EXPLANATORY NOTE

This report combines the reports on Form 10-Q for the three month period ended June 30, 2014 of Essex Property Trust, Inc. and Essex Portfolio, L.P. Unless stated otherwise or the context otherwise requires, references to “Essex” mean Essex Property Trust, Inc., a Maryland corporation that operates as a self-administered and self-managed real estate investment trust (“REIT”), and references to “EPLP” mean Essex Portfolio, L.P. (the “Operating Partnership”). References to the “Company,” “we,” “us” or “our” mean collectively Essex, EPLP and those entities/subsidiaries owned or controlled by Essex and/or EPLP. References to the “Operating Partnership” mean collectively EPLP and those entities/subsidiaries owned or controlled by EPLP.

Essex is the general partner of EPLP and as the sole general partner of EPLP, Essex has exclusive control of EPLP's day-to-day management.

The Company is structured as an umbrella partnership REIT (“UPREIT”) and Essex contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, Essex receives a number of OP Units (see definition below) in the Operating Partnership equal to the number of shares of common stock it has issued in the equity offering. Contributions of properties to the Company can be structured as tax-deferred transactions through the issuance of OP Units in the Operating Partnership, which is one of the reasons why the Company is structured in the manner outlined above. Based on the terms of EPLP's partnership agreement, OP Units can be exchanged with Essex common stock on a one-for-one basis. The Company maintains a one-for-one relationship between the OP Units of the Operating Partnership issued to Essex and shares of common stock.

The Company believes that combining the reports on Form 10-Q of Essex and EPLP into this single report provides the following benefits:

- enhances investors' understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports

Management operates the Company and the Operating Partnership as one business. The management of Essex consists of the same members as the management of EPLP.

All of the Company's property ownership, development and related business operations are conducted through the Operating Partnership and Essex has no material assets, other than its investment in EPLP. Essex's primary function is acting as the general partner of EPLP. As general partner with control of the Operating Partnership, the Company consolidates the Operating Partnership for financial reporting purposes. Therefore, the assets and liabilities of the Company and the Operating Partnership are the same on their respective financial statements. Essex also issues equity from time to time and guarantees certain debt of EPLP, as disclosed in this report. The Operating Partnership holds substantially all of the assets of the Company, including the Company's ownership interests in its joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from equity offerings by the Company, which are contributed to the capital of the Operating Partnership in exchange for additional limited partnership interests in the Operating Partnership (“OP Units”) (on a one-for-one share of common stock per OP Unit basis), the Operating Partnership generates all remaining capital required by the Company's business. These sources include the Operating Partnership's working capital, net cash provided by operating activities, borrowings under its revolving credit facilities, the issuance of secured and unsecured debt and equity securities and proceeds received from disposition of certain properties and joint ventures.

The Company believes it is important to understand the few differences between Essex and EPLP in the context of how Essex and EPLP operate as a consolidated company. Stockholders' equity, partners' capital and noncontrolling

interest are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The limited partners of the Operating Partnership are accounted for as partners' capital in the Operating Partnership's consolidated financial statements and as noncontrolling interest in Essex's consolidated financial statements. The noncontrolling interest in the Operating Partnership's consolidated financial statements include the interest of unaffiliated partners in various consolidated partnerships and joint venture partners. The noncontrolling interest in the Company's consolidated financial statements include (i) the same noncontrolling interest as presented in the Operating Partnership's consolidated financial statements and (ii) limited partner OP Unitholders of the Operating Partnership. The differences between stockholders' equity and partners' capital result from differences in the equity issued at the Company and Operating Partnership levels.

iii

To help investors understand the significant differences between the Company and the Operating Partnership, this report provides separate consolidated financial statements for the Company and the Operating Partnership; a single set of consolidated notes to such financial statements that includes separate discussions of stockholders' equity or partners' capital, and earnings per share/unit, as applicable; and a combined Management's Discussion and Analysis of Financial Condition and Results of Operations.

This report also includes separate Part I, Item 4. Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of the Company and the Operating Partnership in order to establish that the requisite certifications have been made and that the Company and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

In order to highlight the differences between the Company and the Operating Partnership, the separate sections in this report for the Company and the Operating Partnership specifically refer to the Company and the Operating Partnership. In the sections that combine disclosure of the Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and joint ventures and holds assets and debt, reference to the Company is appropriate because the Company is one business and the Company operates that business through the Operating Partnership. The separate discussions of the Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

The information furnished in the accompanying unaudited condensed consolidated balance sheets, statements of operations and comprehensive income, equity, capital, and cash flows of the Company and the Operating Partnership reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the aforementioned condensed consolidated financial statements for the interim periods and are normal and recurring in nature, except as otherwise noted.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the notes to such unaudited condensed consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations herein. Additionally, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2013.

ESSEX PORTFOLIO L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

June 30, 2014 and 2013

(Unaudited)

(1) Organization and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements present the accounts of Essex Property Trust, Inc. (“Essex” or the “Company”), which include the accounts of the Company and Essex Portfolio, L.P. and subsidiaries (the “Operating Partnership,” which holds the operating assets of the Company), prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented have been included and are normal and recurring in nature. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2013.

All significant intercompany balances and transactions have been eliminated in the condensed consolidated financial statements. Certain reclassifications have been made to conform to the current year's presentation. Such reclassification had no effect on previously reported financial results.

On April 1, 2014, Essex completed the merger with BRE Properties, Inc. (“BRE”). In connection with the closing of the merger, (1) BRE merged into a wholly owned subsidiary of Essex, and (2) each outstanding share of BRE common stock was converted into (i) 0.2971 shares (the “Stock Consideration”) of Essex common stock, and (ii) \$7.18 in cash, (the “Cash Consideration”), plus cash in lieu of fractional shares for total consideration of approximately \$4.3 billion. The Cash Consideration was adjusted as a result of the authorization and declaration of a special distribution to the stockholders of BRE of \$5.15 per share of BRE common stock payable to BRE stockholders of record as of the close of business on March 31, 2014 (the “Special Dividend”). The Special Dividend was payable as a result of the closing of the sale of certain interests in assets of BRE to certain parties, which closed on March 31, 2014. Pursuant to the terms of the merger agreement, the amounts payable as a Special Dividend reduced the Cash Consideration of \$12.33 payable by Essex in the merger to \$7.18 per share of BRE common stock.

Essex issued approximately 23.1 million shares of Essex common stock as Stock Consideration in the merger. For purchase accounting, the value of the common stock issued by Essex upon the consummation of the merger was determined based on the closing price of BRE's common stock on the closing date of the merger. As a result of Essex being admitted to the S&P 500 on the same date as the closing of the merger, Essex's common stock price experienced significantly higher than usual trading volume and the closing price of \$174 per share was significantly higher than its volume-weighted average trading price for the days before and after April 1, 2014. BRE's common stock did not experience the same proportionate increase in common stock price leading up to April 1, 2014. As a result, given that a substantial component of the purchase price is an exchange of equity instruments, Essex used the closing price of BRE's common stock on April 1, 2014 of \$61 per share, less the Cash Consideration, as the fair value of the equity consideration. After deducting the Special Dividend and the Cash Consideration per share, this resulted in a value of \$48.67 per share of BRE common stock which is the equivalent of approximately \$164 per share of Essex common stock issued.

The unaudited condensed consolidated financial statements for the three months ended June 30, 2014 and 2013 include the accounts of the Company and the Operating Partnership. Essex is the sole general partner in the Operating Partnership, with a 96.6% general partnership interest as of June 30, 2014. Total OP units outstanding were 2,171,422 and 2,149,802 as of June 30, 2014 and December 31, 2013, respectively, and the redemption value of the OP units,

Edgar Filing: ESSEX PROPERTY TRUST INC - Form 10-Q

based on the closing price of the Company's common stock totaled \$401.5 million and \$308.5 million, as of June 30, 2014 and December 31, 2013, respectively.

As of June 30, 2014 the Company owned or had ownership interests in 239 apartment communities, aggregating 55,855 units, excluding the Company's ownership in preferred interest co-investments, (collectively, the "Communities", and individually, a "Community"), five commercial buildings and eleven active developments (collectively, the "Portfolio"). The Communities are located in Southern California (Los Angeles, Orange, Riverside, San Diego, Santa Barbara, and Ventura counties), Northern California (the San Francisco Bay Area) and the Seattle and Phoenix metropolitan areas.

Notes to Condensed Consolidated Financial Statements

June 30, 2014 and 2013

(Unaudited)

Marketable Securities

The Company reports its available for sale securities at fair value, based on quoted market prices (Level 2 for the unsecured bonds and Level 1 for the common stock and investment funds, as defined by the Financial Accounting Standards Board ("FASB") standard for fair value measurements, and any unrealized gain or loss is recorded as other comprehensive income (loss). Realized gains and losses, interest and dividend income, and amortization of purchase discounts are included in interest and other income on the condensed consolidated statement of operations and comprehensive income.

