regarding executive compensation are determined by the compensation committee with the approval of the board of directors.

The program is designed to support annual and long-term Company goals that create sustainable profitable growth while providing long-term value to our shareholders. The objectives of our executive compensation programs are to:

- attract, motivate and retain highly qualified executives;

Table of Contents

- link total compensation to both individual performance and the performance of the bank and holding company; and
- appropriately balance short-term and long-term financial objectives, build shareholder value and reward individual, team and company performances.

We seek to pay for superior performance, both in achieving short-term goals and continuing to build a growing and sustainable financial institution on a long-term basis.

During the year ended December 31, 2015, we compensated our named executive officers, identified below, with a combination of base salary, performance-based cash incentive awards, discretionary bonus payments, equity compensation through the Employee Stock Ownership Plan, or ESOP, and benefit plans and perquisites which the compensation committee believed were comparable to other financial institutions of similar size in our region. While our compensation program is comprised of all of the aforementioned primary elements, the performance-based cash incentive awards are intended to constitute a meaningful portion of the total potential compensation for our named executive officers.

Benchmarking

Periodically, the compensation committee compares our senior management compensation levels with comparable levels in industry benchmark studies and peer group data to gain a general knowledge of compensation programs in the industry. To do so, we participate in a survey provided by L.R. Webber Associates that benchmarks salary and benefits from Pennsylvania financial institutions who participate in the survey. The survey includes general compensation information and ranges for executives. The results are reported by bank asset size and geographic region. We use the survey data to compare the base salaries of our named executive positions to the range reported for those positions at other banking institutions with total asset size and geography similar to ours to determine whether we are compensating our named executive officers within the industry standard range.

The compensation committee retained Innovative Compensation and Benefits Concept to analyze and review compensation of the senior officers for 2015. As further described below under the heading Components of the Compensation Program, the compensation committee has referred to data from the consultant to formulate decisions regarding Peoples executive compensation practices.

The compensation committee also considers salary levels for comparable positions in industries other than the financial services industry.

Components of the Compensation Program

Our executive compensation includes three key elements: base salary, annual cash incentives and benefit plans.

Base Salary

Base salary is the basic element of our executive compensation program and the foundation for setting incentive compensation target awards. The compensation committee determines the range of base salary to offer to a new executive by evaluating the duties, complexities and responsibilities of the respective position; the level of experience required, and the compensation payable for positions having similar scope and accountability as our peer group of banks. In years prior to 2015, the compensation committee referred to a peer group of banks and set base salary compensation between 83 and 106 percent of the median salary for comparable positions within the peer group.

Table of Contents

For 2015, our compensation committee reviewed each named executive officer's individual performance, length and nature of experience and competency, and the potential for advancement in determining the amount of pay adjustments to recommend to the board of directors. In connection with such review, the base compensation for Craig W. Best was increased from \$247,286 to \$400,000; Thomas P. Tulaney was increased from \$210,000 to \$235,000; Scott A. Seasock was increased from \$166,257 to \$200,000 and Mr. Koplin was increased from \$175,000 to \$195,000 for 2015. Mr. Grubb was hired during 2015 at a salary of \$275,000.

Annual Cash Incentives

In 2011, we adopted an annual cash incentive plan (the Cash Incentive Plan) pursuant to which our named executive officers have the opportunity to earn performance-based incentive payments. Incentive compensation under the Cash Incentive Plan represents the at risk portion of an executive's pay subject to the achievement of performance goals. Annually, the compensation committee sets individual and corporate goals for the named executive officers to achieve in order to qualify for a cash incentive payment under the Cash Incentive Plan.

2015 Cash Incentive Plan

The following table provides information concerning the Cash Incentive Plan payments to our named executive officers during the year ended December 31, 2015:

Named Executive Officer	Target/ Maximum Peoples Cash Incentive Plan Payment (% of base salary)	Target/ Maximum Peoples Cash Incentive Plan Payment (\$)
Craig W. Best	35%	140,000
Thomas P. Tulaney	30%	70,500
Bradley S. Grubb	30%	82,500
Neal D Koplin	25%	48,750
Scott A. Seasock	20%	40,000

