FIRST CITIZENS BANCSHARES, INC.,
AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED, STATED IN THOUSANDS)
MARCH 31, 2002

NOTE 1 - CONSOLIDATED FINANCIAL STATEMENTS

The consolidated balance sheet as of March 31, 2003, the consolidated statements of income for the three month periods ended March 31, 2003, 2002 and 2001, and the consolidated statements of cash flows for the three months periods then ended have been prepared by the company without audit. The accompanying reviewed condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S - X. Accordingly they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments necessary to present fairly the financial position, results of operations and cash flows at March 31, 2003 and for all periods presented have been made. Operating results for the reporting periods presented are not necessarily indicative of results that may be expected for the year ending December 31, 2002. For further information, refer to the consolidated financial statements and footnotes thereto included in the company's annual report on Form 10-K for the year ended December 31, 2002.

NOTE 2 - ORGANIZATION

First Citizens Bancshares, Inc., is a bank holding company chartered on December 14, 1982, under the laws of the State of Tennessee, on September 23, 1983, all of the outstanding shares of common stock of First Citizens National Bank were exchanged for an equal number of shares in First Citizens Bancshares, Inc.

NOTE 3 - CONTINGENT LIABILITIES

There is no material pending litigation as of the current reportable date that would result in a liability.

NOTE 4 - RESERVE FOR LOAN LOSSES

FASB 114 and 118 were implemented during first quarter of 1995. This new FASB requires companies to set aside reserves for impaired loans.

The following data reflects impaired and probable loss loan totals:

	Balance
Amount of recorded balance with a related allowance	\$ 1,208
Amount of recorded balance with no related allowance	<u>802</u>
Impaired loan balance or recorded balance	\$ 2,010
	=====

Interest income recognized on impaired loans has been applied on a cash basis. Cash receipts are applied as cost recovery first or principal recovery first, consistent with OCC regulations. Management is confident the overall reserves are adequate to cover possible losses within the portfolio in addition to impaired loans.

NOTE 5 - DERIVATIVES ORIGINATION DATE: 06/2000

FASBs 133, 137 and 138 - FASB 133 establishes accounting and reporting standards for derivative instruments embedded in other contracts, and for hedging activities. It requires derivatives to be reported as either assets or liabilities in the statement of financial position and measures those instruments at fair value. Accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation. FASBs 137 and 138 amended FASB 133. Our company used the derivative as a cash flow to hedge the "Benchmark Interest Rate." First Citizens designated a Federal Home Loan Bank Variable Libor Borrowing to be hedged and effectively have locked in a fixed cost on the liability.

First Citizens swapped a fixed investment cash flow for a variable cash flow that is tied to the 90 day Libor Rate. The new variable investment cash flow is matched with a variable borrowing cash flow generating a positive spread of 250 basis points with no interest rate risk. This transaction was implemented to increase the earnings of First Citizens. The volume used in this transaction was \$1.5 million. Volume and risk associated with this transaction is well within the Funds Management Policy of the bank. Maturity periods of hedge investments are 10 years.

The cash flow hedge has produced a positive income because First Citizens swapped a fixed cash flow for a variable cash flow and rates later declined, the value of the derivative has increased \$6 thousand net of tax for the current reportable period and \$328 thousand cumulative to date.. Other comprehensive income reflects the fair market value of the derivative at \$496 thousand gross and \$328 thousand net of tax.

NOTE 6 - FASB 141

FASB 141 - This statement addresses financial accounting and reporting for business combinations and supersedes APB Opinion 16. This FASB eliminates pooling of interests. Purchase accounting will be used after June 30, 2001.

On June 1, 2001, Bancshares purchased Munford Union Bank, a state chartered bank established in 1925, total assets \$115 million. Munford Union main bank location address is 1426 Munford Avenue, Munford, TN. 38058. The bank has five offices (including the main office) and serves the counties of Tipton and Shelby in Southwest Tennessee. Purchase accounting method was used for the acquisition. Total acquisition price was \$19.3 million funded partially through a dividend paid by First Citizens National Bank (The Bank) to First Citizens Bancshares, Inc. (The Company). Balance of funding was a result of debt issued through Trust Preferred Debt and a line of credit. Bancshares stock was not issued for the purchase. Dollar cost of purchased research and development assets as well as pre-acquisition contingencies was \$0 and dollar amount written off was not applicable. Results of Operations for Munford Union stated in this report include all three months for the ending period of March 31, 2003.