As of June 30, 2014 and December 31, 2013, marketable securities consisted primarily of investment-grade unsecured bonds, common stock, investments in mortgage backed securities and investment funds that invest in U.S. treasury or agency securities. As of June 30, 2014 and December 31, 2013, the Company classified its investments in mortgage backed securities, which mature in November 2019 and September 2020, as held to maturity, and accordingly, these securities are stated at their amortized cost. As of June 30, 2014 and December 31, 2013 marketable securities consist of the following (\$ in thousands):

	June 30, 2014		
	Cost/ Amortized Cost	Gross Unrealized Gain	Carrying Value
Available for sale:			
Investment-grade unsecured bonds	\$ 11,627	\$ 217	\$ 11,844
Investment funds - US treasuries	3,842	6	3,848
Common stock	25,492	2,467	27,959
Held to maturity:			
Mortgage backed securities	62,707	-	62,707
Total	\$ 103,668	\$ 2,690	\$ 106,358
	December 31, 2013		
	Cost/ Amortized Cost	Gross Unrealized Gain (Loss)	Carrying Value
Available for sale:			
Investment-grade unsecured bonds	\$ 15,446	\$ 509	\$ 15,955
Investment funds - US treasuries	3,675	3	3,678
Common stock	13,104	(1,304)	11,800
Held to maturity:			
Mortgage backed securities	58,651	-	58,651
Total	\$ 90,876	\$ (792)	\$ 90,084

The Company uses the specific identification method to determine the cost basis of a security sold and to reclassify amounts from accumulated other comprehensive income for securities sold. For the six months ended June 30, 2014, and 2013, the proceeds from sales of available for sale securities totaled \$5.2 million and \$20.3 million, respectively,

which resulted in gains of \$0.9 million and \$1.8 million, respectively.

Variable Interest Entities

The Company consolidates 19 DownREIT limited partnerships (comprising twelve communities) since the Company is the primary beneficiary of these variable interest entities (“VIEs”). Total DownREIT units outstanding were 994,258 and 1,007,879 as of June 30, 2014 and December 31, 2013 respectively, and the redemption value of the units, based on the closing price of the Company’s common stock totaled \$183.8 million and \$144.6 million, as of June 30, 2014 and December 31, 2013, respectively. The consolidated total assets and liabilities related to these VIEs, net of intercompany eliminations, were approximately \$232.6 million and \$221.2 million, respectively, as of June 30, 2014 and \$194.9 million and \$178.3 million, respectively, as of December 31, 2013. Interest holders in VIEs consolidated by the Company are allocated income equal to the cash distributions made to those interest holders. The remaining results of operations are allocated to the Company. As of June 30, 2014 and December 31, 2013, the Company did not have any other VIEs of which it was deemed to be the primary beneficiary.

(Unaudited)

Equity Based Compensation

The Company accounts for equity based compensation using the fair value method of accounting. The estimated fair value of stock options granted by the Company is being amortized over the vesting period of the stock options. The estimated grant date fair values of the long term incentive plan units (discussed in Note 13, "Equity Based Compensation Plans," in the Company's Form 10-K for the year ended December 31, 2013) are being amortized over the expected service periods.

Stock-based compensation expense for options and restricted stock totaled \$1.6 million and \$0.5 million for the three months ended June 30, 2014 and 2013, respectively, and \$2.2 million and \$1.1 million for the six months ended June 30, 2014 and 2013, respectively. The intrinsic value of the stock options exercised during the three months ended June 30, 2014 and 2013 totaled \$2.5 million and \$1.9 million, respectively, and \$3.2 million and \$2.8 million for the six months ended June 30, 2014 and 2013, respectively. As of June 30, 2014, the intrinsic value of the stock options outstanding and fully vested totaled \$17.4 million. As of June 30, 2014, total unrecognized compensation cost related to unvested share-based compensation granted under the stock option and restricted stock plans totaled \$5.5 million. The cost is expected to be recognized over a weighted-average period of 1 to 5 years for the stock option plans and is expected to be recognized straight-line over a period of 1 to 7 years for the restricted stock awards.

The Company has adopted an incentive program involving the issuance of Series Z-1 Incentive Units of limited partnership interest in the Operating Partnership. The Operating Partnership also issued 50,500 units under the 2014 Long-Term Incentive Plan Award agreements in December 2013. Pursuant to the 2014 Long-Term Incentive Plan Awards, each recipient was initially granted a number of 2014 Long-Term Incentive Plan Units (the "2014 LTIP Units"), 90% of which are subject to performance-based vesting, and 10% of which are subject to service-based vesting based on continued employment. One-third of the performance-based vesting of the 2014 LTIP Units initially granted will be eligible to be earned by recipients based on Essex's absolute total stockholder return and two-thirds will be eligible to be earned based on Essex's relative total stockholder return, in each case, during a one-year performance period beginning on the initial grant date of the awards. All 2014 LTIP Units that are earned vest over a four year period commencing on the grant date.

Stock-based compensation expense for Z-1 Units and 2014 LTIP Units totaled \$0.2 million and \$0.5 million for the three months ended June 30, 2014 and 2013, respectively, and \$0.8 million and \$1.0 million for the six months ended June 30, 2014 and 2013, respectively. As of June 30, 2014, the intrinsic value of the Z-1 Units and 2014 LTIP Units subject to future vesting totaled \$24.3 million. As of June 30, 2014, total unrecognized compensation cost related to Z-1 Units and 2014 LTIP Units subject to future vesting totaled \$7.1 million. The unamortized cost is expected to be recognized over 6 years subject to the achievement of the stated performance criteria.

Fair Value of Financial Instruments

Management believes that the carrying amounts of outstanding lines of credit, notes and other receivables approximate fair value as of June 30, 2014 and December 31, 2013, because interest rates, yields and other terms for these instruments are consistent with yields and other terms currently available for similar instruments. Management has estimated that the fair value of the Company's \$4.46 billion of fixed rate debt, including unsecured bonds, at June 30, 2014 is approximately \$4.63 billion and the fair value of the Company's \$539.2 million of variable rate debt, excluding borrowings under the lines of credit, at June 30, 2014 is \$520.4 million based on the terms of existing

mortgage notes payable, unsecured bonds and variable rate demand notes compared to those available in the marketplace. Management believes that the carrying amounts of cash and cash equivalents, restricted cash, accounts payable and accrued liabilities, construction payables, other liabilities and dividends payable approximate fair value as of June 30, 2014 due to the short-term maturity of these instruments. Marketable securities, except mortgage backed securities that are held to maturity, and derivatives are carried at fair value as of June 30, 2014.

Index

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES

ESSEX PORTFOLIO L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

June 30, 2014 and 2013

(Unaudited)

At June 30, 2014, the Company's investments in mortgage backed securities had a carrying value of \$62.7 million and the Company estimated the fair value to be approximately \$92.0 million. At December 31, 2013, the Company's investments in mortgage backed securities had a carrying value of \$58.7 million and the Company estimated the fair value to be approximately \$86.2 million. The Company determines the fair value of the mortgage backed securities based on unobservable inputs (level 3 of the fair value hierarchy) considering the assumptions that market participants would make in valuing these securities. Assumptions such as estimated default rates and discount rates are used to determine expected, discounted cash flows to estimate the fair value.

Capitalization of Costs

The Company's capitalized internal costs related to development and redevelopment projects totaled \$3.0 million and \$1.7 million during the three months ended June 30, 2014 and 2013, respectively, and \$4.7 million and \$3.3 million during the six months ended June 30, 2014 and 2013, respectively, most of which relates to development projects. These totals include capitalized salaries of \$2.0 million and \$0.6 million for the three months ended June, 2014 and 2013, respectively, and \$4.2 million and \$1.2 million for the six months ended June 30, 2014 and 2013, respectively. The Company capitalizes leasing commissions associated with the lease-up of a development community and amortizes the costs over the life of the leases. The amounts capitalized are immaterial for all periods presented.

Co-investments

The Company owns investments in joint ventures ("co-investments") in which it has significant influence, but its ownership interest does not meet the criteria for consolidation in accordance with the accounting standards. Therefore, the Company accounts for these investments using the equity method of accounting. Under the equity method of accounting, the investment is carried at the cost of assets contributed, plus the Company's equity in earnings less distributions received and the Company's share of losses. The significant accounting policies of the Company's co-investment entities are consistent with those of the Company in all material respects. For preferred equity investments, the Company recognizes its preferred interest in equity income in co-investments.

Upon the acquisition of a controlling interest of a co-investment, the co-investment entity is consolidated and a gain or loss is recognized upon the remeasurement of co-investments in the consolidated statement of operations equal to the amount by which the fair value of the co-investment interest the Company previously owned exceeds its carrying value. A majority of the co-investments, excluding the preferred equity investments, compensate the Company for its asset management services and may provide promote income if certain financial return benchmarks are achieved. Asset management fees are recognized when earned, and promote fees are recognized when the earnings events have occurred and the amount is determinable and collectible. Any promote fees are reflected in equity income (loss) from co-investments.

Realized gains and losses on available for sale securities are included in interest and other income on the condensed consolidated statement of operations and comprehensive income.

Accounting Estimates

The preparation of condensed consolidated financial statements, in accordance with GAAP, requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to acquiring, developing and assessing the carrying values of its real estate portfolio, its investments in and advances to joint ventures and affiliates, its notes receivables and its qualification as a Real Estate Investment Trust ("REIT"). The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions.

Discontinued Operations

In April 2014, the Financial Accounting Standards Board ("FASB") issued ASU, No. 2014-018, Presentation of Financial Statements, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. ASU 2014-018 changes the requirements for reporting discontinued operation under Subtopic 205-20, Presentation of Financial Statements—Discontinued Operations. The amendment updates the definition of discontinued operations and defines discontinued operations to be those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. This ASU is effective for disposals of components of an entity that occur within annual periods beginning on or after December 15, 2014 with early adoption permitted, but only for disposals that have not been reported in financial statements previously issued.

The Company adopted ASU 2014-018 in its first quarter of 2014. In the first quarter of 2014, Essex sold Vista Capri North, a 106 unit community located in San Diego, CA for \$14.4 million. The total gain on sale was \$7.9 million. The Company determined that the disposal was not a discontinued operation in accordance with ASU 2014-018. The gain is recorded in gains on sale of real estate and land in the condensed consolidated statements of operations and comprehensive income. The Company did not sell any properties in the second quarter of 2014.