The Cash Incentive Plan rewards the attainment of annual company-wide financial objectives at specified levels in the areas of earnings per share, revenue, efficiency, loan deposit and asset growth, asset quality and individual performance relative to the specific tasks we expect an employee to accomplish during the year. Our objective is to drive superior annual performance at both the company and individual levels to the highest attainable levels by establishing performance thresholds that must be met to earn annual incentive awards. Targets for the Chief Executive Officer are set by the compensation committee, and targets for our other named executive officers are typically set by the compensation committee upon the recommendation of our Chief Executive Officer. Targets are typically communicated to officers during the first quarter of the year, and achievement of targets is evaluated by the compensation committee after year end. In 2015, the target payouts for Mr. Best was 35%, Messrs. Tulaney and Grubb were set at 30%, Mr. Koplin was 25% while Mr. Seasock was 20% of base salary, respectively, with achievement based upon corporate performance objectives, and target payouts based on corporate performance objectives. The compensation committee did not set individual performance objectives for 2015.

Based on the 2015 actual performance of the Company 30% incentive payments were earned under the Cash Incentive Plan. Mr. Best was awarded an incentive plan bonus of \$40,000, Mr. Tulaney was awarded an incentive plan bonus of \$32,075 while Mr Koplín was awarded an incentive plan bonus of \$31,687.

All payments for 2015 under the Cash Incentive Plan were approved and expensed in 2015. Additional details regarding the threshold, target and maximum payouts are set forth in the 2015 Grants of Plan-Based Awards on page 30, and actual payouts are included in the 2015 Summary Compensation Table on page 30.

Clawback Agreements

In order to participate in the Cash Incentive Plan, all executives are required to sign a clawback agreement. The clawback agreement allows us to recover any overpayment under the Cash Incentive Plan in the event that we are required to restate our financial statements because of a material financial reporting violation or an executive's misconduct or fraudulent activity. The policy applies to any current or former executive officer who received a payout under the Cash Incentive Plan during the three-year period preceding the date on which the restatement is required. Mr. Best has a substantially similar provision included in his employment agreement.

Long-Term Incentive Compensation

We maintain the 2008 Long-Term Incentive Plan, which we assumed in the Pensco merger, and the compensation committee may grant equity awards under the plan. Under appropriate circumstances, we believe that equity incentives and stock-based awards may help to focus employees on the long-term objectives of building additional shareholder value and promoting our success, will align employees' interest with stockholders interests. No awards were made under the 2008 Long-Term Incentive Plan in 2015.

Table of Contents

Benefits

ESOPs. We designed an ESOP as a long-term incentive to focus executives on long-term value creation and to provide balance to the annual Cash Incentive Plan. The ESOP covers substantially all employees who meet the eligibility requirements and is intended to incentivize and reward all employees, including the named executive officers, based upon our long-term success as measured by shareholder return.

401(k) Plans. We maintain a profit sharing plan, the Peoples Security 401(k) Plan, under the provisions of Section 401(k) of the Internal Revenue Code in an effort to provide employees with a means by which they can save for retirement and also to provide tax-deferred compensation, not to exceed the amount allowed under the Internal Revenue Code, as amended, referred to as the Code, as a reward for saving for retirement. All named executive officers participate in the Peoples Security 401(k) Plan on the same basis as other employees participating in the plan.

Pension Plan. The Company also maintains the Employees Pension Plan, a legacy defined benefit pension plan assumed in connection with the Pensco merger, which was amended in June 2008 to cease benefit accruals.

Health and Welfare Benefits. Named executive officers participate in the Company's other benefit plans on the same terms as other employees. These plans include medical, dental, vision, disability, life insurance and flex spending account benefits and are standard in the industry.

Supplemental Employee Retirement Plan. Peoples maintains a supplemental employee retirement plan (SERP) for Mr. Tulaney, which is intended to retain his services. Under the SERP, Mr. Tulaney is eligible to receive certain retirement benefits that accrue based on his service to the Company and are payable at retirement, or earlier under a qualifying termination of employment. See additional discussion below under the heading Pension Benefits.

Deferred Compensation Plans. We also maintain the Deferred Compensation Plan No. 2 under which we make certain contributions for Mr. Best in accordance with his employment agreement. See additional discussion below under the heading Non-Qualified Deferred Compensation.

