EXPLANATORY NOTE

On March 30, 2007 Ableauctions.com, Inc. filed its Annual Report on Form 10-KSB for the year ended December 31, 2006 (the Original Filing). On September 13, 2007, we received a comment letter from the United States Securities and Exchange Commission (SEC). As part of our response to the comment letter, we are filing Amendment No. 1 (the Amendment) to the Original Filing. The Amendment amends our statements of cash flows to report the sales of our marketable securities as operating activities rather than as investment activities.

The other portions of the Original Filing are unaffected by the change described above and have not been amended. All information in the Amendment is as of the date of the Original Filing and does not reflect any subsequent information or events occurring after the date of the Original Filing, except to reflect the change noted above. Accordingly, the Amendment should be read in conjunction with our filings made with the SEC subsequent to the Original Filing. The filing of this Amendment to our Annual Report on Form 10-KSB shall not be deemed an admission that the Original Filing or any subsequent amendment, when made, included any untrue statement of a material fact or omitted to state a material fact necessary to make a statement not misleading.

CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2006

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Ableauctions.com Inc.:

We have audited the accompanying consolidated balance sheet of Ableauctions.com Inc. as of December 31, 2006, and the related consolidated statements of operations, comprehensive income, cash flows and stockholders' equity for the year then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

In our opinion, based on our audit, such consolidated financial statements present fairly, in all material respects, the consolidated financial position of Ableauctions.com Inc. as at December 31, 2006, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the stockholders and Board of Directors of Ableauctions.com, Inc.:

We have audited the accompanying consolidated balance sheet of Ableauctions.com, Inc. as of December 31, 2005 and the related consolidated statements of operations, comprehensive loss, cash flows and stockholders' equity for the year then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance whether these financial statements are free of material misstatement. The company has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, these consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as at December 31, 2005 and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting principles in the United States.

1.

BUSINESS AND BASIS OF ORGANIZATION

Ableauctions.com, Inc. (the 'Company') was organized on September 30, 1996, under the laws of the State of Florida, as J.B. Financial Services, Inc. On July 19, 1999, an Article of Amendment was filed with the State of Florida for the change of the Company's name from J.B. Financial Services, Inc. to Ableauctions.com, Inc.

The Company provides services to businesses to assist with managing merchandise. Through its subsidiary, Unlimited Closeouts, Inc., it provides liquidation services to businesses with overstock. Through its subsidiary ICollector.com Technologies Ltd., it provides auction broadcast technology and facilitator services that allow businesses to take advantage of the on-line auction marketplace. Through its subsidiary, Rapidfusion Technologies, Inc., it develops and sells point-of-sale software. Through Ableauctions.com Inc., it manages an investment portfolio. Through Axion Investment Corp. (Axion), it manages various types of investments. Through Gruv Development Corporation and 0716590 B.C. Ltd., it engages in real estate development.

The Company's operating subsidiaries are:

Ableauctions.com (Washington) Inc., a U.S. based auction business.

652297 B.C. Ltd. (ANO), a Canadian based hardware and network services business.

Rapidfusion Technologies Inc., a Canadian based Internet auction business.

Icollector.Com Technologies Ltd., a Canadian based Internet auction facility.

Jarvis Industries Ltd., a Canadian based liquidation business

ICollector International, Ltd., a U.S. based Internet auction business

Unlimited Closeouts, Inc., a U.S. based liquidation business.

Axion Investment Corp., a Canadian based investment business.

Itrustee.Com International, Ltd. a U.S. based liquidation business.

0716590 B.C.

Ltd., a Canadian based real estate holding company

Gruv Development Corporation, a Canadian based real estate development company (its name was changed from 0723074 B.C. Ltd. on November 9, 2006)

Effective December 31, 2005, two of the subsidiaries, Itrustee.com Technologies Ltd. and Able Auctions (1991) Ltd. were amalgamated under the name of Stanford Development Corporation. The name was changed from Stanford Development Corporation to Axion Investment Corp. on September 7, 2006.

2.

