WI-TRON, INC.
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2006

NOTE A - ADJUSTMENTS

In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary for a fair statement of (a) results of operations for the three month periods ended March 31, 2006 and 2005 (b) the financial position at March 31, 2006 (c) the statements of cash flows for the three month period ended March 31, 2006 and 2005, and (d) the changes in stockholders' deficiency for the three month period ended March 31, 2006 have been made. The results of operations for the three months ended March 31, 2006 are not necessarily indicative of the results to be expected for the full year.

NOTE B - UNAUDITED INTERIM FINANCIAL INFORMATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for financial statements. For further information, refer to the audited financial statements and notes thereto for the year ended December 31, 2005 included in the Company's Form 10-KSB filed with the Securities and Exchange Commission on April 6, 2006.

The Company's financial statements have been presented on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The liquidity of the Company has been adversely affected in recent years by significant losses from operations. As further discussed in Note F, the Company incurred losses of \$319,156 for the three months ended March 31, 2006, has limited cash reserves even though its working capital improved by \$67,414 to a deficiency of \$(1,106,369) since the beginning of the fiscal year. Current liabilities still exceed cash and receivables by \$1,210,917 indicating that the Company will have substantial difficulty meeting its financial obligations for the balance of this fiscal year. These factors raise substantial doubt as to the Company's ability to continue as a going concern. Recently, operations have been funded by loans from the Chief Executive Officer and costs have been cut through substantial reductions in labor and operations.

As further discussed in Note F, management is seeking additional financing and

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

intends to aggressively market its products, control operating costs and broaden its product base through enhancements of products. The Company believes that these measures may provide sufficient liquidity for it to continue as a going concern in its present form. Accordingly, the financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amount and classification of liabilities or any other adjustments that might be necessary should the Company be unable to continue as a going concern in its present form.

-6-

WI-TRON, INC. NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

NOTE C - STOCKHOLDERS' EQUITY

1. Warrants and Options

At March 31, 2006, the following 95,000 warrants, remained outstanding:

- (1) 20,000 exercisable at \$1.00 through May 2010
- (2) 75,000 exercisable at \$.96 through March 2007

At March 31, 2006, the Company had employee stock options outstanding to acquire 1,400,000 shares of common stock at exercise prices of \$0.15 to \$.20 per share.

2. Private Placements of Common Stock and Debt

In connection with the August 10, 2005 private placement of common stock and notes there remains an unsecured note payable balance of \$300,000, which were due upon the earlier of the Company completing any financing with gross proceeds in excess of \$1,000,000; or March 1, 2006. Since the Company was unable to repay the notes on March 1, 2006. the Company requested and all of the investors agreed to a 90 day extension on the notes until June 1, 2006.

3. Series C Convertible Preferred Stock

As of March 31, 2006, there were 136,000 shares of Series C Convertible Preferred Stock outstanding, 128,000 of which are owned by John Lee, the Chief Executive Officer. Each share of the preferred stock is convertible into 100 shares of common stock. Accordingly, the outstanding preferred shares, in the aggregate, are convertible into 13,600,000 shares of common stock.

4. Other Issuances of Common Stock and Related Matters

In January 2006, the Company issued to the securities lawyer non-qualified 10 year options to purchase 1,000,000 shares at \$.20 per share for services rendered in connection with successful private placements. The options were value at \$62,809 and were charged against the proceeds of private placements during the quarter ended March 31, 2006.

In January 2006, John Lee and Jessica Lee each converted 2,000 shares of their preferred stock into 200,000 shares of common stock (aggregate of 400,000 shares).

On February 8, 2006, the Company issued 50,000 shares of common stock to Eric Popkoff for consulting services pursuant to an agreement with Undiscovered Equities Research Corporation ("UERC") dated September 23, 2005 (\$5,850 was charged to operations in 2005).

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

In March 2006, the Company's lawyer was issued 200,000 shares of common stock which were granted in 2005 in connection with the private placements of securities and accounted for in the Statement of Stockholders' Equity as of December 31, 2005 (\$26,000 was recorded as offering costs reducing stockholders' equity in 2005).

In March 2006, the Company's lawyer drafted an amendment to its certificate of designation for the preferred shares whereby the liquidation preference will be corrected to be \$2 per preferred share rather than the incorrect \$750,000 per share in the original certificate. The holders of the preferred shares have agreed to this change to be made and the amendment was filed on May 19, 2006.

