SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT
PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the Quarterly Period Ended December 31, 2017
Commission File No. 1-15983

MERITOR, INC.

(Exact name of registrant as specified in its charter)

Indiana	38-3354643
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

2135 West Maple Road, Troy, Michigan	48084-7186
(Address of principal executive offices)	(Zip Code)

(248) 435-1000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YesXNo

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Registration S-T during the preceding twelve months (or for such shorter period that the registrant was required to submit and post such files).

YesXNo

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	X	Accelerated filer
Non-accelerated filer	(Do not check if a smaller reporting company)	Smaller reporting company
Emerging growth company		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. []

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes NoX

89,184,543 shares of Common Stock, \$1.00 par value, of Meritor, Inc. were outstanding on January 30, 2018.

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

Meritor, Inc. (the “company” or “Meritor”), headquartered in Troy, Michigan, is a premier global supplier of a broad range of integrated systems, modules and components to original equipment manufacturers (“OEMs”) and the aftermarket for the commercial vehicle, transportation and industrial sectors. The company serves commercial truck, trailer, military, bus and coach, construction and other industrial OEMs and certain aftermarkets. The condensed consolidated financial statements are those of the company and its consolidated subsidiaries.

Certain businesses are reported in discontinued operations in the condensed consolidated statement of operations, condensed consolidated statement of cash flows and related notes for all periods presented. Additional information regarding discontinued operations is discussed in Note 4.

In the opinion of the company, the unaudited condensed consolidated financial statements contain all adjustments, consisting solely of adjustments of a normal, recurring nature, necessary to present fairly the financial position, results of operations and cash flows for the periods presented. These statements should be read in conjunction with the company’s audited consolidated financial statements and notes thereto included in the company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2017, as amended. The condensed consolidated balance sheet data as of September 30, 2017 was derived from audited financial statements but does not include all annual disclosures required by accounting principles generally accepted in the United States of America. The results of operations for the three months ended December 31, 2017 are not necessarily indicative of the results for the full year.

The company’s fiscal year ends on the Sunday nearest September 30, and its fiscal quarters generally end on the Sundays nearest December 31, March 31 and June 30. The first quarter of fiscal years 2018 and 2017 ended on December 31, 2017 and January 1, 2017, respectively. All year and quarter references relate to the company’s fiscal year and fiscal quarters, unless otherwise stated. For ease of presentation, September 30 and December 31 are used consistently throughout this report to represent the fiscal year end and first fiscal quarter end, respectively.

2. Earnings per Share

Basic earnings (loss) per share is calculated using the weighted average number of shares outstanding during each period. The diluted earnings (loss) per share calculation includes the impact of dilutive common stock options, restricted shares, restricted share units, performance share unit awards and convertible securities, if applicable.

A reconciliation of basic average common shares outstanding to diluted average common shares outstanding is as follows (in millions):

	Three Months Ended December 31, 2017 2016	
Basic average common shares outstanding	88.6	87.1
Impact of restricted shares, restricted share units and performance share units	—	1.4
Impact of convertible notes	—	—
Diluted average common shares outstanding	88.6	88.5

In November 2017, the Board of Directors approved a grant of performance share units to all executives eligible to participate in the long-term incentive plan. Each performance share unit represents the right to receive one share of common stock or its cash equivalent upon achievement of certain performance and time vesting criteria. The fair value of each performance share unit was \$24.79, which was the company’s share price on the grant date of December 1, 2017. The Board of Directors also approved a grant of 0.3 million restricted share units to these executives. The restricted share units vest at the earlier of three years from the date of grant or upon termination of employment with

the company under certain circumstances. The fair value of each restricted share unit was \$24.79, which was the company's share price on the grant date of December 1, 2017.

The actual number of performance share units that will vest depends upon the company's performance relative to the established performance metrics for the three-year performance period of October 1, 2017 to September 30, 2020, measured at the end of the performance period. The number of performance share units that vest will depend on adjusted EBITDA margin and adjusted diluted earnings per share from continuing operations at the following weights: 50% associated with achieving an adjusted EBITDA margin target and 50% associated with achieving an adjusted diluted earnings per share from continuing operations target. The

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

number of performance share units that vest will be between 0% and 200% of the grant date amount of 0.3 million performance share units.

In November 2016, the Board of Directors approved a grant of performance share units to all executives eligible to participate in the long-term incentive plan. Each performance share unit represents the right to receive one share of common stock or its cash equivalent upon achievement of certain performance and time vesting criteria. The fair value of each performance share unit was \$12.77, which was the company's share price on the grant date of December 1, 2016. The Board of Directors also approved a grant of 0.5 million restricted share units to these executives. The restricted share units vest at the earlier of three years from the date of grant or upon termination of employment with the company under certain circumstances. The fair value of each restricted share unit was \$12.77, which was the company's share price on the grant date of December 1, 2016.

The actual number of performance share units that will vest depends upon the company's performance relative to the established M2019 goals for the three-year performance period of October 1, 2016 to September 30, 2019, measured at the end of the performance period. The number of performance share units will depend on meeting the established M2019 goals at the following weights: 50% associated with achieving an adjusted diluted earnings per share from continuing operations target, 25% associated with achieving revenue growth above market and 25% associated with achieving a net debt to adjusted EBITDA target. The number of performance share units that vest will be between 0% and 200% of the grant date amount of 0.6 million performance share units.

In November 2015, the Board of Directors approved a grant of performance share units to all executives eligible to participate in the long-term incentive plan. Each performance share unit represents the right to receive one share of common stock or its cash equivalent upon achievement of certain performance and time vesting criteria. The fair value of each performance share unit was \$10.51, which was the company's share price on the grant date of December 1, 2015. The Board of Directors also approved a grant of 0.5 million restricted share units to these executives. The restricted share units vest at the earlier of three years from the date of grant or upon termination of employment with the company under certain circumstances. The fair value of each restricted share unit was \$10.51, which was the company's share price on the grant date of December 1, 2015.

The actual number of performance share units that will vest depends upon the company's performance relative to the established performance metrics for the three-year performance period of October 1, 2015 to September 30, 2018, measured at the end of the performance period. The number of performance share units that vest will depend on adjusted EBITDA margin and adjusted diluted earnings per share from continuing operations at the following weights: 50% associated with achieving an adjusted EBITDA margin target and 50% associated with achieving an adjusted diluted earnings per share from continuing operations target. The number of performance share units that vest will be between 0% and 200% of the grant date amount of 0.7 million performance share units.

In November 2014, the Board of Directors approved a grant of performance share units to all executives eligible to participate in the long-term incentive plan. Each performance share unit represents the right to receive one share of common stock or its cash equivalent upon achievement of certain performance and time vesting criteria. The fair value of each performance share unit was \$13.74, which was the company's share price on the grant date of December 1, 2014. The Board of Directors also approved a grant of 0.4 million restricted share units to these executives. The restricted share units vest at the earlier of three years from the date of grant or upon termination of employment with the company under certain circumstances. The fair value of each restricted share unit was \$13.74, which was the company's share price on the grant date of December 1, 2014.

The actual number of performance share units that vested on December 1, 2017 depended upon the company's performance relative to the established performance metrics for the three-year performance period of October 1, 2014 to September 30, 2017, which was measured at the end of the performance period. The company's performance resulted in the calculated payout of the performance share units at 65% of the grant date amounts.

The potential effect of 1.7 million restricted shares, restricted share units and performance share units is excluded from the diluted earnings per share calculation for the three months ended December 31, 2017 because inclusion in a loss from continuing operations period would reduce the loss per share from continuing operations attributable to common shareholders. For the three months ended December 31, 2016, the dilutive impact of previously issued restricted shares, restricted share units, and performance share units was 1.4 million shares units. For the three months ended December 31, 2017 and December 31, 2016, compensation cost related to restricted shares, restricted share units and performance share units was \$5 million and \$3 million, respectively.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For the three months ended December 31, 2017, the potential effect of 1.0 million shares of the company's 7.875 percent convertible notes due 2026 was excluded in the computation of diluted earnings per share because inclusion in a loss from continuing operations period would reduce the loss per share from continuing operations attributable to common shareholders. For the three months ended December 31, 2016, the company's 7.875 percent convertible notes due 2026 were excluded from the computation of diluted earnings per share, as the company's average stock price during this period was less than the conversion price for the notes.

3. New Accounting Standards

Accounting standards to be implemented

In January 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-01, Leases (Topic 842): Land Easement Practical Expedient for Transition to Topic 842. ASU 2018-01 permits an entity to elect an optional transition practical expedient to not evaluate land easements that exist or expired before the entity's adoption of Topic 842 and that were not previously accounted for as leases under Topic 840. The amendments in this update affect the guidance in ASU 2016-02, which is not effective yet. The effective date and the transition requirements for the amendments in ASU 2018-01 are the same as the effective date and transition requirements in ASU 2016-02 as described below. Therefore, the company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2019 in connection with its planned implementation of ASU 2016-02 and is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting. ASU 2017-09 amends the scope of modification accounting for share-based payment arrangements and provides guidance on when an entity would be required to apply modification accounting. This standard is effective for all entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Early adoption is permitted, including adoption in any interim period. The amendments in this update should be applied prospectively. The company is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In March 2017, the FASB issued ASU 2017-08, Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. ASU 2017-08 affects entities who own investments in callable debt securities and aligns the amortization period of premiums on callable debt securities to expectations incorporated in market pricing on the underlying securities. This standard is effective for public business entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period. The amendments in this update should be applied on a modified retrospective basis through a cumulative-effective adjustment directly to retained earnings at the beginning of the adoption period. The company does not expect a material impact on its consolidated financial statements from adoption of this guidance.

In March 2017, the FASB issued ASU 2017-07, Compensation—Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The new guidance requires entities to only include the service cost component of net periodic pension cost and net periodic postretirement benefit cost in operating expenses (together with other employee compensation costs). The other components of net benefit cost, including amortization of prior service cost/credit, are to be included in a separate line item(s) outside of any sub-total of operating income. ASU 2017-07 also provides guidance that only the service cost component of net benefit cost is eligible for capitalization. This standard is effective for public business entities for interim and annual periods beginning after December 15, 2017. The revisions in this amendment are to be applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost and net periodic

postretirement benefit cost in the income statement and prospectively for the capitalization of the service cost component of net periodic pension cost and net periodic postretirement benefit in assets. The company is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In February 2017, the FASB issued ASU 2017-05, Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets. ASU 2017-05 provides guidance which defines an “in substance nonfinancial asset”; unifies guidance related to partial sales of nonfinancial assets; eliminates rules specifically addressing sales of real estate; removes exceptions to the financial asset derecognition model; and clarifies the accounting for contributions of nonfinancial assets to joint ventures. The effective date and the transition requirements for the amendments in ASU 2017-05 are the same as the effective date and transition requirements in Topic 606, described below. The company is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In January 2017, the FASB issued ASU 2017-04, Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. The new guidance eliminates the need to determine the fair value of individual assets and liabilities of a reporting unit to measure a goodwill impairment. A goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value. The revised guidance will be applied prospectively, and is effective for calendar year-end SEC filers in 2020. Early adoption is permitted for any impairment tests performed after January 1, 2017. The new guidance is not expected to have a material impact on the company's consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. The ASU provides clarification on the definition of a business and adds guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. To be considered a business under the new guidance, it must include an input and a substantive process that together significantly contribute to the ability to create output. The amendment removes the evaluation of whether a market participant could replace missing elements. The amendments in this update are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, and will be applied prospectively. The potential impact of this new guidance will be assessed for future acquisitions or dispositions, but it is not expected to have a material impact on the company's consolidated financial statements.

In October 2016, the FASB issued ASU 2016-16, Accounting for Income Taxes: Intra-Entity Asset Transfers of Assets Other than Inventory. The ASU was issued to remove the prohibition in FASB ASC 740 against the immediate recognition of the current and deferred income tax effects of intra-entity transfers of assets other than inventory. The amendments in this update are effective for public business entities in fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted; however, the guidance can only be adopted in the first interim period of a fiscal year. The company is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force). The ASU was issued to reduce differences in practice with respect to how specific transactions are classified in the statement of cash flows. The update provides guidance on the following eight types of transactions: debt prepayment or debt extinguishment costs, settlement of zero-coupon debt instruments, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life insurance policies, distributions received from equity method investments, beneficial interests in securitization transactions and separately identifiable cash flows and application of the predominance principle. The amendments in this update are effective for public business entities in fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted, provided that all of the amendments are adopted in the same period. The guidance requires application using a retrospective transition method. The company is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The ASU introduces an approach based on expected losses to estimate credit losses on certain types of financial instruments, including accounts receivable. The ASU also modifies the impairment model for available-for-sale (AFS) debt securities and provides for a simplified accounting model for purchased

financial assets with credit deterioration since their origination. The amendments in this update are required to be adopted by public business entities in fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. The company is currently evaluating the potential impact of this new guidance on its accounting policies and its consolidated financial statements.

In May 2016, the FASB issued ASU 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients. The ASU clarifies the assessment of the likelihood that revenue will be collected from a contract, the guidance for presenting sales taxes and similar taxes, and the timing for measuring customer payments that are not in cash. The ASU also establishes a practical expedient for contract modifications at the transition. The amendments in this update affect the guidance in ASU 2014-09, which is not effective yet. The effective date and the transition requirements for the amendments in ASU 2016-12 are the same as the effective date and transition requirements in ASU 2014-09 as described below. Therefore, the company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2018 in connection with its planned implementation of ASU 2014-09 and is currently evaluating the potential impact of this new guidance on its accounting policies and its consolidated financial statements.

In May 2016, the FASB issued ASU 2016-11, Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 815): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

at the March 3, 2016 EITF Meeting (SEC Update). The ASU was issued to remove from the Codification certain SEC staff guidance that the SEC staff stated would be rescinded: Revenue and Expense Recognition for Freight Services in Process; Accounting for Shipping and Handling Fees and Costs; and Accounting for Consideration Given by a Vendor to a Customer (including a Reseller of the Vendor's Products). The amendments in this update affect the guidance in ASU 2014-09, which is not effective yet. The effective date and the transition requirements for the amendments in ASU 2016-11 are the same as the effective date and transition requirements in ASU 2014-09 as described below. Therefore, the company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2018 in connection with its planned implementation of ASU 2014-09 and is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In April, 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606), Identifying Performance Obligations and Licensing. The ASU provides guidance regarding the identification of performance and licensing obligations. The amendments in this update affect the guidance in ASU 2014-09, which is not effective yet. The effective date and the transition requirements for the amendments in ASU 2016-10 are the same as the effective date and transition requirements in ASU 2014-09 as described below. Therefore, the company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2018 in connection with its planned implementation of ASU 2014-09 and is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606), Principal versus Agent Considerations (Reporting Revenue Gross versus Net) to clarify certain aspects of the principal-versus-agent guidance in its new revenue recognition standard. The amendments in this update affect the guidance in ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The effective date and transition requirements for the amendments in ASU 2016-08 are the same as the effective date and transition requirements of ASU 2014-09. Therefore, the company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2018 in connection with its planned implementation of ASU 2014-09. The company is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The update will require lessees to recognize a right-of-use asset and lease liability for substantially all leases. The standard is required to be adopted by public business entities in fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2019 and is currently assessing the potential impact of this new guidance on its on its accounting policies and its consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10), Recognition and Measurement of Financial Assets and Financial Liabilities, which requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. The guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted. The company does not expect a material impact on its consolidated financial statements from adoption of this guidance.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which requires companies to recognize revenue when a customer obtains control rather than when companies have transferred substantially all risks and rewards of a good or service and requires additional disclosure about the nature, amount,

timing and uncertainty of revenue and cash flows arising from customer contracts. ASU 2014-09 was originally effective for fiscal periods beginning after December 15, 2016, including interim periods within those fiscal periods. In August 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 by one year making it effective for fiscal periods beginning after December 15, 2017, including interim periods within those fiscal periods, while also providing for early adoption but not before the original effective date. The company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2018 and is currently evaluating the potential impact of this new guidance on its on its accounting policies and its consolidated financial statements.

