**Item 1.01. Entry into a Material Definitive Agreement.**

The description of the Credit Agreement (as defined below) set forth under Item 2.03 is hereby incorporated by reference into this Item 1.01.

**Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.**

On September 19, 2018, certain subsidiaries of Starwood Property Trust, Inc. (the Company) entered into a credit agreement (the Credit Agreement) with MUFG Bank, Ltd. (MUFG), as administrative agent, issuing lender and a lender, and the other lenders from time to time party thereto (collectively with MUFG, the Lenders), providing for a \$1,537,003,230 senior secured term loan, a \$256,846,626 senior secured revolving credit facility and a \$334,032,401 senior delayed draw term loan facility (collectively, the Credit Facilities), the proceeds of which were used, in the case of the term loan, to fund a portion of the acquisition of the Project Finance Debt Business (as defined below under Item 8.01) and, in the case of the revolving credit and delayed draw term loan facilities, to fund the future funding commitments of the subsidiary borrowers (such subsidiaries, the Borrowers) under the project finance loans acquired as part of the acquisition of the Project Finance Debt Business (the Acquired Loans).

The Credit Facilities mature in three years, which maturity may be extended for one year at the option of the Borrowers subject to the absence of a default and payment of a fee. The loans thereunder bear interest (and fees accrue with respect to letters of credit issued thereunder) at a rate per annum equal to LIBOR plus a margin of 1.50%, which margin increases to 1.75% and 2.00% at the end of the first and second years, respectively. Additionally, the Borrowers are required to pay a quarterly fee of 0.75% per annum on the average daily unused commitments under the revolving credit and delayed draw term loan facilities. The Credit Facilities are prepayable at any time without premium or penalty, but are required to be prepaid on a monthly basis to the extent necessary to reduce the loan-to-value ratio to 82.5%.

The Credit Facilities are secured by all assets of the Borrowers, which consist of the Acquired Loans and the proceeds thereof. The Credit Facilities are guaranteed by the direct parent of the Borrowers, which guarantee is secured by a pledge of such parent's equity in the Borrowers. The Credit Facilities are not guaranteed by or otherwise recourse to the Company or any other subsidiaries of the Company. The Credit Agreement includes representations and warranties, affirmative and negative covenants, reporting obligations and events of default, in each case, applicable to the Borrowers and in certain cases, the direct parent, as are customary for facilities of this nature. Distributions of cash not required for debt service or to prepay the loans as described above may be made on a monthly basis, so long as the interest coverage ratio is not less than 1.15x. Sales of the Acquired Loans are permitted subject to the absence of a default and a loan-to-value ratio, pro forma for such sale and any prepayment of the loans, of 82.5%. The only financial covenant is a loan-to-value ratio under which an event of default occurs if such ratio exceeds 90% and is not cured by an equity contribution and corresponding prepayment within 15 days.

**Item 8.01. Other Matters.**

On September 19, 2018, the Company completed the acquisition of GE Capital's Energy Financial Services project finance debt business (the Project Finance Debt Business) for a purchase price of approximately \$2.01 billion. The Company funded the acquisition with the proceeds of the senior secured term loan constituting part of the Credit Facilities (described above under Item 2.03) and cash on hand.

## Edgar Filing: STARWOOD PROPERTY TRUST, INC. - Form 8-K

The Project Finance Debt Business consists of a vertically-integrated platform with a seasoned leadership team and 22 full-time employees across loan origination, underwriting, capital markets and asset management, and a loan portfolio consisting of 50 senior loans secured by energy infrastructure real assets with total commitments of approximately \$2.4 billion, including approximately \$470 million of unfunded commitments. These amounts exclude \$150 million of loans which are subject to an October 15th delayed closing due to potential near-term repayment.

For additional information regarding the Project Finance Debt Business, refer to the Company's Current Report on Form 8-K filed on August 13, 2018.

**SIGNATURE**
