NEWS RELEASE

Enbridge reports first half earnings of \$314.2 million

Highlights

Adjusted operating earnings for the first half increase 10% to \$300.6 million

Adjusted operating earnings for the second quarter increase 15% to \$95.6 million

New five-year Incentive Tolling Settlement adds value for Enbridge and liquids shippers

Gateway Condensate and Southern Access open seasons advance growth initiatives

Neptune laterals project builds on recently acquired deepwater assets in the Gulf of Mexico

CALGARY, Alberta, July 28, 2005 This has been a very strong quarter with a 15% increase in adjusted operating earnings and significant progress on a number of important growth initiatives said Patrick D. Daniel, President & Chief Executive Officer of Enbridge Inc. Our earnings performance in the first six months of 2005 positions us well to meet our previously stated expectations for the year.

Mr. Daniel concluded, During the quarter we launched formal open seasons to confirm shipper support for the Gateway condensate project as well as the Southern Access expansion and extension. Enbridge is working hard on these projects and many others to address strong supply and demand fundamentals and meet the needs of our customers while ensuring we continue to deliver superior returns to our shareholders.

On July 27, 2005, the Enbridge Board of Directors declared quarterly dividends of \$0.25 per common share on a post-split basis and \$0.34375 per Series A Preferred Share. Both dividends are payable on September 1, 2005 to shareholders of record on August 15, 2005. On May 5, 2005, the Company's shareholders approved a stock split with a record date of May 20, 2005.

The Board of Directors of Enbridge announced today that Donald J. Taylor has rejoined the Board and that David A. Leslie has been appointed as a director. Mr. Taylor, the former Chair of the Board, did not stand for re-election as a director at the annual shareholders' meeting in May 2005, having reached the normal age for retirement. The Board asked that Mr. Taylor re-join the Board for an additional two years, noting the valuable advice Mr. Taylor has provided to Enbridge. Mr. Leslie, a resident of Toronto, is a chartered accountant and the former Chairman and CEO of Ernst & Young LLP.

Earnings applicable to common shareholders are \$314.2 million for the six months ended June 30, 2005, or \$0.93 per share, compared with \$360.8 million, or \$1.08 per share, in 2004. The \$46.6 million decrease in earnings is due to the previously announced change in the year-end of the gas distribution operations and the elimination of seasonal distribution rates at Enbridge Gas Distribution. These factors create a lack of comparability between periods, however a reconciliation is provided below. Other significant changes include the earnings from the recently acquired Enbridge Offshore Pipelines, lower interest expense and the absence of earnings from AltaGas, which was sold in 2004.

Earnings applicable to common shareholders are \$93.6 million for the three months ended June 30, 2005, or \$0.27 per share, compared with \$248.4 million, or \$0.74 per share, in 2004. The three-month

Table of Contents

results reflect similar factors as those for the six-month period except the change in year-end creates a larger negative variance in the second quarter. The prior year comparatives in the second quarter represent gas distribution operations for January through March, which are typically the coldest months and contribute most to earnings, whereas the current quarter gas distribution operations are April through June.

Consolidated Earnings

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Liquids Pipelines	53.6	53.7	106.6	106.3
Gas Pipelines	18.7	13.9	37.0	26.9
Sponsored Investments	14.5	14.6	32.9	30.0
Gas Distribution and Services ¹	2.9	170.9	130.7	210.4
International	20.4	21.3	38.6	37.5
Corporate	(16.5)	(26.0)	(31.6)	(50.3)
	93.6	248.4	314.2	360.8

¹ *Consolidated earnings for 2005 reflect earnings from Enbridge Gas Distribution (EGD), Noverco and Other Gas Distribution Operations on a calendar year basis for the three and six months ended June 30, 2005; whereas, earnings for 2004 reflect earnings from EGD, Noverco and Other Gas Distribution Operations on a quarter-lag basis for the three and six months ended March 31, 2004.*

Effective December 31, 2004, EGD changed its fiscal year-end for financial reporting purposes from September 30 to December 31. Accordingly, the 2004 earnings from EGD, Noverco and Other Gas Distribution Operations are not comparable to earnings for 2005. Reconciliations are provided below.

Non-GAAP Measures

This news release contains references to adjusted operating earnings, which represent earnings applicable to common shareholders adjusted for non-operating factors. This is not a measure that has a standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP) and is not considered a GAAP measure. Therefore, this measure may not be comparable to a similar measure presented by other issuers. Management believes that the presentation of adjusted operating earnings provides more useful information to investors and shareholders as it provides clearer earnings trends and increased predictive value.

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	2004	2005	2004
GAAP earnings as reported	93.6	248.4	314.2	360.8
Non-operating factors and variances as per table below	2.0	(164.9)	(13.6)	(86.8)
Adjusted Operating Earnings	95.6	83.5	300.6	274.0

Table of Contents

Significant non-operating factors and variances affecting consolidated earnings are as follows:

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Sponsored Investments				
Dilution gains on EEP unit issuance			4.6	0.9
Gas Distribution and Services				
Quarter lag earnings of EGD, Noverco and other ¹		152.3		179.4
Calendar basis earnings of EGD, Noverco and other ¹		21.7		(130.6)
Colder/(warmer) than normal weather at EGD	(2.0)	3.7	1.7	20.2
Elimination of seasonal distribution rates at EGD		(20.8)		8.3
Dilution gain in Noverco (Gaz Metro unit issuance)			7.3	
Dilution gain (AltaGas Income Trust)		8.0		8.0
Revalue future income taxes due to tax rate changes				0.6
Total significant non-operating factors and variances increasing/(decreasing) earnings	(2.0)	164.9	13.6	86.8

¹ *Effective December 31, 2004, EGD's fiscal year-end changed from September 30 to December 31 and EGD is no longer consolidated on a quarter-lag basis. In order to compare 2004 earnings to 2005, the 2004 first and second quarter earnings for EGD, Noverco and Other Gas Distribution Operations, which were for the three and six months ended March 31, 2004, have been eliminated and*

second and third quarter earnings, for the three and six months ended June 30, 2004, have been added. Other non-operating factors and variances that affected these businesses in 2004 are for the three and six months ended June 30, 2004, as was reported in the Company's third quarter results for 2004.

Significant operating factors affecting earnings in 2005 include the following:

Enbridge Offshore Pipelines, acquired December 31, 2004, contributes positive earnings.

The Aux Sable liquids extraction plant reflects an improvement over the prior year due to improved fractionation margins.

There are no earnings from AltaGas in 2005 as the investment was sold in 2004.

Corporate costs are lower primarily as a result of lower interest expense.

The Company has foreign currency denominated earnings, primarily from U.S. based operations and investments, as well as its Euro investment in CLH. The Company uses long-term net investment hedges to economically hedge a significant portion of the cash flows related to certain of these operations. However, for accounting purposes this does not eliminate the earnings volatility due to exchange rate differences and the translation of these foreign currency denominated earnings. During the first half of 2005, the Company received foreign currency denominated cash distributions and settled associated hedge transactions resulting in \$5.4 million (2004 \$2.8 million) of incremental cash flows, which is not included in reported earnings.

Table of Contents**Liquids Pipelines**

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Enbridge System	39.5	41.5	78.4	82.7
Athabasca System	11.4	10.3	23.7	21.0
NW System	1.9	2.0	3.7	3.9
Feeder Pipelines and Other	0.8	(0.1)	0.8	(1.3)
	53.6	53.7	106.6	106.3

Enbridge System earnings include a lower earnings base from the Incentive Tolling Settlement (ITS) component of the Enbridge System reflecting the terms of the ITS memorandum of understanding, recently negotiated with the Canadian Association of Petroleum Producers and filed with the National Energy Board. Also contributing to the earnings variance in the Enbridge System are increased oil losses, predominantly in the first quarter.