Accounting standards implemented during fiscal year 2018

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. The amendment changes the recognition and presentation requirements of hedge accounting, including eliminating the requirement to separately measure and report hedge ineffectiveness and presenting all items that affect earnings in the same income statement line as the hedged item. The guidance also eases certain documentation and assessment requirements and modifies the accounting components excluded from the assessment of hedge effectiveness. Changes to income statement

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

classification and financial statement disclosures were applied prospectively from the date of adoption. The company adopted this standard in the first quarter of fiscal year 2018. This guidance did not have a material impact on the consolidated financial statements.

In October 2016, the FASB issued ASU 2016-17, Consolidation (Topic 810): Interests held through Related Parties that are under Common Control, which alters how a decision maker needs to consider indirect interests in a variable interest entity (VIE) held through an entity under common control. Under the ASU, if a decision maker is required to evaluate whether it is the primary beneficiary of a VIE, it will need to consider only its proportionate indirect interest in the VIE held through a common control party. The company adopted this standard in the first quarter of fiscal year 2018. This guidance did not have a material impact on the consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718), Improvements to Employee Share-Based Payment Accounting. The ASU intends to simplify how share-based payments are accounted for, including accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as classification in the statement of cash flows. The company adopted this standard in the first quarter of fiscal year 2018. Following adoption of this standard, all excess tax benefits and all tax deficiencies generated in the current and future periods will be prospectively recorded as income tax benefit or expense in the company's Consolidated Statement of Operations in the reporting period in which they occur. An income tax benefit of approximately \$1 million was recognized in the quarterly period ended December 31, 2017 as a result of the adoption of ASU 2016-09 and a corresponding \$1 million increase in income from continuing operations and net income during the period. The amendments in the guidance that require application using a modified retrospective transition method did not impact the company. Therefore, there was no cumulative-effect adjustment to retained earnings recognized as of October 2, 2017. The company has elected to continue to estimate forfeitures expected to occur to determine the amount of compensation cost to be recognized in each period.

In March 2016, the FASB issued ASU 2016-07, Investments-Equity Method and Joint Ventures (Topic 323), Simplifying the Transition to the Equity Method of Accounting. The ASU eliminates the requirement to apply the equity method of accounting retrospectively when a reporting entity obtains significant influence over a previously held investment. The company adopted this standard in the first quarter of fiscal year 2018. This guidance did not have a material impact on the consolidated financial statements.

In March 2016, the FASB issued ASU 2016-06, Derivatives and Hedging (Topic 815), Contingent Put and Call Options in Debt Instruments. The ASU clarifies that an exercise contingency itself does not need to be evaluated to determine whether it is in an embedded derivative, just the underlying option. The company adopted this standard in the first quarter of fiscal year 2018. This guidance did not have a material impact on the consolidated financial statements.

In March 2016, the FASB issued ASU 2016-05, Derivatives and Hedging (Topic 815), Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships. The update clarifies that a change in a counterparty to a derivative instrument designated as a hedging instrument would not require the entity to dedesignate the hedging relationship and discontinue the application of hedge accounting. The company adopted this standard in the first quarter of fiscal year 2018. This guidance did not have a material impact on the consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory, which requires entities that measure inventory using first-in, first-out (FIFO) or average cost to measure inventory at

the lower of cost and net realizable value. The company adopted this standard in the first quarter of fiscal year 2018. This guidance did not have a material impact on the consolidated financial statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

4. Discontinued Operations

Results of discontinued operations are summarized as follows (in millions):

	Three Months Ended December 31, 2017 2016	
Sales	\$ —	\$ —
Loss before income taxes	\$ (2)	\$ —
Benefit from income taxes	1	—
Loss from discontinued operations attributable to Meritor, Inc.	\$ (1)	\$ —

Loss from discontinued operations attributable to the company for the three months ended December 31, 2017 was primarily related to changes in estimates related to legal costs incurred in connection with a previously divested business.

Total discontinued operations assets as of December 31, 2017 and September 30, 2017 were \$2 million and \$1 million, respectively, and total discontinued operations liabilities as of both December 31, 2017 and September 30, 2017 were \$6 million.

5. Assets and Liabilities Held for Sale

During the first quarter of fiscal year 2017, management approved a plan to sell a business within the Commercial Truck & Industrial reporting segment. The company expects to sell the business within one year. The business and its associated assets and liabilities met the criteria for presentation as held for sale as of December 31, 2017.

Assets and liabilities held for sale are measured at the lower of the carrying value or fair value less costs to sell. Upon meeting the held for sale criteria, the company determined the carrying value of the business exceeded the fair value less costs to sell. As a result, an impairment charge of \$3 million was recorded within other operating expense, net in the company's condensed consolidated statement of operations during the first quarter of fiscal year 2017.

6. Goodwill

In accordance with FASB Accounting Standards Codification (ASC) Topic 350-20, "Intangibles - Goodwill and Other", goodwill is reviewed for impairment annually during the fourth quarter of the fiscal year or more frequently if certain indicators arise. If business conditions or other factors cause the operating results and cash flows of a reporting unit to decline, the company may be required to record impairment charges for goodwill at that time.

The company tests goodwill for impairment at a level of reporting referred to as a reporting unit, which is an operating segment or one level below an operating segment (referred to as a component). A component of an operating segment is a reporting unit if the component constitutes a business for which discrete financial information is available and segment management regularly reviews the operating results of that component. When two or more components of an operating segment have similar economic characteristics, the components are aggregated and deemed a single reporting unit. An operating segment is deemed to be a reporting unit if all of its components are similar, if none of its components are a reporting unit, or if the segment comprises only a single component.

Since completion of initial estimates in the fourth quarter of fiscal year 2017, the company made a \$1 million measurement period adjustment to decrease its provisional fair value of certain liabilities assumed in the Fabco transaction (see Note 9), resulting in a corresponding \$1 million decrease to goodwill.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

A summary of the changes in the carrying value of goodwill by the company's two reportable segments are presented below (in millions):

	Commercial Truck & Industrial	Aftermarket & Trailer	Total
Goodwill	\$ 267	\$ 162	\$429
Accumulated impairment losses	(15)	—	(15)
Beginning balance at September 30, 2017	252	162	414
Fabco measurement period adjustment	(1)	—	(1)
Foreign currency translation	—	1	1
Balance at December 31, 2017	\$ 251	\$ 163	\$414

7. Restructuring Costs

Restructuring reserves, primarily related to unpaid employee termination benefits, were \$5 million at December 31, 2017 and \$6 million at September 30, 2017. The changes in restructuring reserves for the three months ended December 31, 2017 and 2016 are as follows (in millions):

	Employee Termination Benefits	Plant Shutdown & Other	Total
Beginning balance at September 30, 2017	\$ 5	\$ 1	\$6
Activity during the period:			
Charges to continuing operations	2	—	2
Cash payments – continuing operations	(2)	(1)	(3)
Total restructuring reserves at December 31, 2017	5	—	5
Less: non-current restructuring reserves	(2)	—	(2)
Restructuring reserves – current, at December 31, 2017	\$ 3	\$ —	\$3
Balance at September 30, 2016	\$ 15	\$ 1	\$16
Activity during the period:			
Charges to continuing operations	—	—	—
Cash payments – continuing operations	(3)	—	(3)
Total restructuring reserves at December 31, 2016	12	1	13
Less: non-current restructuring reserves	(2)	—	(2)
Restructuring reserves – current, at December 31, 2016	\$ 10	\$ 1	\$11

Restructuring Costs: During the first three months of fiscal year 2018, the company recorded restructuring costs of \$2 million primarily associated with labor reduction programs in the Commercial Truck & Industrial segment and Aftermarket and Trailer segments.

8. Income Taxes

For each interim reporting period, the company makes an estimate of the effective tax rate expected to be applicable for the full fiscal year pursuant to FASB ASC Topic 740-270, "Accounting for Income Taxes in Interim Periods." The rate so determined is used in providing for income taxes on a year-to-date basis. Jurisdictions with a projected loss for the year or an actual year-to-date loss where no tax benefit can be recognized are excluded from the estimated annual effective tax rate. The impact of including these jurisdictions on the quarterly effective rate calculation could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings

versus annual projections.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Income tax expense (benefit) is allocated among continuing operations, discontinued operations and other comprehensive income ("OCI"). Such allocation is applied by tax jurisdiction, and in periods in which there is a pre-tax loss from continuing operations and pre-tax income in another category, such as discontinued operations or OCI, income tax expense is allocated to the other sources of income, with a related benefit recorded in continuing operations.

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act ("U.S. tax reform"). The U.S. tax reform makes broad and complex changes to the U.S. tax code that will affect the company's fiscal year ending September 30, 2018, including, but not limited to, reducing the U.S. federal corporate tax rate and requiring a one-time transition tax on certain unrepatriated earnings of foreign subsidiaries. The U.S. tax reform reduces the federal corporate tax rate to 21 percent in the fiscal year ending September 30, 2018. Section 15 of the Internal Revenue Code stipulates that the company's fiscal year ending September 30, 2018 will have a blended corporate tax rate of 24.5 percent, which is based on the applicable tax rates before and after the U.S. tax reform and the number of days in the year.

The Securities and Exchange Commission ("SEC") staff issued Staff Accounting Bulletin ("SAB") 118, which provides guidance on accounting for the tax effects of the U.S. tax reform. SAB 118 provides a measurement period that should not extend beyond one year from the U.S. tax reform enactment date for companies to complete the accounting under Accounting Standards Codification ("ASC") 740. In accordance with SAB 118, a company must reflect the income tax effects of those aspects of the U.S. tax reform for which the accounting under ASC 740 is complete. To the extent that a company's accounting for certain income tax effects of the U.S. tax reform is incomplete but the company is able to determine a reasonable estimate, it must record a provisional estimate in the financial statements. If a company cannot determine a provisional estimate to be included in the financial statements, it should continue to apply ASC 740 on the basis of the provisions of the tax laws that were in effect immediately before the enactment of the U.S. tax reform.

Specifically, the company has included discrete tax expense in the first quarter financial statements related to provisional amounts under SAB 118 for the impact of the revaluation of U.S. deferred tax assets and liabilities due to the federal income tax rate reduction from 35 percent to 21 percent. In order to properly account for the blended tax rate in place for fiscal year 2018, the company estimated the deferred tax assets and liabilities expected to reverse during the current fiscal year and applied a tax rate of 24.5 percent. All other deferred tax assets and liabilities are expected to reverse in fiscal year 2019 or later and were revalued at 21 percent. Additionally, the company has estimated its liability and included provisional amounts for the one-time transition tax as a discrete tax expense. The company will elect to offset the liability associated with this transition tax by utilizing foreign tax credit carryovers. The revaluation of the deferred tax assets and the transition tax resulted in a non-cash charge of \$77 million in the first quarter.

Tax expense recognized in the quarter related to the transition tax and rate change on net deferred tax assets and liabilities are considered provisional under SAB 118. The company will continue to refine its accumulated earnings and profit pools and the allocation of cash and non-cash earnings for purposes of calculating the transition tax liability. Additionally, net deferred tax assets were reevaluated as of the enactment date using estimated fiscal year 2018 utilization amounts. The company will update the impact of the rate change on the net deferred tax assets as it continues to account for deferred activity throughout the current year.

The company has not accounted for the tax impacts related to the Global Intangible Low Tax Income ("GILTI"), Base Erosion Anti Abuse Tax ("BEAT") or Foreign Derived Intangible Income ("FDII") regimes or any of the other provisions

of the U.S. tax reform that are not effective until fiscal year 2019. The company has elected to treat GILTI as a period cost and, therefore, has not recognized deferred taxes for basis differences that may reverse as GILTI tax in future periods.

There were no adjustments to measurement period items during the quarter, as this was the first reporting period after enactment.

In evaluating its ability to recover these net deferred tax assets, the company utilizes a consistent approach which considers its historical operating results, including an assessment of the degree to which any gains or losses are driven by items that are unusual in nature, and tax planning strategies. In addition, the company reviews changes in near-term market conditions and other factors that impact future operating results. In the first quarter of fiscal year 2018, a tax planning strategy was implemented that resulted in a \$4 million tax benefit from the reversal of a tax valuation allowance in Sweden. As of December 31, 2017, the company continues to maintain the valuation allowances in Brazil, France, the U.K., along with certain U.S. states and other jurisdictions, as the company believes the negative evidence that it will be able to recover these net deferred tax assets continues to outweigh the positive evidence. If, in the future, the company generates taxable income on a sustained basis, its conclusion regarding the need for valuation allowances in these jurisdictions could change.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For the three months ended December 31, 2017, the company had approximately \$2 million of net pre-tax income compared to \$1 million of net pre-tax loss in the same period in fiscal year 2017 in tax jurisdictions in which tax expense (benefit) is not recorded.

9. Acquisitions

Fabco

Since completion of initial estimates in the fourth quarter of fiscal year 2017, the company made a \$1 million measurement period adjustment to decrease its provisional fair value of certain liabilities assumed in the Fabco transaction, resulting in a corresponding \$1 million decrease to goodwill. No portion of the \$1 million adjustment was recorded in current-period earnings that would have been recorded in the previous reporting period if the adjustment to the provisional amount had been recognized as of the acquisition date. This adjustment was made to reflect updated valuation results. Final valuations of trademarks, intellectual property, and other intangible assets are not complete. The company may record other additional measurement period adjustments in fiscal year 2018.

10. Accounts Receivable Factoring and Securitization

Off-balance sheet arrangements

Swedish Factoring Facility: The company has an arrangement to sell trade receivables from AB Volvo through one of its European subsidiaries. Under this arrangement with Nordea Bank, which expires in March 2020, the company can sell up to, at any point in time, €155 million (\$185 million) of eligible trade receivables. The amount of eligible receivables sold may exceed Nordea Bank's commitment at Nordea Bank's discretion. The receivables under this program are sold at face value and are excluded from the consolidated balance sheet. The company had utilized €169 million (\$202 million) and €139 million (\$164 million) of this accounts receivable factoring facility as of December 31, 2017 and September 30, 2017, respectively.

The facility is backed by a 364-day liquidity commitment from Nordea Bank which extends through April 23, 2018.

The commitment is subject to standard terms and conditions for this type of arrangement.

U.S. Factoring Facility: The company has an arrangement to sell trade receivables from AB Volvo and its U.S. subsidiaries through one of its U.S. subsidiaries. Under this arrangement with Nordea Bank, which expires in February 2019, the company can sell up to, at any point in time, €80 million (\$96 million) of eligible trade receivables. The amount of eligible receivables sold may exceed Nordea Bank's commitment at Nordea Bank's discretion. The receivables under this program are sold at face value and are excluded from the consolidated balance sheet. The company had utilized €37 million (\$44 million) and €37 million (\$43 million) of this accounts receivable factoring facility as of December 31, 2017 and September 30, 2017, respectively.

United Kingdom Factoring Facility: The company has an arrangement to sell trade receivables from AB Volvo and its European subsidiaries through one of its United Kingdom subsidiaries. On January 23, 2018, Meritor extended this United Kingdom factoring facility with Nordea Bank until February 2, 2022. All other terms of the agreement remain unchanged. Under this arrangement, the company can sell up to, at any point in time, €25 million (\$30 million) of eligible trade receivables. The receivables under this program are sold at face value and are excluded from the consolidated balance sheet. The company had utilized €10 million (\$12 million) and €7 million (\$9 million) of this accounts receivable factoring facility as of December 31, 2017 and September 30, 2017, respectively. The agreement is subject to standard terms and conditions for these types of arrangements, including a sole discretion clause whereby the bank retains the right to not purchase receivables, which has not been invoked since the inception of the program.

Italy Factoring Facility: The company has an arrangement to sell trade receivables from AB Volvo and its European subsidiaries through one of its Italian subsidiaries. Under this arrangement with Nordea Bank, which expires in June 2022, the company can sell up to, at any point in time, €30 million (\$36 million) of eligible trade receivables. The receivables under this program are sold at face value and are excluded from the consolidated balance sheet. The company had utilized €26 million (\$31 million) and €22 million (\$26 million) of this accounts receivable factoring facility as of December 31, 2017 and September 30, 2017, respectively. The agreement is subject to standard terms

and conditions for these types of arrangements, including a sole discretion clause whereby the bank retains the right to not purchase receivables, which has not been invoked since the inception of the program.

