In order to assure that your vote is obtained, please send us your completed, dated and signed proxy even if you currently plan to attend the special meeting in person. - o Voting of Shares Held in "Street Name": Your broker will not be permitted, without your instructions, to vote your shares held in street name on the proposals being solicited. You should, therefore, be sure to provide your broker with instructions on how to vote your shares (See page 4).

WHAT IS THE PRINCIPAL PURPOSE OF THE PROPOSED REVERSE STOCK SPLIT?

- o To reduce the number of shares of our outstanding common stock from 34,793,825 to 1,400,000 to allow us to enter into the Agreement and Plan of Reorganization with Gaming & Entertainment Group, Inc. (See page 5).

1

WHAT WILL I RECEIVE IF THE REVERSE STOCK SPLIT IS APPROVED?

If the reverse stock split is approved by the stockholders and implemented:

- o You will receive one share of common stock for each 24.852732 shares you currently hold (See pages 5-6).
- o You will be notified in writing by our transfer agent following the closing requesting you to surrender your certificates for new stock certificates reflecting the reduced number of shares (See page 6).
- o The procedure for this exchange is described in "Procedure For Effecting the Reverse Stock Split" (See page 6).
- o No new certificates representing fractional shares will be issued. Instead, all fractional shares will be rounded up to the nearest whole share (See page 7).

WHAT ARE THE PRINCIPAL TERMS OF THE AGREEMENT AND PLAN OF REORGANIZATION WITH GAMING & ENTERTAINMENT GROUP, INC.?

- o The stockholders of Gaming & Entertainment Group, Inc. will exchange 100% of their common stock for 14,600,000 shares of common stock of

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

NorStar Group, Inc. We will have 16,000,000 shares of common stock outstanding following the closing, with our current stockholders holding 1,400,000 shares of common stock (See page 5 and 8).

- o The holders of all outstanding options and warrants to purchase shares of common stock of Gaming & Entertainment Group, Inc. will exchange their options and warrants for an identical number of options and warrants to purchase shares of our common stock. The exercise terms of the options and warrants will remain identical (See page 5 and 8).
- o We will change our name to Gaming & Entertainment Group, Inc. (See pages 5 and 8).
- o Gaming & Entertainment Group, Inc will pay no cash consideration to us (See page 8).
- o We will assume the assets and liabilities of Gaming & Entertainment Group, Inc. (See Appendices C and F).
- o Tibor N. Vertes and Gregory L. Hrncir will be appointed to our board of directors. The management team of Gaming & Entertainment Group, Inc. will become our management team following the closing (See page 15).
- o Following the closing, our common stock will continue to be traded on the Over The Counter Bulletin Board. A new stock symbol will be procured immediately following the closing.

WHAT ARE THE ADVANTAGES AND DISADVANTAGES OF THE REVERSE STOCK SPLIT AND THE APPROVAL OF THE AGREEMENT AND PLAN OF REORGANIZATION?

- o Advantages. Assuming all other proposals submitted to a vote of our stockholders are approved, the reverse stock split will allow us to effect the contemplated transactions with Gaming & Entertainment Group, Inc. Gaming and Entertainment Group is an operational company with significant business opportunities in the United States, Canadian and European gaming markets. Alternatively, we do not have an ongoing business (See pages 11-14 and Appendices C and F).
- o Disadvantages. The number of shares held by you will be significantly reduced. Such reduction in the number of shares held by you may not be offset by a corresponding increase in share price (See page 5).

OTHER EFFECTS OF APPROVING THE PROPOSALS.

- o If all the proposals are approved and the transactions contemplated are consummated, we will remain incorporated in Utah, but our headquarters will be relocated to Las Vegas, Nevada and we will have additional offices in Sydney, Australia, and London, United Kingdom. Our Ft. Lauderdale, Florida office will be closed. The business, jobs, number of employees, taxes payable, assets, liabilities and net worth will be consolidated with Gaming & Entertainment Group, Inc. We will also have one wholly owned subsidiary, Gaming & Entertainment Technology Pty Ltd., an Australia corporation, which will handle all of our research and development efforts (See pages 11-14).

EFFECT OF NOT APPROVING EACH OF THE PROPOSALS.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

- o If any of the proposals fail to obtain the vote required for approval, the transaction contemplated with Gaming & Entertainment Group, Inc. will not be consummated (See page 4).

WHAT ARE THE TAX IMPLICATIONS OF THE REVERSE STOCK SPLIT?

- o You will receive one share of common stock for each 24.852732 shares held by you. The reverse stock split will not, however, be a taxable event for you. In addition, your aggregate tax basis in your shareholdings will remain the same following the reverse stock split and the transactions contemplated (See page 7).
- o Tax Effects of the Reorganization: We believe that the reincorporation will be tax-free to our stockholders and you will be entitled to the same aggregate tax basis. Given that each person's tax situation is different, we suggest that you consult with your personal tax advisor regarding the tax effects of the transactions contemplated (See page 7).

HOW WILL THE ARTICLES OF INCORPORATION BE AMENDED?

- o Our Amended Articles of Incorporation will be amended to reflect the reverse stock split and the change of our name to Gaming & Entertainment Group, Inc. (See page 19 - Annex A).

WHAT CONFLICTS OF INTEREST EXIST?

- o No conflicts of interest exist in the transactions contemplated. Additionally, while no special committee of independent directors was appointed to consider the transactions contemplated, the terms of the proposed reverse stock split, the Agreement and Plan of Reorganization, the amendment to the Articles of Incorporation, and the appointment of Tibor N. Vertes and Gregory L. Hrncir to the board of directors, our Board of Directors did consider alternatives and the fairness of the proposed reverse stock split and recommends the adoption of each of the proposals being submitted to the stockholders.

DO I HAVE APPRAISAL OR DISSENTER'S RIGHTS?

- o Under Utah law, you do not have the right to demand the appraised value of your shares (dissenter's rights) if you vote against the proposed transactions (See page 7).

CHANGES IN SHAREHOLDER RIGHTS

- o Other than the reduction in shares of common stock contemplated by the reverse stock split, following the closing of the transaction with Gaming & Entertainment Group, Inc., your rights as a stockholders will remain the same. (See page 6).

RECOMMENDATION OF OUR BOARD OF DIRECTORS.

- o Our Board of Directors recommends that you vote "For" each of the proposals on the ballot.

WHO SHOULD YOU CALL WITH QUESTIONS?

- o If you have any questions, you may contact Jay Sanet, Chief Executive Officer, at (954)772-0240.

GENERAL INFORMATION

SOLICITATION OF PROXIES. This proxy statement is being furnished to the stockholders of NorStar Group, Inc., a Utah corporation, in connection with the solicitation of proxies by our board of directors for use at our special meeting of stockholders to be held at the Westin Hotel, 400 Corporate Drive, Fort Lauderdale, Florida, 33312, at 10:00 a.m., local time, on December____, 2003, or at any adjournment thereof. A copy of the notice of meeting accompanies this proxy statement. It is anticipated that the mailing of this proxy statement will commence on December , 2003.

COST OF SOLICITATION. We will bear the costs of soliciting proxies. In addition to the use of the mails, we may solicit proxies by telephone, telegram, facsimile, cable or personal contact. Upon request, we will reimburse brokers, dealers, banks and trustees, or their nominees, for reasonable expenses incurred by them in forwarding proxy material to beneficial owners of shares of our common stock.

OUTSTANDING VOTING SHARES. Only stockholders of record at the close of business on October 31, 2003, the record date for the meeting, will be entitled to notice of and to vote at the meeting. On the record date, we had 34,793,825 outstanding shares of common stock, par value \$.01 per share, which are our only securities entitled to vote at the meeting, each share being entitled to one vote.

VOTE REQUIRED FOR APPROVAL. Shares of common stock will vote with respect to the proposals set forth in this proxy statement. Under our Bylaws, Proposals 1, 2, 3 and 4 require the affirmative vote of a majority of the votes eligible to be voted by holders of shares represented at the Special Meeting in person or by proxy. With respect to Proposals 1, 2, 3 and 4, a stockholder in favor or against the respective Proposals may cast votes, or a stockholder may elect to abstain. Since votes withheld and abstentions will be counted for quorum purposes and are deemed to be present for purposes of the respective proposals, they will have the same effect as a vote against each matter.

Under the NASD Rules of Fair Practice, brokers who hold shares in street name have the authority, in limited circumstances, to vote on certain items when they have not received instructions from beneficial owners. A broker will only have such authority if (i) the broker holds the shares as executor, administrator, guardian, trustee or in a similar representative or fiduciary capacity with authority to vote or (ii) the broker is acting under the rules of any national securities exchange of which the broker is also a member. Broker abstentions or non-votes will be counted for purposes of determining the presence or absence of a quorum at the meeting. Abstentions are counted in tabulations of the votes cast on proposals presented to stockholders, but broker non-votes are not counted for purposes of determining whether a proposal has been approved.

VOTING YOUR PROXY. Proxies in the accompanying form, properly executed and received by us prior to the Special Meeting and not revoked, will be voted as directed. In the absence of direction from the stockholder, properly executed proxies received prior to the Special Meeting will be voted FOR Proposals 1, 2, 3 and 4. You may revoke your proxy by giving written notice of revocation to our Chief Executive Officer at any time before it is voted, by submitting a later-dated proxy or by attending the Special Meeting and voting your shares in person. Stockholders are urged to sign and date the enclosed proxy and return it as promptly as possible in the envelope enclosed for that purpose.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

AMENDMENT TO OUR AMENDED ARTICLES OF INCORPORATION TO EFFECT A REVERSE SPLIT OF OUR COMMON STOCK

You are being asked to vote upon an amendment to our Amended Articles of Incorporation which would authorize our board of directors to effect a reverse split of all outstanding shares of our common stock at an exchange ratio of 1:24.852732.

The form of amendment to our Amended Articles of Incorporation to effect the proposed reverse stock split is attached to this proxy statement as Annex A. If the reverse stock split is approved, the number of issued and outstanding shares of common stock would be reduced in accordance with the exchange ratio for the reverse stock split. The par value of the common stock would remain unchanged at \$.01 per share and the number of authorized shares of common stock would remain unchanged. The reverse stock split will become effective upon the filing of the amendment to our Amended Articles of Incorporation with the Utah Secretary of State and upon commencement of trading of our stock under the new stock symbol that will be assigned by the NASD.

REASONS FOR THE REVERSE STOCK SPLIT

By effecting a reverse split of our common stock, we will significantly reduce the number of shares outstanding. As of October 31, 2003, there were 34,793,825 outstanding shares of common stock. If the reverse stock split is approved, there will be 1,400,000 shares of common stock outstanding.

A vote on the reverse split is being sought in conjunction with the recent execution of an Agreement and Plan of Reorganization (the "Agreement") with Gaming & Entertainment Group, Inc., a Nevada corporation ("G&EG"). The Board of Directors of NorStar and G&EG have approved the Agreement. The Agreement is expressly subject to approval of the reverse stock split by a majority of the NorStar common stockholders. The Agreement provides that G&EG will exchange 100% of its issued and outstanding capital stock for 14,600,000 shares of common stock of NorStar. Following the close of the transaction with G&EG, there will be 16,000,000 shares of common stock issued and outstanding. All issued and outstanding options and warrants to purchase shares of common stock of G&EG will be exchanged for an identical number of options and warrants to purchase shares of common stock of NorStar. The exercise terms for such options and warrants will remain identical. G&EG will pay no cash consideration to NorStar. Following the closing, NorStar will continue to be publicly traded and quoted on the Over The Counter Bulletin Board. A new stock symbol will be obtained following the close of the transaction.

G&EG is a supplier of server-based gaming systems and networked interactive electronic bingo games for the Class II Indian gaming market in the United States as well as the Canadian gaming market. G&EG designs and develops gaming systems, software, game content and networks to offer a comprehensive gaming system. In conjunction with a major UK-based strategic partner, G&EG also supplies its server-based gaming system and game content library to the Amusement With Prize (AWP) gaming market in the United Kingdom and throughout Europe. In addition, G&EG develops and licenses its comprehensive government accredited online gaming system to major U.S. casino operators for utilization outside of the United States.

CERTAIN EFFECTS OF THE REVERSE STOCK SPLIT

The immediate effects of a reverse stock split would be to reduce the number of shares of common stock outstanding and to increase the trading price of our common stock. However, the effect of any reverse stock split upon the market price of our common stock cannot be predicted, and the history of reverse stock

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

splits for companies in similar circumstances is widely varied. We cannot assure you that the trading price of our common stock after the reverse stock split will rise in exact proportion to the reduction in the number of shares of our common stock outstanding as a result of the reverse stock split. Also, as stated above, we cannot assure you that a reverse stock split will lead to a sustained increase in the trading price of our common stock, or improve the marketability of NorStar. The trading price of our common stock may change due to a variety of other facts, including our operating results, other factors related to our business and general market conditions.

The following table reflects the number of shares of common stock that would be outstanding as a result of the proposed reverse stock split, and the approximate percentage reduction in the number of outstanding shares, based on 34,793,825 shares of common stock outstanding as of the record date for the special meeting of stockholders: _

Proposed Reverse Stock Split Ratio	Percentage Reduction	Shares of Common Stock to be Outstanding
-----	-----	-----
1:24.852732	95.98%	1,400,000

5

The resulting decrease in the number of shares of our common stock outstanding could potentially impact the liquidity of our common stock on the Over-the-Counter Bulletin Board, especially in the case of larger block trades.

EFFECTS ON OWNERSHIP BY INDIVIDUAL STOCKHOLDERS

If the common stock is reverse split, the number of shares held by each stockholder would be reduced by multiplying the number of shares held immediately before the reverse stock split by the exchange ratio, and then rounding up to the nearest whole share. We will issue one whole share to each stockholder in lieu of any fractional interest in a share to which each stockholder would otherwise be entitled as a result of the reverse stock split, as described in further detail below. The reverse stock split will affect our common stock uniformly and will not affect any stockholder's percentage ownership interests in our company or proportionate voting power, except to the extent that interests in fractional shares would be paid in whole shares.

EFFECT ON OPTIONS, WARRANTS AND OTHER SECURITIES

In addition, all outstanding options, warrants and other securities entitling holders to purchase shares of our common stock, if any, will be adjusted as a result of the reverse stock split, as required by the terms of these securities. In particular, the conversion ratio for each instrument would be reduced, and the exercise price, if applicable, would be increased in accordance with the terms of each instrument and based on the exchange ratio of the reverse stock split. Also, the number of shares reserved for issuance under our existing stock option and employee stock purchase plans would be reduced proportionally based on the exchange ratio of the reverse stock split. None of the rights currently accruing to holders of the common stock, options, warrants or other securities convertible into common stock would be affected by the reverse stock split.

OTHER EFFECTS ON OUTSTANDING SHARES

The rights and preferences of the outstanding shares of common stock would remain the same after the reverse stock split. Each share of common stock issued pursuant to the reverse stock split would be fully paid and nonassessable.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

The reverse stock split will result in some stockholders owning "odd-lots" of less than 100 shares of common stock. Brokerage commissions and other costs of transactions in odd lots are generally higher than the costs of transactions in "round-lots" of even multiples of 100 shares.

The common stock is currently registered under Section 12(g) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). As a result, we are subject to the periodic reporting and other requirements of the Exchange Act. The proposed reverse stock split would not affect the registration of the common stock.

PROCEDURE FOR EFFECTING THE REVERSE STOCK SPLIT

The reverse stock split will be accomplished by filing the appropriate amendment to our Amended Articles of Incorporation with the Utah Secretary of State. The reverse stock split will become effective upon the filing of the amendment to our Amended Articles of Incorporation with the Utah Secretary of State and upon commencement of trading of our stock under a new stock symbol that will be assigned by the NASD.

As of the effective date of the reverse stock split, each certificate representing shares of our common stock before the reverse stock split would be deemed, for all corporate purposes, to evidence ownership of the reduced number of shares of common stock resulting from the reverse stock split, except that holders of unexchanged shares would not be entitled to receive any dividends or other distributions payable by us after the effective date until they surrender their old stock certificates for exchange. All options, warrants, convertible debt instruments and other securities would also be automatically adjusted on the effective date.

Our transfer agent will act as the exchange agent for purposes of implementing the exchange of stock certificates. As soon as practicable after the effective date, stockholders and holders of securities convertible into our common stock will be notified of the effectiveness of the reverse split. Stockholders of record will receive a letter of transmittal requesting them to surrender their stock certificates for new stock certificates reflecting the adjusted number of shares as a result of the reverse stock split. Persons who hold their shares in brokerage accounts or "street name" will not be required to take any further actions to effect the exchange of their certificates. No new certificates will be issued to a stockholder until the stockholder has surrendered the stockholder's outstanding certificate(s) together with the properly completed and executed letter of transmittal to the exchange agent. Until surrender, each certificate representing shares before the reverse stock split will continue to be valid and will represent the adjusted number of shares of the reverse stock split, rounded up to the nearest whole share. Stockholders should not destroy any stock certificate and should not submit any certificates until they receive a letter of transmittal from our transfer agent.