Chief Executive Officer Retirement Benefits. We provide our Chief Executive Officer with certain retirement benefits under an Excess Benefit Plan formerly maintained by Pensco which was assumed in connection with the Pensco merger. This plan provides Mr. Best with additional benefits in excess of those accrued under the Peoples Security 401(k) Plan due to the limit on compensation contained in Section 401(a)(17) of the Code. See additional discussion below under the heading Non-Qualified Deferred Compensation.

Split Dollar Insurance Agreements. We provide split-dollar life insurance to Mr. Best. See additional discussion below under the headings *Craig W. Best Employment Agreement.*

Perquisites

The compensation committee regularly reviews our executive perquisites and believes they are appropriate and modest when compared to peers and are necessary to attract and retain high-caliber talent. We provide a vehicle allowance to all named executive officers as they are required to entertain business clients or otherwise travel in connection with their duties. The compensation committee also believes that country clubs can serve as appropriate forums for building client relationships and for community interaction. We reimburse monthly membership expenses for Mr. Tulaney based on demonstrable

Table of Contents

business requirements, which are approved monthly and reviewed annually. Additionally, we reimburse Messrs. Best, Koplin, Tulaney and Grubb for the cost of country and dining club memberships.

The Role of Management in Determining Compensation

For 2015, our compensation committee set performance goals, including economic profit targets under the 2015 Cash Incentive Plan and individual strategic goals, after consultation with our Chief Executive Officer for the other named executive officers. The compensation committee set performance goals, including economic profit targets under the 2015 Cash Incentive Plan, and individual strategic goals, for the Chief Executive Officer. The Chief Executive Officer reviewed each of the other named executive officer's annual performance and discussed the performance review with and makes a recommendation on base salary to the compensation committee. The compensation committee then presented its recommendations for increases in base salary to the board of directors for all named executive officers.

The Role of the Compensation Committee

The compensation committee is responsible for recommending compensation policies to the board for approval, as well as developing and implementing the compensation programs for the named executive officers and other key members of management. Key items pertaining to executive compensation such as base salary increases, the size and performance targets associated with awards under the Cash Incentive Plans, and the offering of special retirement agreements are submitted to the board of directors for approval following the review and recommendation of the compensation committee. In 2015, our Chief Executive Officer consulted with the compensation committee in determining the specific individual strategic targets outlined in the Cash Incentive Plan, but did not participate in discussions on his own compensation.

Operating within the framework of duties and responsibilities established by the board, the compensation committee's role is to assure our (1) compensation strategy is aligned with the long-term interests of the shareholders and members; (2) compensation structure is fair and reasonable; and (3) compensation reflects both corporate and individual performance.

Compensation Committee Consultants

The compensation committee's charter provides that the compensation committee shall be directly responsible for the appointment, compensation and oversight of the work of any compensation consultant, legal counsel and other adviser retained by the compensation committee. The Company must provide for appropriate funding, as determined by the compensation committee, for payment of reasonable compensation to a compensation consultant, legal counsel or any other adviser retained by the compensation committee. Prior to engaging any compensation consultant, legal counsel or other adviser (other than in-house legal counsel), the compensation committee must conduct an independence assessment with respect to such adviser.

For 2015, the compensation committee did engage a compensation consultant to review director compensation, since a review had been performed in 2014. During 2014 Innovation Compensation and Benefits Concepts was retained and provided a review and analysis of directors compensation.

Table of Contents

Accounting and Tax Treatments

All elements of compensation generate charges to earnings under generally accepted accounting principles (GAAP). Generally, no adjustment is made to compensation based on accounting factors, but the tax effects of various types of compensation are considered.

Company Stock Ownership

While we believe that it is important that our named executive officers and directors own shares of our common stock, we do not have formal equity or security ownership requirements which are generally applicable to our executive officers or directors. Under the terms of Mr. Best's employment agreement, however, his failure to own shares of our common stock having a fair market value equal to or greater than his annual base salary would be cause for termination.