AMENDMENT

The Company has previously issued financial statements for the year, in which the Company presented the proceeds from sale of marketable securities as investment activities in the statement of cash flows, when they should be reflected as operating activities. The following presents the effect on the Company's previously issued financial statements for the year ended December 31, 2005 and December 31, 2006.

Statement of cash flows for the year ended December 31, 2005:

	Previously Reported	Increase (Decrease)	Amended

3.

SIGNIFICANT ACCOUNTING POLICIES

a)

Principles of Consolidation

These consolidated financial statements include the accounts of Ableauctions.com, Inc. and its wholly-owned subsidiaries, from the dates of acquisition. Any significant inter-company balances and transactions have been eliminated.

b)

Foreign Currency Translation

The Company accounts for foreign currency transactions and translation of foreign currency financial statements under Statement of Financial Accounting Standards No. 52, "Foreign Currency Translation" ("SFAS 52"). Transaction amounts denominated in foreign currencies are translated at exchange rates prevailing at transaction dates. Carrying values of monetary assets and liabilities are adjusted at each balance sheet date to reflect the exchange rate at that date. Non-monetary assets and liabilities are translated at the exchange rate on the original transaction date. Gains and losses from restatement of foreign currency monetary and non-monetary assets and liabilities are

included in income. Revenues and expenses are translated at the rates of exchange prevailing on the dates such items are recognized in earnings.

Financial statements of the Company's Canadian subsidiaries (see Note 1) are translated into U.S. dollars using the exchange rate at the balance sheet date for assets and liabilities. The Company's investments in the structural capital of the Canadian subsidiaries have been recorded at the historical cost in U.S. dollars. The resulting gains or losses are reported as a separate component of stockholders' equity. The functional currency of the Canadian subsidiaries is the local currency, the Canadian dollar.

c)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the period. Actual results could differ from those estimates.

d)

Cash and Cash Equivalents

Cash and cash equivalents includes cash and highly liquid investments with original maturities of three months or less.

e)

Marketable Securities

The Company accounts for its trading securities in accordance with SFAS 115 – Accounting for Certain Investments in Debt and Equity Securities, which governs the accounting for all debt and equity securities that have a readily determinable fair value. The Company's marketable securities consist of term deposits, bonds, income trusts and equity. These investments are recorded on the balance sheet at fair value and are recorded on the statement of cash flows as a component of operating activities. These investments represent a substantial portion of the Company's overall income, and accordingly unrealized and realized income and losses from these investments are included in the statement of operations.

f)

Financial Instruments

The carrying amounts of financial instruments including cash and cash equivalents, marketable securities, accounts receivable, loans receivable, notes receivable, and accounts payable and accrued liabilities, approximated fair value at December 31, 2006.

g)

Inventory

Inventory is stated at the lower of cost and estimated net realizable value.

h)

Software Development

The Company has adopted Statement of Position 98-1 ("SOP 98-1"), "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use", as its accounting policy for internally developed computer software costs. Under SOP 98-1, computer software costs incurred in the preliminary development stage are expensed as incurred. Computer software costs incurred during the application development stage are capitalized and amortized over the software's estimated useful life.

i)

Property and Equipment

Property and equipment are recorded at cost. The cost of property and equipment is depreciated using the declining balance method at the following annual rates:

Building	4%
Furniture and fixtures	20%
Server equipment	10%

Computer equipment	30%
Computer software	10%
Vehicles	30%

Leasehold improvements are amortized using the straight-line method over the terms of the leases.

j)

Intangible Assets

Intangible assets are recorded at cost and amortized on a straight-line basis over the life of the agreement.

k)

Impairment of Long-Lived Assets

The Company periodically evaluates potential impairments of its long-lived assets, including property and equipment, and intangibles with definite lives. The Company tests the recoverability of the assets whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. When the Company determines that the carrying value of long-lived assets may not be recoverable based upon the existence of one or more indicators of impairment, the Company evaluates the projected undiscounted cash flows related to the assets. If these cash flows are less than the carrying value of the assets, the Company measures the impairment using discounted cash flows or other methods of determining fair value.