Increased earnings from the Athabasca System are consistent with the overall return underpinning the long-term take or pay contract with its major shipper as well as lower operating costs due to leak remediation in the prior year .

The year to date earnings variance in Feeder Pipelines and Other is the result of Federal Energy Regulatory Commission ordered reparations on the Frontier Pipeline recorded in the first quarter of 2004.

Gas Pipelines

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Alliance Pipeline (US)	8.5	9.7	16.4	18.7
Enbridge Offshore Pipelines	6.6		12.6	
Vector Pipeline	3.6	4.2	8.0	8.2
	18.7	13.9	37.0	26.9

Alliance Pipeline (US) earnings variance primarily reflects the impact of the stronger Canadian dollar in 2005.

Enbridge Offshore Pipelines was acquired on December 31, 2004 for \$754.0 million.

Vector earnings reflect the positive effect of continued growth in short haul firm transportation volumes offset by the negative impact of the stronger Canadian dollar in 2005.

Table of Contents**Sponsored Investments**

(millions of Canadian dollars)	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Enbridge Income Fund (EIF)	8.4	7.5	16.7	15.0
Enbridge Energy Partners (EEP)	6.1	7.1	11.6	14.1
Dilution Gains (EEP)			4.6	0.9
	14.5	14.6	32.9	30.0

The 2005 results from EIF include higher preferred share dividends as well as higher incentive income consistent with EIF's cash distribution increases in 2004.

EEP's 2005 results reflect various factors including lower operating earnings, a stronger Canadian dollar and a lower ownership interest.

EEP issued more partnership units in 2005 than 2004 and because Enbridge did not fully participate in these offerings, dilution gains resulted.

Gas Distribution and Services

(millions of Canadian dollars)	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Enbridge Gas Distribution ¹	(2.8)	132.4	88.3	143.9
Noverco ¹	(2.1)	15.0	19.8	28.6
CustomerWorks/ECS	6.2	4.3	12.3	9.2
Other Gas Distribution Operations ¹	1.1	4.9	5.9	6.9
Enbridge Gas New Brunswick	1.0	0.6	2.0	1.7
Gas Services	(1.0)	(0.6)	(0.1)	(1.0)
Aux Sable	0.6	(1.8)	3.8	(0.5)
AltaGas Income Trust (investment sold in 2004)		15.6		20.3
Other	(0.1)	0.5	(1.3)	1.3
	2.9	170.9	130.7	210.4

¹ Earnings for 2005 are on a calendar year basis for the three and six months ended June 30, 2005; whereas,

earnings for 2004 reflect earnings on a quarter-lag basis for the three and six months ended March 31, 2004. Effective December 31, 2004, EGD changed its fiscal year-end for financial reporting purposes from September 30 to December 31. Accordingly, the 2004 earnings from EGD, Noverco and Other Gas Distribution Operations are not comparable to earnings for 2005. Reconciliations are provided below.

Improved fractionation margins at the Aux Sable gas processing facility continue to generate positive earnings.

The variance in Other is primarily the result of business development costs related to the proposed Rabaska LNG facility.

Table of Contents

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Enbridge Gas Distribution as reported	(2.8)	132.4	88.3	143.9
Significant non-operating factors and variances:				
quarter lag earnings ¹		(132.4)		(143.9)
calendar basis earnings ²		(22.7)		109.7
warmer/(colder) than normal weather	2.0	(3.7)	(1.7)	(20.2)
elimination of seasonal distribution rates		20.8		(8.3)
	(0.8)	(5.6)	86.6	81.2

¹ *These earnings are included in Enbridge's consolidated earnings for the second quarter of 2004.*

² *These earnings are included in Enbridge's consolidated earnings for the third quarter of 2004.*

EGD's 2005 regulatory decision eliminated seasonal distribution rates, which were higher in the winter months and lower in the summer months, and replaced them with a uniform annual rate. Commencing in 2005, this shifts a portion of earnings from the winter months to the summer months. The seasonal distribution rate variance, noted in the above table, is the effect of applying the uniform rate to 2004 results and volumes.

The \$5.4 million increase in earnings at EGD, primarily during the second quarter, reflects the timing of various expenses as compared to the forecast cost of service that is included in revenues.

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Noverco as reported	(2.1)	15.0	19.8	28.6
Significant non-operating factors and variances:				
quarter lag earnings ¹		(15.0)		(28.6)
calendar basis earnings ²		(0.1)		14.9
dilution gain in Noverco (Gaz Metro unit issuance)			(7.3)	
	(2.1)	(0.1)	12.5	14.9

¹

These earnings are included in Enbridge's consolidated earnings for the second quarter of 2004.

² *These earnings are included in Enbridge's consolidated earnings for the third quarter of 2004.*

Noverco results are lower due to increased future income tax expense in the second quarter of 2005. The Company recorded a \$35 million cash dividend declared by Noverco in June as well as a \$50 million adjustment for reciprocal dividends, both of which affect the accounting base of the investment and create a net future income tax expense. The remaining \$35 million cash dividend was declared in July creating a future income tax recovery, to be recorded in the third quarter, and the full \$70 million cash dividend was received on July 4, 2005.

Table of Contents

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Other Gas Distribution Operations as reported	1.1	4.9	5.9	6.9
Significant non-operating factors and variances:

calendar basis earnings ²		1.1		6.0
	1.1	1.1	5.9	6.0

¹ *These earnings are included in Enbridge's consolidated earnings for the second quarter of 2004.*

² *These earnings are included in Enbridge's consolidated earnings for the third quarter of 2004.*

International

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
CLH	14.0	14.7	25.6	24.5
OCENSA/CITCol	8.0	8.1	16.2	15.9
Other	(1.6)	(1.5)	(3.2)	(2.9)
	20.4	21.3	38.6	37.5

The Company's international investments continue to show strong performance with no significant variances.

Corporate

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004

Corporate	(16.5)	(26.0)	(31.6)	(50.3)
-----------	--------	--------	--------	--------

The decrease in corporate costs is primarily the result of lower interest expense in 2005 and higher business development activity in 2004, particularly in the second quarter. The lower interest expense is a function of lower interest rates and lower average debt balances, including the December 2004 redemption of preferred securities with the proceeds from the AltaGas disposition.

Conference Call

Enbridge will hold a conference call on July 28, 2005 at 9:30 a.m. Eastern time (7:30 a.m. Mountain time) to discuss the second quarter 2005 results. The call can be accessed at 1-800-299-0148, pass code of 90156282, and will be audio webcast live at www.enbridge.com/investor. An audio replay will be available shortly thereafter at 1-888-286-8010 using the access code 48398044; in addition, the webcast replay and transcript will be available on the website, later in the day.

Table of Contents

The unaudited interim consolidated financial statements and MD&A, which contain additional notes and disclosures, are available on the Enbridge website.

