Item 8.01. Other Events.

On May 18, 2018, Agile Therapeutics, Inc. (the Company) issued a press release announcing the results of the Company s April 16, 2018 Type A meeting (the Type A Meeting) with the U.S. Food and Drug Administration (the FDA). The Company had the Type A Meeting to discuss the complete response letter dated December 21, 2017 (the CRL) that the FDA issued in connection with the June 26, 2017 New Drug Application (NDA) resubmission for the Company s investigational low dose, non-daily combination hormonal contraceptive patch, Twirla (AG200-15). The Company received the final meeting minutes from the FDA on May 15, 2018.

In the minutes, the FDA informed the Company that it continues to have significant concerns regarding the adhesion of Twirla, which the FDA believes cannot be addressed through the Company s proposed patient compliance programs. The FDA recommended that the Company should address the Twirla adhesion properties by reformulating the transdermal system; conducting a formal adhesion study with the new formulation; and demonstrating bioequivalence to the data and information for the original formulation. The FDA advised the Company that, after the Company satisfies the FDA s questions on adhesion and adequately bridges to the findings in the SECURE Phase 3 trial, it anticipates discussing the safety and efficacy of Twirla at an advisory committee meeting to obtain input on whether the benefits outweigh the risks. In the absence of a finding of bioequivalence, the Company would need to conduct a new Phase 3 study with the new formulation. Finally, the FDA provided guidance on a path forward for addressing manufacturing issues related to Twirla, which path is largely based on the materials the Company had previously submitted in December 2017.

The Company will continue to evaluate all of its options on next steps and expects it will pursue formal dispute resolution. The Company will provide an update when it moves forward. In the Company s Quarterly Report on Form 10-Q for the period ended March 31, 2018, the Company disclosed that it believes its cash and cash equivalents as of March 31, 2018, will be sufficient to meet its operating requirements through the end of 2018. In light of feedback from the FDA, the Company is re-evaluating its business plan to identify ways to extend its ability to fund its operations even further.

A copy of the Company s press release is attached hereto as Exhibit 99.1 and is hereby incorporated by reference herein.

Item 9.01. Financial Statements and Exhibits.
