In addition, on October 24, 2007, the Committee approved the grant of options for the purchase of an aggregate of 53,568 shares of the Company's common stock and granted 3,345 restricted stock units under the 2005 Long-Term Incentive Compensation Plan to other executive officers. All such options and restricted stock units vest at the rate of 25% per year over the 4 years following the grant date. All of such options were granted at an exercise price of \$51.07 per share.

Each option granted to named executive officers and other executive officers will terminate on the earlier of the expiration by its terms on October 24, 2014, or: (i) three months after the employee ceases to be an employee of the Company; or (ii) two years after the employee ceases to be an employee of the Company due to retirement; and in each case can be exercised prior to termination only to the extent shares were vested at the time employment terminated. Restricted stock units represent a fully paid up share in the Company's Common Stock. The units have resale restrictions until the required vesting service period passes. If an employee ceases to be an employee of the Company, all unvested restricted stock units shall stop vesting on the last date of employment. In the event of the death of the employee, any unvested options or restricted stock units would immediately become fully vested, and in the case of options would be exercisable until expiration on October 24, 2014. In the event of the disability of an employee, options and restricted stock units would continue to vest, and in the case of options would be exercisable until expiration on October 24, 2014. In the event of a change of control, any unvested options or restricted stock units would immediately become fully vested.
