SPECIAL NOTE

Unless otherwise specified in this report, all references to currency, monetary values and dollars set forth herein shall mean United States (U.S.) dollars.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains numerous statements, descriptions, forecasts and projections, regarding Brainstorm Cell Therapeutics Inc. and its potential future business operations and performance. These statements, descriptions, forecasts and projections constitute “forward-looking statements,” and as such involve known and unknown risks, uncertainties, and other factors that may cause our actual results, levels of activity, performance and achievements to be materially different from any results, levels of activity, performance and achievements expressed or implied by any such “forward-looking statements.” Some of these are described under “Risk Factors” in this report and in our report on Form 10-KSB for the transition period ended December 31, 2006. In some cases you can identify such “forward-looking statements” by the use of words like “may,” “will,” “should,” “could,” “expects,” “hopes,” “anticipates,” “intends,” “plans,” “estimates,” “predicts,” “likely,” “potential,” or “continue” or the negative of any of these terms or similar terms. These “forward-looking statements” are based on certain assumptions that we have made as of the date hereof. To the extent these assumptions are not valid, the associated “forward-looking statements” and projections will not be correct. Although we believe that the expectations reflected in these “forward-looking statements” are reasonable, we cannot guarantee any future results, levels of activity, performance or achievements. It is routine for our internal projections and expectations to change as the year or each quarter in the year progresses, and therefore it should be clearly understood that the internal projections and beliefs upon which we base our expectations may change prior to the end of each quarter or the year. Although these expectations may change, we may not inform you if they do and we undertake no obligation to do so. We caution investors that our business and financial performance are subject to substantial risks and uncertainties. In evaluating our business, prospective investors should carefully consider the information set forth under the caption “Risk Factors” in addition to the other information set forth herein and elsewhere in our other public filings with the Securities and Exchange Commission.

BRAINSTORM CELL THERAPEUTICS INC. AND SUBSIDIARY
(A development stage company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In U.S. dollars (except share data)

NOTE 1:-

GENERAL

- a. Brainstorm Cell Therapeutics Inc. (formerly: Golden Hand Resources Inc.) ("the Company") was incorporated in the State of Washington on September 22, 2000.
- b. On May 21, 2004, the former major stockholders of the Company entered into a purchase agreement with a group of private investors, who purchased from the former major stockholders 6,880,000 shares of the then issued and outstanding 10,238,000 shares of the Company's common stock.
- c. On July 8, 2004, the Company entered into a licensing agreement with Ramot of Tel Aviv University Ltd. ("Ramot"), an Israeli corporation, to acquire certain stem cell technology (see Note 3 to the financial statements as of December 31, 2006). Subsequent to this agreement, the Company decided to focus on the development of novel cell therapies for neurodegenerative diseases, particularly, Parkinson's disease, based on the acquired technology and research to be conducted and funded by the Company.
- Following the licensing agreement dated July 8, 2004, the management of the Company has decided to abandon all old activities related to the sale of the digital data recorder product. The discontinuation of this activity was accounted for under the provision of SFAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets".
- d. On November 22, 2004, the Company changed its name from Golden Hand Resources Inc. to Brainstorm Cell Therapeutics Inc. to better reflect its new line of business in the development of novel cell therapies for neurodegenerative diseases.
- e. On October 25, 2004, the Company formed a wholly-owned subsidiary in Israel, Brainstorm Cell Therapeutics Ltd. ("BCT").
- f. On December 21 2006, the Company changed its state of incorporation from Washington to Delaware.
- g. As of March 31, 2007, the Company had accumulated a deficit of \$ 27,967,879, working capital deficiency of \$ 3,037,225, incurred net loss of \$ 1,724,163 and negative cash flows from operating activities in the amount of \$ 248,064 for the three months ended March 31, 2007. In addition, the Company has not yet generated any revenues.

The Company depends on Ramot to conduct its research and development activities. As discussed in Note 3 to the financial statements as of December 31, 2006, the Company has not registered for trade the shares underlying Ramot's warrants and has an obligation to pay Ramot an amount of \$ 435,575. As a result, the Company is in breach of the agreement with Ramot and Ramot may terminate the research and license agreement.