FRACTIONAL SHARES

We will not issue fractional shares in connection with the reverse stock split. Instead, any fractional share resulting from the reverse stock split will be rounded up to the nearest whole share. Stockholders who otherwise would be entitled to receive fractional shares because they hold a number of shares not evenly divisible by the exchange ratio will instead receive a whole share upon surrender to the exchange agent of the certificates and a properly completed and executed letter of transmittal.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

NO DISSENTERS' RIGHTS

No dissenters' rights are available under the Utah Revised Business Corporation Act or under our Amended Articles of Incorporation or bylaws to any stockholder who dissents on the proposals described herein.

ACCOUNTING CONSEQUENCES

The par value of our common stock would remain unchanged at \$.01 per share after the reverse stock split. Also, our capital account would remain unchanged, and the Company does not anticipate that any other accounting consequences will arise as a result of the reverse stock split.

FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of material federal income tax consequences of the reverse stock split and does not purport to be complete. It does not contemplate any state, local, foreign or minimum income or other tax consequences. Also, it does not address the tax consequences to holders that are subject to special tax rules, including banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the shares are held as a "capital asset," as defined in the Internal Revenue Code of 1986, as amended (generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of the stockholder. Each stockholder is urged to consult with the stockholder's own tax advisor with respect to the consequences of the reverse stock split.

No gain or loss should be recognized by a stockholder upon the stockholder's exchange of shares pursuant to the reverse stock split. The aggregate tax basis of the shares received in the reverse stock split, including any fraction of a share deemed to have been received, would be the same as the stockholder's aggregate tax basis in the shares exchanged. The stockholder's holding period for the shares would include the period during which the stockholder held the pre-split shares surrendered in the reverse stock split.

Our beliefs regarding the tax consequence of the reverse stock split are not binding upon the Internal Revenue Service or the courts, and there can be no assurance that the Internal Revenue Service or the courts will accept the positions expressed above. The state and local tax consequences of the reverse stock split may, as to each stockholder, depend upon the state in which he or she resides.

VOTE REQUIRED

The affirmative vote of the holders of a majority of the outstanding shares of our common stock is required to approve the proposed amendment to our Amended Articles of Incorporation to effect a reverse stock split.

OUR BOARD RECOMMENDS THAT OUR STOCKHOLDERS VOTE "FOR" THE APPROVAL OF THE PROPOSED AMENDMENT TO OUR AMENDED ARTICLES OF INCORPORATION TO EFFECT THE PROPOSED REVERSE STOCK SPLIT.

common stock. The Board of Directors of NorStar and G&EG have approved the Agreement, but the Agreement is expressly subject to approval of the reverse stock split by the NorStar stockholders. The Agreement provides that G&EG will exchange 100% of its issued and outstanding capital stock for 14,600,000 shares of common stock of NorStar. The shares issuable to G&EG will be issued pursuant to an exemption from the registration requirements of the Securities Act of 1933, as amended. All such shares issued to G&EG shall have the same voting rights as existing stockholders in that each stockholder is entitled to one vote for each share of stock held. Shares of common stock have no dividend and no pre-emption rights. Following the close of the transaction with G&EG, there will be 16,000,000 shares of common stock issued and outstanding (exclusive of options to purchase 2,262,989 shares of common stock, all at an exercise price of \$0.75 per share, and outstanding warrants to purchase 1,426,039 shares of common stock, all at an exercise price of \$1.50 per share). All issued and outstanding options and warrants to purchase shares of common stock of G&EG will be exchanged for an identical number of options and warrants to purchase shares of common stock of NorStar. The exercise terms for such options and warrants shall remain identical. G&EG will pay no cash consideration to NorStar. In addition, Tibor N. Vertes and Gregory L. Hrncir will become members of the Board of Directors, and NorStar will change its name to Gaming & Entertainment Group, Inc.

(ii) No cash or other form of consideration will be paid to the stockholders of NorStar in connection with the Agreement.

(iii) NorStar believes that the transaction with G&EG fits well with its objective of providing its stockholders with a long-term value opportunity.

(iv) The board of directors of NorStar has approved this transaction pending stockholder approval of the reverse stock split. Shareholder approval of the transaction is not required, but NorStar has elected to solicit the share exchange to a vote of its stockholders.

(v) The reverse stock split and the issuance of 14,600,000 shares to G&EG will result in the dilution of the percentage equity interest of our existing shareholders and will result in a change in control of NorStar and the addition of two new members to the board of directors.

(vi) This transaction will be accounted for as recapitalization.

(vii) For Federal income tax purposes, the Agreement is intended to constitute as a "plan of reorganization" under Section 368 of the Internal Revenue Code of 1986, as amended.

(b) (5) Regulatory approvals.

The transaction between NorStar and G&EG is subject to applicable laws and regulations at both the Federal and state level. Regulatory approval from a specific Federal or state authority is not required in connection with the transaction.

(b) (6) Reports, opinions, appraisals.

(b) (7) Past contacts, transactions or negotiations.

In May 2003, Gregory L. Hrncir, President of Gaming & Entertainment

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

Group, Inc. ("G&EG") initiated contact with Jay Sanet, President and Chief Executive Officer of NorStar, to inquire as to the possibility of effecting a transaction with NorStar. In early 2003, the Board of Directors of G&EG made a strategic decision to become a publicly traded company to better access the capital markets. Additionally, G&EG was intrigued by NorStar's intellectual property assets, namely as potentially relates to gaming.

Several discussions were had telephonically between Messrs. Hrnccir and Sanet during the period late-May 2003 to late-July 2003 as to (i) the future prospects of each company, (ii) the intellectual property assets of each company, (iii) the best way to structure a transaction to allow for, if at all possible, maintenance of the Company's net operating losses, (iv) minimization of the dilutive effect of a transaction to the stockholders of the Company, (v) the capitalization structure of the respective companies, (vi) the 2003 private placement undertaken by G&EG, and (vii) whether stockholder approval had been previously obtained by NorStar for a transaction of the type contemplated between the parties, namely from a proxy statement filed by the Company with the Securities and Exchange Commission in 2001.

On July 30, 2003, G&EG submitted a due diligence request asking for certain documents and other information regarding NorStar, and G&EG provided certain information and documentation to NorStar as requested. Following a thorough review of the due diligence documentation by the parties, a draft letter of intent was circulated by G&EG on August 27, 2003 for consideration by NorStar. Following a series of comments and discussions, and the approval of the respective Board of Directors, the parties entered into a letter of intent on September 10, 2003. On September 12, 2003, the Company issued a press release regarding the execution of the letter of intent and that the Parties were concluding their respective due diligence investigations and anticipated entering into a definitive agreement shortly thereafter.

On September 17, 2003, the Board of Directors of NorStar approved the definitive agreement, otherwise known as the Agreement and Plan of Reorganization (the "Agreement"). On September 18, 2003, the Board of Directors and a majority of the stockholders of G&EG approved the Agreement. On September 19, 2003, the Company issued a press release announcing the execution of the Agreement by the parties. On September 26, 2003, the Company issued a further press release stating that a proxy solicitation was to be made to the stockholders of the Company to approve the acquisition of G&EG. On October 8, 2003, the Company filed a preliminary proxy statement with the Securities and Exchange Commission on Schedule 14A regarding the proposed transaction with G&EG.

The Agreement provides for the following: (i) a vote on the reverse split of the outstanding shares of common stock of the Company such that, following the reverse stock split, the 34,793,825 shares of issued and outstanding common stock will be reduced to 1,400,000 shares of common stock, (ii) approval of the reverse stock split by the Company's stockholders, (iii) the exchange by G&EG of 100% of its issued and outstanding capital stock for 14,600,000 shares of common stock of the Company with the shares of common stock issuable to G&EG to be issued pursuant to various exemptions from the registration requirements of the Securities Act of 1933, as amended, and all such shares issuable to G&EG to have the same voting rights as existing stockholders of the Company such that each stockholder is entitled to one vote for each share of stock held, (iv) shares of common stock of the Company issued to G&EG shall have no dividend or preemption rights, (v) following the close of the transaction with G&EG, there will be 16,000,000 shares of common stock issued and outstanding, options to purchase 2,262,989 shares of common stock, all at an exercise price of \$0.75 per share, and warrants to purchase 1,426,039 shares of common stock, all at an exercise price of \$1.50 per share, (vi) G&EG will pay no cash consideration to the Company, (vii) Tibor N. Vertes and Gregory L. Hrnccir will become members of the Board of Directors, and (viii) the Company will change its name to Gaming & Entertainment Group, Inc.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

In addition, as part of the Agreement, following the closing of the transaction between the Parties, the Company will retain the services of Tibor Vertes as its Chairman and Chief Executive Officer, and Gregory L. Hrncir as its President, Secretary and a member of the Company's Board of Directors. Messrs. Vertes and Hrncir will have employment contracts with the Company, each with a term of four

9

years concluding on August 31, 2007, providing for an annual salary of \$185,000 and \$175,000 per annum, respectively. Messrs. Vertes and Hrncir will each serve on the Board of Directors for a term of two years. In addition, Jay Sanet, Chief Executive Officer, President and Chairman of the Board of Directors of the Company, will resign from each of his officer capacities with the Company, but will remain as a member of the Company's Board of Directors.

OVERVIEW

Gaming & Entertainment Group, Inc. is a supplier of server-based gaming systems and networked interactive electronic bingo games for the Indian gaming market in the United States as well as the Canadian gaming market. G&EG designs and develops its own gaming systems, software, game content and networks to offer a comprehensive gaming system. In conjunction with a major UK-based strategic partner, G&EG supplies its server-based gaming system and game content library to the gaming market in the United Kingdom and throughout Europe. In addition, G&EG develops and licenses its comprehensive government accredited online gaming system to major U.S. casino operators for utilization outside of the United States.

DESCRIPTION OF REVENUES

Historically, G&EG has received its revenues from the development of Internet gaming sites for regulated land-based casino operators for utilization exclusively outside of the United States and expressly subject to the gaming regulations of the countries in which its clients are licensed.

While G&EG expects to continue to develop Internet gaming sites for regulated land-based gaming operators, its primary focus is to offer its central server gaming system and games to the Indian gaming market in the United States and Canada, as well as to the gaming markets in the United Kingdom and throughout

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

Europe in conjunction with its U.K.-based strategic partner.

G&EG expects to generate revenues from the placement of its gaming system and products in the foregoing markets through revenue sharing agreements as well sale and licensing arrangements. G&EG intends to place its products on a revenue sharing basis whenever possible, which, along with licensing arrangements, will result in recurring revenue, streams for G&EG.

G&EG's dependence on the gaming industry, including its customers, makes it vulnerable to downturns caused by the general economic environment. Such a downturn could result in some gaming operators delaying or declining to purchase or place its products on a revenue sharing basis. Alternatively, it could result in less gambling by patrons of the casinos in which its products will be placed, all of which could potentially negatively affect its results of operations.

When G&EG installs its gaming products under a revenue sharing agreement, it will share in the revenues derived from the performance of the gaming devices on the casino floor. These gaming devices will be installed at little or no upfront cost to G&EG's casino customers. G&EG will, however, retain ownership of the gaming devices and, upon the conclusion of the respective revenue sharing agreements, the gaming devices will be returned to G&EG, reconditioned, and re-deployed into other casinos.

REVENUE RECOGNITION

Sales revenue from G&EG's Internet gaming site development is recognized upon receipt of progress payments. Sales revenue from the placement of its gaming devices under a revenue-sharing agreement will be accounted for similar to an operating lease, with the revenues recognized as earned over the term of the agreement. Sales revenue from the sale of its gaming devices will be recognized upon completion of installation and acceptance by the customer.

DESCRIPTION OF EXPENSES

Cost of product sales consists primarily of manufacturing, shipping, installation and commission costs. Cost of revenue-sharing arrangements consists primarily of depreciation of capitalized costs for the products placed in service. G&EG will capitalize the manufacturing, shipping, installation and sales commissions related to the placement of its gaming devices under revenue-sharing agreements.

Selling, general and administrative expenses include selling expenses consisting primarily of advertising, promotional activities, trade shows, travel and personnel-related expenses and general and administrative expenses consisting primarily of professional fees, salaries and related costs for accounting, administration, finance, human resources, information systems and legal personnel.

Research and development expenses consist of payroll and related costs for hardware and software engineers, quality assurance specialists, graphic designers, management personnel, and the costs of materials used by these employees in the development of new or enhanced product offerings.

In accordance with Financial Accounting Standards Board, or FASB, Statement of Financial Accounting Standards, or SFAS, No. 86, "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed," development costs incurred in the research and development of new software products to be sold, leased or otherwise marketed are expensed as incurred until technological feasibility in the form of a working model has been established.

Although the preceding table summarizes the net changes and percent changes with respect to G&EG's revenues and cost of revenue for the years ended December 31, 2002 and 2001, the trends contained therein are limited to a two-year comparison and should not be viewed as a definitive indication of its future results.

OPERATING EXPENSES

Selling, General and Administrative -- Selling, general and administrative expenses were \$1,619,634 for 2002 and \$1,156,706 for 2001, representing an increase of \$462,928, or 40.0%. Selling, general and administrative expenses represented 89.0% of our total revenues in 2002 and 74.8% of its total revenues in 2001.

Other Income (Expense), Net -- Other expense, net was \$87,725 for 2002 and a deficit of \$6,421 for 2001, representing a decrease of \$94,136. The increase was due, in large part, in the gain on foreign currency exchange.

LOSS ATTRIBUTABLE TO COMMON STOCKHOLDERS

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

G&EG incurred losses attributable to common stockholders of \$641,442 and \$763,101 during 2002 and 2001, respectively. The \$121,659 decrease was attributable to the increase in the gross margin.

G&EG has continued to incur losses subsequent to December 31, 2002 and, as a result, has experienced an increase in accumulated deficit.

LIQUIDITY AND CAPITAL RESOURCES

In August 2000, Entertainment Media Ventures, LLC, a California limited liability company ("EMV") purchased \$1,000,000 of securities from G&EG. The EMV investment was made on the basis of a \$20,000,000 post-money valuation.

On January 29, 2001, Trans-Global Interactive, Ltd., an Australian corporation, purchased \$1,000,000 of securities from G&EG on the basis of a \$20 million post-money valuation.

Commencing in December 2002, G&EG undertook a private placement of units, each unit priced at \$7,500, and consisting of 10,000 shares of common stock and a warrant to purchase 10,000 shares of common stock, exercisable at \$1.50 per share for a period of two (2) years from the termination of the private placement. G&EG received subscriptions for \$957,055 of units, of which \$358,281 related to the conversion of debts of G&EG into units. G&EG issued the investors in the private placement, collectively, 1,276,073 shares of common stock, and warrants to purchase an equal number of shares of common stock. The private placement was made pursuant to the exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended, and Rule 506 of Regulation D as promulgated thereunder.

At December 31, 2002, G&EG had \$281,992 of cash and short-term investments and working capital of \$587,888 compared to \$1,577,365 of cash and short-term investments and \$763,761 of working capital at December 31, 2001. In addition, G&EG stockholders' equity was \$701,786 at December 31, 2002, compared to stockholders' equity of \$902,448 at December 31, 2001, a decrease of \$200,662. The decrease in cash, working capital and stockholders' equity reflects the continued use of cash by G&EG's operations in anticipation of its product

13

rollout in the land-based gaming markets. G&EG's accumulated deficit increased from \$815,161 at December 31, 2001 to \$1,485,362 at December 31, 2002. The increase in accumulated deficit resulted primarily from the net loss from operations for the year ended December 31, 2002.

G&EG used net cash of \$1,400,911 in operating activities during the year ended December 31, 2002 compared to \$1,462,170 of net cash used by operating activities during the year ended December 31, 2001. The decrease in cash used in operating activities was not material.

Investing activities for the year ended December 31, 2002 amounted to \$22,611 of net cash compared to \$99,886 used during the year ended December 31, 2001. The decrease in net cash used in investing activities resulted primarily from a decrease in the acquisition of property, plant and equipment.

Financing activities provided \$37,500 during the year ended December 31, 2002 compared to net cash of \$1,901,294 provided during the year ended December 31, 2001. The primary source of cash during the year ended December 31, 2002 was based on the issuance of five (5) units in the private placement of G&EG, while the financing proceeds from the year ended December 31, 2001 related to the investments of EMV and Trans-Global Interactive, Ltd.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

The placement of gaming devices under revenue-sharing arrangements will be capital intensive. To this end, immediately following the closing of the transaction with NorStar, G&EG will actively seek a financing line to finance the gaming devices to be placed at casinos on a revenue sharing basis. G&EG will likely require additional cash to finance its planned expansion and capital expenditures depending upon the speed at which we it introduces products into the target land-based gaming markets.

QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

All of G&EG's gaming devices (hardware) will be manufactured by third parties on a turnkey basis. For placements in the United States, G&EG will utilize a Las Vegas-based manufacturer. Regarding its placements in Europe, G&EG will utilize a United Kingdom-based manufacturer. G&EG will pay its U.S. manufacturer in U.S. dollars and its U.K. manufacturer in United Kingdom Pounds, or GBP.

G&EG's financial results could be affected by weak economic conditions in foreign markets. Because all of its revenues will be denominated in U.S. Dollars, a strengthening of the dollar could make its products less competitive in foreign markets.

As G&EG expands operations internationally, it will continue to evaluate its foreign currency exposures and risks and develop appropriate hedging or other strategies to manage those risks.

(b) (6) G&EG retained the independent certified public accounting firm of Kafoury, Armstrong & Co., with offices in Reno, Nevada, to audit the financial statements of G&EG for fiscal years 2000, 2001 and 2002. G&EG has had no disagreements with its accountants regarding accounting and financial disclosure. There have been no changes in G&EG's accounting firm since its inception. Representatives of the principal accountants of G&EG are not expected to be present (in-person) at the security holders' meeting, but will have the opportunity to make a statement if they desire to do so (via teleconference) at the special meeting and will be made available to respond (via teleconference) to appropriate questions.

(b) (7) The information required by this section is set forth in Appendix C.

APPENDIX A

AGREEMENT AND PLAN OF REORGANIZATION

THIS AGREEMENT AND PLAN OF REORGANIZATION (the "Agreement") made and entered into as of September 18, 2003, is by and among NorStar Group, Inc., a Utah corporation (hereinafter referred to as the "Company"), Gaming & Entertainment Group, Inc., a Nevada corporation (hereinafter referred to as "G&EG") and each of the holders of shares of Common Stock of G&EG listed on Exhibit A to be attached hereto as hereinafter provided (individually, a "G&EG Stockholder", and collectively, the "G&EG Stockholders").

RECITALS

WHEREAS, the G&EG Stockholders own a total of not less than 90% of all of the issued and outstanding Common Stock of G & EG; and WHEREAS, the Company desires to acquire all but not less than 90% of the issued and outstanding common stock of G&EG and the G&EG Stockholders desire to exchange all of their shares of Common Stock of G&EG for shares of Common Stock of the Company in a transaction intended to qualify as a so-called "tax-free" reorganization under Section 368 of the Internal Revenue Code of 1986, as amended (the "Code").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein and in reliance upon the representations and warranties hereinafter set forth, the parties agree as follows:

1. EXCHANGE OF THE SHARES AND CONSIDERATION

1.1 Shares Being Exchanged. Subject to the terms and conditions of this Agreement, at the closing provided for in Section 2 hereof (the "Closing"), each of the G&EG Stockholders shall sell, assign, transfer and deliver to the

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

Company the number of shares of Common Stock of G&EG set forth opposite each such G&EG Stockholder's name on Exhibit A to be attached hereto prior to the Closing (the shares of Common Stock of G&EG sold, assigned and transferred to the Company hereunder are hereinafter referred to as the "G&EG Shares").

1.2 Consideration. Subject to the terms and conditions of this Agreement and in consideration of the sale, assignment, transfer and delivery of the G&EG Shares to the Company, at the Closing the Company shall issue, sell and deliver to the G&EG Stockholders a number of shares of Common Stock of the Company determined by multiplying fourteen million six hundred thousand (14,600,000) times a fraction, the numerator of which is the total number of G&EG Shares sold and delivered to the Company at the Closing and the denominator of which is the total number of shares of Common Stock of G&EG issued and outstanding immediately prior to the Closing (the shares of Common Stock of the Company issued, sold and delivered to the G&EG Stockholders hereunder are

1

hereinafter referred to as the "Company Shares"). The Company Shares shall be issued after the date on which the Company has effected the reverse split of its issued and outstanding Common Stock described in Section 8.4 hereof. Each G&EG Stockholder shall receive, in consideration for the G&EG Shares sold, assigned, transferred and delivered to the Company by such G&EG Stockholder, a pro rata portion of the Company Shares based on the number of G&EG Shares set forth opposite such G&EG Stockholder's name on Exhibit A hereto. In lieu of any fractional Company Share to which a G&EG Stockholder would otherwise be entitled, the Company shall round such fractional share up to a whole Company Share.

2. THE CLOSING

2.1 Time and Place. The Closing of the transactions contemplated by this Agreement shall be held not more than three (3) business days following the later of (a) the date of the special meeting of the stockholders of the Company held to approve the reverse split of the Company's outstanding Common Stock described in Section 8.4 hereof, and (b) satisfaction of all other conditions precedent to the obligations of the parties specified in this Agreement, unless duly waived by the party entitled to satisfaction thereof. with Section 1.2 above, and shall deliver to G&EG the Company's minute book, corporate seal and copies of all corporate and financial books and records.

2

2.5 Exchange of Options and Warrants.

(a) At the Closing, the Company shall enter into an agreement (an "Option Exchange Agreement") with each holder of an outstanding option to purchase shares of common stock of G&EG (a "G&EG Option") who elects to exchange such holder's G&EG Option for an option to purchase shares of the Company's common stock (a "Company Option", and collectively, the "Company Options"). If a holder of a G&EG Option (a "G&EG Option Holder") elects to enter into an Option Exchange Agreement with the Company, the number of option shares, the exercise price and other material terms and conditions of the Company Option to be granted to such G&EG Option Holder shall be the same as the number of option shares, the exercise price and other material terms and conditions of the G&EG Option, including, without limitation, any vesting requirements with respect to the shares subject to the G&EG Option, except as otherwise agreed to by the G&EG Option Holder and the Company.

10. SURVIVAL OF REPRESENTATIONS AND WARRANTIES

10.1 Survival of Representations and Warranties. The representations and warranties contained herein shall survive the Closing, but shall expire on the first anniversary date following the date of Closing, unless a specific claim in writing with respect to these matters shall have been made, or any action at law or in equity shall have been commenced or filed before such anniversary date. Any investigations made by or on behalf of any of the parties prior to the date of Closing shall not affect any of the parties' obligations hereunder. Completion of the transactions contemplated herein shall not be deemed or construed to be a waiver of any right or remedy of any of the parties.

11. INDEMNIFICATION

11.1 Indemnification. The Company agrees to indemnify, defend and hold harmless G&EG and the G&EG Stockholders from and against any and all demands, claims, actions or causes of action, assessments, losses, damages, liabilities, costs and expenses, including interest, penalties and reasonable attorneys' fees and expenses (collectively "Damages") asserted against, resulting to, imposed upon or incurred by G&EG or the G&EG Stockholders, directly or indirectly, by reason of or resulting from (i) any breach by the Company of this Agreement, or (ii) any inaccuracy in or breach of any of the representations, warranties, covenants or agreements made by the Company in this Agreement.

11.2 Limitation. The liability of the Company pursuant to this Section 11 shall be limited to claims for damages made by G&EG or the G&EG Stockholders in writing within one (1) year after the date of this Agreement or, with respect to claims relative to tax liabilities for periods ending on or prior to the date of this Agreement, within the period of any applicable statute of limitations.

11.3 Claims. In the event that G&EG or the G&EG Stockholders (hereinafter collectively referred to as the "Indemnified Party") shall reasonably believe that it has a claim for Damages ("Claim"), it shall give prompt notice in accordance herewith to the Company (the "Indemnifying Party") of the nature and extent of such Claim and the Damages incurred by it. If the Damages are liquidated in amount, the notice shall so state, and such amount shall be deemed the amount of such Claim of the Indemnified Party against the Indemnifying Party. If the amount is not liquidated, the notice shall so state and, in such event, such Claim shall be deemed asserted against the Indemnifying Party but no payment or satisfaction shall be made on account thereof until the amount of such claim is liquidated.

If the Indemnifying Party shall not, within thirty (30) days after the giving of such notice by the Indemnified Party, notify the Indemnified Party in accordance herewith that the Indemnifying Party disputes the right of the Indemnified Party to indemnity in respect of such Claim, then any such Claim shall be paid or satisfied as follows: (i) if said Claim is liquidated, then payment of such Claim to the Indemnified Party shall be made by the Indemnifying Party at the end of such period; or (ii) if the amount of such Claim is unliquidated at the time notice is originally given to the Indemnifying Party, the Indemnified Party shall give a second notice to the Indemnifying Party when the liquidated amount of such Claim is known and, unless the

Indemnifying Party shall object in writing to such amount (as opposed to the

Claim itself, as to which the right to dispute had expired) within twenty (20) days after the giving of said second notice, payment of such Claim to the Indemnified Party shall be made by the Indemnifying Party. If the Indemnifying Party shall not have made payment to the Indemnified Party of any Claim when said payment is due, then the Indemnified Party shall have the right to take any and all actions required to collect from the Indemnifying Party the amount of such Claim. Any portion of the amount of Damages asserted by the Indemnified Party in connection with a Claim shall, if not objected to by the Indemnifying Party in accordance with the procedures established herein, be considered to be subject to satisfaction without further objection, as may be appropriate.

If the Indemnifying Party shall notify the Indemnified Party that the Indemnifying Party disputes any Claim or the amount thereof (which notice shall only be given if the Indemnifying Party has a good faith belief that the Indemnified Party is not entitled to indemnity or the full amount of indemnity as claimed) then the parties hereto shall endeavor to settle and compromise such Claim, or may agree to submit the same to arbitration, and, if unable to agree on any settlement or compromise or on submission to arbitration, such claim shall be settled by appropriate litigation, and any liability and the amount of the Damages established by reason of such settlement, compromise, arbitration or litigation, or incurred as a result thereof, shall be paid and satisfied as provided herein.

11.4 Conditions of Indemnification with Respect to Third Party Claims. The Indemnified Party shall promptly give notice to the Indemnifying Party of any claim of a third party which may reasonably be expected to result in a Claim by the Indemnified Party. The Indemnifying Party shall have the right to participate in and, with respect to a third party Claim as to which the Indemnifying is "wholly at risk," direct the defense, compromise or settlement of such claim with counsel selected by the Indemnifying Party, provided the Indemnifying Party gives written notice to the Indemnified Party of the Indemnifying Party's election to do so within thirty (30) days after receipt of notice in accordance with the preceding sentence. For the purposes of this Section 11.4, the Indemnifying Party shall be deemed to be "wholly at risk" except as to (i) Claims as to which the Indemnified Party may have any direct monetary risk for which it is not fully indemnified by the terms hereof or (ii) Claims as to which the Indemnified Party in its reasonable judgment has any risk or liability for which compensation by monetary damages would not be adequate. If the Indemnifying Party fails to so notify the Indemnified Party of its election to defend any such third party claim, the Indemnified Party will (upon further notice to the Indemnifying Party) have the right to undertake the defense, compromise or settlement of such claim on behalf of and for the account and expense of the Indemnifying Party, subject to the right of the Indemnifying Party to assume the defense of such claim at any time prior to settlement, compromise or final determination thereof.

If the proceeding involves matters as to which the Indemnifying Party is not "wholly at risk," then the defense, compromise or settlement of the Claim shall be the responsibility of the Indemnified Party, but such defense, compromise and settlement by the Indemnified Party shall be for the expense and account of the Indemnifying Party. Counsel for the Indemnifying Party shall

consult and cooperate at all times with counsel for the Indemnified Party in defending against any such third party claim. The Indemnifying Party shall not under any circumstances, without the written consent of the Indemnified Party, settle or compromise any claim or consent to the entry of any judgment which does not include as an unconditional term thereof the giving by the claimant or

the plaintiff to the Indemnified Party a release from all liability in respect of such claim.

PART I

Item 1. Business

(a) General Development of Business

NorStar Group, Inc., a Utah Corporation ("NorStar" or the "Company") was originally formed in March 1961 as Florist Accounting Service, Inc. The Company changed its name in 1971 to Luxor Group N.A., Inc. and in 1992 to NorStar Group, Inc. NorStar has not been the subject of any bankruptcy, receivership or similar proceeding. There has been no material reclassification, merger, consolidation, or sale of a significant amount of assets not in the ordinary course of the Company's business. NorStar has made a number of acquisitions over the last few years of businesses and investment opportunities. In January, 1998, NorStar entered into an agreement to acquire in their entirety, the Institute of Metabolic Medicine, Metabolic Treatment Center, Inc., JBA Medical Management, Inc., and Medical Providers of South West Florida, Inc. In April, 1992, NorStar also acquired 680 acres (17 gold mining claims) in Nevada. In March of 1999 NorStar abandoned the medical venture to concentrate on its Internet on-line business. NorStar is seeking a joint venture partner to work its mining claims.

(b) Business of the Company: The business of NorStar is an Internet online-community of "One Stop Shopping" for products, entertainment, education and business services from a network

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

of providers. NorStar's portal provides the subscriber/member with access to several web browsers, a directory of thousands of stores, an Internet shopping mall, three dimensional virtual reality chat rooms, telephone chat, forums, game rooms, a virtual reality dating service, virtual reality business conference rooms using virtual reality chat room technology, specialty advertising rooms with virtual reality activities, and global e-mail service which can be accessed through the web anywhere in the world.

(i) Membership :

NorStar offers membership to the 100 million consumers who currently have, or who will have some form of access to the Internet. Consumers subscribing to NorStar's network are offered discounts for products and services through the Company's provider network. NorStar's strategy is to address the trend toward rising out of pocket costs by bringing together a provider network that offers quality products and services at reduced prices. The Company believes that by having access to an extensive multi-service provider network in a region its members

will be able to receive quality services and products at less than market prices. As a result, NorStar believes that it can establish a market niche where the discounts obtained by the membership will far outweigh the cost of membership to join the NorStar network. The cost for annual family membership is \$120.00. NorStar discounts are designed not to be related in any way to the dollar amount of purchases, volume of buying or products so members will not be subject to any minimum requirements or other restrictions. The member is simply being provided these programs based on the willingness of service and product providers to offer their services and products to customers of the Company at a discount.

(ii) Providers :

The foundation of the Company's business will be the development and maintenance of a network of providers comprised of manufacturers, wholesalers, retailers and service providers. NorStar intends that providers who participate in the NorStar network will receive some of the following benefits, including but not limited to: elimination of paper order form preparation and supporting documentation, reduction of bad debt, new customers with no additional advertising expense, and more efficient utilization of personnel and equipment. The national and regional marketing planned by the Company should give providers an increased level of exposure. The Company will also contract with reliable suppliers who offer computer network accessible products and services. It is the Company's objective to establish a national network of providers within 3 years through direct contracts, affiliations with national organizations and other regional networks. NorStar anticipates having an appropriate number of providers under contract and available on the net in the near future. The distribution method of these products and services to holders of membership will be via the Internet. No

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

assurances can be given that the Company will be successful in establishing a national network. The failure to establish a national network would have a material adverse effect on the Company's business, financial condition and results of operations.

(iii) Market Overview :

The market for discount products and services via the Internet is in its infancy. The level of demand and acceptance of discount products and services programs is dependent upon a number of factors, including growth of consumer access to the Internet, the Company's ability to develop and maintain distribution channels to sell memberships to consumers, acceptance of discounted products and services and the willingness of service and product providers to offer their services and products to customers at a discount. The Company

believes that competition will intensify and increase in the future. NorStar views its primary direct competitors as AOL, CompuServe, Prodigy, Yahoo, and GeoCities.

(iv) Summary of Product Research and Development :

NorStar's publicly announced new product and service includes the Cybervisor(TM) which is still in the research and development stage. NorStar filed a Trademark Application for The "Cybervisor(TM)" a head mounted display unit with related hardware and software INT. Class:009 The mark consists of text letters (the Cybervisor) Serial number 75/710459. NorStar announced that its Cybervisor (TM) IPD (Interactive Personal Display) unit will be offered in the marketplace for home, business and school use. NorStar plans to introduce three IPD models: The Cybervisor (TM), The Super Cybervisor (TM), and the Cybervisor Jr.(TM). In addition, NorStar has completed development of a new Web based community called "VeeAreCity.Com". VeeAreCity.Com, Inc., a Delaware corporation and wholly-owned subsidiary of the Company ("VeeAreCity") owns and will operate the Web site. The physical tooling developed for the VeeAreCity Head Mounted Display ("HMD") appearance will be owned by VeeAreCity.