In addition to the above facilities, a number of the company's subsidiaries, primarily in Europe, factor eligible accounts receivable with financial institutions. Certain receivables are factored without recourse to the company and are excluded from accounts receivable in the consolidated balance sheet. The amount of factored receivables excluded from accounts receivable under these arrangements was \$25 million and \$19 million at December 31, 2017 and September 30, 2017, respectively.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Total costs associated with all of the off-balance sheet arrangements described above were \$2 million and \$1 million in the three months ended December 31, 2017 and 2016, respectively, and are included in selling, general and administrative expenses in the condensed consolidated statements of operations.

On-balance sheet arrangements

U.S. Securitization Facility: On December 5, 2017, the company extended its \$100 million U.S. accounts receivables securitization facility with PNC Bank until December 7, 2020. The maximum permitted priority debt-to-EBITDA ratio as of the last day of each fiscal quarter under the facility is 2.25 to 1.00. This program is provided by PNC Bank, National Association, as Administrator and Purchaser, and the other Purchasers and Purchaser Agents from time to time (participating lenders), which are party to the agreement. Under this program, the company has the ability to sell an undivided percentage ownership interest in substantially all of its trade receivables (excluding the receivables due from AB Volvo and subsidiaries eligible for sale under the U.S. accounts receivable factoring facility) of certain U.S. subsidiaries to ArvinMeritor Receivables Corporation ("ARC"), a wholly-owned, special purpose subsidiary. ARC funds these purchases with borrowings from participating lenders under a loan agreement. This program also includes a letter of credit facility pursuant to which ARC may request the issuance of letters of credit issued for the company's U.S. subsidiaries (originators) or their designees, which when issued will constitute a utilization of the facility for the amount of letters of credit issued. Amounts outstanding under this agreement are collateralized by eligible receivables purchased by ARC and are reported as short-term debt in the condensed consolidated balance sheet. At December 31, 2017 and September 30, 2017, \$38 million and \$89 million, respectively, were outstanding under this program, and no amounts were outstanding for letters of credit. This securitization program contains a cross default to the revolving credit facility. At certain times during any given month, the company may sell eligible accounts receivable under this program to fund intra-month working capital needs. In such months, the company would then typically utilize the cash received from customers throughout the month to repay the borrowings under the program. Accordingly, during any given month, the company may borrow under this program amounts exceeding the amounts shown as outstanding at fiscal quarter ends.

15. Other Assets

Other assets are summarized as follows (in millions):

	December 31, 2017	September 30, 2017
Investments in non-consolidated joint ventures	\$ 99	\$ 101
Asbestos-related recoveries (see Note 21)	48	32
Unamortized revolver debt issuance costs	7	8
Capitalized software costs, net	25	27
Deferred income tax assets, net	157	229
Assets for uncertain tax positions	45	48
Prepaid pension costs	141	135
Other	3	16
Other assets	\$ 525	\$ 596

In accordance with FASB ASC Topic 350-40, costs relating to internally developed or purchased software in the preliminary project stage and the post-implementation stage are expensed as incurred. Costs in the application development stage that meet the criteria for capitalization are capitalized and amortized using the straight-line basis over the estimated economic useful life of the software.

The company holds a variable interest in a joint venture accounted for under the equity method of accounting. The joint venture manufactures components for commercial vehicle applications primarily on behalf of the company. The variable interest relates to a supply arrangement between the company and the joint venture whereby the company supplies certain components to the joint venture on a cost-plus basis. The company is not the primary beneficiary of the joint venture, as the joint venture partner has shared or absolute control over key manufacturing operations, labor relationships, financing activities and certain other functions of the joint venture. Therefore, the company does not consolidate the joint venture. At December 31, 2017 and September 30, 2017, the company's investment in the joint venture was \$57 million and \$54 million, respectively.

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

TransPower

In the first quarter of fiscal year 2018, Meritor completed a \$3 million strategic investment in Transportation Power, Inc. (“Transpower”). The company holds a variable interest in TransPower, a variable interest entity (“VIE”). The VIE develops electrical drive solutions and supplies integrated drive systems, full electric truck solutions and energy-storage subsystems to major manufacturers of trucks, school buses, refuse vehicles and terminal tractors. The variable interest relates principally to an investment between the company and TransPower. The company is not the primary beneficiary of the VIE, as other owners have control over the significant activities of TransPower, the development of intellectual property and manufacturing. Therefore, the company does not consolidate the VIE. At December 31, 2017, the company’s investment in the VIE was \$3 million, representing the company’s maximum exposure to loss.

16. Other Current Liabilities

Other current liabilities are summarized as follows (in millions):

	December 31, 2017	September 30, 2017
Compensation and benefits	\$ 81	\$ 117
Income taxes	16	11
Taxes other than income taxes	31	34
Accrued interest	14	9
Product warranties	16	18
Environmental reserves (see Note 21)	5	5
Restructuring (see Note 7)	3	5
Asbestos-related liabilities (see Note 21)	19	19
Indemnity obligations (see Note 21)	2	2
Other	51	52
Other current liabilities	\$ 238	\$ 272

The company records estimated product warranty costs at the time of shipment of products to customers. Warranty reserves are primarily based on factors that include past claims experience, sales history, product manufacturing and engineering changes and industry developments. Liabilities for product recall campaigns are recorded at the time the company’s obligation is probable and can be reasonably estimated. Policy repair actions to maintain customer relationships are recorded as other liabilities at the time an obligation is probable and can be reasonably estimated. Product warranties, including recall campaigns, not expected to be paid within one year are recorded as a non-current liability.

A summary of the changes in product warranties is as follows (in millions):

	Three Months Ended December 31, 2017	2016
Total product warranties – beginning of period	\$45	\$44
Accruals for product warranties	3	3
Payments	(4)	(3)
Change in estimates and other	1	(4)
Total product warranties – end of period	45	40

Less: Non-current product warranties	(29)	(24)
Product warranties – current	\$16	\$16

Environmental (see Note 21)	4	4
Indemnity obligations (see Note 21)	10	10
Other	28	29
Other liabilities	\$ 238	\$ 239

18. Long-Term Debt

Long-Term debt, net of discounts where applicable, is summarized as follows (in millions):

	December 31, 2017	September 30, 2017
3.25 percent convertible notes due 2037 ⁽¹⁾⁽³⁾	\$ 318	\$ 317
4.0 percent convertible notes due 2027 ⁽¹⁾⁽⁴⁾	24	24
7.875 percent convertible notes due 2026 ⁽¹⁾⁽⁵⁾	22	22
6.75 percent notes due 2021 ⁽²⁾⁽⁶⁾	—	173
6.25 percent notes due 2024 ⁽²⁾⁽⁷⁾	443	443
Capital lease obligation	12	12
Borrowings and securitization	38	89
Unamortized discount on convertible notes ⁽⁸⁾	(43)	(42)
Subtotal	814	1,038
Less: current maturities	(63)	(288)
Long-term debt	\$ 751	\$ 750

⁽¹⁾ The 3.25 percent convertible notes due 2037, 4.0 percent convertible notes due 2027 and 7.875 percent convertible notes due 2026 contain a put and call feature, which allows for earlier redemption beginning in 2025, 2019 and 2020, respectively.

⁽²⁾ The 6.75 percent notes and 6.25 percent notes contain a call option, which allows for early redemption.

⁽³⁾ The 3.25 percent convertible notes due 2037 are presented net of \$7 million and \$8 million unamortized issuance costs as of December 31, 2017 and September 30, 2017, respectively.

⁽⁴⁾ The 4.0 percent convertible notes due 2027 are presented net of unamortized issuance costs of an insignificant amount as of December 31, 2017 and September 30, 2017.

⁽⁵⁾ The 7.875 percent convertible notes due 2026 are presented net of unamortized issuance costs of an insignificant amount as of December 31, 2017 and September 30, 2017, and \$1 million original issuance discount as of December 31, 2017 and September 30, 2017.

⁽⁶⁾ The 6.75 percent notes due 2021 are presented net of \$2 million unamortized issuance costs as of September 30, 2017.

⁽⁷⁾ The 6.25 percent notes due 2024 are presented net of \$7 million unamortized issuance costs as of December 31, 2017 and September 30, 2017.

⁽⁸⁾ The carrying amount of the equity component related to convertible debt.

Repurchase of Debt Securities

On November 2, 2017, the company redeemed the remaining \$175 million aggregate principal amount outstanding of the company's 6.75 percent notes due 2021 (the "6.75 Percent Notes") at a price of \$1,033.75 per \$1,000 of principal amount, plus

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

accrued and unpaid interest. The redemption resulted in a loss on debt extinguishment of approximately \$8 million. The loss on debt extinguishment is included in Interest expense, net in the condensed consolidated statement of operations. The redemption was made pursuant to a special authorization from the Board of Directors in connection with the sale of the Meritor WABCO JV. As of September 30, 2017, the company announced its intention to redeem all of the remaining \$175 million aggregate principal amount then outstanding of the company's 6.75 Percent Notes. As a result, the 6.75 Percent Notes were classified as current as of September 30, 2017.

On September 28, 2017, the company redeemed \$100 million of the \$275 million aggregate principal amount outstanding of the company's 6.75 Percent Notes at a price of \$1,033.75 per \$1,000 of principal amount, plus accrued and unpaid interest. As a result, a loss on debt extinguishment of \$5 million was recorded in the company's consolidated statement of operations within Interest expense, net during the fourth quarter of fiscal year 2017. The redemption was made under the company's July 2016 debt repurchase authorization (see Note 22).

The company used the net proceeds, after issuance costs and discounts, of approximately \$317 million from the offering of the 3.25 percent senior convertible notes due 2037 (the "3.25 Percent Convertible Notes") to acquire portions of its outstanding 7.875 percent senior convertible notes due 2026 (the "7.875 Percent Convertible Notes") and its 4.0 percent senior convertible notes due 2027 (the "4.0 Percent Convertible Notes") in transactions that settled concurrently with the closing of the 3.25 Percent Convertible Note offering on September 22, 2017. In total, the company repurchased \$117 million of the \$140 million principal amount of its 7.875 Percent Convertible Notes and \$119 million of the \$143 million principal amount of its 4.0 Percent Convertible Notes. The 7.875 Percent Convertible Notes and 4.0 Percent Convertible Notes were repurchased at premiums equal to 130 percent and 16 percent, respectively, above their principal amount. These repurchases were accounted for as extinguishments of debt, and accordingly the company recognized a loss on debt extinguishment of \$31 million in the aggregate (\$23 million with respect to the 7.875 Percent Convertible Notes and \$8 million with respect to the 4.0 Percent Convertible Notes). The loss on extinguishment was recorded in the condensed consolidated statement of operations within Interest expense, net during fiscal year 2017.

Current Classification of 7.875 Percent Convertible Notes

The 7.875 Percent Convertible Notes were classified as current as of December 31, 2017 as the holders of the company's 7.875 Percent Convertible Notes are entitled to convert all or a portion of their 7.875 Percent Convertible Notes at any time beginning January 1, 2018 and prior to the close of business on March 30, 2018 at a rate of 83.3333 shares of common stock per \$1,000 principal amount at maturity of the 7.875 Percent Convertible Notes (representing a conversion price of approximately \$12.00 per share). The 7.875 Percent Convertible Notes are convertible as the closing price of shares of the company's common stock for at least 20 trading days during the 30 consecutive trading-day period ending on December 29, 2017 was greater than 120 percent of the \$12.00 conversion price associated with the 7.875 Percent Convertible Notes.

The 7.875 Percent Convertible Notes were classified as current as of September 30, 2017 as the holders of the company's 7.875 Percent Convertible Notes were entitled to convert all or a portion of their 7.875 Percent Convertible Notes at any time beginning October 1, 2017 and prior to the close of business on December 30, 2017 at a rate of 83.3333 shares of common stock per \$1,000 principal amount at maturity of the 7.875 Percent Convertible Notes (representing a conversion price of approximately \$12.00 per share). The 7.875 Percent Convertible Notes were convertible as the closing price of shares of the company's common stock for at least 20 trading days during the 30 consecutive trading-day period ending on September 29, 2017 was greater than 120 percent of the \$12.00 conversion price associated with the 7.875 Percent Convertible Notes.

The 7.875 Percent Convertible Notes surrendered for conversion, if any, would be settled in cash up to the principal amount at maturity of the 7.875 Percent Convertible Notes and cash, stock or a combination of cash and stock, at the company's election, for the remainder of the conversion value of the 7.875 Percent Convertible Notes in excess of the

principal amount at maturity and cash in lieu of any fractional shares, subject to and in accordance with the provisions of the indenture that governs the 7.875 Percent Convertible Notes.

As a result of the 7.875 Percent Convertible Notes becoming currently convertible for cash up to the principal amount of \$23 million at the holder's option, \$2 million of permanent equity was reclassified as mezzanine equity.

Revolving Credit Facility

On March 31, 2017, the company amended and restated its revolving credit facility. Pursuant to the revolving credit agreement as amended, the company has a \$525 million revolving credit facility that matures in March 2022.

Additionally, \$4 million was capitalized as deferred issuance costs and will be amortized over the term of the agreement. The availability under this facility is dependent upon various factors, including performance against certain financial covenants as highlighted below.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The availability under the revolving credit facility is subject to certain financial covenants based on (i) the ratio of the company's priority debt (consisting principally of amounts outstanding under the revolving credit facility, U.S. accounts receivable securitization and factoring programs, and third-party non-working capital foreign debt) to EBITDA and (ii) the amount of annual capital expenditures. The company is required to maintain a total priority debt-to-EBITDA ratio, as defined in the agreement, of 2.25 to 1.00 or less as of the last day of each fiscal quarter throughout the term of the agreement.

The availability under the revolving credit facility is also subject to a collateral test, pursuant to which borrowings on the revolving credit facility cannot exceed 1.0x the collateral test value. The collateral test is performed on a quarterly basis. At December 31, 2017, the revolving credit facility was collateralized by approximately \$726 million of the company's assets, primarily consisting of eligible domestic U.S. accounts receivable, inventory, plant, property and equipment, intellectual property and the company's investment in all or a portion of certain of its wholly-owned subsidiaries.

Borrowings under the revolving credit facility are subject to interest based on quoted LIBOR rates plus a margin and a commitment fee on undrawn amounts, both of which are based upon the company's current corporate credit rating. At December 31, 2017, the margin over LIBOR rate was 300 basis points and the commitment fee was 45 basis points. Overnight revolving credit loans are at the prime rate plus a margin of 200 basis points.

Certain of the company's subsidiaries, as defined in the revolving credit agreement, irrevocably and unconditionally guarantee amounts outstanding under the revolving credit facility. Similar subsidiary guarantees are provided for the benefit of the holders of the publicly held notes outstanding under the company's indentures (see Note 24).

No borrowings were outstanding under the revolving credit facility at December 31, 2017 and September 30, 2017.

The amended and extended revolving credit facility includes \$100 million of availability for the issuance of letters of credit. At December 31, 2017 and September 30, 2017, there were no letters of credit outstanding under the revolving credit facility.

Debt Securities

In December 2017, the company filed a shelf registration statement with the Securities and Exchange Commission, registering an unlimited amount of debt and/or equity securities that the company may offer in one or more offerings on terms to be determined at the time of sale. The December 2017 shelf registration statement superseded and replaced the shelf registration statement filed in December 2014, as amended.

Capital Leases

In March 2012, the company entered into a master lease agreement with Wells Fargo Equipment Finance, under which the company can enter into lease arrangements for equipment. Each lease term is 60 months and the lease interest rate is equal to the 5-year Swap Rate published by the Federal Reserve Board plus 564 basis points. The company had \$2 million and \$3 million outstanding under this capital lease arrangement as of December 31, 2017 and September 30, 2017, respectively. In addition, the company had another \$9 million and \$10 million outstanding through other capital lease arrangements at December 31, 2017 and September 30, 2017, respectively.