BRE Merger

As previously discussed in Note 1, the merger with BRE closed on April 1, 2014 and 14 of the BRE properties were acquired on March 31, 2014. The preliminary fair value of the assets acquired on March 31, 2014 in exchange for \$1.4 billion of OP units was substantially all attributable to rental properties which included land, buildings and improvements, and real estate under development and approximately \$19 million attributable to acquired in-place lease value. With regards to the BRE merger that closed on April 1, 2014, a summary of the preliminary fair value of the assets and liabilities acquired on April 1, 2014 in exchange for the total consideration of approximately \$4.3 billion were as follows (includes the 14 properties acquired on March 31, 2014 as the OP units issued were retired on April 1, 2014) (in millions):

Cash assumed	\$ 140
Rental properties and real estate under development	5,613
Real estate held for sale, net	108
Co-investments	223
Acquired in-place lease value	80
Other assets	16
Mortgage notes payable and unsecured debt	(1,747)
Other liabilities	(94)
Redeemable noncontrolling interest	(5)
	\$4,334
Cash consideration for BRE merger	\$556
Equity consideration for BRE merger	3,778
Total consideration for BRE merger	\$4,334

The initial purchase accounting is based on management's preliminary assessment, which may differ when final information becomes available. Subsequent adjustments made to the initial purchase accounting, if any, are made within the measurement period, which will be finalized within one year of the acquisition date.

The unaudited pro forma financial information set forth below is based on Essex's historical condensed consolidated statement of operations and comprehensive income for the three and six months ended June 30, 2014 and June 30, 2013, adjusted to give effect to the merger with BRE including the 14 BRE properties acquired on March 31, 2014, as if they occurred on January 1, 2013. The pro forma adjustments primarily relate to merger expenses, depreciation expense on acquired buildings and improvements, amortization of acquired intangibles, and estimated interest expense related to assumed debt.

2014 supplemental pro forma net income available to common stockholders were adjusted to exclude \$26.5 million and \$42.6 million of merger related costs incurred by Essex during the three and six months ended June 30, 2014. 2013 supplemental pro forma net income available to common stockholders were adjusted to include these charges plus \$4.3 million of merger related costs incurred by Essex during the three months ended December 31, 2013. 2014 and 2013 supplemental proforma earnings per share, diluted, were adjusted by approximately 23.1 million shares due to the common stock issued in connection with the merger.

2014 supplemental pro forma net income available to common stockholders includes approximately \$105 million from discontinued operations related to the sale of three BRE properties during the quarter ended March 31, 2014 that are non-recurring transactions.

Revenues of approximately \$91.5 million and net loss of approximately \$4.0 million associated with properties acquired in 2014 in the BRE merger are included in the condensed consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2014 for both Parent Company and Operating Partnership.

(2) Significant Transactions During the Second Quarter of 2014 and Subsequent Events

Acquisitions

In May, the Company acquired Collins on Pine, a 76 unit community in Seattle, WA for \$29.2 million. The property was completed in December 2013 and is located in the Capitol Hill District, a short distance from our Vox Apartment community acquired in October 2013.

In July 2014, the Company acquired Paragon Apartments located in Fremont, CA for \$111.0 million. The property was built in 2013 and has 301 apartment homes. Paragon Apartments is condo mapped and is conveniently located near the Fremont Bart station and high paying jobs in Silicon Valley. For further discussion, see Note 5, Related Party Transactions.

Common Stock

During the second quarter, the Company issued 792,700 shares of common stock at an average price of \$179.50 for net proceeds of \$141.4 million. Subsequent to quarter end, the Company has issued 362,532 shares of common stock at an average price of \$187.28, for net proceeds of \$67.5 million. Year to date, the Company issued 2,115,887 shares of common stock at an average price of \$174.82 for net proceeds of \$366.9 million.

Wesco IV and AEW

On April 1, 2014, in connection with the merger, the Company acquired a 50% interest in Wesco IV LLC ("Wesco IV") and a 50% interest in BEXAEW LLC ("BEXAEW"). Wesco IV and BEXAEW's remaining 50% interest is owned by an institutional partner. Wesco IV and BEXAEW expect to utilize debt targeted at approximately 50% and 60%,

respectively, of the cost to acquire and improve real estate. Under the terms of Wesco IV's and BEXAEW's operating agreements, Essex is entitled to asset management, property management, development and redevelopment service fees. In addition, Essex is entitled to its 50% pro rata share of the income or loss generated by these entities and upon the achievement of certain performance measures, is entitled to promote income. As of June 30, 2014, Wesco IV owned five apartment communities with 1,116 units with an aggregate carrying value of approximately \$297.7 million. As of June 30, 2014, BEXAEW owned nine apartment communities with 2,723 units with an aggregate carrying value of approximately \$516.1 million.

(4) Notes and Other Receivables

Notes receivable secured by real estate and other receivables consist of the following as of June 30, 2014 and December 31, 2013 (dollars in thousands):

	June 30, 2014	December 31, 2013
Notes receivable, secured, bearing interest at 4.0%, due December 2014 ⁽¹⁾	\$3,212	\$ 3,212
Notes and other receivables from affiliates ⁽²⁾	28,133	60,968
Other receivables ⁽³⁾	35,177	4,075
	\$66,522	\$ 68,255

(1) The borrower funds an impound account for capital replacement.

As of June 30, 2014, the Company had a receivable of \$19.8 million from CPPIB that was paid in July 2014. As of December 31, 2013, the Company provided two bridge loans, for Gas Company Lofts and Regency at Mt.

(2) View, totaling \$56.8 million to Wesco III at a rate of LIBOR + 2.50%. Wesco III repaid these two loans on Gas Company Lofts and Regency at Mt. View in January 2014 and April 2014, respectively.

(3) Amount includes \$20.0 million for the sale of the Company's common stock which was settled in July 2014.

(5) Related Party Transactions

Fees earned from affiliates include management, development and redevelopment fees from co-investments of \$5.0 million and \$3.2 million during the three months ended June 30, 2014 and 2013, respectively, of which \$2.2 million and \$1.2 million were classified as a reduction to general and administrative expenses. Fees were \$7.6 million and \$6.0 million during the six months ended June 30, 2014 and 2013, respectively, of which \$3.1 million and \$2.1 million were classified as a reduction to general and administrative expenses. All of these fees are net of intercompany amounts eliminated by the Company.

The Company's Chairman and founder, Mr. George Marcus, is the Chairman of the Marcus & Millichap Company ("MMC"), which is a parent company of a diversified group of real estate service, investment, and development firms. Mr. Marcus is also the Co-Chairman of Marcus & Millichap, Inc. ("MMI"), and Mr. Marcus owns a controlling interest in MMI. MMI is a national brokerage firm listed on the NYSE that underwent its initial public offering in 2013. During the third quarter of 2013, the Company restructured the terms of a preferred equity investment on a property located in Anaheim, California, reducing the rate from 13% to 9%, while extending the maximum term by one year. The Company recorded \$0.4 million of income related to the restructured investment. The entity that owns the property is an affiliate of MMC. Independent members of the Company's Board of Directors that serve on the Nominating and Corporate Governance and Audit Committees approved the restructuring of the investment in this entity.

In July 2014, the Company acquired Paragon Apartments, a 301 apartment community located in Fremont, CA for \$111.0 million from an entity that was partially owned by an affiliate of MMC. Independent members of the Company's Board of Directors that serve on the Nominating and Corporate Governance and Audit Committees

approved the acquisition of Paragon Apartments.

In January 2013, the Company invested \$8.6 million as a preferred equity interest investment in an entity affiliated with MMC that owns an apartment development in Redwood City, California. Independent members of the Company's Board of Directors that serve on the Nominating and Corporate Governance and Audit Committees approved the investment in this entity.

As described in Note 4, the Company has provided short-term bridge loans to affiliates. As of December 31, 2013, two loans remained outstanding totaling \$56.8 million; Wesco III repaid these two loans on Gas Company Lofts and Regency at Mt. View in January 2014 and April 2014, respectively. As of June 30, 2014, one loan remained outstanding totaling \$19.8 million; CPPIB repaid this receivable in July 2014.

(6) Unsecured Debt and Lines of Credit

Essex does not have any indebtedness as all debt is incurred by the Operating Partnership. Essex guarantees the Operating Partnership's unsecured debt including the revolving credit facilities for the full term of such facilities.

In April 2014, the Company, through its operating partnership, assumed \$900.0 million aggregate principal amount of BRE's 5.500% senior notes due 2017; 5.200% senior notes due 2021; and 3.375% senior notes due 2023 and mortgage notes payable with a principal balance of \$711.3 million with remaining loan terms ranging from one to seven years and a weighted average interest rate of 5.6%. The Company recorded the debt assumed at fair value in accordance with purchase accounting. As a result, a premium of \$124.5 million was recorded to adjust the carrying value of their fair value which is being amortized as a reduction in interest expense over the term of the related debt using the effective interest method.