The head gear will be manufactured by a third party, at the anticipated volume levels of 100,000 units/year. VeeAreCity estimates that it will be able to manufacture the HMD for at a per unit cost of approximately \$200. This price is subject to change up or down based on the final product specifications. NorStar also plans to begin construction of its "Cybernizer" a web pager. In addition, the Cybernizer will be a Internet navigation tool that will include such features as voice chat and instant access to all major search engines. The estimated cost for the development of this project is between \$900,000 and \$1.1 million. The source for funding the research and development of this project will come from additional equity and/or debt financing. No assurance can be given that the Company will raise the necessary capital to complete this project, or if completed that it will be accepted in the marketplace.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

NorStar has awarded distributorship agreements totaling \$451 million of product to be developed over five years.

NorStar has spent approximately \$72,000 during the last two fiscal years on research and development activities.

NorStar employs five full time employees, four of whom serve as Officers and Directors of NorStar and two clerical personnel.

Item 2. Properties

NorStar's place of business is located at 6365 N.W. 6th Way, Fort Lauderdale, Florida 33309. The premises is described as a CBS and steel class A building/shared executive suite. NorStar subleases approximately 900 square feet on a month to month tenancy from American Network Realty. Item 102 (a) 1. Small Business Issuer engaged in significant mining operations:

NorStar acquired 680 acres (17 gold mining claims) in Nevada and is seeking a joint venture partner to work the claims.*

Description of Property pursuant to Guide 7, Section 229.801(g) and Section 229.802(g)

The seventeen (17) lode claims are located in the Gold Mountain Mining District of Esmeralda County, Nevada. Esmeralda County is noted only for its mining industry. The mines located on the edge of Goldfield, Nevada have continued to operate on a limited basis until the end of March 1992 when the Black Hawk mine closed its underground operations. There continues to be several leach operations in full swing.

Claim Location

The seventeen (17) unpatented claims are located 180 miles north of Las Vegas, Nevada on state Highway 95 to Lida Junction, south to Gold Point then south by southeast approximately 8 miles. The claims are situated in Township 8S, Range 41, Sections 11, 14, and 22. The Eastern Group (7 claims) is located at the elevation of 6,500 to 7,000 feet and is the most mountainous area. The Western Group (10 claims) is located on a gentle rolling terrain for the most part. In either case walking is the only way to gain access to the greatest portion of the claims.

Geology

The rock is primarily Tertiary age quartz monzonite. There are several visible fault zones and you find that they contain quartz veins and stringers. Mineralization is easily located on most of the claims and there appear to be several areas that should be excellent prospects for geologic exploration. There exists on the claims one (1) 250 foot adit with mineralization showing and four (4) shafts. The deepest shaft is located on the Western Group of claims and has been plumbed to 185 feet. Some of the underground workings have been mapped prior to it filling with water.

Climate

The climate is arid, dry and hot in summertime and windy and cold November through January. However, snowfall is limited and in most cases would not interfere with mining operations.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

Ore Dumps

There is a 2500 ton dump located near the main shaft. Sampling of this dump shows that the ore lends itself to the leaching process for recovery of gold and silver. The gold in this area runs .997 fine. There are also several other smaller ore dumps scattered among the claims. Since ore is not complex it can be easily extracted by the leaching method or can be transported to a mill for crushing and processing. Conclusions

Over the years estimates of ore reserves have been made by several geologists and mining engineers. Donald R. McGregor stated in his report that by just stripping the mountain on which the main shaft is located would open up approximately three and one-half million (3,500,000) tons of ore with an average grade of .116 ounces gold per ton and .23 ounces of silver per ton. The gross value of this area alone calculates out to over \$146,000,000. Using \$350.00/oz. gold and \$5.00/oz silver.

This does not take into account the eastern group of claims. The assays from this area range from .43 ounces gold and 2.26 ounces silver per ton to .83 ounces gold and 14.06 ounces silver per ton. An extensive core drilling program in this area could easily produce triple the values calculated for the western group of claims.

The recovery cost for strip mining and heap leach is about \$180 per ounce. Custom milling would run approximately \$220 per ounce. A mining operation is deemed feasible particularly since the ore is not complex.

*The aforementioned investments in gold mining are for investment purposes only and should not be construed as the core business or core business activity of NorStar.

Item 3. Legal Proceedings

NorStar is not involved in any legal proceedings.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders of NorStar Group, Inc. during the fiscal year ended December 31, 2001.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Such statements consists of any statement other than a recitation of historical fact and can be identified by the use of forward-looking terminology such as "may," "expect," "anticipate," "estimate" or "continue" or the negative thereof of other variations thereon or comparable

The reader is cautioned that all forward-looking statements are necessarily speculative and there are certain risks and uncertainties that could cause actual events or results to differ materially from those referred to in such forward-looking statements. OVERVIEW

NorStar Group, Inc. was originally incorporated in the State of Utah in March 1961 as Florist Accounting Services, Inc., a finance company that was primarily engaged in factoring accounts receivables for florists in Utah. The name Florist Accounting Services, Inc. was changed to Luxor Group N.S. Inc. during 1971 and to Norstar Group, Inc during 1992. The Company was unable to develop a profitable operation and became inactive until April 1992. During the period from April 1992 through December 31, 1999 the Company acquired and/or

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

began to develop and dispose of, several businesses and certain other investments. In 1998, the company began the development of its Internet business which involves the creation of a portal to a cyber-city, an on-line community of "One Stop Shopping" for products, entertainment, education and business services. The on-line community is being developed through its two subsidiaries VeeAreCity.com, Inc. and VeeAreCity the Burbs.com, Inc.. The portal is designed to provide subscriber/member with access to several web browsers, a directory to thousands of stores, three dimensional virtual reality ("VR") chat rooms, forums and game rooms, a VR dating service, VR business conference room, specialty advertising rooms with VR activities and global e-mails that can be accessed through the web anywhere in the world. The company intends to generate revenues from this business primarily through usage fees from certain of its activities and the sale of annual memberships to consumers who will be offered discounts on products and services through a provider network to be developed by the company. The Company also holds mineral rights attributable to 17 claims that were acquired for gold mines located in the Gold Mountain mining district of Esmeralda County Nevada. However, management does not expect mining operations to become one of the Company's core businesses. Management is attempting to find a joint venture partner to assist the company in developing these claims.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Web site and development costs:

The Company accounts for costs incurred in connection with the development of a web site in accordance with Statement of Position 98-1, "Accounting for Costs of Computer Software Developed or Obtained for Internal Use" and Emerging Issues Task Force Issue No. 00-2, "Accounting for Web Site Development Costs." Accordingly, all costs incurred in planning the development of a web site are expensed as incurred. Costs, other than general and administrative and overhead costs, incurred in the web site application and infrastructure development stage, which involves acquiring or developing hardware and software to operate the web site, are capitalized. Fees paid to an Internet service provider for hosting a web site on its server(s) connected to the Internet are expensed over the estimated period of benefit. Other costs incurred during the operating stage, such as training, administration and maintenance costs, are expensed as incurred. Costs incurred during the operating stage for upgrades and enhancements of a web site are capitalized if it is probable that they will result in added functionality. Capitalized web site and development costs are amortized on a straight-line basis over their estimated useful life.

The Company capitalized costs of approximately \$193,000 in 2000 and \$45,000 in prior years that were incurred in connection with the acquisition and development of software in the application and infrastructure development stage and the enhancement of its web sites. The Company will begin to amortize capitalized web site and development costs when it begins to generate revenues from sales of memberships to subscribers which management estimates will be in the third quarter of the year ending December 31, 2002.

Impairment of long-lived assets:

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

The Company has adopted the provisions of Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of" ("SFAS 121"). Under SFAS 121, impairment losses on long-lived assets, such as capitalized web site and development costs, are recognized when events or changes in circumstances indicate that the undiscounted cash flows estimated to be generated by such assets are less than their carrying value and, accordingly, all or a portion of such carrying value may not be recoverable. Impairment losses are then measured by comparing the fair value of assets to their carrying amounts.

Stock based compensation:

In accordance with the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), the Company will recognize compensation costs as a result of the issuance of stock options granted to employees based on the excess, if any, of the fair value of the underlying stock at the date of grant or award (or at an appropriate subsequent

measurement date) over the amount the employee must pay to acquire the stock. Therefore, the Company will not be required to recognize compensation expense as a result of any grants of stock options to employees at an exercise price that is equivalent to or greater than fair value. The Company will also make pro forma disclosures, as required by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), of net income or loss as if a fair value based method of accounting for stock options granted to employees had been applied instead if such amounts differ materially from the historical amounts.

In accordance with SFAS 123, the Company will also recognize the cost of shares, options, warrants and other equity instruments issued to non-employees as consideration for services as expense over the periods in which the related services are rendered by a charge to compensation cost and a corresponding credit to additional paid-in capital. Generally, cost will be determined based on the fair value of the equity instruments at the date of issuance. The fair value of options, warrants and similar equity instruments will be estimated based on the Black-Scholes option-pricing model, which meets the criteria set forth in SFAS 123, and the assumption that all of the options or other equity instruments will ultimately vest. The effect of actual forfeitures will be recognized as they occur.

RESULTS OF OPERATIONS:

Year ended December 31, 2001 as compared to year ended December 31, 2000.

The company did not have any revenues during either the year ending December 31, 2001 or 2000. Management estimates that the Company will not begin to generate revenues from sales of memberships to subscribers until the third quarter of the year ending December 31, 2002.

During the year ended December 31, 2001, the Company's operating expenses decreased by approximately \$168,000 to approximately \$383,000 from approximately \$551,000 for the year ended December 31, 2000. The primary cause of the decrease was non-cash charges in 2001 and 2000, respectively, of approximately \$221,000 and \$500,000. These non-cash charges related to (i) amortization of unearned compensation which resulted from the issuance of stock

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

options to consultants relating to the agreements described below and (ii) services, compensation and other expenses paid through the issuance of common stock.

On April 17, 2000, the Company entered into agreements with three consultants. Under these agreements, the consultants will, among other things, assist the Company in finding businesses located primarily in England,

other European countries and the Northeastern section of the United States of America that will advertise in and/or link to the Company's on-line community. The three consultants received options to purchase a total of 1,300,000 shares of the Company's common stock that will be exercisable at \$.40 per share at any time during the term of the consulting agreements as consideration for their services.

The aggregate fair value of the options granted to the consultants of \$377,000 as of the date of grant, as determined based on the Black-Scholes option-pricing model, was recorded as unearned compensation, which will be amortized to expense over the periods in which the related services are rendered, as required by generally accepted accounting principles in the United States of America. The Company incurred amortization expense associated with these agreements of approximately \$141,000 and \$236,000 in 2001 and 2000, respectively. In addition, the Company satisfied \$80,000 and \$264,000 of services compensation and other expenses in 2001 and 2000, respectively, through the issuance of common stock. These decreases in non-cash expenses were offset somewhat by an increase of approximately \$72,000 in research and development costs which were incurred in 2001.

As a result of the above, the Company incurred a loss of approximately \$383,000 or \$.02 per common share for the year ended December 31, 2001 as compared to approximately \$551,000 or \$.03 per common share for the comparable period ended December 31, 2000. The basic weighted average common shares outstanding were 18,924,647 and 15,777,295 for the year ended December 31, 2001 and 2000, respectively.

Liquidity and Capital Resources

NorStar's consolidated financial statements have been prepared assuming that the Company will continue as a going concern. However, the Company has not generated any significant revenues on a sustained basis from its current operations. Management estimates that the Company will not begin to generate revenues from sales of memberships to subscribers until the third quarter of the year ending December 31, 2002. As shown in the consolidated financial statements, the Company has continued to incur net losses, approximately \$383,000 and \$551,000 in 2001 and 2000, respectively, although a substantial portion of the losses was attributable to non-cash charges for the fair value of shares and stock options issued for services, compensation and other expenses. As of December 31, 2001, the Company had a cash balance of only \$2,500, a working capital deficiency of approximately \$208,000 and an accumulated deficit of \$6,397,000. Management believes that the Company will continue to incur net losses through at least December 31, 2002 and that it will need additional equity and/or debt financing of at least \$2,000,000 to enable it to fully develop its web services as initially planned and sustain its operations until it can achieve profitability and generate cash flows from its operating activities on a

recurring basis. These matters raise substantial doubt about the Company's ability to continue as a going concern.

Management is attempting to obtain additional financing for the Company through the issuance of equity securities, loans from financial institutions and/or agreements with strategic partners. However, management cannot assure that the Company will be able to sell equity securities, obtain loans from financial institutions and/or form strategic alliances that will generate financing on acceptable terms. If the Company is not able to obtain adequate financing, it may have to curtail or terminate some or all of its operations. During 2001, the Company financed its operations primarily from its existing cash and or the proceeds of approximately \$164,000 of notes from its stockholders.

We do not believe that our business is subject to seasonal trends or inflation. On an ongoing basis we will attempt to minimize any effect of inflation on our operating results by controlling operating costs and whenever possible, seeking to insure that subscription rates and usage fees reflect increases in costs due to inflation.

The Company believes the following trends, events and uncertainties could have a material impact on their short-term and/or long-term liquidity. The market for Internet discount services and product programs is relatively new and is evolving rapidly. NorStar's future growth is dependent upon its ability to create, develop and distribute programs that are accepted by its clients as an integral part of their business model for communicating with their targeted audiences. Demand and market acceptance of discount products and service programs is dependent upon a number of factors, including the growth in consumer access to and acceptance of these programs, the willingness of service and product providers to offer their services and products to customers of NorStar at a discount, and NorStar's ability to develop and maintain distribution channels to sell memberships to consumers. The failure of providers or consumers to participate in NorStar's programs or substantial increases in the adequacy or availability of other programs could have a material and adverse impact on NorStar's business, operating results and financial condition. In addition, NorStar does not have long-term contracts and needs to establish relationships with new vendors. As a result, providers of discounted services or products to NorStar's members may unilaterally reduce the scope of, or terminate their relationships with NorStar. The termination of NorStar's business relationship or a material reduction in the availability of services or products from any of NorStar's significant providers or networks thereof or NorStar's failure to develop significant new provider relationships would materially and adversely affect its business, operating results and financial condition.

NorStar believes that within the market niche it seeks to develop, the following known trends, events or uncertainties that have had or that are reasonably expected to have a material impact on their net sales or revenues or income from

their continuing operations will include the following: (i) The market for discounted products and services is characterized by rapid changes in participating companies, consumers and service provider requirements and preferences, new service and product introductions and evolving industry standards that could render NorStar's existing service practices and methodologies obsolete; (ii) NorStar's success will depend, in large part, on its ability to improve its existing services, develop new services and solutions that address the increasingly sophisticated and varied needs of NorStar's

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

clients, and respond to technological advances, emerging industry standards and practices, and competitive service offerings; and (iii) NorStar may not be successful in responding quickly, cost-effectively and sufficiently to these developments. If NorStar is unable, for technical, financial or other reasons, to adapt in a timely manner in response to changing market conditions or these requirements, its business, results of operations and financial condition would be materially adversely affected.

Report of Independent Public Accountants

To the Board of Directors and Stockholders
NorStar Group, Inc.

We have audited the accompanying consolidated balance sheet of NorStar Group, Inc. and Subsidiaries as of December 31, 2001, and the related consolidated statements of operations, stockholders' equity and cash flows for the years ended December 31, 2001 and 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of NorStar Group, Inc. and Subsidiaries as of December 31, 2001, and their results of operations and cash flows for the years ended December 31, 2001 and 2000, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As further discussed in Note 2 to the consolidated financial statements, the Company's operations have generated recurring losses, its operating activities have also been using cash and it had a working capital deficiency and an accumulated deficit as of December 31, 2001. Such matters raise substantial doubt about the Company's ability to continue as a going concern. Management's plans concerning these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Notes to Consolidated Financial Statements

Note 1 - Business:

NorStar Group, Inc. ("NorStar") was originally incorporated in the State of Utah during March 1961 as Florist Accounting Services, Inc. (the name Florist Accounting Services, Inc. was changed to Luxor Group N.S. Inc. during 1971 and to NorStar Group, Inc. during 1992). As of December 31, 2001, NorStar had two subsidiaries, VeeAreCity.com, Inc. ("VeeAreCity") and VeeAreCity The Burbs.com, Inc. ("The Burbs"), both of which were wholly-owned. As used herein, the "Company" refers to NorStar or NorStar together with VeeAreCity, The Burbs and/or certain other subsidiaries that had been acquired and disposed of by NorStar prior to December 31, 2001.

The Company was originally organized as a finance company that was primarily engaged in factoring accounts receivable for florists in Utah. However, the Company was unable to develop profitable financing operations, and it became substantially inactive until April 1992. During the period from April 1992 through December 31, 1999, the Company acquired and/or began to develop, and disposed of, several businesses and certain other investments.