These conditions raise substantial doubt as to the Company's ability to continue to operate as a going concern.

The Company's ability to continue to operate as a going concern is dependent upon additional financial support and upon successful negotiations with Ramot.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In U.S. dollars (except share data)

NOTE 1:- GENERAL (Cont.)

These financial statements do not include any adjustments relating to the recoverability and classification of assets' carrying amounts or the amount and classification of liabilities that may be required should the Company be unable to continue as a going concern.

The Company intends to raise additional capital to fund its operations. In the event the Company is unable to successfully raise capital and generate revenues, it is unlikely that the Company will have sufficient cash flows and liquidity to finance its business operations as currently contemplated and might not be able to pay its liabilities on their scheduled maturity dates.

Accordingly, the Company will likely reduce general and administrative expenses and cease or delay the development project until it is able to obtain sufficient financing. There can be no assurance that sufficient revenues will be generated and that additional funds will be available on terms acceptable to the Company, or at all.

h. On September 17, 2006, the Board of Directors of the Company determined to change the Company's fiscal year-end from March 31 to December 31.

NOTE 2:- SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the annual financial statements of the Company as of December 31, 2006, are applied consistently in these financial statements.

NOTE 3:- UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Interim financial statements:

The accompanying unaudited interim financial statements have been prepared in a condensed format and include the consolidated financial operations of the Company and its fully owned subsidiary as of March 31, 2007 and for the three months then ended, in accordance with accounting principles generally accepted in the United States relating to the preparation of financial statements for interim periods. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007

NOTE 4:- RESEARCH AND LICENSE AGREEMENT

NOTE 6:-

SHORT-TERM CONVERTIBLE LOANS

a. On January 26, 2007, the Company issued a \$ 25,000 Convertible Promissory Note to a shareholder. Interest on the note will accrue at the rate of 12% per annum and be due and payable in full on February 28, 2007 (the "Maturity Date"). The note will become immediately due and payable upon the occurrence of certain Events of Default, as defined in the note. The shareholder has the right at any time prior to the close of business on the Maturity Date to convert all or part of the outstanding principal and interest amount of the note into shares of the Company's common stock (the "Common Stock"). The Conversion Price, as defined in the note, will be 75% of the average of the last bid and ask price of the Common Stock as quoted on the Over-the-Counter Bulletin Board for the five trading days prior to the Company's receipt of the third party written notice of election to convert, but in no event shall more than 3,000,000 shares of common stock be issued. The Conversion Price will be adjusted in the event of a stock dividend, subdivision, combination or stock split of the outstanding shares.

The Company did not pay the loan on the original Maturity Date. On May 1, 2007 the Company and the creditor agreed that the payment of the \$ 25,000 for the above convertible promissory note and payment of \$50,000 of the convertible promissory note from the shareholder dated November 14, 2006 (see Note 8(d) to the financial statements as of December 31, 2006) will be deferred to May 31, 2007.

For the deferral of the maturity dates the company granted on March 25, 2007 to the shareholder warrants to purchase 75,000 of the Company's common shares at an exercise price of \$ 0.45 per share. The warrants are fully vested and are exercisable at any time after March 25, 2007 until the second anniversary of the issue date. The fair value of the warrants in the amount of \$ 19,913 was recorded as financial expenses.

The conversion feature, in the amount of \$ 25,000, embedded in the note amounted to \$ 8,333

NOTE 8:-

SUBSEQUENT EVENTS

a. On April 1, 2007, the Company issued a \$ 8,300 Convertible Promissory Note to a shareholder. Interest on the Note will accrue at the rate of 12% per annum and be due and payable in full on June 1, 2007 (the "Maturity Date"). The Note will become immediately due and payable upon the occurrence of certain Events of Default, as defined in the Note. The shareholder has the right at any time prior to the close of business on the Maturity Date to convert all or part of the outstanding principal and interest amount of the Note into shares of the Company's common stock (the "Common Stock"). The Conversion Price, as defined in the Note, will be 75% of the average of the last bid and ask price of the Common Stock as quoted on the Over-the-Counter Bulletin Board for the five trading days prior to the Company's receipt of the third party written notice of election to convert but in no event the conversion price be greater than \$0.35. The Conversion Price will be adjusted in the event of a stock dividend, subdivision, combination or stock split of the outstanding shares.

