#### **Item 8.01 Other Events**

Public Service Company of New Mexico ("PNM") is a wholly-owned subsidiary of PNM Resources, Inc. ("PNMR"). In 1985 and 1986, PNM entered into 11 separate transactions through which it sold all of its interest in Units 1 and 2 of the Palo Verde Nuclear Generating Station and related common facilities to institutional investors. At the same time, PNM entered into agreements to leaseback the facilities that were sold. These transactions resulted in gains, which in accordance with generally accepted accounting principles ("GAAP") were deferred and amortized over the lives of the leases.

In 1990, the New Mexico Public Service Commission, the predecessor to the New Mexico Public Regulation Commission, ordered that the portion of the gain on the sale-leasebacks attributable to PNM's New Mexico customers was to reduce electric rates over 15 years. Accordingly, under GAAP, the amortization period of the portion of the gain on the sale-leasebacks attributable to New Mexico customers should have been changed to match the rate-making treatment, which would have resulted in that portion of the gain being completely amortized by 2001. However, PNM continued to amortize the gain over the lives of the leases for financial reporting purposes.

On August 1, 2007, management of PNMR and PNM determined that in accordance with Securities and Exchange Commission Staff Accounting Bulletin 108 the audited financial statements included in the PNMR and PNM Annual Reports on Form 10-K for the fiscal year ended December 31, 2006 and the unaudited financial statements included in the PNMR and PNM Quarterly Reports on Form 10-Q for the quarterly period ended March 31, 2007 should be restated to correct this error. The restatement will be reflected by increasing the beginning balance of retained earnings for both PNMR and PNM as of January 1, 2004 by \$15.5 million and removing the amortization of the portion of the gain attributable to New Mexico customers, which amounts to a \$1.3 million annual decrease in net earnings. The impacts of the above, as well as the impacts on the three months and six months ended June 30, 2006, are shown in the following table. On the statements of cash flows, the change in net earnings for removing the amortization, which is a non-cash item, will be offset by a change in deferred credits resulting in no impact on net cash flows from operating activities and does not otherwise impact the statements of cash flows.