All assets and liabilities were valued to current fair market value. Goodwill included in the acquisition totaled \$8.8 million and will only be amortized if impairment occurs as directed by FASB 142. Core deposit intangible accumulated to \$845 thousand and will be amortized over a 10 year period using straight line method. Goodwill on the books of Bancshares will not be tax deductible if impairment according to FASB 142 occurs.

The following condensed balance sheet shows the initial values assigned to each balance sheet item:

	Old Value	Adjustment	New Value
Cash and Due from	\$ 3,855	\$ 0	\$ 3,855
Fed Funds Sold	5,295	0	5,295
Investments	31,860	17	31,877
Net Loans	68,452	1,456	69,998
Premises and Equipment	3,535	-198	3,337
Goodwill	0	8,808	8,808
Core Deposit Intangible	0	845	845
Other Assets	2,012	0	2,012
Total Assets	\$ 115,099	\$ 10,928	\$ 126,027
Deposits	\$ 99,723	\$ 1,219	\$ 100,942
Other Liabilities	5,635	21	5,762

Edgar Filing: FIRST CITIZENS BANCSHARES INC /TN/ - Form 10-Q

Capital	9,635	9,688	19,323
Total Liabilities and Capital	\$ 115,099	\$ 10,928	\$ 126,027

Debt issued to fund the purchase of Munford will be repaid from accumulated earnings of Munford Union with First Citizens National Bank subsidizing a small fraction of the debt for the first two years and thereafter 100%.

NOTE 7 - FASB 142

This statement addresses financial accounting and reporting for acquired goodwill and other intangible assets and supercedes APB 17. Goodwill and some intangible assets will no longer be amortized. FASB 142 adopts a more aggregate view for goodwill and bases the accounting on combined units of the combined entity into which an acquired entity is integrated (those units are referred to as reporting units in FASB 131). Currently First Citizens National Bank has one reporting unit which does not meet segment test requirements according to FASB 131. Test performed first quarter 2002 and 2003 to establish a goodwill benchmark resulted in an impairment of zero. Total goodwill as of the reportable date is \$12 million or 1.78% of total assets or 22.42% of total capital.

The amortized expense of the other identifiable intangibles for the quarter was \$22 thousand for 2003.

NOTE 8 - LONG TERM OBLIGATIONS

In March 2002, the Company formed a wholly owned subsidiary of First Citizens (TN) Statutory Trust II. The Trust was created under the Business Act of Delaware for the sole purpose of issuing and selling preferred securities and using the proceeds from the sale to acquire long term subordinated debentures issued by Bancshares. The debentures are the sole assets of the Trust. First Citizens Bancshares owns 100% of the common stock of the Trust.

On March 26, 2002 the Company through its wholly owned subsidiary, First Citizens (TN) Statutory Trust II, sold 5,000 of its floating rate Preferred Trust Securities at a liquidation amount of \$1000 per security for an aggregate amount of \$5,000,000. For the period beginning on (and including) the date of original issuance and ending on (but excluding) June 26, 2002 the rate per annum of 5.59%. For each successive period beginning on (and including) June 26, 2002, and each succeeding interest payment date at a rate per annum equal to the 3-month LIBOR plus 3.60%; provided however, that prior to March 26, 2007, this interest rate shall not exceed 11%. Interest payment dates are: March 26, June 26, September 26, and December 26 during the 30 year term.

Bancshare's obligation under the debentures and related documents, constitute a full and unconditional guarantee by the Company of the Trust issuer's obligations under the Preferred Securities. Although the debentures are treated as debt of the Company, they are treated as Tier I capital subject to a limitation that the securities included as Tier I capital not exceed 25% of the total Tier I capital. The securities are callable by the Company after 5 years. These funds are a partial source for the acquisition of Munford Union Bank, along with our line of credit and capital infusion from our lead bank (FCNB).