Enbridge Inc. is a leader in energy transportation and distribution in North America and internationally. As a transporter of energy, Enbridge operates, in Canada and the United States, the world's longest crude oil and liquids pipeline system. The Company also has international operations and a growing involvement in the natural gas transmission and midstream businesses. As a distributor of energy, Enbridge owns and operates Canada's largest natural gas distribution company, which provides distribution services in the provinces of Ontario and Quebec, and in New York State; and is developing a gas distribution system for the Province of New Brunswick. The Company employs approximately 4,000 people, primarily in Canada, the United States and South America. Enbridge's common shares trade on the Toronto Stock Exchange in Canada and on the New York Stock Exchange in the United States under the symbol ENB. Information about Enbridge is available on the Company's website at www.enbridge.com. Certain information provided in this news release constitutes forward-looking statements. The words "anticipate", "expect", "project", "estimate", "forecast" and similar expressions are intended to identify such forward-looking statements. Although Enbridge believes that these statements are based on information and assumptions which are current, reasonable and complete, these statements are necessarily subject to a variety of risks and uncertainties pertaining to operating performance, regulatory parameters, weather, economic conditions and commodity prices. You can find a discussion of those risks and uncertainties in our Canadian securities filings and American SEC filings. While Enbridge makes these forward-looking statements in good faith, should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary significantly from those expected. Enbridge assumes no obligation to publicly update or revise any forward-looking statements made herein or otherwise, whether as a result of new information, future events or otherwise.

1. Financial and operating highlights of Gas Distribution and Services for 2004 reflect the results of Enbridge Gas Distribution (EGD) and other gas distribution operations on a one-quarter lag basis for the three and six months ended March 31, 2004. For 2005, as a result of EGD's change in fiscal year end from September 30 to December 31, financial and operating highlights reflect the results of EGD and other gas distribution operations for the three and six months ended June 30, 2005.
2. Liquids Pipelines operating highlights include the statistics of the 11.2% owned Lakehead System and other wholly-owned

liquid pipeline operations.

3. Gas Distribution and Services volumes and the number of active customers are derived from the aggregate system supply and direct purchase gas supply arrangements.
4. Degree-day deficiency is a measure of coldness. It is calculated by accumulating for each day in the period the total number of degrees each day by which the daily mean temperature falls below 18 degrees Celsius. The figures given are those accumulated in the Toronto area.

Enbridge Inc.
Management's Discussion & Analysis
For the Three and Six Months Ended June 30, 2005
Dated July 27, 2005

This Management's Discussion and Analysis should be read in conjunction with the unaudited interim consolidated financial statements of Enbridge Inc. as at and for the three and six months ended June 30, 2005.

Consolidated Earnings

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Liquids Pipelines	53.6	53.7	106.6	106.3
Gas Pipelines	18.7	13.9	37.0	26.9
Sponsored Investments	14.5	14.6	32.9	30.0
Gas Distribution and Services ¹	2.9	170.9	130.7	210.4
International	20.4	21.3	38.6	37.5
Corporate	(16.5)	(26.0)	(31.6)	(50.3)
	93.6	248.4	314.2	360.8

¹ Consolidated earnings for 2005 reflect earnings from Enbridge Gas Distribution (EGD), Noverco and Other Gas Distribution Operations on a calendar year basis for the three and six months ended June 30, 2005; whereas, earnings for 2004 reflect earnings from EGD, Noverco and Other Gas Distribution Operations on a quarter lag basis for the three and

six months
ended
March 31, 2004.
Effective
December 31,
2004, EGD
changed its
fiscal year-end
for financial
reporting
purposes from
September 30 to
December 31.
Accordingly,
the 2004
earnings from
EGD, Noverco
and Other Gas
Distribution
Operations are
not comparable
to earnings for
2005.
Reconciliations
are provided
below.

Earnings applicable to common shareholders are \$314.2 million for the six months ended June 30, 2005, or \$0.93 per share, compared with \$360.8 million, or \$1.08 per share, in 2004. The \$46.6 million decrease in earnings is due to the previously announced change in the year-end of the gas distribution operations and the elimination of seasonal distribution rates at EGD. These factors create a lack of comparability between periods, however a reconciliation is provided below. Other significant changes include the earnings from the recently acquired Enbridge Offshore Pipelines, lower interest expense and the absence of earnings from AltaGas, which was sold in 2004.

Earnings applicable to common shareholders are \$93.6 million for the three months ended June 30, 2005, or \$0.27 per share, compared with \$248.4 million, or \$0.74 per share, in 2004. The three-month results reflect similar factors as those for the six-month period except that the change in year-end creates a larger negative variance in the second quarter. The prior year comparatives in the second quarter represent gas distribution operations for January through March, which are typically the coldest months and contribute most to earnings, whereas the current quarter gas distribution operations are April through June.

Certain information provided in this Management's Discussion and Analysis (MD&A) constitutes forward-looking statements. The words anticipate, expect, project, estimate, forecast and similar expressions are intended to identify such forward-looking statements. Although Enbridge believes that these statements are based on information and assumptions, which are current, reasonable and complete, these statements are necessarily subject to a variety of risks and uncertainties pertaining to operating performance, regulatory parameters, weather, economic conditions and commodity prices. You can find a discussion of those risks and uncertainties in our

Table of Contents

Canadian securities filings and American SEC filings. While Enbridge makes these forward-looking statements in good faith, should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary significantly from those expected. Enbridge assumes no obligation to publicly update or revise any forward-looking statements made herein or otherwise, whether as a result of new information, future events or otherwise.

Significant non-operating factors and variances affecting consolidated earnings are as follows:

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Sponsored Investments				
Dilution gains on the issue of EEP units			4.6	0.9
Gas Distribution and Services				
Quarter lag earnings for EGD and others ¹		152.3		179.4
Calendar basis earnings for EGD and others ¹		21.7		(130.6)
Colder/(warmer) than normal weather at EGD	(2.0)	3.7	1.7	20.2
Elimination of seasonal distribution rates at EGD		(20.8)		8.3
Dilution gain in Noverco (Gaz Metro unit issuance)			7.3	
Dilution gain, AltaGas Income Trust		8.0		8.0
Revalue future income taxes due to tax rate changes				0.6
Total significant non-operating factors and variances increasing/(decreasing) earnings	(2.0)	164.9	13.6	86.8

¹ Effective December 31, 2004, EGD's fiscal year-end changed from September 30 to December 31 and EGD is no longer consolidated on a quarter lag basis. In order to compare 2004 earnings to 2005, the 2004 first and second quarter earnings for EGD, Noverco and Other Gas Distribution Operations,

which were for the three and six months ended March 31, 2004, have been eliminated and second and third quarter earnings, for the three and six months ended June 30, 2004, have been added. Other non-operating factors and variances that affected these businesses in 2004 are for the three and six months ended June 30, 2004, as was reported in the Company's third quarter results for 2004.

Significant operating factors affecting earnings in 2005 include the following:

Enbridge Offshore Pipelines, acquired December 31, 2004, contributes positive earnings.

The Aux Sable liquids extraction plant reflects an improvement over the prior year due to improved fractionation margins.

There are no earnings from AltaGas in 2005 as the investment was sold in 2004.

Corporate costs are lower primarily as a result of lower interest expense.

The Company has foreign currency denominated earnings, primarily from U.S. based operations and investments, as well as its Euro investment in CLH. The Company uses long-term net investment hedges to economically hedge a significant portion of the cash flows related to certain of these operations. However, for accounting purposes, this does not eliminate the earnings volatility due to exchange rate differences and the translation of these foreign currency denominated earnings. During the first half of 2005, the Company received foreign currency denominated cash distributions and settled associated hedge transactions resulting in \$5.4 million (2004 \$2.8 million) of incremental cash flows, which is not included in reported earnings.

Table of Contents

RECENT DEVELOPMENTS

Incentive Tolling Settlement

On June 23, 2005, Enbridge and the Canadian Association of Petroleum Producers (CAPP) approved a Memorandum of Understanding (MOU) setting out the key terms of a new incentive tolling settlement (ITS). The new ITS will be effective for January 1, 2005 to December 31, 2009 and defines the methodology for calculating tolls on the core component of the Enbridge Mainline System in Canada. The ITS excludes Line 8, Line 9, and the SEP I, SEP II and Terrace expansions, which have separate tolling arrangements.

