LETTER TO SHAREHOLDERS

June 2008

Dennis H. Ferro

President and Chief Executive Officer

Dear Shareholder:

We are pleased to provide the semiannual report for Evergreen Global Dividend Opportunity Fund for the six-month period ended April 30, 2008 (the six-month period).

Foreign and domestic equity markets were roiled with uncertainties during most of the six-month period as investors worried about the potential contagious effects of weakness in the U.S. economy. Concerns that started with problems with subprime mortgages in the United States created volatility in markets around the globe. Major equity benchmarks suffered steep declines over the first five months of the six month period before rallying sharply in the final month. In fixed income markets, a credit crunch and liquidity crisis dominated markets, causing a general flight to quality over the first five months of the six-month period. Sovereign debt and other high-quality securities tended to perform well, while credit-sensitive sectors tended to fall. As in the equity markets, this pattern reversed itself in April 2008, as corporate bonds, asset backed securities and emerging market debt rallied following a series of actions by the U.S. Federal Reserve Board (the Fed) to stabilize the markets. Over the six month period, prices of gold, oil and other commodities surged while the U.S. dollar weakened further.

Although the U.S. economy slowed significantly in late 2007 and early 2008, foreign economies generally maintained their healthy growth trajectories, driven by the dynamic expansion of the emerging markets. The pace of growth, however,

LETTER TO SHAREHOLDERS continued

diverged among different regions and countries. Economies such as China, India and Brazil continued to grow explosively, helping drive growth in commodity-rich emerging markets. At the same time, problems in the American economy appeared to contribute to slowing growth in Europe, Japan and some other developed economies. Within the United States, Gross Domestic Product growth decelerated to a rate of 0.6% during the final quarter of 2007 and the first quarter of 2008. A buildup in inventories and export gains kept the economy from contracting during the first three months of 2008. To reinvigorate the economy and stimulate lending activity, the Fed became increasingly aggressive, taking a series of steps to pour liquidity into the financial system. Major foreign central banks also provided additional liquidity to the financial markets, but moved less aggressively than the Fed. Rising prices for oil, metals and agricultural commodities prompted monetary authorities to watch inflationary trends carefully.

During the six-month period, managers of Evergreen Global Dividend Opportunity Fund pursued a strategy seeking a high level of income as a primary objective, with a secondary objective of long-term capital growth. This closed-end fund sought investments in the stocks of domestic and foreign companies with either above-average dividend yields or the potential to increase their dividends. To add to the fund's potential income, the fund also wrote call options on U.S. and foreign securities indexes.

We believe the experiences over the six-month period have underscored the value of a well-diversified, longterm investment strategy to help soften the effects of volatility in any one market or asset class. As always, we encourage investors to maintain diversified investment portfolios in pursuit of their long-term investment goals.

NOTES TO FINANCIAL STATEMENTS (unaudited)

1. ORGANIZATION

Evergreen Global Dividend Opportunity Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on December 21, 2006 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund s secondary objective is long-term growth of capital.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Foreign securities traded on an established exchange are valued at the last sales price on the exchange where the security is primarily traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Foreign securities may be valued at fair value according to procedures approved by the Board of Trustees if the closing price is not reflective of current market values due to trading or events occurring in the foreign markets between the close of the established exchange and the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. The value of foreign securities may be adjusted if such movements in the U.S. market exceed a specified threshold.

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current market value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

b. Repurchase agreements

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund's name until the agreements mature. Collateral for certain tri-party repurchase agreements is held at the counterparty's custodian in a segregated account for the benefit of the Fund and the counterparty. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will enter into repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees.

c. Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

d. Forward foreign currency contracts

A forward foreign currency contract is an agreement between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Fund enters into forward foreign currency contracts to facilitate transactions in foreign-denominated securities and to attempt to minimize the risk to the Fund from adverse changes in the relationship between currencies. Forward foreign currency contracts are recorded at the forward rate and marked-to-market daily. When the contracts are closed, realized gains and losses arising from such transactions are recorded as realized gains or losses on foreign currency related transactions. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the foreign currency changes unfavorably.

e. Options

The Fund may write covered put or call options. When a Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

f. Short sales

The Fund may sell a security it does not own in anticipation of a decline in the market value of that security (short sale). When the Fund makes a short sale, it must borrow the security sold short and deliver it to the buyer. The Fund is then obligated to replace the security borrowed by purchasing the security at the market price at the time of replacement. Any interest or dividends accrued on such borrowed securities during the period of the loan is recorded as an expense on the Statement of Operations. To borrow the security, the Fund may be required to pay a premium, which would decrease the proceeds of the security sold. Securities sold short are recorded at the price at which they were sold and marked to market daily. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the closing of a short sale if the market price at the closing is less than or greater than, respectively, the proceeds originally received. Until the short sale is closed or the borrowed security is replaced, the Fund maintains a segregated account of cash or liquid securities, the dollar value of which is at least equal to the market value of the security at the time of the short sale.

g. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date or in the case of some foreign securities, on the date when the Fund is made aware of the dividend. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

h. Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required.

The Fund has adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) which prescribes a minimum threshold for finan-

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

cial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. The Fund's financial statements have not been impacted by the adoption of FIN 48.

i. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

3. ADVISORY FEE AND OTHER TRANSACTION SWITH AFFILIATES

Evergreen Investment Management Company, LLC (EIMC), an indirect, wholly-owned subsidiary of Wachovia Corporation (Wachovia), is the investment advisor to the Fund and is paid an annual fee of 0.95% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings, reverse repurchase agreements, dollar rolls or the issuance of debt securities.