Unsecured debt and lines of credit consist of the following as of June 30, 2014 and December 31, 2013 (\$ in thousands):

	June 30, 2014	December 31, 2013	Weighted Average Maturity In Years
Bonds private placement - fixed rate	\$465,000	\$465,000	4.7
Term loan - variable rate	350,000	350,000	2.7
Bonds public offering - fixed rate	1,933,494	595,023	7.5
Unsecured debt	2,748,494	1,410,023	
Lines of credit	66,975	219,421	4.7
Total unsecured debt and lines of credit	\$2,815,469	\$1,629,444	
Weighted average interest rate on fixed rate unsecured bonds	3.7	% 4.0	%
Weighted average interest rate on variable rate term loan	2.4	% 2.5	%
Weighted average interest rate on line of credit	1.7	% 2.2	%

The aggregate scheduled principal payments of the Company's outstanding debt as of June 30, 2014 are as follows:

2014	\$-
2015	66,721
2016	369,225
2017	669,962

(7) Segment Information

The Company defines its reportable operating segments as the three geographical regions in which its apartment communities are located: Southern California, Northern California and Seattle Metro. Excluded from segment revenues are properties classified in discontinued operations, management and other fees from affiliates, and interest and other income. Non-segment revenues and net operating income included in the following schedule also consist of revenue generated from commercial properties. Other non-segment assets include real estate under development, co-investments, cash and cash equivalents, marketable securities, notes and other receivables, prepaid expenses and other assets and deferred charges.

ESSEX PORTFOLIO L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

June 30, 2014 and 2013

(Unaudited)

(9) Derivative Instruments and Hedging Activities

The Company has entered into interest rate swap contracts with an aggregate notional amount of \$300 million that effectively fixed the interest rate on \$300 million of the \$350 million unsecured term loan at 2.4%. These derivatives qualify for hedge accounting.

As of June 30 2014, the Company also had nine interest rate cap contracts totaling a notional amount of \$156.9 million that qualify for hedge accounting as they effectively limit the Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for substantially all of the Company's tax exempt variable rate debt.

As of June 30, 2014 and December 31, 2013, the aggregate carrying value of the interest rate swap contracts was a liability of \$2.7 million, respectively, which is classified in other liabilities on the condensed consolidated balance sheet.

(10) Commitments and Contingencies

To the extent that an environmental matter arises or is identified in the future that has other than a remote risk of having a material impact on the financial statements, the Company will disclose the estimated range of possible outcomes, and, if an outcome is probable, accrue an appropriate liability for remediation and other potential liability. The Company will consider whether such occurrence results in an impairment of value on the affected property and, if so, impairment will be recognized.

The Company provided a payment guarantee to the counterparties in relation to the total return swaps entered into by the joint venture responsible for the development of The Huxley (formerly Fountain at La Brea) and The Dylan (formerly Santa Monica at La Brea) communities. Further, the Company has guaranteed completion of development and made certain debt service guarantees for The Huxley and The Dylan. The outstanding balance for the loans is included in the debt line item in the summarized balance sheet of the co-investments included in Note 3. The payment guarantee is for the payment of the amounts due to the counterparty related to the total return swaps which are scheduled to mature in September and December 2016. The maximum exposure of the guarantee as of June 30, 2014 was \$114.4 million based on the aggregate outstanding debt amount.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Company's Condensed Consolidated Financial Statements and accompanying Notes thereto included elsewhere herein and with the Company's 2013 Annual Report on Form 10-K for the year ended December 31, 2013.

On April 1, 2014, Essex completed the merger with BRE Properties, Inc. ("BRE"). In connection with the closing of the merger, (1) BRE merged into a wholly owned subsidiary of Essex, and (2) each outstanding share of BRE common stock was converted into (i) 0.2971 shares (the "Stock Consideration") of Essex common stock, and (ii) \$7.18 in cash, (the "Cash Consideration"), plus cash in lieu of fractional shares for total consideration of approximately \$4.3 billion. The Cash Consideration was adjusted as a result of the authorization and declaration of a special distribution to the stockholders of BRE of \$5.15 per share of BRE common stock payable to BRE stockholders of record as of the close

of business on March 31, 2014 (the “Special Dividend”). The Special Dividend was payable as a result of the closing of the sale of certain interests in assets of BRE to certain parties, which closed on March 31, 2014. Pursuant to the terms of the merger agreement, the amounts payable as a Special Dividend reduced the Cash Consideration of \$12.33 payable by Essex in the merger to \$7.18 per share of BRE common stock.

Essex issued approximately 23.1 million shares of Essex common stock as Stock Consideration in the merger. For purchase accounting, the value of the common stock issued by Essex upon the consummation of the merger was determined based on the closing price of BRE’s common stock on the closing date of the merger. As a result of Essex being admitted to the S&P 500 on the same date as the closing of the merger, Essex’s common stock price experienced significantly higher than usual trading volume and the closing price of \$174 per share was significantly higher than its volume-weighted average trading price for the days before and after April 1, 2014. BRE’s common stock did not experience the same proportionate increase in common stock price leading up to April 1, 2014. As a result, given that a Substantial component of the purchase price is an exchange of equity instruments, Essex used the closing price of BRE’s common stock on April 1, 2014 of \$61 per share, less the Cash Consideration, as the fair value of the equity consideration. After deducting the Special Dividend and the Cash Consideration per share, this resulted in a value of \$48.67 per share of BRE common stock which is the equivalent of approximately \$164 per share of Essex common stock issued. The net assets and results of operations of BRE are included in these condensed consolidated financial statements as of April 1, 2014.

27

Index

The Company is a fully integrated Real Estate Investment Trust (“REIT”), and its property revenues are generated primarily from apartment community operations. The Company’s investment strategy has two components: constant monitoring of existing markets, and evaluation of new markets in the Company’s current three geographical regions to identify areas with the characteristics that underlie rental growth. The Company’s strong financial condition supports its investment strategy by enhancing its ability to quickly shift the Company’s acquisition, development, and disposition activities to markets that will optimize the performance of the portfolio.

As of June 30, 2014, the Company had ownership interests in 239 apartment communities, comprising 55,855 apartment units, excluding the Company’s ownership in preferred equity interest co-investments, and the Company also had ownership interests in five commercial buildings with approximately 457,500 square feet. The Company’s apartment communities are located in the following major West Coast regions:

Southern California (Los Angeles, Orange, Riverside, San Diego, Santa Barbara, and Ventura counties)

Northern California (the San Francisco Bay Area)

Seattle Metro (Seattle metropolitan area)

Phoenix Metro (Phoenix metropolitan area)

As of June 30, 2014, the Company’s development pipeline was comprised of three consolidated projects under development and eight unconsolidated joint venture projects under development, all aggregating 2,219 units, with total incurred costs of \$904.0 million, and estimated remaining project costs of approximately \$328.0 million for total estimated project costs of \$1.2 billion.

The Company’s consolidated apartment communities are as follows:

	As of June 30, 2014		As of June 30, 2013	
	Apartment Units		Apartment Units	
	Units	%	Units	%
Southern California	22,207	47 %	13,656	46 %
Northern California	13,769	30 %	9,431	32 %
Seattle Metro	9,996	21 %	6,720	22 %
Arizona	902	2 %	-	-
Total	46,874	100%	29,807	100%

Co-investments, including Wesco I, LLC (“Wesco I”), Wesco III, LLC (“Wesco III”), Wesco IV, LLC (“Wesco IV”), and BEXAEW, LLC (“AEW”) communities, and preferred equity interest co-investment communities are not included in the table presented above for both periods.

Comparison of the Three Months Ended June 30, 2014 to the Three Months Ended June 30, 2013

The Company’s average financial occupancies for the Company’s stabilized apartment communities or “Quarterly Same-Property” (stabilized properties consolidated by the Company for the quarters ended June 30, 2014 and 2013) increased 10 basis points to 96.1% as of June 30, 2014 from 96.0% as of June 30, 2013. Financial occupancy is defined as the percentage resulting from dividing actual rental revenue by total possible rental revenue. Actual rental revenue represents contractual rental revenue pursuant to leases without considering delinquency and concessions. Total possible rental revenue represents the value of all apartment units, with occupied units valued at contractual rental rates pursuant to leases and vacant units valued at estimated market rents. We believe that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant unit at its estimated market rate.

Market rates are determined using the recently signed effective rates on new leases at the property and are used as the starting point in the determination of the market rates of vacant units. The Company may increase or decrease these rates based on the supply and demand in the apartment community's market. The Company will check the reasonableness of these rents based on its position within the market and compare the rents against the asking rents by comparable properties in the market. Financial occupancy may not completely reflect short-term trends in physical occupancy and financial occupancy rates, as disclosed by other REITs, may not be comparable to the Company's calculation of financial occupancy.

28

Index

The Company does not take into account delinquency and concessions to calculate actual rent for occupied units and market rents for vacant units. The calculation of financial occupancy compares contractual rates for occupied units to estimated market rents for unoccupied units, thus the calculation compares the gross value of all apartment units excluding delinquency and concessions. For apartment communities that are development properties in lease-up without stabilized occupancy figures, the Company believes the physical occupancy rate is the appropriate performance metric. While an apartment community is in the lease-up phase, the Company's primary motivation is to stabilize the property which may entail the use of rent concessions and other incentives, and thus financial occupancy, which is based on contractual revenue is not considered the best metric to quantify occupancy.

The regional breakdown of the Company's Quarterly Same-Property portfolio for financial occupancy for the three months ended June 30, 2014 and 2013 is as follows:

	Three months ended June 30,	
	2014	2013
Southern California	96.3%	95.8%
Northern California	96.0%	96.1%
Seattle Metro	96.0%	96.1%

The following table provides a breakdown of revenue amounts, including revenues attributable to the Quarterly Same-Property portfolio:

	Number of Properties	Three Months Ended June 30,		Dollar Change	Percentage Change	
		2014	2013			
Property Revenues (dollars in thousands)						
Quarterly Same-Property:						
Southern California	59	\$66,176	\$62,808	\$3,368	5.4	%
Northern California	38	54,159	49,528	4,631	9.4	
Seattle Metro	34	28,418	26,480	1,938	7.3	
Total Quarterly Same-Property revenues	131	148,753	138,816	9,937	7.2	
Quarterly Non-Same Property Revenues (1)		17,226	9,965	7,261	72.9	
Legacy BRE Portfolio Property Revenues (2)		90,635	-	90,635	-	
Total property revenues		\$256,614	\$148,781	\$107,833	72.5	%

(1)Includes eight communities acquired after January 1, 2013 and one redevelopment community.