-7-

WI-TRON, INC. NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

On March 30, 2006, a subscription agreement was entered into with an individual who is a public/investor relations consultant whereby the Company agreed to sell 1,500,000 shares of common stock for gross proceeds of \$225,000. In May, this individual made an additional investment of \$110,000 (see Note J).

NOTE D - LOSS PER SHARE

The Company complies with the requirements of the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 128, "Earnings per Share" ("SFAS No. 128"). SFAS No. 128 specifies the compilation, presentation and disclosure requirements for earnings per share for entities with publicly held common stock or potential common stock. Net loss per common share - basic and diluted is determined by dividing the net loss by the weighted average number of common stock outstanding.

Net loss per common share - diluted does not include potential common shares derived from stock options and warrants (see Note C) because they are antidilutive.

NOTE E - LITIGATION

From time to time, the Company is party to what it believes are routine litigation and proceedings that may be considered as part of the ordinary course of its business. Except for the proceedings noted below, the Company is not aware of any pending litigation or proceedings that could have a material effect on the Company's results of operations or financial condition.

In April 2004, a law firm filed a judgment against the Company in the amount of approximately \$40,000 in connection with non-payment of legal fees owed to it. Inasmuch as this is a perfection of an already recorded liability, management does not believe that the judgment will have a material impact on the financial position of the Company. In March 2005, a settlement was reached whereby the Company made a down payment of \$2,500 and agreed to pay the balance in 24 equal monthly installments of approximately \$1,600.

NOTE F - LIQUIDITY

The Company's financial statements have been presented on a going concern

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The liquidity of the Company has been adversely affected in recent years by significant losses from operations. The Company has incurred losses of \$319,156 and \$162,291 for the three months ended March 31, 2006 and 2005, respectively.

With little remaining cash and reduced revenues, management believes that the Company will have great difficulty meeting its working capital and litigation settlement obligations over the next 12 months. The Company is presently dependent on cash flows generated from sales and private placements of common stock to meet our obligations. Our failure to consummate a merger with an appropriate partner or to substantially improve our revenues will have serious adverse consequences and, accordingly, there is substantial doubt in our ability to remain in business over the next 12 months. There can be no assurance that any financing will be available to the Company on acceptable terms, or at all. If adequate funds are not available, the Company may be required to delay, scale back or eliminate its research, engineering and development or manufacturing programs or obtain funds through arrangements with partners or others that may require the Company to relinquish rights to certain of its technologies or potential products or other assets. Accordingly, the inability to obtain such financing could have a material adverse effect on the Company's business, financial condition and results of operations.

-8-

WI-TRON, INC. NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

Management's plans for dealing with the foregoing matters include:

- o Increasing sales of its high speed internet connectivity products through both individual customers, strategic alliances and mergers.
- o Decreasing the dependency on certain major customers by aggressively seeking other customers in the amplifier markets;
- o Partnering with significant companies to jointly develop innovative products, which has yielded orders with multinational companies to date, and which are expected to further expand such relationships;
- o Maintaining a reduced cost structure through a more streamlined operation by using automated machinery to produce components for our products;
- o Deferral of payments of officers' salaries, as needed;
- o Selling remaining net operating losses applicable to the State of New Jersey, pursuant to a special government high-technology incentive program in order to provide working capital, if possible;
- o Reducing overhead costs and general expenditures.
- o Merging with another company to provide adequate working capital and jointly develop innovative products.

NOTE G - OFFICER LOANS

As of March 31, 2006, the Company owes \$345,842 to the Chief Technology Officer (formerly the Chief Executive Officer) for loans and unpaid salaries.

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

The Company also owes other officers an aggregate of \$63,058. These balance are non-interest bearing, unsecured, and have no fixed maturity dates.

-9-

WI-TRON, INC.
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2006

NOTE H - SEGMENT INFORMATION

The Company has not pursued its wireless Internet connectivity business since 2003 and is essentially currently operating in one segment.

NOTE I - COMMITMENTS

1. Premises leases

In July 2004, Tek, Ltd. ("Tek") a company wholly owned by John Lee, entered into a contract with the existing landlord of the operating premises to purchase the building. In connection therewith, Tek negotiated a return of the security deposit and accumulated interest thereon to the Company in the aggregate amount of \$40,160. The Company was leasing the premises on a month to month basis and paying rent on a semi-monthly basis. On April 22, 2005, concurrent with the closing of the purchase of the building by Tek, the Company entered into a non-cancelable operating lease with Tek which commences on June 1, 2005 and expires on May 31, 2008. Tek is holding a security deposit of \$5,500 in connection with this lease.