Severance and Change in Control Benefits

We recognize that an important consideration in our ability to attract, retain and motivate key personnel is our ability to minimize the impact on our management team of the possible disruption associated with our exploration of strategic opportunities. Accordingly, we believe that it is in our best interest and the best interest of our shareholders to provide our key personnel with reasonable financial arrangements in the event of termination of employment following a change in control or involuntary termination of employment for reasons other than cause so that they are able to focus fully on the merits of any potential change in control situation without undue concern for the loss of their jobs. All of our named executive officers have provisions in their respective employment agreements that provide for certain benefits in the event of voluntary or involuntary termination following a change in control transaction. These provisions are described under the heading Other Potential Post-Termination Benefits below. These provisions are also described under the headings Craig W. Best Employment Agreement, Thomas P. Tulaney Employment Agreement, Bradley S. Grubb Employment Agreement and Scott A. Seasock Employment Agreement, and Neal D. Koplin Employment Agreement below, along with estimates of the severance and change in control benefits provided to each of them.

Many of the plans that we maintain and in which our named executive officers participate (including the Excess Benefit Plan) include provisions which accelerate vesting or payment of benefits upon a change in control and are described under the heading Other Potential Post-Termination Benefits below.

Executive Compensation

Our principal executive officer is Craig W. Best, Chief Executive Officer and President, and our principal financial officer is Scott A. Seasock, Executive Vice President and Chief Financial Officer. Messrs. Best and Seasock, together with Neal D. Koplin, Thomas P. Tulaney and Bradley S. Grubb, are referred to as the named executive officers. The following tables and narratives set forth certain information regarding the compensation of our named executive officers.

Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table

We are a party to employment agreements with each of our named executive officers. These agreements are described below under the headings, Craig W. Best Employment Agreement, Thomas P. Tulaney Employment Agreement, Scott A. Seasock Employment Agreement, Neal D. Koplín Employment Agreement and Bradley S. Grubb Employment Agreement. The employment agreements control many aspects of the compensation of our named executive officers.

Craig W. Best Employment Agreement

We are party to an amended and restated employment agreement with our President and Chief Executive Officer, Craig W. Best dated January 3, 2011, as amended as of December 31, 2015 (the Best Employment Agreement).

The Best Employment Agreement provided for an initial annual base salary of \$247,286, which is subject to annual review by the compensation committee. In 2015, the compensation committee, increased Mr. Best's annual base salary to \$400,000. In the event of an across-the-board salary reduction affecting all of the Company's management employees, we may decrease Mr. Best's base salary.

The Best Employment Agreement also provides that Mr. Best will be eligible to:

- receive an annual cash bonus equal to a percentage of his base salary, which percentage will be determined by the compensation committee from time to time;
- participate in certain deferred compensation plans maintained by the Company; and
- participate in our long-term incentive equity-based compensation plans.

Under the Best Employment Agreement, the Company agreed to purchase and maintain a term life insurance policy with a death benefit of \$500,000 payable upon Mr. Best's death. The Company also agrees to provide Mr. Best with the use of an automobile, along with reasonable insurance and maintenance costs, as well as reimbursement for country and dining club memberships and reasonable business expenses.

Edgar Filing: PEOPLES FINANCIAL SERVICES CORP. - Form DEF 14A

The Best Employment Agreement provides that any excess annual incentive cash payments and excess long-term incentive awards (each as defined in the Best Employment Agreement) paid to Mr. Best are subject to clawback provisions in the incentive plans pursuant to which the board of directors may request reimbursement for such payments from Mr. Best in the event that the Bank's financial statements are the subject of a restatement that is required by applicable law.

Mr. Best's employment is on an at will basis, and each of the Company, the Bank and Mr. Best may terminate the Employment Agreement at any time and for any reason (subject to Mr. Best's right to any severance payments). Under the Best Employment Agreement, and in the event that Mr. Best's employment is terminated involuntarily without Cause (as defined in the Best Employment Agreement) or voluntarily for Good Reason (as defined in the Best Employment Agreement), the Company and the Bank are obligated to, among other things, make monthly payments to Mr. Best for two (2) years following the termination equal to the sum of 1/12th of Mr. Best's base salary at the time of termination and 1/12th of the bonus payment that Mr. Best was then eligible to receive, make monthly payments equal to the amount of the COBRA continuation premium for a period of two (2) years following

termination and pay up to \$30,000 to an outplacement firm of Mr. Best's choice for outplacement services. In the event that Mr. Best is terminated without Cause or resigns for Good Reason in connection with a Change of Control (as defined in the Best Employment Agreement), he will be entitled to the salary and bonus payments described above for a period of three (3) years following termination (in lieu of two (2) years) and monthly payments equal to the amount of the COBRA applicable premium for a period of three (3) years following termination (in lieu of two (2) years). Payment of severance under the Best Employment Agreement is in each case contingent upon Mr. Best's execution and delivery of a release agreement to the Company and the Bank.