In addition, the Company granted to the shareholder warrants to purchase 8,300 shares of the Company's common stock at an exercise price of \$ 0.45 per stock. The warrants are fully vested and are exercisable at any time after April 1, 2007 until the second anniversary of the issue date.

b. On April 10, 2007, the Company issued a \$ 25,000 Convertible Promissory Note to a third party. Interest on the Note will accrue at the rate of 8% per annum and will be due and payable in full on April 10, 2008. The Note will become immediately due and payable upon the occurrence of certain Events of Default, as defined in the Note. The third party has the right at any time prior to the close of business on the Maturity Date to convert all or part of the outstanding principal and interest amount of the Note into shares of the Company's common stock (the "Common Stock"). The Conversion Price, as defined in the Note, will be 75% of the average of the last bid and ask price of the Common Stock as quoted on the Over-the-Counter Bulletin Board for the five trading days prior to the Company's receipt of the third party written notice of election to convert but in no event the conversion price be greater than \$0.35. The Conversion Price will be adjusted in the event of a stock dividend, subdivision, combination or stock split of the outstanding shares.

In addition, the Company granted to the third party warrants to purchase 25,000 shares of the Company's common stock at an exercise price of \$ 0.45 per stock. The warrants are fully vested and are exercisable at any time after April 10, 2007 until the second anniversary of the issue date.

c. On April 12, 2007, the Company issued to its legal advisor 108,511 shares of the Company's common stock. The stocks are in lieu of \$ 29,435 payable to the legal advisor.

d. On April 12, 2007, the Company issued to its service providers 80,000 shares of the Company's common stock. The stocks are in lieu of \$ 14,688 payable to the service provider.

Item 2. Plan of Operation.

Company Overview

Brainstorm Cell Therapeutics Inc. (“Brainstorm” or the “Company”) is an emerging company developing stem cell therapeutic products based on breakthrough technologies enabling the in vitro differentiation of bone marrow stem cells to neural-like cells. We aim to become a leader in adult stem cell transplantation for neurodegenerative diseases. Our focus is on utilizing the patient’s own bone marrow stem cells to generate neuron-like cells that may provide an effective treatment initially for Parkinson’s Disease (PD), ALS, and thereafter for Multiple Sclerosis and other neurodegenerative disorders.

Plan of Operations

Assuming we can successfully complete our additional necessary financings, our primary objectives over the next twelve (12) months will be:

- To define and optimize our NurOwn™ technology in human bone marrow cells, in order to prepare the final production process for clinical studies in accordance with health authorities’ guidelines. To reach this goal we intend to optimize methods for the stem cell growth and differentiation in specialized growth media, as well as methods for freezing, thawing, storing and transporting of the expanded mesenchymal stem cells, as well as the differentiated neuronal cells;

- To verify the robustness and the reproducibility of the process;
- To further repeat the process using bone marrow from Parkinson's patients;
- To conduct large efficacy studies in animal models of PD (such as mice and rats) in order to further evaluate the engraftment, survival and efficacy of our astrocyte-like cell in these models;
- To conduct safety and efficacy studies in primates-monkeys;
- To conduct a full tumorigenicity study in animals;
- To generate process SOPs, protocols and reports for the file submission;
- To finalize analytical methodology and product specifications to be used as release criteria of the final cell product for clinical trials in humans;
- To set up a quality control system for the processing of our cells; and
- To write up clinical protocols for phase I & II clinical studies.

All of these activities will be coordinated with a view towards the execution of clinical trials of the astrocyte-like differentiated cell implants in humans. We intend to crystallize our development plans with the assistance of our scientific advisory board members and external regulatory consultants who are experts in the FDA cell therapy regulation guidelines.