Under the new ITS, earnings will be based on a revenue requirement calculated in reference to the 2004 revenue requirement, adjusted annually for inflation. The costs of income taxes and power will be born by shippers with Enbridge guaranteeing \$5 million in power savings and sharing in any power savings beyond the guaranteed amount. The revenue requirement will also include an \$18 million annual pipeline integrity allowance and half of the operating costs associated with the service metrics, described below. The revenue requirement will be adjusted for certain events qualifying as non-routine adjustments. The new ITS continues the throughput protection provisions of the previous ITS, ensuring the Company is insulated from negative volume fluctuations beyond its control.

The new ITS will provide Enbridge with the opportunity to increase earnings by achieving performance targets under new service metrics and reliability metric provisions. The service metrics establish financial bonuses and penalties for prescribed performance targets related to crude oil quality management and predictability of scheduled deliveries to a maximum of \$10 million after tax in 2005, escalating to \$15 million in each of 2006 and 2007, and to \$20 million in each of 2008 and 2009. The reliability metric provides for bonuses and penalties associated with optimization of system capacity, which are calculated relative to an annual target capacity baseline. If the Company's performance is below the target, it is charged a penalty of \$200,000 after tax per percentage point for each month that performance is below the target. If the Company's performance exceeds the target, it earns \$500,000 per percentage point for each month that performance is above the target. Practical constraints around pipeline capacity would limit the bonus for the reliability metric to approximately \$12 million.

The Company has filed interim tolls reflecting the terms of the MOU with the National Energy Board.

Gateway Condensate Import Pipeline

As part of the Gateway Project, Enbridge plans to build a condensate import pipeline from Canada's west coast to Edmonton, Alberta, which would provide transportation for offshore condensate supply. The condensate import pipeline is expected to cost approximately \$1.7 billion on a stand-alone basis. Enbridge is conducting a two-phase Open Season from July 2005 to September 2005 to confirm shipper support for the condensate import pipeline.

The Gateway Project also includes a crude oil export pipeline, which would transport crude oil from Edmonton, Alberta to the Canadian west coast. The crude oil export pipeline is expected to cost approximately \$2.5 billion on a stand-alone basis and, if both parts of the project proceed together, total savings of approximately \$600 million could be realized. A separate Open Season for the crude oil export pipeline will be held later in 2005.

The decision to proceed with either pipeline is subject to commercial considerations, including satisfactory shipper commitments, as well as successful completion of engineering, environmental planning and public and Aboriginal consultation. If the Project proceeds, construction could begin as early as 2008 with a target in-service date of second quarter 2010.

Table of Contents**Southern Access Mainline Expansion and Extension Program**

The Company and Enbridge Energy Partners (EEP) are planning an expansion of the Enbridge Mainline System from Hardisty, Alberta to Chicago, Illinois, and a possible new extension from the Chicago area to hubs at Wood River and Patoka, Illinois. Enbridge would undertake the extension and the Canadian portion of the expansion and EEP, Enbridge's 11.2%-owned equity investment, would undertake the U.S. expansion. The expansion would consist of three separate phases that would add a total of 400,000 barrels per day (bpd) of capacity. The extension would involve the construction of a new 30-inch diameter, 300,000 bpd pipeline. The cost of the expansion would be approximately US\$135 million to Enbridge and approximately US\$880 million to EEP. The cost of the extension would be approximately US\$320 million to Enbridge and, if the extension and expansion were completed as a single project, cost savings of approximately US\$120 million could be realized.

Enbridge and EEP are conducting an Open Season to confirm shipper support. Assuming all necessary approvals and other contingencies are satisfied, the complete program could be in service as early as the first quarter of 2009.

Neptune Lateral Project

The Company plans to construct and operate both a natural gas lateral and a crude oil lateral to connect the deepwater Neptune oil and gas field to existing Gulf pipelines. The laterals are expected to cost approximately US\$100 million and will have the capacity to deliver in excess of 200 million cubic feet of gas per day and approximately 50,000 bpd of oil. The laterals represent an extension of Enbridge's existing Gulf of Mexico infrastructure. Connection of the Neptune oil and gas laterals to the producer-owned production facility is scheduled for the second quarter of 2007 with first production expected by year-end 2007.

Spearhead Pipeline

Effective June 1, 2005, the Company acquired the final 10% of the Spearhead Pipeline for US\$12.4 million, increasing its ownership to 100%. The Company expects to have the line in service during the first quarter of 2006.

Two-for-One Stock Split

A two-for-one stock split was approved by shareholders at the May 5, 2005 Annual and Special Meeting. After the stock split, the number of outstanding shares doubled from approximately 174 million to approximately 348 million. Enbridge's last stock split occurred in 1999. All references to shares and per share amounts in this report incorporate the effect of the stock split.

2006 Rate Application

On March 18, 2005, EGD filed an application with the Ontario Energy Board for approval of the 2006 rates, under cost of service. The key elements of the application are summarized below:

Regulatory year ending December 31,	Requested for 2006
Rate base (millions)	\$ 3,596.2
Rate of return on rate base	8.33%
Deemed common equity for regulatory purposes	35.00%
Rate of return on common equity	10.11%

Gas Distribution Access Rule (GDAR)

The GDAR, developed by the Ontario Energy Board (OEB), mandates that distributors, including Enbridge Gas Distribution (EGD), provide gas marketers with the option to consolidate the gas distribution charges to consumers on the marketers' own bill, forcing the distributor to appoint the marketer as its billing agent. EGD would have to undertake extensive system changes and negotiate new contractual arrangements in order to effect the GDAR directives.

Table of Contents

On January 11, 2005, the Ontario Court of Appeal dismissed an appeal, by EGD and Union Gas Limited, of the vendor consolidated billing aspects of the GDAR and upheld the OEB's authority to enact these aspects of the GDAR. EGD elected not to appeal the Court of Appeal's decision and has advised the OEB that it is prepared to implement the transactional aspects of the GDAR. On May 9, 2005, the OEB issued a decision on GDAR, which outlined a process to ensure that GDAR is operational by 2006. The decision outlined a number of individual stakeholder sessions to be held in the summer/fall of 2005. Through these sessions, the detailed operational rules will be determined which will allow EDG and Union Gas to change their billing systems to adhere to GDAR.

Should marketers elect to consolidate distribution charges on their own bill, the Company may lose some of the revenue it earns by providing billing services; however, this is not expected to have a material impact on earnings.

Oil Sands Projects

During the first quarter of 2005, the Company entered into definitive agreements with Nexen Inc. and OPTI Canada Inc. (the Long Lake Shippers) to provide pipeline transportation services for the Long Lake oil sands project.

Under the terms of the agreement, Enbridge will construct, own and operate the pipeline and tank facilities required by the Long Lake Project, pipeline laterals and tank facilities at a proposed terminal on the Athabasca Pipeline, near Cheecham. The estimated cost of these facilities is \$40 - \$45 million with a planned availability for service date in late 2006. Enbridge's 545-km Athabasca Pipeline will also require capacity expansion from the Cheecham-area terminal to its mainline terminal at Hardisty, Alberta.

The agreements provide for an initial contract volume of up to 60,000 barrels per day of crude oil with provisions for increases to the contract volume. The agreement covering the dedicated Long Lake lateral facilities is for a term of 25 years and the agreement for service on the Athabasca Pipeline is for a 50-month term with extension provisions. The agreements also provide flexibility for the Long Lake Shippers to use a proposed new pipeline – the Waupisoo Pipeline – to move crude oil from the Cheecham terminal to Edmonton.

