FORWARD LOOKING STATEMENTS

The following discussion and explanations should be read in conjunction with the financial statements and related notes contained elsewhere in this quarterly report on Form 10-QSB. Certain statements made in this discussion are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements can be identified by terminology such as "may", "will", "should", "expects", "intends", "anticipates", "believes", "estimates", "predicts", or "continue" or the negative of these terms or other comparable terminology and include, without limitation, statements below regarding: the Company's intended business plans; expectations as to product performance; intentions to acquire or develop other technologies; and belief as to the sufficiency of cash reserves. Because forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements. Although the Company believes that expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, performance or achievements. Moreover, neither the Company nor any other person assumes responsibility for the accuracy and completeness of these forward-looking statements. The Company is under no duty to update any forward-looking statements after the date of this report to conform such statements to actual results.

**SPO MEDICAL INC.
AND ITS SUBSIDIARY
NOTES TO FINANCIAL STATEMENT
U.S. dollars in thousands except share data**

NOTE 1 - General

SPO Medical Inc. (hereinafter referred to as "SPO" or the "Company") was originally incorporated under the laws of the State of Delaware in September 1981 under the name "Applied DNA Systems, Inc." On November 16, 1994, the Company changed its name to "Nu-Tech Bio-Med, Inc." On December 23, 1998, the Company changed its name to "United Diagnostic, Inc." Effective April 21, 2005, the Company acquired (the "Acquisition Transaction") 100% of the outstanding capital stock of SPO Medical Equipment Ltd., a company incorporated under the laws of the State of Israel ("SPO Ltd."), pursuant to a Capital Stock Exchange Agreement dated as of February 28, 2005 between the Company, SPO Ltd. and the shareholders of SPO Ltd., as amended and restated on April 21, 2005 (the "Exchange Agreement"). In exchange for the outstanding capital stock of SPO Ltd., the Company issued to the former shareholders of SPO Ltd. a total of 5,769,106 shares of the Company's common stock, par value \$0.01 per share ("Common Stock"), representing approximately 90% of the Common Stock then issued and outstanding after giving effect to the Acquisition Transaction. As a result of the Acquisition Transaction, SPO Ltd. became a wholly owned subsidiary of the Company as of April 21, 2005 and, subsequent to the Acquisition Transaction, the Company changed its name to "SPO Medical Inc." Upon consummation of the Acquisition Transaction, the Company effectuated a forward subdivision of the Company's Common Stock issued and outstanding on a 2.65285:1 basis.

The merger between UNDI and the SPO Ltd was accounted for as a reverse merger. As the shareholders of SPO Ltd received the largest ownership interest in the Company, SPO Ltd was determined to be the "accounting acquirer" in the reverse acquisition. As a result, the historical financial statements of the Company were replaced with the historical financial statements of SPO Ltd.

The Company and its subsidiary, SPO Ltd., are collectively referred to as the "Company".

NOTE 2 -Basis of Presentation

The accompanying un-audited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the instructions to Form 10-QSB and Article 10 of Regulation S-X. These financial statements reflect all adjustments, consisting of normal recurring adjustments and accruals, which are, in the opinion of management, necessary for a fair presentation of the financial position of the Company as of June 30, 2007 and the results of operations and cash flows for the interim periods indicated in conformity with generally accepted accounting principles applicable to interim periods. Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. Operating results for the six and three months ended June 30, 2007, are not necessarily indicative of the results that may be expected for the year ended December 31, 2007.

**SPO MEDICAL INC.
AND ITS SUBSIDIARY
NOTES TO FINANCIAL STATEMENT
U.S. dollars in thousands except share data**

NOTE 3 -GOING CONCERN

As reflected in the accompanying financial statements, the Company's operations for the six and three months ended June 30, 2007, resulted in a net loss of \$463 and \$232 respectively, and the Company's balance sheet reflects a net stockholders' deficit of \$1,216. The Company's ability to continue operating as a "going concern" is dependent on its ability to raise additional working capital. Management's plans in this regard include raising additional cash from current and potential stockholders and increasing the marketing of its current and new products.