The ability of First Citizens to service its long term debt obligation is dependent upon the future profitability of its banking subsidiaries and their ability to pay dividends to the Company.

NOTE 9 - REVOLVING LINE OF CREDIT

First Citizens Bancshares has an approved two year renewable line of credit with First Tennessee Bank in the amount of \$13 million. The balance as of the reportable date was \$8.8 million.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL INFORMATION

First Citizens Bancshares, Inc. (the "company") headquartered in Dyersburg, Tennessee, is the bank holding company for First Citizens National Bank ("the bank"), The Munford Union Bank, First Citizens Capital Assets, and First Citizens (TN) Statutory Trust II. First Citizens National Bank and The Munford Union Bank are diversified financial service institutions, which provide banking and other financial services to its customers. The bank operates four wholly owned subsidiaries: Financial Plus, Inc., Delta Finance, Inc., Nevada Investments I, Inc. and Nevada Investments II, Inc. The bank also owns 50% of White and Associates/First Citizens Insurance, LLC and First Citizens/White and Associates Insurance Company, Inc. These subsidiary activities consist of: brokerage, personal finance, investments, insurance related products and credit insurance. The Munford Union Bank operates 2 wholly owned subsidiaries: Nevada Investments III and Nevada Investments IV.

BRANCH OPERATIONS

Construction of two new branch facilities is underway and expected to be completed in year 2003. The first facility at 200 University Avenue, Martin, Tennessee will replace a modular bank building, placed at this location and opened for full service banking in April 2002. The second facility located at 5845 Airline Road, Arlington, TN, 38002 will serve as a full service branch bank and should be opened for business 4th quarter 2003. Market data analysis reflects more than adequate market share growth available within these geographic areas to support the bank's long term financial projections. Future population and household income growth within the geographic regions are projected to be positive. First Citizens will continue to search for expansion opportunities that will result in a positive deployment of the Company's capital.

FORWARD-LOOKING STATEMENTS

Quarterly reports on Form 10-Q, including all documents incorporated by reference, may contain forward-looking statements. Additional written or oral forward-looking statements may be made from time to time in other filings with the Securities Exchange Commission. The discussion of changes in operations may contain words that indicate the company's future plans, goals, and estimates of assets, liabilities or income. Forward-looking statements will express the company's position as of the date the statement is made. These statements are primarily based upon estimates and assumptions that are inherently subject to significant banking, economic, and competitive uncertainties, many of which are beyond management's control. When used in this discussion, the words "anticipate," "project," "expect," "believe," "should," "intend," "is likely," "going forward," and other expressions are intended to identify forward-looking statements. The statements are within the meaning and intent of section 27A of the Securities Exchange Act of 1934. Such statements may include, but not limited to, projections of income or loss, expenses, acquisitions, plans for the future and others.

CRITICAL ACCOUNTING POLICIES

The accounting and reporting of the First Citizens Bancshares and its subsidiaries conform with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The company's estimates are based on historical experience, information supplied from professionals, regulators, and others believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates. First Citizens considers its more critical accounting policies to consist of the allowance for loan losses and the estimation of fair market value.

The allowance for loan losses on loans represents management's best estimate of inherent losses in the existing loan portfolio. Management's policy is to maintain the allowance for loan losses at a level sufficient to absorb reasonably estimated and probable losses within the portfolio. The company believes the loan loss reserve estimate is a critical accounting estimate because: changes can materially affect bad debt expense on the income statement, changes in the

borrower's cash flows can impact the reserve, and management has to make estimates at the balance sheet date and also into the future in reference to the reserve. While management uses the best information available to establish the allowance for loan losses, future adjustments may be necessary if economic or other conditions change materially.

Fair values for First Citizens' available for sale investments are based on quoted market prices supplied by a third party. In situations where quoted market prices are not available, fair values are based on quoted prices of similar instruments.