(2)Includes 55 properties acquired from BRE on April 1, 2014 and March 31, 2014.

Quarterly Same-Property Revenues increased by \$9.9 million or 7.2% to \$148.8 million in the second quarter of 2014 from \$138.8 million in the second quarter of 2013. The increase was primarily attributable to an increase in scheduled rents of \$9.4 million as reflected in an increase of 6.9% in average rental rates from \$1,603 per unit in the second quarter of 2013 to \$1,713 per unit in the second quarter of 2014. Scheduled rents increased by 4.8%, 9.3%, and 7.4% in Southern California, Northern California, and Seattle Metro, respectively. On a sequential basis the Company experienced Quarterly Same-Property revenue growth from the first quarter of 2014 to the second quarter of 2014 of \$2.3 million or 1.6%, resulting from sequential revenue growth in all three regions mainly driven by a 2.1% increase in scheduled rents offset by an decrease of 40 basis points in occupancy compared to the first quarter of 2014.

Quarterly Non-Same Property Revenues increased by \$7.3 million or 72.9% to \$17.2 million in the second quarter of 2014 from \$10.0 million in the second quarter of 2013. The increase was primarily due to revenue generated from

eight communities acquired since January 1, 2013 (Avery, Bennett Lofts, Collins on Pine, Domain, Fox Plaza, Piedmont, Slater 116 and Vox) and \$1.8 million of utility reimbursement in connection with the adoption of the accrual method of accounting for utility reimbursement in the second quarter of 2014.

29

Index

Management and other fees increased by \$0.8 million in the second quarter of 2014 as compared to the second quarter of 2013. The increase is primarily due to a \$0.5 million acquisition fee income in the second quarter of 2014 and increased fees due to the 17 new joint venture properties in the second quarter of 2014 offset by a reduction of \$0.5 million in asset and property management fees from the sale of Fund II communities in 2013. Four communities owned by Fund II were sold in the third quarter of 2013 and one community was sold during the first quarter of 2014.

Property operating expenses, excluding real estate taxes increased \$18.7 million to \$52.9 million in the second quarter of 2014 from \$34.1 million in the second quarter of 2013, primarily due to the BRE merger and the acquisition of eight communities. Quarterly Same-Property operating expenses, excluding real estate taxes, increased by \$0.7 million or 2.2% for the second quarter of 2014 compared to the second quarter of 2013, primarily due to a \$0.3 million increase in utility expense.

Real estate taxes increased by \$16.2 million for the second quarter of 2014 compared to the second quarter of 2013 due primarily to the BRE merger and the acquisition of eight communities. Quarterly Same-Property real estate taxes increased by \$0.7 million or 5.4% for second quarter of 2014 compared to the second quarter of 2013 due to \$0.4 million or a 13.9% increase in property taxes for the Seattle Metro due to higher assessed values for 2014, and an increase of 3% in property taxes for the majority of the properties located in California. In connection with the BRE merger, the Company has increased its property taxes accrual due to BRE acquired properties based on estimated assessed values. The Company bases its estimates on current market conditions and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions.

Depreciation expense increased by \$49.8 million for the second quarter of 2014 compared to the second quarter of 2013, due to the BRE merger and the acquisition of eight communities. Also, the increase is due to the capitalization of approximately \$60.2 million in additions to rental properties through the second quarter of 2014, including \$19.5 million spent on redevelopment, and \$6.1 million on improvements to recent acquisitions, and the capitalization of approximately \$104.2 million in additions to rental properties in 2013, including \$42.0 million spent on redevelopment, \$21.2 million on improvements to recent acquisitions, \$8.6 million on lessor required capital expenditures, and \$5.3 million spent on revenue generating capital expenditures.

General and administrative expense increased \$3.0 million or 45.1% for the second quarter of 2014 compared to the second quarter of 2013 primarily due to additional corporate employees from the BRE merger.

Merger expenses include, but are not limited to, advisor fees, legal, and accounting fees related to the merger with BRE. Merger expenses were \$26.5 million for second quarter of 2014 and zero for the second quarter of 2013. In the second quarter of 2014, merger expenses primarily included \$15.1 million of advisory fees, \$2.9 million of stock based compensation, \$1.8 million of transfer taxes, and professional fees and charges in connection with abandoned assets and excess space.

Interest expense increased \$12.8 million for the second quarter of 2014 compared to the second quarter of 2013, due to an increase in average outstanding debt used to fund the BRE merger offset by an increase in capitalized interest of \$3.9 million related to development activity.

Interest and other income increased by \$0.9 million for the second quarter of 2014 compared to the second quarter of 2013 primarily due to interest income reflecting a gain of \$0.5 million from the sales of marketable securities and higher interest income attributable to an increase in an estimated return on mortgage backed securities.

Equity income in co-investments decreased \$1.7 million for the second quarter of 2014 compared to the second quarter of 2013 primarily due to the second quarter of 2013 recognition of a \$2.4 million gain on the sale of a joint venture property offset by \$1.1 million in promote income recognized in the second quarter of 2014.

Comparison of the Six Months Ended June 30, 2014 to the Six Months Ended June 30, 2013

Our average financial occupancies for the Company's stabilized apartment communities or "2014/2013 Same-Property" (stabilized properties consolidated by the Company for the six months ended June 30, 2014 and 2013) was 96.3% for both six months ended June 30, 2014 and June 30, 2013.

Index

The regional breakdown of the Company's 2014/2013 Same-Property portfolio for financial occupancy for the six months ended June 30, 2014 and 2013 is as follows:

	Six Months Ended June 30, 2014 2013	
Southern California	96.4%	96.2%
Northern California	96.3%	96.3%
Seattle Metro	96.3%	96.3%

The following table provides a breakdown of revenue amounts, including revenues attributable to the 2014/2013 Same-Property portfolio:

	Number of Properties	Six Months Ended June 30, 2014 2013		Dollar Change	Percentage Change	
Property Revenues (dollars in thousands)						
2014/2013 Same-Properties:						
Southern California	59	\$131,651	\$125,239	\$6,412	5.1	%
Northern California	38	107,213	97,989	9,224	9.4	
Seattle Metro	34	56,313	52,231	4,082	7.8	
Total 2014/2013 Same-Property revenues	131	295,177	275,459	19,718	7.2	
2014/2013 Non-Same Property Revenues (1)		29,819	18,380	11,439	62.2	
Legacy BRE Portfolio Property Revenues (2)		90,635	-	90,635	-	
Total property revenues		\$415,631	\$293,839	\$121,792	41.4	%

(1) Includes eight communities acquired after January 1, 2013, one sold community and one redevelopment community.

(2) Includes 55 properties acquired from BRE on April 1, 2014 and March 31, 2014.

2014/2013 Same-Property Revenues increased by \$19.7 million or 7.2% to \$295.2 million for the six months ended June 30, 2014 from \$275.5 million for the six months ended June 30, 2013. The increase was primarily attributable to an increase in scheduled rents of \$18.4 million as reflected in an increase of 6.8% in average rental rates from \$1,588 per unit for the six months ended June 30, 2013 to \$1,696 per unit for the six months ended June 30, 2014. Scheduled rents increased by 4.7%, 9.2%, and 7.4% in Southern California, Northern California, and Seattle Metro, respectively. Income from utility billings and other income also increased \$2.1 million, compared to the six months ended June 30, 2013.

2014/2013 Non-Same Property Revenues increased by \$11.4 million or 62.2% to \$29.8 million for the six months ended June 30, 2014 from \$18.4 million for the six months ended June 30, 2013. The increase was primarily due to revenue generated from eight communities acquired since January 1, 2013 (Avery, Bennett Lofts, Collins on Pine, Domain, Fox Plaza, Piedmont, Slater 116 and Vox) and \$1.8 million of utility reimbursement in connection with the adoption of the accrual method of accounting for utility reimbursement in the second quarter of 2014

Management and Other Fees increased by \$0.5 million for the six months ended June 30, 2014 as compared to the six months ended June 30, 2013. The increase is primarily due to a \$0.5 million acquisition fee income in the second quarter of 2014 and increased fees due to the 17 new joint venture properties in the second quarter of 2014 as offset by a reduction of \$0.9 million in asset and property management fees from the sale of Fund II communities in 2013. Four communities owned by Fund II were sold in the third quarter of 2013 and one community was sold during the

first quarter of 2014.

Property operating expenses, excluding real estate taxes increased \$23.1 million to \$89.5 million for the six months ended June 30, 2014 from \$66.4 million for the six months ended June 30, 2013, primarily due to the acquisition of eight communities and \$1.3 million of charges related to earthquake damages at one of our properties in Southern California. Quarterly Same-Property operating expenses, excluding real estate taxes, increased by \$2.0 million or 3.2% for the six months ended June 30, 2014 compared to the six months ended June 30, 2013, primarily due to a \$0.8 million increase in utility expense and a \$0.7 million increase in maintenance and repairs.