FINANCIAL RESULTS**Liquids Pipelines****Earnings**

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Enbridge System	39.5	41.5	78.4	82.7
Athabasca System	11.4	10.3	23.7	21.0
NW System	1.9	2.0	3.7	3.9
Feeder Pipelines and Other	0.8	(0.1)	0.8	(1.3)
	53.6	53.7	106.6	106.3

Earnings are \$106.6 million for the six months ended June 30, 2005, consistent with the same period in the prior year. The decrease in earnings from the Enbridge System was more than offset by increases in Frontier Pipeline earnings, which are included in Feeder Pipelines and Other, and Athabasca System earnings.

Table of Contents

Enbridge System earnings include a lower earnings base from the ITS component of Enbridge System reflecting the terms of the ITS MOU, recently negotiated with CAPP and to be filed with the National Energy Board. Also contributing to the earnings variance in the Enbridge System are increased oil losses, predominantly in the first quarter.

Increased earnings from the Athabasca System are consistent with the overall return underpinning the long-term take or pay contract with its major shipper, as well as lower operating costs due to leak remediation in the prior year. The year to date earnings variance in Feeder Pipelines and Other is the result of Federal Energy Regulatory Commission ordered reparations on the Frontier Pipeline recorded in the first quarter of 2004.

For the three months ended June 30, 2005, earnings are consistent with the prior year and reflect similar offsetting factors as the six-month results.

Gas Pipelines**Earnings**

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Alliance Pipeline (US)	8.5	9.7	16.4	18.7
Enbridge Offshore Pipelines	6.6		12.6	
Vector Pipeline	3.6	4.2	8.0	8.2
	18.7	13.9	37.0	26.9

Earnings are \$37.0 million for the six months ended June 30, 2005, compared with \$26.9 million for the six months ended June 30, 2004. The increase is due to the inclusion of Enbridge Offshore Pipelines, which was acquired on December 31, 2004 for \$754.0 million.

The Alliance Pipeline (US) earnings variance primarily reflects the impact of the stronger Canadian dollar in 2005. Vector Pipeline earnings reflect the positive effect of continued growth in short haul firm transportation volumes offset by the negative impact of the stronger Canadian dollar in 2005.

Earnings are \$18.7 million for the second quarter of 2005, compared with \$13.9 million for the same period of 2004. Second quarter earnings in 2005 reflect the inclusion of Enbridge Offshore Pipelines partially offset by the impact of the stronger Canadian dollar on Alliance Pipeline (US) and Vector Pipeline.

Table of Contents**Sponsored Investments****Earnings**

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Enbridge Income Fund (EIF)	8.4	7.5	16.7	15.0
Enbridge Energy Partners (EEP)	6.1	7.1	11.6	14.1
Dilution Gains (EEP)			4.6	0.9
	14.5	14.6	32.9	30.0

Earnings for the six months ended June 30, 2005 are \$32.9 million compared with \$30.0 million in the same period of 2004. The variance reflects higher earnings from EIF and a larger dilution gain in 2005, offset by lower earnings from EEP.

The 2005 results from EIF include higher preferred share dividends, as well as higher incentive income, consistent with EIF's cash distribution increases in 2004.

EEP's 2005 results reflect a number of factors including lower operating earnings, a stronger Canadian dollar and a lower ownership interest.

In the first quarter of each year, EEP issued additional common units and, as Enbridge did not participate in these offerings, dilution gains resulted.

For the three months ended June 30, 2005, earnings are \$14.5 million compared with \$14.6 million for the same period in 2004, reflecting lower earnings in EEP offset by higher earnings from EIF, similar to the six-month period.

Gas Distribution and Services**Earnings**

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended

	2.9	170.9	130.7	210.4

¹ Earnings for 2005 are on a calendar year

basis for the three and six months ended June 30, 2005, whereas earnings for 2004 reflect earnings on a quarter lag basis for the three and six months ended March 31, 2004. Effective December 31, 2004, EGD changed its fiscal year-end for financial reporting purposes from September 30 to December 31. Accordingly, the 2004 earnings from EGD, Noverco and Other Gas Distribution Operations are not comparable to earnings for 2005.

- 7 -

Table of Contents

Earnings are \$130.7 million for the six months ended June 30, 2005 compared with \$210.4 million for the six months ended June 30, 2004. The earnings variance reflects the change from quarter lag consolidation to calendar year consolidation for EGD, Noverco and Other Gas Distribution Operations. Reconciliations are provided below.

Earnings for the three months ended June 30, 2005 primarily reflect the change from quarter lag consolidation to calendar year consolidation for EGD, Noverco and Other Gas Distribution Operations. This variance is most pronounced in the three months ended June 30 because the prior year comparatives represent the results for January through March. These months are typically the coldest of the year and contribute the most to earnings.

At the Aux Sable gas processing facility, improved fractionation margins continue to generate positive earnings. The variance in Other is primarily the result of business development costs related to the proposed Rabaska LNG facility.

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Enbridge Gas Distribution as reported	(2.8)	132.4	88.3	143.9
Significant non-operating factors and variances:				
quarter lag earnings ¹		(132.4)		(143.9)
calendar basis earnings ²		(22.7)		109.7
warmer/(colder) than normal weather	2.0	(3.7)	(1.7)	(20.2)
elimination of seasonal distribution rates		20.8		(8.3)
	(0.8)	(5.6)	86.6	81.2

¹ These earnings are included in Enbridge's consolidated earnings for the second quarter of 2004.

² These earnings are included in Enbridge's consolidated earnings for the third quarter of 2004.

EGD's 2005 regulatory decision eliminated seasonal distribution rates, which were higher in the winter months and lower in the summer months, and replaced them with a uniform annual rate. Commencing in 2005, this shifts a portion of earnings from the winter months to the summer months. The seasonal distribution rate variance, noted in the table above, is the effect of applying the uniform rate to 2004 results and volumes.

The \$5.4 million increase in earnings at EGD, primarily during the second quarter, reflects the timing of various expenses as compared to the forecast cost of service that is included in revenues.

Table of Contents

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Noverco as reported	(2.1)	15.0	19.8	28.6
Significant non-operating factors and variances:				
quarter lag earnings ¹		(15.0)		(28.6)
calendar basis earnings ²		(0.1)		14.9
dilution gain in Noverco (Gaz Metro unit issuance)			(7.3)	
	(2.1)	(0.1)	12.5	14.9

¹ These earnings are included in Enbridge's consolidated earnings for the second quarter of 2004.

² These earnings are included in Enbridge's consolidated earnings for the third quarter of 2004.

Noverco results are lower due to increased future income tax expense in the second quarter of 2005. The Company recorded a \$35 million cash dividend declared by Noverco in June as well as a \$50 million adjustment for reciprocal dividends, both of which affect the accounting base of the investment and create a net future income tax expense. The remaining \$35 million dividend was declared in July creating a future income tax recovery, which will be recorded in the third quarter. The full \$70 million cash dividend was received on July 4, 2005.

International

Earnings

<i>(millions of Canadian dollars)</i>	Three months ended June 30,		Six months ended June 30,	
	2005	2004	2005	2004
CLH	14.0	14.7	25.6	24.5
OCENSA/CITCoI	8.0	8.1	16.2	15.9
Other	(1.6)	(1.5)	(3.2)	(2.9)
	20.4	21.3	38.6	37.5

Earnings for the six months ended June 30, 2005 are \$38.6 million, an increase of \$1.1 million for the same period in 2004. The increase is attributable to increased earnings from CLH and

- 9 -

Table of Contents

OCENSA/CITCol. These investments continue to show strong performance with no significant variances from the prior year.

For the three months ended June 30, 2005, there is no significant change in earnings from the same period in the prior year.