The Best Employment Agreement contains customary confidentiality and restrictive covenant provisions. For a period of 12 months following termination of employment for any reason, Mr. Best has agreed that he will not: (1) solicit customers, potential customers or suppliers for or on behalf of a competing business (as defined under the Best Employment Agreement); (2) recruit employees of the Bank or Company for a competing business; or (3) serve as a director, officer, employee or investor in a competing business.

Scott A. Seasock Employment Agreement

On January 18, 2011, we entered into an employment agreement with our Executive Vice President and Chief Financial Officer, Scott A. Seasock (the Seasock Employment Agreement). Mr. Seasock's employment agreement is automatically renewed, on an annual basis, for a period of three years.

The Seasock Employment Agreement provided for an initial annual base salary of \$145,000. The base salary rate automatically increased by a minimum of 4% effective January 1, 2012 and January 1, 2013 with further increases determined by the Company from time to time to the extent that the Company deems such increases appropriate. In 2015, the compensation committee increased Mr. Seasock's annual base salary to \$200,000. Under its current terms, the Seasock Employment Agreement also provides that Mr. Seasock will be eligible to receive an annual cash bonus equal to a percentage of his base salary and receive an automobile allowance in an amount of \$750.00 per month.

In addition, Mr. Seasock will be entitled to continuation of group insurance benefits, at the same level enjoyed by him immediately preceding the termination for the earlier of two (2) years following termination of employment or until he secures benefits from another employer. If Mr. Seasock is terminated without Cause or resigns for Good Reason within 120 days of a Change in Control, he will be entitled to 2.0 times his annual base salary. In addition, he shall be entitled to continuation of group health insurance benefits, at the same level enjoyed by him immediately preceding the event, for two years following termination of the executive's employment.

Notwithstanding the preceding provisions, in the event the lump sum payment described above, when added to all other amounts or benefits would result in the imposition of an excise tax under Code Section 4999, such lump sum shall be reduced to the extent necessary to avoid such imposition.

Bradley S. Grubb Upon termination by the Company without cause (as defined in his employment agreement), Mr. Grubb will receive his accrued compensation and other benefits through his termination date, along with a severance payment equal to 12 months of payments based upon base salary. If the Company terminated Mr. Grubb's employment without cause on December 31, 2015, the severance payment due under his employment agreement (based solely on Mr. Grubb's initial base salary, without regard to future adjustments) would have been \$275,000.

Table of Contents

Payments Made Upon Disability or Death. The employment agreements with Messrs. Best, Tulaney, Koplin, Seasock and Grubb provide that, upon termination due to the executive's death or disability, he will receive only accrued compensation and vested benefits through his termination date.

Under his SERP agreement if Mr. Tulaney becomes disable he is eligible to earn an annual benefit of \$38,537 in twelve equal installments for twenty years. If death occurs, Mr. Tulaney's beneficiary would receive \$114,600 in twelve equal installments over a twenty year period.

Payments Made Upon a Change in Control. In accordance with the terms of their employment agreements, our named executive officers are entitled to the following payments upon termination in connection with a change of control:

Craig W. Best If we terminate Mr. Best without cause or Mr. Best terminates for good reason within 36 months of a change in control, he will receive, in addition to previously accrued compensation and benefits, monthly severance payments for 36 months following termination, equal to the sum of 1/12th of the executive's base salary at the time of termination and 1/12th of the bonus payment that Mr. Best was then eligible to receive. In addition, the Company will pay the applicable premium otherwise payable for COBRA continuation coverage for the executive, his spouse and dependents for a period of 36 months following termination. The executive will immediately vest in all outstanding stock-based compensation awards upon termination in connection with a change in control. Generally, under Section 280G of the Internal Revenue Code, severance payments made in connection with a change in control that equal or exceed three times an executive's average annual compensation over the five preceding tax years (or period of employment, if less) are considered excess parachute payments. Amounts that exceed the Section 280G limit are subject to an excise tax payable by Mr. Best and are non-deductible by us. The employment agreement limits payments to Mr. Best to an amount that will not exceed his Section 280G limit under the Internal Revenue Code. If a change in control had occurred at December 31, 2015, the severance payment due to Mr. Best under his employment agreement (based solely on Mr. Best's then current cash compensation, without regard to future base salary adjustments or bonuses) would have been \$1,878,197, which includes accrued benefit of \$63,051 under the Excess Benefit Plan, \$11,142 under the Deferred Compensation Plan No. 1, \$427,925 from Deferred Compensation Plan No. 2 and Restricted Stock would become nonforfeitable with a value of \$74,142.

