NOTE 1 BASIS OF PRESENTATION AND GOING CONCERN

During the annual meeting of the shareholders, the shareholders voted to change the name from New Millennium Media International Inc. to OnScreen Technologies, Inc. to reflect the redirection of the company.

The accompanying financial statements have been prepared on the assumption that the Company will continue as a going concern. As reflected in the accompanying financial statements, the Company has a net loss of \$5,096,228 and cash used in operations of \$1,985,177 for the six months ended June 30, 2004. The ability of the Company to continue as a going concern is dependent on the Company's ability to bring the OnScreen(TM) product to market, generate increased sales, obtain positive cash flow from operations and raise additional capital. The financial statements do not include any adjustments that may result from the outcome of this uncertainty.

The Company is currently raising additional capital for the commercialization of its OnScreen(TM) technology. If the Company raises this additional capital, the Company believes it will have sufficient cash to meet its funding requirements to bring OnScreen(TM) technology into production at the end of 2004. The Company has experienced negative cash flows from operations and incurred net losses in the past and there can be no assurance as to the availability or terms upon which such financing and capital might be available.

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the United States Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position and results of operations and should be read in conjunction with the Company's Annual Report, Form 10-KSB for the year ended December 31, 2003.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

It is management's opinion, however, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statement presentation. The results for the interim period are not necessarily indicative of the results to be expected for the year.

NOTE 2 REVENUE

During 2004, the Company focused on development of its OnScreen(TM) technology and related products. Currently, the OnScreen(TM) products are in the development stage. In conjunction with this focus, the Company conveyed and assigned its right, title and interest relating to Eyecatcherplus displays to a third party during 2004. The Company retains ownership and a security interest in all assets conveyed and assigned. The third party will pay the Company five percent of the gross advertising sales revenue derived from these Displays.

NOTE 3 LOSS PER COMMON SHARE

Common stock equivalents in the three- and six-month periods ended June 30, 2004 and 2003 were anti-dilutive due to the net losses sustained by the Company during these periods, thus the diluted weighted average common shares outstanding in these periods are the same as the basic weighted average common shares outstanding.

7

NOTE 4 INCOME TAXES

The Company has not recognized an income tax benefit for its operating losses generated in the three- and six-month periods ended June 30, 2004 and 2003 based on uncertainties concerning its ability to generate taxable income in future periods. The tax benefits for the three- and six-month periods ended June 30, 2004 and 2003 is offset by a valuation allowance established against deferred tax assets arising from operating losses and other temporary differences, the realization of which could not be considered more likely than not. In future periods, tax benefits and related deferred tax assets will be recognized when management considers realization of such amounts to be more likely than not.

NOTE 5 STOCK BASED EMPLOYEE COMPENSATION

For the stock options and warrants issued to employees, the Company has elected to apply the intrinsic value based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Under the intrinsic value based method, compensation cost is measured on the date of grant as the excess of the quoted market price of the underlying stock over the exercise price. Such compensation amounts are amortized over the respective vesting periods of the options.

The following table illustrates the effect on net loss and loss per share as if the fair value based method of accounting had been applied to stock-based employee compensation, as required by SFAS No. 123, "Accounting for Stock-Based Compensation" and SFAS 148 "Accounting for Stock-Based Compensation - transition and disclosure", an amendment of SFAS No. 123 for the three and six months ended June 30, 2004 and 2003:

Three months ending June 30,

8

The Company estimates the fair value of each stock option and warrant at the grant date by using the Black-Scholes option-pricing model.

NOTE 6 NOTES PAYABLE

The note holders with an original principal of \$250,000 had a right to purchase 50,000 of additional common shares for January and February 2004 since the Company was in default on these notes during those months. The Company recorded the value of the right to buy the 50,000 shares of common stock using the Black-Scholes Options Pricing Model at \$46,500. This amount was recorded as interest expense during the first quarter of 2004. These notes and accrued interest were paid in full on March 12, 2004 by paying the note holders \$250,000 and issuing 12,500 shares of the Company's common stock. These shares issued were valued at \$11,500 and after consideration of additional interest due for 2004 and a receivable of \$18,575 due from the note holders from option exercises, the Company recognized a gain of \$7,103 in 2004.

Also, the Company paid off a \$50,000 note during the first quarter of 2004.

During May, a noteholder exercised the right to convert a \$215,861 note into 863,442 shares of the Company's common stock.

NOTE 7 COMMITMENTS

(A) EMPLOYMENT AND CONSULTANT AGREEMENTS

On January 2, 2004, the Company entered into a two-year consulting agreement with an individual to perform various financial and administrative duties. This consultant will be paid \$75,000 annually with a bonus of \$25,000 worth of the Company's common stock which must be issued within two and one-half months after the end of each year. (This individual was previously the Director of Operations

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

and this consulting agreement replaced his employment agreement).