Long-lived assets to be disposed of are carried at the lower of cost or fair value less estimated costs of disposal.

l)

Investment in Joint Venture

The Company accounts for its investment in joint venture on an equity basis.

m)

Revenue Recognition

Auction/ liquidation and technology business

The Company's net revenues result from fees and revenue associated with internet based listing fees and auction activities. Internet related listing fees are derived principally from enabling independent auction houses to simultaneously broadcast their auctions over the Internet. These fees are recognized upon successful completion of each individual auction when the final terms of sales and commissions have been determined.

The Company generally earns revenues from its auction activities either through consignment sales, or through sales of inventory purchased by the Company. For consignment sales, the Company earns auction fees charged to consignees, and buyer's premiums charged to purchasers, determined as a percentage of the sale price. For inventory sales, the Company earns a profit or incurs a loss on the sale, to the extent the purchase price exceeds or is less than the purchase price paid for such inventory.

For each type of auction revenue, an invoice is rendered to the purchaser, and revenue is recognized by the Company, at the date of the auction. The auction purchase creates a legal obligation upon the purchaser to take possession of, and pay for the merchandise. This obligation generally provides the Company with reasonable assurance of collection of the sale proceeds, from which the Company's earnings are derived, including the fees from consignees and purchasers, as well as resale profits.

Mortgages and Impaired Loans

(a)

Mortgages are stated at cost which includes amounts advanced and applicable charges, less repayments.

(b)

Interest is accounted for on the accrual basis for amounts advanced and amounts committed but unadvanced unless a mortgage is identified as impaired.

(c)

A mortgage is classified as impaired when, in the opinion of management, there is reasonable doubt as to the ultimate collectibility of principal and interest.

(d)

When a mortgage is identified as impaired, the accrual of interest is discontinued. A provision for estimated losses is recorded when the principal and accrued interest exceed the estimated net underlying value of the security or if

management otherwise feels a provision would be prudent.

Real property and property development

a) Real estate rental

Rental income in respect to commercial and residential property leases is recognized on a straight-line basis over the lease term.

b) Real property sale

For condominium development projects, profit is recognized on the percentage-of-completion method in respect to individual units sold on a pre-sale basis, when all the following criteria are met:

i)

Construction is beyond a preliminary stage.

ii)

The buyer may only receive a refund in the circumstances of non-delivery of the unit.

iii)

Sufficient units have already been sold to assure that the entire property will not revert to rental property.

iv)

Sales prices are collectible.

v)

Aggregate sales proceeds and costs can be reasonably estimated.

Under the percentage-of-completion method, revenue recognized is calculated based upon the percentage of total costs incurred in relation to estimated total costs.

Deposits received in respect to sales which do not meet the criteria for revenue recognition described above shall be accounted for as deposits until the criteria are met.

n)

Acquisitions and Goodwill

All business acquisitions have been accounted for under the purchase method and, accordingly, the excess of the purchase price over the fair value of the net assets acquired has been recorded as goodwill in the consolidated balance sheet. The results of operations, changes in equity and cash flows of acquired companies are included in operations only for the period between the date of acquisition and the end of the financial year.

All goodwill arising from acquisitions of businesses was written off in previous periods.

o)

Advertising Costs

The Company recognizes advertising expenses in accordance with Statement of Position 98-7, "Reporting on Advertising Costs". As such, the Company expenses the cost of communicating advertising in the period in which the advertising space or airtime is used.

p)

Income Per Share

In February 1997, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 128, "Earnings Per Share" ("SFAS 128"). Under SFAS 128, basic and diluted earnings per share are to be presented. Basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding in the period. Diluted earnings per share takes into consideration common shares outstanding (computed under basic earnings per share) and potentially dilutive common shares.

q)

Income Taxes

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". A deferred tax asset or liability is recorded for all temporary differences between financial and tax

reporting and net operating loss carry forwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, based upon currently available information, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

r)

Segmented information

Statement of Financial Accounting Standards No. 131, "Disclosures About Segments of an Enterprise and Related Information", establishes standards for reporting information about the operating and geographic segments of the Company's business. Effective January 1, 2006, the nature and extent of the Company's operations are such that it operates in three reportable segments, as an auction house and liquidator, a property developer and an investment company. Information regarding the Company's geographic segments is set forth in Note 21.