As of December 31, 2001 and during the years ended December 31, 2001 and 2000, the Company was primarily engaged, through VeeAreCity and The Burbs, in an attempt to develop an Internet business that it started in 1998. The Internet business involves the creation of a portal to a cyber-city, online community of "One Stop Shopping" for products, entertainment, education and business services. The portal is intended to provide the subscriber/member with access to several web browsers, a directory of thousands of stores, three dimensional virtual reality ("VR") chat rooms, forums and game rooms, a VR dating service, VR business conference rooms, specialty advertising rooms with VR activities and global e-mail services that can be accessed through the web anywhere in the world. The Company intends to generate revenues from this business primarily through usage fees from certain of its activities and the sale of annual memberships to consumers who will be offered discounts on products and services through a provider network to be developed by the Company.

As of December 31, 2001, the Company also held the mineral rights attributable to 17 claims that were acquired on April 29, 1992 for gold mines located in the Gold Mountain mining district of Esmeralda County, Nevada (see Note 3). However, management does not expect mining operations to become one of the Company's core businesses. Management is attempting to find a joint venture partner to assist the Company in developing these claims. If a joint venture partner cannot be found, management expects that the Company will continue to hold the claims as an investment.

Note 2 - Summary of significant accounting policies:

Basis of presentation:

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. However, the Company has not generated any significant revenues on a sustained basis from its current operations. Management estimates that the Company will not begin to generate revenues from sales of memberships to subscribers until the third quarter of the year ending December 31, 2002. As shown in the accompanying consolidated financial statements, the Company incurred net losses of approximately \$383,000 and \$551,000 in 2001 and 2000, respectively, although a substantial portion of the losses was attributable to noncash charges for the fair value of shares and stock options issued for services, compensation and other expenses. As of December 31, 2001, the Company had a cash balance of only \$2,500, a working capital deficiency of approximately \$208,000 and an accumulated deficit of \$6,397,000. Management believes that the Company will continue to incur net losses through at least December 31, 2002 and that it will need additional equity and/or debt financing of at least \$2,000,000 to enable it to fully develop its web services as initially planned and sustain its operations until it can achieve profitability and generate cash flows from its operating activities on a recurring basis. These matters raise substantial doubt about the Company's ability to continue as a going concern.

Management is attempting to obtain additional financing for the Company through the issuance of equity securities, loans from financial institutions and/or agreements with strategic partners. However, management cannot assure that the Company will be able to sell equity securities, obtain loans from financial institutions and/or form strategic alliances that will generate financing on acceptable terms. If the Company is not able to obtain adequate financing, it may have to curtail or terminate some or all of its operations.

The accompanying consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue its operations as a going concern.

Principles of consolidation:

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

The accompanying consolidated financial statements include the accounts of NorStar and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 2 - Summary of significant accounting policies (concluded):

Equipment:

Equipment is stated at cost, net of accumulated depreciation. Depreciation is provided using the straight-line method over the estimated useful lives of the assets and amounted to \$1,398 and \$699 in 2001 and 2000, respectively.

Web site and development costs:

The Company accounts for costs incurred in connection with the development of a web site in accordance with Statement of Position 98-1, "Accounting for Costs of Computer Software Developed or Obtained for Internal Use" and Emerging Issues Task Force Issue No. 00-2, "Accounting for Web Site Development Costs." Accordingly, all costs incurred in planning the development of a web site are expensed as incurred. Costs, other than general and administrative and overhead costs, incurred in the web site application and infrastructure development stage, which involves acquiring or developing hardware and software to operate the web site, are capitalized. Fees paid to an Internet service provider for hosting a web site on its server(s) connected to the Internet are expensed over the estimated period of benefit. Other costs incurred during the operating stage, such as training, administration and maintenance costs, are expensed as incurred. Costs incurred during the operating stage for upgrades and enhancements of a web site are capitalized if it is probable that they will result in added functionality. Capitalized web site and development costs are amortized on a straight-line basis over their estimated useful life.

The Company capitalized costs of approximately \$193,000 in 2000 and \$45,000 in prior years that were incurred in connection with the acquisition and development of software in the application and infrastructure development stage and the enhancement of its web sites. The Company will begin to

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

amortize capitalized web site and development costs when it begins to generate revenues from sales of memberships to subscribers which management estimates will be in the third quarter of the year ending December 31, 2002.

Impairment of long-lived assets:

The Company has adopted the provisions of Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of" ("SFAS 121"). Under SFAS 121, impairment losses on long-lived assets, such as capitalized web site and development costs, are recognized when

events or changes in circumstances indicate that the undiscounted cash flows estimated to be generated by such assets are less than their carrying value and, accordingly, all or a portion of such carrying value may not be recoverable. Impairment losses are then measured by comparing the fair value of assets to their carrying amounts.

Advertising:

The Company expenses the cost of advertising and promotions as incurred. Advertising costs, which are included in selling expenses and charged to operations, were immaterial during 2001 and 2000.

F-9

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 2 - Summary of significant accounting policies (continued):

Income taxes:

The Company accounts for income taxes pursuant to the asset and liability method which requires deferred income tax assets and liabilities to be computed annually for temporary differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. The income tax provision or credit is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

Net earnings (loss) per share:

The Company presents "basic" earnings (loss) per share and, if

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

applicable, "diluted" earnings per share pursuant to the provisions of Statement of Financial Accounting Standards No. 128, "Earnings per Share" ("SFAS 128"). Basic earnings (loss) per share is calculated by dividing net income or loss by the weighted average number of shares outstanding during each period. The calculation of diluted earnings per share is similar to that of basic earnings per share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if all potentially dilutive common shares, such as those issuable upon the exercise of stock options, were issued during the period. Diluted per share amounts have not been presented in the accompanying consolidated statements of operations because the Company had a net loss in 2001 and 2000 and, accordingly, the assumed effects of the exercise of options that were granted to consultants in April 2000 and expired in April 2002 (see Note 8) would have been anti-dilutive.

Stock based compensation:

In accordance with the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), the Company will recognize compensation costs as a result of the issuance of stock options granted to employees based on the excess, if any, of the fair value of the underlying stock at the date of grant or award (or at an appropriate subsequent measurement date) over the amount the employee must pay to acquire the stock. Therefore, the

Company will not be required to recognize compensation expense as a result of any grants of stock options to employees at an exercise price that is equivalent to or greater than fair value. The Company will also make pro forma disclosures, as required by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), of net income or loss as if a fair value based method of accounting for stock options granted to employees had been applied instead if such amounts differ materially from the historical amounts.

F-10

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 2 - Summary of significant accounting policies (concluded):

Stock based compensation (concluded):

In accordance with SFAS 123, the Company will also recognize the cost of shares, options, warrants and other equity instruments issued to nonemployees as consideration for services as expense over the periods in which the related

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

services are rendered by a charge to compensation cost and a corresponding credit to additional paid-in capital. Generally, cost will be determined based on the fair value of the equity instruments at the date of issuance. The fair value of options, warrants and similar equity instruments will be estimated based on the Black-Scholes option-pricing model, which meets the criteria set forth in SFAS 123, and the assumption that all of the options or other equity instruments will ultimately vest. The effect of actual forfeitures will be recognized as they occur.

Recent accounting pronouncements:

In August 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets. Among other things, SFAS 144 provides guidance on the implementation of SFAS 121 and other previous pronouncements related to when and how to measure impairment losses and how to account for discontinued operations. Management does not believe that the adoption of SFAS 144 will have a material impact on the Company's consolidated financial position or results of operations.

The Financial Accounting Standards Board and the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants had issued certain other accounting pronouncements as of December 31, 2001 that will become effective in subsequent periods; however, management of the Company does not believe that any of those pronouncements would have significantly affected the Company's financial accounting measurements or disclosures had they been in effect during 2001 and 2000, and it does not believe that any of those pronouncements will have a significant impact on the Company's consolidated financial statements at the time they become effective.

Note 3 - Investment in mineral rights:

The Company acquired the mineral rights attributable to its gold mining claims (see Note 1) on April 29, 1992 for shares of common stock with a fair value of \$400,000. Subsequently, the Company also paid total fees of \$200,000 to the former owner for consulting services related to the development of the claims. Although, as explained in Note 1, management is still attempting to find a joint venture partner to assist the Company in developing these claims, it has not been able to find one. Based on the inability to find a joint venture partner and the uncertainties related to the Company's ability to generate profitable mining operations, the Company wrote off the carrying value of the investment prior to January 1, 2000.

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 4 - Income taxes:

As of December 31, 2001, the Company had net operating loss carryforwards of approximately \$6,397,000 available to reduce future Federal taxable income which will expire at various dates through 2021. The Company had no other material temporary differences as of that date. Due to the uncertainties related to, among other things, the changes in the ownership of the Company, which could subject those loss carryforwards to substantial annual limitations, and the extent and timing of its future taxable income, the Company offset the deferred tax assets attributable to the potential benefits of approximately \$2,559,000 from the utilization of those net operating loss carryforwards by an equivalent valuation allowance as of December 31, 2001.

The Company had also offset the potential benefits of approximately \$2,406,000 and \$2,186,000 from net operating loss carryforwards by equivalent valuation allowances as of December 31, 2000 and 1999, respectively. As a result of the increases in the valuation allowance of \$153,000 and \$220,000 in 2001 and 2000, respectively, the Company did not recognize any credits for income taxes in the accompanying consolidated statements of operations to offset its pre-tax losses in those years.

Note 5 - Concentrations of credit risk:

Financial instruments which subject the Company to concentrations of credit risk consist primarily of cash. The Company maintains cash in bank deposit and other accounts the balances of which, at times, may exceed Federal insurance limits. At December 31, 2001, such cash balances did not exceed Federal insurance limits. Exposure to credit risk is reduced by placing such deposits in major financial institutions and monitoring their credit ratings.

Note 6 - Preferred stock:

The Company's Articles of Incorporation authorize the issuance of up to 1,000,000 shares of Class A preferred stock and 1,000,000 shares of Class B preferred stock. No shares of preferred stock had been issued as of December 31, 2001. Each share of Class A and Class B preferred stock is nonvoting; is entitled to an annual dividend, as may be declared by the Company's board of directors, of 10% that is cumulative; has a par value of \$10 per share; and has a preference in

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

liquidation equal to its par value plus all declared but unpaid dividends. Each share of Class A preferred stock is convertible at any time into five shares of the Company's common stock.

F-12

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 7 - Stock option plan:

On April 17, 2000, the Board of Directors approved a Stock Option Plan (the "Plan"), subject to ratification by the Company's stockholders, whereby up to 2,000,000 shares of the Company's common stock may be granted to key personnel in the form of incentive stock options and nonstatutory stock options, as defined under the Internal Revenue Code. Key personnel eligible for these awards may include all present and future employees of the Company and individuals who are consultants to the Company as well as nonemployee directors of the Company. Under the Plan, the exercise price of options must be at least 100% of the fair market value of the common stock on the date of grant (the exercise price of an incentive stock option for an optionee that holds more than 10% of the combined voting power of all classes of stock of the Company must be at least 110% of the fair market value on the date of grant). The maximum term of any stock option granted may not exceed ten years (or five years of an optionee that holds 10% or more of the Company stock) from the date of grant.

As of March 18, 2002, no stock options had been awarded under the Plan.

Note 8 - Consulting agreements:

On April 17, 2000, the Company entered into agreements with three consultants that expired on April 17, 2001. Under these agreements, the consultants were, among other things, assisting the Company in finding businesses located primarily in England, other European countries and the Northeastern section of the United States that would advertise in and/or link to the Company's online community. As of March 18, 2002, management of the Company and the consultants were negotiating, but had not consummated, extensions of these agreements.

As consideration for their services, the three consultants received options to purchase a total of 1,300,000 shares of the Company's common stock that were exercisable at \$.40 per share at any time during the terms of the consulting agreements. The options expired on April 17, 2001. The aggregate fair value of the options granted to the consultants of \$377,000 as of the date of grant, as determined based on the Black-Scholes option-pricing model, which was recorded as unearned compensation and amortized to expense over the period from April 17, 2000 to April 17, 2001, as required by SFAS 123.

Note 9 - Fair value of financial instruments:

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

The Company's material financial instruments at December 31, 2001 for which disclosure of estimated fair value is required by certain accounting standards consisted of cash, accounts payable and notes payable to stockholders. In the opinion of management, cash and accounts payable were carried at fair values because of their liquidity and/or short-term maturities. Because of the relationship of the Company and its stockholders, there is no practical method that can be used to determine the fair value of the notes payable to stockholders.

Item 1. Business

We were originally incorporated in the State of Utah in March 1961 as Florist Accounting Services, Inc., a finance company that was primarily engaged in factoring accounts receivables for florists in Utah. The name Florist Accounting Services, Inc. was changed to Luxor Group N.S. during 1971 and to Norstar Group, Inc. during 1992. The Company was unable to develop a profitable operation and became inactive until April 1992. During the period from April 1992 through December 31, 1999, the Company acquired and/or began to develop and dispose of, several businesses and certain other investments. In 1998, the Company began the development of its Internet business which involves the creation of a portal to a cyber-city, an on-line community of "One Stop Shopping" for products, entertainment, education and business services. The on-line community is being developed through its two subsidiaries VeeAreCity.com, Inc. and VeeAre City the Burbs.com, Inc. The portal is designed to provide subscriber/member with access to several web browsers, a directory to thousands of stores, three dimensional virtual reality ("VR") chat rooms, forums and game rooms, a VR dating service, VR business conference room, specialty advertising rooms with VR activities and global e-mails that can be accessed through the web anywhere in the world. The Company also holds mineral rights attributable to 17 claims that were acquired for gold mines located in the Gold Mountain mining district of Esmeralda County Nevada. However, management does not expect mining operations to become one of the Company's core businesses. Management is attempting to find a joint venture partner to assist the Company in developing these claims. Presently management is also evaluating an alternative where it would suspend the operations of the company's Internet technology, at least temporarily, and shall look for another company that has had ongoing commercial operations, that would merge with the company and continue its business operation.

Item 2. Description of Property

NorStar's place of business is located at 4101 Ravenswood Road, Suite 128, Ft. Lauderdale, Florida 33312. The premises is described as a CBS and steel class A building/shared executive suite.

Item 102 (a) 1. Small Business Issuer engaged in significant mining operations: NorStar acquired 680 acres (17 gold mining claims) in Nevada and is seeking a joint venture partner to work the claims.* Description of Property pursuant to Guide 7, Section 229.801(g) and Section 229.802(g) The seventeen (17) lode claims are located in the Gold Mountain Mining District of Esmeralda County, Nevada. Esmeralda County is noted only for its mining industry. The mines located on the edge of Goldfield, Nevada have continued to operate on a limited basis until the end of March 1992 when the Black Hawk mine closed its underground operations. There continues to be several leach operations in full swing.

Claim Location

The seventeen (17) unpatented claims are located 180 miles north of Las Vegas, Nevada on state Highway 95 to Lida Junction, south to Gold Point then south by southeast approximately 8 miles. The claims are situated in Township 8S, Range 41, Sections 11, 14, and 22. The Eastern Group (7 claims) is located at the elevation of 6,500 to 7,000 feet and is the most mountainous area. The Western Group (10 claims) is located on a gentle rolling terrain for the most part. In either case walking is the only way to gain access to the greatest portion of the claims.

Geology

The rock is primarily Tertiary age quartz monzonite. There are several visible fault zones and you find that they contain quartz veins and stringers. Mineralization is easily located on most of the claims and there appear to be several areas that should be excellent prospects for geologic exploration. There

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

exists on the claims one (1) 250 foot adit with mineralization showing and four (4) shafts. The deepest shaft is located on the Western Group of claims and has been plumbed to 185 feet. Some of the underground workings have been mapped prior to it filling with water.

Climate

The climate is arid, dry and hot in summertime and windy and cold in November through January. However, snowfall is limited and in most cases would not interfere with mining operations.

Ore Dumps

There is a 2500 ton dump located near the main shaft. Sampling of this dump shows that the ore lends itself to the leaching process for recovery of gold and silver. The gold in this area runs .997 fine. There are also several other smaller ore dumps scattered among the claims. Since ore is not complex it can be easily extracted by the leaching method or can be transported to a mill for crushing and processing. Conclusions

Over the years estimates of ore reserves have been made by several geologists and mining engineers. Donald R. McGregor stated in his report that by just stripping the mountain on which the main shaft is located would open up approximately three and one-half million (3,500,000) tons of ore with an average grade of .116 ounces gold per ton and .23 ounces of silver per ton. The gross value of this area alone

3

calculates out to over \$146,000,000. Using \$350.00/oz. gold and \$5.00/oz silver. This does not take into account the eastern group of claims. The assays from this area range from .43 ounces gold and 2.26 ounces silver per ton to .83 ounces gold and 14.06 ounces silver per ton. An extensive core drilling program in this area could easily produce triple the values calculated for the western group of claims. The recovery cost for strip mining and heap leach is about \$180 per ounce. Custom milling would run approximately \$220 per ounce. A mining operation is deemed feasible particularly since the ore is not complex.

*The aforementioned investments in gold mining are for investment purposes only and should not be construed as the core business or core business activity of NorStar.