We also intend to continue our close cooperation and funding of the research programs conducted by the scientific team led by Prof. Melamed and Dr. Offen at the Tel-Aviv University. These programs will focus on further understanding and optimization of the technology towards the generation of better processes for generation of dopaminergic and other neurons as well as Oligodendrocytes, to target additional neurodegenerative diseases, such as ALS and Multiple Sclerosis (MS).

In addition, we intend to identify and evaluate in-licensing opportunities for development of innovative technologies utilizing cell and gene therapy for diabetes, cardiac disease and other indications.

Cash Requirements

At March 31, 2007, we had \$97,528 in total current assets and \$3,134,753 in total current liabilities and on May 10, 2007, we had approximately \$154,000 in cash. We will need to raise additional funds through public or private debt or equity financings within the next month to meet our anticipated expenses so that we can execute our business plan. Although we have been seeking such additional financings, no commitments to provide additional funds have been made by management, other shareholders or third parties. We may not be able to raise additional funds on favorable terms, or at all. If we are unable to obtain additional funds in a timely manner, we will be unable to execute our business plan and we may be forced to cease our operations.

In order to execute our plan of operation for the coming year we will need to raise at least \$5 million.

In the past, we have received loans from various investors. In connection with such loans, we have issued convertible notes. As of May 10, 2007, we owed certain investors approximately \$750,000 in overdue payments under certain convertible notes. We are currently in discussions with such investors to obtain a deferral of these payments until we raise additional capital.

Under the Amended Research and License Agreement, we are obligated to pay Ramot \$95,000 on a quarterly basis through April 2007, and, if certain research milestones are met, for an additional three-year period. If we fail to comply with these obligations to Ramot, Ramot may have the right to terminate the license. As of March 31, 2007, the Company owed Ramot \$435,575 in (i) overdue payments under the Amended Research and License Agreement and (ii) patent fees. We are negotiating with Ramot to obtain a deferral of these payments until we raise additional capital. If we are unable to reach an agreement with Ramot and Ramot elects to terminate our license, we would need to change our business strategy entirely or would be forced to cease our operations.

Our other material cash needs for the next 12 months will include, among others, employee salaries and benefits, facility lease, capital equipment expenses, legal and audit fees, patent prosecution fees, consulting fees, payments for outsourcing of certain animal experiments and, possibly, upfront payments for in-licensing opportunities and payment for clinical trials in Europe or USA.

Research and Development

Our research and development efforts have focused on improving growth conditions and developing tools to evaluate the differentiation of bone marrow stem cells into neural-like cells, suitable for transplantation as a restorative therapy for neurodegenerative diseases. Some highlights achieved in this research include:

- Improving the bone marrow stem cells expansion prior to differentiation;
- Evaluation of methodologies for cryo-preservation of the expanded bone marrow cells prior to differentiation;
- Characterization of the propagated mesenchymal stem according to established CD-markers;
- Determination of timing and growth conditions for the differentiation process;
- Development of molecular tools and cell surface markers to evaluate cell differentiation;
- Demonstrating that the bone marrow derived differentiated cells do produce and secrete several neuron-specific markers;
- Transplantation of the bone marrow derived neural-like cells in the striatum of model animals resulting in long-term engraftment; and
- Parkinson's model animals transplanted with the bone marrow derived neural-like cells show significant improvement in their rotational behavior.

For the twelve months ending March 31, 2008, we estimate that our research and development costs will be approximately \$3,000,000, excluding compensation expenses related to options and warrants. We intend to spend our research and development costs on the development of our core NurOwn™ technology by developing the cell differentiation process according to FDA and EMEA guidelines and to conduct the primate clinical trials in Spain. We

intend to continue to fund our collaborators at the university lab and in parallel, we have constructed and set up a facility, which includes laboratories for continued development of our proprietary processes. We also intend to fund and finance collaborations with medical centers and strategic partners for future clinical trials.