s)

Stock-Based Compensation

Prior to January 1, 2006, the Company had followed the provisions of SFAS 123, "Accounting for Stock-Based Compensation," as amended by SFAS 148, "Accounting for Stock-Based Compensation-Transition and Disclosure." Accordingly, the Company accounted for stock-based compensation under Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations, using the intrinsic value method. Compensation cost for stock options is measured as the excess, if any, of the quoted market price of the Company's stock at the date of the grant over the amount an employee is required to pay for the stock. The Company discloses on a supplemental basis, the pro-forma effect of accounting for stock options awarded to employees and directors, as if the fair value based method had been applied, using the Black-Scholes model.

Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS 123(R), using the modified-prospective-transition method. Under that transition method, compensation cost recognized as of December 31, 2006 includes compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123. Results for prior periods have not been restated.

Non-competition agreement consists of payments made to three former principals of a company that was a direct competitor of Ableauctions. In consideration of payments received in 2004 for \$150,000, the former principals agreed to cease any activities that directly compete with Ableauctions for a period of three years. The cost is amortized on a straight-line basis over three years.

On June 1, 2005, the Company made a cash payment in the amount of \$100,000 to an unrelated third party as consideration for exclusive rights relating to that party's auction services. The cost is amortized on a straight-line basis over ten years.

During the 2005 and 2004 years, the Company incurred development costs to enhance the current on-line auction technology. These costs include fees paid to programmers to develop the systems, software and processes related to the enhancement. The Company expects the final stage will be completed in July 2007, at which time they will start to amortize the costs over the estimated useful life of the technology.

Based on the carrying value of the identified intangible assets as at December 31, 2006, excluding the intellectual property that has not been completed, and assuming no subsequent impairment of the underlying assets, future annual amortization expense in the next 5 years is expected to be as follows: 2007 - \$18,333, 2008 - \$10,000, 2009- \$10,000, 2010 - \$10,000, 2011 - \$10,000.

PROPERTY HELD FOR DEVELOPMENT

Property held for development at December 31, 2006 and 2005 is comprised of the following:

		2006		2005
		COST		COST
Coquitlam property (a)	\$	-	\$	294,882
Surrey property (b)		1,455,031		1,364,019

a)

On May 4, 2005, the Company, through its wholly owned subsidiary 0723074 B.C. Ltd., purchased a single dwelling house located at 1880 Coleman Avenue in Coquitlam, British Columbia. The purchase price was \$242,411 and was paid in cash. The Company's original intention was to develop the property, but in the 2006 year management decided to sell the property.

On March 2, 2006, the Company completed the sale of this property. The sale price of the property was \$388,608 cash. The sale price was negotiated between the Company and the buyers, Michael and Agnes Piotrowski. Mr. Piotrowski is employed by the Company.

During the period of the Company's ownership of the property, it invested approximately \$25,000 in improvements. In consideration of the purchase, the Company agreed to provide an additional \$61,824 to the Purchaser to complete the improvements. The Company also advanced a loan to the buyers in the amount of \$55,000 (CDN) for a term of 1 year, bearing an interest rate of 10% per annum, as described in Note 4(v).

b)

On August 3, 2005, the Company entered into a Contract of Purchase and Sale (the Agreement) for property located at 9643 King George Highway, Surrey, British Columbia V3T 2V3 (the Property). The Agreement was subject to the Company's satisfactory investigation of the development potential of the Property. This investigation was completed on August 9, 2005, at which time the Company released to the seller, Imara Venture Ltd. (the Seller), a down payment of \$41,195 to be credited against a total purchase price of \$1,270,000. The remaining balance was paid in cash on August 15, 2005. The purchase price was negotiated between the Company and the Seller, who are not related to each other.

9.

INVESTMENT IN JOINT VENTURE

On July 14, 2006 Axion Investment Corp. (Axion), a wholly-owned subsidiary of the Company, entered into a Joint Venture Agreement (the Agreement) with two unrelated parties to form a joint venture for the purpose of purchasing two vacant lots located in Langley, B.C. for development (the Project). On July 28, 2006, Axion entered into a supplemental agreement with these two parties in respect to arrangement for a bank loan to fund the purchase price and related expenses of acquiring the properties in the Project.