The company's policy is to review goodwill for impairment at the reporting unit level on an annual basis unless an event occurs that would impair the goodwill amount. Goodwill represents the excess of the cost of an acquired entity over the fair value assigned to the assets and liabilities. Management believes the accounting estimates associated with determining fair value as part of the goodwill test is a critical accounting estimate because estimates and assumptions are made based on prevailing market factors, historical earnings and multiples and other contingencies.

Management has discussed these critical accounting policies with the Audit Committee, and the Audit Committee has reviewed the Company's disclosure relating to them in the discussion and analysis of operations for the quarter just ended.

RESULTS OF OPERATIONS

First Citizens Bancshares recorded net income for the period ended March 31, 2003 of \$1.9 million, an 11.83 percent increase compared to last year's quarterly earnings of \$1.7 million. Earnings per share grew 12.50% to \$.54 from \$.48 in the same period last year. Bancshares Board approved a five year stock repurchase program and has been successful in buying back company stock as reflected in the balance sheet (57,370 shares accumulated to date). Earnings per share for the most recent four quarters respectively are as follows: \$.54, \$.60, \$.58, and \$.48. Return on average assets was 1.15% for 2003 compared to 1.33% for the same period in 2002. Total assets grew \$152 million or 28% when compared to total asset volume as of March 31, 2002. Asset growth at quarter end 2003 includes assets of Munford Union Bank totaling \$153 million. Return on equity increased to 14.54% for the current year from 14.30% last year. Incremental earnings per share impact derived from income of Munford Union was \$.12. The effective tax rate for the current period is 28% compared to 29% for prior period. A one percent positive change in the effective tax rate was a direct result of increased volumes in tax free investments.

There is a new tax law being introduced that could have a material impact on our effective tax rate. Beginning in July of year 2000, FTN Financial began managing the investment portfolio of First Citizens Bank. The decision to outsource this function was driven by advantages inherent in having professional oversight for a significant portion of our asset base, and at the same time taking advantage of a State law which allowed banks to house their investment portfolios in subsidiaries chartered in Nevada or Delaware, and in doing so avail the bank of the tax benefits of eliminating the 6.50% excise taxes imposed on corporate earnings in Tennessee. This is an advantage that may soon be lost, as previous interpretations of this law issued by the Department of Revenue are being called into question. If the proposed changes are implemented, the quarterly pre-tax impact to First Citizens Bancshares would be a negative \$100,000.

Bancshares does not transact business outside the United States.

Net interest income increased \$835 thousand or 15.26%, when comparing first quarter to the same period in 2003. Cost of funds declined 161 basis points over the past 12 months. The time deposit average paying rate had the most dramatic decrease for 2003 (3.46% to 2.91%). Interest margins are expected to remain stable; maintaining this spread could prove to be challenging in a rapidly rising rate environment. Bancshares' net yield on average earning assets was 6.61% for the current period versus 7.32% for 2002 and 8.67% for 2001. Earning asset yield decreased 71 basis points compared to only 40 basis points for interest bearing liabilities. Yields on the investment portfolio were negatively impacted from called bonds, matured bonds, and prepayments on mortgage backed investments. Cash inflows are

being reinvested at substantially lower rates as evidenced by the drop in taxable investment yields from 4.90% in 2002 to 3.70% in 2003. Activity in secondary mortgage lending exceeded all previous records as consumers opt to take advantage of low interest rates by refinancing existing mortgages. A review of activity over the past five quarters beginning with March 31, 2003 reflects the following totals: \$422 thousand, \$336 thousand, \$239 thousand, \$169 thousand, and \$158 thousand. It is anticipated that this trend will continue through second quarter 2003. The loan loss provision decreased \$81 thousand or 22.43% over the prior reporting period. Additional write downs, charge offs, and the declining economy contributed to the higher amount in 2002. Net charge offs for 2003 were \$21 thousand compared to \$224 thousand for the first three months in 2002. A reduced net charge off total in 2003 was a result of recoveries of previously charged off loans totaling \$262 thousand. Reserve for losses on loans as a percent of total loans was 1.26% at March 2003 compared to 1.13% at March 2002. The reserve as a percent of total loans for third and fourth quarter 2002 was 1.19% and 1.24% respectfully.