The Company is obligated for minimum annual rental payments as follows:

Year ending December 31	
2006	\$ 51,750
2007	72,000
2008	30,000

	\$ 153,750
	=====

Rent expense, including the Company's share of real estate taxes, utilities and other occupancy costs, was \$17,250 and \$29,431 for the three months ended ended March 31, 2006 and 2005, respectively.

2. Phoenix Opportunity Fund II, L.P.

On January 28, 2004, the Company entered into a Subscription Agreement (the "Agreement") with Phoenix Opportunity Fund II, L.P. ("Phoenix"), to make certain investments in the Company. Due to a dispute among the Parties with respect to the terms of the loan transaction, the Company and Phoenix agreed to rescind their agreement, and the Company agreed to pay Phoenix in settlement, which included a \$40,000 secured promissory note due March 31, 2005, and bearing interest at the rate of eight percent per annum secured by substantially all the assets of the Company. The Company did not make all of the required payments due under the Phoenix rescission agreement, and the Company remains currently delinquent. The balance due on the note at March 31, 2006 was \$20,000. In May 2006, the Company responded to a demand by Phoenix and paid \$10,000 leaving a balance of \$10,000 due as of the date of this filing. As yet, no action has been taken by Phoenix concerning this default.

NOTE J - SUBSEQUENT EVENTS

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

On May 4, 2006, a subscription agreement was entered into with an individual who is a public/investor relations consultant (the same individual discussed in Note C.4) whereby the Company agreed to sell 500,000 shares of common stock for gross proceeds of \$110,000.

In April 2006, the Company paid the balance of its payroll tax liability incurred during the first quarter of 2006 as follows: Federal \$49,106; New Jersey State \$13,710.

-10-

WI-TRON, INC.
MARCH 31, 2006

PART I - FINANCIAL INFORMATION

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF

Financial Condition and Results of Operations

Results of Operations - The Three Months Ended March 31, 2006 Compared to Three Months Ended March 31, 2005.

Revenues for the three months ended March 31, 2006 decreased by \$102,437 from \$142,593 to \$40,156, or 72% compared to the three months ended March 31, 2005. Coupled with the increased production costs, the first quarter losses significantly increased compared with the first quarter of last year.

The majority of the amplifier sales for the three months ended March 31, 2006 were obtained from the sale of the Wireless Local Loop amplifier products to a major European customer.

The Company has continued to develop and refine its amplifier products for the wireless communications market. Sales and marketing efforts have been focused on Asian markets.

Cost of sales was \$65,522 or 163% of sales compared to 73% during the same period for 2005. The decline in gross margin was principally due to insufficient sales volume. The Company is continuing to assess ways to achieve cost reduction for its products and sales volume increases to improve gross margins in 2006.

Selling, general and administrative expenses (excluding stock based compensation) increased in 2006 by \$91,192 to \$190,444 from \$99,252, in 2005. Expressed as a percentage of sales, the selling, general and administrative (SG&A) expenses (excluding stock based compensation) were 474% in 2006 and 70% in 2005. Most of the SG&A expenses are fixed and management has cut costs about as low as operations can sustain. The actual dollar increase in SG&A from the previous year was \$91,192 or 92%. The principal factors contributing to the increase in selling, general and administrative expenses were related to regulatory compliance costs.

Research, engineering and development expenses were 221% of net sales for the three months ended March 31, 2006 compared to 71% in 2005. In 2006 and 2005, the principal activity of the business related to the design and production of product for OEM manufacturers, particularly for the W-CDMA amplifier and 3.5 GHz single channel products and refinements to the High Speed Internet products. The research, engineering and development expenses consist principally of salary cost for engineers and the expenses of equipment purchases specifically for the design and testing of the prototype products. The Company's research and development efforts are influenced by available funds and the level of effort required by the engineering staff on customer specific projects.

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

We had no appreciable interest income in 2006 and 2005 because our excess cash balances which we have historically temporarily invested in interest bearing accounts have been fully depleted.

-11-

WI-TRON, INC.
MARCH 31, 2006

As a result of the foregoing, the Company incurred net losses of \$319,156 or \$0.01 per share for the three months ended March 31, 2006 compared with net losses of \$162,291 or \$0.02 per share for the same period in 2005.

Liquidity and Capital Resources

Liquidity refers to our ability to generate adequate amounts of cash to meet our needs. We have been generating the cash necessary to fund our operations from private placements. We have incurred a loss in each year since inception. It is possible that we will incur further losses, that the losses may fluctuate, and that such fluctuations may be substantial. As of March 31, 2006, we had an accumulated deficit of \$25,266,882. Potential immediate sources of liquidity continued to be private placements of common stock.