Pursuant to the Agreement, a new company was to be formed to develop the Project. The new company, Township Holdings Ltd. (THL), has been formed, jointly owned by the venturers. All expenses incurred and all profits earned by THL in conjunction with the Project are to be allocated in equal shares among Axion and the two unrelated parties.

The initial deposit was provided by Axion and 449991 BC Ltd. The total purchase price of the property to be developed was \$3,096,172. During the 2006 year, Axion paid its share of the investment in the amount of \$1,290,072.

Pursuant to the agreement of July 28, 2006, Axion is to advance a loan to one of the unrelated parties to pay for its portion of the purchase price. During the 2006 year, Axion advanced a loan in the amount of \$516,028 to two shareholders of this party for a one year term, bearing interest rate at 10% per annum. The loan was repaid during the 2006 year.

10.

BANK LOAN

At December 31, 2005, the Company maintained a bank operating line of credit with an authorized limit of \$1,395,349, advances under which bore interest at the bank's prime rate per annum. The line of credit was secured by a provincial bond held by the Company in the amount of \$1,350,000 and was guaranteed by the president of the Company. During the 2006 year, the bond was sold and the proceeds were used to pay off the line of credit.

On October 11, 2006, the Company arranged for a credit facility in the amount of \$1,785,714 (Cdn\$2,000,000) (the Credit Facility) from the Royal Bank of Canada (the Bank). The Credit Facility bore interest at the prime rate as announced by the Bank, plus 0.50% per year. Blended payments of interest and principal in the amount of \$14,914 CAN are due each month. Principal is due to be paid in full on the last day of a two to five year term chosen by the Company on the date of a draw down. Repayment of the Credit Facility is secured by a mortgage, which includes an assignment of rents, against the Property described in Note 16 and a guarantee and postponement of claim signed by the Company in favor of the Bank. Subsequent to December 31, 2006, additional loan advances were made under the facility, with the same terms as above.

11.

LEGAL CLAIM

During the 2004 year, the Company and its subsidiary iCollector.com Technologies Ltd (iCollector) commenced a lawsuit against a former officer of iCollector for alleged breach of fiduciary duty. During the 2005 year, the Company incurred legal and related costs totaling \$210,482 related to this matter. A judgment awarding damages was issued in favor of the Company and iCollector, for a total of \$417,300. The former officer appealed the judgment. The claim was subsequently settled for an amount of \$310,000, resulting in a net gain on legal settlement to the Company of \$99,518.

16.

CONCENTRATION OF RISK

Following is a description of certain areas of concentration of risk to which management considers the Company vulnerable to near-term severe impact. This is not a complete analysis of risks faced by the Company, which are listed in other regulatory filings of the Company.

Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of accounts receivable and loans receivable.

The majority of the company's trade receivables are derived from fees and revenue associated with internet based listing fees and auction activities. The company's largest customer accounted for 15% of net revenue for the 2006 year, and 19% for the 2005 year. At December 31, 2006, the largest customer accounted for 32% of net accounts receivable (15% of net accounts receivable at December 31, 2005). Management believes that the receivable balance from this customer does not represent a significant credit risk based on past collection experience.

Property development risk

Approximately 40% of the Company's assets on December 31, 2006 were invested in various real estates. Real estate values can be seriously affected by factors such as bank liquidity, the availability of financing, and by factors such as a zoning change or an increase in property taxes and the general economic outlook.

Interest rate risk

Approximately 30% of the Company's assets on December 31, 2006 were invested in various mortgage loans receivable. The value of the mortgage loans can be seriously affected by factors such as interest rate fluctuations, bank liquidity, and the availability of financing.

Reliance on suppliers

The Company relies heavily on eBay's servers for uninterrupted Internet access, its servers and its continued operation of the live auction platform on eBay Live Auction. It also relies on certain technologies that it licenses from third parties, such as eBay's online auction technology. In addition, substantially all of the computer hardware for operating the Company's service is located at the facilities of Telus in British Columbia. Any damage to or failure of the systems could result in reductions in, or terminations of, the Company's service.