Crow Point Partners, LLC is the investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

The Fund may invest in money market funds which are advised by EIMC. Income earned on these investments is included in income from affiliate on the Statement of Operations.

Effective January 1, 2008, EIMC replaced Evergreen Investment Services, Inc. (EIS), an indirect, wholly-owned subsidiary of Wachovia, as the administrator to the Fund upon the assignment of the Fund's Administrative Services Agreement from EIS to EIMC. There were no changes to the services being provided or fees being paid by the Fund. The administrator provides the Fund with facilities, equipment and personnel and is paid an annual administrative fee of 0.05% of the Fund's average daily total assets.

The Fund has placed a portion of its portfolio transactions with brokerage firms that are affiliates of Wachovia. During the six months ended April 30, 2008, the Fund paid brokerage commissions of \$56,996 to Wachovia Securities, LLC.

4. CAPITAL SHARE TRANSACTIONS

The Fund has authorized an unlimited number of common shares with no par value. For the six months ended April 30, 2008 and the period from March 28, 2007 to October 31, 2007, the Fund issued 0 and 48,839,604 common shares, respectively.

5. INVESTMENT TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$866,467,797 and \$856,680,352, respectively, for the six months ended April 30, 2008.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

| 05/15/2008 | Visa, Inc. | 1,291 | 85 USD | 290,475 | 61,968 |

On April 30, 2008, the aggregate cost of securities for federal income tax purposes was \$836,280,154. The gross unrealized appreciation and depreciation on securities based on tax cost was \$68,735,331 and \$59,205,277, respectively, with a net unrealized appreciation of \$9,530,054.

As of October 31, 2007, the Fund had \$10,672,947 in capital loss carryovers for federal income tax purposes expiring in 2015.

6. EXPENSE REDUCTIONS

Through expense offset arrangements with the Fund's custodian, a portion of fund expenses has been reduced.

7. DEFERRED TRUSTEES FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain

17

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

8. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry and, therefore, may be more affected by changes in that industry than would be a comparable mutual fund that is not heavily weighted in any industry.

9. REGULATORY MATTERS AND LEGAL PROCEEDINGS

Pursuant to an administrative order issued by the SEC on September 19, 2007, EIMC, EIS, Evergreen Service Company, LLC (collectively, the Evergreen Entities), Wachovia Securities, LLC and the SEC have entered into an agreement settling allegations of (i) improper short-term trading arrangements in effect prior to May 2003 involving former officers and employees of EIMC and certain broker-dealers, (ii) insufficient systems for monitoring exchanges and enforcing exchange limitations as stated in certain funds' prospectuses, and (iii) inadequate e-mail retention practices. Under the settlement, the Evergreen Entities were censured and have paid approximately \$32 million in disgorgement and penalties. This amount, along with a fine assessed by the SEC against Wachovia Securities, LLC will be distributed pursuant to a plan to be developed by an independent distribution consultant and approved by the SEC. The Evergreen Entities neither admitted nor denied the allegations and findings set forth in its settlement with the SEC.

In addition, the Evergreen funds and EIMC and certain of its affiliates are involved in various legal actions, including private litigation and class action lawsuits. EIMC does not expect that any of such legal actions currently pending or threatened will have a material adverse impact on the financial position or operations of any of the Evergreen funds or on EIMC's ability to provide services to the Evergreen funds.

Although EIMC believes that none of the matters discussed above will have a material adverse impact on the Evergreen funds, there can be no assurance that these matters and any publicity surrounding or resulting from them will not result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses, or that they will not have other adverse consequences on the Evergreen funds.

10. NEW ACCOUNTING PRONOUNCEMENTS

In September 2006, FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 establishes a single authoritative definition of fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 applies to fair value measurements already required or permitted by existing standards. The change to current generally accepted

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

accounting principles from the application of FAS 157 relates to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. Management of the Fund does not believe the adoption of FAS 157 will materially impact the financial statement amounts, however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements on changes in net assets for the period. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years.

In March 2008, FASB issued Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161), an amendment of FASB Statement No. 133. FAS 161 requires enhanced disclosures about (a) how and why a fund uses derivative instruments, (b) how derivative instruments and hedging activities are accounted for, and (c) how derivative instruments and related hedging activities affect a fund's financial position, financial performance, and cash flows. Management of the Fund does not believe the adoption of FAS 161 will materially impact the financial statement amounts, but will require additional disclosures. This will include qualitative and quantitative disclosures on derivative positions existing at period end and the effect of using derivatives during the reporting period. FAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008.

11. SUBSEQUENT DISTRIBUTION

On May 16, 2008, the Fund declared distributions from net investment income of \$0.50 per common share payable on July 1, 2008 to shareholders of record on June 16, 2008. This distribution is not reflected in the accompanying financial statements.

ADDITIONAL INFORMATION (unaudited)

The Annual Meeting of shareholders of the Fund was held on February 15, 2008. On December 14, 2007, the record date of the meeting, the Fund had \$934,401,866 of net assets of which \$883,720,281 (94.58%) of net assets were represented at the meeting.

The votes recorded at the meeting were as follows:

Proposal 1 Election of Trustees:

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open market (open market purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.