On February 3, 2004, an addendum was made to the President's employment agreement whereby the Company agreed to cap the President's entitlement to shares of common stock at 3,000,000 and pay him one percent of all revenue derived from any licensing fees received by the Company in connection with the OnScreen(TM) technology, provided that the Company consummates the private placement in its entirety and receives the portion of the unit purchase price to which it is entitled. During the six months ended June 30, 2004, the Company issued 1,040,000 shares and recorded 626,312 shares as issuable which brings the number of shares issued and issuable to the President/CEO to 3,000,000. On February 10, 2004, the Company's board of directors approved increasing the President's salary to \$150,000 for the duration of his employment agreement since the employment agreement for the President included the provision that he would get paid equal compensation to any other senior executive of the Company (the Director of Research and Development's salary is \$150,000).

On February 5, 2004, the agreement with the Director of Research and Development was extended with an effective date of November 1, 2003 for a three-year term with the title changing to Director of Research and Development and Chief Technology Officer. The salary will be \$150,000 in the first year, \$180,000 in the second year and \$240,000 in the third year. \$120,000 of the first year's salary is to be paid in cash and the remaining \$30,000 will be accrued. The full salary will be paid in cash when the

9

Company achieves a positive cash flow for two consecutive months. The accrued compensation will be paid when the Company reaches aggregate sales of \$2.5 million or at the employee's option he may procure stock through the employee stock option plan. This employee has a right to 450,000 shares of the Company's common stock, these shares, if the employee is terminated for cause or resigns, may be repurchased from the employee for \$450. The amount of shares that can be repurchased by the Company declines by 150,000 shares each year, resulting in the shares being fully vested on November 1, 2006. These 450,000 shares were issued during the second quarter of 2004.

(B) ROYALTY, LICENSE FEE AGREEMENTS AND TECHNOLOGY RIGHTS

On January 14, 2004, a licensor agreed to accept \$175,000 in lieu of the remaining \$250,000 minimum payment owed during 2004, which the Company paid on January 15, 2004 and the licensor agreed to accept an additional \$400,000 by March 31, 2004 for the licensor to convey to the Company its 25% royalty right in the OnScreen(TM) License Agreement. This \$400,000 was paid on March 16, 2004. After this payment, there are no more royalty payments owed to this licensor and now the Company retains 100% ownership of the OnScreen(TM) license. The Company recorded \$52,500 as a reduction in accrued royalty payments and the remaining \$522,500 of the \$575,000 payments as a technology right intangible asset to be amortized over the estimated life of the technology of twenty years.

On February 3, 2004, a third party and the Company reached a master settlement and release agreement whereby, in consideration for the exchange of mutual releases and the third party relinquishing any claim to any of the benefits of the OnScreen(TM) (including the 11.25% license payments), the Company paid to this third party during June 2004 \$150,000 plus agreed to pay an annually declining percentage of revenue of 5% in 2005 declining to 2% in year 2008 and thereafter from the OnScreen(TM) revenues. In the event of a change of control of the Company, the percentage of revenue shall terminate and a single payment transaction fee shall be paid by the Company to this third party ranging from 10% of the OnScreen(TM) appraised value up to \$100,000,000, 7.5% for the appraised value between \$100,000,001 and \$200,000,000, 5% of the appraised value

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

between \$200,000,001 and \$300,000,000, and 4% of the appraised value between \$300,000,001 and \$400,000,000 and 3% for the appraised value between \$400,000,001 and \$500,000,000 and 2% for any appraised amounts between \$500,000,001 and \$600,000,000.

(C) OTHER COMMITMENTS

On February 3, 2004 (and amended June 15, 2004), the Company entered into an agreement with a third party whereby the Company conveyed and assigned its right, title and interest that the Company has relating to EyeCatcherPlus and Drive Time Network (except to its Display assets) as well as the right for the third party to place the Company's EyeCatcherPlus Displays. The Company retains ownership and a security interest in all assets conveyed and assigned. The third party will pay the Company five percent of the gross advertising sales revenue derived from these Displays. The five percent fee will continue until the Company receives the pre-agreed total amount for the Displays. The third party shall issue fifteen percent of its stock to the Company at the time of the agreement. The Company recorded this 15% investment at -0- during 2004. During second quarter 2004, the Company issued a warrant to purchase 200,000 shares of its common stock to this third party. During the first six months of 2004, the Company contributed \$5,000 monthly for five months to this third party.

10

NOTE 8 PREFERRED STOCK

On February 3, 2004, the Company's board of directors designated 30,000 shares of preferred stock as Series B Convertible Preferred Stock ("Series B"). The Series B is convertible to common shares on a one thousand-for-one ratio, is due annual dividends at \$1 per share, payable quarterly; as authorized by the Board and the dividends are cumulative. Series B has a liquidation value of \$240 per share and has voting rights of one thousand votes per Series B share.