Thomas P. Tulaney If we terminate Mr. Tulaney without cause or Mr. Tulaney terminates for good reason within 24 months of a change in control, he will receive, in addition to previously accrued compensation and benefits, monthly severance payments for 24 months following termination, equal to the sum of 1/12th of the executive's base salary at the time of termination and 1/12th of the bonus payment that Mr. Tulaney was then eligible to receive. In addition, the Company will pay the applicable premium otherwise payable for COBRA continuation coverage for Mr. Tulaney, his spouse and dependents for a period of 24 months following termination. Mr. Tulaney will immediately vest in all outstanding stock-based compensation awards upon termination in connection with a change in control. If a change in control had occurred at December 31, 2015, the severance payment due to Mr. Tulaney under his employment agreement (based solely on Mr. Tulaney's then current cash compensation, without regard to future base salary adjustments or bonuses) would have been \$1,398,575 which includes Mr. Tulaney's 12,362 shares of restricted stock with a value of \$472,565 that would have become nonforfeitable. Additionally, if a change in control had occurred at

December 31, 2015 and Mr. Tulaney's employment with us ceased on that date, his Supplemental Executive Retirement Plan benefit would become vested and an annual benefit of approximately \$82,380 would be payable in monthly installments over 20 years.

Under the Tulaney Employment Agreement, in the event that Mr. Tulaney's employment is terminated without Cause (as defined in the Tulaney Employment Agreement), we are obligated to,

among other things, make monthly payments to Mr. Tulaney for one (1) year following the termination equal to sum of 1/12th of Mr. Tulaney's base salary at the time of termination and 1/12th of the average bonus payment that Mr. Tulaney had received in the immediately preceding three (3) years (or such shorter timer period as Mr. Tulaney has been eligible to receive such bonus payments), and make monthly COBRA continuation premium payments for eighteen (18) months. In the event that Mr. Tulaney is terminated within two (2) years following a Change of Control (as defined in the Tulaney Employment Agreement), he will be entitled to the salary and bonus payments described above for a period of two (2) years following termination (in lieu of one (1) year) and COBRA continuation premium payments for two (2) years (in lieu of eighteen (18) months). The Tulaney Employment Agreement provides for adjustments to the timing of severance payments due to Mr. Tulaney to comply with certain provisions of the Internal Revenue Code, including Section 409A thereof. Payment of severance under the Tulaney Employment Agreement is in each case contingent upon Mr. Tulaney's execution and delivery of a release agreement to the Company and the Bank.

Neal D. Koplin - Under the Koplin Employment Agreement, in the event that Mr. Koplin is terminated within 24 months following a Change of Control (as defined in the Koplin Employment Agreement) or resigns for Good Reason (as defined in the Koplin Employment Agreement), he will be entitled to the salary payments described above for a period of three (3) years following termination (in lieu of one (1) year). The Koplin Employment Agreement provides for adjustments to the timing of severance payments due to Mr. Koplin to comply with certain provisions of the Internal Revenue Code, including Section 409A thereof. Payment of severance under the Koplin Employment Agreement is in each case contingent upon Mr. Koplin's execution and delivery of a release agreement to the Company and the Bank. If a change in control had occurred at December 31, 2015, the severance due to Mr. Koplin under his employment agreement would have been \$669,124.