NOTE 4 - SUBSEQUENT EVENT

On July 5, 2007, the Company privately placed with an institutional investor 1,444,444 shares of its Common Stock for aggregate gross proceeds of \$1,300. The Shares were placed pursuant to a Confidential Private Placement Agreement between the Company and the investor entered into as of July 5, 2007. In connection with the placement of the shares, the Company paid to a placement agent a cash fee of \$117.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

THE FOLLOWING DISCUSSION SHOULD BE READ IN CONJUNCTION WITH OUR FINANCIAL STATEMENTS AND THE NOTES RELATED TO THOSE STATEMENTS. SOME OF OUR DISCUSSION IS FORWARD-LOOKING AND INVOLVES RISKS AND UNCERTAINTIES. FOR INFORMATION REGARDING RISK FACTORS THAT COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS, REFER TO THE RISK FACTORS SECTION OF THE ANNUAL REPORT ON FORM 10-KSB FOR THE YEAR ENDED DECEMBER 31, 2006.

OVERVIEW

SPO Medical Inc. is engaged in the design, development and marketing of non-invasive pulse oximetry technologies to monitor blood oxygen saturation and heart rate for a variety of markets, including medical, homecare, sports and search & rescue. Pulse oximetry is a non-invasive process used to measure blood oxygen saturation levels and is an established procedure in medical practice. We utilize proprietary and patented technologies to deliver oximetry functionality through innovative commercial products that address such applications as emergency care, home monitoring, sleep apnea, cardiovascular performance, cardiac rehabilitation and the physiological monitoring of military personnel and safety care workers.

We have developed and patented proprietary technology that enables the use of pulse oximetry in a reflectance mode of operation (i.e. a sensor that can be affixed to a single side of a body part). This technique is known as Reflectance Pulse Oximetry (RPO). Using RPO, a sensor can be positioned on various body parts, hence minimizing problems of motion and poor perfusion. The unique design features contribute to substantially lower electric power requirements and enable a wireless, stand-alone configuration with expanded commercial possibilities. We hold three patents issued by the United States Patent and Trademark Office ("USPTO") covering various aspects of our unique sensors for radiance based diagnostics using pulse oximetry. Although we believe that our existing issued patents provide a competitive advantage, there can be no assurance that the scope of our patent protection is or will be adequate to protect our technologies or that the validity of any patent issued will be upheld in the future.

We were originally organized under the laws of the State of Delaware in September 1981 under the name "Applied DNA Systems, Inc." On November 16, 1994, we changed our name to "Nu-Tech Bio-Med, Inc." On December 23, 1998, we changed our name to "United Diagnostic, Inc." Effective April 21, 2005, we acquired 100% of the outstanding capital stock of SPO Ltd. pursuant to a Capital Stock Exchange Agreement dated as of February 28, 2005 among the Company, SPO Ltd. and the shareholders of SPO Ltd., as amended and restated on April 21, 2005 pursuant to which we issued to the former shareholders of SPO Ltd. a total of 5,769,106 shares of the Company's Common Stock representing approximately 90% of the Common Stock then issued and outstanding.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based upon our unaudited consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, bad debts, investments, intangible assets and income taxes. Our estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

We have identified the accounting policies below as critical to our business operations and the understanding of our results of operations.

REVENUE RECOGNITION

We generate revenues principally from sales of our products. Revenues from the sale of products are recognized when delivery has occurred, persuasive evidence of an arrangement exists, the vendor's fee is fixed or determinable, no further obligation exists and collection of is probable and there are no remaining significant obligations. Delivery is deemed to have occurred upon shipment of products from any of the distribution centers of the Company.

We also generate revenues from the provision of research and development services. Revenues generated from research and development services are recognized when such services are performed.

INVENTORY VALUATION

Inventories are stated at the lower of cost or market value. Cost is determined as follows: Raw materials, components and finished products are valued using the first in first out (FIFO) basis. Work-in-process - is valued on the basis of cost or market value of the raw materials components plus the related manufacturing costs.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

RESULTS OF OPERATIONS

COMPARISON OF THE THREE AND SIX MONTHS ENDED JUNE 30, 2007 AND THE THREE AND SIX MONTHS ENDED JUNE 30, 2006

REVENUES. Revenues are currently derived primarily from sales of our PulseOX 5500 TM designed for the medical, homecare and sports markets. Revenues for the three and six months ended June 30, 2007 were \$1,510,000 and \$2,766,000 respectively. Revenues for the corresponding periods in 2006 were \$890,000 and \$1,591,000 respectively. The increase in revenues during the 2007 periods reflected increased sales of our products.