On February 5, 2004, in order to receive the private placement funding from the unit holders, the Company's Board of Directors approved issuing 12,000 shares of Series B Convertible Preferred Stock to the private placement unit holders, 12,000 shares of Series B Convertible Preferred Stock upon the exercise of the \$0.50 warrants of the private placement and 6,000 shares of Series B Convertible Preferred Stock upon the exercise of the \$0.75 warrants of the private placement. As of June 30, 2004, the Company recorded 24,636 shares of Series B Convertible Preferred Stock as issuable. This is comprised of 12,000 Series B shares issuable to the private placement unit holders, 12,000 Series B shares issuable to the \$0.50 warrant holders who all exercised their warrants during the first quarter of 2004 and 636 Series B shares issuable to some of the \$0.75 warrant holders who exercised their warrants during the second quarter of 2004.

During March 2004, the Company converted 30,000 shares of Series A convertible preferred stock into 120,000 shares of the Company's common stock at the request of the Series A convertible preferred stock holder.

During the first six months of 2004, the Company received payment of \$50,000 on a Series A Convertible Preferred Stock subscription and issued 50,000 shares of Series A convertible preferred stock that was issuable at December 31, 2003.

During the first six months of 2004, the Company sold 25,000 shares of Series A convertible preferred stock for cash at \$1.00 per share for total proceeds of \$25,000.

During the first six months of 2004, the Company issued 24,000 shares of Series A convertible preferred stock for services totaling \$24,000 that was accrued for

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

as a liability at December 31, 2003. These shares were valued at \$1.00 per share based on contemporaneous cash sales. The measurement date was the date at which the performance of the services had been completed.

During the first six months of 2004, the Company issued 12,500 shares of its Series A convertible preferred stock for consulting services totaling \$12,500. These shares were valued at \$1.00 per share based on contemporaneous cash sales. The measurement date was the date at which the performance of the services had been completed.

During the first six months of 2004, the Company recorded \$52,000 and \$24 for the intrinsic value associated with the embedded beneficial convertible feature of the Series A convertible preferred stock and Series B convertible preferred stock, respectively. This amount was computed as the difference between the conversion price and the fair value of the preferred stock, which was computed as the fair value of the common stock based on the quoted trading price at the preferred stock issuance dates, multiplied by the conversion ratio (four-for-one for Series A and one thousand-for-one for Series B). This intrinsic value is limited to the amount of the proceeds allocated to the preferred stock. For financial statement purposes, this \$52,024 was recorded as a preferred stock dividend. Additionally, during the first six months of 2004, the Company recorded Series A convertible preferred stock dividends of \$134,250 and Series B convertible preferred stock dividends of \$9,748.

11

At June 30, 2004, the Company recorded a Series A Preferred Stock Issuable of \$120 in conjunction with the Chief Financial Officer's employment agreement. These 120,000 shares were valued at \$1.00 per share based on contemporaneous cash sales around the grant date. The total value of these shares of \$120,000 is being expensed over the three-year employment agreement with \$100,000 deferred and \$20,000 expensed as of June 30, 2004.

NOTE 9 OTHER EQUITY TRANSACTIONS

During February 2004, the Company issued 5,900,000 shares of its issuable common stock related to the 2003 private placement.

During February 2004, 6,700,000 shares of the Company's common stock were issuable by the exercise of the \$0.50 warrants from the private placement. The Company received \$3,350,000 (\$2,867,054 net of cash offering costs) of cash related to the exercise of these warrants. During May 2004, the Company issued the 6,700,000 shares of the Company's common stock related to the exercise of these warrants.

On February 3, 2004, the Company and Swartz entered into a settlement and termination of investment agreement. The Company agreed to i) promptly issue the 379,907 shares of common stock from the 2003 cashless exercise of the Swartz warrants of which Swartz agreed to limit its sales of these shares of Company stock to ten percent of the Company's trading volume for any calendar month, ii) Swartz shall retain the 100,000 shares of stock that had been issued during 2002 per the initial agreement and then were not valid as put shares as the put transaction was never executed, but the shares had been issued to Swartz and iii) the investment agreement between the Company and Swartz shall terminate subject to the completion of items i - iii above. During February 2004, the Company issued the 379,907 shares of common stock (without any restrictive legends). The 100,000 shares of the Company's common stock issued were valued at \$104,000 using the quoted marked price on the date of settlement. This \$104,000 settled the \$100,000 commitment payable that was owed to Swartz and the remaining \$4,000 was recognized as a settlement loss.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

A plaintiff alleged he held a convertible promissory note for \$234,869 at 8% interest accruing from the note date of August 1999. The Company believed the note was not valid; however, as a contingency, the Company recorded a total of \$328,058 in accrued expenses at December 31, 2003 related to this matter. On February 5, 2004, the Company satisfied this disputed note with 60,000 shares of the Company's common stock. These shares were valued at \$60,600 based upon the quoted trading price of \$1.01 on the settlement date. The Company recorded a settlement gain of \$267,458 in February 2004.