Scott A. Seasock If we terminate Mr. Seasock without cause or Mr. Seasock terminates for good reason within 24 months of a change in control, he will receive, in addition to previously accrued compensation and benefits, an amount equal to twice his base salary at the time of termination. In addition, Mr. Seasock would be entitled to continuation of group insurance benefits at the same level as existed immediately prior to the termination until the earlier to occur of (i) the second anniversary of his termination; and (ii) the commencement of his employment with another employer. If a change in control had occurred at December 31, 2015, the severance payment due to Mr. Seasock under his employment agreement (based solely on Mr. Seasock's then current cash compensation, without regard to future base salary adjustments or bonuses) would have been \$417,832.

Bradley S. Grubb If we terminate Mr. Grubb without cause within 24 months after a change in control, he will receive, in addition to previously accrued compensation and benefits, monthly severance payments for 24 months following termination, equal to the sum of 1/12th of his base salary at the time of termination. If Mr. Grubb had been employed under the initial terms of his employment agreement and a change in control had occurred at December 31, 2015, the severance payment due to Mr. Grubb under his employment agreement (based solely on his initial annual base salary, without regard to future base salary adjustments) would have been \$550,000.

Effective June 24, 2011, we established a director supplemental life insurance plan. All directors are eligible for the life insurance benefit, subject to medical underwriting acceptance. The plan currently insures seven directors. The director life insurance benefit of \$100,000 per participating director is provided through a single premium BOLI program because BOLI is a more cost-effective way of providing the benefits. The eligible participating directors are not required to pay any premiums on the life insurance policy, but have the imputed value of the insurance coverage included in their taxable income.

On March 26, 2011, we adopted the Director Deferred Compensation Plan to be effective April 15, 2011. All current non-employee directors are eligible to participate in the Director Deferred Compensation Plan. The Plan allows for deferrals by participants of up to 100% of their director's fees. There is no maximum dollar limit on the amount that may be deferred by a participant each year. Participants are permitted to change their percentage of deferral annually. The participants are always 100% vested in the amount they defer and the earnings credited to their accounts. Participants are entitled to receive a distribution from their account upon: a termination of service, a change in control, or a specified date as allowed within the plan.

The Company provides a retirement benefit to its non-employee directors. The plan requires a minimum of ten years of service. After the tenth year, the director is granted an annual retirement distribution based on the director's number of years of service on the board, currently \$150 multiplied by the number of years served. This benefit is payable to the director or beneficiary for a ten-year period following retirement. During 2015, we charged \$3,400 to expenses for this benefit.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Bank has made, and expects to continue to make, loans in the future to our directors and executive officers and their family members, and to firms, corporations, and other entities in which they and their family members maintain interests. All such loans require the prior approval of our board of directors. None of such loans are, as of the date of this proxy statement, or were at December 31, 2013, nonaccrual, past due, restructured or potential problems, and all of such loans were made in the ordinary course of business, on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the Company or the Bank and did not involve more than the normal risk of collectability or present other unfavorable features.

The Bank has a formal process with respect to the review and approval of loans extended by it to related persons. In accordance with these procedures, all transactions with related persons must be approved or ratified by disinterested members of board of directors. All loans and commitments to lend included in such transactions were made under substantially the same terms, including interest rates, collateral, and repayment terms as those prevailing at the time for comparable transactions with other persons not related to the Bank and do not involve more than the normal risk of collection or present other unfavorable features.

There were no transactions since the beginning of our last fiscal year, and there are no currently proposed transactions, in which we were or are to be a participant and the amount involved exceeds \$120,000, and in which any related person who is also an executive officer had or will have a direct or indirect material interest.

Our Loan Policy and our procedures related to the approval of loans set forth our policies and procedures for the review, approval, or ratification of any transactions with related persons. Any transaction that involves the purchase from, sale to, or joint ownership with, a related person, of an interest in real or personal property must receive any required approvals of regulatory authorities confirming that the terms of such transactions are fair to, and in the best interests of the Company or the Bank; be supported by an independent appraisal not prepared by a related person or an employee of the Company or the Bank; and be approved in advance by a resolution duly adopted, with full disclosure, by our audit committee. Any extension of credit to a related person must be approved in advance by a resolution duly adopted after full disclosure by a majority of the entire board of directors of the Bank, with each interested director abstaining from participating, directly or indirectly, in the vote. All other transactions not expressly described in our code of conduct and ethics, in which any related person will have a direct or indirect material interest, are subject to review and approval by our audit committee.