Letter of Credit Facilities

On February 21, 2014, the company entered into an arrangement to amend and restate the letter of credit facility with Citicorp USA, Inc., as administrative agent and issuing bank, and the other lenders party thereto. Under the terms of this amended credit agreement, which expires in March 2019, the company has the right to obtain the issuance, renewal, extension and increase of letters of credit up to an aggregate availability of \$25 million. This facility contains covenants and events of default generally similar to those existing in the company's public debt indentures. There were \$16 million and \$18 million of letters of credit outstanding under this facility at December 31, 2017 and September

30, 2017, respectively. The company had another \$5 million of letters of credit outstanding through other letter of credit facilities at December 31, 2017 and September 30, 2017.

Export Financing Arrangements

The company entered into a number of export financing arrangements through its Brazilian subsidiary during fiscal year 2014. The export financing arrangements were issued under an incentive program of the Brazilian government to fund working capital for Brazilian companies in exportation programs. The arrangements bore interest at 5.5 percent and had maturity dates in 2017. These financing arrangements were paid off at maturity, as of March 31, 2017.

Other

One of the company's consolidated joint ventures in China participates in a bills of exchange program to settle its obligations with its trade suppliers. These programs are common in China and generally require the participation of local banks. Under these programs, the company's joint venture issues notes payable through the participating banks to its trade suppliers. If the issued notes payable remain unpaid on their respective due dates, this could constitute an event of default under the company's revolving credit facility if the defaulted amount exceeds \$35 million per bank. As of December 31, 2017 and September 30, 2017, the company had \$22 million and \$24 million, respectively, outstanding under this program at more than one bank.

19. Financial Instruments

Fair values of financial instruments are summarized as follows (in millions):

	December 31, 2017		September 30, 2017	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Cash and cash equivalents	\$ 116	\$ 116	\$ 88	\$ 88

Foreign exchange forward contracts (other assets)	—	—	—	—
Foreign exchange forward contracts (other liabilities)	3	3	3	3
Short-term foreign currency option contracts (other assets)	2	2	2	2
Long-term foreign currency option contracts (other assets)	1	1	1	1

The following table reflects the offsetting of derivative assets and liabilities (in millions):

	December 31, 2017			September 30, 2017		
	Gross Amounts Recognized	Gross Amounts Offset	Net Amounts Reported	Gross Amounts Recognized	Gross Amounts Offset	Net Amounts Reported
Derivative Asset						
Foreign exchange forward contract	—	—	—	—	—	—
Derivative Liabilities						
Foreign exchange forward contract	3	—	3	3	—	3
Fair Value						

The current FASB guidance provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical instruments (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 inputs use quoted prices in active markets for identical instruments.

Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar instruments in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related instrument.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest priority level input that is significant to the valuation. The company's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

⁽¹⁾ Transfers as of the last day of the reporting period.

Cash and cash equivalents — All highly liquid investments purchased with an original maturity of three months or less are considered to be cash equivalents. The carrying value approximates fair value because of the short maturity of these instruments. The company did not have any cash equivalents as of December 31, 2017 or September 30, 2017.

Short- and long-term debt — Fair values are based on transaction prices at public exchange for publicly traded debt. For debt instruments that are not publicly traded, fair values are based on interest rates that would be currently available to the company for issuance of similar types of debt instruments with similar terms and remaining maturities.

Foreign exchange forward contracts — The company uses foreign exchange forward purchase and sale contracts with terms of 18 months or less to hedge its exposure to changes in foreign currency exchange rates. The fair value of foreign exchange forward contracts is based on a model which incorporates observable inputs including quoted spot rates, forward exchange rates and discounted future expected cash flows utilizing market interest rates with similar quality and maturity characteristics. For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of changes in the fair value of the contracts is recorded in Accumulated Other Comprehensive Loss in the statement of shareholders' equity and is recognized in operating income when the underlying forecasted transaction impacts earnings.

Foreign currency option contracts — The company uses option contracts to mitigate foreign exchange exposure on expected future Indian Rupee-denominated purchases. As of December 31, 2017 and September 30, 2017, the notional amount of the company's Indian rupee foreign exchange contracts outstanding was \$152 million and \$172 million, respectively. The company did not elect hedge accounting for these derivatives. Changes in fair value associated with these contracts are recorded in cost of sales in the consolidated statement of operations.

The company uses option contracts to mitigate the risk of volatility in the translation of euro earnings to U.S. dollars. As of December 31, 2017 and September 30, 2017, the notional amount of the company's euro option contracts outstanding was \$46 million and \$58 million, respectively. These option contracts did not qualify for a hedge accounting election. Changes in fair value associated with these contracts are recorded in the consolidated statement of operations in other income, net.

The company uses option contracts to mitigate the risk of volatility in the translation of Swedish krona to U.S. dollars. As of December 31, 2017 and September 30, 2017, the notional amount of the company's Swedish krona option contracts outstanding was \$51 million and \$71 million, respectively. These option contracts did not qualify for a hedge accounting election. Changes in fair value associated with these contracts are recorded in the consolidated statement of operations in other income, net.

The company uses option contracts to mitigate foreign exchange exposure on expected future South Korean won-denominated purchases. As of December 31, 2017, the notional amount of the company's South Korean won foreign exchange contracts outstanding was \$33 million. As of September 30, 2017, there were no South Korean won foreign exchange option contracts outstanding. The company did not elect hedge accounting for these derivatives. Changes in fair value associated with these contracts are recorded in cost of sales in the consolidated statement of operations.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The fair value of foreign exchange option contracts is based on third-party proprietary models, which incorporate inputs at varying unobservable weights of quoted spot rates, market volatility, forward rates and time utilizing market instruments with similar quality and maturity characteristics.

20. Retirement Benefit Liabilities

Retirement benefit liabilities consisted of the following (in millions):

	December 31, 2017	September 30, 2017
Retiree medical liability	\$ 95	\$ 104
Pension liability	212	219

Recognized actuarial loss	7	4	7	4
Total expense (income)	\$(4)	\$ (4)	\$(3)	\$ 7

21. Contingencies

Environmental

Federal, state and local requirements relating to the discharge of substances into the environment, the disposal of hazardous wastes and other activities affecting the environment have, and will continue to have, an impact on the operations of the company. The process of estimating environmental liabilities is complex and dependent upon evolving physical and scientific data at the sites, uncertainties as to remedies and technologies to be used and the outcome of discussions with regulatory agencies. The company records liabilities for environmental issues in the accounting period in which they are considered to be probable and the cost can be reasonably estimated. At environmental sites in which more than one potentially responsible party has been identified, the company records a liability for its allocable share of costs related to its involvement with the site, as well as an allocable share of costs related to insolvent parties or unidentified shares. At environmental sites in which Meritor is the only potentially responsible

party, the company records a liability for the total probable and estimable costs of remediation before consideration of recovery from insurers or other third parties.

The company has been designated as a potentially responsible party at nine Superfund sites, excluding sites as to which the company's records disclose no involvement or as to which the company's liability has been finally determined. Additionally, one site operated by a predecessor of the company has been proposed for addition to the Superfund National Priorities List. Management estimates the total reasonably possible costs the company could incur for the remediation of the nine Superfund sites at December 31, 2017 to be approximately \$5 million, of which \$2 million is probable and recorded as a liability. Included in reasonably possible amounts are estimates for certain

remediation actions that may be required if current actions are deemed inadequate by the regulators.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In addition to the Superfund sites, various other lawsuits, claims and proceedings have been asserted against the company, alleging violations of federal, state and local environmental protection requirements, or seeking remediation of alleged environmental impairments, principally at previously disposed-of properties. For these matters, management has estimated the total reasonably possible costs the company could incur at December 31, 2017 to be approximately \$19 million, of which \$7 million is probable and recorded as a liability.

Included in the company's environmental liabilities are costs for on-going operation, maintenance and monitoring at environmental sites in which remediation has been put into place. This liability is discounted using discount rates in the range of 1.75 to 2.75 percent and is approximately \$6 million at December 31, 2017. The undiscounted estimate of these costs is approximately \$7 million.

The following are the components of the Superfund and non-Superfund environmental reserves (in millions):

	Superfund Sites	Non-Superfund Sites	Total
Beginning balance at September 30, 2017	\$ 2	\$ 7	\$ 9
Payments and other	—	(1)	(1)
Accruals	—	1	1
Balance at December 31, 2017	\$ 2	\$ 7	\$ 9

Environmental reserves are included in Other Current Liabilities (see Note 16) and Other Liabilities (see Note 17) in the condensed consolidated balance sheet.

The actual amount of costs or damages for which the company may be held responsible could materially exceed the foregoing estimates because of uncertainties, including the financial condition of other potentially responsible parties, the success of the remediation, discovery of new contamination and other factors that make it difficult to predict actual costs accurately. However, based on management's assessment, after consulting with outside advisors that specialize in environmental matters, and subject to the difficulties inherent in estimating these future costs, the company believes that its expenditures for environmental capital investment and remediation necessary to comply with present regulations governing environmental protection and other expenditures for the resolution of environmental claims will not have a material effect on the company's business, financial condition or results of operations. In addition, in future periods, new laws and regulations, changes in remediation plans, advances in technology and additional information about the ultimate clean-up remedies could significantly change the company's estimates. Management cannot assess the possible effect of compliance with future requirements.

In April 2016, the company was served with several complaints filed against the company and other defendants in the United States District Court for the Northern District of Mississippi. The complaints were amended in July 2016. These complaints allege damages, including diminution of property value, concealment/fraud and emotional distress resulting from alleged environmental pollution in and around a neighborhood in Grenada, Mississippi. Rockwell owned and operated a facility near the neighborhood from 1965 to 1985. The company filed answers to the complaints in July 2016. In May 2017, the company was served with a complaint filed against the company and other defendants by the Mississippi Attorney General in the Chancery Court of Grenada County, Mississippi. The complaint alleges that operations at the above-referenced Grenada facility caused contamination of off-site groundwater and surface waters. Subsequently, the company removed this action to the United States District Court for the Northern District of Mississippi; plaintiffs have moved to have the case remanded to Chancery Court. The company intends to defend itself vigorously against these claims. The company believes at this time that liabilities associated with this case, while possible, are not probable and estimable, and therefore has not recorded any accrual for them as of December 31, 2017 and September 30, 2017. Further, a reasonably possible range of loss cannot be estimated at this time.

Asbestos

Maremont Corporation ("Maremont"), a subsidiary of Meritor, manufactured friction products containing asbestos from 1953 through 1977, when it sold its friction product business. Arvin Industries, Inc., a predecessor of the

company, acquired Maremont in 1986. Maremont and many other companies are defendants in suits brought by individuals claiming personal injuries as a result of exposure to asbestos-containing products. Maremont had approximately 2,600 and 2,800 pending asbestos-related claims at December 31, 2017 and September 30, 2017, respectively. Although Maremont has been named in these cases, in the cases where actual injury has been alleged, very few claimants have established that a Maremont product caused their injuries. Plaintiffs' lawyers often sue dozens or even hundreds

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

of defendants in individual lawsuits, seeking damages against all named defendants irrespective of the disease or injury and irrespective of any causal connection with a particular product. For these reasons, the total number of claims filed is not necessarily the most meaningful factor in determining Maremont's asbestos-related liability.

Maremont's asbestos-related reserves and corresponding asbestos-related recoveries are summarized as follows (in millions):

	December 31, 2017	September 30, 2017
Pending and future claims	\$ 68	\$ 68
Billed but unpaid claims	1	2
Asbestos-related liabilities	\$ 69	\$ 70
Asbestos-related insurance recoveries	\$ 21	\$ 25

A portion of the asbestos-related recoveries and reserves are included in Other Current Assets and Liabilities, with the majority of the amounts recorded in Other Assets and Liabilities (see Note 13, Note 15, Note 16 and Note 17).

Pending and Future Claims: Maremont engaged Bates White LLC ("Bates White"), a consulting firm with extensive experience estimating costs associated with asbestos litigation, to assist with determining the estimated cost of resolving pending and future asbestos-related claims that have been, and could reasonably be expected to be, filed against Maremont. Although it is not possible to estimate the full range of costs because of various uncertainties, Bates White advised Maremont that it would be possible to determine an estimate of a reasonable forecast of the cost of the probable settlement and defense costs of resolving pending and future asbestos-related claims, based on historical data and certain assumptions with respect to events that may occur in the future.

As of September 30, 2017, Bates White provided a reasonable and probable estimate that consisted of a range of equally likely possibilities of Maremont's obligation for asbestos personal injury claims over the next ten years of \$68 million to \$82 million. After consultation with Bates White, management recognized a liability of \$68 million as of each of December 31, 2017 and September 30, 2017 for pending and future claims over the next ten years. The ultimate cost of resolving pending and future claims is estimated based on the history of claims and expenses for plaintiffs represented by law firms in jurisdictions with an established history with Maremont. Maremont has recognized incremental insurance receivables associated with recoveries expected for asbestos-related liabilities as the estimate of asbestos-related liabilities for pending and future claims changes.

Assumptions: The following assumptions were made by Maremont after consultation with Bates White and are included in their study:

• Pending and future claims were estimated for a ten-year period ending in fiscal year 2027;

• Maremont believes that the litigation environment could change significantly beyond ten years and that the reliability of estimates of future probable expenditures in connection with asbestos-related personal injury claims will decline for each year further in the future. As a result, estimating a probable liability beyond ten years is difficult and uncertain;

• On a per claim basis, defense and processing costs for pending and future claims will be at the level consistent with Maremont's prior experience; and

• The ultimate indemnity cost of resolving nonmalignant claims with plaintiffs' law firms in jurisdictions without an established history with Maremont cannot be reasonably estimated.

Recoveries: Maremont has historically had insurance that reimburses a substantial portion of the costs incurred defending against asbestos-related claims. The insurance receivable related to asbestos-related liabilities was \$21 million and \$25 million as of December 31, 2017 and September 30, 2017, respectively. The receivable is for coverage provided by one insurance carrier based on a coverage-in-place agreement. Maremont currently expects to exhaust the remaining limits provided by this coverage sometime in the next ten years. The difference between the estimated liability and insurance receivable is primarily related to exhaustion of settled insurance coverage within the

forecasted period.

30

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Maremont maintained insurance coverage with other insurance carriers that management believed also covers indemnity and defense costs. During fiscal year 2013, Maremont re-initiated lawsuits against these carriers, seeking a declaration of its rights to coverage for asbestos claims and to facilitate an orderly and timely collection of insurance proceeds. During the first quarter of fiscal year 2016, the dispute related to these insurance policies was settled. As a part of this settlement, on December 12, 2015, Maremont received \$17 million in cash, of which \$5 million was recognized as a reduction in asbestos expense and \$12 million was recorded as a liability to the insurance carrier as it is required to be returned to the carrier if additional asbestos liability is not incurred. During the fourth quarter of fiscal year 2016, Maremont recognized an additional \$9 million of the cash settlement proceeds as a reduction in asbestos expense. During the first quarter of fiscal year 2017, the company recognized the remaining \$3 million of the cash settlement proceeds as a reduction in asbestos expense. The settlement also provides additional recovery for Maremont if certain future defense and indemnity spending thresholds are met.

The amounts recorded for the asbestos-related reserves and recoveries from insurance companies are based upon assumptions and estimates derived from currently known facts. All such estimates of liabilities and recoveries for asbestos-related claims are subject to considerable uncertainty because such liabilities and recoveries are influenced by variables that are difficult to predict. The future litigation environment for Maremont could change significantly from its past experience, due, for example, to changes in the mix of claims filed against Maremont in terms of plaintiffs' law firms, jurisdictions and diseases; legislative or regulatory developments; Maremont's approach to defending claims; or payments to plaintiffs from other defendants. Estimated recoveries are influenced by coverage issues among insurers and the continuing solvency of various insurance companies. If the assumptions with respect to the estimation period, the nature of pending and future claims, the cost to resolve claims and the amount of available insurance prove to be incorrect, the actual amount of liability for Maremont's asbestos-related claims, and the effect on the company, could differ materially from current estimates and, therefore, could have a material impact on the company's financial condition and results of operations.