Foreign currency risk

While the Company's financial statements are presented in U.S. dollars, a majority of the Company's obligations, investments and expenditures with respect to the operations were incurred in Canadian dollars. Variations in the exchange rate may give rise to foreign exchange gains or losses that may be significant.

17.

RELATED PARTY TRANSACTIONS

Except as disclosed elsewhere, during the years ended December 31, 2006 and December 31, 2005, the following payments were made to a director of the Company.

	2006	2005
Management fees	\$ 156,000	\$ 153,621

The Company, through its assignee and wholly-owned subsidiary, 0716590 B.C. Ltd., exercised its option to purchase the commercial building and property that the Company currently leases for its head office. The property was purchased from a private company that was wholly-owned by the spouse of the president and director of the Company. The purchase price was \$2,221,316 (\$2,750,000 CAN).

As at December 31, 2005, included in accounts receivable is a balance of \$33,234 (2006: nil) owing from a director of the company. The transactions between related parties are recorded at their exchange amount, which is the amount agreed by the parties

18.

STOCK-BASED COMPENSATION

During the 2006 year, the Company issued options to employees to acquire 1,600,000 common shares of the Company at an exercise price of \$0.35. The estimated fair value of these options, totalling \$64,000 will be recognized over the 2 year vesting period.

The SFAS 123R share-based compensation expense recorded for awards under the stock option plans, including those awards granted in previous years but were not vested at December 31, 2005, was approximately \$51,848, net of estimated forfeitures, during the year ended December 31, 2006. The basic and diluted income per share for the year ended December 31, 2006 decreased by \$0.001, due to the adoption of SFAS123R effective January 1, 2006.

Edgar Filing: ABLEAUCTIONS COM INC - Form 10KSB/A

No stock options were granted during the 2005 year. Stock-based compensation expense of \$15,954 was recognized in the consolidated statement of operations in the 2005 year in respect to stock options granted in prior years.

A summary of the Company's stock option plan and changes during 2006 and 2005 are presented below:

Compensation

Until December 31, 2005, the Company elected to follow Accounting Principles Board Opinion No. 25 (APB 25), *Accounting for Stock Issued to Employees*, rather than the alternative method of accounting prescribed by SFAS 123, *Accounting for Stock-Based Compensation*. Under APB 25, no compensation expense is recognized when the exercise price of the employee stock options equals the market price of the underlying stock on the date of grant. The following table illustrates the effect on the net loss and net loss per share if the Company had applied the provisions of SFAS 123 to estimate and recognize compensation expense for the share-based employee compensation during the year ended December 31, 2005.

19.

CONTINGENT LIABILITIES

a)

The Company is ordinarily involved in claims and lawsuits which arise in the normal course of business. Except as disclosed below, in managements opinion none of these claims will have a significant effect on the Company s financial condition.

b)

The Company is a defendant in several legal actions commenced by certain trade creditors of one of its wholly-owned US subsidiaries. The ultimate liability, if any, arising from this action is not expected to exceed \$20,000 and will be recorded at the time of that determination, if necessary.

c) Ableauctions.com Inc. is acting as a trustee for certain employees investment account. The company is responsible for any losses, but share on an equal basis any gains. The principal amount of the fund at December 31, 2006 is \$134,416.

21.

SUBSEQUENT EVENTS

a)

Subsequent to December 31, 2006, the Company entered into loan arrangements with three commercial borrowers as follows:

i)

Loan advanced on February 15, 2007 in the amount of \$1,125,000 CAN, bears interest at 12% per annum (interest is receivable at \$11,250 CAN per month), with the principal due for repayment on February 15, 2008. The loan is secured by a personal guarantee of the borrower, a mortgage on the property and a general security agreement over the assets of the borrower.

ii)

Loan advanced on March 1, 2007 in the amount of \$140,000 CAN, bears interest at 15% per annum (interest is receivable at \$1,750 CAN per month), with the principal due for repayment on February 28, 2008. The loan is secured by a mortgage on the property and by a secondary personal guarantee of the borrower.