During the first quarter of 2004, the Company issued 50,000 shares of its common stock pursuant to the exercise of the rights of certain note holders granted under the default provisions of certain promissory notes. The issuance resulted in additional subscriptions receivable of \$1,250 for a total issuance price of \$1,250 or \$0.025 per share.

12

On January 3, 2004, the Company issued 100,000 shares of its common stock to an individual for services. These shares were valued at \$106,000 using the quoted marked price on the date of grant.

During March 2004, an individual exercised a warrant to purchase 100,000 shares of the Company's common stock at an exercise price of \$0.20 per share. The Company received the \$20,000 during April 2004.

During March 2004, a former employee exercised an option to purchase 5,000 shares of the Company's common stock at an exercise price of \$0.40 per share. The Company received \$2,000 for the exercise of this option.

Certain notes were paid in full on March 12, 2004 by paying the note holders \$250,000 and issuing 12,500 shares of the Company's common stock. These shares issued were valued at \$11,500 based on the quoted trading price of \$0.92 on the settlement date and after consideration of additional interest due for 2004 and a receivable of \$18,575 due from the note holders from option exercises, the Company recognized a gain of \$7,103 in 2004 (See Note 5).

During the first quarter of 2004, the Company issued warrants to an employee and a director each to purchase 100,000 shares of the Company's common stock (200,000 in total). These warrants were valued at \$149,000 under the intrinsic value method of APB 25 and will be recorded as compensation expense over the service period.

During the first quarter of 2004, the Company granted a warrant to a service provider to purchase 20,736 shares of its common stock at an exercise price of \$0.25 expiring January 21, 2007. The warrant was valued at \$20,041 which was charged to consulting expense immediately since the services were considered completed. The warrants were valued using the Black-Scholes option pricing model. During June 2004, this warrant and another warrant to purchase 100,000 additional shares of the Company's common stock were exercised. The Company received \$30,184 of cash and recorded a common stock issuable of \$121 related to the 120,736 shares of common stock that are issuable at June 30, 2004.

On April 15, 2004, the Company issued a warrant to purchase 600,000 shares of its common stock for services. This warrant was valued at \$402,360 using the Black Scholes Option model. The Company will record the expense related to this warrant over the 90-day agreement period the services are performed. During June 2004, this warrant and another warrant to purchase an additional 600,000 shares of the Company's common stock were exercised. The Company received \$150,000 of cash and recorded a subscriptions receivable for the remaining \$300,000. The Company recorded a common stock issuable of \$1,200 related to the 1,200,000

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

shares of common that are issuable at June 30, 2004.

During May 2004, the Board of Directors extended the exercise date of the \$0.75 warrants from May 30, 2004 to June 30, 2004.

As discussed above in the notes payable section, during May, a noteholder exercised her right to convert her \$215,861 note into 863,442 shares of the Company's common stock.

During June 2004, the Company issued warrants to purchase 525,000 shares of its common stock for services to two parties. These warrants were valued at an aggregate of \$255,765 using the Black Scholes Option model. The Company recorded the expense related to these warrants during June 2004.

13

During June 2004, 335,333 shares of the Company's common stock were issuable and 20,000 shares were issued by the exercise of some of the \$0.75 warrants from the private placement. The Company received \$266,500 of cash.

During the second quarter of 2004, the Company issued 1,040,000 shares of its common stock to its President/CEO and recorded 626,312 shares as issuable at June 30, 2004 in accordance with his employment agreement. These shares were valued at the quoted trading price of \$0.86 on the grant date and the expense of \$1,433,028 was recorded during the second quarter of 2004.

During the second quarter of 2004, the Company issued 450,000 shares of its common stock to its Director of Research and Development. The Company has a right to repurchase these shares from the employee for \$450 if the employee is terminated for cause or resigns. The amount of shares that can be repurchased by the Company declines by 150,000 shares each year, resulting in the shares being fully vested on November 1, 2006. The shares were valued at \$454,500 based upon the quoted trading price of \$1.01 on the grant date and will be recorded as an expense over the employee's three-year employment agreement.

During 2003, the Company recorded \$250,000 stock subscribed based upon a subscription agreement the Company had with an investor. The 1,000,000 shares related to this subscription receivable is recorded as common stock issuable; however these shares are not reflected in the earnings per share calculated. This has not been fulfilled and the Company does not expect to receive the \$250,000 subscription receivable. The subscription agreement did not have an expiration date; however, the Company sent a letter to the investor stating the investor had one week to fulfill the subscription agreement or the subscription agreement would not be valid. The Company has not received a response from the investor.