Rockwell International ("Rockwell") — ArvinMeritor, Inc. ("AM"), a subsidiary of Meritor, along with many other companies, has also been named as a defendant in lawsuits alleging personal injury as a result of exposure to asbestos used in certain components of Rockwell products many years ago. Liability for these claims was transferred at the time of the spin-off of the automotive business from Rockwell in 1997. Rockwell had approximately 1,600 pending active asbestos claims in lawsuits that name AM, together with many other companies, as defendants at December 31, 2017 and September 30, 2017.

A significant portion of the claims do not identify any of Rockwell's products or specify which of the claimants, if any, were exposed to asbestos attributable to Rockwell's products, and past experience has shown that the vast majority of the claimants will likely never identify any of Rockwell's products. Historically, AM has been dismissed from the vast majority of similar claims filed in the past with no payment to claimants. For those claimants who do show that they worked with Rockwell's products, management nevertheless believes it has meritorious defenses, in substantial part due to the integrity of the products involved and the lack of any impairing medical condition on the part of many claimants.

The Rockwell legacy asbestos-related reserves and corresponding asbestos-related recoveries are summarized as follows (in millions):

	December 31, 2017	September 30, 2017
Pending and future claims	\$ 63	\$ 63
Billed but unpaid claims	1	2
Asbestos-related liabilities	\$ 64	\$ 65
Asbestos-related insurance recoveries	\$ 38	\$ 38

Pending and Future Claims: The company engaged Bates White to assist with determining whether it would be possible to estimate the cost of resolving pending and future Rockwell legacy asbestos-related claims that have been, and could reasonably be expected to be, filed against the company. As of September 30, 2017, Bates White provided a reasonable and probable estimate that consisted of a range of equally likely possibilities of Rockwell's obligation for asbestos personal injury claims over the next ten years of \$63 million to \$74 million. After consultation with Bates White, management recognized a liability for the pending and future claims over the next ten years of \$63 million as of each of December 31, 2017 and September 30, 2017. The ultimate cost of resolving pending and future claims is estimated based on the history of claims and expenses for plaintiffs represented by law firms in jurisdictions with an established history with Rockwell.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Assumptions: The following assumptions were made by the company after consultation with Bates White and are included in their study:

• Pending and future claims were estimated for a ten-year period ending in fiscal year 2027;

The company believes that the litigation environment could change significantly beyond ten years and that the reliability of estimates of future probable expenditures in connection with asbestos-related personal injury claims will decline for each year further in the future. As a result, estimating a probable liability beyond ten years is difficult and uncertain;

• On a per claim basis, defense and processing costs for pending and future claims will be at the level consistent with the company's prior experience; and

• The ultimate indemnity cost of resolving nonmalignant claims with plaintiff's law firms in jurisdictions without an established history with Rockwell cannot be reasonably estimated.

Recoveries: Rockwell has insurance coverage that management believes covers indemnity and defense costs, over and above self-insurance retentions, for a significant portion of these claims. In 2004, the company initiated litigation against certain of these carriers to enforce the insurance policies. During the fourth quarter of fiscal year 2016, the company executed settlement agreements with two of these carriers, thereby resolving the litigation against those particular carriers. Pursuant to the terms of one of those settlement agreements, in the fourth quarter of fiscal year 2016 the company received \$32 million in cash from an insurer, of which \$10 million was recognized as a reduction in asbestos expense, and \$22 million was recorded as a liability to the insurance carrier as it is required to be returned to the carrier if additional asbestos liability is not ultimately incurred. During fiscal year 2017 and the first quarter of fiscal year 2018, Rockwell recognized an additional \$10 million and \$2 million, respectively, of the cash settlement proceeds as a reduction in asbestos expense. Pursuant to the terms of a second settlement agreement, in the fourth quarter of fiscal year 2016 the company recorded a \$12 million receivable to reflect expected reimbursement of future defense and indemnity payments under a coverage-in-place arrangement with that insurer. In addition to the coverage provided from the settlement agreements executed during the fourth quarter of fiscal year 2016, the company maintains a receivable of \$7 million related to a previously executed coverage-in-place arrangement with other insurers. The insurance receivable for Rockwell's asbestos-related liabilities totaled \$38 million as of each of December 31, 2017 and September 30, 2017. Included in these amounts are insurance receivables of \$17 million as of each of December 31, 2017 and September 30, 2017, which are associated with policies in dispute and have been fully reserved.

The amounts recorded for the asbestos-related reserves and recoveries from insurance companies are based upon assumptions and estimates derived from currently known facts. All such estimates of liabilities and recoveries for asbestos-related claims are subject to considerable uncertainty because such liabilities and recoveries are influenced by variables that are difficult to predict. The future litigation environment for Rockwell could change significantly from its past experience, due, for example, to changes in the mix of claims filed against Rockwell in terms of plaintiffs' law firms, jurisdictions and diseases; legislative or regulatory developments; Rockwell's approach to defending claims; or payments to plaintiffs from other defendants. Estimated recoveries are influenced by coverage issues among insurers and the continuing solvency of various insurance companies. If the assumptions with respect to the estimation period, the nature of pending claims, the cost to resolve claims and the amount of available insurance prove to be incorrect, the actual amount of liability for Rockwell asbestos-related claims, and the effect on the company, could differ materially from current estimates and, therefore, could have a material impact on the company's financial condition and results of operations.

Indemnifications

The company has provided indemnifications in conjunction with certain transactions, primarily divestitures. These indemnities address a variety of matters, which may include environmental, tax, asbestos and employment-related matters, and the periods of indemnification vary in duration.

In December 2005, the company guaranteed a third party's obligation to reimburse another party for payment of health and prescription drug benefits to a group of retired employees. The retirees were former employees of a wholly-owned subsidiary of the company prior to it being acquired by the company. The wholly-owned subsidiary, which was part of the company's light vehicle aftermarket business, was sold by the company in fiscal year 2006. Prior to May 2009, except as set forth hereinafter, the third party met its obligations to reimburse the other party. In May 2009, the third party filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code, requiring the company to recognize its obligations under the guarantee. The company recorded a \$28 million liability in fiscal year 2009 for this matter. At each of December 31, 2017 and September 30, 2017, the remaining estimated liability for this matter was approximately \$10 million.

In connection with the sale of its interest in MSSC in October 2009, the company provided certain indemnities to the buyer for its share of potential obligations related to pension funding shortfall, environmental and other contingencies, and valuation of

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

certain accounts receivable and inventories. At December 31, 2017 and September 30, 2017, the company's remaining exposure was approximately \$1 million, which is included in other liabilities in the condensed consolidated balance sheet.

The company is not aware of any other claims or other information that would give rise to material payments under such indemnifications.

Other

The company identified certain sales transactions for which value-added tax was potentially required to be remitted to certain tax jurisdictions for tax years 2010 through 2017. At December 31, 2017 and September 30, 2017, the company's estimate of the probable liability was \$10 million and \$12 million, respectively.

In addition, various lawsuits, claims and proceedings, other than those specifically disclosed in the condensed consolidated financial statements, have been or may be instituted or asserted against the company, relating to the conduct of the company's business, including those pertaining to product liability, warranty or recall claims, intellectual property, safety and health, contract and employment matters. Although the outcome of other litigation cannot be predicted with certainty, and some lawsuits, claims or proceedings may be disposed of unfavorably to the company, management believes the disposition of matters that are pending will not have a material effect on the company's business, financial condition, results of operations or cash flows.

22. Shareholders' Equity**Common Stock and Debt Repurchase Authorizations**

On July 21, 2016, the Board of Directors authorized the repurchase of up to \$100 million of the company's common stock and up to \$150 million aggregate principal amount of any of the company's debt securities (including convertible debt securities), in each case from time to time through open market purchases, privately negotiated transactions or otherwise, until September 30, 2019, subject to compliance with legal and regulatory requirements and the company's debt covenants. As of December 31, 2017, there was an insignificant amount of common stock and \$100 million in debt security repurchases that were made under these authorizations.

Accumulated Other Comprehensive Loss ("AOCL")

The components of AOCL and the changes in AOCL by components, net of tax, for three months ended December 31, 2017 and 2016 are as follows (in millions):

	Foreign Currency Translation	Employee Benefit Related Adjustments	Unrealized Loss, net of tax	Total
Balance at September 30, 2017	\$ (41)	\$ (500)	\$ (4)	\$(545)
Other comprehensive income (loss) before reclassification	(8)	1	—	(7)
Amounts reclassified from accumulated other comprehensive loss	—	2	—	2
Net current-period other comprehensive income (loss)	\$ (8)	\$ 3	\$ —	\$(5)
Balance at December 31, 2017	\$ (49)	\$ (497)	\$ (4)	\$(550)

The company defines its operating segments as components of its business where separate financial information is available and is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The company's Chief Operating Decision Maker ("CODM") is the Chief Executive Officer.

The company has two reportable segments at December 31, 2017, as follows:

The Commercial Truck & Industrial segment supplies drivetrain systems and components, including axles, drivelines and braking and suspension systems, primarily for medium- and heavy-duty trucks, military, construction, bus and coach, fire and emergency and other applications in North America, South America, Europe and Asia Pacific. This segment also includes the company's aftermarket businesses in Asia Pacific and South America; and

The Aftermarket & Trailer segment supplies axles, brakes, drivelines, suspension parts and other replacement parts to commercial vehicle and industrial aftermarket customers, primarily in North America and Europe. This segment also supplies a wide variety of undercarriage products and systems for trailer applications in North America.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Segment adjusted EBITDA is defined as income (loss) from continuing operations before interest expense, income taxes, depreciation and amortization, non-controlling interests in consolidated joint ventures, loss on sale of receivables, restructuring expense, asset impairment charges and other special items as determined by management. Segment adjusted EBITDA excludes unallocated legacy and corporate income (expense), net. The company uses segment adjusted EBITDA as the primary basis for the CODM to evaluate the performance of each of its reportable segments.

The accounting policies of the segments are the same as those applied in the condensed consolidated financial statements, except for the use of segment adjusted EBITDA. The company may allocate certain common costs, primarily corporate functions, between the segments differently than the company would for stand alone financial information prepared in accordance with GAAP. These allocated costs include expenses for shared services such as information technology, finance, communications, legal and human resources. The company does not allocate interest expense and certain legacy and other corporate costs not directly associated with the segment.

Segment information is summarized as follows (in millions):

	Commercial Truck & Industrial	Aftermarket & Trailer	Eliminations	Total
Three Months Ended December 31, 2017

⁽¹⁾ Corporate assets consist primarily of cash, deferred income taxes and prepaid pension costs.

At December 31, 2017 and September 30, 2017, segment assets include \$314 million and \$261 million, respectively, of accounts receivable sold under off-balance sheet accounts receivable factoring programs (see Note 10). These sold receivables are included in segment assets as the CODM reviews segment assets inclusive of these balances.

24. Supplemental Guarantor Condensed Consolidating Financial Statements

Rule 3-10 of Regulation S-X requires that separate financial information for issuers and guarantors of registered securities be filed in certain circumstances. Certain of the company's 100-percent-owned subsidiaries, as defined in the credit agreement (the "Guarantors"), irrevocably and unconditionally guarantee amounts outstanding under the senior secured revolving credit facility on a joint and several basis. Similar subsidiary guarantees were provided for the benefit of the holders of the notes outstanding under the company's indentures (see Note 18).

In lieu of providing separate audited financial statements for the Parent and Guarantors, the company has included the accompanying condensed consolidating financial statements as permitted by Regulation S-X Rules 3-10. These condensed consolidating financial statements are presented on the equity method. Under this method, the investments

in subsidiaries are recorded at cost and adjusted for the Parent's share of the subsidiary's cumulative results of operations, capital contributions and distribution and other equity changes. The Guarantors are combined in the condensed consolidating financial statements.

Basis of Presentation

Certain information and footnote disclosures normally included in financial statements prepared in conformity with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. As of December 31, 2017 and September 30, 2017, Parent-only obligations included \$287 million and \$303 million of pension and retiree medical benefits, respectively (see Note 20). All debt is debt of the Parent other than \$48 million and \$100 million at December 31, 2017 and September 30, 2017, respectively (see Note 18), and is primarily related to U.S. accounts receivable securitization and capital lease obligations. There were \$6 million of cash dividends paid to the Parent by subsidiaries and investments accounted for by the equity method for the three months ended December 31, 2017 and no cash dividends for the three months ended December 31, 2016.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

25. Subsequent Events

On January 18, 2018, the company announced a realignment of its operating segments to further drive its long-term strategic objectives while also assigning new responsibilities as part of Meritor's commitment to leadership development. In the second quarter of fiscal year 2018, management will reorganize its management reporting structure and begin to manage its operations under its new segment structure. The company will reassess its reportable segments in the second quarter of fiscal year 2018 to determine if a change in its reportable segments is needed.

Item 2. Management's Discussion and Analysis of Financial Conditions and Results of Operations

OVERVIEW

Meritor, Inc. (the "company", "our", "we" or "Meritor"), headquartered in Troy, Michigan, is a premier global supplier of a broad range of integrated systems, modules and components to original equipment manufacturers ("OEMs") and the aftermarket for the commercial vehicle, transportation and industrial sectors. The company serves commercial truck, trailer, military, bus and coach, construction, and other industrial OEMs and certain aftermarkets. Meritor common stock is traded on the New York Stock Exchange under the ticker symbol MTOR.

1st Quarter Fiscal Year 2018 Results

Our sales for the first quarter of fiscal year 2018 were \$903 million, an increase compared to \$699 million in the same period in the prior fiscal year. The increase in sales was primarily driven by higher truck production in all of our markets, with North America experiencing the largest increase, in addition to new business wins and favorable foreign currency impacts.

Net loss attributable to Meritor for the first quarter of fiscal year 2018 was \$36 million compared to net income attributable to Meritor of \$15 million in the same period in the prior fiscal year. Lower net income year over year was driven primarily by \$77 million of higher tax expense as a result of the enactment of the Tax Cuts and Jobs Act ("U.S. tax reform"). The three months ended December 31, 2017 include \$43 million of non-cash tax expense related to the revaluation of our deferred tax assets and liabilities as a result of the U.S. tax reform and \$34 million of non-cash tax expense related to the one-time deemed repatriation of accumulated foreign earnings, which has no cash impact due to the use of foreign tax credits.

Adjusted EBITDA (see Non-GAAP Financial Measures below) for the first quarter of fiscal year 2018 was \$99 million compared to \$64 million in the same period in the prior fiscal year. Our adjusted EBITDA margin (see Non-GAAP Financial Measures below) in the first quarter of fiscal year 2018 was 11.0 percent compared to 9.2 percent in the same period a year ago. Higher adjusted EBITDA year over year was driven primarily by conversion on higher revenue and the favorable impact of changes to the company's retiree medical benefits.

Net loss from continuing operations attributable to the company for the first quarter of fiscal year 2018 was \$35 million compared to net income from continuing operations attributable to the company of \$15 million in the same period in the prior fiscal year. Adjusted income from continuing operations attributable to the company (see Non-GAAP Financial Measures below) for the first quarter of fiscal year 2018 was \$55 million compared to \$22 million in the same period in the prior fiscal year.

Cash provided by operating activities was \$33 million in the first quarter of fiscal year 2018 compared to cash used for operating activities of \$14 million in the first quarter of fiscal year 2017. Higher earnings helped drive cash flow performance in the first quarter of fiscal 2018.

U.S. Tax Reform

On December 22, 2017, President Trump signed into law the U.S. tax reform, which makes significant changes to the U.S. tax code. The U.S. tax reform makes broad and complex changes to the U.S. tax code that will affect our fiscal year ending September 30, 2018, including, but not limited to, reducing the U.S. federal corporate tax rate and requiring a one-time transition tax on certain unrepatriated earnings of foreign subsidiaries. The U.S. tax reform reduces the federal corporate tax rate to 21 percent in the fiscal year ending September 30, 2018. Section 15 of the

Internal Revenue Code stipulates that our fiscal year ending September 30, 2018 will have a blended corporate tax rate of 24.5 percent, which is based on the applicable tax rates before and after the U.S. tax reform and the number of days in the year.