As of March 31, 2006, our current liabilities exceeded our cash and receivables by \$1,210,917. Our current ratio was 0.12 to 1.00, but our ratio of accounts receivable to current liabilities was only 0.01 to 1.00. This indicates that we will have difficulty meeting our obligations as they come due. We are carrying \$104,548 in inventory, of which \$42,484 represents component parts. Because of the lead times in our manufacturing process, we will likely need to replenish many items before we use everything we now have in stock. Accordingly, we will need more cash to replenish our component parts inventory before we are able realize cash from all of our existing inventories.

As of March 31, 2006, we had cash of \$32,006 compared to \$34,998 at December 31, 2005. Overall our cash and cash equivalents decreased \$2,992 during 2006. Our cash used for operating activities was \$371,692. We received the proceeds from private placements of equity securities of \$383,000 during the quarter ended March 31, 2006.

The allowance for doubtful accounts on trade receivables was \$1,000 at March 31, 2006. Because of our relatively small number of customers and low sales volume, accounts receivable balances and allowances for doubtful accounts do not reflect a consistent relationship to sales. We determine our allowance for doubtful accounts based on a specific customer-by-customer review of collectibility.

Our inventories decreased by \$4,043 to \$104,548 in 2006 compared to \$108,591 at December 31, 2005, a decrease of 4%.

Although the Company did not convert salaries to officers through the issuance of Common Stock since 2002, but it may do so in 2006.

The Company continues to explore strategic relationships with ISP's, customers and others, which could involve jointly developed products, revenue-sharing models, investments in or by the Company, or other arrangements. There can be no assurance that a strategic relationship can be consummated.

In the past, the officers of the Company have deferred a portion of their salaries or provided loans to the Company to meet short-term liquidity requirements. Where possible, the Company has issued stock or granted warrants to certain vendors in lieu of cash payments, and may do so in the future. There

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

can be no assurance that any additional financing will be available to the Company on acceptable terms, or at all. If adequate funds are not available, the Company may be required to delay, scale back or eliminate its research, engineering and development or manufacturing programs or obtain funds through arrangements with partners or others that may require the Company to relinquish rights to certain of its technologies or potential products or other assets. Accordingly, the inability to obtain such financing could have a material adverse effect on the Company's business, financial condition and results of operations.

-12-

WI-TRON, INC.
MARCH 31, 2006

With little remaining cash and no near term prospects of private placements, options or warrant exercises and reduced revenues, we believe that we will have great difficulty meeting our working capital and litigation settlement obligations over the next 12 months. We are presently dependent on cash flows generated from sales and loans from officers to meet our obligations. Our failure to consummate a merger or substantially improve our revenues will have serious adverse consequences and, accordingly, there is substantial doubt in our ability to remain in business over the next 12 months. There can be no assurance that any financing will be available to the Company on acceptable terms, or at all. If adequate funds are not available, the Company may be required to delay, scale back or eliminate its research, engineering and development or manufacturing programs or obtain funds through arrangements with partners or others that may require the Company to relinquish rights to certain of its technologies or potential products or other assets. Accordingly, the inability to obtain such financing could have a material adverse effect on the Company's business, financial condition and results of operations.

Critical Accounting Policies

1. REVENUE RECOGNITION

Revenue is recognized upon shipment of products to customers because our shipping terms are F.O.B. shipping point. And there are generally no rights of return, customer acceptance protocols, installation or any other post-shipment obligations. All of our products are custom built to customer specifications. We provide an industry standard one-year limited warranty under which the customer may return the defective product for repair or replacement.

2. INVENTORIES

Inventories are stated at the lower of cost or market; cost is determined using the first-in, first-out method. As virtually all of our products are made to customer specifications, we do not keep finished goods in stock except for completed customer orders that have not been shipped. Our work-in-progress generally consists of customer orders that are in the process of manufacture but are not yet complete at the period end date. We review all of our components for obsolescence and excess quantities on a periodic basis and make the necessary adjustments to net realizable value as deemed necessary.

3. ALLOWANCE FOR DOUBTFUL ACCOUNTS

Because of our small customer base, we determine our allowance for doubtful accounts based on a specific customer-by-customer review of collectibility. Therefore, our allowance for doubtful accounts and our provision for doubtful accounts may not bear a consistent relationship to sales but we believe that this is the most accurate and conservative approach under our circumstances.

