Section 4 - Matters Related to Accountants and Financial Statements

Item 4.02 Non-Reliance on Previously Issued Financial Statements.

On November 27, 2007, the Board of Directors of Material Technologies, Inc. (the "Company") concluded that in valuing previous periods' non-cash security transactions, the Company utilized discounts to the respective share's trading prices as well as its derivative liabilities which it has determined are without foundation.

As a result of its review, the Board of Directors concluded that previously issued consolidated financial statements included in the Company's Annual Report on Form 10-KSB for the fiscal years ended December 31, 2005 and December 31, 2006, as well as all of the Company's quarterly reports on Form 10-QSB during the 2005 and 2006 fiscal years, can no longer be relied upon. In this regard, the Company will amend and restate its financial statements to eliminate all discounts and will refile its Annual Report on Form 10-KSB for the fiscal year ended December 31, 2006 and its Form 10-QSB for the quarters ended March 31, 2007 and June 30, 2007. The net effect of the restatements will be to increase the accumulated deficit at June 30, 2007 from \$100,909,477 to \$292,944,478.

The Company's management and the Board of Directors have discussed this matter with the Company's current independent registered public accounting firm.