The Securities and Exchange Commission (“SEC”) staff issued Staff Accounting Bulletin (“SAB”) 118, which provides guidance on accounting for the tax effects of the U.S. tax reform. SAB 118 provides a measurement period that should not extend beyond one year from the U.S. tax reform enactment date for companies to complete the accounting under Accounting Standards Codification (“ASC”) 740. In accordance with SAB 118, a company must reflect the income tax effects of those aspects of the U.S. tax reform for which the accounting under ASC 740 is complete. To the extent that a company’s accounting for certain income tax effects of the U.S. tax reform is incomplete but the company is able to determine a reasonable estimate, it must record a provisional estimate in the financial statements. If a company cannot determine a provisional estimate to be included in the financial

MERITOR, INC.

statements, it should continue to apply ASC 740 on the basis of the provisions of the tax laws that were in effect immediately before the enactment of the U.S. tax reform.

Specifically, we have included discrete tax expense in the first quarter financial statements related to provisional amounts under SAB 118 for the net impact on the revaluation of U.S. deferred tax assets and liabilities due to the federal income tax rate reduction from 35 percent to 21 percent. Additionally, we have estimated our liability and included provisional amounts for the one-time transition tax as a discrete tax expense. We will elect to offset the liability associated with this transition tax by utilizing foreign tax credit carryovers. The revaluation of the deferred tax assets and the transition tax resulted in a non-cash charge of \$77 million in the first quarter.

We have not accounted for the tax impacts related to Global Intangible Low Tax Income ("GILTI"), Base Erosion Anti Abuse Tax ("BEAT") or Foreign Derived Intangible Income ("FDII") regimes or any of the other provisions of the U.S. tax reform that are not effective until fiscal year 2019. We have elected to treat GILTI as a period cost and, therefore, have not recognized basis differences that may reverse as GILTI in future periods.

Tax expense recognized in the quarter related to the transition tax and rate change on net deferred tax assets and liabilities are considered provisional under SAB 118. We will continue to refine our accumulated earnings and profit pools and the allocation of cash and non-cash earnings for purposes of calculating the transition tax liability.

Additionally, we will update the impact of the rate change on the net deferred tax assets as we continue to accrue balances throughout the current year.

There were no adjustments to measurement period items during the quarter, as this was the first reporting period after enactment.

Debt Redemption

On November 2, 2017, we redeemed the remaining \$175 million aggregate principal amount outstanding of our 6.75 percent notes due 2021 (the "6.75 Percent Notes") pursuant to a special authorization of the Board of Directors. The redemption resulted in a loss on debt extinguishment of approximately \$8 million. The loss on debt extinguishment is included in Interest expense, net in the consolidated statement of operations.

Trends and Uncertainties

Industry Production Volumes

The following table reflects estimated on-highway commercial truck production volumes for selected original equipment ("OE") markets for the three months ended December 31, 2017 and 2016 based on available sources and management's estimates.

	Three Months Ended December 31, 2017			2016	Percent Change
Estimated Commercial Truck production (in thousands):					
North America, Heavy-Duty Trucks	67	47	43	%	
North America, Medium-Duty Trucks	57	54	6	%	
North America, Trailers	76	70	9	%	
Western Europe, Heavy- and Medium-Duty Trucks	123	123	—	%	
South America, Heavy- and Medium-Duty Trucks	24	14	71	%	
India, Heavy- and Medium-Duty Trucks	92	77	19	%	

North America:

During fiscal year 2018, we expect Class 8 truck production volumes in North America to increase significantly from the production levels experienced in fiscal year 2017.

Western Europe:

During fiscal year 2018, we expect production volumes in Western Europe to increase slightly from the levels experienced in fiscal year 2017.

South America:

During fiscal year 2018, we expect production volumes in South America to increase from the levels experienced in fiscal year 2017.

China:

MERITOR, INC.

During fiscal year 2018, we expect production volumes in China to increase from the levels experienced in fiscal year 2017 primarily due to improvements in the construction market.

India:

During fiscal year 2018, we expect production volumes in India to increase from the levels experienced in fiscal year 2017.

Industry-Wide Issues

Our business continues to address a number of challenging industry-wide issues including the following:

- Uncertainty around the global market outlook;

- Volatility in price and availability of steel, components and other commodities;

- Potential for disruptions in the financial markets and their impact on the availability and cost of credit;

- Volatile energy and transportation costs;

- Impact of currency exchange rate volatility;

- Consolidation and globalization of OEMs and their suppliers; and

- Significant pension costs.

Other

Other significant factors that could affect our results and liquidity include:

- Significant contract awards or losses of existing contracts or failure to negotiate acceptable terms in contract renewals;

- Ability to successfully launch a significant number of new products, including potential product quality issues, and obtain new business;

- Ability to manage possible adverse effects on our European operations, or financing arrangements related thereto, following the United Kingdom's decision to exit the European Union, or in the event one or more other countries exit the European monetary union;

- Ability to further implement planned productivity, cost reduction, and other margin improvement initiatives;

- Ability to successfully execute and implement strategic initiatives;

- Ability to work with our customers to manage rapidly changing production volumes;

- Ability to recover, and timing of recovery of, steel price and other cost increases from our customers;

- Any unplanned extended shutdowns or production interruptions by us, our customers or our suppliers;

- A significant deterioration or slowdown in economic activity in the key markets in which we operate;

- Competitively driven price reductions to our customers;

- Potential price increases from our suppliers;

- Additional restructuring actions and the timing and recognition of restructuring charges, including any actions associated with the prolonged softness in markets in which we operate;

- Higher-than-planned warranty expenses, including the outcome of known or potential recall campaigns;

- Uncertainties of asbestos claim and other litigation, including the outcome of litigation with insurance companies regarding scope of asbestos coverage, and the long-term solvency of our insurance carriers; and

- Restrictive government actions (such as restrictions on transfer of funds and trade protection measures, including import and export duties, quotas and customs duties and tariffs).

NON-GAAP FINANCIAL MEASURES

MERITOR, INC.

In addition to the results reported in accordance with accounting principles generally accepted in the United States (“GAAP”), we have provided information regarding non-GAAP financial measures. These non-GAAP financial measures include adjusted income (loss) from continuing operations attributable to the company, adjusted diluted earnings (loss) per share from continuing operations, adjusted EBITDA, adjusted EBITDA margin, segment adjusted EBITDA, segment adjusted EBITDA margin, free cash flow and net debt.

Adjusted income (loss) from continuing operations attributable to the company and adjusted diluted earnings (loss) per share from continuing operations are defined as reported income (loss) from continuing operations and reported diluted earnings (loss) per share from continuing operations before restructuring expenses, asset impairment charges, non-cash tax expense related to the use of deferred tax assets in jurisdictions with net operating loss carry forwards, and other special items as determined by management. Adjusted EBITDA is defined as income (loss) from continuing operations before interest, income taxes, depreciation and amortization, non-controlling interests in consolidated joint ventures, loss on sale of receivables, restructuring expenses, asset impairment charges and other special items as determined by management. Adjusted EBITDA margin is defined as adjusted EBITDA divided by consolidated sales from continuing operations. Segment adjusted EBITDA is defined as income (loss) from continuing operations before interest expense, income taxes, depreciation and amortization, noncontrolling interests in consolidated joint ventures, loss on sale of receivables, restructuring expense, asset impairment charges and other special items as determined by management. Segment adjusted EBITDA excludes unallocated legacy and corporate expense (income), net. Segment adjusted EBITDA margin is defined as segment adjusted EBITDA divided by consolidated sales from continuing operations, either in the aggregate or by segment as applicable. Free cash flow is defined as cash flows provided by (used for) operating activities less capital expenditures. Net debt is defined as total debt less cash and cash equivalents.

Management believes these non-GAAP financial measures are useful to both management and investors in their analysis of the company's financial position and results of operations. In particular, adjusted EBITDA, adjusted EBITDA margin, segment adjusted EBITDA, segment adjusted EBITDA margin, adjusted income (loss) from continuing operations attributable to the company and adjusted diluted earnings (loss) per share from continuing operations are meaningful measures of performance to investors as they are commonly utilized to analyze financial performance in our industry, perform analytical comparisons, benchmark performance between periods and measure our performance against externally communicated targets.

Free cash flow is used by investors and management to analyze our ability to service and repay debt and return value directly to shareholders. Net debt over adjusted EBITDA is a specific financial measure in our current M2019 plan used to measure the company's leverage in order to assist management in its assessment of appropriate allocation of capital.

Management uses the aforementioned non-GAAP financial measures for planning and forecasting purposes, and segment adjusted EBITDA is also used as the primary basis for the Chief Operating Decision Maker (“CODM”) to evaluate the performance of each of our reportable segments.

Our Board of Directors uses adjusted EBITDA margin, free cash flow, adjusted diluted earnings (loss) per share from continuing operations and net debt over adjusted EBITDA as key metrics to determine management's performance under our performance-based compensation plans.

Adjusted income (loss) from continuing operations attributable to the company, adjusted diluted earnings (loss) per share from continuing operations, adjusted EBITDA, adjusted EBITDA margin, segment adjusted EBITDA and segment adjusted EBITDA margin should not be considered a substitute for the reported results prepared in accordance with GAAP and should not be considered as an alternative to net income as an indicator of our financial performance. Free cash flow should not be considered a substitute for cash provided by (used for) operating activities, or other cash flow statement data prepared in accordance with GAAP, or as a measure of financial position or liquidity. In addition, this non-GAAP cash flow measure does not reflect cash used to repay debt or cash received from the divestitures of businesses or sales of other assets and thus does not reflect funds available for investment or other discretionary uses. Net debt should not be considered a substitute for total debt as reported on the balance sheet. These non-GAAP financial measures, as determined and presented by the company, may not be comparable to related

or similarly titled measures reported by other companies. Set forth below are reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated in accordance with GAAP.

MERITOR, INC.

Adjusted income from continuing operations attributable to the company and adjusted diluted earnings per share from continuing operations are reconciled to Income from continuing operations attributable to the company and Diluted earnings per share from continuing operations below (in millions, except per share amounts).

Commercial Truck & Industrial sales were \$738 million in the first quarter of fiscal year 2018, up 37 percent compared to the first quarter of fiscal year 2017. The increase in sales was primarily driven by higher production in all of our markets, with North America experiencing the largest increase. In addition, we saw continued benefits from new business wins, as well as favorable foreign currency impacts due to the strengthening euro.

Aftermarket & Trailer sales were \$195 million in the first quarter of fiscal year 2018, up 6 percent compared to the first quarter of fiscal year 2017. The increase in sales was primarily driven by higher volumes across the segment.

Cost of Sales and Gross Profit

Cost of sales primarily represents materials, labor and overhead production costs associated with the company's products and production facilities. Cost of sales for the three months ended December 31, 2017 was \$763 million compared to \$610 million in the same period in the prior fiscal year, representing an increase of 25 percent, primarily driven by increased volumes. Total cost of sales was 84.5 and 87.3 percent of sales for the three-month periods ended December 31, 2017 and 2016, respectively.

The following table summarizes significant factors contributing to the changes in costs of sales during the first quarter of fiscal year 2018 compared to the same quarter in the prior year (in millions):

52

MERITOR, INC.

	Cost of Sales
Three Months Ended December 31, 2016	\$ 610
Volume, mix and other, net	136
Foreign exchange	17
Three Months Ended December 31, 2017	\$ 763

Changes in the components of cost of sales year over year are summarized as follows (in millions):

	Change in Cost of Sales
Higher material costs	\$ 124
Higher labor and overhead costs	38
Other, net	(9)
Total change in costs of sales	\$ 153

Material costs represent the majority of our cost of sales and include raw materials, composed primarily of steel and purchased components. Material costs for the three months ended December 31, 2017 increased \$124 million compared to the same period in the prior fiscal year primarily due to higher volumes.

Labor and overhead costs increased \$38 million compared to the same period in the prior fiscal year primarily due to higher volumes.

Other, net decreased \$9 million compared to the same period in the prior fiscal year primarily due to lower retiree medical expense.

Gross margin was \$140 million and \$89 million for the three-month periods ended December 31, 2017 and 2016, respectively. Gross margin, as a percentage of sales, was 15.5 and 12.7 percent for the three-month periods ended December 31, 2017 and 2016, respectively. Gross margin as a percentage of sales increased due to the impacts of higher sales and lower retiree medical expense.

Other Income Statement Items

Selling, general and administrative expenses ("SG&A") for the three months ended December 31, 2017 and 2016 are summarized as follows (dollars in millions):

	Three Months Ended			
	December 31, 2017	December 31, 2016	Increase (Decrease)	
SG&A	Amount % of sales	Amount % of sales	Amount % of sales	Amount % of sales
Loss on sale of receivables	\$(2) (0.2)%	\$(1) (0.1)%	\$1	0.1 pts
Short and long-term variable compensation	(12) (1.3)%	(8) (1.1)%	4	0.2 pts
Asbestos-related expense, net of asbestos-related insurance recoveries	(2) (0.2)%	1 0.1 %	3	0.3 pts
All other SG&A	(51) (5.7)%	(45) (6.5)%	6	(0.8) pts
Total SG&A	\$(67) (7.4)%	\$(53) (7.6)%	\$14	(0.2) pts

We recognized \$2 million and \$6 million related to previous cash settlements with insurance companies for recoveries of defense and indemnity costs associated with asbestos liabilities in the first quarter of fiscal years 2018 and 2017, respectively, which are included in Asbestos-related expense, net of asbestos-related insurance recoveries (see Note 21 of the Notes to the Condensed Consolidated Financial Statements in Part I of this Quarterly Report).

All other SG&A, which represents normal selling, general and administrative expense, increased year-over-year, primarily due to investments to support M2019 growth initiatives.

MERITOR, INC.

Restructuring costs increased by \$2 million from an insignificant amount in the first quarter of fiscal year 2017 to \$2 million in the same period in fiscal year 2018. During the three months ended December 31, 2017, these costs primarily related to employee severance costs.

Other operating expense decreased by \$2 million from \$3 million in the first quarter of fiscal year 2017 to \$1 million in the same period in fiscal year 2018. In the first quarter of fiscal year 2017, we recognized an impairment of \$3 million related to a business classified as held for sale.

Operating income increased by \$37 million from \$33 million in the first quarter of fiscal year 2017 to \$70 million in the same period in fiscal year 2018. Key items affecting operating income are discussed above.

Equity in earnings of affiliates decreased by \$5 million from \$10 million in the first quarter of fiscal year 2017 to \$5 million in the same period in fiscal year 2018. In the fourth quarter of fiscal year 2017, we sold our interest in Meritor WABCO Vehicle Control Systems to a subsidiary of our joint venture partner, WABCO Holdings Inc. The decrease in equity in earnings of affiliates was primarily driven by Meritor WABCO Vehicle Control Systems earnings that were included in fiscal year 2017 results but not in fiscal year 2018. This decrease was partially offset by improved earnings in our remaining joint ventures.

Interest expense, net increased by \$3 million from \$21 million in the first quarter of fiscal year 2017 to \$24 million in the same period in fiscal year 2018. In the first quarter of fiscal year 2018, we recognized an approximately \$8 million loss on debt extinguishment, which is included in Interest expense, net, related to the redemption of our 6.75 Percent Notes. Interest expense related to fixed-rate debt decreased approximately \$5 million as a result of capital markets transactions completed in the fourth quarter of fiscal year 2017 and the first quarter of fiscal year 2018, which lowered our total average debt balance and associated weighted average interest rate.

Provision for income taxes was \$83 million in the first quarter of fiscal year 2018 compared to \$6 million in the same period in the prior fiscal year. The three months ended December 31, 2017 include \$43 million of non-cash tax expense related to the revaluation of our deferred tax assets and liabilities as a result of the U.S. tax reform and \$34 million of non-cash tax expense related to the one-time deemed repatriation of accumulated foreign earnings, which has no cash impact due to the use of foreign tax credits. Also, a tax planning strategy was implemented that resulted in a \$4 million tax benefit from the reversal of a tax valuation allowance in Sweden.