iii)

Loan advanced on March 1, 2007 in the amount of \$200,000 CAN, bears interest at 15% per annum (interest is receivable at \$2,500 CAN per month), with the principal due for repayment on February 28, 2008. The loan is secured by a mortgage on the property and by a secondary personal guarantee of the borrower.

b)

During the 2006 year, the Company rented storage space, ranging from 1,000 square feet to 3,000 square feet, from Quantum Warehousing and Distribution Ltd., in Coquitlam, British Columbia. The Company paid approximately \$1,694 per month storage fees plus in/out handling fees.

On January 1, 2007, as a result of issues relating to the accessibility of the Company's inventory, the Company entered into a three year agreement to lease approximately 2,851 square feet of storage space from Bullion Reef Holdings Ltd., a private company wholly-owned by the wife of the Company's President. The monthly rent on the property located at 3112 Boundary Road is approximately \$1,777 triple-net. The rent payments are at market levels.

c)

The Company, through Axion, intends to develop vacant land consisting of approximately 1.46 acres that is zoned for mixed commercial and residential use located in Surrey, British Columbia. The Company acquired this property in August 2005 for \$1,270,000. The Company intends to develop the property by improving it with a retail facility of approximately 4,300 square feet and with a residential complex consisting of 111 condominiums of approximately 80,000 square feet (the Development). The Company estimates that the cost of the proposed Development will be \$15.9 million, which includes the cost of the land. The Company's wholly-owned subsidiary, Gruv Development Corporation (formerly known as 0723074 B.C. Ltd.), will develop this project.

On March 16, 2007, the Company filed a disclosure statement with the Superintendent of Real Estate under the Real Estate Development Marketing Act of British Columbia to pre-sell the units. The Company engaged the services of Platinum Project Marketing Group and Macdonald Realty Ltd. to market the strata lots and, by March 27, 2007, the Company had entered into agreements to pre-sell over 90% of the condominiums prior to construction. The Company expects to sell the remainder of condominiums by April 15, 2007.

As of December 31, 2006, the Company has spent approximately \$96,162 in developing this property and expects to incur an additional \$300,000 in expenses (excluding realtor commissions) relating to the pre-sale and marketing of the condominium units included in the Development.

RECENT ACCOUNTING PRONOUNCEMENTS

(i) In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in the Company's financial statements in accordance with FASB Statement No. 109 *Accounting for Income Taxes*. FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a return, as well as guidance on derecognition, classification, interest and penalties and financial statement reporting disclosures. FIN 48 is effective for the Company on January 1, 2007. Based on the Company's evaluation and analysis, FIN 48 is not expected to have a material impact on the Company's consolidated financial statements.

(ii) In June 2006, the Emerging Issues Task Force ("EITF") ratified EITF Issue 06-3, *How Taxes Collected From Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)*. A consensus was reached that entities may adopt a policy of presenting taxes in the income statement on either a gross or net basis. An entity should disclose its policy of presenting taxes and the amount of any taxes presented on a gross basis should be disclosed, if significant. The guidance is effective for periods beginning after December 15, 2006. We present revenues net of taxes. EITF 06-3 will not impact the method for recording these sales taxes in our consolidated financial statements.

(iii) In September 2006, the FASB issued FASB Statement No. 157, *Fair Value Measurements* (FAS 157), which addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under generally accepted accounting principles. The FASB believes that the new standard will make the measurement of fair value more consistent and comparable and improve disclosures about those measures. FAS 157 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the requirements and impact of FAS 157 on the Company's consolidated financial statements, and will adopt the provisions on January 1, 2008. FAS 157 is not expected to have a material impact on the Company's consolidated financial statements.

(iv) In September 2006, the SEC issued Staff Accounting Bulletin 108 (SAB 108), which expresses the Staff's views regarding the process of quantifying financial statement misstatements. The bulletin was effective at fiscal year end 2006. The implementation of this bulletin had no impact on the Company's results of operations, cash flows or financial position

In accordance with Section 13 or 15(d) of the Exchange Act, the Registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