Non-interest income increased \$387 thousand, or 22.76% over the prior year's total. In current year 2003, fee income (non-interest income) contributed 17.21% to total revenue compared to 16.18% for the same period last year. Munford Union non-interest income contribution for the reportable period was \$222 thousand or 10.63%. Excluding Munford Union incremental income, non-interest income for Bancshares increased 9.70%, fueled by growth in personalized check income, overdraft service charges and insurance revenues. Bond profits of \$99 thousand were taken in 2002 compared to \$0 thousand for 2003. The following table compares non-interest income for 2003, 2002, and 2001:

	Non-Interest Income (in thousands)				
	% of <u>Change</u>		% of <u>Change</u>		
	<u>2003</u>		<u>2002</u>		<u>2001</u>
Service Charges on Deposit Accounts	\$ 1,119	60.77%	\$ 696	(2.25%)	\$ 712
Trust Income	152	(3.18%)	157	3.29%	152
Other Income	<u>816</u>	<u>(3.65%)</u>	<u>847</u>	<u>30.51%</u>	<u>649</u>
TOTAL	\$ 2,087	22.76%	\$ 1,700	12.36%	\$ 1,513

Non-interest expense increased \$1,088 thousand, or 25.30%, when comparing first quarter 2003 with first quarter 2002. Year to date pro-forma income statement (includes Munford Union in prior period) reflects a 5.21% increase in non-interest expense. Salary and benefits increased as a result of the acquisition. Bonus accruals account for 9.50% of the salary and benefit total. Full time equivalent for the current period was 260 compared to 208 for prior year. Fulltime equivalent as of March 31, 2003 includes full-time equivalent total of 44 for Munford Union Bank. Tight budget controls and incentives stabilized the growth of controllable core expenses. Efficiency ratio as of March 31, 2003 and March 31, 2002 was 64.21% and 59.98%. Executive management is committed to the continual improvement of the efficiency ratio that will meet or exceed peer group ratio. However, in year 2003, the low rate environment caused a squeeze to net interest margins and as a result diluted the Company's efficiency ratio. Expense other real estate was \$35 thousand at March 31, 2003 compared to \$50 thousand at March 31, 2002. Other real estate assets totaled \$1,781,000 as of December 2002 compared to \$1,943,000 as of March 2003. Other real estate total for both periods includes ORE for Munford Union totaling \$948 thousand. ORE - Munford Union has decreased in excess of \$500 thousand since June 2002. Impaired Goodwill expense is \$0 for the current reportable period compared to \$0 for 2002 and \$77 thousand for 2001. The core deposit intangible expense for the current reportable year was \$21,000 (3 months). FASB 142 altered the analysis of goodwill for years 2002 forward. YTD advertising, community relations, and other forms of marketing expenses were \$128 thousand or 2.37% of total non-interest expense. All marketing or advertising items are expensed at the time they are incurred.

The following table compares non-interest expense for the **first quarter** of 2003, 2002, and 2001:

Total	\$ 262	\$ 94	\$ 87

Net Charge-offs

LOANS:

Core net loan growth (excluding acquisitions) grew \$9 million or 5.19% when comparing the current period to last March. Loan growth slowed in year 2003 diverting funds into the Investment portfolio. It is anticipated that net loan demand will continue at lower than average growth percentages throughout 2003. Seasonal demand on agriculture lines of credit is expected to increase 2nd quarter 2003. Real estate loans account for 75% of the Company's total loan portfolio. Real estate 1-4 family residential loans make up 46% of the real estate sector. Agricultural production loans comprise 2.77% of the loan portfolio. The Company's loan loss reserve as a percent of total loans was 1.26% for 2003 versus 1.13% for 2002. Net charge-off to average net loans for the current reportable period was (.01)% compared to (.06)% for prior year. Net charge-off to average net loans in first quarter 2003 resulted in the lowest charge-off percentage for the past 5 reportable years.