General and Administrative Expenses

If we can successfully complete our financings, for the twelve months ending March 31, 2008, we estimate that our general and administrative expenses will be approximately \$1,000,000 excluding compensation expenses related to options and warrants and shares. These expenses will include, among others, salaries, legal and audit expenses, business development, investor and public relations and office maintenance.

We do not expect to generate any revenues in the 12-month period ending March 31, 2008.

In management's opinion, we need to achieve the following events or milestones in the next twelve months in order for us to reach clinical trials for our NurOwn™ dopamine or astrocyte-like producing cell differentiation process as planned within one to two years:

- Raise equity or debt financing or a combination of equity and debt financing of at least \$13,000,000;
- Complete preclinical studies in rodents to confirm safety and efficacy;
- Complete preclinical studies to confirm safety in monkeys;
- Conduct full safety study of the final cell product for PD; and
- Write up clinical protocols for Phase I & II clinical studies.

Purchase or Sale of Equipment

Our subsidiary leases a facility in Petach Tikva, Israel, which includes approximately 600 square meters of laboratory and office space. In May 2005, we completed leasehold improvements of the facility for which we paid the contractor approximately \$368,000 and issued to the contractor fully vested options to purchase 30,000 shares of our common stock at an exercise price of \$0.75 per share. The lessor has reimbursed us \$82,000 in connection with these improvements. We relocated to the new facility in May 2005. As of March 31, 2007, we had purchased laboratory equipment and furniture for a total sum of approximately \$260,000 and assuming we complete additional financings, we intend to purchase certain additional laboratory equipment at an estimated cost of \$150,000.

Employees

We currently have eleven scientific and administrative employees. Assuming we consummate our intended financings, we expect to increase our staff significantly in the near future.

Off Balance Sheet Arrangements

We have no off balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources.

Risk Factors

Any investment in our common stock involves a high degree of risk. You should consider carefully the risks described below, together with the other information contained in this report. If any of the following events actually occurs, our business, financial condition and results of operations may suffer materially. As a result, the market price of our common stock could decline, and you could lose all or part of your investment in our common stock.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in “Risk Factors” in our report on Form 10-KSB for the transition period ended December 31, 2006, which could materially affect our business, financial condition or future results. The risks described in our transition report on Form 10-KSB are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. The risk factors below were disclosed in our annual report on Form 10-KSB and have been updated to provide information as of March 31, 2007.

Our business in the foreseeable future will be based on technology licensed from Ramot and if this license were to be terminated for any reason, including failure to pay the required research funding or royalties, we would need to change our business strategy and we may be forced to cease our operations. The Original Ramot Agreement imposes on us development and commercialization obligations, milestone and royalty payment obligations and other obligations. In October 2004, we made payments to Ramot to cover the up-front license fee, reimbursement of certain patent expenses and initial research funding. Under the Amended Research and License Agreement, we are obligated to pay Ramot \$95,000 on a quarterly basis through April 2007, and, if certain research milestones are met, we are obligated to pay Ramot such amount for an additional three-year period. If we fail to comply with these obligations to Ramot, Ramot may have the right to terminate the license. If Ramot elects to terminate our license, we would need to change our business strategy and we may be forced to cease our operations. As of March 31, 2007, we owe Ramot an aggregate amount of \$435,575 in overdue payments and patent fees; we are negotiating with Ramot to obtain a deferral of these payments until we raise additional capital. In addition, on March 31, 2006, the Company entered into an Amendment Agreement (the “Amendment”) with Ramot and its designees relating to warrants to purchase an aggregate of 12,800,845 shares of the Company's common stock at a purchase price of \$0.01 per share issued to Ramot and its designees in connection with the Original Ramot Agreement. The Amendment extended the date by which the shares underlying the warrants were to be registered by the Company for resale to no later than December 31, 2006. We have not yet registered the shares underlying the warrants for resale; therefore, Ramot may elect to terminate the license.