COSTS OF REVENUES. Costs of revenues for the three and six months ended June 30, 2007 were \$706,000 and \$1,265,000, respectively. Costs of revenues for the corresponding periods in 2006 were \$459,000 and \$829,000, respectively. Costs of revenues include all costs related to manufacturing and selling products and services and consist primarily of direct material costs and salaries and related expenses for personnel. The increase in cost of revenues during the 2007 periods is primarily attributable to the increase in sales of our products.

RESEARCH AND DEVELOPMENT EXPENSES. Research and development expenses consist primarily of expenses incurred in the design, development and testing of our products. These expenses consist primarily of salaries and related expenses for personnel, contract design and testing services, supplies used and consulting and license fees paid to third parties and are net of any government grants and development fees charged to third parties. Research and development expenses for the three and six months ended June 30, 2007 were \$267,000 and \$543,000, respectively. Research and development expenses for the corresponding periods in 2006 were \$193,000 and \$345,000, respectively. The increase in research and development expenses during the 2007 periods is primarily attributable to increased employee and related compensation costs and in the investment of developing new products.

SELLING AND MARKETING EXPENSES. Selling and marketing expenses consist primarily of costs relating to compensation attributable to employees engaged in sales and marketing activities, promotion, sales support, travel and related expenses. Selling and marketing expenses for the three and six months ended June 30, 2007 were \$225,000 and \$390,000, respectively. Selling and marketing expenses for the corresponding periods in 2006 were \$161,000 and \$302,000, respectively. The increase in selling and marketing expenses during the 2007 periods is primarily attributable to the amounts expensed that related to market research for new products.

GENERAL AND ADMINISTRATIVE EXPENSES. General and administrative expenses primarily consist of salaries and other related costs for personnel in executive and other administrative functions. Other significant costs include professional fees for legal, accounting services. General and administrative expenses for the three and six months ended June 30, 2007 were \$345,000 and \$592,000, respectively. General and administrative costs for the corresponding periods in 2006 were \$299,000 and \$519,000 respectively. The increase in general and administrative expenses during the 2007 periods is primarily attributable to the increase in non executive directors' fees, professional fees and employee and related compensation costs.

FINANCIAL EXPENSES, NET. Financial expense, net, for the three and six months ended June 30, 2007 were \$199,000 and \$439,000, respectively. Financial expenses, net, for the corresponding periods in 2006 were \$363,000 and \$1,302,000 respectively. The decrease in financial expenses is primarily attributable to a one time non-cash expense that was recognized in the 2006 periods in respect of stock based compensation benefits as well the interest

accrued on loans that were advanced to us since April 2005 and which matured during 2006.

NET LOSS. For the three and six months ended June 30, 2007 we had a net loss of \$232,000 and \$463,000, respectively. Net loss for the corresponding periods in 2006 were \$585,000 and \$1,706,000 respectively. The decrease in net loss during the 2007 periods is primarily attributable to the one time non-cash expense that was recognized in the 2006 periods in respect of deferred compensation benefits and interest expenses on loans which are discussed above under "Financial Expenses, Net".

LIQUIDITY AND CAPITAL RESOURCES

As at June 30, 2007, we had cash and cash equivalents of approximately \$833,000 compared to \$836,000 at December 31, 2006. Our cash position improved as a result of the proceeds of the private placement that we completed in July 2007 which is discussed below.

We generated positive cash flow from operating activities of approximately \$54,000 during the six months ended June 30, 2007 compared to negative cash flow from operating activities of approximately \$357,000 for the six months ended June 30, 2006.