Other subsidiaries of First Citizens Bancshares (The Company) or First Citizens National Bank (The Bank) offering loan products and services are Munford Union Bank and Delta Finance. Munford Union Bank's outstanding loan total at quarter end was \$87 million, with real estate loans representing 85% of total loans. Net charge-offs for Munford Union for the current year is \$0 thousand. Delta Finance (finance company subsidiary) has loans outstanding that total \$3.8 million or .81% of the Company's total loans.

AGRICULTURAL LOANS:

First Citizens is one of the largest agriculture lenders in the State of Tennessee and is an approved Farm Credit Services lender. Agriculture makes a significant contribution to Dyer County commerce, generating approximately \$79 million in revenue on an annual basis. Agricultural credits secured by farmland and other types of collateral comprise more than \$41 million of total loans. Past due credit in this category is 1.39% of total loans.

LOAN LOSS EXPERIENCE AND RESERVES FOR LOAN LOSSES:

An analytical model based on historical loss experience, current trends and economic conditions as well as reasonably foreseeable events is used to determine the amount of provision to be recognized and to test the adequacy of the loan loss allowance. The ratio of allowance for loan losses to total loans, net of unearned income, was listed at 1.13% in the March 31 Call Report to the Federal Reserve. A recap of activity posted to the Reserve account in third quarter resulted in the following transactions: (1) loans charged-off (\$283,000) (2) recovery of loans previously charged off - \$262,000 and (3) additions to reserve \$280,000.

The ratio of net charged off loans during the quarter to average net loans outstanding was .01% compared to .06% and .12% for the previous two quarter ends. A review of non-performing loans reflects non-performing assets at .76%, .68% and 1.10% of total loans as of March 31, 2003, 2002 and 2001. Improvements noted in asset quality since 2001 have allowed for a reduction in the monthly accrual allocated to the loan loss reserve. Unemployment rates in counties in which Bancshares operates are as follows: Dyer (6.8%), Shelby (4.9%), Obion (7.7%), Tipton (5.9%), Weakley (7.2%) and Lauderdale (11.5%). Unemployment rates improved in Dyer, Shelby and Tipton Counties from year-end 2002, while increasing in both Obion and Lauderdale. Higher unemployment rates in Lauderdale County are the result of a plant closing and layoffs in other manufacturing jobs. One manufacturing company in Obion has experienced a slow down in production, also resulting in employee layoffs. On a more positive note the re-location of a injection molding company that produces automotive components for General Motor's line of sports utility vehicles has located in Dyer County and has employed several hundred workers. First Citizens had no concentrations of credit of 10 percent or more of total loans in any single industry. There are no material reportable contingencies as of this report date.

LIQUIDITY:

Liquidity is managed to ensure there is ample funding to satisfy loan demand, investment opportunities, and large deposit withdrawals. Bancshares primary funding sources include customer core deposits, FHLB Borrowings, other borrowings, and correspondent borrowings. Customer based sources accounted for 82.83% of the funding for the current year versus 81.85% for the prior year. Borrowed funds from the FHLB amounted to 11.11% (\$71 million) of total funding for year 2003 compared to 12.19% (\$60 million) last year. The FHLB line of credit is \$117 million with \$31 million available at quarter end. The company has \$20 million in deposit funds from the State of Tennessee. It is management's intent to increase this amount to \$30 million this year. First Citizens National Bank has \$10 million of brokered certificate of deposits comprising 2.49% of total deposits.

The bank's liquidity position decreased when comparing quarter end 2003 to year end 2002 because of a decision to allow \$10 million in State certificate of deposits funds to roll off during first quarter. Without this decision the Company's liquidity position would have been consistent with 2002. Growth in deposits is occurring at First Citizens as well as most banks in general. This action reinforces the idea that consumers are in a pattern of a flight to quality by investing in deposits insured by FDIC. The bank's transaction savings account (Wall Street Money Market), offered in 2001 has generated Core deposits in excess of \$47 million. The Wall Street account is tied to the 90 day T-Bill Rate and has been a drawing attraction for consumers looking for a money market account to park funds for the short term while waiting for interest rates to go up. While deposit growth increases market share and provides for liquidity needs, above average deposit growth can apply pressure to a bank funds' reserve ratio. In the event deposit growth continues to exceed prior years, FDIC Insurance cost could possibly increase causing an impact on net income. There is no material impact projected to First Citizens net income in the event FDIC insurance cost increases.