Loss from continuing operations (before noncontrolling interests) was \$33 million in the first quarter of fiscal year 2018 compared to income from continuing operations of \$16 million in the first quarter of fiscal year 2017. The reasons for the decrease are discussed above.

Loss from discontinued operations, net of tax was \$1 million in the first quarter of fiscal year 2018 and an insignificant amount in the first quarter of fiscal year 2017.

Net loss attributable to Meritor, Inc. was \$36 million in the first quarter of fiscal year 2018 compared to net income attributable to Meritor, Inc. of \$15 million in the first quarter of fiscal year 2017. The various factors affecting net income (loss) are discussed above.

Segment Adjusted EBITDA and Segment Adjusted EBITDA Margins

Segment adjusted EBITDA is defined as income (loss) from continuing operations before interest expense, income taxes, depreciation and amortization, noncontrolling interests in consolidated joint ventures, loss on sale of receivables, restructuring expense, asset impairment charges and other special items as determined by management. Segment adjusted EBITDA excludes unallocated legacy and corporate expense (income), net. We use segment adjusted EBITDA as the primary basis for the CODM to evaluate the performance of each of our reportable segments. Segment adjusted EBITDA margin is defined as segment adjusted EBITDA divided by consolidated sales from continuing operations, either in the aggregate or by segment, as applicable. Segment adjusted EBITDA and segment adjusted EBITDA margin are non-GAAP measures (see Non-GAAP Financial Measures above).

The following table reflects segment adjusted EBITDA and segment adjusted EBITDA margins for the three months ended December 31, 2017 and 2016 (in millions).

MERITOR, INC.

	Segment adjusted EBITDA Three Months Ended December 31, 2017			Segment adjusted EBITDA margins Three Months Ended December 31, 2016		
	2017	2016	Change	2017	2016	Change
Commercial Truck & Industrial	\$80	\$42	\$38	10.8%	7.8%	3.0 pts
Aftermarket & Trailer	21	22	(1)	10.8%	12.0%	(1.2) pts
Segment adjusted EBITDA	\$101	\$64	\$37	11.2%	9.2%	2.0 pts

Significant items impacting year-over-year segment adjusted EBITDA include the following (in millions):

	Commercial Truck & Industrial	Aftermarket & Trailer	TOTAL
Segment adjusted EBITDA— Quarter ended December 31, 2016	\$ 42	\$ 22	\$ 64
Lower earnings from unconsolidated affiliates	(5)	—	(5)
Short-and long-term variable compensation	3	1	4
Lower pension and retiree medical expense, net	10	1	11
Impact of foreign currency exchange rates	3	—	3
Volume, mix, pricing and other	27	(3)	24
Segment adjusted EBITDA – Quarter ended December 31, 2017	\$ 80	\$ 21	\$ 101

Commercial Truck & Industrial segment adjusted EBITDA was \$80 million in the first quarter of fiscal year 2018, up \$38 million from the same period in the prior fiscal year. Segment adjusted EBITDA margin increased to 10.8 percent compared to 7.8 percent in the same period in the prior fiscal year. The increases in both segment adjusted EBITDA and segment adjusted EBITDA margin were driven primarily by conversion on higher revenue and the favorable impact of changes to retiree medical benefits, partially offset by lower affiliate earnings from the Meritor WABCO sale.

Aftermarket & Trailer segment adjusted EBITDA was \$21 million in the first quarter of fiscal year 2018, down \$1 million from the same period in the prior fiscal year. Segment adjusted EBITDA margin decreased to 10.8 percent compared to 12.0 percent in the first quarter of fiscal year 2017. The decreases in segment adjusted EBITDA and segment adjusted EBITDA margin were driven in part by incremental investments supporting revenue growth initiatives.

FINANCING CASH FLOWS

Borrowings and securitization	\$(51)	\$—
Redemption of notes	(181)	—
Other financing activities	(1)	(4)
CASH USED FOR FINANCING ACTIVITIES	\$(233)	\$(4)

MERITOR, INC.

Cash used for financing activities was \$233 million in the first three months of fiscal year 2018 compared to \$4 million in the same period of fiscal year 2017. The increase in cash used for financing activities is primarily related to the redemption of the 6.75 Percent Notes in the first quarter of fiscal year 2018. We utilized \$185 million to redeem \$175 million principal amount of our 6.75 Percent Notes (see Note 18 of the Notes to the Condensed Consolidated Financial Statements in Part I of this Quarterly Report). The increase was also driven by outstanding borrowings against our securitization facility in the current year.

Liquidity

Our outstanding debt, net of discounts and unamortized debt issuance costs, where applicable, is summarized in the table below (in millions).

	December 31, 2017	September 30, 2017
Fixed-rate debt securities	\$ 443	\$ 616
Fixed-rate convertible notes	364	363
Unamortized discount on convertible notes	(43)	(42)
Other borrowings	50	101
Total debt	\$ 814	\$ 1,038

Overview – Our principal operating and capital requirements are for working capital needs, capital expenditure requirements, debt service requirements, funding of pension and retiree medical costs and restructuring and product development programs. We expect fiscal year 2018 capital expenditures for our business segments to be approximately \$100 million.

We generally fund our operating and capital needs with cash on hand, cash flows from operations, our various accounts receivable securitization and factoring arrangements and availability under our revolving credit facility. Cash in excess of local operating needs is generally used to reduce amounts outstanding, if any, under our revolving credit facility or U.S. accounts receivable securitization program. Our ability to access additional capital in the long term will depend on availability of capital markets and pricing on commercially reasonable terms, as well as our credit profile at the time we are seeking funds. We continuously evaluate our capital structure to ensure the most appropriate and optimal structure and may, from time to time, retire, repurchase, exchange or redeem outstanding indebtedness or common equity, issue new equity or debt securities or enter into new lending arrangements if conditions warrant. In December 2017, we filed a shelf registration statement with the Securities and Exchange Commission ("SEC"), registering an indeterminate amount of debt and/or equity securities that we may offer in one or more offerings on terms to be determined at the time of sale.

We believe our current financing arrangements provide us with the financial flexibility required to maintain our operations and fund future growth, including actions required to improve our market share and further diversify our global operations, through the term of our revolving credit facility, which matures in March 2022.

MERITOR, INC.

Sources of liquidity as of December 31, 2017, in addition to cash on hand, are as follows (in millions):

	Total Facility Size	Utilized as of 12/31/17	Readily Available as of 12/31/17	Current Expiration

(1)The availability under the revolving credit facility is subject to a collateral test and a priority debt-to-EBITDA ratio covenant.

(2)Availability subject to adequate eligible accounts receivable available for sale.

(3)Actual amounts may exceed the bank's commitment at the bank's discretion.

Cash and Liquidity Needs – Our cash and liquidity needs have been affected by the level, variability and timing of our customers' worldwide vehicle production and other factors outside of our control. At December 31, 2017, we had \$116 million in cash and cash equivalents.

At December 31, 2017, we had approximately \$19 million of our cash and cash equivalents held in jurisdictions outside of the U.S. that, if repatriated, could result in local withholding taxes. It is our intent to reinvest those cash balances in our foreign operations, and we will continue to meet our liquidity needs in the U.S. through ongoing cash flows from operations in the U.S., external borrowings or both.

Our availability under the revolving credit facility is subject to a collateral test and a priority debt-to-EBITDA ratio covenant, as defined in the credit agreement, which may limit our borrowings under such agreement as of each quarter end. As long as we are in compliance with those covenants as of the quarter end, we have full availability (up to the amount of collateral under the collateral test) under the revolving credit facility every other day during the quarter. Our future liquidity is subject to a number of factors, including access to adequate funding under our revolving credit facility, access to other borrowing arrangements such as factoring or securitization facilities, vehicle production schedules and customer demand. Even taking into account these and other factors, management expects to have sufficient liquidity to fund our operating requirements through the term of our revolving credit facility. At December 31, 2017, we were in compliance with all covenants under our credit agreement.

Equity Repurchase Authorization – On July 21, 2016, our Board of Directors authorized the repurchase of up to \$100 million of our common stock from time to time through open market purchases, privately negotiated transactions or otherwise, until September 30, 2019, subject to compliance with legal and regulatory requirements and our debt covenants. The amount remaining available for repurchases under this authorization was \$100 million as of December 31, 2017.

Debt Repurchase Authorization – On July 21, 2016, our Board of Directors authorized the repurchase of up to \$150 million aggregate principal amount of any of our debt securities (including convertible debt securities) from time to time through open market purchases, privately negotiated transactions or otherwise, until September 30, 2019, subject to compliance with legal and regulatory requirements and our debt covenants. The amount remaining available for

repurchases under this authorization was \$50 million as of December 31, 2017.

Redemption of 6.75 Percent Notes - On September 28, 2017, we redeemed \$100 million of the outstanding \$275 million aggregate principal amount of our 6.75 percent Notes due 2021 (the "6.75 Percent Notes") at a price of \$1,033.75 per \$1,000 of principal amount, plus accrued and unpaid interest. As a result, a loss on debt extinguishment of \$5 million was recorded in the

58

MERITOR, INC.

consolidated statement of operations within Interest expense, net during fiscal year 2017. The redemption was made pursuant to the July 2016 debt repurchase authorization (see Note 22 of the Notes to Consolidated Financial Statements).

On November 2, 2017, we redeemed the remaining \$175 million aggregate principal amount outstanding of the company's 6.75 Percent Notes at a price of \$1,033.75 per \$1,000 of principal amount, plus accrued and unpaid interest. As a result, a loss on debt extinguishment of \$8 million was recorded in the consolidated statement of operations within Interest expense, net. The redemption was made pursuant to a special authorization from the Board of Directors in connection with the sale of the Meritor WABCO JV.

Revolving Credit Facility – On March 31, 2017, we amended and restated our revolving credit facility. Pursuant to the revolving credit agreement, as amended, we have a \$525 million revolving credit facility that matures in March 2022. Additionally, \$4 million was capitalized as deferred issuance costs and will be amortized over the term of the agreement. The availability under this facility is dependent upon various factors, including performance against certain financial covenants as highlighted below.

The availability under the revolving credit facility is subject to certain financial covenants based on (i) the ratio of our priority debt (consisting principally of amounts outstanding under the revolving credit facility, U.S. accounts receivable securitization and factoring programs, and third-party non-working capital foreign debt) to EBITDA and (ii) the amount of annual capital expenditures. We are required to maintain a total priority debt-to-EBITDA ratio, as defined in the agreement, of 2.25 to 1.00 or less as of the last day of each fiscal quarter throughout the term of the agreement. At December 31, 2017, we were in compliance with all covenants under the revolving credit facility with a ratio of approximately 0.26x for the priority debt-to-EBITDA ratio covenant.

The availability under the revolving credit facility is also subject to a collateral test, pursuant to which borrowings on the revolving credit facility cannot exceed 1.0x the collateral test value. The collateral test is performed on a quarterly basis. At December 31, 2017, the revolving credit facility was collateralized by approximately \$726 million of our assets, primarily consisting of eligible domestic U.S. accounts receivable, inventory, plant, property and equipment, intellectual property and our investment in all or a portion of certain of our wholly-owned subsidiaries. Borrowings under the revolving credit facility are subject to interest based on quoted LIBOR rates plus a margin and a commitment fee on undrawn amounts, both of which are based upon our current corporate credit rating. At December 31, 2017, the margin over LIBOR rate was 300 basis points and the commitment fee was 45 basis points. Overnight revolving credit loans are at the prime rate plus a margin of 200 basis points.

Certain of our subsidiaries, as defined in the revolving credit agreement, irrevocably and unconditionally guarantee amounts outstanding under the revolving credit facility. Similar subsidiary guarantees are provided for the benefit of the holders of the publicly-held notes outstanding under our indentures (see Note 24 of the Notes to the Condensed Consolidated Financial Statements in Part I of this Quarterly Report).

No borrowings were outstanding under the revolving credit facility at December 31, 2017 and September 30, 2017. The amended and extended revolving credit facility includes \$100 million of availability for the issuance of letters of credit. At December 31, 2017 and September 30, 2017, there were no letters of credit outstanding under the revolving credit facility.

U.S. Securitization Program – We have a \$100 million U.S. accounts receivables securitization facility. On December 5, 2017, we entered into an amendment that extended the facility expiration date to December 2020. The maximum permitted priority debt-to-EBITDA ratio as of the last day of each fiscal quarter under the facility is 2.25 to 1.00. This program is provided by PNC Bank, National Association, as Administrator and Purchaser, and the other Purchasers and Purchaser Agents from time to time (participating lenders), which are party to the agreement. Under this program, we have the ability to sell an undivided percentage ownership interest in substantially all of our trade receivables (excluding the receivables due from AB Volvo and subsidiaries eligible for sale under the U.S. accounts receivable factoring facility) of certain U.S. subsidiaries to ArvinMeritor Receivables Corporation ("ARC"), a wholly-owned, special purpose subsidiary. ARC funds these purchases with borrowings from participating lenders under a loan agreement. This program also includes a letter of credit facility pursuant to which ARC may request the issuance of letters of credit issued for our U.S. subsidiaries (originators) or their designees, which when issued will constitute a

utilization of the facility for the amount of letters of credit issued. Amounts outstanding under this agreement are collateralized by eligible receivables purchased by ARC and are reported as short-term debt in the condensed consolidated balance sheet. At December 31, 2017, \$38 million, including letters of credit, were outstanding under this program. At September 30, 2017, \$89 million was outstanding under this program, and no amounts were outstanding for letters of credit. This securitization program contains a cross default to our revolving credit facility. At December 31, 2017, we were in compliance with all covenants under our credit agreement (see Note 18 of the Notes to the Condensed Consolidated Financial Statements in Part I of this Quarterly Report). At certain times during any given month, we may sell eligible accounts receivable under this program to fund intra-month working capital needs. In such months, we would then typically utilize the cash received from our customers throughout the month to repay the borrowings under the program. Accordingly, during any given month, we may borrow under this program in amounts exceeding the amounts shown as outstanding at fiscal quarter ends.

MERITOR, INC.

Capital Leases – In March 2012, we entered into a master lease agreement with Wells Fargo Equipment Finance, under which we can enter into lease arrangements for equipment. Each lease term is 60 months and the lease interest rate is equal to the 5-year Swap Rate published by the Federal Reserve Board plus 564 basis points. We had \$2 million and \$3 million outstanding under this capital lease arrangement as of December 31, 2017 and September 30, 2017, respectively. In addition, we had another \$9 million and \$10 million outstanding through other capital lease arrangements at December 31, 2017 and September 30, 2017, respectively.

Export financing arrangements – Our export financing arrangements were entered into through our Brazilian subsidiary pursuant to an incentive program of the Brazilian government to fund working capital for Brazilian companies in exportation programs. The arrangements bore interest at 5.5 percent and had maturity dates in 2017. These financing arrangements were paid off at maturity, as of March 31, 2017.

Other – One of our consolidated joint ventures in China participates in a bills of exchange program to settle its obligations with its trade suppliers. These programs are common in China and generally require the participation of local banks. Under these programs, our joint venture issues notes payable through the participating banks to its trade suppliers. If the issued notes payable remain unpaid on their respective due dates, this could constitute an event of default under our revolving credit facility if the defaulted amount exceeds \$35 million per bank. As of December 31, 2017 and September 30, 2017, we had \$22 million and \$24 million, respectively, outstanding under this program at more than one bank.

Credit Ratings – At January 31, 2018, our Standard & Poor's corporate credit rating and senior unsecured credit rating were BB and BB-, respectively, and our Moody's Investors Service corporate credit rating and senior unsecured credit rating were B1 and B2, respectively. Any lowering of our credit ratings could increase our cost of future borrowings and could reduce our access to capital markets and result in lower trading prices for our securities.

Off-Balance Sheet Arrangements

Accounts Receivable Factoring Arrangements – We participate in accounts receivable factoring programs with a total amount utilized at December 31, 2017 of \$314 million, of which \$246 million was attributable to committed factoring facilities involving the sale of AB Volvo accounts receivables. The remaining amount of \$68 million was related to factoring by certain of our European subsidiaries under uncommitted factoring facilities with financial institutions. The receivables under all of these programs are sold at face value and are excluded from the consolidated balance sheet. Total facility size, utilized amounts, readily available amounts and expiration dates for each of these programs are shown in the table above under Liquidity.