NOTE 10 OTHER SETTLEMENTS

During the six months of 2004, the Company settled several payables owed and recorded a settlement gain of \$44,771 during the first six months of 2004 related to these settlements.

NOTE 11 SUBSEQUENT EVENTS

During the first quarter of 2004, the Company received \$100,000 and recorded a subscription receivable of \$100,000 for 800,000 shares of its common stock. The 800,000 shares were recorded as issuable at March 31, 2004. As of May 31, 2004, the \$100,000 stock subscription receivable was due and unpaid. During July 2004, the Company and this party mutually terminated the agreement and the Company

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

paid back the \$100,000 originally paid, reduced the subscription receivable of \$100,000 to zero and will not issue the 800,000 shares that were recorded as issuable to this investor at June 30, 2004.

14

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

GENERAL

Management's discussion and analysis contains various "forward looking statements." Such statements consist of any statement other than a recitation of historical fact and can be identified by the use of forward-looking terminology such as "may," "expect," "anticipate," "estimate," or "continue" or use of negative or other variations or comparable terminology.

We caution that these statements are further qualified by important factors that could cause actual results to differ materially from those contained in the forward-looking statements, that these forward-looking statements are necessarily speculative, and there are certain risks and uncertainties that could cause actual events or results to differ materially from those referred to in such forward-looking statements.

OVERVIEW

OnScreen Technologies, Inc. is a publicly traded company (OTC-BB:ONSC) focused on commercializing its innovative technology to the world of visual communications. The company concentrates on motion display advertising solutions and seeks to develop innovative approaches to motion advertising products and delivery systems. The Company is focused on the design, development, licensing and sale of LED video displays manufactured with the OnScreen(TM) architecture.

OnScreen Technologies, Inc. is focused on providing next generation LED video displays for the Department of Transportation (DOT), Law Enforcement, Emergency Response, Department of Homeland Security and commercial advertising markets. Utilizing a revolutionary patent pending architecture, OnScreen(TM) technologies' LED displays should provide solutions that are up to 70% lighter than current LED displays and reduce wind loading by up to 75%. The architecture enables the placement of LED signs on existing infrastructure without additional support for the Variable Message Sign market and has resulted in the first truly portable Rapid Dispatch Emergency Signs (RDES). The RediAlert(TM) RDES can fit into any emergency vehicle and provides bright LED illumination in a three foot by five foot display that collapses to the size of a brief case for easy storage. Powered by the vehicle itself, the RediAlert(TM) signs are the first truly portable LED display solution in the world. In addition, all OnScreen(TM) technologies signs can be controlled remotely or on site depending on the specific market requirements.

The OnScreen(TM) architecture is a patent pending technology, which is a new generation in bright LED displays that is expected to provide key design improvements in cost, weight and brightness compared to current LED displays. Applications for OnScreen(TM) technology include but are not limited to, Compact Portable Signage, Variable Message Signage, LED Billboards and Large Outdoor Venue Video Screens. OnScreen(TM) plans to capitalize on the full breadth of the OnScreen(TM) market opportunity via a series of manufacturing, licensing and distribution partnerships.

The company expects deployment of initial OnScreen(TM) products in the first half of 2005. Until these products are deployed, the Company does not expect to record significant revenues. As part of the shift of the business focus,

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

OnScreen(TM) assigned its EyeCatcherPlus business to a marketing company, subject to a security interest retained by OnScreen(TM) and a 15% non-dilutive ownership interest in the marketing company. This assignment includes all rights to both the IllumiSign-EyeCatcher and Front-Lit EyeCatcher Powered by Insight that had been the mainstay of OnScreen(TM) over the past years. Although the EyeCatcherPlus and the mobile LED jumbo screen truck are believed to be economically viable, management made the decision to ultimately divest the Company of the EyeCatcherPlus and mobile LED unit in favor of total focus on the OnScreen(TM) development and marketing. The Company's plan is to focus all of its resources on the commercialization of the OnScreen(TM) technology. Through a licensing agreement and some established accounts, the Company will receive some revenue from its mobile LED truck and the motion display boards during 2004.

15

During the first quarter of 2004, OnScreen(TM) continued to incur significant losses from operations. The Company incurred a net loss of \$5,096,228 for the six months ended June 30, 2004.

A priority of management during the first six months of 2004 has been and is to raise the capital needed to continue to fund the development of the Company's OnScreen(TM) products. During the first six months of 2004, the Company received proceeds of \$3,133,554, net of offering costs from the exercise of the \$0.50 and some of the \$0.75 warrants that were issued to the 2003 private placement unit holders and \$202,184 from other warrants and options exercised. Management is continuing to pursue private equity funding. These funds will enable the Company to develop its OnScreen(TM) products and the Company's operations until the Company brings the OnScreen(TM) products to market.