Item 3. Legal Proceedings

NorStar is not involved in any legal proceedings.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders of NorStar Group, Inc. during the fiscal year ended December 31, 2002.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES:

Our consolidated financial statements have been prepared in accordance with accounting principals generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates. We base our estimates on historical experience and on other assumptions that are believed to be reasonable under the circumstances. Accordingly, actual results could differ from these estimates under different assumptions or conditions. This section summarizes the critical accounting policies and the related judgments involved in their application.

Web site and development costs:

We account for costs incurred in connection with the development of a web site in accordance with Statement of Position 98-1, "Accounting for Costs of Computer Software Developed or Obtained for Internal Use" and Emerging Issues Task Force Issue No. 00-2, "Accounting for Web Site Development Costs." Accordingly, all

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

costs incurred in planning the development of a web site are expensed as incurred. Costs, other than general and administrative and overhead costs, incurred in the web site application and infrastructure development stage, which involves acquiring or developing hardware and software to operate the web site, are capitalized. Fees paid to an Internet service provider for hosting a web site on its server(s) connected to the Internet are expensed over the estimated period of benefit. Other costs incurred during the operating stage, such as training, administration and maintenance costs, are expensed as incurred. Costs incurred during the operating stage for upgrades and enhancements of a web site are capitalized if it is probable that they will result in added functionality. Capitalized web site and development costs are amortized on a straight-line basis over their estimated useful life.

We previously capitalized costs of approximately \$238,000 that were incurred prior to 2001 in connection with the acquisition and development of software in the application and infrastructure development stage and the enhancement of our web site. As of December 31, 2002, we had not been able to generate any revenues from our web site and management was uncertain as to whether we would be able to obtain sufficient resources to sustain its operations and fully develop our web services as initially planned. Accordingly, management reviewed the carrying value of our capitalized web site and development costs for impairment as of December 31, 2002 and determined the entire remaining carrying value was impaired. Accordingly, the accompanying 2002 consolidated statement of operations includes a noncash charge of \$238,391 for the write-off of the carrying value of the impaired web site and development costs.

Impairment of long-lived assets:

Impairment losses on long-lived assets, such as capitalized web site and development costs, are recognized when events or changes in circumstances indicate that the undiscounted cash flows estimated to be generated by such assets are less than their carrying value and, accordingly, all or a portion of such carrying value may not be recoverable. Impairment losses are then measured by comparing the fair value of assets to their carrying amounts.

Stock-based compensation:

In accordance with the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), we will recognize compensation costs as a result of the issuance of stock options granted to employees based on the excess, if any, of the fair value of the underlying stock at the date of grant or award (or at an appropriate measurement date) over the amount the employee must pay to acquire the stock. Therefore, we will not be required to recognize compensation expense as a result of any grants of stock options to employees at an exercise price that is equivalent to or greater than fair value. We will also make pro forma disclosures, as required by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), of net income or loss as if a fair value based method of accounting for stock options granted to employees had been applied instead if such amounts differ materially from the historical amounts.

In accordance with SFAS 123, we will also recognize the cost of shares, options, warrants and other equity instruments issued to non-employees as consideration for services as expense over the periods in which the related services are rendered by a charge to compensation cost or another appropriate expense or prepaid expense, and a corresponding credit to additional paid-in capital. Generally, cost will be determined based on the fair value of the equity instruments at the date of issuance. The fair value of options, warrants and similar equity instruments will be estimated based on the Black-Scholes option-pricing model, which meets the criteria set forth in SFAS 123, and the assumption that all of the options or other equity instruments will ultimately vest. The effect of actual forfeitures will be recognized as they occur. As a result, depending on how the market perceives any news regarding us or our earnings, as well as market conditions in general, it could have a material

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

impact on the volatility we use in computing the value we place on these instruments.

Valuation of deferred tax assets:

We regularly evaluate our ability to recover the reported amount of our deferred income taxes considering several factors, including our estimate of the likelihood that we will generate sufficient taxable income

5

in future years in which temporary differences reverse. Due to the uncertainties related to, among other things, the extent and timing of future taxable income, we offset net deferred tax assets by an equivalent valuation allowance as of December 31, 2002.

RESULTS OF OPERATIONS:

Year ended December 31, 2002 as compared to year ended December 31, 2001.

The Company did not have any revenues during either year ended December 31, 2001 or 2002. Management estimates that the Company will not begin to generate revenues from sales of memberships to subscribers for the near future.

During the year ended December 31, 2002, our operating expenses decreased by approximately \$35,000 to approximately \$348,000 from approximately \$383,000 for 2001. The primary cause of the decrease was non-cash charges of approximately \$98,000 relating to (i) amortization of unearned compensation which resulted from the issuance of stock options to consultants relating to the agreements described below and (ii) services, compensation and other expenses paid through the issuance of common stock.

On April 17, 2000, we entered into agreements with three consultants. Under these agreements, the consultants will, among other things, assist us in finding businesses located primarily in England, other European countries and the Northeastern section of the United States of America that will advertise in and/or link to the Company's on-line community. The three consultants received options to purchase a total of 1,300,000 shares of the Company's common stock that will be exercisable at \$.40 per share at any time during the term of the consulting agreements as consideration for their services.

The aggregate fair value of the options granted to the consultants of \$377,000 as of the date of grant, as determined based on the Black-Scholes option-pricing model, was recorded as unearned compensation, which will be amortized to expense over the periods in which the related services are rendered, as required by generally accepted accounting principles in the United States of America.

On July 25, 2002, we entered into new agreements with certain of these consultants as well as additional agreements with other consultants. Under these agreements, the consultants will be required to, among things, assist the Company in finding businesses located primarily in Europe that would advertise in and/or link to the Company's online community in addition to performing web site development services. These agreements will expire on July 25, 2003. As consideration for their services, the consultants received a total of 5,050,000 shares of common stock with an aggregate fair market value of \$101,000. We recorded the aggregate fair market value as unearned compensation, which will amortize to expense over the period from July 25, 2002 to July 25, 2003.

In addition, during 2001, we issued 2,000,000 shares of our common stock for professional and other services having a fair value of \$80,000. The decrease in the aforementioned non-cash charges was offset by us writing off approximately \$238,000 of previously capitalized web site and development costs.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

In addition to the aforementioned non-cash items, our operating expenses also were impacted by a reduction in corporate overhead and research and development costs of approximately \$28,000 and \$67,000, respectively, due to our cash position.

LIQUIDITY AND CAPITAL RESOURCES:

Our consolidated financial statements have been prepared assuming that we will continue as a going concern. However, we have not generated any significant revenues on a sustained basis from its current operations. As shown in the consolidated financial statements, we have continued to incur net losses, although a substantial portion of the losses was attributable to noncash charges for the fair value of shares and stock options issued for services, compensation and other expenses. As of December 31, 2002, we had a cash balance of only \$200, a working capital deficiency of approximately \$273,000 and an accumulated deficit of \$6,745,000. Management believes that we will continue to incur net losses through at least December 31, 2003 and that the Company will need additional equity and/or debt financing of at least \$2,000,000 to enable it to fully develop its web services and development of its proprietary virtual reality products as initially planned and sustain its operations until it can achieve profitability and generate cash flows from its operating activities on a recurring basis. These matters raise substantial doubt about our ability to continue as a going concern. Management is also evaluating an alternative where it would suspend the operations of the Company's Internet technology, at least temporarily, and shall look for another Company that has had ongoing commercial operations, that would merge with the Company and continue its business operation.

Management is attempting to obtain additional financing for us through the issuance of equity securities, loans from financial institutions and/or agreements with strategic partners. Management is also

6

evaluating an alternative where it would suspend the operations of our Internet technology, at least temporarily, and shall look for another company that has had ongoing commercial operations, that would merge with us and continue its business operation.

However, management cannot assure that we will be able to sell equity securities, obtain loans from financial institutions and/or form strategic alliances that will generate financing for the further development of our Internet technology or enter into a merger agreement with an operating company on acceptable terms. If we are not able to obtain adequate financing, it may have to curtail or terminate some or all of its operations. During 2002, we financed our operations from its existing cash reserves and/or the proceeds generated from the sale of notes to its stockholders of approximately \$64,500.

We do not believe that our business is subject to seasonal trends or inflation. On an ongoing basis we will attempt to minimize any effect of inflation on our operating results by controlling operating costs and whenever possible, seeking to insure that subscription rates and usage fees reflect increases in costs due to inflation

To the Board of Directors and Stockholders
NorStar Group, Inc.

We have audited the accompanying consolidated balance sheet of NorStar Group, Inc. and Subsidiaries as of December 31, 2002, and the related consolidated statements of operations, stockholders' equity (deficiency) and cash flows for the years ended December 31, 2002 and 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of NorStar Group, Inc. and Subsidiaries as of December 31, 2002, and their results of operations and cash flows for the years ended December 31, 2002 and 2001, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As further discussed in Note 2 to the consolidated financial statements, the Company's operations have generated recurring losses and negative net cash flows from operating activities, and it had a working capital deficiency and an accumulated deficit as of December 31, 2002. Such matters raise substantial doubt about the Company's ability to continue as a going concern. Management's plans concerning these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 1 - Business:

NorStar Group, Inc. ("NorStar") was originally incorporated in the State of Utah during March 1961 as Florist Accounting Services, Inc. (the name Florist Accounting Services, Inc. was changed to Luxor Group N.S. Inc. during 1971 and to NorStar Group, Inc. during 1992). As of December 31, 2002, NorStar had two subsidiaries, VeeAreCity.com, Inc. ("VeeAreCity") and VeeAreCity The Burbs.com, Inc. ("The Burbs"), both of which were wholly-owned. As used herein, the "Company" refers to NorStar or NorStar together with VeeAreCity, The Burbs and/or certain other subsidiaries that had been acquired and disposed of by NorStar prior to December 31, 2002.

The Company was originally organized as a finance company that was primarily engaged in factoring accounts receivable for florists in Utah. However, the Company was unable to develop profitable financing operations, and it became substantially inactive until April 1992. During the period from April 1992 through December 31, 1999, the Company acquired and/or began to develop, and disposed of, several businesses and certain other investments.

As of December 31, 2002 and during the years ended December 31, 2002 and 2001, the Company was primarily engaged, through VeeAreCity and The Burbs, in an attempt to develop an Internet business that it started in 1998. The Internet business involves the creation of a portal to a cyber-city, online community of "One Stop Shopping" for products, entertainment, education and business services. The portal is intended to provide the subscriber/member with access to several web browsers, a directory of thousands of stores, three dimensional virtual reality ("VR") chat rooms, forums and game rooms, a VR dating service, VR business conference rooms, specialty advertising rooms with VR activities and global e-mail services that can be accessed through the web anywhere in the world. The Company intends to generate revenues from this business primarily through usage fees from certain of its activities and the sale of annual memberships to consumers who will be offered discounts on products and services through a provider network to be developed by the Company.

As of December 31, 2002, the Company also held the mineral rights attributable to 17 claims that were acquired on April 29, 1992 for gold mines located in the Gold Mountain mining district of Esmeralda County, Nevada (see Note 3). However, management does not expect mining operations to become one of the Company's core businesses. Management is attempting to find a joint venture partner to assist the Company in developing these claims. If a

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

joint venture partner cannot be found, management expects that the Company will continue to hold the claims as an investment.

Note 2 - Summary of significant accounting policies:

Basis of presentation:

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. However, the Company has not generated any significant revenues on a sustained basis from its current operations. As shown in the accompanying consolidated financial statements, the Company incurred net losses of approximately \$348,000 and \$383,000 and negative net cash flows from operating activities of \$67,000 and \$179,000 in 2002 and 2001, respectively, although a substantial portion of the losses and negative net cash flows were attributable to noncash charges for the write-off of previously capitalized web site and development costs and the fair value of shares and stock options issued for services, compensation and other expenses. As of December 31, 2002, the Company had a cash balance of only \$200, a working capital deficiency of approximately \$273,000 and an accumulated deficit of \$6,745,000. Management believes that the Company will continue to incur net losses through at least December 31, 2003 and that it will need additional equity and/or debt financing of at least \$2,000,000 to enable it to fully develop its web services as initially planned and sustain its operations until it can achieve profitability and generate cash flows from its operating activities on a recurring basis. These matters raise substantial doubt about the Company's ability to continue as a going concern.

Management is attempting to obtain additional financing for the Company through the issuance of equity securities, loans from financial institutions and/or agreements with strategic partners. However, management cannot assure that the Company will be able to sell equity securities, obtain loans from financial institutions and/or form strategic alliances that will generate financing on acceptable terms. Management is also evaluating an alternative whereby it would suspend the development of the Company's internet technology, at least temporarily, and search for another company that has had ongoing commercial operations that would merge with the Company and continue its business operations. However, management cannot assure that the Company will be able to sell equity securities, obtain loans from financial institutions and/or form strategic alliances that will generate financing for the further development of the Company's internet technology or enter into a merger agreement with an operating company on acceptable terms. If the Company is not able to obtain adequate financing or consummate a merger, it may have to curtail or terminate some or all of its operations.

The accompanying consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue its operations as a going concern.

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 2 - Summary of significant accounting policies (continued):

Principles of consolidation:

The accompanying consolidated financial statements include the accounts of NorStar and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Equipment:

Equipment is stated at cost, net of accumulated depreciation. Depreciation is provided using the straight-line method over the estimated useful lives of the assets and amounted to \$1,398 in both 2002 and 2001.

Web site and development costs:

The Company accounts for costs incurred in connection with the development of a web site in accordance with Statement of Position 98-1, "Accounting for Costs of Computer Software Developed or Obtained for Internal Use" and Emerging Issues Task Force Issue No. 00-2, "Accounting for Web Site Development Costs." Accordingly, all costs incurred in planning the development of a web site are expensed as incurred. Costs, other than general and administrative and overhead costs, incurred in the web site application and infrastructure development stage, which involves acquiring or developing hardware and software to operate the web site, are capitalized. Fees paid to an Internet service provider for hosting a web site on its server(s) connected to the Internet are expensed over the estimated period of benefit. Other costs incurred during the operating stage, such as training, administration and maintenance costs, are expensed as incurred. Costs incurred during the operating stage for upgrades and enhancements of a web site are capitalized if it is probable that they will result in added functionality. Capitalized web site and development costs are amortized on a straight-line basis over their estimated useful life.

The Company capitalized costs of approximately \$238,000 that were incurred prior to 2001 in connection with the acquisition and development of software in the application and infrastructure development stage and the enhancement of its web sites. As of December 31, 2002, the Company had not been able to generate any revenues from its web site and management was uncertain as to whether the Company would be able to obtain sufficient resources to sustain its operations and fully develop its web services as initially planned. Accordingly, management reviewed the carrying value of the Company's capitalized web site and development costs for impairment as of December 31, 2002 and determined the entire remaining carrying value was impaired. Accordingly, the ac-

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

companying 2002 consolidated statement of operations includes a noncash charge of \$238,391 for the write-off of the carrying value of the impaired web site and development costs.

F-9

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 2 - Summary of significant accounting policies (continued):

Impairment of long-lived assets:

Impairment losses on long-lived assets, such as capitalized web site and development costs, are recognized when events or changes in circumstances indicate that the undiscounted cash flows estimated to be generated by such assets are less than their carrying value and, accordingly, all or a portion of such carrying value may not be recoverable. Impairment losses are then measured by comparing the fair value of assets to their carrying amounts.

Advertising:

The Company expenses the cost of advertising and promotions as incurred. Advertising costs, which are included in selling expenses and charged to operations, were immaterial during 2002 and 2001.

Income taxes:

The Company accounts for income taxes pursuant to the asset and liability method which requires deferred income tax assets and liabilities to be computed annually for temporary differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. The income tax provision or credit is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

Net earnings (loss) per share:

The Company presents "basic" earnings (loss) per share and, if applicable, "diluted" earnings per share pursuant to the provisions of Statement of Financial Accounting Standards No. 128, "Earnings per Share" ("SFAS 128"). Basic earnings (loss) per share is calculated by dividing net income or loss by the weighted average number of shares outstanding during each period. The calculation of diluted earnings per share is similar to that of basic earnings per share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if all potentially dilutive common shares, such as those issuable upon the exercise of stock options, were issued during the period. Diluted per share amounts have not been presented in the accompanying consolidated statements of operations because the Company had a net loss in 2002 and 2001 and, accordingly, the assumed effects of the exercise of options that were granted to consultants in April 2000 and expired in April 2001 (see Note 8) would have been anti-dilutive.