In December 2005 we completed the private placement to certain accredited investors that we commenced in April 2005 for the issuance of up to \$1,544,000 of units of our securities, with each unit comprised of (i) our 18 month 6% promissory note (collectively, the "April 2005 Notes") and (ii) three year warrants to purchase up to such number of shares of our Common Stock as are determined by the principal amount of the Note purchased by such investor divided by \$ 0.85 (collectively the "April 2005 Warrants"). In September 2006, we offered to the holders of the April 2005 Notes to revise certain of the terms of the original offering in order to facilitate an extension to the scheduled maturity date of the Note, (hereinafter the "Amendment"). The Amendment provides that (a) the maturity date of the April 2005 Notes is to be extended to March 26, 2008, (b) the exercise period of the April 2005 Warrants is to be extended from three to five years with an expiration date of September 26, 2010 and the per share exercise price was adjusted to \$0.60 and (c) the interest rate on the amounts outstanding under the April 2005 Notes was increased to 8% per annum, effective July 12, 2006. The Amendment also provides that if we subsequently issue shares of our Common Stock at an effective per share exercise price less than that of the adjusted per share exercise price of the April 2005 Warrants during the adjusted exercise period, then the exercise price thereof is to be reduced to such lower exercise price; provided, that, this protection will not apply to certain of our equity or debt issuances (i) from approved stock option plans to employees, directors and other service providers, (ii) upon exercise of options and warrants outstanding as of September 27, 2006 and (iii) to our consultants that an unaffiliated third party would deem to be commercially reasonable and fair. In addition, the Amendment also provides that, subject to certain qualifications, our obligation to file a registration statement under the Securities Act of 1933, as amended, relating to the resale of our Common Stock underlying the April 2005 Warrants is extended to April 15, 2007. The Amendment became effective as of September 30, 2006. The Amendment resulted in a one time non-cash finance expense in the amount of approximately \$2,500,000 being recognized in 2006. As of August 8, 2007, holders of Notes in the principal amount \$1,439,000 have signed the Amendment and the holder of a note in the principal amount of \$50,000 which matured on November 30, 2006 has requested repayment of principle and accrued interest. The Company is currently in contact with the remaining note holders of \$55,000 of the April 2005 Notes with respect to obtaining their formal execution of the Amendment.

Our recent financings are discussed below.

In March 2007, we entered into a Line of Credit Facility with an institutional investor pursuant to which we can borrow up to \$200,000, which can be drawn on demand at the discretion of the Company. The facility continues in effect until January 28, 2008. Amounts outstanding accrue interest at a per annum rate of 9% and accrued interest is payable on a quarterly basis. All amounts borrowed and accrued and unpaid interest need to be repaid by January 28, 2009. In consideration of the line of credit facility, we issued to the investor a warrant for 50,000 shares of our Common Stock, exercisable through March 27, 2010 at a per share exercise price of \$1.50, of which warrants for 20,000 shares is exercisable immediately and the warrants for the remaining 30,000 shares exercisable only following (and subject to) our first draw-down under the facility. To date, we have not drawn down any amounts under the line of credit facility.

In July 2007 we issued to an investor 1,444,444 shares of our Common Stock for aggregate gross proceeds of \$1,300,000.

We will need to raise additional funds to be able to satisfy our cash requirements over the next twelve months. Continuing product development and enhancement, expected new product launches, corporate operations and marketing expenses will continue to require additional capital. Our current revenues from operations are insufficient to cover our projected expansion plans. We therefore are seeking additional financing through the sale of our equity and/or debt securities to satisfy future capital requirements until such time as we are able to generate sufficient cash flow from revenues to finance on-going operations. No assurance can be provided that additional capital will be available to us on commercially acceptable or at all. Our auditors included a "going concern" qualification in their auditors' report for the year ended December 31, 2006. While we raised approximately \$1,300,000 in gross proceeds from the issuance of our debt and equity securities during 2006 and an additional \$1,300,000 in July 2007 from the private placement of our equity securities, such "going concern" qualification may make it more difficult for us to raise funds when needed. Additional equity financings may be dilutive to holders of our Common Stock.

ITEM 3. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of "disclosure controls and procedures" in Rule 13a-14(c).

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING. During the quarter ended June 30, 2007, there have been no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, these controls.