The bank's liquidity position has been strengthened by ready access to a diversified base of wholesale borrowings. These include correspondent borrowings, federal funds purchased, securities sold under agreements to repurchase, Federal Home Loan Bank, Brokered certificates of deposit, and others. First Citizens National Bank has lines of credit with the FHLB and correspondent banks totaling \$140 million. The Company has a \$13 million line of credit with First Tennessee Bank established for acquisitions and other holding company needs (see note 9). The available line

amount as of the current reportable period is \$4.1 million. The company has a crisis contingency liquidity plan at the bank and holding company level to defend against any material change in the liquidity position.

INVESTMENT SECURITIES:

Nevada Investments I and II was incorporated in the year 2000 as subsidiaries for First Citizens Bank. The core objective for these corporations was to house the investment portfolio for First Citizens Bank. In the year 2002, Nevada III and IV was incorporated to house the investments for Munford Union Bank. Savings from these strategic moves exceed \$300,000 on an annual basis. The banks have a portfolio advisory agreement with FTN Financial to manage both portfolios. The costs for managing the portfolio are netted out in the \$300,000 savings per year.

First Citizens had over one half of the bond portfolio called in the year 2001. Investments called were Callable U.S. Agencies. The called amounts have been reinvested mainly into mortgage backed agencies (very defined tranches and predictable characteristics) with an average life of less than 5 years. U.S. Treasuries and Agencies account for 71% of total portfolio. Mortgage related investments are the largest sector of this category accounting for 50% of the total portfolio. Well defined mortgage related investments produce consistent cash flows and will serve Bancshares as a defense against rising interest rates. Declining rates have resulted in prepayment of mortgage related investment, thereby diluting investment yields. The years 2001, 2002, and 2003 reflect an above average year in maturities, paydowns, and calls. Cash inflows on the cash flow statement indicate \$27 million flowed in first quarter 2003 compared to an average amount of \$16 million in 2002. Also indicated on the statement of cash flow is net loan growth of \$27 million compared to investment growth of \$33 million. Economic conditions created slow loan growth thereby causing additional funds to flow into the investment portfolio. Declining interest rates have caused a material increase in the market value of the investment portfolio. Other comprehensive income in the capital section has increased 8.46% when compared to prior year. Pledged investments total \$106 million for the current reportable period. Peer data indicates our portfolio yields are less than the average peer bank and this is due to portfolio changes (called bonds, paydowns and above average maturities) occurring in 2002. Bancshares' goal is to steadily improve the investment portfolio without taking on material risk.

The book value of listed investment securities as of the dates indicated are summarized as follows:

CAPITAL RESOURCES

Total capital on March 31, 2003 was \$55.3 million, up 9.83% from March 31, 2002. The increase in capital was from undistributed net income and favorable market value moves in the bond portfolio (comprehensive income). Bancshares has historically maintained capital in excess of minimum levels established by the Federal Reserve Board. The risk based capital ratio reflects continuous improvement when comparing years prior to 2003. Capital as a percentage of total assets as of March 31, 2003 was 7.98%, compared to 9.30% in 2002. The purchase of Munford Union Bank, as a subsidiary of Bancshares (transaction completion date May 31, 2002), deployed \$5 million in Bancshares capital (purchase accounting with no stock issuance). Leveraging the Company's capital with asset growth is one of the Company's strategic objectives. Risked based capital ratio as of March 31, 2003 was in excess of 10.50%, significantly above the level mandated by the Federal Reserve. 2002 risked based capital ratio was in excess of 13.50%. Capital as a percent of total assets for the quarter ending March 31, is presented in the following table for the years indicated (excluding loan loss reserves):

<u>2003</u>	<u>2002</u>	<u>2001</u>	<u>2000</u>	<u>1999</u>
7.98%	9.30%	9.45%	9.43%	9.29%

The dividend payout ratio is 49.94% for the current period versus 54.04% for prior year. Peer bank dividend payout ratios are 37.83%. The Board approved a stock repurchase program in 2001 that provides for purchase of \$1 million of Bancshares stock per year extended over a five year period. Treasury stock totaling 57,370 has been purchased as of March 31, 2003 at a weighted average cost basis of \$23.21.