Corporate**Costs**

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	June 30, 2004	2005	June 30, 2004
Corporate	(16.5)	(26.0)	(31.6)	(50.3)

Corporate costs total \$31.6 million for six months ended June 30, 2005, a decrease of \$18.7 million from the same period in 2004. The decrease is primarily the result of lower interest expense in 2005 and higher business development activity in 2004, particularly in the second quarter. The lower interest expense is a function of lower interest rates and lower average debt balances, including the December 2004 redemption of preferred securities with the proceeds from the AltaGas disposition.

LIQUIDITY AND CAPITAL RESOURCES

The Company expects to generate sufficient cash from operations to fund budgeted investing activity and common share dividends throughout the remainder of 2005. Additional liquidity, if necessary, is available under committed credit facilities or through access to the capital markets.

Consolidated cash flows for 2005 reflect cash flows from EGD, Noverco and Other Gas Distribution Operations on a calendar year basis for the three and six months ended June 30, 2005, whereas cash flows for 2004 reflect cash flows from EGD, Noverco and Other Gas Distribution Operations for the three and six months ended March 31, 2004.

Effective December 31, 2004, EGD changed its fiscal year-end for financial reporting purposes from September 30 to December 31. Accordingly, the 2004 cash flows from EGD, Noverco and Other Gas Distribution Operations are not comparable to cash flows for 2005.

Commencing January 1, 2005, Enbridge consolidates the accounts of EIF. This change in accounting policy results in non-cash increases in many of the Company's asset and liability accounts.

Operating Activities

Cash from operations for the six months ended June 30, 2005, is \$1,021.2 million and reflects an increase of \$129.2 million from the same period in the prior year. Before changes in operating assets and liabilities, cash from operations increased \$56.9 million. Although earnings are lower, the non-cash portion is higher resulting in more cash from earnings. Changes in operating assets and liabilities increased \$72.3 million from the six months ended June 30, 2004 primarily due to changes in working capital at EGD, which fluctuates seasonally. Due to the elimination of the quarter lag basis of consolidation described above, these amounts are not comparable.

For the three months ended June 30, 2005, cash from operating activities was \$351.6 million, a decrease of \$348.3 million from the same period in the prior year. The decrease results mainly from changes in operating assets and liabilities in EGD. The periods are not comparable due to the elimination of the quarter lag basis of accounting, which is most pronounced in the second quarter.

Table of Contents

Investing Activities

Cash used for investing activities during the six months ended June 30, 2005 is \$320.3 million and \$147.5 million for the three months ended June 30, 2005 compared to \$190.9 million and \$94.5 million for the six and three months ended June 30, 2004, respectively. The increases reflect the acquisitions of U.S. Oil and the remaining 20% of Garden Banks in the first quarter of 2005 and the acquisition of the remaining 10% of the Spearhead Pipeline during the second quarter of 2005. In the first quarter of 2005, the Company paid a deferred acquisition cost that was contingent on CLH meeting certain target volumes.

Financing Activities

The Company's debt to capitalization ratio was 62.1% compared with 65.1% on December 31, 2004, continuing the Company's trend of debt repayment.

Financing activities during the six months ended June 30, 2005 resulted in a use of cash of \$670.0 million compared to \$700.8 million in the six months ended June 30, 2004. The Company used the proceeds of long-term debt issuances to repay short-term debt during the first quarter of 2005.

During the three months ended June 30, 2005, financing activities resulted in a use of \$228.0 million compared to \$609.6 million in the comparable period in 2004. The Company repaid \$100 million long-term debt that matured in the second quarter of 2005. In the second quarter of 2004, there were higher repayments of short-term borrowings in EGD, which uses short-term borrowings to finance gas in storage. In 2004, repayments were higher, commensurate with the periods represented in the quarter lag basis of accounting, which was eliminated in 2005.

CHANGE IN ACCOUNTING POLICIES

Consolidation of Variable Interest Entities

Effective January 1, 2005 the Company adopted the new CICA accounting guideline for Consolidation of Variable Interest Entities. This new guideline requires the primary beneficiary of a variable interest entity's activities to consolidate the variable interest entity.

The Company has a 41.9% equity interest in Enbridge Income Fund (EIF), as well as a preferred unit investment that has no voting rights and a 30-year maturity. The preferred units earn a return that is equivalent to the per unit cash distributions earned by equity unit holders and are classified as a liability in EIF's financial statements.

The Company is the primary beneficiary of EIF through a combination of the 41.9% equity interest and the preferred unit interest. The adoption of this guideline results in the inclusion of 100% of EIF's financial statement balances in the Company's financial statements but does not affect earnings.

Hedges, Financial Instruments Recognition and Measurement and Comprehensive Income

New accounting standards will be in effect for fiscal years beginning on or after October 1, 2006 for hedge accounting, recognition and measurement of financial instruments and disclosure of comprehensive income. The Company is currently investigating the impact of these new standards.

Revenue fluctuates primarily due to the seasonality of the Company's gas distribution business (EGD). Prior to October 1, 2004, this business had a September 30 year-end, which resulted in consolidation by the Company on a quarter lag basis. Peak revenues were recorded in the Company's second quarter, which represented EGD's winter months. EGD has changed to a December 31 year-end and, as a result, the Company's consolidated fourth quarter results for 2004 included the results of EGD for the six months ended December 31, 2004. EGD's winter months are now consolidated in the Company's first quarter earnings.

Effective October 1, 2004, EGD's seasonal rates have been replaced with a uniform annual rate. This change results in lower earnings in the winter months, offset by higher earnings in the summer months, causing a shift in earnings between quarters but no earnings impact on a 12 consecutive month basis.

Significant items which impact the quarterly earnings are as follows:

Fourth quarter earnings in 2003 include an \$11.1 million dilution gain on an EEP unit issuance, and a \$6.0 million dilution gain related to Noverco. Offsetting the gain is a \$26.0 million write-down of a regulatory receivable and a \$4.6 million regulatory decision on outsourcing, both in the Company's gas distribution business.

First quarter earnings in 2004 reflect a \$47.6 million charge to earnings resulting from an increase in the Ontario tax rate and corresponding revaluation of future income taxes, as well as unbilled revenue of \$35.0 million consistent with a change in the estimation process in 2004, both within EGD.

Second quarter earnings in 2004 reflect the \$9.4 million partial reversal of the \$35.0 million of unbilled revenue recorded in the first quarter of 2004 and a dilution gain of \$8.0 million related to AltaGas.

Third quarter earnings in 2004 include a \$97.8 million gain on the sale of the Company's investment in AltaGas and the remaining reversal of \$25.6 million related to unbilled revenue.

Fourth quarter earnings in 2004 include the additional fifth quarter for EGD and other gas distribution businesses that account for an increase of \$57.2 million. This was partially offset by an impairment loss of \$8.2 million on the Calmar gas plant.

First quarter earnings in 2005 include dilution gains in EEP and within Noverco totaling \$11.9 million.

1. Financial and operating highlights of Gas Distribution and Services for 2004 reflect the results of Enbridge Gas Distribution (EGD) and other gas distribution operations on a one-quarter lag basis for the three and six months ended March 31, 2004. For 2005, as a result of EGD's change in fiscal year end from September 30 to December 31, financial and operating highlights reflect the results of EGD and other gas distribution operations for the three and six months ended June 30, 2005.
2. Liquids Pipelines operating highlights include the statistics of the 11.2% owned Lakehead System and other wholly-owned liquid pipeline

operations.

3. Gas Distribution and Services volumes and the number of active customers are derived from the aggregate system supply and direct purchase gas supply arrangements.
4. Degree-day deficiency is a measure of coldness. It is calculated by accumulating for each day in the period the total number of degrees each day by which the daily mean temperature falls below 18 degrees Celsius. The figures given are those accumulated in the Toronto area.