31

Index

Real Estate taxes increased by \$17.4 million for the six months ended June 30, 2014 compared to the six months ended June 30, 2013, due primarily to the BRE merger and the acquisition of eight communities. 2014/2013 Same-Property real estate taxes increased by \$1.4 million or 5.4% for the six months ended June 30, 2014 compared to June 30, 2013 due to \$0.7 million or a 12.9% increase in property taxes for the Seattle Metro due to higher assessed values for 2014, and an increase of 3% in property taxes for the majority of the properties located in California. In connection with the BRE merger, the Company has increased its property taxes accrual due to BRE acquired properties based on estimated assessed values. The Company bases its estimates on current market conditions and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions.

Depreciation expense increased by \$53.4 million for the six months ended June 30, 2014 compared to the six months ended June 30, 2013, due to BRE merger and the acquisition of eight communities. Also, the increase is due to the capitalization of approximately \$60.2 million in additions to rental properties through the second quarter of 2014, including \$19.5 million spent on redevelopment, and \$6.1 million on improvements to recent acquisitions, and the capitalization of approximately \$104.2 million in additions to rental properties in 2013, including \$42.0 million spent on redevelopment, \$21.2 million on improvements to recent acquisitions, \$8.6 million on lessor required capital expenditures, and \$5.3 million spent on revenue generating capital expenditures.

General and administrative expense increased \$3.6 million or 26.2% for six months ended June 30, 2014 compared to the six months ended June 30, 2013, primarily to additional corporate employees from the BRE merger.

Merger expenses include, but are not limited to, advisor fees, legal, and accounting fees related to the merger with BRE. Merger expenses were \$42.6 million for the six months ended June 30, 2014 and zero for the six months ended June 30, 2013. For the six months ended June 30, 2014, merger expenses primarily included \$15.1 million of advisor fees, \$8.7 million of transfer taxes, \$5.1 million of professional fees, \$2.9 million of stock based compensation, and charges in connection with abandoned assets and excess space.

Acquisition and disposition costs increased \$0.9 million for the six months ended June 30, 2014 compared to the six months ended June 30, 2013 primarily due to internal disposition costs related to the sale of Vista Capri North.

Interest expense increased \$13.7 million for six months ended June 30, 2014 compared to the six months ended June 30, 2013, due to an increase in average outstanding debt used to fund the BRE merger offset by an increase in capitalized interest of \$3.6 million related to development activity.

Interest and other income decreased by \$1.2 million for the six months ended June 30, 2014 compared to the six months ended June 30, 2013, due to income in 2013 from a gain of \$1.8 million from the sales of marketable securities, \$0.8 million earned from the change in estimate for the discount related to the Reserves Lofts note receivable repaid during the first quarter of 2013, and increased income from notes receivable. The decrease was partially offset by higher interest income in the six months ended June 30, 2014 attributable to an increase in an estimated return on mortgage backed securities.

Equity income in co-investments increased \$4.7 million for the six months ended June 30, 2014 compared to the six months ended June 30, 2013, primarily due to the recognition of \$4.9 million in gains and promote income in the sale of certain joint venture properties during the six months ended June 30, 2014 partially offset by a decrease of \$0.9 million in income from the redemption of preferred equity investments during the six months ended June 30, 2013.

Gains on sale of real estate and land increased \$6.8 million in the six months ended June 30, 2014 compared to the six months ended June 30, of 2013 primarily due to a \$7.9 million gain on the sale of Vista Capri North. The first quarter of 2013 reflected a \$1.5 million gain from the sale of a land parcel.

Liquidity and Capital Resources

Essex's business is operated primarily through the Operating Partnership. Essex issues public equity from time to time, but does not otherwise generate any capital itself or conduct any business itself, other than incurring certain expenses in operating as a public company which are fully reimbursed by the Operating Partnership. Essex itself does not hold any indebtedness, and its only material asset is its ownership of partnership interests of the Operating Partnership. Essex's principal funding requirement is the payment of dividends on its common stock and preferred stock. Essex's principal source of funding for its dividend payments is distributions it receives from the Operating Partnership.

32

Index

Essex also guarantees some of the Operating Partnership's debt, as discussed further in note 6 of the notes to condensed consolidated financial statements included elsewhere herein. If the Operating Partnership fails to fulfill certain of its debt requirements, which trigger the Essex's guarantee obligations, then Essex will be required to fulfill its cash payment commitments under such guarantees. However, Essex's only significant asset is its investment in the Operating Partnership.

For Essex to maintain its qualification as a REIT, it must pay dividends to its stockholders aggregating annually at least 90% of its taxable income, excluding net capital gains. While historically Essex has satisfied this distribution requirement by making cash distributions to its stockholders, it may choose to satisfy this requirement by making distributions of cash or other property, including, in limited circumstances, Essex's own stock. As a result of this distribution requirement, the Operating Partnership cannot rely on retained earnings to fund its ongoing operations to the same extent that other companies whose parent companies are not REITs can. Essex may need to continue to raise capital in the equity markets to fund the Operating Partnership's working capital needs, acquisitions and developments.

As of June 30, 2014, the Company had \$17.9 million of unrestricted cash and cash equivalents and \$106.4 million in marketable securities, of which \$43.7 million were available for sale. We believe that cash flows generated by our operations, existing cash, cash equivalents, and marketable securities balances, availability under existing lines of credit, access to capital markets and the ability to generate cash from the disposition of real estate are sufficient to meet all of our reasonably anticipated cash needs during the next twelve months. The timing, source and amounts of cash flows provided by financing activities and used in investing activities are sensitive to changes in interest rates and other fluctuations in the capital markets environment, which can affect our plans for acquisitions, dispositions, development and redevelopment activities.

Fitch Ratings ("Fitch"), Moody's Investor Service, and Standard and Poor's ("S&P") credit agencies rate Essex Property Trust, Inc. and Essex Portfolio, L.P. BBB+/Stable, Baa2/Stable, and BBB/Stable, respectively.

The Company has two lines of unsecured credit aggregating \$1.03 billion. As of June 30, 2014 there was a \$60.0 million balance outstanding on the \$1.0 billion unsecured line. The facility includes an accordion feature pursuant to which the Company could expand the line's capacity to \$1.5 billion. The underlying interest rate is based on a tiered rate structure tied to the Company's credit ratings on the credit facility and the rate was LIBOR plus 0.95% as of June 30, 2014. This facility matures in December 2017 with one 18-month extension, exercisable at the Company's option. The Company has a working capital unsecured line of credit agreement for \$25.0 million. This facility matures in January 2016. As of June 30, 2014, there was an \$7.0 million outstanding balance on the \$25 million unsecured line. The underlying interest rate on the \$25.0 million line is based on a tiered rate structure tied to Fitch and S&P ratings on the credit facility of LIBOR plus 0.95%.

In April 2014, the Company, through its operating partnership, assumed \$900.0 million aggregate principal amount of BRE's 5.500% senior notes due 2017; 5.200% senior notes due 2021; and 3.375% senior notes due 2023 and mortgage notes payable with a principal balance of \$711.3 million with remaining loan terms ranging from one to seven years and a weighted average interest rate of 5.6%. The Company recorded the debt assumed at fair value in accordance with purchase accounting. As a result, a premium of \$124.5 million was recorded to adjust the carrying value of their fair value.

In April 2014, the Company issued \$400 million of 3.875% senior unsecured notes that mature in May 2024. The interest is payable semi-annually in arrears on May 1 and November 1 of each year, commencing November 1, 2014 until the maturity date in May 2024. The Company used the net proceeds of this offering to repay indebtedness under the Company's \$1.0 billion unsecured line of credit facility and for other general corporate purposes. In connection with this issuance, the Company entered into a registration rights agreement, pursuant to which it has filed a registration statement to exchange the notes for identical notes registered under the Securities Act of 1933, as amended.

The Company has benefited from borrowing from Fannie Mae and Freddie Mac, and there are no assurances that these entities will lend to the Company in the future. To the extent that the Company's access to capital and credit is at a higher cost than the Company has experienced in recent years (reflected in higher interest rates for debt financing or a lower stock price for equity financing) the Company's ability to make acquisitions, develop communities, obtain new financing, and refinance existing borrowing at competitive rates could be adversely impacted. For the past two years the Company has primarily issued unsecured debt and repaid secured debt when it has matured to place less reliance on mortgage debt financing, and to unencumber more of the Company's communities.

33

Index

On March 29, 2013, the Company entered into equity distribution agreements with Cantor Fitzgerald & Co, Barclays Capital Inc., BMO Capital Markets Corp., BNP Paribas Securities Corp., Liquidnet, Inc., Mitsubishi UFJ Securities (USA), Inc., and Citigroup Global Markets Inc. For the six months ended June 30, 2014, Essex sold 1,753,355 shares of common stock for \$299.4 million, net of commissions, at an average per share price of \$172.24. During the third quarter of 2014 through August 8, 2014, Essex sold 362,532 shares of common stock, through our equity distribution program, at an average price of \$187.28 for proceeds of \$67.5 million, net of fees and commissions. Under this program, the Company may from time to time sell shares of common stock into the existing trading market at current market prices, and the Company anticipates using the net proceeds to potentially acquire, develop, or redevelop properties, which primarily will be apartment communities, to make other investments and for working capital or general corporate purposes, which may include the repayment of indebtedness. As of August 8, 2014, Essex may sell an additional 4,039,768 shares under the current equity distribution program.

Essex pays quarterly dividends from cash available for distribution. Until it is distributed, cash available for distribution is invested by the Company primarily in investment grade securities held available for sale or is used by the Company to reduce balances outstanding under its line of credit. As a result of the 23.1 million shares of common stock issued on April 1, 2014 in connection with the BRE merger, the Company anticipates an increase in cash outflows as a result of the increased dividend payment requirements. The Company anticipates to fund the dividends from increased cash flows generated from the properties acquired in the merger.