	2003	2002	2001	2000	1999
Percentage of Net Income to:					
Average Total Assets	1.15%	1.28%	.84%	1.24%	1.16%

Common Share to Net Income	49.94%	54.04%	87.14%	57.53%	51.80%
* Percentage of Average Shareholders'					
Equity to Average Total Assets	8.77%	9.34%	9.52%	9.45%	10.00%

* Represents primary capital - including reserve for loan losses account

RECENTLY ISSUED ACCOUNTING STANDARDS

Sarbanes-Oxley Act of 2002: Congress recently passed the Sarbanes-Oxley Act of 2002. The legislation imposes new duties on public companies and executives, directors, auditors, plan administrators, attorneys, as well as securities analysts. It creates a new regulatory system for the audit profession and sets new standards for auditor independence. It expands criminal and civil liabilities. This new act will try to contribute to broad restoration of trust in the integrity of the disclosure and accounting practices that inform our capital markets. First Citizens Bancshares has and will implement all necessary and applicable steps required by this act.

FASB Statement No. 149: Amendment of Statement 133 on Derivative Instruments and Hedging Activities (issued April 2003). This statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133 Accounting for Derivative Instruments and Hedging Activities. This statement is effective for contract entered into or modified after June 30, 2003, except as stated below and for hedging relationships designated after June 30, 2003. In addition, except as stated below, all provisions of this Statement should be applied prospectively. This will not have a material impact on the financial statements of First Citizens Bancshares, Inc.

PART I - ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The bank maintains a formal asset and liability management process to quantify, monitor and control interest rate risk. The Asset/Liability Committee strives to maintain stability in net interest margin under various interest rate cycles. First Citizens has materially improved interest rate risk exposure since year-end 2000. Steps implemented are as follows: (1) increased long term Federal Home Loan Bank borrowings, (2) purchased variable rate investments with well defined tranches that produce perpetual cash flows, (3) encourage existing deposit customers to extend maturities past one year and (4) reduced overnight borrowings exposure.

First Citizens swapped a \$1,500,000 fixed investment cash flow for a variable cash flow stream tied to 90 day libor rate June 2000. The new variable investment cash flow is matched with a variable borrowing, resulting in an ongoing positive spread of 250 basis points with no interest rate risk. The transaction was implemented to increase earnings and reduce interest rate risk. The cash flow hedge has produced a positive income, but because the bank swapped a fixed cash flow for a variable cash flow and rates have declined the value of the derivative has decreased since inception. The volume and risk associated with this derivative is well within the Funds Management Policy of the bank. There have been no material changes since year-end 2001 applicable to this transaction.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

There are no material legal proceedings filed against First Citizens Bancshares or its subsidiaries as of this report date.

Item 2. Changes in Securities

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Submission of Matters To a Vote of Security Holders

None.

Item 5. Other Information - Controls and Procedures

A review of the effectiveness of internal controls in place over operations and accounting activities of Bancshares and its subsidiaries is performed on an ongoing basis throughout the fiscal year. Review of system controls is accomplished primarily through completion of control function questionnaires, observation and discussion with department or business unit managers. Controls and procedures for all operation and accounting functions are documented and approved by executive management. As of this report date, effectiveness of internal disclosure controls are considered to be effective with no material deficiencies that could adversely affect Bancshares ability to report accurate and comprehensive financial information to investors. There was no internal fraud of any nature known to management.

Item 6. Exhibits and Reports on Form 8K

The following exhibits are filed herewith or incorporated herein by reference:

99.1) Certification pursuant to 18 U.S.C. 1350

99.2) Certification Under Sarbanes-Oxley Act: Our Chief Executive Officer and Chief Financial Officer furnished to the SEC the certification with respect to this report that is required by Section 906 of the Sarbanes-Oxley Act of 2002.

Reports on Form 8K - None.