Intellectual Property

We rely on various intellectual property laws and contractual restrictions to protect our proprietary rights in products and services. These include confidentiality, invention assignment and nondisclosure agreements with our employees, contractors, suppliers and strategic partners. The confidentiality and nondisclosure agreements with employees, contractors and suppliers are in perpetuity or for a sufficient length of time so as to not threaten exposure of proprietary information. In addition, we intend to pursue the registration of our trademarks and service marks in the U.S. and internationally.

A provisional patent was filed August 26, 2002 on the OnScreen(TM) technology. The patent was filed July 23, 2003 on the OnScreen(TM) technology that contains over 50 separate claims. OnScreen(TM) retained Knobbe, Martens, Olson & Bear, LLP to manage our current interests relative to the inventor's prosecution of the full national and international patents.

An additional provisional patent application was prepared and filed by Banner & Witcoff, Ltd., Intellectual Property Attorneys, Washington, D.C. on behalf of OnScreen(TM) on March 15, 2004 in the U.S. Patent and Trademark Office regarding Rapid Dispatch Emergency Signs.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that have a significant impact on the results the Company reports in its financial statements. Some of the Company's accounting policies require its management to make difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Actual results may differ from these estimates under different assumptions or conditions. Below, the Company discusses this further, as well as

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

the estimates and judgments involved.

16

Asset Impairment

The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset exceeds its fair value and may not be recoverable. In performing the review for recoverability, the Company estimates the future cash flows expected to result from the use of the asset and its eventual disposition. If the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss is recognized equal to the excess of the carrying amount over the fair value. Otherwise, an impairment loss is not recognized. Management estimates the fair value and the estimated future cash flows expected. Any changes in these estimates could impact whether there was impairment and the amount of the impairment.

Allowance for Doubtful Accounts

The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. The Company regularly evaluates the collectibility of its trade receivables. At the point in time the Company determines that the customer may not be able to meet its full obligation to the Company, the Company records an allowance for doubtful accounts for the amounts the Company estimates are not collectable. Any changes in these estimates could impact the Company's statement of operations and financial position.

LIQUIDITY AND CAPITAL RESOURCES

General

The Company's cash and cash equivalents balance at June 30, 2004 is \$1,780,086. Its working capital balance at June 30, 2004 is \$1,310,460. The Company has funded its operations and investments in equipment through cash from operations, equity financings and borrowing from private parties as well as related parties. It has also funded its operations through stock paid to vendors, consultants and certain employees.

Cash used in operations

The Company's operating requirements generated a negative cash flow from operations of \$1,985,177 for the six months ended June 30, 2004. This includes payments made primarily for deposits and insurance of \$156,239 which were recorded in the prepaid expense asset account and payments to settle several existing payables and accrued expenses which reduced the payables and accruals by \$421,297 from December 31, 2003. The Company does not expect to have significant cash settlement payments during the remainder of 2004.

During 2003 and the first quarter of 2004, the Company has used stock and warrants as a form of payment to certain vendors, consultants and employees.

As the Company continues to redirect its business focus to the OnScreen(TM) technology during 2004, it will continue to fund research and development related to the OnScreen(TM) products as well as sales and marketing efforts related to these products. The Company does not expect to record much revenue and will continue to use cash in its operating activities until its OnScreen(TM) product is commercialized which is expected to be in late 2004.

Capital Expenditures

During the first quarter of 2004, the Company made payments of \$575,000, for the remaining OnScreen(TM) royalty payments and receipt of the inventor's contract rights,

17

including all royalty rights in the OnScreen(TM) License Agreement of which \$522,500 of these payments were recorded as an investment in technology rights and will be amortized over a 20 year life. These payments resulted in OnScreen(TM) owning 100% of the OnScreen(TM) licensing rights.

The Company invested approximately \$29,000 in equipment and for an automobile during the first six months of 2004. The automobile displays signage advertising the Company's products and will be used to advertise the products of the Company at trade shows and during a tour of the United States. During the remainder of 2004, the Company anticipates that its capital expenditures should not significantly change. The Company plans to outsource the production of its products.

Financing activities

During the fourth quarter of 2003, the Company undertook a private placement of Units, each Unit consisting of 4,000 shares of our common stock, a warrant to purchase 4,000 shares of common stock at a price of \$0.50 per share ("Warrant #1") and a warrant to purchase 2,000 shares of common stock at a price of \$0.75 per share ("Warrant #2"). Additionally, through a 2004 amendment to the private placement, purchasers of Units were issued, or will be issued, an aggregate of 30,000 shares of our Series B Convertible Preferred Stock as follows:

- 12,000 shares pro-rata upon purchase of Units;
- 12,000 shares pro-rata to investors who exercise Warrant #1; and
- 6,000 shares pro-rata to investors who exercise Warrant #2.