WI-TRON, INC.
MARCH 31, 2006

4. USE OF ESTIMATES

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates. The principal areas that we use estimates in are: allowance for doubtful accounts; work-in-process percentage of completion; accounting for stock based employee compensation; and inventory net realizable values.

5. STOCK-BASED EMPLOYEE COMPENSATION

The proforma disclosures previously permitted are no longer an alternative to financial statement recognition. Accordingly, the Company has adopted FASB Statement No. 123R and has recognized \$2,489 of stock-based compensation for the three months ended March 31, 2006.

6. LOSS PER SHARE

Statement of Financial Accounting Standards No.128 (SFAS No. 128), Earnings per Share, specifies the computation, presentation and disclosure requirements for earnings per share for entities with publicly held common stock or potential common stock.

Net loss per common share - basic and diluted is determined by dividing the net loss by the weighted average number of shares of common stock outstanding. Net loss per common share - diluted does not include potential common shares derived from stock options and warrants because they are antidilutive.

7. SEGMENT INFORMATION

The Company commenced its wireless Internet connectivity business in the summer of 2000. The Company does not measure its operating results, assets or liabilities by segment. We presented certain segment information representing sales and inventories for our amplifier and internet segments. However, this information is becoming less relevant as we begin to move away from the internet business and concentrate on our core competence, which is in the amplifier business.

Item 3. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures:

1. Management is responsible for establishing and maintaining adequate disclosure controls and procedures.

2. WI-TRON, INC. carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the chief Executive and Principal Accounting Officer

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

concluded that the Company's disclosure controls and procedures were not effective both as of March 31, 2006 and the date of this filing, in timely alerting him to material information required to be included in the Company's periodic SEC filings relating to the Company. Our conclusions regarding the deficiencies appear in the next item.

3. Our controls relating to disclosure and related assertions in the financial statements, particularly in the area of non-routine and non-systematic transactions were not adequate.

/ We had particular difficulty in recording transactions related to stockholders' equity and tracking and recording related charges to operations.

/ We found that our ability to track our inventory quantities and to correctly apply complex pricing calculations to finished goods and work-in-progress is inadequate and resulted in substantial additional adjustments. Furthermore, we discovered that lower of cost or market tests were not adequately applied.

/ Although we produced our financial statements and Form 10-QSB without outside assistance for the current quarter, we believe that for subsequent quarters of the current year we may need to engage the assistance of a third party financial accounting consulting firm as our transactions, particularly in the area of stockholders' equity, become more complex.

(b) Changes in Internal Controls Over Financial Reporting:

1. We have instituted additional monitoring procedures by the Chief Financial Officer, but otherwise have made no substantive changes to our internal controls.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note E to the Company's financial statements set forth in Part I.

ITEM 2. CHANGE IN SECURITIES

During the first quarter ended March 31, 2006, the Company issued securities as follows.

In January 2006, the Company issued to the securities lawyer for services non qualified options to purchase 1,000,000 shares at \$.20 per share.

In January 2006, John Lee and Jessica Lee each converted 2,000 shares of their preferred stock into 200,000 shares of common stock (aggregate of 400,000 shares).

On February 8, 2006, the Company issued 50,000 shares of common stock to Eric Popkoff for consulting services pursuant to an agreement with Undiscovered Equities Research Corporation ("UERC") dated September 23, 2005 (\$5,850 was charged to operations in 2005).

Edgar Filing: Wi-Tron, Inc. - Form 10QSB

In March 2006, the Company's lawyer was issued 200,000 shares of common stock which were granted in 2005 in connection with the private placements of securities and accounted for in the Statement of Stockholders' Equity as of December 31, 2005 (\$26,000 was recorded as offering costs reducing stockholders' equity in 2005).

In March 2006, the Company's lawyer drafted an amendment to its certificate of designation for the preferred shares whereby the liquidation preference will be corrected to be \$2 per preferred share rather than the incorrect \$750,000 per share in the original certificate. The holders of the preferred shares have agreed to this change to be made and the amendment was filed on May 19, 2006.

On March 30, 2006, a subscription agreement was entered into with an individual who is a public/investor relations consultant whereby the Company agreed to sell 1,500,000 shares of common stock for gross proceeds of \$225,000.

Subsequent to March 31, 2006, the Company also issued the following securities:

On May 4, 2006, a subscription agreement was entered into with an individual who is a public/investor relations consultant (the same individual discussed in Note C.4) whereby the Company agreed to sell 500,000 shares of common stock for gross proceeds of \$110,000.