Development and Predevelopment Pipeline

The Company defines development activities as new properties that are being constructed, or are newly constructed and, in the case of development communities, are in a phase of lease-up and have not yet reached stabilized operations. As of June 30, 2014, the Company's development pipeline was comprised of three consolidated projects under development and eight unconsolidated joint venture projects under development, all aggregating 2,219 units, with total incurred costs of \$904.0 million, and estimated remaining project costs of approximately \$328.0 million for total estimated project costs of \$1.2 billion.

The Company expects to fund the development and predevelopment pipeline by using a combination of some or all of the following sources: its working capital, amounts available on its lines of credit, net proceeds from public and private equity and debt issuances, and proceeds from the disposition of properties, if any.

Derivative Activity

The Company uses interest rate swaps and interest rate cap contracts to manage certain interest rate risks. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

As of June 30, 2014 and December 31, 2013 the aggregate carrying value of the interest rate swap contracts was a liability of \$2.7 million, respectively. The aggregate carrying value of the interest rate cap contracts was zero on the balance sheet as of June 30, 2014 and December 31, 2013.

Alternative Capital Sources

Fund II invested in apartment communities in the Company's targeted West Coast markets and, as of June 30 2014, owned one apartment community. Four communities were sold during 2013 from Fund II, one additional property was sold through June 2014, and the Company expects to sell the remaining community in 2014. The Company has exercised its one-year extension option which provides for the liquidation of Fund II by September 2014.

Wesco I is a 50/50 programmatic joint venture with an institutional partner formed in 2011. Essex and its partner each contributed \$150.0 million. Initially, Wesco I utilized debt as leverage equal to approximately 50% of the underlying real estate. As of June 30, 2014, Wesco I owned nine apartment communities with 2,713 units with an aggregate historical cost carrying value of \$676.6 million.

Wesco III is a 50/50 programmatic joint venture with an institutional partner formed in 2012 for a total equity commitment of \$120.0 million. Each partner's commitment is \$60.0 million. Initially, Wesco III utilized debt as leverage equal to approximately 50% of the underlying real estate. The Company has contributed \$39.7 million to Wesco III, and as of June 30, 2014, Wesco III owned six apartment communities with 993 units with an aggregate historical cost carrying value of \$228.4 million.

34

Index

On April 1, 2014, in connection with the merger, the Company acquired a 50% interest in Wesco IV LLC (“Wesco IV”) and a 50% interest in BEXAEW LLC (“BEXAEW”). Wesco IV and BEXAEW’s remaining 50% interest is owned by an institutional partner. Wesco IV and BEXAEW expect to utilize debt targeted at approximately 50% and 60%, respectively, of the cost to acquire and improve real estate. Under the terms of Wesco IV’s and BEXAEW’s operating agreements, Essex is entitled to asset management, property management, development and redevelopment service fees. In addition, Essex is entitled to its 50% pro rata share of the income or loss generated by these entities and upon the achievement of certain performance measures, is entitled to promote income. As of June 30, 2014, Wesco IV owned five apartment communities with 1,116 units with an aggregate carrying value of approximately \$297.7 million. As of June 30, 2014, BEXAEW owned nine apartment communities with 2,723 units with an aggregate carrying value of approximately \$516.1 million.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements, in accordance with GAAP requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. The Company defines critical accounting policies as those accounting policies that require the Company’s management to exercise their most difficult, subjective and complex judgments. The Company’s critical accounting policies and estimates relate principally to the following key areas: (i) consolidation under applicable accounting standards for entities that are not wholly owned; (ii) assessing the carrying values of our real estate properties and investments in and advances to joint ventures and affiliates; (iii) internal cost capitalization; and (iv) qualification as a REIT. The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from those estimates made by management.

The Company’s critical accounting policies and estimates have not changed materially from information reported in Note 2, “Summary of Critical and Significant Accounting Policies,” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013, except as listed below.

Business combinations

The Company accounts for its business combinations, including the merger and other acquisitions of investments in real estate, in accordance with ASC 805-10, Business Combinations, which requires the acquired tangible and intangible assets and liabilities to be recorded at fair value, with excess purchase price, if any, recorded to goodwill. The Company must make significant assumptions in determining the fair value of the tangible and intangible assets and liabilities acquired and consideration transferred. The use of different assumptions in estimating the fair value could affect the measurement and timing of recognition of acquired assets and liabilities and related expenses.

The consideration transferred in a business combination is generally measured at fair value. For debt assumed by the Company, the fair value is determined using estimated market interest rates for debt with comparable terms in place at the time of the acquisition. For equity issued by the Company, the fair value is generally based on the fair value of the Company’s equity interests at the date of issuance.

The fair value of the tangible assets, which principally includes land and building, is determined first by valuing the property as a whole as if it were vacant, using stabilized net operating income and market specific capitalization rates. The fair value of the land and building is then assigned using market data regarding land and construction costs to value these tangible assets.

In calculating the fair value of identified intangible assets of an acquired property, the in-place leases are valued based on in-place rent rates and estimated time and cost to lease a unit.

The initial purchase accounting is based on the Company's preliminary assessment, which may differ when final information becomes available. Subsequent adjustments made to the initial purchase accounting, if any, are made within the measurement period, which will be finalized within one year of the acquisition date.

Forward Looking Statements

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this quarterly report on Form 10-Q which are not historical facts may be considered forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, including statements regarding the Company's expectations, hopes, intentions, beliefs and strategies regarding the future. Forward looking statements include statements regarding the Company's expectations as to the total projected costs of predevelopment, development and redevelopment projects, the Company's reduced risk of loss from mold cases, beliefs as to our ability to meet our cash needs during the next twelve months, expectations as to the sources for funding the increased dividends resulting from the BRE merger and the Company's development and redevelopment pipeline, the timing and proceeds of the sale of the Fund II properties, and statements regarding the Company's financing activities.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors including, but not limited to, that the Company will fail to achieve its business objectives, that the total projected costs of current predevelopment, development and redevelopment projects exceed expectations, that such development and redevelopment projects will not be completed, that development and redevelopment projects and acquisitions will fail to meet expectations, that estimates of future income from an acquired property may prove to be inaccurate, that future cash flows will be inadequate to meet operating requirements, that there may be a downturn in the markets in which the Company's properties are located, that the terms of any refinancing may not be as favorable as the terms of existing indebtedness, and that mold lawsuits will be more costly than anticipated, as well as those risks, special considerations, and other factors referred to in Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K for the year ended December 31, 2013, and those risk factors and special considerations set forth in the Company's other filings with the Securities and Exchange Commission (the "SEC") which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements are made as of the date hereof, and the Company assumes no obligation to update this information.

Funds from Operations ("FFO")

FFO is a financial measure that is commonly used in the REIT industry. The Company presents funds from operations as a supplemental operating performance measure. FFO is not used by the Company as, nor should it be considered to be, an alternative to net earnings computed under GAAP as an indicator of the Company's operating performance or as an alternative to cash from operating activities computed under GAAP as an indicator of the Company's ability to fund its cash needs.

FFO is not meant to represent a comprehensive system of financial reporting and does not present, nor does it intend to present, a complete picture of the Company's financial condition and operating performance. The Company believes that net earnings computed under GAAP remain the primary measure of performance and that FFO is only meaningful when it is used in conjunction with net earnings. The Company considers FFO and FFO excluding non-recurring items and acquisition costs (referred to as "Core FFO") to be useful financial performance measurements of an equity REIT because, together with net income and cash flows, FFO provides investors with an additional basis to evaluate operating performance and ability of a REIT to incur and service debt and to fund acquisitions and other capital expenditures and ability to pay dividends. Further, the Company believes that its consolidated financial statements, prepared in accordance with GAAP, provide the most meaningful picture of its financial condition and its operating performance.

In calculating FFO, the Company follows the definition for this measure published by the National Association of REITs ("NAREIT"), which is a REIT trade association. The Company believes that, under the NAREIT FFO definition, the two most significant adjustments made to net income are (i) the exclusion of historical cost depreciation and (ii)

the exclusion of gains and losses (including impairment charges on depreciable real estate) from the sale of previously depreciated properties. The Company agrees that these two NAREIT adjustments are useful to investors for the following reason:

historical cost accounting for real estate assets in accordance with GAAP assumes, through depreciation charges, that the value of real estate assets diminishes predictably over time. NAREIT stated in its White Paper on Funds from Operations “since real estate asset values have historically risen or fallen with market conditions, many (a) industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves.” Consequently, NAREIT’s definition of FFO reflects the fact that real estate, as an asset class, generally appreciates over time and depreciation charges required by GAAP do not reflect the underlying economic realities.

36

Index

REITs were created as a legal form of organization in order to encourage public ownership of real estate as an asset class through investment in firms that were in the business of long-term ownership and management of real estate. The exclusion, in NAREIT's definition of FFO, of gains and losses (including impairment charges on (b) depreciable real estate) from the sales of previously depreciated operating real estate assets allows investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT's activity and assists in comparing those operating results between periods.

Management believes that it has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REITs' calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosure of FFO may not be comparable to the Company's calculation.