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 2 - Summary of significant accounting policies (continued):

Stock-based compensation:

In accordance with the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), the Company will recognize compensation costs as a result of the issuance of stock options to employees based on the excess, if any, of the fair value of the underlying stock at the date of grant or award (or at an appropriate subsequent measurement date) over the amount the employee must pay to acquire the stock. Therefore, the Company will not be required to recognize compensation expense as a result of any grants of stock options to employees at an exercise price that is equivalent to or greater than fair value. The Company will also make pro forma disclosures, as required by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), of net income or loss as if a fair value based method of accounting for stock options granted to employees had been applied instead if such amounts differ materially from the historical amounts.

In accordance with SFAS 123, the Company will also recognize the cost of shares, options, warrants and other equity instruments issued to nonemployees as consideration for services as expense over the periods in which the related services are rendered by a charge to compensation cost (or another appropriate expense or prepaid expense account) and a corresponding credit to additional paid-in capital. Generally, cost will be determined based on the fair value of the equity instruments at the date of issuance. The fair value of options, warrants and similar equity instruments will be estimated based on the Black-Scholes option-pricing model, which meets the criteria set forth in SFAS 123, and the assumption that all of the options or other equity instruments will ultimately vest. The effect of actual forfeitures will be recognized as they occur.

Recent accounting pronouncements:

In August 2001, the Financial Accounting Standards Board (the "FASB") issued Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets. Among other things, SFAS 144 provides guidance on the implementation of Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of" and other previous pronouncements related to when and how to measure impairment losses and how to account for discontinued operations. The adoption of SFAS 144 by the Company as of January 1, 2002 did not have a material impact on the Company's consolidated financial position or results of operations.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

Notes to Consolidated Financial Statements

Note 2 - Summary of significant accounting policies (concluded):

Recent accounting pronouncements (concluded):

In June 2002, the FASB issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS 146"). SFAS 146 addresses accounting and reporting costs associated with exit or disposal activities. This statement requires that a liability for a cost associated with an exit or disposal activity shall be recognized and measured initially at its fair value in the period in which the liability is incurred. SFAS 146 is effective for exit or disposal activities that are initiated after December 31, 2002. The Company does not believe that the adoption of SFAS 146 will have a significant impact on its consolidated financial statements.

The Financial Accounting Standards Board and the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants had issued certain other accounting pronouncements as of December 31, 2002 that will become effective in subsequent periods; however, management of the Company does not believe that any of those pronouncements would have significantly affected the Company's financial accounting measurements or disclosures had they been in effect during 2002 and 2001, and it does not believe that any of those pronouncements will have a significant impact on the Company's consolidated financial statements at the time they become effective.

Note 3 - Investment in mineral rights:

The Company acquired the mineral rights attributable to its gold mining claims (see Note 1) on April 29, 1992 for shares of common stock with a fair value of \$400,000. Subsequently, the Company also paid total fees of \$200,000 to the former owner for consulting services related to the development of the claims. Although, as explained in Note 1, management is still attempting to find a joint venture partner to assist the Company in developing these claims, it has not been able to find one. Based on the inability to find a joint venture partner and the uncertainties related to the Company's ability to generate profitable mining operations, the Company wrote off the carrying value of the investment prior to January 1, 2001.

Note 4 - Income taxes:

As of December 31, 2002, the Company had net operating loss carryforwards of approximately \$6,745,000 available to reduce future Federal taxable income which will expire at various dates through 2022. The Company had no other material temporary differences as of that date. Due to the uncertainties related to, among other things, the changes in the ownership of the Company, which could subject those loss carryforwards to substantial annual limitations, and the extent and timing of its future taxable income, the Company offset the deferred tax assets attributable to the potential benefits of approximately \$2,698,000 from the utilization of those net operating loss carryforwards by an equivalent valuation allowance as of December 31, 2002.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 4 - Income taxes (concluded):

The Company had also offset the potential benefits of approximately \$2,559,000 and \$2,406,000 from net operating loss carryforwards by equivalent valuation allowances as of December 31, 2001 and 2000, respectively. As a result of the increases in the valuation allowance of \$139,000 and \$153,000 in 2002 and 2001, respectively, the Company did not recognize any credits for income taxes in the accompanying consolidated statements of operations to offset its pre-tax losses in those years.

Note 5 - Concentrations of credit risk:

Financial instruments which subject the Company to concentrations of credit risk consist primarily of cash. The Company maintains cash in bank deposit and other accounts the balances of which, at times, may exceed Federal insurance limits. At December 31, 2002, such cash balances did not exceed Federal insurance limits. Exposure to credit risk is reduced by placing such deposits in major financial institutions and monitoring their credit ratings.

Note 6 - Preferred stock:

The Company's Articles of Incorporation authorize the issuance of up to 1,000,000 shares of Class A preferred stock and 1,000,000 shares of Class B preferred stock. No shares of preferred stock had been issued as of December 31, 2002. Each share of Class A and Class B preferred stock is nonvoting; is entitled to an annual dividend, as may be declared by the Company's board of directors, of 10% that is cumulative; has a par value of \$10 per share; and has a preference in liquidation equal to its par value plus all declared but unpaid dividends. Each share of Class A preferred stock is convertible at any time into five shares of the Company's common stock.

Note 7 - Stock option plan:

On April 17, 2000, the Board of Directors approved a Stock Option Plan (the "Plan"), subject to ratification by the Company's stockholders, whereby up to 2,000,000 shares of the Company's common stock may be granted to key personnel in the form of incentive stock options and nonstatutory stock options, as defined under the Internal Revenue Code. Key personnel eligible for these awards may include all present and future employees of the Company and individuals who are consultants to the Company as well as nonemployee directors of the Company. Under the Plan, the exercise price of options must be at least 100% of the fair market value of the common stock on the date of grant (the exercise price of an incentive stock option for an optionee that holds more than 10% of the combined voting power of all classes of stock of the Company must be at least 110% of the fair market value on the date of grant). The maximum term of any stock option granted may not exceed ten years (or five years of an optionee that holds 10% or more of the Company stock) from the date of grant.

As of April 7, 2003, no stock options had been awarded under the Plan.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

NorStar Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Note 8 - Consulting agreements:

On April 17, 2000, the Company entered into agreements with three consultants that expired on April 17, 2001. Under these agreements, the consultants were, among other things, assisting the Company in finding businesses located primarily in England, other European countries and the Northeastern section of the United States that would advertise in and/or link to the Company's online community.

As consideration for their services, the three consultants received options to purchase a total of 1,300,000 shares of the Company's common stock that were exercisable at \$.40 per share at any time during the terms of the consulting agreements. The options expired on April 17, 2001. The aggregate fair value of the options granted to the consultants of \$377,000 as of the date of grant, as determined based on the Black-Scholes option-pricing model, which was recorded as unearned compensation and amortized to expense over the period from April 17, 2000 to April 17, 2001, as required by SFAS 123.

On July 25, 2002, the Company entered into new agreements with certain of these consultants as well as additional agreements with other consultants. Under these agreements, the consultants will be required to, among other things, assist the Company in finding businesses located primarily in Europe that would advertise in and/or link to the Company's online community in addition to performing web site development services. These agreements will expire on July 25, 2003. As consideration for their services, the consultants received a total of 5,050,000 shares of common stock with an aggregate fair market value of \$101,000. The Company recorded the aggregate fair value as unearned compensation which it is amortizing to expense over the period from July 25, 2002 to July 25, 2003.

Note 9 - Fair value of financial instruments:

The Company's material financial instruments at December 31, 2002 for which disclosure of estimated fair value is required by certain accounting standards consisted of cash, accounts payable and notes payable to stockholders. In the opinion of management, cash and accounts payable were carried at fair values because of their liquidity and/or short-term maturities. Because of the relationship of the Company and its stockholders, there is no practical method that can be used to determine the fair value of the notes payable to stockholders.

NorStar Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 1 - Business and basis of presentation:

In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of NorStar Group, Inc. and its subsidiaries (the "Company") as of March 31, 2003, and the Company's results of operations and cash flows for the three months ended March 31, 2003 and 2002 and changes in stockholders' deficiency for the three months ended March 31, 2003. Pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "SEC"), certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed in or omitted from these consolidated financial statements unless significant changes have taken place since the end of the most recent fiscal year. Accordingly, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements as of December 31, 2002 and for the years ended December 31, 2002 and 2001 and the notes thereto (the "Audited Financial Statements") and the other

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

information included in the Company's Annual Report on Form 10-KSB (the "Form 10-KSB") for the year ended December 31, 2002.

The results of operations for the three months ended March 31, 2003 are not necessarily indicative of the results to be expected for the full year ending December 31, 2003.

The accompanying condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern. However, the Company has not generated any significant revenues on a sustained basis from its current operations. As shown in the accompanying condensed consolidated financial statements, the Company incurred net losses of approximately \$34,000 and \$25,000 for the three months ended March 31, 2003 and 2002, respectively, although a substantial portion of the loss in 2003 was attributable to the amortization of noncash charges for the fair value of shares and stock options previously issued for services, compensation and other expenses. As of March 31, 2003, the Company had a cash balance of only \$5,000, a working capital deficiency of \$282,000 and an accumulated deficit of \$6,780,000. Management believes that the Company will continue to incur net losses through at least March 31, 2004 and that it will need additional equity and/or debt financing of at least \$2,000,000 to enable it to fully develop its web services as initially planned and sustain its operations until it can achieve profitability and generate cash flows from its operating activities on a recurring basis. These matters raise substantial doubt about the Company's ability to continue as a going concern.

F-6

NorStar Group, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 1 - Business and basis of presentation (concluded):

Management is attempting to obtain additional financing for the Company through the issuance of equity securities, loans from financial institutions and/or agreements with strategic partners. However, management is also evaluating an alternative whereby it would suspend the development of the Company's internet technology, at least temporarily, and search for another company that has had ongoing commercial operations that would merge with the Company and continue its business operations. Management cannot assure that the Company will be able to sell equity securities, obtain loans from financial institutions and/or form strategic alliances that will generate financing for the further development of the Company's internet technology or enter into a merger agreement with an operating company on acceptable terms. If the Company is not able to obtain adequate financing or consummate a merger, it may have to curtail or terminate some or all of its operations.

The accompanying condensed consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

continue its operations as a going concern.

Note 2 - Earnings (loss) per common share:

As further explained in Note 2 of the notes to the Audited Financial Statements, the Company presents basic earnings (loss) and, if appropriate, diluted earnings per share in accordance with the provisions of Statement of Financial Accounting Standards No. 128, "Earnings per Share". Diluted per share amounts have not been presented in the accompanying unaudited condensed consolidated statements of operations because the Company did not have any potentially dilutive common shares outstanding during the three months ended March 31, 2003 and 2002.

Note 3 - Income taxes:

As of March 31, 2003, the Company had net operating loss carryforwards of approximately \$6,780,000 available to reduce future Federal taxable income which, if not used, will expire at various dates through 2023. The Company had no other material temporary differences as of that date. Due to the uncertainties related to, among other things, the changes in the ownership of the Company, which could subject those loss carryforwards to substantial annual limitations, and the extent and timing of its future taxable income, the Company offset the deferred tax assets attributable to the potential benefits of approximately \$2,712,000 from the utilization of those net operating loss carryforwards by an equivalent valuation allowance as of March 31, 2003.

F-7

NorStar Group, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 3 - Income taxes (concluded):

The Company had also offset the potential benefits from net operating loss carryforwards by equivalent valuation allowances during 2002. As a result of the increases in the valuation allowance of \$14,000 and \$10,000 during the three months ended March 31, 2003 and 2002, respectively, the Company did not recognize any credits for income taxes in the accompanying condensed consolidated statements of operations to offset its pre-tax losses in any of those periods.

Note 4 - Stock option plan:

On April 17, 2000, the Board of Directors approved a Stock Option Plan (the "Plan"), subject to ratification by the Company's stockholders, whereby up to 2,000,000 shares of the Company's common stock may be granted to key personnel in the form of incentive stock options and nonstatutory stock options, as defined under the

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

Internal Revenue Code. Key personnel eligible for these awards may include all present and future employees of the Company and individuals who are consultants to the Company as well as nonemployee directors of the Company. Under the Plan, the exercise price of options must be at least 100% of the fair market value of the common stock on the date of grant (the exercise price of an incentive stock option for an optionee that holds more than 10% of the combined voting power of all classes of stock of the Company must be at least 110% of the fair market value on the date of grant). The maximum term of any stock option granted may not exceed ten years (or five years for an optionee that holds 10% or more of the Company's stock) from the date of grant.

As of May 13, 2003, no stock options had been awarded under the Plan.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following discussion regarding our business and operations contains "forward-looking statements" within the meaning of Private Securities Litigation Reform Act of 1995. Such statements consists of any statement other than a recitation of historical fact and can be identified by the use of forward-looking terminology such as "may," "expect," "anticipate," "estimate" or "continue" or the negative thereof or other variations thereon or comparable terminology. The reader is cautioned that all forward-looking statements are necessarily speculative and there are certain risks and uncertainties that could cause actual events or results to differ materially from those referred to in such forward-looking statements. We do not have a policy of updating or revising forward-looking statements and thus it should not be assumed that silence by management, over time, means that actual events are bearing out as estimated in such forward-looking statements

CRITICAL ACCOUNTING POLICIES AND ESTIMATES:

Our condensed consolidated financial statements have been prepared in accordance with accounting principals generally accepted in the United States of America. The preparation of these condensed consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates. We base our estimates on historical experience and on other assumptions that are believed to be reasonable under the circumstances. Accordingly, actual results could differ from these estimates under different assumptions or conditions. No events have occurred during the current period, which in our judgment would impact, either positively or negatively, our critical accounting policies and estimates that were detailed in our Annual Report previously filed with The Securities and Exchange Commission on Form 10-KSB.

RESULTS OF OPERATIONS:

Three months ended March 31, 2003 as compared to the Three months ended March

31, 2002.

The Company did not have any revenues during either period. Management estimates that the Company will not begin to generate revenues from sales of memberships to subscribers for the near future.

3

During the three months ended March 31, 2003, our operating expenses increased by approximately \$9,000 to approximately \$34,000 from approximately \$25,000 for three months ended March 31, 2002. The primary cause of the increase was non-cash charges of approximately \$25,000 relating to amortization of unearned compensation which resulted from the issuance of shares of common stock to consultants relating to the agreements described below.

On July 25, 2002, we entered into various agreements with certain consultants. Under these agreements, the consultants will be required to, among things, assist us in finding businesses located primarily in Europe that would advertise in and/or link to the our online community in addition to performing website development services. These agreements will expire on July 25, 2003. As consideration for their services, the consultants received a total of 5,050,000 shares of common stock with an aggregate fair market value of \$101,000. We recorded the aggregate fair market value as unearned compensation, which is being amortized to expense over the period from July 25, 2002 to July 25, 2003.

LIQUIDITY AND CAPITAL RESOURCES:

Our condensed consolidated financial statements have been prepared assuming that we will continue as a going concern. However, we have not generated any significant revenues on a sustained basis from our current operations. As shown in the condensed consolidated financial statements, we have continued to incur net losses of approximately \$34,000 and \$25,000 for the three months ended March 31, 2003 and 2002, respectively, although a substantial portion of the loss in 2003 was attributable to the amortization of non-cash charges for the fair value of shares and stock options previously issued for services, compensation and other expenses. As of March 31, 2003, we had a cash balance of only \$5,000, a working capital deficiency of approximately \$282,000 and an accumulated deficit of \$6,780,000. We believe that we will continue to incur net losses through at least March 31, 2004 and that we will need additional equity and/or debt financing of at least \$2,000,000 to enable it to fully develop our web services as initially planned and sustain our operations until we can achieve profitability and generate cash flows from our operating activities on a recurring basis. These matters raise substantial doubt about our ability to continue as a going concern.

We are attempting to obtain additional financing for us through the issuance of equity securities, loans from financial institutions and/or agreements with strategic partners. However, we are also evaluating an alternative where we would suspend the operations of our Internet technology, at least temporarily, and look for another company that has had ongoing commercial operations, that would merge with us and continue its business operation. We cannot assure that we will be able to sell equity securities, obtain loans from financial institutions and/or form strategic alliances that will generate financing for the further development of our

4

Internet technology or enter into a merger agreement with an operating company on acceptable terms. If we are not able to obtain adequate financing, we may have to curtail or terminate some or all of its operations.

During the three months ended March 31, 2003 and 2002, we financed our operations from our existing cash reserves and/or the proceeds generated from the sale of notes to our stockholders of approximately \$9,000 and \$28,000, respectively.

We do not believe that our business is subject to seasonal trends or inflation. On an ongoing basis we will attempt to minimize any effect of inflation on our operating results by controlling operating costs and whenever possible, seeking to insure that subscription rates and usage fees reflect increases in costs due to inflation

Item 3. Control and Procedures

- (a) Evaluation of disclosure controls and procedures. We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in the reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the rules of the SEC. Within 90 days prior to the filing of this Quarterly Report on Form 10-QSB, we carried out an evaluation, under the supervision and the participation of our management including our Chief Executive Officer of the design and operation of these disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, our Chief Executive Officer concluded that our disclosure controls and procedures are effective in alerting them on a timely basis to material information relating to the Company required to be in our periodic SEC filings.
- (b) Changes in internal controls. There were no significant changes in internal controls or other factors that could significantly affect our internal controls subsequent to the date of our evaluation.

Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 1 - Business and basis of presentation:

In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of NorStar Group, Inc. and its subsidiaries (the "Company") as of June 30, 2003, and the Company's results of

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

operations for the six and three months ended June 30, 2003 and 2002, changes in stockholders' deficiency for the six months ended June 30, 2003 and cash flows for the six months ended June 30, 2003 and 2002. Pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "SEC"), certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed in or omitted from these consolidated financial statements unless significant changes have taken place since the end of the most recent fiscal year. Accordingly, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements as of December 31, 2002 and for the years ended December 31, 2002 and 2001 and the notes thereto (the "Audited Financial Statements") and the other information included in the Company's Annual Report on Form 10-KSB (the "Form 10-KSB") for the year ended December 31, 2002.

The results of operations for the six and three months ended June 30, 2003 are not necessarily indicative of the results to be expected for the full year ending December 31, 2003.

The accompanying condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern. However, the Company has not generated any significant revenues on a sustained basis from its current operations. As shown in the accompanying condensed consolidated financial statements, the Company incurred net losses of approximately \$142,000 and \$33,000 for the six months ended June 30, 2003 and 2002, respectively, although a substantial portion of the loss in 2003 was attributable to noncash charges for the fair value of shares and stock options issued for services, compensation and other expenses. As of June 30, 2003, the Company had no cash, a working capital deficiency of \$29,000 and an accumulated deficit of \$6,887,000. Management believes that the Company will continue to incur net losses through at least June 30, 2004 and that it will need additional equity and/or debt financing of at least \$2,000,000 to enable it to fully develop its web services as initially planned and sustain its operations until it can achieve profitability and generate cash flows from its operating activities on a recurring basis. These matters raise substantial doubt about the Company's ability to continue as a going concern.

Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 1 - Business and basis of presentation (concluded):

Management is attempting to obtain additional financing for the Company through the issuance of equity securities, loans from financial institutions and/or agreements with strategic partners. However, management is also evaluating an alternative whereby it would suspend the development of the Company's internet technology, at least temporarily, and search for another company that has had ongoing commercial operations that would merge with the Company and continue its business operations. Management cannot assure that the Company will be able to sell equity securities, obtain loans from financial

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

institutions and/or form strategic alliances that will generate financing for the further development of the Company's internet technology or enter into a merger agreement with an operating company on acceptable terms. If the Company is not able to obtain adequate financing or consummate a merger, it may have to curtail or terminate some or all of its operations.

The accompanying condensed consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue its operations as a going concern.

Note 2 - Earnings (loss) per common share:

As further explained in Note 2 of the notes to the Audited Financial Statements, the Company presents basic earnings (loss) and, if appropriate, diluted earnings per share in accordance with the provisions of Statement of Financial Accounting Standards No. 128, "Earnings per Share". Diluted per share amounts have not been presented in the accompanying unaudited condensed consolidated statements of operations because the Company did not have any potentially dilutive common shares outstanding during the six and three months ended June 30, 2003 and 2002.

Note 3 - Income taxes:

As of June 30, 2003, the Company had net operating loss carryforwards of approximately \$6,887,000 available to reduce future Federal taxable income which, if not used, will expire at various dates through 2023. The Company had no other material temporary differences as of that date. Due to the uncertainties related to, among other things, the changes in the ownership of the Company, which could subject those loss carryforwards to substantial annual limitations, and the extent and timing of its future taxable income, the Company offset the deferred tax assets attributable to the potential benefits of approximately \$2,755,000 from the utilization of those net operating loss carryforwards by an equivalent valuation allowance as of June 30, 2003.

F-7

NorStar Group, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 3 - Income taxes (concluded):

The Company had also offset the potential benefits from net operating loss carryforwards by equivalent valuation allowances during 2002. As a result of the increases in the valuation allowance of \$56,000 and \$13,000 during the six months ended June 30, 2003 and 2002, respectively, and \$43,000 and \$3,000 during the three months ended June 30, 2003 and 2002, respectively, the Company did not recognize any credits for income taxes in the accompanying condensed consolidated statements of operations to offset its pre-tax losses in

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

any of those periods.

Note 4 - Gain on settlement of accounts payable:

During the six months ended June 30, 2003, the Company agreed to settle certain of its accounts payable with a carrying value of \$25,741 for \$5,000 and, as a result, it recorded a gain of \$20,741.

Note 5 - Contribution to capital:

During the six months ended June 30, 2003, the Company's principal stockholders (i) made additional loans to the Company totaling \$9,000, which increased the balance of the Company's noninterest bearing demand notes payable to stockholders to \$237,444 and (ii) made a contribution in that amount by canceling the notes payable. The contribution to capital was a noncash transaction that is not reflected in the accompanying 2003 condensed consolidated statement of cash flows.

Note 6 - Common stock issued for services:

On May 21, 2003, the Board of Directors authorized the issuance of 9,000,000 shares of common stock to certain members of the Board and the Company's general counsel for services rendered. The Shares had a fair value of approximately \$90,000 which was charged to general and administrative expenses. This was a noncash transaction that is not reflected in the accompanying 2003 condensed consolidated statement of cash flows.

OVERVIEW

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

The following discussion regarding NorStar and its business and operations contains "forward-looking statements" within the meaning of Private Securities Litigation Reform Act of 1995. Such statements consists of any statement other than a recitation of historical fact and can be identified by the use of forward-looking terminology such as "may," "expect," "anticipate," "estimate" or "continue" or the negative thereof of other variations thereon or comparable terminology. The reader is cautioned that all forward-looking statements are necessarily speculative and there are certain risks and uncertainties that could cause actual events or results to differ materially from those referred to in such forward-looking statements. NorStar does not have a policy of updating or revising forward-looking statements and thus it should not be assumed that silence by management of NorStar over time means that actual events are bearing out as estimated in such forward-looking statements

CRITICAL ACCOUNTING POLICIES AND ESTIMATES:

Our condensed consolidated financial statements have been prepared in accordance with accounting principals generally accepted in the United States of America.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

The preparation of these condensed consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates. We base our estimates on historical experience and on other assumptions that are believed to be reasonable under the circumstances. Accordingly, actual results could differ from these estimates under different assumptions or conditions. Our critical accounting policies and estimates have not changed from those described in our annual report filed on Form 10-KSB.

RESULTS OF OPERATIONS:

Six and Three months ended June 30, 2003 as compared to Six and Three months ended June 30, 2002.

We did not have any revenues during either period ending June 30, 2003 or 2002. Management estimates that we will not begin to generate revenues from sales of memberships to subscribers for the near future.

During the six and three months ended June 30, 2003, our operating expenses increased by approximately \$129,000 and \$120,000, respectively, to approximately \$163,000 and \$128,000 from approximately \$33,000 and \$8,000 for the six and three months ended June 30, 2002. The primary cause of the increase were non-cash charges of approximately \$58,000 and \$33,000 relating to amortization of unearned compensation which resulted from the issuance of shares of common stock to consultants for services rendered relating to the agreement described below:

3

On July 25, 2002, we entered into agreements with certain consultants. Under these agreements, the consultants will be required to, among things, assist the Company in finding businesses located primarily in Europe that would advertise in and/or link to the Company's online community in addition to performing web site development services. These agreements will expire on July 25, 2003. As consideration for their services, the consultants received a total of 5,050,000 shares of common stock with an aggregate fair market value of \$101,000. We recorded the aggregate fair market value as unearned compensation, which will amortize to expense over the period from July 25, 2002 to July 25, 2003.

Additionally, we issued 9,000,000 shares of our common stock to certain members of The Board and The Company's General Counsel for services rendered and recording a non-cash charge of \$90,000, the approximate fair value of the shares issued.

In addition to the aforementioned non-cash items, our operating expenses also were impacted by a reduction in corporate overhead and research and development costs of approximately \$19,000 and \$3,000 for the six and three months ended June 30, 2003, respectively, due to our cash position.

During the six months ended June 30, 2003, we agreed to settle certain of our accounts payable with a carrying value of \$25,741 for \$5,000 and, as a result, recorded a gain of \$20,741.

As a result of the aforementioned, we incurred a net loss of approximately \$142,000 and \$108,000 for the six and three months ended June 30, 2003, respectively, as compared to \$33,000 and \$8,000 for comparable prior periods.

LIQUIDITY AND CAPITAL RESOURCES:

Our condensed consolidated financial statements have been prepared assuming that

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

we will continue as a going concern. However, we have not generated any significant revenues on a sustained basis from our current operations. As shown in the condensed consolidated financial statements, we have incurred net losses of approximately \$142,000 and \$33,000 for the six months ended June 30, 2003 and 2002, respectively, although a substantial portion of the loss in 2003 was attributable to noncash charges for the fair value of shares and stock options previously issued for services, compensation and other expenses. As of June 30, 2003, we had no cash, a working capital deficiency of approximately \$29,000 and an accumulated deficit of \$6,887,000. Management believes that we will continue to incur net losses through at least June 30, 2004 and that the Company will need additional equity and/or debt financing of at least \$2,000,000 to enable it to fully develop its web services as initially planned and sustain its operations until it can achieve profitability and generate cash flows from its operating activities on a recurring basis. These matters raise substantial doubt about our ability to continue as a going concern.

Management is attempting to obtain additional financing for us through the issuance of equity securities, loans from financial institutions and/or agreements with strategic partners. However, management is also evaluating an alternative where by it would suspend the development of our Internet technology, at least temporarily, and search for another company that has had ongoing commercial operations that would merge with us and continue its business operations.

However, management cannot assure that we will be able to sell equity securities, obtain loans from financial institutions and/or form strategic alliances that will generate financing for the further development of our Internet technology or enter into a merger agreement with an operating company on acceptable terms. If we are not able to obtain adequate financing or consummate a merger,, it may have to curtail or terminate some or all of its operations.

4

During the six months ended June 30, 2003, we financed our operations with \$9,000 of advances from our principal stockholders, which increased the balance to \$237,444 such amount was then contributed to capital.

Item 3. Control and Procedures

As of the end of the period covered by this report, management, including our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures. Based upon, and as of the date of that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures effectively provided reasonable assurance that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 are recorded, processed and summarized and reported within the time specified by the Securities and Exchange Commission's rules and forms. There was no change in our internal controls over financial reporting during the quarter ended June 30, 2003 that has materially affected, or that is reasonably likely to materially affect, our internal control over financial reporting.

These consolidated and combined financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated and combined financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated and combined financial statements. Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule on page 12 for the years ended December 31, 2002, 2001, and 2000 is presented for the purpose of additional analysis and is not a required part of the basic financial statements. GET USA, INC.

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

NOTE 1 - Summary of Significant Accounting Policies:

COMPANY ACTIVITIES:

GET USA Inc. ("GET USA") was incorporated in the State of Nevada on December 5, 2000. GET USA, through its wholly-owned and consolidated subsidiaries Gaming and Entertainment Technology Pty Ltd ("GET AU"), an Australian corporation, and GET Holdings, Ltd., a Malta corporation ("GET Holdings"), develop state-of-the-art Internet gaming systems for utilization in regulated jurisdictions around the world. GET USA and its subsidiaries have developed comprehensive networked entertainment in the Internet and land-based gaming environment.

PRINCIPLES OF CONSOLIDATION:

On December 28, 2001, GET USA acquired 95% of the outstanding shares of GET AU and GET Holdings. On January 11, 2002 GET USA acquired the remaining 5% of the outstanding shares of GET AU and GET Holdings. The consolidated and combined financial statements include the accounts of GET USA and its wholly-owned subsidiaries, GET AU and GET Holdings hereinafter referred to as ("the Companies"). All significant intercompany accounts and transactions have been eliminated.

CASH AND CASH EQUIVALENTS:

The Companies consider all financial instruments that are highly liquid and have original maturities of three months or less to be cash equivalents and for purposes of cash flow presentation this includes short-term investments.

ACCOUNTS RECEIVABLE:

The Companies extend credit to customers in the normal course of business and perform ongoing credit evaluations of customers, maintaining allowances for potential credit losses which, when realized, have been within management's expectations.

PROPERTY AND EQUIPMENT:

Property and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the asset, which vary from 3 to 5 years. Costs of major improvements are capitalized; costs of normal repairs and maintenance are charged to expense as incurred.

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

REVENUE RECOGNITION:

Revenue is recorded on the accrual basis at the time when the Companies have the contractual right to bill.

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

ADVERTISING COSTS:

The Companies policies are to expense advertising costs as incurred. No future benefit costs have been capitalized. Advertising costs were \$35,609, \$178,139 and \$169,615 for the years ended December 31, 2002, 2001, and 2000, respectively.

PROVISION FOR INCOME TAXES:

The Companies have produced no operating income in the United States of America. To date, the primary activities of the Companies relate to foreign operations. All related tax liabilities have been included in the consolidated and combined financial statements. Based on the overall consolidated and combined operations, no significant book to tax differences were noted that might result in any material deferred tax calculation. As such, no provision for deferred taxes have been included in the financial statements for any year presented.

CONCENTRATION OF RISK:

Financial instruments that potentially subject the Companies to significant concentrations of credit risk consist principally of cash and cash equivalents. The Companies deposit cash in two financial institutions. At times, such amounts may be in excess of insurance coverage.

Sales to one of the Companies largest customers were approximately 31% of revenues in 2002. Accounts receivable for that customer at December 31, 2002 were \$280,000.

FOREIGN CURRENCY TRANSACTIONS:

The functional currencies of the foreign subsidiaries are their respective local currencies. Accordingly, gains and losses from the translation of the financial statements of the foreign subsidiaries are reported as a separate component of accumulated other comprehensive income. Foreign currency transaction gains and losses are included in operations.

ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

SOFTWARE DEVELOPMENT COSTS:

Edgar Filing: NORSTAR GROUP INC - Form PRE 14A

In accordance with Statement of Financial Accounting Standards No. 86, "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed," initial costs are charged to operations

NOTE 2 - Note Receivable:

On December 18, 2001, GET USA entered into a Bridge Loan Agreement with Innovative Gaming Corporation of America, a Nevada corporation ("IGCA"). Both companies use their local currency as their functional currency. Assets and liabilities denominated in foreign currencies are translated using the exchange rate on the balance sheet date. Revenues and expenses are translated using average exchange rates prevailing during the year. The terms of the agreement state that GET USA shall issue to the consultant an option to purchase 50,000 shares of common stock, at an exercise price of \$0.75 per share. In addition, in consideration for certain matters of the agreement being met, the consultant shall be entitled to receive an option to purchase 25 shares of common stock for each gaming machine placed in service as a result of introductions made by the consultant. The options are to be issued the last day of each fiscal quarter in which gaming machine placements are made, at an exercise price equal to 120% of the average closing bid price for each trading day of such fiscal quarter. All options are exercisable for a period of three years from the date of issuance.

At December 31, 2002 all related party debt with a stockholder, was converted to shares of common stock and warrants. Short-term loans from stockholders and related party payables in the amount of \$19,281 and \$339,000, respectively, were converted to equity under the same terms as the private placement memorandum dated October 2002. As a result of the conversion, 477,707 shares of common stock were issued to a related party. In addition, GET USA issued a warrant, to purchase 477,707 shares of common stock exercisable at \$1.50 per share for a period of two years from the date of issuance, or the termination date of the Offering.

GET USA, INC. NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

NOTE 7 - Subsequent Events:

On February 15, 2002, the Companies entered into an Agreement and Plan of Merger (the "GET Merger Agreement") with IGCA. In August 2002, the GET Merger Agreement was unilaterally terminated by IGCA. A settlement agreement with an effective date of February 25, 2003 was signed by both parties. The agreement provides consideration to the Companies for the outstanding bridge loan in the original principal amount of \$374,970, and effectively ends the outstanding litigation in Clark County, Nevada, commenced by the Companies against IGCA. In addition, a license agreement has been entered into between IGCA and GET USA in full consideration for the outstanding development work and out-of-pocket expenses incurred by the Companies during the period prior to the termination of the merger. Specifically, the Companies received a non-exclusive, worldwide, perpetual, irrevocable license to IGCA's software, hardware, hardware tools, mathematics and pay tables relating to three titles and a multiplayer poker game.

On February 24, 2003, a member of management assigned a promissory note, previously issued to him by IGCA in conjunction with a loan in the original principal amount of \$125,000, to the Companies in the amount of \$133,657 in consideration for the issuance by the Companies of a non-interest bearing promissory note to the member of management in a like amount, maturing on April 24, 2003.

In June 2003, GET USA changed its name to Gaming and Entertainment Group, Inc.
