On February 9, 2009, the reporting person terminated a prepaid variable forward sale contract that was entered into on February 26, 2008, with an unaffiliated third party buyer, for a negotiated settlement price of \$33,871,250 payable by the reporting person. The contract obligated the reporting person to deliver to the buyer up to 3,350,000 shares of Pulte Homes, Inc. ("PHM") common stock (or, at the reporting person's election, an equivalent amount of cash based on the market price of PHM common stock at that time) on the maturity date of the contract (March 4, 2009). In exchange for assuming this obligation, the reporting person received a cash payment of \$33,026,978. The reporting person pledged 3,350,000 shares of PHM common stock (the "Pledged Shares") to secure his obligations under the contract, and retained dividend and voting rights in the Pledged Shares during the term of the pledge. The contract provided that the number of shares of PHM common stock to be delivered to the buyer on the maturity date would be determined as follows: (a) if the average of the closing prices of PHM common stock on February 13, 2009, February 20, 2009 and February 27, 2009 (the "Settlement Price") would be less than or equal to \$10.1518 (the "Floor Price"), the reporting person would deliver to the buyer all of the Pledged Shares; (b) if the Settlement Price would be between the Floor Price and \$19.0128 (the "Cap Price"), the reporting person would deliver to the buyer a number of shares of PHM common stock equal to 3,350,000 shares multiplied by a fraction, the numerator of which would be the Floor Price and the denominator of which would be the Settlement Price; and (c) if the Settlement Price would be greater than the Cap Price, the reporting person would deliver to the buyer the number of shares of PHM common stock equal to 3,350,000 shares multiplied by a fraction, the numerator of which would be the Floor Price plus the excess of the Settlement Price over the Cap Price, and the denominator of which would be the Settlement Price.

## Edgar Filing: PULTE WILLIAM J - Form 4

- In a separate transaction, also on February 9, 2009, the reporting person entered into another prepaid variable forward sale contract with a different and unrelated third party buyer. This new contract obligates the reporting person to deliver to the buyer up to 4,750,000 shares of PHM common stock (or, at the reporting person's election, an equivalent amount of cash based on the market price of PHM common stock at that time) ratably over a five-day period consisting of June 9, 10, 11, 14 and 15, 2010 (each, "Maturity Date"). In exchange for assuming this obligation, the reporting person will receive a cash payment of \$42,337,803.30. The reporting person pledged 4,750,000 shares of PHM common stock (the "New Pledged Shares") to secure his obligations under the contract, and retained voting and certain dividend rights in the New Pledged Shares during the term of the pledge. The number of shares of PHM common stock to be delivered to the buyer upon the maturity of the contract is to be determined as follows: (a) with respect to each Maturity Date, if the closing price of PHM common stock on such Maturity Date (the "New Settlement Price") is less than or equal to \$9.1952 (the "New Floor Price"), the reporting person will deliver to the buyer 950,000 shares of PHM common stock (i.e., the ratable portion of the New Pledged Shares to be delivered with respect to each Maturity Date); (b) if the New Settlement Price is between the New Floor Price and \$13.9422 (the "New Cap Price"), the reporting person will deliver to the buyer a number of shares of PHM common stock equal to 950,000 shares multiplied by a fraction, the numerator of which is the New Floor Price and the denominator of which is the New Settlement Price; and (c) if the New Settlement Price is equal to or greater than the New Cap Price, the reporting person will deliver to the buyer the number of shares of PHM common stock equal to 950,000 shares multiplied by a fraction, the numerator of which is the New Floor Price plus the excess of the New Settlement Price over the New Cap Price, and the denominator of which is the New Settlement Price.