The following table sets forth the Company's calculation of FFO and Core FFO for the three months ended June 30, 2014 and 2013 (in thousands except for share and per share data):

Essex Property Trust, Inc.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2014	2013	2014	2013
Net income available to common stockholders	\$4,989	\$24,946	\$26,901	\$50,149
Adjustments:				
Depreciation	97,510	48,031	147,822	95,175
Gains not included in FFO, net of internal disposition costs	-	(2,366)	(10,292)	(2,366)
Depreciation add back from unconsolidated co-investments	8,314	3,777	13,074	7,619
Noncontrolling interest related to Operating Partnership units	209	1,547	1,626	3,048
Depreciation attributable to third party ownership	(332)	(327)	(661)	(654)
Funds from operations	\$110,690	\$75,608	\$178,470	\$152,971
Funds from operations per share - diluted	\$1.72	\$1.91	\$3.41	\$3.88
Non-core items:				
Merger expenses	26,497	-	42,556	-
Acquisition and disposition costs	529	168	717	555
Gain on sales of marketable securities and note prepayment	(459)	-	(886)	(2,611)
Co-investment promote income	(1,056)	-	(4,904)	-
Utility reimbursement income accrual	(1,807)	-	(1,807)	-
Acquisition fee income	(500)	-	(500)	-
Gain on sale of land	-	-	(400)	(1,503)
Earthquake related and other	-	-	1,571	-
Loss on early retirement of debt, add back from unconsolidated co-investments	-	-	197	-
Gain on early retirement of debt	-	(1,024)	-	(1,024)
Income from early redemption of preferred equity investments	-	(523)	-	(946)
Core FFO	\$133,894	\$74,229	\$215,014	\$147,442
Core FFO per share-diluted	\$2.08	\$1.88	\$4.11	\$3.74
Weighted average number shares outstanding diluted ⁽¹⁾	64,233,304	39,576,663	52,357,189	39,391,820

(1) Assumes conversion of all dilutive outstanding operating partnership interests in the Operating Partnership.

Net Operating Income (“NOI”)

Same-property net operating income (“NOI”) is considered by management to be an important supplemental performance measure to earnings from operations included in the Company’s consolidated statements of operations. The presentation of same-property NOI assists with the presentation of the Company’s operations prior to the allocation of depreciation and any corporate-level or financing-related costs. NOI reflects the operating performance of a community and allows for an easy comparison of the operating performance of individual communities or groups of communities. In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. The Company defines same-property NOI as same-property revenue less same-property operating expenses, including property taxes. Please see the reconciliation of earnings from operations to same-property NOI, which in the table below is the NOI for stabilized properties consolidated by the Company for the periods presented:

Same-property NOI	\$102,765	\$94,213	\$203,869	\$187,549

Item 3: Quantitative and Qualitative Disclosures About Market Risks

Interest Rate Hedging Activities

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company uses interest rate swaps as part of its cash flow hedging strategy. As of June 30, 2014, the Company has entered into ten interest rate swap contracts to mitigate the risk of changes in the interest-related cash outflows on \$300.0 million of the variable rate five-year unsecured term debt. As of June 30, 2014, the Company also had \$189.1 million of variable rate indebtedness, of which \$156.9 million is subject to interest rate cap protection. All of the Company's derivative instruments are designated as cash flow hedges, and the Company does not have any fair value hedges as of June 30, 2014. The following table summarizes the notional amount, carrying value, and estimated fair value of the Company's derivative instruments used to hedge interest rates as of June 30, 2014. The notional amount represents the aggregate amount of a particular security that is currently hedged at one time, but does not represent exposure to credit, interest rates or market risks. The table also includes a sensitivity analysis to demonstrate the impact on the Company's derivative instruments from an increase or decrease in 10-year Treasury bill interest rates by 50 basis points, as of June 30 2014.

	Notional	Maturity	Carrying and Estimated Fair Value	Estimated Carrying Value	
				+ 50 Basis Points	- 50 Basis Points
(Dollars in thousands)	Amount	Date Range	Value		
Cash flow hedges:					
Interest rate swaps	\$300,000	2016-2017	\$ (2,703)	\$801	\$(6,563)
Interest rate caps	156,904	2014-2018	-	9	-
Total cash flow hedges	\$456,904	2014-2018	\$ (2,703)	\$810	\$(6,563)

Interest Rate Sensitive Liabilities

The Company is exposed to interest rate changes primarily as a result of its lines of credit and long-term tax exempt variable rate debt and unsecured term debt. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its

objectives the Company borrows primarily at fixed rates and may enter into derivative financial instruments such as interest rate swaps, caps and treasury locks in order to mitigate its interest rate risk on a related financial instrument. The Company does not enter into derivative or interest rate transactions for speculative purposes.

38

Index

The Company's interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts and weighted average interest rates by year of expected maturity to evaluate the expected cash flows.

For the Years Ended	2014	2015	2016	2017	2018	Thereafter	Total	Fair value
(In thousands)								
Fixed rate debt	\$ -	66,721	162,250	519,962	313,541	3,272,957	\$4,335,431	\$4,634,754
Average interest rate	-	5.3	% 4.5	% 3.2	% 5.6	% 4.2	% 4.2	%
Variable rate debt	\$ -	-	206,975	⁽¹⁾ 150,000	⁽¹⁾ -	249,189	⁽²⁾ \$606,164	\$587,338
Average interest rate	-	-	2.3	% 2.4	% -	1.7	% 2.1	%

(1)\$300.0 million subject to interest rate swap agreements.

(2)\$156.9 million subject to interest rate caps.

The table incorporates only those exposures that exist as of June 30, 2014; it does not consider those exposures or positions that could arise after that date. As a result, our ultimate realized gain or loss, with respect to interest rate fluctuations and hedging strategies would depend on the exposures that arise prior to settlement.

Item 4: Controls and Procedures

Essex Property Trust, Inc.

As of June 30 2014, Essex carried out an evaluation, under the supervision and with the participation of management, including Essex's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based upon that evaluation, Essex's Chief Executive Officer and Chief Financial Officer concluded that as of June 30 2014, our disclosure controls and procedures were effective to ensure that the information required to be disclosed by Essex in the reports that Essex files or submit under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such disclosure controls and procedures were also effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to Essex's management, including Essex's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in Essex's internal control over financial reporting, that occurred during the quarter ended June 30, 2014, that have materially affected, or are reasonably likely to materially affect, the Essex's internal control over financial reporting.

Essex Portfolio, L.P.

As of June 30, 2014, the Operating Partnership carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2014, our disclosure controls and procedures were effective to ensure that the information required to be disclosed by the Operating Partnership in the

reports that the Operating Partnership files or submit under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such disclosure controls and procedures were also effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to the Operating Partnership's management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in the Operating Partnership's internal control over financial reporting, that occurred during the quarter ended June 30, 2014, that have materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

Part II -- Other Information

Item 1: Legal Proceedings

There have been an increasing number of lawsuits against owners and managers of apartment communities alleging personal injury and property damage caused by the presence of mold in residential real estate. Some of these lawsuits have resulted in substantial monetary judgments or settlements. The Company has been sued for mold related matters and has settled some, but not all, of such matters. Insurance carriers have reacted to mold related liability awards by excluding mold related claims from standard policies and pricing mold endorsements at prohibitively high rates. The Company has, however, purchased pollution liability insurance, which includes some coverage for mold. The Company has adopted policies to promptly address and resolve reports of mold when it is detected, and to minimize any impact mold might have on residents of the property. The Company believes its mold policies and proactive response to address any known existence, reduces its risk of loss from these cases. There can be no assurances that the Company has identified and responded to all mold occurrences, but the Company promptly addresses all known reports of mold. Liabilities resulting from such mold related matters are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows. As of June 30, 2014, potential liabilities for mold and other environmental liabilities are not quantifiable and an estimate of possible loss cannot be made.

The Company carries comprehensive liability, fire, extended coverage and rental loss insurance for each of the communities. There are, however, certain types of extraordinary losses, such as, for example, losses from terrorism or earthquakes, for which the Company does not have insurance coverage. Substantially all of the communities are located in areas that are subject to earthquake activity. The Company has established a wholly owned insurance subsidiary, Pacific Western Insurance LLC ("PWI"). Through PWI, the Company is self-insured as it relates to earthquake related losses. Additionally, since January 2008, PWI has provided property and casualty insurance coverage for the first \$5.0 million of the Company's property level insurance claims per incident. As of June 30, 2014, PWI has cash and marketable securities of approximately \$43.7 million. These assets are consolidated in the Company's financial statements. Beginning in 2013, the Company has obtained limited third party seismic insurance on selected assets.

The Company is subject to various other lawsuits in the normal course of its business operations. Such lawsuits could, but are not expected to, have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 1A: Risk Factors

There were no material changes to the Risk Factors disclosed in Item IA of the Company's Annual Report on Form 10-K for the year ended December 31, 2013 as filed with the SEC and available at www.sec.gov.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities; Essex Portfolio, L.P.

During the three months ended June 30, 2014, the Operating Partnership issued partnership units in private placements in reliance on the exemption from registration provided by Section 4(2) of the Securities Act, in the amounts and for the consideration set forth below:

During the three months ended June 30, 2014, Essex Property Trust, Inc. issued an aggregate of 983,617 of its common stock upon the exercise of stock options, the vesting of restricted stock awards and the issuances of common stock into the public market pursuant to its equity distribution program. Essex Property Trust, Inc. contributed the proceeds from the option exercises and issuances of common stock pursuant to its equity distribution of \$157.6

million for the three months ended June 30, 2014 to our Operating Partnership in exchange for an aggregate of 983,617 common operating partnership units ("common units"), as required by the Operating Partnership's partnership agreement. Included in the three months ended June 30, 2014 are issuance and proceeds of 159,064 and \$13.4 million, respectively, from former employees of BRE.