During the first quarter of 2004, the Company paid certain note holders in full on March 12, 2004 by paying the note holders \$250,000 and issuing 12,500 shares of the Company's common stock. Also, the Company satisfied a \$50,000 note during the first quarter of 2004. During the second quarter of 2004, a noteholder converted a \$215,861 note into 863,442 shares of the Company's common stock and the Company paid in full a loan for \$2,511 plus interest.

The Company paid \$115,842 of Series A Convertible Preferred Stock dividends during the first six months of 2004 and the Company will have Series A and Series B Convertible Preferred Stock dividend payments going forward.

During the first quarter of 2004, the company received \$75,000 from the sale of Series A Convertible Preferred Stock.

During May 2004, the Company issued 6,700,000 shares of common stock related to the exercise of Warrant #1. The Company received \$3,350,000 (\$2,867,054 net of cash offering costs) of cash, related to the exercise of these warrants.

During June 2004, 884,666 shares of the Company's common stock were issuable and 20,000 shares were issued by the exercise of some of the \$0.75 warrants from the private placement. The Company received \$266,500 of cash related to the exercise of these warrants.

During the six month ended June 30, 2004, the Company received \$202,184 from warrants and options exercised.

18

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

Recap of liquidity and capital resources

The Company believes that the cash that was generated from the late 2003 private placement, including the exercise of Warrant #2, the cash generated from additional equity sales and the cash generated from operations, will be sufficient to meet its working capital requirements for the next twelve months. The Company does not expect its revenue to be sufficient to cover costs of operations in the immediate future. The company is now in the process of marketing the OnScreen(TM) product and licensing rights. Management expects the OnScreen(TM) technology to be commercialized during the fourth quarter of 2004 and to begin generating revenue from the OnScreen(TM) product line by the end of 2004. The Company cannot assure that it will generate revenues by that date or that its revenues will be sufficient to cover all operating and other expenses of the Company. If revenues are not sufficient to cover all operating and other expenses, the Company will require additional funding. If additional funding is needed, the Company will attempt to raise these funds through borrowing instruments or issuing additional equity. The Company is adequately confident that equity financing or debt will be available to fund its operations until revenue streams are sufficient to fund operations; however, the terms and timing of such equity or debt cannot be predicted.

RESULTS OF OPERATIONS

Revenue

Revenues was lower during the three and six months ending June 30, 2004 compared to the same periods in the prior year due to the assignment of EyeCatcherPlus displays and the current focus on the development of the OnScreenTM technology. The revenue for the three-month period ending June 30, 2004 was \$47,034 comprised mainly of LED truck revenue of \$40,000. The revenue for the three-month period ending June 30, 2003 was \$90,444 comprised mainly of \$50,618 from the EyeCatcherPlus displays and \$27,000 from LED truck revenue.

The revenue for the six-month period ending June 30, 2004 was \$81,193 comprised mainly of LED truck revenue of \$69,000. The revenue for the six-month period ending June 30, 2003 was \$203,177 comprised mainly of \$62,700 from the sale of boards, \$54,939 from the EyeCatcherPlus displays and \$60,000 from LED truck revenue.

The Company expects to continue to receive indirect revenue from its assignment of the EyeCatcherPlus business. Although the Company is no longer seeking new EyeCatcherPlus customers because of the assignment of the EyeCatcherPlus business, OnScreen(TM) is still encouraging new business development for the mobile LED truck because it remains a source of revenue and management feels that the sale of the mobile LED truck can better be marketed as a revenue producing element. Management expects the OnScreen(TM) technology to be commercialized during the fourth quarter of 2004 and to begin generating revenue from the OnScreen(TM) product line by the end of 2004.

Cost of revenue

There was cost of revenue of \$488 for the three and six months ending June 30, 2004 compared to \$1,161 and \$75,821 for the three and six months ending June 30, 2003, respectively. The 2003 cost of sales were primarily related to the sale of boards.

Selling, General and Administrative Expenses

Selling, General and Administrative (SG&A) expenses includes such items as wages, consulting, general office expenses, business promotion expenses and costs of being a public company including legal and accounting fees, insurance

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

and investor relations.

19

SG&A expenses increased from \$719,975 for the three months ended June 30, 2003 to \$3,416,356 for the same period during 2004. This increase of \$2,696,381 is primarily the result of increased consulting expenses of approximately \$1,145,000 and increased compensation expenses of approximately \$1,610,000.