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles and should be read in conjunction with the consolidated financial statements and notes thereto included in Enbridge Inc.'s 2004 Annual Report. These accounting principles are different in some respects from United States generally accepted accounting principles and the significant differences that impact the Company's financial statements are described in Note 7. These interim financial statements follow the same significant accounting policies and methods of application as those included in the 2004 Annual Report except as described in Note 1.

Earnings for interim periods may not be indicative of results for the fiscal year due to weather and other factors. Certain reclassifications have been made to the prior period financial statements to conform to the current year's presentation.

1. SIGNIFICANT ACCOUNTING POLICIES

Consolidation of Variable Interest Entities

Effective January 1, 2005 the Company adopted, without restatement of prior periods, the new CICA accounting guideline for Consolidation of Variable Interest Entities (AcG 15). This new standard requires the primary beneficiary of a variable interest entity's activities to consolidate the variable interest entity.

The Company has a 41.9% equity interest in Enbridge Income Fund (EIF), as well as a preferred unit investment that has no voting rights, a stated par value and a 30-year maturity. The preferred units earn a return that is equivalent to the cash distributions per unit to the equity unit holders and are classified as a liability in EIF's financial statements. The Company is the primary beneficiary of EIF through a combination of the 41.9% equity interest and the preferred unit interest.

Table of Contents

Consolidating EIF had the following impact on the financial statements:

Statement of Financial Position (millions of Canadian dollars)	June 30, 2005
Assets	
Cash	12.1

Table of Contents*Preferred Securities*

Effective December 31, 2004, the Company early adopted amendments to the CICA Standard on the disclosure and presentation of financial instruments. The amendments require the Company's preferred securities to be classified wholly as debt. The amendments were adopted retroactively and have resulted in the restatement of certain comparative amounts. For the three and six months ended June 30, 2004, interest expense increased \$10.3 million and \$20.7 million, income taxes decreased \$3.4 million and \$6.8 million and preferred security distributions of \$6.9 million and \$13.9 million were eliminated.

1.

Gas Distribution and Services results for 2004 were consolidated on a one-quarter-lag basis and therefore reflect the three and six month periods ended March 31, 2004. Starting at the end of 2004, EGD changed its fiscal year end from September 30 to December 31. Therefore, the quarter lag basis of consolidation was eliminated. Gas Distribution and Services results for 2005 reflect the three and six month periods ended June 30, 2005.

3. ACQUISITIONS AND LONG-TERM INVESTMENTS

U.S. Oil

On January 6, 2005, the Company acquired the industrial gas sales business of U.S. Oil Co. Inc. The purchase price included \$30.0 million for goodwill and intangibles.

Garden Banks

On March 22, 2005 the Company acquired the remaining 20% of Garden Banks Gas Pipeline, a business included in Enbridge Offshore Pipelines.

Spearhead Pipeline

On June 1, 2005, the Company acquired the remaining 10% of CCPS Transportation L.L.C., owner of the Spearhead Pipeline (formerly known as the Cushing to Chicago Pipeline System).

Noverco

During the period ended June 30, 2005, a special dividend of \$35.3 million was declared by Noverco, an equity investee. This special dividend was received on July 4, 2005, concurrent with the declaration

Table of Contents

and receipt of a second special dividend of a further \$35.3 million. On June 30, 2005, the equity investment balance was reduced by \$35.3 million to reflect the impact of the first special dividend on the accounts of the Company. On June 30, 2005, the Company reclassified \$51.2 million in dividends paid to Noverco. The reclassification increases equity investments and retained earnings by \$51.2 million and represents the reciprocal portion of dividends paid to Noverco from September 1, 1997 to December 31, 2004. The reciprocal shareholding results in a portion of the dividends paid to Noverco effectively being dividends paid to the Company.

4. STOCK SPLIT

On May 5, 2005, shareholders approved a two-for-one split of the common shares of the Company. All references to earnings per common share, diluted earnings per common share, stock options and performance stock units have been retroactively restated to reflect the impact of the stock split.

5. STOCK-BASED COMPENSATION

During the six months ended June 30, 2005, 1.5 million (2004 1.8 million) fixed stock options were issued at a weighted average exercise price of \$31.68 (2004 \$25.72). The weighted average grant-date fair value of the fixed stock options granted during the six months ended June 30, 2005 was \$5.30 (2004 \$3.85) for each option granted. Outstanding stock options expire over a period no later than June 16, 2015. The Company has applied the fair-value based method of accounting for stock options granted after January 1, 2003. Under this method, earnings include a compensation charge representing the fair value of options granted in years 2003 through 2005 amortized over the vesting period, with a corresponding increase to contributed surplus.

In addition, the Company granted 130,130 Performance Stock Units (PSUs) (2004 65,950) to the Company's senior officers during the six months ended June 30, 2005. The PSUs granted in 2005 mature January 1, 2008. Compensation costs for PSUs are accounted for over the three-year period on a mark-to-market basis, whereby a liability and expense are recorded based upon the number of PSUs outstanding, the current market price of the Company's stock, and the Company's performance relative to the specified peer group.

If the Company had used the fair-value based method to account for fixed stock options and performance-based options granted in fiscal 2002, earnings and earnings per share would have been as follows.

- 22 -

Table of Contents

<i>(millions of Canadian dollars, except per share amounts)</i>	Three months ended		Six months ended	
	2005	2004	2005	2004
Earnings applicable to common shareholders As reported	93.6	248.4	314.2	360.8
Total stock-based compensation expense ¹	(3.2)	(2.2)	(5.9)	(4.0)
Included as an expense in the statement of earnings ²	2.2	1.2	3.9	2.0
Pro forma earnings	92.6	247.4	312.2	358.8
Earnings per share				
As reported	0.27	0.74	0.93	1.08
Pro forma	0.27	0.73	0.93	1.07
Diluted earnings per share				
As reported	0.27	0.73	0.92	1.07
Pro forma	0.27	0.73	0.92	1.07
1. Total stock-based compensation expense if the fair-value based method to expense all outstanding stock options had been applied since January 1, 2002.				
2. Stock-based compensation recognized as an expense in the statement of earnings for options and performance stock units granted in 2003 through 2005 as a result of the adoption of the				

fair-value based
method on
January 1, 2003.

3. The Black-Scholes model was used to calculate the fair-value of the fixed stock options. Significant assumptions include a risk-free interest rate of 4.4% (2004 4.8%), expected volatility of 16% (2004 15%), an expected life of 8 years (2004 8 years) and an expected dividend yield of 3.17% (2004 3.54%).

6. POST-EMPLOYMENT BENEFITS

Pension Plans

The Company has three pension plans, which provide either defined benefit or defined contribution pension benefits, or both, for employees of the Company. The Liquids Pipelines and Gas Distribution and Services pension plans provide non-contributory defined pension benefits and/or defined contribution benefits to Canadian employees of Enbridge. The Enbridge U.S. pension plan provides a non-contributory defined benefit pension plan to U.S. employees of Enbridge. The Company also provides post-employment benefits other than pensions (OPEB) for qualifying retired employees. Costs recognized in the period are presented below.