The Swedish facility is backed by a 364-day liquidity commitment from Nordea Bank, which was renewed through April 23, 2018. Commitments under all of our factoring facilities are subject to standard terms and conditions for these types of arrangements (including, in the case of the U.K. and Italy commitments, a sole discretion clause whereby the bank retains the right to not purchase receivables, which has not been invoked since the inception of the respective programs).

Letter of Credit Facilities – On February 21, 2014, we amended and restated our letter of credit facility with Citicorp USA, Inc., as administrative agent and issuing bank, and the other lenders party thereto. Under the terms of this amended credit agreement, which expires in March 2019, we have the right to obtain the issuance, renewal, extension and increase of letters of credit up to an aggregate availability of \$25 million. This facility contains covenants and events of default generally similar to those existing in our public debt indentures. We had \$16 million and \$18 million of letters of credit outstanding under this facility at December 31, 2017 and September 30, 2017, respectively. In addition, we had another \$5 million of letters of credit outstanding through other letter of credit facilities at December 31, 2017 and September 30, 2017.

Contingencies

Contingencies related to environmental, asbestos and other matters are discussed in Note 21 of the Notes to Condensed Consolidated Financial Statements in Part I of this Quarterly Report.

Critical Accounting Policies

Our significant accounting policies are consistent with those described in Note 2 to our consolidated financial statements in Item 8 of our 2017 Form 10-K. Our critical accounting estimates are consistent with those described in

Item 7 of our 2017 Form 10-K.

New Accounting Pronouncements

New Accounting Pronouncements are discussed in Note 3 of the Notes to Condensed Consolidated Financial Statements in Item 1. Financial Statements.

MERITOR, INC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to certain global market risks, including foreign currency exchange risk and interest rate risk associated with our debt.

As a result of our substantial international operations, we are exposed to foreign currency risks that arise from our normal business operations, including in connection with our transactions that are denominated in foreign currencies. In addition, we translate sales and financial results denominated in foreign currencies into U.S. dollars for purposes of our consolidated financial statements. As a result, appreciation of the U.S. dollar against these foreign currencies generally will have a negative impact on our reported revenues and operating income while depreciation of the U.S. dollar against these foreign currencies will generally have a positive effect on reported revenues and operating income.

We use foreign currency forward contracts to minimize the earnings exposures arising from foreign currency exchange risk on foreign currency purchases and sales. Gains and losses on the underlying foreign currency exposures are partially offset with gains and losses on the foreign currency forward contracts. Under this cash flow hedging program, we designate the foreign currency contracts (the “contracts”) as cash flow hedges of underlying foreign currency forecasted purchases and sales. The effective portion of changes in the fair value of the contracts is recorded in Accumulated other comprehensive loss (“AOCL”) in the statement of shareholders' equity and is recognized in operating income when the underlying forecasted transaction impacts earnings. The contracts generally mature within 18 months or less.

We use foreign currency option contracts to mitigate foreign currency exposure on expected future Indian Rupee-denominated purchases. In the second quarter of fiscal year 2015, we monetized our outstanding foreign currency option contracts and entered into a new series of foreign currency option contracts with effective dates from the start of the third quarter of fiscal year 2015 through the end of fiscal year 2017. In the fourth quarter of fiscal year 2016, we entered into a new series of foreign currency option contracts with effective dates from the start of the first quarter of fiscal year 2017 through the end of fiscal year 2018. In the third quarter of fiscal year 2017, we monetized our outstanding foreign currency option contracts and in the third and fourth quarters of fiscal year 2017, entered into a new series of foreign currency option contracts with maturity dates in fiscal year 2018 and fiscal year 2019. Changes in fair value associated with these contracts are recorded in cost of sales in the consolidated statements of operations. We use foreign currency option contracts to mitigate foreign currency exposure on expected future South Korean won-denominated purchases. In the first quarter of fiscal year 2018, we entered into a new series of foreign currency option contracts with effective dates from the start of the third quarter of fiscal year 2018 through the end of fiscal year 2018. Changes in fair value associated with these contracts are recorded in cost of sales in the consolidated statements of operations.

In the fourth quarter of fiscal year 2015 and first quarter of fiscal year 2016, due to the risk of volatility of the euro as compared to the U.S. dollar, we entered into a series of foreign currency option contracts that did not qualify for hedge accounting but were expected to mitigate foreign currency translation exposure of euro earnings to U.S. dollars. In the third and fourth quarters of fiscal year 2017, we entered into a new series of foreign currency option contracts with maturity dates in fiscal year 2017 and fiscal year 2018. Changes in fair value associated with these contracts were recorded in other income, net, in the consolidated statements of operations.

In the fourth quarter of fiscal year 2015 and the first quarter of fiscal year 2016, due to the risk of volatility of the Swedish krona as compared to the U.S. dollar, we entered into a series of foreign currency option contracts that did not qualify for hedge accounting but were expected to mitigate foreign currency translation exposure of Swedish krona earnings to U.S. dollars. In the fourth quarter of fiscal year 2017, we entered into a new series of foreign currency option contracts with maturity dates in fiscal year 2018. Changes in fair value associated with these contracts were recorded in other income, net, in the consolidated statement of operations.

Interest rate risk relates to the gain/increase or loss/decrease we could incur on our debt balances and interest expense associated with changes in interest rates. To manage this risk, we may enter into interest rate swaps from time to time to economically convert portions of our fixed-rate debt into floating rate exposure, ensuring that the sensitivity of the economic value of debt falls within our corporate risk tolerances. It is our policy not to enter into derivative

instruments for speculative purposes, and therefore, we hold no derivative instruments for trading purposes. Included below is a sensitivity analysis to measure the potential gain (loss) in the fair value of financial instruments with exposure to market risk (in millions). The model assumes a 10% hypothetical change (increase or decrease) in exchange rates and instantaneous, parallel shifts of 50 basis points in interest rates.

MERITOR, INC.

Market Risk

	Assuming a 10% Increase in Rates	Assuming a 10% Decrease in Rates	Increase (Decrease) in
Foreign Currency Sensitivity:			
Forward contracts in USD ⁽¹⁾	\$ 4.1	\$ (4.1)	Fair Value
Forward contracts in Euro ⁽¹⁾	(6.8)	6.8	Fair Value
Foreign currency denominated debt ⁽²⁾	0.8	(0.8)	Fair Value
Foreign currency option contracts in USD	4.8	4.1	Fair Value
Foreign currency option contracts in Euro	(0.6)	5.2	Fair Value

	Assuming a 50 BPS Increase in Rates	Assuming a 50 BPS Decrease in Rates	Increase (Decrease) in
Interest Rate Sensitivity:			
Debt – fixed rate ⁽³⁾	\$ (38.6)	\$ 41.4	Fair Value
Debt – variable rate	(0.2)	0.2	Cash flow
Interest rate swaps	—	—	Fair Value

(1)Includes only the risk related to the derivative instruments and does not include the risk related to the underlying exposure. The analysis assumes overall derivative instruments and debt levels remain unchanged for each hypothetical scenario.

(2)At December 31, 2017, the fair value of outstanding foreign currency denominated debt was \$8 million. A 10% decrease in quoted currency exchange rates would result in a decrease of \$1 million in foreign currency denominated debt. At December 31, 2017, a 10% increase in quoted currency exchange rates would result in an increase of \$1 million in foreign currency denominated debt.

(3) At December 31, 2017, the fair value of outstanding debt was \$943 million. A 50 basis points decrease in quoted interest rates would result in an increase of \$41.4 million in the fair value of fixed rate debt. A 50 basis points increase in quoted interest rates would result in a decrease of \$38.6 million in the fair value of fixed rate debt.

MERITOR, INC.

Item 4. Controls and Procedures

As required by Rule 13a-15 under the Securities Exchange Act of 1934 (the “Exchange Act”), management, with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2017. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of December 31, 2017, our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and to ensure that information required to be disclosed by us in the reports we file or submit is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in the company’s internal control over financial reporting that occurred during the quarter ended December 31, 2017 that materially affected, or are reasonably likely to materially affect, the company’s internal control over financial reporting.

In connection with the rule, the company continues to review and document its disclosure controls and procedures, including the company’s internal control over financial reporting, and may from time to time make changes aimed at enhancing their effectiveness and ensuring that the company’s systems evolve with the business.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Except as set forth below and in Note 21 of the Notes to the Condensed Consolidated Financial Statements in Part I of this Quarterly Report on Form 10-Q, there have been no material developments in legal proceedings involving the company or its subsidiaries since those reported in the company's Annual Report on Form 10-K for the fiscal year ended September 30, 2017, as amended.

In fiscal years 2002 and 2004, the company approved amendments to certain retiree medical plans, including health benefits for retirees (and their surviving spouses) who were formerly United Auto Workers ("UAW") members at ten former Rockwell International ("Rockwell") plants. Certain of these plan amendments were challenged in lawsuits that were filed in the United States District Court for the Eastern District of Michigan ("District Court") alleging the changes breached the terms of various collective bargaining agreements ("CBAs") entered into by Rockwell and the UAW for facilities that have either been closed or sold and alleging a companion claim under the Employee Retirement Income Security Act of 1974 ("ERISA"). The two class action lawsuits that were filed in 2004 (Cole v. ArvinMeritor, et al. and Faust v. ArvinMeritor, et al.) by the UAW and retirees and surviving spouses claimed that the health benefits were vested for life through the negotiated CBAs. These actions were subsequently consolidated.

On December 22, 2005, the District Court issued a preliminary injunction enjoining the company from implementing changes to retiree health benefits and ordered the company to reinstate and resume paying the full cost of health benefits for the UAW retirees at the levels existing prior to the changes made in 2002 and 2004. In 2006, the District Court granted a motion by the UAW for summary judgment and granted the UAW's request to make the terms of the preliminary injunction permanent (the "injunction"). The company accounted for the injunction as a rescission of the 2002 and 2004 plan amendments and began recording the impact of the injunction in March 2006. In addition, the injunction ordered the defendants to reimburse the plaintiffs for out-of-pocket expenses incurred since the date of the earlier benefit modifications. In 2007, the company appealed the District Court's order to the U.S. Court of Appeals for the Sixth Circuit ("Sixth Circuit"). The Sixth Circuit affirmed the District Court's ruling, and the company moved for an en banc rehearing. This motion was held in abeyance while the parties attempted to settle the case. In July 2016, the company moved for re-hearing based on a January 2015 U.S. Supreme Court decision on the subject matter and a subsequent Sixth Circuit ruling in a separate case on the same subject matter. The court granted the re-hearing, and in April 2017, the Sixth Circuit reversed the District Court's decision, finding that the retiree medical benefits were not vested for life through the CBAs.

The plaintiffs' appeal to the Sixth Circuit for a rehearing en banc was denied in June 2017. The plaintiffs subsequently filed a motion to stay the Sixth Circuit's mandate pending appeal to the U.S. Supreme Court. The Sixth Circuit denied that motion on July 10, 2017 and issued the mandate the same day. Through the Sixth Circuit's mandate, the case was remanded to the District Court to carry out further proceedings as necessary to comply with the mandate. On July 19, 2017, the company filed a motion with the District Court to dissolve the injunction and enter the judgment in favor of the defendants. On September 6, 2017, pursuant to the mandate from the Sixth Circuit, the District Court dissolved its 2006 injunction which previously barred the modification of the benefits provided by the Company to the class of UAW employee retirees. The plaintiffs filed a petition for a writ of certiorari with the Supreme Court of the United States on September 15, 2017, which was denied on November 27, 2017.

Item 1A. Risk Factors

There have been no material changes in risk factors involving the company or its subsidiaries from those previously disclosed in the company's Annual Report on Form 10-K for the fiscal year ended September 30, 2017, as amended.

MERITOR, INC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer repurchases

The table below sets forth information with respect to purchases made by or on behalf of us of shares of our common stock during the three months ended December 31, 2017:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total	Maximum
			Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
October 1- 31, 2017	—	\$	—	\$ —
November 1- 30, 2017	—	\$	—	\$ —
December 1- 31, 2017	—	\$	—	\$ —
Total	—		—	

On July 21, 2016, the Board of Directors authorized the repurchase of up to \$100 million of the company's common stock and up to \$150 million aggregate principal amount of any of the company's debt securities (including (1) convertible debt securities), in each case from time to time through open market purchases, privately negotiated transactions or otherwise, until September 30, 2019, subject to compliance with legal and regulatory requirements and the company's debt covenants.

The independent trustee of our 401(k) plans purchases shares in the open market to fund investments by employees in our common stock, one of the investment options available under such plans, and any matching contributions in company stock we provide under certain of such plans. In addition, our stock incentive plans permit payment of an option exercise price by means of cashless exercise through a broker and permit the satisfaction of the minimum statutory tax obligations upon exercise of options and the vesting of restricted stock units through stock withholding. There were no shares withheld in the first quarter of fiscal 2018 to satisfy tax obligations for exercise of options. In addition, our stock incentive plans also permit the satisfaction of tax obligations upon the vesting of restricted stock through stock withholding. There were no shares withheld in the first quarter of fiscal 2018 to satisfy tax obligations upon the vesting of restricted shares. The company does not believe such purchases or transactions described above are issuer repurchases for the purposes of this Item 2 of Part II of this Quarterly Report on Form 10-Q.

Item 5. Other Information

Cautionary Statement

This Quarterly Report on Form 10-Q contains statements relating to future results of the company (including certain projections and business trends) that are “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are typically identified by words or phrases such as “believe,” “expect,” “anticipate,” “estimate,” “should,” “are likely to be,” “will” and similar expressions. Actual results may differ materially from those projected as a result of certain risks and uncertainties, including but not limited to reliance on major OEM customers and possible negative outcomes from contract negotiations with our major customers, including failure to negotiate acceptable terms in contract renewal negotiations and our ability to obtain new customers; the outcome of actual and potential product liability, warranty and recall claims; our ability to successfully manage rapidly changing volumes in the commercial truck markets and work with our customers to manage demand expectations in view of rapid changes in production levels; global economic and market cycles and conditions; availability and sharply rising costs of raw materials, including steel, and our ability to manage or recover such costs; our ability to manage possible adverse effects on our European operations, or financing arrangements related thereto following the United Kingdom's decision to exit the European Union or, in the event one or more other countries exit the European monetary union; risks inherent in operating abroad (including foreign currency exchange rates, restrictive government actions regarding trade, implications of foreign regulations relating to pensions and potential disruption of production and supply due to terrorist attacks or acts of aggression); risks related to our joint ventures; rising costs of pension benefits; the ability to achieve the expected benefits of strategic initiatives and restructuring actions; our ability to successfully integrate the products and technologies of FABCO Holdings, Inc. and future results of such acquisition, including its generation of revenue and it being accretive; the demand for commercial and specialty vehicles for which we supply products; whether our liquidity will be affected by declining vehicle productions in the future; OEM program delays; demand for and market acceptance of new and existing products; successful development and launch of new products; labor relations of our company, our suppliers and customers, including potential disruptions in supply of parts to our facilities or demand for our products due to work stoppages; the financial condition of our suppliers and customers, including potential bankruptcies; possible adverse effects of any future suspension of normal trade credit terms by our suppliers; potential impairment of long-lived assets, including goodwill; potential adjustment of the value of deferred tax assets; competitive product and pricing pressures; the amount of our debt; our ability to continue to comply with covenants in our financing agreements; our ability to access capital markets; credit ratings of our debt; the outcome of existing and any future legal proceedings, including any litigation with respect to environmental, asbestos-related, or other matters; the actual impacts of our modifications to benefits provided to certain former union employee retirees on the company's balance sheet, earnings and amount of cash payments; possible changes in accounting rules; ineffective internal controls; and other substantial costs, risks and uncertainties, including but not limited to those detailed herein and from time to time in other filings of the company with the SEC. These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise, except as otherwise required by law.