SG&A expenses increased from \$1,176,965 for the six months ended June 30, 2003 to \$5,076,095 for the same period during 2004. This increase of \$3,899,130 is primarily the result of increased consulting expenses of approximately \$1,960,000 and increased compensation expenses of approximately \$1,885,000.

The majority of the increase in the consulting expense for the three and six months of 2004 compared to 2003 was paid with the issuance of common stock and warrants. At June 30, the Company has \$174,136 remaining in deferred consulting which the majority of this will be expensed during the remainder of 2004.

The increase in compensation expense in 2004 compared to 2003 is the result of hiring the required talent to facilitate commercializing the OnScreen(TM) products and bringing these products to market by the end of the year and includes compensation expense of \$1,433,028 related to the stock issued and that is issuable to the President/CEO in accordance with his contract.

The company anticipates its sales and marketing and its technology department expenditures to increase during the remainder of 2004 due to the commercialization and marketing of its OnScreen(TM) product by late 2004 while the remaining general and administrative costs are anticipated to decrease compared to the first quarter of 2004.

Research and Development

The research and development costs are related to the OnScreen(TM) technology that the Company acquired the rights to use. The \$201,084 increase in research and technology costs during the second quarter of 2004 compared to the second quarter of 2003 and the \$331,041 increase in research and technology costs during the six months ended June 30, 2004 compared to the same period in 2003 is a result of activities to further research and develop the OnScreen(TM) technology and products. The Company anticipates increasing its expenditures in research and development during the remainder of 2004 compared to 2003.

Settlement Gain (Loss), Net

The settlement gain for the three months ending June 30, 2004 was \$15,029 compared to \$300,116 for the three months ending June 30, 2003. During the six months ended 2003, \$300,000 of Swartz penalties were forgiven and recorded as a gain.

The settlement gain for the six months ending June 30, 2004 compared to the same period in 2003 increased \$2,806. The main component of the 2004 gain was due to the settlement of a disputed convertible promissory note in the principal amount of \$234,869 plus 8% interest accruing from the note date of August 1999. On February 5, 2004, the Company satisfied this disputed obligation with 60,000 shares of the Company's common stock. These shares were valued at \$60,600 and the Company recorded a settlement gain of \$267,458 in February 2004. The main component of the 2003 gain was the forgiveness of Swartz penalties of \$300,000.

20

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

Interest Expense

The interest expense for the six months ending June 30, 2004 includes \$46,500 of non-cash interest related to the value of options issued under default provisions of certain notes.

The interest expense for the three and six months ending June 2003 includes \$9,750 and \$37,750 , respectively, of non-cash interest related to the value of options issued under default provisions of certain notes.

Since the notes and loans payable balance is zero at June 30, 2004, the Company anticipates the interest expense for the remainder of 2004 to be lower than 2003 interest expense.

Net Loss

The Net Loss increased \$3,152,131 from the second quarter of 2003 (\$412,676) compared to the second quarter of 2004 (\$3,564,807). The Net Loss increased \$4,199,034 from the six months ending June 30, 2003 (\$897,194) to the six months ending June 30, 2004 (\$5,096,228). The increases in net loss during 2004 compared to 2003 is the result of the redirection of the Company's business focus to the OnScreen(TM) technology and the related increase in research and development, consulting and general and administrative costs to facilitate commercializing the OnScreen(TM) products and bringing these products to market by the end of the year.

Preferred Stock Dividends

During the first quarter of 2004, the Company recorded \$52,000 and \$24 for the intrinsic value associated with the embedded beneficial convertible feature of the Series A Convertible Preferred Stock and Series B Convertible Preferred Stock, respectively. For financial statement purposes, this \$52,024 was recorded as a preferred stock dividend.

Additionally, during the three and six months ending June 30, 2004, the Company recorded Series A Convertible Preferred Stock dividends of \$66,541 and \$134,250, respectively, and Series B Convertible Preferred Stock dividends of \$6,000 and 9,748, respectively.

ITEM 3. CONTROLS AND PROCEDURES

Within 90 days prior to the filing of this report, the Company carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, of the design and operation of its disclosure controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective for the gathering, analyzing and disclosing the information the Company is required to disclose in the reports it files under the Securities Exchange Act of 1934, within the time periods specified in the SEC's rules and forms. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to the date of this evaluation.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

On July 1, 2004, the Company filed a lawsuit against Mobile Magic Superscreen, Ltd. (breach of contract and civil conversion), Capitol City Trailers, Inc. (civil conversion) and another party (civil fraud) in the Court of Common Pleas of Franklin County, Ohio, Case Number 04 CVH 6884. This lawsuit relates to

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10QSB

the 2001 contract with Mobile Magic Superscreen, Ltd. For the fabrication of a mobile LED superscreen that Mobile Magic failed to complete and deliver. Responses to the summons and complaint have not yet been filed.