Our company has a history of losses and we expect to incur losses for the foreseeable future. We had no revenues for the fiscal years ended March 31, 2005 or March 31, 2006 or for the transition period from April 1, 2006 to December 31, 2006 or for the fiscal quarter ended March 31, 2007. As a development stage company, we are in the early stages of executing against our business plan. Our ability to operate successfully is materially uncertain and our operations are subject to significant risks inherent in a developing business enterprise. Most notably, we do not expect that any therapies resulting from our or our collaborators' research and development efforts will be commercially available for a significant number of years, if at all. We also do not expect to generate revenues from strategic partnerships or otherwise for at least the next 12 months, and likely longer. Furthermore, we expect to incur substantial and increasing operating losses for the next several years as we increase our spending to execute our development programs. These losses are expected to have an adverse impact on our working capital, total assets and stockholders' equity, and we may never achieve profitability.

Your percentage ownership will be diluted by future offerings of our securities, upon the conversion of outstanding convertible promissory notes into shares of common stock and by options, warrants or shares we grant to management, employees, directors and consultants. In order to meet our financing needs described above, we intend to initiate a significantly larger offering of units comprising shares of our common stock and warrants to purchase

shares of our common stock (the “Subsequent Offering”). The precise terms of the Subsequent Offering will be determined by us and potential investors. Assuming the Subsequent Offering is successfully consummated, it will have a significant dilutive effect on your percentage ownership in the Company.

In November 2004 and February 2005, our Board of Directors adopted and ratified the 2004 Global Share Option Plan and the 2005 U.S. Stock Option Plan and Incentive Plan (the “Global Plan” and “U.S. Plan” respectively and the “Plans” together), and further approved the reservation of 9,143,462 shares of our common stock for issuance under the Plans (the “Shares”). Our shareholders approved the Plans and the issuance of the Shares in a special meeting of shareholders that was held on March 28, 2005. We have made and intend to make further option grants under the Plans or otherwise issue warrants or shares of our common stock to individuals under the Plans. For example, as of May 10, 2007:

- under our Global Plan, we have granted and not canceled a total of 5,251,778 options with various exercise prices and expiration dates, to officers, directors, services providers, consultants and employees.
- under our U.S. Plan we have issued an additional 1,530,000 shares of restricted stock and options for grants to Scientific Advisory Board members, service providers, consultants and directors.

Such issuances will, if and when made (and if options or warrants are subsequently exercised), dilute your percentage ownership in the Company.

As of May 10, 2007, we have issued convertible notes in an aggregate total of \$1,908,300 to various investors. Each holder of a convertible note may choose to convert all or part of the outstanding principal and interest amount of such holder’s note into shares of our common stock on or prior to the maturity date of the respective note. The maximum number of shares, in the aggregate, that are issuable pursuant to outstanding convertible notes is 83,400,000.

As of May 10, 2007, we have issued 5,793,650 shares to investors, directors, service providers and consultants. When we register the shares or those underlying convertible securities for which we have undertaken to register, they can be sold in the public market. In addition, the shares that we will not register will become eligible for sale into the public market subject to and in accordance with applicable SEC rules and regulations, which provide exemptions from registration requirements. If any of the holders of these shares or convertible securities, or any of our existing stockholders, sell a large number of shares of our common stock, or the public market perceives that existing stockholders might sell shares of our common stock, the market price of our common stock could decline significantly.

Item 3. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Principal Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on this evaluation, our Principal Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective, as of the end of the period covered by this report, to ensure that information required to be disclosed by us in the reports we file under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that the information required to be disclosed by us in such reports is accumulated and communicated to our management, including our Principal Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II: OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On April 1, 2007, in connection with a loan for an aggregate principal amount of \$8,300 that we have undertaken, we issued to Zegal and Ross LLP a fully exercisable warrant to purchase 8,300 shares of our common stock at an exercise price of \$0.45, which warrant has a term of two (2) years.

This transaction did not involve any underwriters, underwriting discounts or commissions and we believe that this transaction was exempt from the registration requirements of the Securities Act of 1933 pursuant to Section 4(2) thereof and Regulation D promulgated thereunder.

Item 6. Exhibits.

The Exhibits listed in the Exhibit Index immediately preceding such Exhibits are filed with or incorporated by reference in this report.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