Net Pension and OPEB Costs Recognized

<i>(millions of Canadian dollars)</i>	Three months ended		Six months ended	
	2005	2004	2005	2004
Benefits earned during the period	8.1	7.4	16.2	14.7
Interest cost on projected benefit obligations	15.9	14.9	31.7	29.5
Expected return on plan assets	(18.9)	(17.8)	(37.8)	(35.5)
Amortization and deferral of unrecognized amounts	3.0	3.7	6.2	7.6
Amount charged to Enbridge Energy Partners L.P.	(2.6)	(2.3)	(5.1)	(4.5)
Pension and OPEB costs recognized	5.5	5.9	11.2	11.8

The above reflects the pension and OPEB cost for all of the Company's benefit plans on an accrual basis. However, in accordance with its ability to recover employee benefit costs on a pay-as-you-go basis for the regulated operations of Gas Distribution and Services, the Company records the cost of such benefits on a cash basis. Using the cash basis for the Gas Distribution and Services plans and

Table of Contents

the accrual method for other plans, the Company's pension and OPEB costs are \$8.8 million for the six month period ended June 30, 2005 (2004 \$8.1 million) and \$4.3 million for the three month period ended June 30, 2005 (2004 \$4.1 million).

7. UNITED STATES ACCOUNTING PRINCIPLES

These consolidated financial statements have been prepared in accordance with Canadian GAAP. The effects of significant differences between Canadian GAAP and U.S. GAAP for the Company are described below.

Earnings and Comprehensive Income

<i>(millions of dollars except per share amounts)</i>	Three months ended		Six months ended

1. *Stock-based
Compensation*

Effective
January 1, 2003,
the Company
adopted FAS 123,
Accounting for
Stock-Based
Compensation, on a
prospective basis
for U.S. GAAP,
and elected to use
the fair value-based
method to measure
compensation
expense for all
options issued after
January 1, 2003.
The adoption of the

fair value method for U.S. GAAP eliminates all differences between Canadian and U.S. GAAP for options granted subsequent to the date of adoption. Disclosure differences in pro forma earnings between Canadian and U.S. GAAP will remain for those options granted prior to adoption, January 1, 2002, of the Canadian accounting standard for stock-based compensation. Earnings differences will remain for performance-based options granted during 2002 when they vest.

Prior to the adoption of FAS 123, the Company accounted for stock-based compensation for U.S. GAAP in accordance with APB 25, Accounting for Stock Issued to Employees, which required the use of the intrinsic value-based method to measure compensation expense. Under U.S. GAAP

405,000 of the 2002 issuance of performance-based options vested during 2005 giving rise to a pre-tax compensation expense of \$6.6 million (2004 nil).

2. *Future Income Taxes*

Under U.S. GAAP, deferred income tax liabilities are recorded for rate-regulated operations, which follow the taxes payable method for ratemaking purposes. As these deferred income taxes are expected to be recoverable in future revenues, a corresponding regulatory asset is also recorded. These assets and liabilities are adjusted to reflect changes in enacted income tax rates. A deferred tax liability of \$709.0 million (2004 \$596.8 million) is recorded for U.S. GAAP purposes and reflects the difference between the accounting basis and the tax basis of property, plant and equipment. Regulated

companies following the taxes payable method are not required to record this additional tax liability under Canadian GAAP.

To recover the additional deferred income taxes recorded under U.S. GAAP through the ratemaking process, it would be necessary to record incremental revenue of \$391.9 million (2004 \$331.3 million).

3. *Accounting for Joint Ventures*

U.S. GAAP requires the Company's investments in joint ventures be accounted for using the equity method. However, under an accommodation of the U.S. Securities and Exchange Commission, accounting for joint ventures need not be reconciled from Canadian to U.S. GAAP. The different accounting treatment affects only display and classification and not earnings or shareholders equity.

Table of Contents

4. *Financial
Instruments*

For U.S. GAAP purposes, FAS 133, Accounting for Derivative Instruments and Hedging Activities, requires that all derivatives be recorded on the balance sheet as either assets or liabilities at their fair value. Changes in the derivative's fair value are recognized in current period earnings unless specific hedge accounting criteria are met.

The accounting for changes in the fair value of derivatives held for hedging purposes depends upon their intended use. For fair value hedges, the effective portion of changes in fair value of derivative instruments is offset in income against the change in fair value, attributed to the risk being hedged, of the

underlying
hedged asset,
liability or firm
commitment.
For cash flow
hedges, the
effective portion
of changes in the
fair value of
derivative
instruments is
offset through
other
comprehensive
income (or loss),
until the
variability in
cash flows being
hedged is
recognized in
earnings in
future
accounting
periods.

5. *Accumulated
Other
Comprehensive

foreign currency
translation
balance of
\$94.5 million
(2004
\$129.1 million)
and net
unrealized gains
of \$29.2 million
(2004 losses of
\$18.0 million).
For U.S. GAAP

purposes, the foreign currency translation adjustment balance is classified as a component of Accumulated Other Comprehensive Loss. The fair value of derivative financial instruments that qualify as cash flow hedges are also included in Accumulated Other Comprehensive Loss.

Of the total Accumulated Other Comprehensive Loss of \$65.3 million (2004 \$147.1 million), the Company estimates that approximately \$14.5 million (2004 \$11.8 million), representing unrecognized net losses on derivative activities at June 30, 2005, is expected to be reclassified into earnings during the next twelve months and primarily relates to natural gas supply

management.

6. *Consolidation of Variable Interest Entities*

On December 24, 2003, the Financial Accounting Standards Board issued a revision to FASB Interpretation (FIN) 46, which replaces the interpretation released in January 2003.

FIN 46R requires the primary beneficiary of a variable interest entity's activities to consolidate the variable interest. The Company is the primary beneficiary of EIF through a combination of the 41.9% equity interest and the preferred unit interest.

Effective January 1, 2005 the Company adopted without restatement of prior periods the new CICA accounting guideline for Consolidation of Variable Interest Entities (AcG

15). AcG 15 and
FIN46 do not
create U.S.
GAAP
differences for
the Company,
therefore there is
not a U.S.
GAAP
difference
related to
variable interest
entities at
June 30, 2005.
The impact of
FIN 46R
included in the
U.S. GAAP
amounts for the
three and six
months ended
June 30, 2004
and at
December 31,
2004 is outlined
below:

Table of Contents

		December 31, 2004
Statement of Financial Position <i>(millions of Canadian dollars)</i>		
Cash		14.8
Accounts receivable and other		22.7
Property, plant and equipment, net		1,267.8
Deferred amounts and other assets		42.0
Intangible assets		108.3
Goodwill		308.1
		1,763.7
Less: Liabilities		
Accounts payable and other		22.7
Current portion of non-recourse long-term debt		41.5
Non recourse long-term debt		1,045.3
Other long-term liabilities		6.7
Future income taxes		92.1
Non-controlling interests		175.0
		1,383.3
		380.4
Elimination of investment in EIF		(380.4)
Net financial position impact		<i>nil</i>
Statement of Earnings <i>(millions of Canadian dollars)</i>	Three months ended June 30, 2004	Six months ended June 30, 2004

Net earnings impact	<i>nil</i>	<i>nil</i>
Statement of Cash Flows <i>(millions of Canadian dollars)</i>	Three months ended June 30, 2004	Six months ended June 30, 2004

Operating activities	(0.7)	27.9
Investing activities	(2.2)	(3.2)
Financing activities	(24.1)	(39.6)
Net cashflow impact	(27.0)	(14.9)

Table of Contents**Supplemental Disclosure Pro Forma Compensation Expense**

U.S. GAAP requires that, where the fair value based method is not used to measure compensation expense, pro forma earnings and earnings per share, calculated as if the fair value based method had been used, must be disclosed. In Canada, these requirements apply to options granted on or after January 1, 2002 and therefore, the Company's Canadian GAAP disclosure does not include any options granted prior to that date.

<i>(millions of dollars except per share amounts)</i>	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Earnings under U.S. GAAP				
As reported	93.6	248.8	310.2	360.8
